LEXINGTON, KENTUCKY, FRIDAY, JANUARY 9, 1953

NUMBER 14

SGA Will Examine Phone Shortages At Men's Dorms

New Representatives Take Oath Of Office

Lack of telephones in the men's dormitories will be investigated by the Student Government Association as a result of a discussion by the Assembly Monday night. President George Lawson said he will appoint a committee at the next meeting to investigate the matter.

Manoche Ganji, newly elected member to the Assembly, explained that there are only four telephones in the dormitories — three pay phones and one desk phone.

Dean Albert Kirwan, faculty advisor to SGA, said that if a telephone system is put in the men's residence, it will have to be paid by the students living in the dorms. He said the telephone company refuses to put in more pay phones because they are damaged by the students.

Delegates Take Oath Ten new representatives to SGA, elected in last month's election, were given the oath of office by Pete Carter, retiring chairman of the judicial committee. Constitutionals sworn in were Edward Sanderfur, lower classman, Arts and Sciences College; James Hudson, upper classman, Arts and Sciences; Ann O'Rourke, lower classwoman, Arts and Sciences; Joyce Hamrick, upper classwoman, Arts and Sciences; Raymond Jones, lower classman, Commerce College; and Cliff Hagan, man-at-large, Education College.

United Students taking the oath were Edward Johnson, lower classman, Agriculture College; Edward Fuch, upper classman, Agriculture College; Manoche Ganji, upper classman, Engineers College; and Frisby Smith, man-at-large, Graduate School.

George Lawson, president of SGA, congratulated the new members and welcomed them. He explained the functions of SGA.

Work Done by Committees "The major part of the work of SGA is done by committees," he said. "The overall effectiveness is determined by the effectiveness of the committees."

Several of the new members were appointed to various committees. Appointments included: James Hudson, judicial committee; Edward Sanderfur, student directory committee; Ann O'Rourke, committee of student publications; Manoche Ganji, Deward Johnson, Frisby Smith, and Joyce Hamrick, student wages committee.

Addressing the new members, Pete Carter said they will probably be asked about the parking situation on the campus. He explained there is a limited amount of parking on the campus. After faculty members are given permits, the judicial committee gives permits to students based on reasons of health, hardship problems, and commuters.

Explaining fees, he said a fine of one dollar is charged for the first two tickets, two dollars for the second two, and five dollars for all tickets after that. An unregistered car parked on the campus will be fined five dollars also, he said.

McCord Is New Editor Of Kernel

Merrill McCord, former news editor of the Kentucky Kernel, has been appointed to succeed Dick Cherry as editor of the student paper. Cherry submitted his resignation shortly before the Christmas holidays.

The former editor informed the Board of Student Publications in his letter of resignation that "due to the press of school and an outside job it is impossible for me to continue in this capacity and do justice either to the job or to my studies."

This resignation marked the completion of one semester and a summer term as editor of the paper. McCord assumed his duties as editor immediately following Christmas vacation. The new editor, a senior majoring in journalism, is president of the Henry Watterson Press Club. He is a member of Phi Kappa Tau fraternity.

Charles Archer, also a senior majoring in journalism, named news editor for the remainder of the school year. A former Kernel sports writer, he is a member of the Henry Watterson Press Club and is serving his second year as a member of the Kernel staff.

In addition, Dick Krapps was appointed business manager in October, succeeding Jack Gady who enlisted in the Coast Guard.

At the beginning of next semester, Larry Meyer will succeed Tom Esterling as sports editor. Esterling, who graduates this month, has accepted a position with the Pikeville Daily News.

The remainder of the staff is unchanged.

John P. Cash Jr., Stanford, was killed shortly before 4 a.m. Dec. 20 when his car crashed into an abutment on the Leestown Road near the U. S. Public Health Service Hospital. County police said the 21-year-old commerce junior was returning to Lexington from Shelbyville when the accident occurred.

County police also reported three UK students were injured, none seriously, earlier this morning when the car in which they were riding crashed into the rear of another north-bound car about 10 miles from Lexington on the Paris Pike.

Police identified the students as William Yates, Glasgow; Joyce Ferguson, Paris; and Gene Frazier, Paducah. All were taken to the Good Samaritan Hospital but were later released.

In his book, Dr. McCloy analyzes the factors that led to France's inventive activity in the 18th century and discusses the "first inventions" of Frenchmen during the period.

A native of Monticello, Ark., the historian did his undergraduate and master's work at Davidson College. Twice a Rhodes scholar, he received B.Litt. and M.A. degrees from Oxford University. In 1933 Columbia University awarded him a Ph.D. degree.

UK Examinations To Begin Jan. 26

Final UK examinations will begin Monday, Jan. 26, and continue through Friday, Jan. 30. The examination schedule for all colleges except the College of Law is: Monday, 7:30 a.m.—classes which meet first on Monday or Wednesday at 4 p.m.; 9:45—classes which meet first on Tuesday or Thursday at 10 a.m.; 1 p.m.—classes which meet first on Monday or Wednesday at 3 p.m.; Tuesday, 7:30 a.m.—classes which meet first on Monday or Wednesday at 3 p.m.; 9:45 a.m.—classes which meet first on Tuesday or Thursday at 10 a.m.; 1 p.m.—classes which meet first on Monday or Wednesday at 3 p.m.; Wednesday, 7:30 a.m.—classes which meet first on Tuesday or Thursday at 2 p.m.; 9:45 a.m.—classes which meet first on Tuesday or Thursday at 11 a.m.; 1 p.m.—classes which meet first on Monday or Wednesday at 11 a.m.; 3:15—classes which meet first on Tuesday or Thursday at 2 p.m.; Thursday, 7:30 a.m.—classes which meet first on Monday or Wednesday at 12 noon; 9:45 a.m.—classes which meet first on Tuesday or Thursday at 1 p.m.; 3:15 p.m.—classes which meet first on Monday or Wednesday at 12 noon; Friday, 7:30 a.m.—classes which meet first on Monday or Wednesday at 5 p.m.; 9:45 a.m.—classes which meet first on Tuesday or Thursday at 8 a.m.; 1 p.m.—classes which meet first on Monday or Wednesday at 2 p.m.; 3:15 p.m.—classes which meet first on Tuesday or Thursday at 5 p.m.

The examination in any evening class will be held on its regular evening during the examination days. No final examination shall be given before Monday, Jan. 26, except on written approval from the registrar, R. L. Tutthill, University registrar, said this week.

The examination will be resumed Wednesday, Feb. 11.

10,000 Enrollment Expected By 1960

Student enrollment at UK will reach more than 10,000 by 1960, predicts Dr. Richard L. Tutthill, UK registrar, in a report made available to University faculty and staff members.

In the year 1940-50 approximately 165 students were attending colleges in the United States per capita. In 1960 approximately 114 per 10,000 population in Kentucky, Dr. Tutthill pointed out. He added that "it seems safe to assume that by 1960 Kentucky should have attained the national average of 149-50."

