OFFICERS OF THE ASSOCIATION

Alumni Representatives on Board of Trustees

PHILIP P. JOHNSON, JR., Lexington, Ky.
J. I. LYLE, New York City.
W. H. GRADY, Louisville, Ky.

GENERAL ASSOCIATION

MRS. CHAS. J. SMITH, President, Lexington, Ky.
HERBERT GRAHAM, Vice-President, Frankfort, Ky.
S. B. MARKS, Secretary-Treasurer, Lexington, Ky.
S. B. MARKS, Editor, The Alumnus, Lexington, Ky.

EXECUTIVE COMMITTEE

W. E. FREEMAN, Chairman, Lexington, Ky.
FRANK BATTLE, Lexington, Ky.
E. B. WEBB, Lexington, Ky.
LULA LOGAN, Lexington, Ky.
T. T. JONES, Lexington, Ky.
GEORGE BROCK, London, Ky.

CLASS SECRETARIES

1919—C. E. PLANCK, Lexington Herald, Lexington, Ky.
1918—
1917—
1916—ELSIE HELLER, Y. M. C. A., Richmond, Va., and L. H. NELSON,
Dept. of Agri., Raleigh, N. C.
1915—CLYDE TAYLOR.
1914—R. C. DABNEY, Miller Rubber Company, Akron, Ohio.
1913—MABEL POLLITT, University of Kentucky, Lexington, Ky.
1912—J. R. DUNCAN, H. W. Johns-Manville Company, New York City.
1911—OLLIE CRUICKSHANK, Lexington, Ky.
1910—D. V. TERRELL, University of Kentucky, Lexington, Ky.
1909—P. L. BLUMENTHAL, Babcock-Blumenthal Laboratories, Lack-
awana, N. Y.
1908—FRANK BATTLE, Lexington, Ky.
1907—L. E. HILLENMEYER, Lexington, Ky.
1906—ANNA WALLIS, 326 Aylesford Place, Lexington, Ky.
1905—HARRY EDWARDS, R. F. D., Lexington, Ky.
1904—W. E. FREEMAN, University of Kentucky, Lexington, Ky.
1903—MARGUERITE McLAUGHLIN, 226 E. Maxwell St., Lexington, Ky.
1902—T. J. BARR, University of Kentucky, Lexington, Ky.
1901—G. H. HALLEY, Cleary-White Construction Co., Chicago, Ill.
1900—L. K. FRANKEL, University of Kentucky, Lexington, Ky.
1899—GEORGE ROBERTS, Experiment Station, Lexington, Ky.
1898—CHAS. L. STRAUS, Lexington, Ky.
1897—MARY E. CLARKE, Lexington, Ky.
1896—J. I. LYLE, 39 Cortlandt St., New York City.
1895—MARY L. DIDLAKE, Experiment Station, Lexington, Ky.
1894—MRS. P. F. KESHEIMER, Madison Place, Lexington, Ky.
1893—D. S. ROBERTS, West Point, Ky.
1892 and 1891—(To be selected.)
1890—CHAS. R. BROCK, Denver, Colorado.
1889 to 1869—A. M. PETER, Experiment Station, Lexington, Ky.

THE KENTUCKY ALUMNUS

IS PUBLISHED BI-MONTHLY—SEPTEMBER, NOVEMBER, JANUARY, MARCH
MAY AND JULY OF EACH YEAR—BY THE ALUMNI ASSO-
CIATION OF THE UNIVERSITY OF KENTUCKY,
AT LEXINGTON, KENTUCKY.

Entered as second-class matter September 28, 1916, at the post-office at Lexington,
Kentucky, under the Act of March 3, 1879.

THE SUBSCRIPTION PRICE FOR THE KENTUCKY ALUMNUS IS \$1.00 PER
YEAR; TO ALUMNI, INCLUDING DUES TO THE ASSO-
CIATION, \$2.00 PER YEAR.

The Kentucky Alumnus is the official publication of the Alumni Association. It is
issued bi-monthly by the Association under the direction of the Executive Com-
mittee in the interest of the Association and of the University. It therefore
represents the sentiment and policy of the Alumni organization.

The Editor-in-Chief is appointed by the Executive Committee of the Alumni Associa-
tion and the Associate Editors are the Class Secretaries of the various classes and
the Presidents of the Alumni Clubs.

Editorial Comment

A New Editor The editor wishes to express to all loyal sons and daughters thanks for their support to the Association and to the Alumnus, and can only express regret at the fact that all are not so loyal. For the past many years a little body of a few alumni have been looking out for and carrying the Association over the hard spots and we need the help of the whole body right now and need it bad.

At the present writing there are 250 alumni who are registered upon the duty done side of the ledger, truly a pitiful minority, with 2,000 who should be there.

The Sec.-Treas.-Editor job is little but a thankless one, not even enough money to buy firewood for the stove and to have a part time clerk to keep the records in order to say nothing of a stenographer. Such a condition is inexcusable and we do not see where we will arrive, for yours truly can not devote his time nor can anyone else do so indefinitely, and we only took the job in an endeavor to try to stimulate enough interest and collect enough money to put the Secretaryship and Editorship into the hands of a paid and competent person. Could such an end be obtained the Association would amount to something and not before.

These are plain words but they state plain facts.

There will be published elsewhere a blank form for the convenience of anyone who might wish to join the "Contemptible Little Army."

**The New Chairman
of the Board**

Governor Morrow has always taken a keen interest in affairs of the University and we can safely predict a continued and active growth for the University under his guidance.

The Alumnus wishes to congratulate Mr. Morrow upon the personnel of "The Board of Control" for the coming four years. The appointment of such a Board puts the State upon a level never before approached in the management of our institutions.

**The President's
Biennial Report**

Published elsewhere, in part, is this report, which most concisely and emphatically sets forth the needs of the University, and we beg of you to give it your most careful attention.

The advance made at the University since Dr. McVey's presidency stands upon its merits, but one can readily see from his report how the lack of funds for buildings and for administration is holding up this great work.

We of Kentucky or any other State cannot expect to have an institution of front rank when our teachers are paid a bare living wage, for no man can be at his highest efficiency when he must constantly be striving to meet the necessities of everyday life. Let us realize these facts and take steps to meet them for in our educational institutions lie our whole strength as a State and as a nation.

**The Call of the
Government**

One must not be unmindful of the fact that the Government is constantly calling for additional subscriptions to the Thrift Stamp and Treasury Saving Certificates. If the Government did not need this money they would not ask you to buy these securities and it is the duty of all to assist the Government at this and all times of stress from any cause whatsoever.

