Dr. Charles Barkenbus read the following resolution respecting
Dr. R. N. Maxson:

"The staff of the University of Kentucky learned with sorrow
of the unexpected death on November 19, 1943, of their colleague,
Dr. Ralph N. Maxson.

"Dr. Maxson came to the University of Kentucky in 1906, was
made professor of chemistry in 1909, and became head of the Depart-
ment of Chemistry in 1934. He retired from this position in 1942
and again became a professor on the staff of the department.

"With his passing there ended a life long association with the
University. During the thirty-seven years that he labored for the
University he helped shape the lives of numerous students, many of
whom have risen to positions of responsibility and whose accomplish-
ments reflect honor on the man who helped train them. Honest, con-
servative, and with an unique method of expressing himself, he made
a worthy and constructive contribution to the life of the University.

"The University sorrowfully acknowledges its loss and the
University Faculty extends to his family its deepest sympathy."

(Signed) H. H. Downing
 "
 O. T. Koppius
 "
 Charles Barkenbus.

Minutes of the University Faculty - Dec. 13, 1943

The resolution was adopted by the Faculty and the Secretary was instructed to include it in the minutes and to send a copy to Dr. Maxson's family.

The following changes with respect to courses and degrees, recommended by the College of Arts and Sciences, were approved:

1. Mathematics and Astronomy

*5a. College Algebra. 4 quarter hours. A course designed for those students who have had high school algebra but whose preparation is inadequate for a standard course in College Algebra. Prerequisites: Math. and Ast. D or its equivalent as determined by the Department of Mathematics and Astronomy from the University placement tests. The course will carry 2 quarter hours' credit for students who have presented $1\frac{1}{2}$ or more units of algebra for entrance.

*5b. College Algebra. 4 quarter hours. A continuation of 5a. The course will carry 3 quarter hours for students who have presented $1\frac{1}{2}$ or more units of algebra for entrance.

*17. College Algebra. 5 quarter hours. The standard course. A review of quadratic equations; includes simultaneous quadratics, variations, permutations and combinations, and theory of equations. Prerequisites: $1\frac{1}{2}$ units high school algebra and an adequate preparation for a standard course in College Algebra, as determined by the Department of Mathematics and Astronomy from the University placement tests, or 1 unit high school algebra and an adequate knowledge of the fundamental mathematical operations as determined by the department from the University placement tests.

Note: - Change in prerequisites only.

2. Romance Languages

10a and 10b. Spanish Conversation and Reading. Credit to be changed from 3 to 4 quarter hours each. Prerequisite, two years of grammar and reading.

10c. Spanish Conversation and Reading. Continuation of 10b. 4 quarter hours.

Note: - A new course.

3. Sociology

27. Religion and Culture. 4 quarter hours. Open to sophomores who have had an introductory course in sociology and to all upper division students, without prerequisites. This course

Minutes of the University Faculty - Dec. 13, 1943

offers a functional approach to the understanding of religion as a form of social behavior. Cultural sources of religious ideas and practices are traced, and special attention is given to such topics as the following: the church as a social institution, ceremonials as social symbols, secularization and trends in the mutual relations of religion and culture. A course to be offered this year by Dr. W. C. Bower, Professor Emeritus of the University of Chicago, without cost to the University.

Recommended change in the action of the Board of Trustees of June 19, 1942, regarding the degree of Bachelor of Science in Library Science:

The degree of Bachelor of Science in Library Science will be granted by the College of Arts and Sciences to students who satisfactorily complete the one-year professional curriculum in Library Science following a bachelor's degree.

The former recommendation was an error in that it involved the granting of the degree to students registered in the Graduate School.

The following course changes, recommended by the College of Education were approved:

That Education 204, Redirecting Educational Efforts and Resources to Meet War Conditions, 4 quarter hours, be changed to Education 204, Redirecting Educational Efforts and Resources to Meet New Conditions, 4 quarter hours, and that the course description be changed to read as follows:

The public school and its responsibilities. The course gives particular attention to changing emphases in education resulting from changes in the social and economic order.

That Education 226a-d, Problems of the Secondary School Curriculum, 4 quarter hours each, now authorized for summer session only, be authorized for the other three quarters of the year.

That Education 239, The Administration of Public Schools in Relation to Other Agencies, 4 quarter hours, now authorized for summer session only be authorized for the other three quarters of the year.

President Donovan requested the Faculty to make nominations to fill a vacancy in the advisory council on athletics. He stated that the Faculty was required to nominate one person from each college. From these nominations the President of the University makes the appointment. The following persons were nominated:

Minutes of the University Faculty - Dec. 13, 1943

Arts and Sciences - H. H. Downing
 Agriculture and Home Economics - D. G. Steele
 Engineering - E. A. Bureau
 Law - Roy Moreland
 Education - M. E. Ligon
 Commerce - W. E. Beals

Subsequently, M. E. Ligon was named to the Athletic Council by President Donovan.

The Faculty continued its discussion of the Report of the Committee on the Lower Division Program of the University. Dr. White, as Chairman of the Committee, called upon members of the Committee to answer the following questions which had been raised by various members of the University Faculty and Staff:

1. What educational planning facilities would the proposed college make available that are not now available? M. M. White.
2. What advantage is found in the plan of having all students in the freshman year in the University College? L. J. Horlacher.
3. Would not all students (freshmen) be required to transfer or accept a terminal curriculum? Roy Moreland.
4. With reference to the dean's powers (page 8) doesn't the advisory committee afford the dean an alibi for all failures? L. M. Chamberlain.
5. It is said that "knowledge of certain basic areas of subject matter is needed by all students". Specifically, what are these (basic areas) courses which shall be required of all students? Maurice Seay.
6. Would the committee submit an example of the two-year terminal curriculum not with the idea of getting approval of the particular curriculum, but to clarify the faculty's thinking with respect to the nature and objectives of such plan? A. J. Lawrence.
7. How much would the new college cost the University? L. J. Horlacher.
8. Does the adoption of this report mean survey courses? J. S. Horine.

No action on the committee's report was taken.