According to Dr. Tutthill, only four states rank below Kentucky in college population. They are North Carolina, South Carolina, Mississippi and Maine.

Currently, approximately 23 percent of the students attending Kentucky colleges are enrolled at UK, Dr. Tutthill asserted.

The 41st annual Farm and Home convention at UK will be held Feb. 3 through Feb. 6 on the campus.

The subject of Mr. Craigmiles' speech will be the "Farm Labor Problem." Mr. Cole will talk on "When and How to Invest Money to Improve Farm Income." Another speaker on this same subject will be Mr. Cloyd Hays, Mayfield, secretary of the Jackson Purchase Pro-

duction Credit Association. Henry Brian, Hardin County, will tell how far he has gone in improving land and buildings.

Another speaker will be Mr. Tillman Bubenzer, manager on Conner Prairie Farms, Nobleville, Ind., who will discuss decisions to be made on financing.

A review will be given on the relatively new practice of crop irrigation in relation to the growing of tobacco by farmers who have used this method with notable success. Other phases of tobacco growing, such as curing and marketing, will be discussed. A report will also be presented on curing experiments at the University.

The meeting, to be held the morning of Feb. 4, will close with a tribute given by Mr. S. J. Stokes, Davette County farmer, to the late Dr. W. D. Nichols, for years head of farm management teaching at the University. Dr. A. J. Brown of UK will preside and summarize the proceedings.

Prof. Rex Berestford of Iowa State College will speak on the Economic Production of Livestock. Others on the program will be Mr. L. H. May, Trigg County, and Prof. L. A. Bradford of the University.

Funeral Services Held Wednesday Afternoon For Dr. Frank McVey

Former UK Head Dies On Jan. 4

Funeral services for Dr. Frank LeRon McVey, president emeritus of UK, who died Jan. 4, were conducted Wednesday afternoon at the First Presbyterian Church by the Rev. William T. Kennon and the Rev. Jesse Herrmann. Burial was in Lexington Cemetery.

Dr. McVey had been 83. He was born in 1870.

Dr. McVey, a son of the late Judge Alfred H. and Anna Holmes McVey, was born Nov. 18, 1869, in Wilmington, Ohio.

He was educated in the public schools of Toledo and Des Moines, and in 1893 was graduated from Ohio Wesleyan University. Yale University awarded him a doctor of philosophy degree in economics in 1895. During 1895 and 1896 he was an instructor in history at Columbia University and served as an editorial writer for the New York Times.

From Columbia, Dr. McVey went to the University of Minnesota where he was an instructor and professor of economics until 1907. He became president of the University of North Dakota two years later and he remained there until 1917, when he was named president of UK.

UK Grew Under Dr. McVey During the McVey administration the UK physical plant had an unusual growth as did its scholastic and educational importance. It was during his regime that all graduate work in state-maintained institutions of higher learning was centered at the University.

While Dr. McVey was UK president, 22 new buildings were added to the school's physical plant and 15 acres were added to the main campus. Agriculture education programs under his guidance at 375 acres were added to the experimental farm and subexperiment stations were established at Quicksand and Princeton.

Student enrollment at UK increased from 900 in the fall of 1917 to 3,790 in the fall of 1939. The school's appropriation from the General Assembly increased from \$444,000 in 1917 to more than \$2,000,000 by the time Dr. McVey retired in July, 1940. The University library increased from 22,000 volumes to more than 260,000 during the same period.

Weds. Dean Of Women In 1888, Dr. McVey married Miss Mabel Moore Sawyer of Minneapolis. After her death, he was married in 1923 to Miss Francis Jewell, who had been a member of the University faculty for six years and died of women. Mrs. McVey died June 12, 1948.

Dr. McVey was awarded degrees by the University of Alabama, Ohio Wesleyan University, Transylvania College, Berea College, Rollins College, University of Louisville, and UK.

During his administration at the University, Dr. McVey served as president of the Southeastern Conference, Southern Association of Schools and Colleges, National Association of Land Grant Colleges, National Association of Teachers of College and Universities, and the Trustees of the University of Kentucky.

A central placement service was established at UK by the Board of Trustees at its meeting Dec. 19. The bureau will aid graduating students and desirable jobs and will assist industry, business and government in employing trained personnel.

President H. L. Donovan recommended the service in a statement to the board he cited the fact that in the past no systematic effort had been made to help students "obtain the best jobs possible." He also cited the fact that many other universities maintain such services.

Students who have been selected are: Robert G. Felton, Gerald S. Mayer, Tom C. McKenney, Robert O. Moore, Robert G. Scherer, Robert L. Carter, and Robert L. Maranville.

They will take their oaths of office as Regular Army officers upon graduation from the University.

PRESIDENT EMERITUS FRANK LEROND McVEY

Kinney, Patch To Play In Musicals On Sunday

Gordon Kinney, cellist, and Nathaniel Patch, pianist, with the University String Quartet will present the first Sunday Afternoon Musicals of the new year at 4 p.m. Sunday in Memorial Hall.

He has degrees from Eastman School of Music and the University of South Dakota. Before joining the UK music faculty Mr. Kinney taught at the University of Colorado, Ohio University, and the University of Kansas. He has been a member of the Rochester Philharmonic Orchestra and assistant conductor of the Sioux City Symphony.

The University String Quartet is composed of Dr. Kenneth Wright, first violinist, who is also concertmaster of the University Orchestra; Joseph Pival, second violinist; K-660 member of the quartet who is in the instrumental department of the Lexington Public Schools; Marvin Rabin, violist and director of the Central Kentucky Youth Orchestra; and Mr. Kinney. With the exception of Dr. Pival, the other members of the quartet are members of the University music faculty.

The program will include "Divertimenti" by Haydn and "Sonnata" by Debussy. The second part of the program will include "Intermezzi from 'Goyescas'" by Granados-Casado, "Masques from 'Romeo and Juliet'" by Prokofiev, "Pezes in the form of a Sonata" by Ravel and "Paranetella" by Casella.

Concluding the program will be the "Quartet in C" and "Dissonance" by Mozart.

Dr. Shelby T. McCloy, UK history professor, is the author of a new book entitled "French Inventions of the 18th Century," released Monday by the University of Kentucky Press. He is the author of two other books and a contributor to scholarly journals.

In his book, Dr. McCloy analyzes the factors that led to France's inventive activity in the 18th century and discusses the "first inventions" of Frenchmen during the period.

A native of Monticello, Ark., the historian did his undergraduate and master's work at Davidson College. Twice a Rhodes scholar, he received B.Litt. and M.A. degrees from Oxford University. In 1933 Columbia University awarded him a Ph.D. degree.

Dr. McCloy taught at Robert College, Istanbul, Turkey; Columbia University; and Duke University before coming to UK.