The Liberty Bond has thoroughly demonstrated to us the value of a first class investment over high or even excessive taxation and if such securities are not bought there is but one answer—TAXES.

**The Metric
System**

There is being conducted through the World Trades Club of San Francisco an extensive campaign for the adoption of the Metric System as the standard of weights and measures of the United States and thus helping to give to the world a much needed standardization. A great many States have gone on record approving such a measure and in a short time we believe it will be a fact and will greatly enhance trade relations between countries.

**The Boy
Scout**

There is no movement which deserves a more hearty endorsement and support than the Scout Movement. To be a scout a boy must, to speak succinctly, be a little man and there is nothing so valuable to a boy as an early schooling in the art of being a man, it teaches him to be independent, to be considerate of others, to love and to understand nature and some of her

mysteries, it puts him on a footing of understanding with his male parent and above all teaches him those things that a boy should be in his relation to his associates and to those with whom he comes in touch.

The boy is the potential manhood of tomorrow and it is the duty of everyone to strive to make this manhood worthy of its inheritance.

**The Needs
of Lille**

We have received from Dr. Henry Van Dyke a letter setting forth the dire state of the city of Lille. We all know what Lille is and what she was before the Hun invasion that tore out her vitals and all but absolutely destroyed her. Now she is asking for funds to re-establish her University and Hospitals. Her needs are great, her requests most modest and your support could be given to no more worthy cause.

Dr. Van Dyke's letter is published in part elsewhere.

**Kappa Alpha
Convention**

One of the most praiseworthy post-war services having occurred in Lexington was the Memorial Service conducted by the Kappa Alpha Fraternity, during their Thirtieth Biennial Convention, in honor of those of their number who had paid the "Supreme Sacrifice" during the late war. The Services were held in Christ Church Cathedral and were a most fit Memorial.

**The Memorial
Building**

The fund for the erection of a Memorial Building upon the Campus is still far from being complete and we urge all alumni to send their subscriptions at the earliest possible time, as such a cause deserves the support of all and we feel sure no alumnus will intentionally lose the opportunity to subscribe to this fund.

GENERAL

DR. McVEY'S BIENNIAL REPORT. (In Part Only.)

The Needs of the University

There is no use disguising the fact that the necessities of the University are great, especially if it is to represent adequately the educational requirements of a spirited people like those that dwell in the Commonwealth of Kentucky. What seemed adequate two years ago for maintenance and construction of buildings for a five year period is now sufficient to keep only the institution up to its present development without additional growth. The University is faced with the care and instruction of a rapidly growing student body, the requirements of better salaries, new buildings and repairs. Since the Legislature met in 1918, a new world has been created. The question is really, how far Kentucky is going to meet the problems created by a changed world. A brief consideration of income and student attendance will show what the University may be expected to face. When and how shall the University take care of its present student body and get ready for the larger attendance of the next ten years?

The matter may be put simply. The University has had no general building appropriations since 1904-1908, when about \$400,000 was appropriated in the four years. At that time, the student body consisted of 412 college students and 293 other students, a total of 705. In 1910, there were 582 college students and 221 other students, a total of 803. The student body began to increase, with the growth of high schools bringing the figures in 1915 to 915 college students, 564 other students, a total of 1,479. In 1818-19, the total college student body reached 1,179, and other students, largely S. A. T. C., 1,156, a total of 2,335. This year, 1919-20, the college student body will be the largest in the history of the University. In seventeen years time, 1900 to 1917, the college students have increased 377 per cent. In the past two years, the increase of the same group has been 23 per cent. Turning now to income. In 1900, the income of the General Fund was \$76,991.34. This arose to \$107,631.03 in 1904. In 1910, the General Fund income was \$132,537.00. It arose to \$220,000 in 1917. By 1924 the University of Kentucky would have no less than 1,600 college students and as many more short course, summer school and other attendants, if the conditions permitted it. This year, not less than 200 students were turned away and as many more did

not come because of uncertainty about board and room and the high prices asked for them. A grave responsibility, in consequence, rests upon the State to meet such a situation and especially so in view of the declining value of the dollar which has reduced the actual value of the income provided two years ago.

(a) What Other States Are Doing

It will be seen that among the southern states, Virginia, West Virginia, Tennessee, North and South Carolina, Mississippi and Texas surpassed Kentucky in the per capita contributions to university support. According to this table, the amount so contributed was 26 cents per capita, placing Kentucky in the forty-first place. As an actual fact, the table gives too large a per capita to Kentucky if extension funds are excluded.

Rank of States as to per capita receipts of higher educational institutions supported by the State, Normal Schools not included. (Bureau of Education Bulletin, 1919, No. 41.)

1. Nevada	\$2.43	26. Massachusetts	\$0.65

19. Vermont	1,511,222	41. Mississippi	536,000
20. Tennessee	1,458,993	42. R. I. State College	485,335
21. Alabama	1,439,318	43. Montana	430,252
22. South Carolina.....	1,425,004	44. New Mexico	250,426

Another table shows the investments made in University plants.

It will be observed that only three southern states have a smaller investment than Kentucky. These are Louisiana, Mississippi and Arkansas. Our neighbors on the north have in Illinois an investment of \$6,556,659; Indiana with Purdue University, where Engineering and Agriculture are taught, an investment of \$4,000,000; Ohio, \$6,296,368. These figures are now outgrown, and should be increased by many hundreds of thousands, while Kentucky's investment has been almost stationary for several years.

(b) Requirements for Agriculture and Engineering

The great need of the University is additional funds because of changed conditions. These funds are required for the payment of better salaries and the increase of departments, particularly in agriculture and engineering. The situation in the College of Agriculture has reached such a point that it can hardly be expected that the teachers in that college can be maintained largely from federal funds. The Experiment Station also should have additional land. The farm of 240 acres is insufficient for the requirements of the University. While some progress has been made in the purchase of livestock, still it is essential that the animals for instructional purposes should be largely increased.

For twenty-five years now the College of Engineering has been getting on with inadequate equipment. Many of the buildings are unsatisfactory, and much of the equipment is obsolete. The college has had the reputation of turning out capable young men. In fact, every man

who has graduated from it in the past several years has found a position waiting for him. The Alumni have reached positions of influence in the industrial world. If it is to continue to hold this reputation, it is essential that considerable sums of money be spent in the purchase of equipment.

(c) Housing of Students

For some time the University has been confronted with the problem of housing students. The erection of Patterson Hall relieved this somewhat in the care of girls, but the increase of their number has now filled that building to overflowing, and forced the University to lease other buildings in the neighborhood. There yet remains other provisions to be made for the young women. With the changing of the old and new dormitories to recitation buildings, the men of the University were left without dormitory provision. These buildings were unsatisfactory, and so impressed were the Probe Committee with their inadequacy, that they recommended the destruction of the buildings. The amount required to make them into dormitories with proper plumbing facilities, would have cost more than they were worth. Consequently, the Trustees thought best to use them with some repairs, for much needed recitation buildings. The City of Lexington has been able to take care of the boys thus far, and many of the people have opened their homes to them, but this year the situation has become much more difficult, due to the increase in the number of students and the high prices being asked for rooms. It is hoped that the Legislature will be able to see the importance of this matter and make provision for the housing of students.

(d) Matter of Salaries

The payment of adequate salaries is always fundamental in the development of a faculty. The increase in the cost of living has made this more important than ever before, and the University has begun to feel the effect of it. The War has made a great demand for trained men, and the result has been that the University of Kentucky, like other institutions, has suffered a good deal in the withdrawal of men into commercial activities. The salaries paid in business are higher than those in the University, and this situation is likely to become more acute, unless something is done in the matter of the payment of salaries. It cannot be urged too strongly that the men of a faculty make a University. Kentucky must have the best men attainable for her youth. She cannot be satisfied with any less. To bring such men to the State will require greater expenditures for salaries. Besides the problem of recruiting the staff is the additional one of paying adequate salaries to the men already on the faculties. Something must be done to increase salaries which now stand at an average of \$2,500 for full professors and \$1,800 for assistant professors.

(e) Other Needs

Reference has already been made to housing facilities for the students. If some start could be made upon the matter, so that dormitories

might be built, this part of the difficulty with which the University is confronted could be fairly met.

Another need of the University is new buildings for instruction purposes. The Chemistry Department is housed in two buildings; one of them very old, and the other inadequate. Chemistry has a new importance in America since the War. Formerly, we depended upon Germany for many chemical products. That way is no longer open. The University must be prepared to train men in this great field. The equipment is insufficient to do it adequately, while the housing of the department in two buildings handicaps the efforts of the departmental staff to get results. Our State has a vast coal area that is now undergoing rapid development. The University has been in close touch with the industry for many years, but it should render more assistance to the growth. Hence larger facilities should be provided for instruction in mining engineering, so that Kentucky's young men may be trained at the University to take part in the coal and oil industries.

The volumes in the Library are not sufficient for the needs of the University, nor are the provisions for student readers adequate for the number of students required of it. Not more than seventy-five students can be accommodated at one time in the reading rooms.

There is also need for a farm mechanics building; for a home economics building; for dormitories, commons building, engineering shops, a woman's gymnasium and a central heating plant. These are important needs, and it would appear, therefore, that some adequate program of construction should be worked out in the University if we are to meet the demands made upon it now.

These building needs may be grouped under the following heads:

1. Welfare Buildings—

- (a) Dormitories for men;
- (b) A dormitory for women;
- (c) A commons building in which board may be provided;
- (d) A woman's gymnasium;
- (e) Hospital and dispensary for students;
- (f) A central heating plant.

2. Instruction and Laboratory Buildings—

- (a) Addition to Chemistry Building;
- (b) Domestic Science Building;
- (c) Agricultural Building;
- (d) Engineering Shops;
- (e) A Farm Mechanics Building;
- (f) An addition to Library Building.

The time has come to look ahead with the purpose of planning for the future. To erect an occasional building without having in mind the present needs and future requirements, is not getting at the problem. Provisions for construction over a period of years will lessen the burden and make wise provisions a possibility. Under the next heading, a plan is suggested for the consideration of the Legislature.

Legislative Requests

It becomes necessary to formulate the needs of the University in specific form. The Legislature will, therefore, be asked to consider the following matters:

1. The appropriation to meet the general funds granted to the State for Agricultural Extension under the Smith-Lever bill. The amounts so appropriated must be met dollar for dollar by the State. The sum now required reaches its maximum point in the next two years, and to continue to enjoy the advantages of federal aid, it will be necessary to appropriate \$106,000 for 1921, and \$126,000 in 1922.

2. A building program.—The University is now at the end of its resources in the matter of buildings. There is need of dormitories for men and women, agricultural buildings, equipment and other provisions of a permanent character. These cannot be met without an adequate program. After serious consideration of the situation, the Board of Trustees are of the opinion that an annual appropriation to erect buildings and purchase equipment running for a period of years, is the only adequate way to meet the situation. A sum of \$300,000 annually for five years would do much to bring the University to a modern basis.

3. The general income will not increase rapidly, but the needs of the Colleges of Agriculture and Engineering must be met very soon. This cannot be done out of present income. It is, therefore, essential that annual appropriation of \$100,000 be made in order to meet the requirements of these two colleges. Kentucky is a great agricultural state, and under present conditions the college cannot meet the enlarged instruction that should be carried on. Engineering in these days is based upon up-to-date machinery and equipment. Of these, the University practically has none.

4. The salary matter.—If the General Fund is relieved from the charges of equipment and buildings now expected of it, the matter of adequate salaries can be taken care of for the present.

Undoubtedly these requests will appear large, but the requirements of higher education in this State have never been adequately met. To maintain a University, requires funds, but to build it up to a modern institution compels large amounts. The War has shown it to be worth while, and the State is not going to look complacently at the spectacle of other states furnishing their sons and daughters with the best in education, while Kentucky lags behind. The year 1920 marks the date whether the University of Kentucky goes forward or remains in the rear of the procession.

GREETINGS FROM OUR PRESIDENT.

A Happy New Year to each and every one of the Alumni. May 1920 be the best year for as we Kentuckians phrase it, for "you all."

I am sure we enter upon the year with a larger vision and a greater sense of opportunity than ever before. We have been amazed in the past few months at the magnitude of the projects undertaken, the great sums promised for various philanthropic, religious and educational enterprises. Almost all of the large universities and colleges of the country are presenting some program and asking for material increase in their endowments or working funds. Harvard is asking for \$14,000,000 endowment to enable her to raise the salaries of her professors. Our neighbor, Transylvania, expects to receive about two millions from her Alumni and friends in the next few years. Let us not forget the hand that made us. Our Alma Mater has not made large demands upon us. Her idea of the memorial to Kentucky's sons fallen in the war was the first of its kind put forth in Kentucky. It has received enthusiastic support, but there is much yet to be done. If every alumnus would do his utmost, the goal would be easily reached. Here is a definite enterprise for us to engage in, a task to test our mettle. Perhaps we might regard it as an alarm that might arouse some of our slumbering members. It is undoubtedly true that fully half of the graduates of the University of Kentucky are asleep—they have surely not awakened to their duty and to the opportunities offered to them. It is sad to contemplate the fact that only a third or a fourth of all those who have received their equipment for life at our University will send in their yearly dues of two dollars, and as for service—it is quite beyond the limits of possibility.