Copies of "French Inventions of the 18th Century" and other books published by the University of Kentucky Press are available from the UK Department of University Extension and from local book stores.

GORDON KINNEY Cellist NATHANIEL PATCH Pianist

Leadership Trophies Exhibited In Armory

Awards to be presented to military students excelling in military science and aptitudes of leadership have been placed on exhibition in Buell Armory.

Contributed by Lexington business and civic organizations, the awards are intended to create incentive among the students enrolled in the Army ROTC program by recognizing outstanding individuals at the end of the academic year.

The awards on display are the Rotary Club Trophy, awarded to the cadet in fourth year military science possessing the highest qualities of citizenship donated by the Lexington Rotary Club; the Herald-Leader Award for the cadet maintaining the highest average on the Army ROTC Rifle Team.

The Purcell Award to the cadet displaying outstanding qualities of leadership in Military Science I; the Benton-McGoodwin Award to the outstanding cadet in Military Science I; the Graves-Cox Award to the cadet maintaining the highest average in the course of study for Military Science IV; The Lafayette Hotel Award to the cadet with the highest average in Military Science III; the Phoenix Hotel Award to the cadet with the highest average in Military Science II; and Baynham's Trophy awarded to the cadet with the highest average in Military Science I.

Teachers' Exam Applications Due

Prospective teachers planning to take the National Teacher Examinations at UK next month are advised that less than two weeks remain for filing applications for the examinations.

Dr. Lydie W. Croft, UK Director of Personnel, said applications must be forwarded to Educational Testing Service, P.O. Box 592, Princeton, N.J., so as to reach the examination office not later than Jan. 16. Application forms and a bulletin of information are available at the University Personnel Office.

Students who are meeting requirements for a degree at the end of the semester and who plan to continue in school must have a new certificate of eligibility in order to re-enroll under Public Law 346. Purges in making applications are available from the University Personnel Office in Room 201-c in the Administration Building.

OOPS!—Paul J. Wright finds it tough walking in the remains of Tuesday's snow and ice. About to appear a helping hand is Bill Williamson. With him is Diane Renaker, who just might be amused about the whole thing.

Many other students found themselves in the same predicament as Paul after the season's first big snow fall this week. icy streets and sidewalks were responsible for a number of minor casualties around the campus.

Seven Cadets Get Citations In UK ROTC

Colonel C. M. Mount Jr., professor of military science and tactics, has announced that seven distinguished military students of the Army ROTC have been selected by the Department of the Army for appointment as commissioned officers in the Regular Army.

To be appointed distinguished military students the cadets must possess outstanding qualities of leadership, high moral character, and definite aptitude for the military service; have accomplished creditably the academic requirements; have sufficient standing in military subjects which will warrant their designation as distinguished military graduates. To be considered for a Regular Army commission a student must be designated a distinguished military graduate.

Students who have been selected are: Robert G. Felton, Gerald S. Mayer, Tom C. McKenney, Robert O. Moore, Robert G. Scherer, Robert L. Carter, and Robert L. Maranville.

They will take their oaths of office as Regular Army officers upon graduation from the University.

Trustees Create Placement Bureau For UK Students

A central placement service was established at UK by the Board of Trustees at its meeting Dec. 19. The bureau will aid graduating students and desirable jobs and will assist industry, business and government in employing trained personnel.

President H. L. Donovan recommended the service in a statement to the board he cited the fact that in the past no systematic effort had been made to help students "obtain the best jobs possible." He also cited the fact that many other universities maintain such services.

Students who have been selected are: Robert G. Felton, Gerald S. Mayer, Tom C. McKenney, Robert O. Moore, Robert G. Scherer, Robert L. Carter, and Robert L. Maranville.

Students Enjoy Opportunities Made Possible By Dr. McVey

Honage was paid this week to Dr. Frank LeRond McVey, the man who gave the state of Kentucky a University. The death of the President Emeritus of the University occurred last Sunday evening.

Dr. McVey was not known to many of the students of the last decade. Boys and girls on the campus now enjoy daily, all unknowingly, numerous values, priceless opportunities, and many comforts which the former president caused to be made.

Many needs on the campus were apparent when Dr. McVey came to Kentucky from North Dakota in 1917. He announced in his first speech to the faculty that it was obvious that a library of sufficient scope and space was a must in the near future.

The Greater Kentucky Campaign which resulted in a fund sufficient to start the football stadium, erect the James K. Patterson monument, build the Alumni Gymnasium, and establish a loan fund of about \$42,000 was the outcome of a plan sponsored by alumni, faculty, and citizens of Kentucky with the approval and advice of President McVey.

He was instrumental in bringing Phi Beta Kappa and Omicron Delta Kappa to the campus. ODK immediately became a great influence and among its projects was a movement to build a student union building. It was a far cry from the sale of tags for games and the sales of flowers to what was required. But when it became possible to obtain Federal Funds, the president requested the approval of the Board of Directors for the investment, and the Student Union was built to answer the many needs for the students and alumni.

The 240 Club, an organization composed of two students from each of the 120 Kentucky counties, was President McVey's idea. It grew out of the expected "after the war increase" of high school graduates in Kentucky, many of whom could be enrolled at UK if some student would inform the prospective students of the opportunities afforded by our state institution.

It was under Dr. McVey's regime that the course of study was increased, new departments started, and the Commerce College and other colleges established. The Graduate School was built up, and the "Old State" took on the title of the University of Kentucky.

We have listed only a few of the many opportunities for our benefit of which this scholarly gentleman dreamed. He welcomed students and faculty to his home and gave them generously of his time and advice. He contributed magnificently of his prestige and ability to the city and the state.

SGA Assembly Should Attempt To Carry Out Party Platform

Another Student Government Association election having just ended, we hope that the two parties do not forget to fulfill their platform promises and allow the planks to lie around to be used again in next spring's elections.

As we have said before, almost all the planks drawn up for last month's election have been standard equipment on the platforms of UK political parties since the beginning of SGA. But we hope that the two parties were earnest in their platforms and did not draw them up simply because it's customary for political parties to have platforms during elections.

Since the parties' promises are for the good of the students and are not controversial, and since the Assembly is almost evenly divided between the two parties, there should be no opposition within the Assembly concerning the measure.

Both parties promised to investigate the telephone facilities in the men's dormitories and barracks, which deserve investigation. The girls have

excellent telephone facilities in their residences, but the poor boys have very little facilities. There are only three pay phones and one desk phone for the four men's dorms and one pay phone and one desk phone for the barracks.

The United Students said they will still try to do something about the age-old problem of parking on the campus. This problem probably is more disgusting to the students than any other. It is evident that something should be done. Since Lexington officials refuse to help matters any, it appears the only solution is to build more parking lots on the campus like the one on Rose Street.

The party also promises to endeavor to raise student wages and to promote a simple book exchange for students. Labor is labor, and student employees should be paid as much as any other workers. Although the administration last year opposed the book exchange idea, we feel a simple exchange can be organized that will be workable.