Our memorial building offers then our largest opportunity. The scholarship funds come next. This year of all others they are sorely needed. When the students came to Lexington in the fall, many of them with the money they had earned themselves to pay their expenses for the year, they found a difficult state of affairs. Room rent was almost doubled. Board was much higher. Many boys have found themselves before Christmas with the sum used up they had counted upon to take them through the year. They have had to borrow enough to carry them through this semester and will have to leave the University and go to work in the spring. Every loan has been put to work and the treasury is empty. So if you are raising class funds, try to complete yours and send it along. A questionnaire sent out by the Faculty Loan Committee shows that a very large per cent of the students at the University of Kentucky earn all or part of their expenses. "Heaven helps those who help themselves," so let's emulate the example set us.

This 1920 is a legislative year. Since the last legislature much has been done, our buildings and campus show great improvement; but much remains to be accomplished, and if we are to live up to the beginnings we have made we must have enlarged resources. Sometimes we feel we

are like Alice, running as fast as we can just to stand still. So when and where we can let us get behind the legislative program, and work for larger opportunities.

Finally—be members of the Alumni Association and resolve in this New Year to render service, real true service to your Alma Mater. We know that we erect the visible buildings on foundations of brick and stone, but a University really is builded on the love and loyalty in the hearts of her Alumni. Let us be ready to meet the enlarged opportunities, the wider horizons of the new day.

THE WOMEN AT THE UNIVERSITY.

Mrs. Charles W. Smith.

The year 1919-1920 has seen so far the high water mark of the enrollment of the women at the University. The possibility of the feminine element becoming predominant as we hear occasionally feared, is an extremely remote one. Women in Kentucky are not yet awake to the necessity of higher education; but slowly they are beginning to realize what is offered right here at home, and in the next few years we believe the attendance will be at least doubled. If we look over the enrollments in the universities of our neighboring States, we believe we are prophesying right. South Carolina, for instance, has over a thousand women students in her two state institutions.

Just at present conditions are not very favorable for a large and rapid growth. The women are now regarded as rather the favored children of the University because they have a dormitory and the men have none. They are, however, a favored FEW. Patterson Hall has stretched its walls to their limits this year. Three new "Pullman rooms" were built—just a corridor end shut off by a partition, literally three by six affairs; in several rooms three girls are crowded, yet the limit of its accommodations is one hundred and twenty women. On Maxwell Hall, a house at the rear of the Patterson grounds, the University took a three year lease, this is the second year, and it is safe to foretell that it cannot be again rented at a reasonable price. Maxwell holds twenty-six women. Another house was leased this year at an outrageous rent several blocks away and here there are sixteen girls. All have board in Patterson Hall.

In September after all these places were filled it was found necessary to telegraph several young women not to come as there was no place for them. Rooms outside were not to be had and it is not in accord with the policy of the University to scatter its women students separately, through the city. Where they cannot be placed in the dormitory they should be in groups large enough to maintain student government, and be properly chaperoned. The difficulty of placing young women in rooms cannot be appreciated till it is tried. Men are always preferred by those who rent rooms to students. They are not so much at home and require less in the way of parlors and service. The women students who come

to the University of Kentucky are as a rule young and immature. They need to be placed where by wise guidance, a proper balance can be maintained between the social and academic side of college life, and ideals of study upheld. This can be done best in dormitories. Patterson Hall is a very attractive college home for young women, but it is no longer in any measure equal to the University's present needs. We need a new dormitory and need it at once. A second unit for one hundred women could be filled by next fall but of course we cannot hope for one so soon. But the adequate housing of the women students should be a matter of concern to all alumni and should be urged upon this present legislature.

THE KENTUCKY MEMORIAL BUILDING.

W. E. Freeman.

After all expenses to date have been deducted there is now on hand, in cash and pledges to the Kentucky Memorial Building Fund, something over \$155,000. Those who have the work in charge are continuing their efforts to raise the full \$300,000 that is needed to erect an appropriate building of which everyone in any way connected with it may feel proud.

Every alumnus should do what he can to help this project, so that whenever he may visit the campus of his alma mater and view this building, he may feel that just pride that will be the right of every one who has assisted in any way with its erection.

THIRTIETH BIENNIAL CONVENTION OF KAPPA ALPHA.

Samuel B. Walton.

The Thirtieth Biennial Convention Kappa Alpha Order met in Lexington December 29th, 30th and 31st. It was attended by delegates from every Chapter in the South and a large number of Kappa Alphas' from every State, principally from Kentucky. Over two hundred attended the Convention besides the delegates and many old State men were back to renew acquaintance.

"Red" Prewitt, Harry Edwards, Forest and Frank Ripy, Pelham Johnson, Dick and John Stoll and many old State men were back to add their charming personalities to make the Convention a success.

The smoker, banquet, dance and the memorial service for those who were lost in the War, were outstanding features of the Convention. Sixty-five Kappa Alphas' made the supreme sacrifice in the great War.

The Convention was enjoyed to the fullest extent and those who were not present were wished for.

A PLEA TO THE ALUMNI OF THE AMERICAN UNIVERSITIES FOR THE LILLE HOSPITALS AND UNIVERSITY

By Professor Henry Van Dyke.

EXTRACT.

To all Americans who love France I make this plea for help for the suffering city of Lille.

Lille is the centre of the most populous and formerly the most prosperous industrial district of Northern France.

It was a thoroughly French provincial city, you understand and therefore a better index of the French character than Paris, which has been sometimes spoiled by tourists; but at the same time it had the touch of what we fondly call "the American Spirit"—the forward-looking spirit—which made me feel more at home there than in almost any other city of France.

Then what happened? In 1914 the Hunnish hordes descended upon Lille, fierce in their lust of conquest. The city was not defensible from a military point of view, yet it would not surrender, and suffered three days heavy bombardment. But something worse was in store for it. Lille knew the vilest horrors of German military occupation.

Of 157 factories working in 1914 only seven or eight are now in operation; the others are still in their gutted condition and awaiting machinery from America.

"Nine out of ten children in Lille show signs of tuberculosis," writes Colonel Mygatt of the American Red Cross.

"The Lille children have suffered during four years in a way that American children have never suffered," writes an American woman, Mrs. Duryea. But the hospitals, especially the children's hospitals, are so poor that they cannot always give even codliver oil free. Yet Lille is trying bravely to go on. She has not lost heart, although she has lost almost everything else.

Professor Ernest Dinmet, a distinguished scholar and churchman of France, who represents Yale in Paris and recently was Lowell lecturer in Boston, has come to America to ask aid for the Children's Hospitals connected with the University mentioned above. The sum that he wanted on his arrival was small—a hundred thousand dollars—yet he has worked six months without collecting more than a fraction of it. We Americans have many calls to give for good causes, still we have not yet come to "the bottom of the bag." Our "University drives" must not and shall not fall. But it will help, not hinder their success if we aid a sister University whose endowment perished in the war. Remember that to people who have lost everything the figures published in our press concerning the drives must appear tantalizing.

It is confidently hoped that the Alumni of all the American Universities will respond. Send your contribution, large or small—a dollar keeps a child in hospital for two days—to the editor of this paper or directly to the Lille Fund, care of Henry Clews & Co., Bankers 15 Broad Street, New York. You will like to read it some day, inscribed on the wall of the University of Lille.

In America we believe that France must not die—neither by invasion nor exhaustion. She has bled for the world, but she must not be bled white. The world needs the French Republic. She is our friend. We must help her to stand fast. She is the frontier of freedom. Lille, her northern outpost city, desolate and suffering, has a claim upon our hearts which we cannot deny.

The Lille Fund Committee consists of Marshal Foch, Cardinal Gibbons, Admiral Sims, William Howard Taft, President Nicholas Murray Butler, Henry Van Dyke, and James Byrne. The Committee possesses a rare autograph letter of Marshal Foch, a whole page entirely from his hand, which it will be glad to donate to a responsive American University or College.

REINSTATEMENT OF WAR RISK INSURANCE.

To relieve any confusion that may exist in the minds of former service men on account of the special provision of lapsed War Term Insurance which authorized reinstatement up to December 31, 1919, regardless of date of discharge, announcement is made by Director R. G. Cholmeley-Jones of the Bureau of War Risk Insurance that the provisions for reinstatement of lapsed or canceled insurance, within 18 months from date of discharge, upon payment of only two months' premiums on the amount of insurance to be reinstated, provided the insured is in as good health as at the date of discharge or expiration of the grace period whichever is the later date, and so states in his application, still hold good.

The provision that discharged service men are permitted to reinstate at any time within three calendar months following the month of discharge by merely paying the two months' premiums, without making a formal application or a statement as to health is also still in force.

The provisions for reinstatement do not protect a man until he actually reinstates. If he waits he may not be in as good health as he was at the time of discharge and consequently may not be able to secure reinstatement.

Don't put off reinstatement. Do it now!

Director R. G. Cholmeley-Jones of the Bureau of War Risk Insurance announced today that misleading and incorrect statements relative to the permanency of Government Insurance are being circulated by individuals apparently engaged in attempted "twisting" of insurance. A specific

and typical report received by the Director was to the effect that some of these individuals had boarded a naval vessel at Philadelphia and had told the sailors that Government Insurance would not be good after five years.

"Government Life Insurance for veterans of the great war is a permanent proposition," said Director Cholmeley-Jones. "Misleading statements have been made to the effect that Government Insurance will cease at the end of five years after the war, or that it will be turned over to private companies. Such statements are absolutely false and without foundation. There is, however, a requirement that the temporary term insurance held during the war which increased in cost from year to year, be changed or converted into one of the six permanent forms of Government Life Insurance (ordinary life, 20-payment life, 30-payment life, 20-year endowment, 30-year endowment, or endowment at age 62) within five years after the formal declaration of peace by proclamation of the President, if the insured desires to continue to be protected. This permanent insurance does not increase in premium cost as the insured grows older.

"Improper conduct by the individuals I have referred to is in direct opposition to the attitude of the great life insurance companies, which is embraced in a statement by the secretary of one of the large companies, who recently said:

"Of course, a life insurance company cannot grant insurance at less than cost, but the Government offers insurance to soldiers and sailors at less than it would cost the Government to grant that insurance (that is because the Government bears all expenses of management, etc.). The Government is justified in this liberality in consideration of the fact that these soldiers and sailors have risked their lives, or have been willing to risk their lives, for the benefit of the Nation. All this being so, it is obviously expedient for soldiers and sailors to take all the insurance offered by the Government at the low rate charged."

"The company whose secretary made the above statement has instructed all its agents to refuse to take applications from soldiers and sailors until they have taken the full amount of the new Government Insurance to which they are entitled."

"LITTLE THEATRE" FULLY EQUIPPED PLAYHOUSE FOR UNIVERSITY STUDENTS.

The long looked for Laboratory Theatre in the Old Dormitory, to be known as White Hall, will be ready for occupancy next week.

The stage of the University playhouse, which has been constructed under the direction of Mr. A. O. Whipple, superintendent of buildings and grounds, and Professor E. C. Mabie, is 31 feet by 14 feet. The proscenium arch opening is 18 feet wide and 8½ feet high. The stage is equipped for

all necessary lighting effects. This equipment of the theatre includes foot lights, strip lights, a well arranged panel board and an interlocking dimmer. Sets for the plays will be constructed by the workers. Adjoining the theatre are two small rooms which will be used for property, dressing room and office purposes.

The auditorium is finished attractively in tan with woodwork of dark oak. The curtain will be golden brown in color. The auditorium will seat 112 persons at each performance. Each bill of one-act plays will have a "run" of several performances.

The Laboratory Theatre, from the point of view of the University, will be the laboratory home of the class in dramatic art which has already been organized. The aim of the Department of English is to build a course in dramatic art and literature, public speaking and interpretative reading which will give a well rounded and practical training to students who wish to specialize in this field, and to prepare themselves for the teaching of these subjects or for work in community and university theatres.

U. OF K. NOW ACCEPTED FOR GRADUATE WORK.

President McVey returned Sunday from Chicago, where he attended the convention of the National Association of State Universities, held November 10 and 11.

Important problems affecting state universities were discussed. The problems of co-operation between American universities and exchange with foreign universities, the problems relative to military education and changes in economic conditions as they affect both legislative programs and university salaries were discussed.

The election of officers was held and Dr. McVey was re-elected secretary and treasurer and placed on two standing committees, those of Re-organization of Education and University Inter-Communication.