The constitutionalists said they will attempt to establish a campus bank, but local bankers have already pointed out this is impossible. Besides, students should be able to keep up with their money without the help of a campus bank.

The party also indicated it would investigate the possibilities of student representation on the Student Loan Fund Committee. While they are at it, they might see if some of the money in the fund might be paid to use or added to SGA's budget. At present there is about \$80,000 in the fund and only about \$10,000 of this has been lent out.

The parties must have been wishfully thinking of trying to make their platforms appear great if they think they could accomplish such things as cutting prices in the cafeteria or getting a discount from local merchants on students' purchases.

As for the possibilities of providing portable backseats for the seats in the student section of Memorial Coliseum, we don't believe this matters very much to the student, at least not this year.

Our Editor Resigns With Job Well Done

The staff of the Kernel extends their sincere best wishes to Richard Cherry, former Kernel editor. Dick resigned his post during the Christmas holidays "due to press of business," explaining that he did not feel he could spend sufficient time on the paper because of his other activities. That is easy enough to understand. Not many UK students have the multiple responsibilities of a full-time job, school, and family.

We think Dick was a good editor. We appreciate his honesty in resigning when he felt he could no longer do justice to his position. And we want him to know that we have enjoyed working with him.

Our Readers Speak: On Student Government, Kernel

Dear Editor: Any place you go you can hear complaints about SGA and how little the organization has done. If you publish the figures of how many students even took the minute out to vote in the recent election, perhaps some of the eager-to-criticize will see why the SGA isn't any stronger than it has been. No support.

SGA should be the best known and most powerful organization on campus with the interests of the students foremost in their minds. This is probably true of those few who are interested in the welfare and progress of UK, but their hands are tied. The tying is not only done by the students, but by the faculty as well.

There were many things promised in the platforms of both parties. How much will be done? If past acts are predictions of the future—not much.

Why can't we have the grill open in the evenings? The expense? No one would come? Have they tried it to find out? No. Still there are many people who complain about the students going to places of entertainment where alcoholic beverages are served. Where else can they go to dance? If a place was provided on campus without alcoholic refreshments, where no car was necessary for transportation, there is no reason why the students wouldn't go there. That was one of the planks in the recent election, I believe, but how much will be done and how much will the SGA be allowed to do?

The telephones in the men's dorms, the student

bank, the high costs of books and necessary items in school work, the parking situation, and many other problems supposedly handled by SGA have not been handled. Perhaps SGA has tried, but they can't get anywhere.

Many people complain, but not many act. If SGA doesn't improve why not throw the whole works out and start over. The system of class officers works in many places throughout the country and it might be better for UK if there were such a system here.

This should be a college of the students, by the students, and for the students. It is by the student-ficers works in many places throughout the country for whom is this University run?

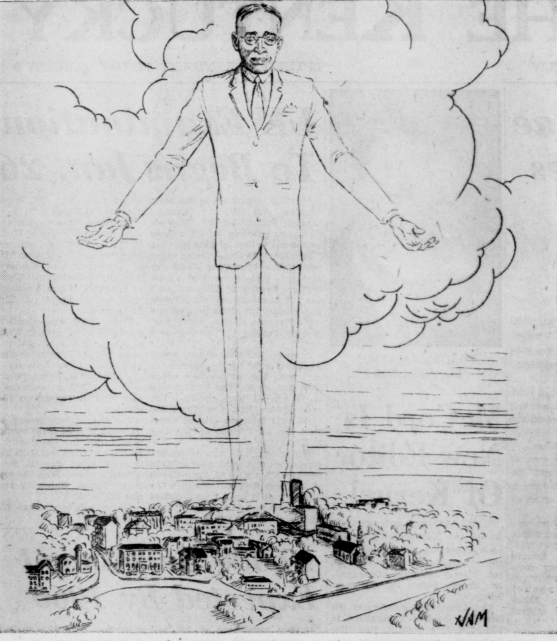

It would be wonderful if someone would read this and really care about what goes on and start doing something about the situation. Modern times march on and so should dear old UK.

This is not a communist revolutionist, just someone who hopes UK's government and power of control over themselves will grow up to the age fitting and due the future leaders of America.

A Student

Kernel Is Praised

Dear Editor: I want to commend the staff of the Kernel on the Christmas issue of the paper. The printing of

"A University is a place; it is a spirit. It is men of learning; it is a collection of books; it is laboratories where work in science goes forward; it is the source of the teaching of the beauties of literature and the arts; it is the center where ambitious youth gathers to learn; it protects the traditions, honors the new and tests its value; it believes in truth, protests against error and leads men by reason rather than by force."—Dr. Frank LeRond McVey, 1869-1953.

Don't Worry About Becoming An Alcoholic, Columnist Says

By PAUL KNAPP Following the holiday season and Temperance Week in Kentucky we have some good news for some people who have been worrying about becoming habitual alcoholics.

Not long ago an unusual fellow came to our attention and gave us a useful remedy for this bonded disease. This is the story as he told it to us.

Back when he was a brand-new freshman he started in drinking liquor as many young fellows do. At first his inebriating amounted to just experimentation with the liquid, and he found that he could get quite a buzz from only a few drinks. But after a while of constant application he found that the habit was getting hold of him to where he would go out and pitch a drunk at the slightest provocation—in fact he needed absolutely no incentive at all.

So he asked many of the so-called social drinkers what they did to maintain a moderate amount of drinking without becoming obsessed with the idea of getting drunk constantly. They explained to him that they only drank when there arose occasions calling for a celebration, such as holidays, birthdays, and outstanding events. This seemed to him a very fine idea and he thought that it should solve all his drinking problems.

Then he was confronted with finding those occasions that did deserve to be celebrated. Of course, he knew many of the common ones from memory, but the number seemed altogether too few for a year's total.

At the library he found the almanac that listed all the national and state holidays for every day in the year, and he was surprised to find out that there were a total of 343 prominent occasions during the year—including Sundays when the bars were closed.

You can't imagine the joy that this discovery brought to him and has brought to him ever since. Every time we run into him in any of the drinking establishments about town he always hauls us with an invitation to help him celebrate Robert E. Lee's birthday, the landing of the Mayflower, or one of the other 311 red-letter days.

It must be wonderful to be a continuous party-boy and never have to worry about becoming a habitual alcoholic.

There is another nice outstanding individual who came to my attention recently. His story proves that the reason that our jails and prisons are so full is that there are too many criminals who are absolutely stupid or else can't afford to buy off the powers-that-be.

For 30-old years this person was a professional criminal who kissed his wife and children "good-

The Frying Pan Happy New Year Forseen By UK After '52 Woes

By KATHY FRYER The Baby New Year won't have to work very hard to treat UK better than his Pappy '52 did.