While in Chicago, Dr. McVey attended two other conventions, the American Association of Agricultural Colleges and Experiment Stations, also the meeting of the presidents of Southern Universities and State Superintendents of Public Instruction with the representatives of the General Education Board.

Dr. McVey reports a fact that will be of great interest to Kentuckians in reference to the status of the University of Kentucky. The National Association of State Universities has placed the University of Kentucky on the list of universities as acceptable for graduate work. Of the 600 universities in the United States, there are only 130 in this classification.

GREAT FIND CREDITED TO UNIVERSITY MEN.

Professor C. R. Crosby, authority on spiders at Cornell University, reports a rare spider captured by W. D. Funkhouser and Grover H. Creech of the University of Kentucky.

Several specimens of the spider were found in a shallow cave on Pine Mountain near Pineville, Ky., last summer and are the first of their kind recorded for Kentucky.

Very little is known by scientists of this spider, its web or its habits, and Professor Crosby pronounces its discovery "a great find."

ADVISORY COMMITTEE ENTERTAIN STUDENTS.

Every Wednesday afternoon from 3 to 5 o'clock, the University students and faculty may enjoy an informal get-together, drink tea and eat small cakes or wafers at the tea which the Y. M. C. A. Advisory Committee of the Faculty Woman's Club has planned to give in the "Y" rooms of Alumni Hall every week during the year.

The Advisory Committee has made the rooms most attractive by the addition of potted plants and ferns and by putting fresh white curtains and cretonne draperies at the windows.

Last Wednesday, at the second tea, Miss Jewell, assisted by Mesdames Tigert, Vaughn, Mabie, Hawkins and Patrick, entertained during the afternoon about 200 students and faculty. Mrs. Erle Vaughn rendered three vocal solos, "The Land of the Sky and Blue Waters," "A Little Bit of Heaven" and "Every Kiss is a Song."

The students who acted as assistant hostess were: Lucille Moore, Julia Willis, Lillie Cromwell, Anna Mae Dawson, Virginia Griffith, Eugenia Young, Elizabeth Cook, Margaret Ford, Elizabeth Yarbo and Roberta Thornton.

LECTURE COURSE IN BLUE GRASS TOWNS.

A series of lectures will be given in Mt. Sterling during the next few months by members of the faculty of the University. The program has been arranged through the co-operation of the University Extension Department and the Woman's History Club of Mt. Sterling.

Maysville, under the auspices of the Maysville Community Club, will have the same course of lectures this winter.

"The Trend of the Times," Edward Tuthill, Ph. D., head of the department of history, on the night of Friday, December 12, 1919.

"Southern Poets," J. T. C. Noe, A. M., Litt. D., head of the department of education, on Saturday afternoon, January 17, 1920.

"Foundations of Industrial Peace," Edward Wiest, Ph. D., head of the department of economics and sociology, on the afternoon of Saturday, February 21, 1920.

"An Educational Program," Frank L. McVey, Ph. D., LL. D., on the night of Friday, March 19, 1920.

"What is Education?" J. T. C. Noe, A. M., Litt. D., head of the department of education, on the afternoon of Saturday, April 17, 1920.

"The Deficiency of Our School System," J. J. Tigert, A. M. (Oxon.), head of the department of psychology, on the afternoon of Saturday, May 22, 1920.

"Social Functions of Religion," Paul P. Boyd, Ph. D., dean of the College of Arts and Science, on the night of Friday, June 18, 1920.

EXTENSION DIVISION DISTRIBUTES EDUCATIONAL FILMS.

The Extension Division of the University has been officially designated as the distributing center for Kentucky for educational films sent out by the United States Bureau of Education and the first shipment is already on the way here. As soon as the films arrive a program will be worked out and a motion picture circuit among High Schools of the State will be formed. A campaign will also be started to promote the use of motion picture machines in the schools of the State.

Student Activities

ATHLETICS

By S. A. BOWLES, Physical Director.

FOOT BALL.

1919 FOOT BALL SCORES.

Kentucky 12	Georgetown College 0.
" 0	Indiana University 24.
" 0	Ohio State University 49.
" 6	Sewanee 0.
" 0	Vanderbilt 0.
" 0	University of Cincinnati 7.
" 0	Centre College 56.
" 13	University of Tennessee 0.

The past season of football was a series of upsets all over the country and the University of Kentucky team was no exception to that rule. With the hardest schedule ever attempted by a Kentucky team and with what seemed to be a great amount of good material the 1919 team played great football in certain games and let down just as consistently in others. The most consistent factor throughout the season was the wet weather. Every Saturday seemed to be the climax for rain and mud.

Taking up the schedule that the team played game by game would be a long and wearisome account and would not bring out anything not already known to all. It will be sufficient to look back at the games on that schedule and point out some of the most interesting achievements.

In past years it has been the custom to play a great many games with small teams and to have only one or two games with the larger institutions. This season the reverse was tried. There was not an easy game on the schedule. One Ohio Conference team, five Southern Intercollegiate teams, and two Western Conference teams. These teams represented the best in their respective associations. In the S. I. A. A. we played Georgetown, Centre, Vanderbilt, Sewanee and Tennessee; in the Western Conference we played Indiana and Ohio State University. These teams are always leaders in the associations to which they belong and this year they were exceptionally strong teams.

At the beginning of the season more letter men returned than ever before in the history of football at Kentucky. This was due to the fact that the war had closed and a great many who had left college and entered

the service had returned to complete their work at the University. There was also a great many of the best high school players in the State. It was hoped that from this material a stronger team would be built than any that had represented the University in years. But a great many injuries placed several of the best men out of the most important games and thereby teamwork which is so essential was greatly impaired.

If a prophet could have foreseen a few years ago that the University of Kentucky would play Sewanee, Vanderbilt and Tennessee, and not lose a game, it would have been proclaimed the greatest season in the history of football at the University. This very fact occurred this past season and a great many thought the season a failure. Yet when we take into account the difficult schedule, the strength of the teams played, and the fact that Kentucky was handicapped by injuries to some of the best players in the hardest games, it marks a distinctive advance at the University. Sewanee was defeated for the first time, Vanderbilt was tied for the first time. These games won lasting renown for the 1919 team. Other teams had played these teams time after time but never before had Sewanee been defeated or Vanderbilt held back from winning.

The future is bright with expectancy. The 1920 team promises much to the lovers of the fall sport. There will be a great amount of splendid material on hand. Only one or two will be lost by graduation. In addition there were a great many players developed through the class football teams. All these added to several of the best high school players who will enter next fall and it gives promise of a season second to none in the records of the Institution.