There wasn't much to cheer about around here the past year. Bill Spivey and some party razers were kicked out of school, two football players were declared ineligible (scholarship students can't make pocket money working like other people, you know), and the whole football team was put under wraps.

A flu epidemic hit the campus in the spring of '52, and later a rainstorm washed out the May Day parade.

The "make-it-or-else" rule was clamped on the Greeks when a little less than half the fraternities made that standing, and SGA's plans for a book exchange flopped.

We lost the Sugar Bowl and won the SEC tournament, both by one point. St. John's upset the Cats in the NCAA, and a fescue fuss livened up the Ag College.

Of course there were bright spots. We brought back the Cotton Bowl Trophy from Dallas, and the '52 Kentuckian got out before '53.

You didn't think '52 was so bad if you got panned or made a 2.5 standing during the year. Life was rosy if you got your picture in the paper or were elected president of the Partiers International. The year 1953 should be a little better than 1952. It couldn't be much worse.

You haven't been at UK very long if you don't know the difference between a grillhound and a greyhound, the Kernel and "Colonel," or a Delt and a delta.

UK is the fifth cheapest college in the United States, according to the list in the January issue of Mademoiselle. Based on the yearly tuition, room, and board expenses of the freshman woman, it names those costs at the University as \$530-\$570. Berea College heads the list, and New York's Sarah Lawrence is the most expensive with a \$2,281 bill.

People You'd Like to Strangle: The bright young thing who asks the professor a detailed question three seconds before the bell is due to ring.

The occasional irresolute soul who holds up the cafeteria line deciding between strawberry and chocolate.

Practical jokers. "She was just a moonshiner's daughter, but I loved her still."

Things UK couldn't do without: coke machines, beauty queens, seven deans, and quarantines.

bye" every morning and went off to work to make an indecent living.

After he retired from the profession he became quite a figure at various women's clubs over the nation as a lecturer on his life of crime and explaining how he beat the cops. Among other things, he emphasized in his talks that there are more professional criminals clothed in righteousness, right before the eyes of the people than there are failures to the criminal profession now crumpling the jails and prisons.

It's such nice persons people are made of.

Groups Thanked

Dear Editor: Before Christmas, Alpha Phi Omega, national service fraternity, and the Freshman "Y" sponsored Christmas baskets for needy families of Lexington and gave Christmas presents to the children of the lower grades of Lincoln School. The baskets, which contained canned goods, fruit, and a chicken, were delivered by Alpha Phi Omega to the homes a few days before Christmas.

Alpha Phi Omega and the Freshman "Y" wish to take this opportunity to extend their grateful thanks to the following organizations for their generous contributions to this very worthy cause: YMCA-WYCA, Disciple Student Fellowship,

Delta Delta Delta, Alpha Delta Pi, Chi Omega, Alpha Gamma Delta, Alpha Xi Delta, Kappa Kappa Gamma, Delta Zeta, Kappa Alpha Theta, Zeta Tau Alpha, Phi Sigma Kappa, Phi Sigma Sigma, Sigma Alpha Epsilon, Alpha Tau Omega, Sigma Chi, Kappa Alpha, Phi Delta Theta, Delta Tau Delta, Delta Chi, Sigma Phi Epsilon, Alpha Gamma Rho, Lambda Chi Alpha, Farmhouse, Sigma Nu, and Alpha Sigma Phi.

There's not much story written here. The real story was written in the eyes of those who received and in those eyes who gave.

Questions Business

Dear Editor: This great state university is supposedly operated by competent business people, but they don't know the first thing about running a third class business.

The matter I am speaking of is how they send out checks. Or how they are supposed to send them out. Seems like you always get them about two months after you send in the bill. There is no itemized account of what weeks

they are paying you for. You just have to juggle the figures around until certain week's pay adds up to the total of the check. Why can't they let you know what weeks they are paying you for? They required such an itemized account to be presented to them, but do they return the itemized account . . . no, never!

It is especially difficult to keep in business when the University is so deliberately lax about paying its bills.

Let's see the Registrar's office get on the ball and pay off some of these back debts. I'm starving and in debt galore all because of them.

Social Activities Open New Year On Campus

By ANN O'BROAK

Another year has gone down the road of no returning and 1953 has crawled through its first week. She is now ready to take off for a flying start this weekend.

After looking over the social calendar for tonight it seems to be a quiet evening, but there is no doubt that it will not be dull. There is always a movie to see...

The Beta Nu chapter of Kappa Sigma has reorganized its family club. At the first meeting 11 mothers of active members and pledges were present. The officers of the Sophia Club for this year are Dr. Grace Snyder, president; Mrs. A. H. Stephenson, vice-president; Mrs. Margaret White, treasurer; and Mrs. The Delta are optimistic. With all D. B. Williams, secretary. The next meeting of this club will be this month.

Zeta Tau Alpha has started the new year off with new officers for the sorority. The newly elected officers are Cathrine J. Campbell, president; Betty Nettlet, vice-president; Lois Holland, secretary; Connie Cady, treasurer; Tommy Pirte, ritual chairman; and Pat Goldsmith, house president.

Well, there is no time like the present—for walking in a winter wonderland—have fun!!!

Virginia Racland, Centre, to Bruce Graham, SPE.
June Fannin to Harry Banks, ATO.
Elaine Osburn to Ken Darnell, SPE.

JOYCE MOSELEY
"Miss Christmas Seal"

Joyce Moseley Is '52 Prize Winner In 'Seal' Contest

Joyce Moseley, Kappa Alpha Theta, was chosen Miss Christmas Seal last year by UK students in a contest sponsored by the Lexington-Covington Tuberculosis Association. She was presented an engraved trophy by the Association.

Miss Moseley, 19, an Arts and Science sophomore, is the daughter of Mrs. Eugene Moseley, Louisville. She is a transfer student from the University of Indiana, Bloomington.

A radio arts major, Miss Moseley intends to enter the production phase of radio after her graduation in 1955.

Betsy Maury, Kappa Kappa Gamma, was runner-up in the contest. Close behind in a tie for third place were Barbara Kingston, Chi Omega, and Mary Evelyn Pollette, Delta Delta Delta.

Students contributed more than \$1,300 to the campaign through the purchase of Christmas seals. W. W. McLendon, executive secretary of the Association reported.

He said that although the contest has ended, students can still contribute to the campaign. All contributions should be mailed to the Lexington-Fayette County Tuberculosis Association, 180 Market St.

Engineer Exam Set For Jan. 22

The engineer-in-training examination will be given Jan. 22 in Room 204 of the Engineer Building, C. S. Crouse, secretary of the State Board of Registration for Professional Engineers, announced.

The examination will last from 8 a.m. until 5 p.m. with an hour off for lunch. Mr. Crouse said that examinees will need pencils, two small triangles, a small scale and a slide rule. All paper will be furnished. Books and papers should not be brought to the exam, he emphasized.