Let all the loyal supporters of Kentucky unite in word and deed for the advancement of all the best interests of the University. Let no anvil chorus be heard in the land, but with helpful suggestions and earnest effort let all push forward to better things.

BASKET BALL.

The following Basket Ball schedule has been arranged:

- January 17—Cincinnati at Cincinnati.
- January 23—Maryville College at Lexington.
- January 24—Kentucky Wesleyan at Winchester.
- January 31—Georgetown College at Lexington.
- February 6 and 7—Tennessee at Lexington.
- February 14—Centre at Danville.
- February 17—Georgetown at Georgetown.
- February 21—Kentucky Wesleyan at Lexington.
- February 25—University of Chattanooga at Chattanooga.
- February 26 and 27—University of Tennessee at Knoxville.
- March 3—University of Chattanooga at Lexington.
- March 6—Centre College at Lexington.

The Wildcats have been practicing since football season and they are out to win the State championship. Several Letter men are back

and a number of good High School players are out for the team. Mr. George Buchheit, star athlete from the University of Illinois, is coaching the team. Mr. Buchheit played on the Foot Ball team, Basket Ball team and Track team at Illinois. He understands the system of Coach Ralph Jones, one of the best Basket Ball coaches in the Western Conference.

HIGH SCHOOL BASKET BALL TOURNAMENT.

The Kentucky High School Athletic Association will hold its annual Tournament at the University of Kentucky March 12 and 13. A letter has been sent to all the High Schools of the State in regard to the Tournament and a number of schools have indicated that their team will be present to take part in the Tournament. The University of Kentucky will furnish local entertainment for eight players and coach and will present the winning team with a silver cup.

"K" MEN AND WOMEN ORGANIZE FRIDAY.

A meeting of all the letter men and women of the University was held Friday afternoon, December 5, in Chapel, for the purpose of re-organizing the University "K" Association. Thirty men and women who have won letters in Kentucky athletics were present at the meeting.

Eger Murphree was elected president of the organization, Lily Cromwell, vice-president and Patrick Campbell, secretary-treasurer. A committee, composed of Messrs. Campbell, Lavin and Thompson, were appointed to draft a constitution for the organization. Every effort will be made to improve the athletics of the institution and to secure winning teams in all branches of collegiate sport.

OLD "K" MEN UNITE FOR COMPACT ORGANIZATION.

A meeting of all the old "K" men of the University of Kentucky was held Thursday morning, November 27, at the Phoenix Hotel. Eighteen "has-beens" in Kentucky athletics, and especially of Kentucky football teams of the past, answered the call of Athletic Director S. A. Boles, of the University of Kentucky promptly at 10:30 o'clock.

R. C. Stoll was elected temporary chairman of the meeting and Dr. E. Cronley Elliott, secretary. The chairman announced that the purpose of the meeting was to perfect a permanent organization to be known as the "K Association," which would include as members all alumni of the University of Kentucky who wore the coveted "K" for participation in any of the athletics of the institution. The duties of the Association would be, he said, to assist in any way possible the advancement of clean athletics in the University and to see that their Alma Mater took her proper place in the realm of collegiate sports. It was explained that the Association would not be an inactive organization, but would be a live, energetic, loyal machine which would work in perfect harmony with the faculty,

coaching staff and students of the University and would help materially in making winning teams in the future.

The actual forming of this Association was left in the hands of a committee of three, Messrs. Wallace Muir, S. A. Boles and Cronley Elliott, who will submit their plans to the members at a meeting to be held soon. One of the suggestions offered to the committee was that an Athletic Committee composed of an equal number of representatives from the faculty, the Alumni and the student body perform the duties of an Advisory Board for the sports of the institution.

FRATERNITIES

DELTA CHI.

The Kentucky Chapter celebrated "Founder's Day" October 30th, with a banquet at the Phoenix Hotel. Plates were laid for thirty guests and many Alumni attended.

The History of the Fraternity was related by Mr. Owen Reynolds, who had recently returned from the National Convention held at Minneapolis.

The Chapter announces with great regret the death of Ury Gorman Ward, a member of the Senior Class in Law and Executive Officer of the Chapter.

ALPHA DELTA SIGMA PLEDGES FIVE SENIORS.

James Dixon, A. Gavin Norment, Harry Cottrell, William Soward and Emery Frazier were pledged to Alpha Delta Sigma, the men's honorary journalistic fraternity, Tuesday morning. This fraternity was formed in the University in 1912, for the purpose of promoting highest ideals of journalism among men students and now contains an active membership of seven men, Professor Enoch Grehan, Jassie Tapp, Donald Dinning, Ed Parker, Bob Raible, J. P. Barnes and Herndon Evans.

A. Gavin Norment, Henderson, is editor-in-chief of The Kernel at the present time and is classified as a special in Arts and Science College. James Dixon, Bowling Green, is a member of the faculty of the English Department, on the staff of The Kernel, and is a senior A. B. William Soward, Maysville, a senior A. B., was especially prominent in the writing of the English Club pageant last year. He is on The Kentuckian staff. Harry Cottrell, a senior in the College of Agriculture, is a member of The Kernel staff, and was selected as assistant chairman in the newly-reorganized Press Association. Cottrell has returned to school this year after two years' service in the army here and overseas. Emery Frazier, a senior Law student, from Lawrenceburg, is especially known in University circles for his Stroller talent. Frazier is also assistant business manager of The Kentuckian, and is a frequent contributor to The Kernel.

ALPHA DELTA SIGMA INITIATES FIVE MEN; "GOATS" SELL WEEK-OLD PAPERS AT PATT. HALL

Five prominent students of the University, who have achieved more or less fame by pushing the pencil over the yellow paper supplied by the Department of Journalism, were initiated into the mysteries of Alpha Delta Sigma, honorary journalistic fraternity, Saturday night. They were Emery Frazier, Harry Cotrell, James Dixon, William Soward and A. Gavin Norment. The goat-riding and other features of the initiation took place at the Alpha Tau Omega fraternity house.

While all the initiates were not enrolled in the Department of Journalism, each has shown marked ability in some line of the newspaper game. Many of them showed a marked aptitude in this line by their sale of week-old papers to the students living in Patterson Hall on the afternoon preceding their initiation. "Special" assignments were given the new men and the stories they turned in would have made Horace Greeley kick over his desk and throw the paper weights through the window.

Later in the collegiate year other students who show unusual ability in the newspaper game will be pledged. At this time the annual banquet also will be given, thus assuring the new newspapermen that they will receive at least one meal after taking up their life work.

Alumni Notes

Mr. Charles R. Brock '90 has recently been elected President of the Denver Bar Association. Mr. Brock has always taken an active interest in the University and the Alumni Association. We know the Denver Bar Association has made a most wise choice.

Dr. Thomas Morgan '86 was on January 16th, '19, elected a Foreign Fellow to the Royal Society of London. This is an honor of most considerable note and we feel proud to boast a member of such an institution.

A book of the title of "Philippine Water Supplies" by G. W. Heise and A. S. Hehrman has just been published. Mr. Behrman is a member of the class of 1913 and has recently returned from France to resume the life of a civilian.

Major Harold Amos, retiring President of the Association has returned from France and has resumed his duties with the Rockefeller Institute for Medical Research.

Dr. Graham Edgar '07 has recently accepted the chair of Chemistry at the University of Virginia. Dr. Edgar was Associate Professor of Chemistry at Virginia from 1910 to 1917.

PROMINENT STUDENTS DOING NOBLE WORK.

Among former widely known students and graduates of the University of the Classes of 1919 and recent years, who are holding prominent positions in foreign fields and who are reported to be successfully located are H. W. Taylor, who has accepted a position as tobacco expert for Ceylon; J. du P. Oosteuzen, who has been promoted to the position of Assistant Chief of the Tobacco and Cotton Division and Manager of the Rustenburg Experiment Station, Union of South Africa; P. Koch, promoted to the position of manager of the Turkish Tobacco Experiment Station, Elsenburf, Union of South Africa.

Graduates and students of journalism who are holding prominent positions on staffs of Lexington dailies, are John Marsh and Wayne Cottingham, on the reportorial and editorial staff of the Lexington Leader, and G. M. Pedley, city editor of the Lexington Herald. Four graduates

of the Class of '19 are holding positions with the Lexington Herald. They are: Eliza M. Piggott, State editor; Thornton Connell, political writer; Frederick M. Jackson, commercial writer; Bessie T. Conkwright, reportorial staff; Ruth Thomas, society editor of the Lexington Herald, and Sigsby Sherwood, former student, are also on the reportorial staff of the Herald.

Captain Herbert Graham, 1916, recently returned from service in France, where he taught the latter days of European occupation in the Department of Journalism in the A. E. F. University, is now connected with the Frankfort State Journal in the news and editorial departments and has recently been assigned to work on the editorial columns of that paper, which is doing with marked ability. Graham was a fellow in journalism in 1917.

* * * * *

William H. Townsend, '12 Law, has recently been appointed Corporation Counsel for the City of Lexington.

* * * * *

Jesse I. Miller, '12 Law, was discharged from the Army January 1, 1920, and remains in Washington as Assistant Solicitor for the Internal Revenue Bureau. Miller entered the Army on September 6, 1917, as a Private, received his first commission as first Lieutenant on January 17, 1918, and was discharged a Major in the Judge Advocate's Department.

Few men in the Army can show a more enviable record than this and the University and Alumni Association is justly proud of it.

MARRIAGES

Logan—Rodes.

The wedding of Miss Katherine McMurchy Logan '14 and Mr. William Rodes '08 was celebrated on Christmas evening at the Maxwell Street Presbyterian church at Lexington, Ky. Both are well known to a large number of the Alumni and we predict a most happy future for them.

* * * * *

Walton—Garman.

Philip Garman '14 and Miss Alice Walton of Brockville, Canada, were married at Brockville June 25, 1919. Mrs. Garman is a graduate of Columbia University and Mr. Garman a son of Prof. and Mrs. Garman of the Experiment Station. At the present Mr. Garman is engaged in research work in Entomology at the Experiment Station at New Haven, Conn.

Cruickshank—Wilson.

Miss Ollie Pierce Cruickshank '11 and Mr. Robert Clyde Wilson were married at Lexington, Ky., on August 2, 1919. They are at home at Wilmington, N. C.

* * * * *

Bean—Byers.

Announcement of the wedding of Miss Ione Bean and Mr. James Elliott Byers '15 at Salt Lake City, Utah, on October 15, 1919, has been received.

* * * * *

Geisel—Harbison.

The marriage of Miss Frances Dudley Geisel to Mr. McClary Harbison '17 took place at Maysville, Ky., on November 19, 1919. Mr. Harbison is in real estate at Lexington.

* * * * *

Kastle—Pratt.

Miss Elizabeth Thane Kastle '17, daughter of the late Dr. J. H. Kastle, was married to Mr. John Scott Boyd Pratt on July 15th, 1919, at Honolulu, Hawaii, where Mrs. Kastle and her daughters have made their home since leaving Kentucky.

BIRTHS

Mr. and Mrs. L. D. McElroy, nee Anna Louise Dean '12, announce the birth of a daughter, Jean Marquese.

* * * * *

Mr. and Mrs. H. T. Watts announce the arrival of Robert Tyler on the 8th of October. Mr. Watts is a member of the class of 1914.

* * * * *

Mr. and Mrs. Fred Garman of Altoona, Penn., announce the birth of their second child Dorothy, on September 2, 1919.

DEATHS

Joseph M. Eyl '19 lost his life by drowning while boating on August 10, 1919.

* * * * *

Miss Lucy S. Fitzhugh, '95, died in Washington recently. She was a daughter of the late Capt. and Mrs. R. H. Fitzhugh. Miss Fitzhugh was a practicing lawyer in Washington and during the war was attached to the war risk bureau.

Lost List

This should be reduced very much at the present time as so many men have returned from the Army.

Anyone having knowledge of the address of any of these persons will confer a great favor upon the editor if they will so notify him.

We would urge upon on all the necessity of reporting any change of address as soon as possible after the change, for it is impossible to have a complete list in any other way.

Dues For The Year 1919-1920

This blank form, (should anyone fail to recognize it), is for the use and convenience of anyone wishing to pay dues.

All you have to do is to fill out the form, write a check stating the purpose thereon, (so no receipt will be necessary), and mail it to S. B. MARKS, Secretary-Treasurer, 164 Market Street, Lexington, Ky.

Now since I have made it so easy I know everyone will pay their dues and if they do I can engage some one to open my mail, so don't let that worry you.

Anyone wishing for any cause to pay back dues, known or secret, may make amount to cover the same.

We thank you! We thank you!! We thank you!!!

THE ALUMNI ASSOCIATION, UNIVERSITY OF KENTUCKY, Dr.
164 Market St., Lexington, Ky.

Enclosed please find—

Check.....	\$2.00