Pharmacy Library Names New Head

Dr. Lawrence Thompson, director of UK libraries, announced today that Mrs. Jewell Rau has been appointed head of the College of Pharmacy Library in Louisville.

Mrs. Rau assumed the position Jan. 5. She succeeds Joanne McCoy, who recently resigned.

New License Plates Must Be Registered

Students who have cars registered on the campus should notify the Dean of Students' office of the new numbers on their 1953 automobile license plates. Rosemary Tully, SGA secretary, announced this week.

Holiday Engagements, Weddings Help Brighten Yuletide Season

Wedding bells have currently taken their toll of UK co-eds. The usually gay holiday season became even brighter this year through the celebration of many marriages and engagements.

Eleanor Cash, Alpha Delta Pi, led the wedding parade with her marriage to Jim Forthright, Delta Tau Delta, on Sunday, Dec. 21. The ceremony took place at the Woodland Christian Church in Lexington.

On Dec. 23, two nuptial events were celebrated. Anne Wilbur, Kappa Kappa Gamma, and William Saunders, former UK student and member of Alpha Tau Omega fraternity, were married in a ceremony which took place at 3:30 in the afternoon at the First Presbyterian Church in Winchester. At 4:30 the same afternoon, Peggy Perkins, Chi Omega, and Marshall Chilton were married at the home of the bride's parents in Lancaster.

Madge Farra Weds

The Nicholasville Christian Church was the scene of the nuptial vows exchanged by Madge Farra, Chi Omega, and Ray Burch, UK alumnus and Kappa Alpha fraternity member, on Saturday, Dec. 27.

The recipient of this year's Panhellenic Scholarship, Julia van Gelder, of Dakar, French West Africa, was married during the holidays to Sebastian Martinez of Cuba. The wedding was solemnized Dec. 22 at the First Methodist Church.

Kyian Sales Drive Will End Jan. 21

The Kentucky office has announced that its sales drive will end Jan. 21. Annuals will not be sold after that date because cover paper orders will have been made for a specific number.

Kentuckians can be purchased from any staff member and from representatives in the dormitories. The price of this year's annual is \$5.00.

Mr. Martinez will be graduated from UK in January. Mrs. Martinez will complete her studies at UK this year.

Honey Jones, a senior in education from Williamsburg, was married to Bob Raybourn, who graduated in June of '52 and was a member of PKT fraternity. The wedding took place on Dec. 15 in Pigeot, Ark.

Engagements Announced
The festivities did not end with weddings, however, as several engagements were also announced. Norma Boster, president of Alpha Gamma Delta, is planning a January wedding to First Lieutenant Charles Clay Adams, United States Air Force. Lieutenant Adams is a University graduate and a member of Sigma Chi fraternity. Joyce Harrison, Alpha Delta Pi, will also be married in January.

Mary Frances Campbell, Chi Omega, will be married to William

Ramey at her home in Mt. Sterling in February. Betty Buckley, Delta Delta Delta, and Nat Sanders, Phi Delta Theta, are also planning a February wedding. The ceremony will take place in Lexington.

Russellville, Ky., will be the scene of the marriage of Jane Duncan, Chi Omega, and Merrill Norton, who is now serving with the United States Marine Corps. The wedding will be an event of April 25.

Pat Wallace To Marry
Patricia Wallace and Howard Wilkinson are planning to wed in the late spring. Both live in Lexington. Barbara Kingston, Chi Omega, and John Baldwin, senior member of the University's 1952 varsity football team, will be married in June at Madisonville.

Betty Martin, KKG, who is a senior in education, will be married in March to Phil Taylor, Phi Delta, who is a chemical engineer in Oak Ridge, Tenn. He is a graduate of the University of Wisconsin.

Mrs. Kastle Buried Friday In Lexington

Mrs. Callie Warner Kastle, widow of Prof. Kastle for whom Kastle Hall was named, was buried in Lexington cemetery last Friday. Mrs. Kastle died Dec. 15 at her home in San Francisco after a long illness.

Mrs. Kastle was graduated from A. & M. College in 1891. She was active in the Women's Club of the University. Mrs. Kastle was one of the organizers of the Alumnae Club of which she was the first president. Mrs. Kastle is survived by a sister, Mrs. Logan Warner Sheppard, Honolulu.

COLONEL Of The Week

The Strrup Cup proudly presents Barbara Baldwin as Colonel of the Week. Barbara is a junior from Louisville, a Home Ec major, and has a 2.5 standing.

Barbara, who has dark brown hair and green eyes, was 1951-52 band sponsor. She was queen of the military ball last spring, and twice has been in the Kentuckian beauty court.

Barbara is second-floor student counselor in Boyd Hall, a Tri-Delt, and a member of Phi Upsilon Omicron Home Ec honorary and the Home Economics club. She has been a member of the YWCA Cabinet and of Tau Sigma, modern dance group. She has spent the last two summers as a secretary in an advertising agency.

For these outstanding achievements, the Strrup Cup invites Barbara and Ed to enjoy any two of their many delicious meals.

ARE YOU TOUGH ENOUGH FOR THIS JOB?

If you can make the grade, the U.S. Air Force will award you a commission, your wings and pay you over \$5,000 a year!

CAN YOU "take it" 6 days a week? For 52 weeks? Can you meet the high standards required to be an Aviation Cadet? If you can—then here's a man-size opportunity! An opportunity to serve your country and build a personal career that will fit you for responsible positions both in military and commercial aviation.

It won't be easy! Training discipline for Aviation Cadets is rigid. You'll work hard, study hard, play hard—especially for the first few weeks. But when it's over, you'll be a pro—with a career ahead of you that will take you as far as you want to go. You graduate as a 2nd Lieutenant in the Air Force, with pay of \$5,300.00 a year. And this is only the beginning—

your opportunities for advancement are unlimited.

ARE YOU ELIGIBLE?

To qualify as an Aviation Cadet, you must have completed at least two years of college. This is a minimum requirement—it's best if you stay in school and graduate. In addition, you must be between 19 and 26½ years, unmarried, and in good physical condition.

YOU CAN CHOOSE BETWEEN PILOT OR AIRCRAFT OBSERVER

If you choose to be an Aircraft Observer, your training will be in Navigation, Bombardment, Radar Operation or Aircraft Performance Engineering.

New Aviation Cadet Training Classes Begin Every Few Weeks!

HERE'S WHAT TO DO:

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
2. If application is accepted, the Air Force will arrange for you to take a physical examination.
3. Next, you will be given a written and manual aptitude test.
4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

Where to get more details: Visit your nearest Air Force Base or Air Force Recruiting Officer. OR WRITE TO: AVIATION CADET HEADQUARTERS, U. S. AIR FORCE, WASHINGTON 25, D. C.

U.S. AIR FORCE

Student Union Offers Various Opportunities

By YVONNE EATON

Enjoyed and used often by many students on the campus, the Student Union probably has fewer facts known about it than any other building on campus.

Few students really know the many services and activities this building offers for so little in return. Even fewer know how this center of student life came into existence on the campus.

Realizing the need for a place where faculty, students, and alumni could meet for the purpose of entertainment, recreation, and friendship, Omicron Delta Kappa, men's leadership fraternity, in October, 1951, appointed a committee to discuss with President Frank L. McVey the possibility of a Student Union building. This committee also conferred with him about the raising of money for such a building.

Within a short time after this first move by ODK, \$10,000 had been raised in various ways for the Student Union. With great enthusiasm campus organizations and individuals gave money.

Several fraternities and sororities promised to give one dollar out of each initiation fee until the building was completed. To keep the students from forgetting the idea of such a building, ODK employed the method of setting tags. These were very much like those sold by ODK today.

In 1953 plans were drawn for the building and President McVey appointed a committee to make recommendations for the building. About this time the UK Board of Trustees asked for a Student Union to be one of the first buildings from the funds of the WPA.

After ground was broken for the building on April 6, 1953, the building was completed in 1953 at a cost of \$250,000. The money raised previously plus \$200,000 donated by the WPA.

The beautiful building was formally opened on May 14, 1953. That night the Omicron Delta Kappa used the building for a ball for the first time.

Many services, activities, and facilities are offered in the Student Union free or for a small fee, thanks to the ODK's and students of the '50s. Today most students use this building to derive from within it all the much pleasure and culture that most students the Student Union is "THE" building on campus. Ask them, they'll tell you.

Tom: "Why wouldn't it do just as well to pray for our bread once a week or once a month? Why must we ask every day for our daily bread?"

Older Sister: "So as to have it fresh."

Pictured above are members of Sigma Alpha Epsilon fraternity's victorious athletic teams. They have built up a lead of 84 points over their nearest rival, Civil Engineers, in the I-M participation trophy race. The trophy is given annually to the organization which earns the most points on participation in a year's time.

I-M Roundup

SAE Leader In I-M Trophy Race; KS's win Volleyball

Sigma Alpha Epsilon is the intramural participation leader with the tabulation of the swimming meet just completed. SAE has a combined point total of 85, far above the 21 points garnered by the runner-up Civil Engineers.

SAE picked up 21 points in winning the football crown; they picked up five in tennis, one in volleyball, six in ping-pong, ten in badminton, and twelve in swimming.

The Civil Engineers picked up their 21 by winning the independent football championship.

Close behind the Engineers were the Kappa Sig with 20 points. KS collected 15 points in winning the volleyball championship and added five in swimming. ATO came in fourth with 17 points; 15 in football and four in swimming.

SPE took fifth place with 16 points with three in football, nine in volleyball, and four in swimming. PDT swept into sixth by picking up ten of their fifteen points in swimming. Other totals include B.S.U. with 13, and DTD and Sigma Nu with 10.

Remaining scheduled events include a free-throw tournament, basketball, badminton doubles, bowling, softball, spring tennis, golf, handball, track, and an added feature this year, a horse-shoe tournament. In rounding up pre-Christmas

Ellis Mendelsohn Hurt In Accident

Ellis Mendelsohn, assistant Intramural director, is reported in fair condition after the auto accident which occurred on his way to work on his motorcycle during the Christmas vacation. He is in the Louisville Baptist hospital.

Mendelsohn was visiting the Mt. Washington High School where he coached previous to coming to the University to work on his masters degree in Physical Education.

Ellis graduated from the University of Louisville in 1949 where he held the job of trainer for the athletic teams of the school. He then became athletic director at Mt. Washington high school. He also coached the Junior High basketball and baseball squads there.

Foul Shot Entries Must Sign Today

Today is the deadline date for entering the basketball free throw tournament which begins Monday night at 7:00 p.m. in Alumni Gym.

Bill McCubbin, UK intramural director, said that Monday night would be used for qualifying. He said that each entrant would shoot 25 shots, with about 18 out of 25 needed to qualify.

The date for the finals will be announced when it is set.

Jim Hudson Elected Lances' President

Jim Hudson was elected president of Lances, junior men's leadership society, it has been announced.

The other officers for 1953 will be John Baughman as vice-president, Peter Carter as secretary, Bill Douglas as treasurer and Max Smith as pledge trainer.

One of the first points of discussion that will come before Hudson as president of Lances will be the choosing of the deserving juniors to receive the scholarships that Lances will award later next semester.

OPPORTUNITIES IN OPTOMETRY

Optometry is a profession offering special advantages to ambitious young men and women. Its scope is constantly expanding. Eight per cent of the Nation's million depend upon the Doctor of Optometry and his professional skill in conserving vision. There is a shortage of optometrists in many States.

The Doctor of Optometry possesses the dignity of being a professional man. He renders an essential service to the health and well-being of his community. Substantial financial rewards are obtainable almost everywhere.

U. S. Department of Defense and Selective Service Act recognize optometry as the same consideration accorded medical students.

The Doctor of Optometry degree can be earned in three college years by a student having satisfactory scores in Liberal Arts credits. Such students will be admitted at mid-year to Chicago College of Optometry.

Chicago College of Optometry is centrally located in the heart of the world's largest center for teaching in the healing arts. It is nationally accredited and a "University of the Future."

Send catalog, address Registrar, Chicago College of Optometry, 2303 NORTH CLARK ST., CHICAGO 14, ILL.

SAE Wins I-M Swim Meet; PDT Runnerup

SAE squeaked out a three point (43-40) victory over the Phi Delta in the men's intramural swimming meet after they had seemingly run away with the title.

With the completion of five events, three new records were set, two of them by the Phi Delta.

Results of the final three events are as follows:

50 yard free style: 1. Riddle, SAE; 2. Smith, SPE; 3. Young, PKC; 4. Brown, PDT (in qualifying for this event he set a new record of 28.85); 5. Campbell, SAE.

100 yard free style: 1. Kim, PDT (1:07.1—new record); 2. Dummit, PDT; 3. Marshall, KS; 4. Meyer, SAE; 5. Schang, SN; and 6. Brown, PDT.

200 yard free style relay: 1. Dummit, Brown, Kim, and Swan, PDT (2:02.2—new record); 2. Lemarson, Kavanagh, Blankenship, Dorroh, DTD; 3. Riddle, Campbell, Holland, Mandt, SAE; 4. F. Scott, Jones, Murphy, Schang, SN; 5. Maynard, Stevens, Barnes, Smith, SPE; 6. Barnes, PDT.

UK's Rifle Team Scores Victories

C. D. Combs, Arts and Sciences sophomore, was high man as the UK rifle team swept three of four postal matches on Dec. 13 and 19 in four other schools.

The UK team defeated teams representing the University of Nebraska, University of Massachusetts, and Pennsylvania State College. They lost to the University of Wyoming.

When competing in postal matches, teams fire on their home range of a prearranged date and then mail in their scores to the opposing team to determine the winner of the match.

ike Appoints Tapp To Advisory Post

President Dwight Eisenhower has appointed Jesse W. Tapp, 29, to his agriculture advisory committee. Tapp, a San Francisco bank executive, was president of the Action-Fisher Tobacco Company, Louisville, in 1943-45. A native of Corydon, he is married to the former Miss Isabel C. Dickey of Paris.

Second Cage Exhibition To Be Played

Adolph Rupp, UK Basketball Coach, has announced that the second intra-squad exhibition basketball game of the season will be played Monday night, Jan. 19. The UK basketball team is playing a series of intra-squad exhibition games this year since they are unable to play a regular schedule due to their suspension by the NCAA.

In the first game, played Dec. 13, the varsity defeated the freshmen by a score of 76 to 45. That game was played on a Saturday night before a crowd of approximately 5,500 fans who braved inclement weather to see the contest. In all probability an even larger crowd will be on hand when the Wildcats take the floor for their second contest.

CHIT Hagen, with 19, Frank Ramsey with 16, and Lou Trosopoulos with 14 paced the Varsity in the first game, while Clay Evans scored 11 and Phil Granger tossed in 9 for the Freshmen. There is a possibility that Coach Rupp will have Hagen and Ramsey choose the two sides for the coming contest.

Three there was a basketball team that was the finest thing in the Confederation—most its high scoring center, a 6'6 1/2" Lamm, of Dallas, Texas, developed a bad attack of the Flu, and would not play in the last game of the season. This was the team that was the finest thing in the Confederation—most its high scoring center, a 6'6 1/2" Lamm, of Dallas, Texas, developed a bad attack of the Flu, and would not play in the last game of the season. This was the team that was the finest thing in the Confederation—most its high scoring center, a 6'6 1/2" Lamm, of Dallas, Texas, developed a bad attack of the Flu, and would not play in the last game of the season.

Don't start that bonfire till the game is over

That was no crying towel; that was my school tie!

Over there was a basketball team that was the finest thing in the Confederation—most its high scoring center, a 6'6 1/2" Lamm, of Dallas, Texas, developed a bad attack of the Flu, and would not play in the last game of the season. My father came from Scotland with his bagpipe and his tartan. Said he to me, "Be thrifty, lass, Bug lummies by the carton!"
— Joan E. Hatch, Cornell University

Nothing-no, nothing-beats better taste
and **LUCKIES**
TASTE BETTER!
Cleaner, Fresher, Smoother!

Ask yourself this question: Why do I smoke?
You know, yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.

Luckies taste better—cleaner, fresher, smoother! Why? Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco. L.S./M.F.T.—Lucky Strike Means Fine Tobacco.

So, for the thing you want most in a cigarette... for better taste—for the cleaner, fresher, smoother taste of Lucky Strike...

Be Happy—GO LUCKY!

For smoking pleasure it's a fact
The cigarette I like
Is fresh and smooth and fully packed
And labeled **Lucky Strike**
Genevieve Ortaggio
Northwestern University

Where's your jingle?
It's easier than you think to make \$25 by writing a Lucky Strike jingle like those you see in this ad. Yes, we need jingles—and we pay \$25 for every one we use! So send us any jingles you like to: Happy-Go-Lucky, P.O. Box 67, New York 46, N.Y.

The shipwrecked sailor on the isle
Stays happy as can be—
Though no one's there, he hears a smile

Rupp And UK Squad To Aid Intramural Basketball Team

By LARRY MEYER

Coach Adolph Rupp and the UK basketball squad will aid intramural director Bill McCubbin in stepping up the intramural basketball program this year.

Two meetings of the various team managers have been held so far with McCubbin and Rupp leading the discussions of the program to be held beginning the first of next semester. The problems of practice this semester, rules and a clinic to be run by Rupp were discussed at the latest meeting last Tuesday.

The clinic will be held each Tuesday from 5 p.m. to the controversial one 6 p.m. on the coliseum floor. It is clinic will be open to any member of any organization or team which will be entered in the league next semester.

The program will last as long as the teams want to attend and will consist of instructions by Rupp and demonstrations by the members of the varsity squad. He will outline the fundamentals and diagram plays for use by participating teams. In following days defense and offense will be discussed with conditioning and use of practice periods will come into discussion.

ADOLPH RUPP

Plans have been made for the teams to acquire the services of the various members of the squad in advisory capacities. It will be up to the teams to ask the players though, it was pointed out by Coach Rupp.

Use of the coliseum for practice and games has been made possible in an attempt to speed up the playing of games and facilitating the lengthening of games from 15 minute halves with no timeout to eight minute quarters played according to regulation games.

The same rules will be in effect as in last year's league. This will do away with the controversial one expected that this rule would have of any organization or team which will be entered in the league next semester.

The additional use of the coliseum for games will make it possible to play 16 games in an evening's time and put an end to the old problem of playing far into the night, a situation prevalent in past years. McCubbin has announced that additional balls have been acquired from the varsity, another factor in the speeding up process.

35 Teams Present At Meeting At the meeting Tuesday, there were 19 fraternity and six independent representatives present. This number may be increased by any team planning to enter next semester, contacting McCubbin and signing up for practice periods. These periods began last night and will continue until exam time. Any team wishing additional practice time may contact McCubbin at the intramural office in Alumni Gym.

The practice sessions as announced by Bill McCubbin is as follows: Alumni Gym, Friday, Jan. 9 4:00 p.m. — B.S.U., Triangle and Copy Cats 5:00 p.m. — SX, Scott Street and K&S 8:00 p.m. — Lakers, PKA (space available for another) 7:00 p.m. — L&A, PDT and DTD Coliseum 6:00 p.m. — Farm House and Newman Club 7:00 p.m. — SAE and KA Alumni Gym, Saturday, Jan. 10 1:00 p.m. — Triangle, ZBT, PKA and TXE 2:00 p.m. — PRK, KS, ASP, Copy Cats 8:00 p.m. — SPE, PKT (space available for two more) 4:00 p.m. (No teams signed, space for four)

Hughes cooperative plan for

MASTER OF SCIENCE DEGREES

Purpose To ASSIST outstanding graduates in obtaining their Master of Science Degrees while employed in industry and making significant contributions to important military work.

Eligibility June 1953 college graduates and members of the armed services being honorably discharged prior to September, 1953, holding degrees in the following fields:

- ELECTRICAL ENGINEERING
- PHYSICS
- MECHANICAL ENGINEERING

Those chosen to participate in this plan will be from the upper portion of their graduating classes and will have evidenced outstanding ability. They must also have displayed some degree of creative ability and possess personality traits enabling them to work well with others.

Citizenship Applicants must be United States citizens, and awards will be contingent upon obtaining appropriate security clearance, as work at the Hughes Research and Development Laboratories may be related to National Defense projects.

Universities Candidates for Master of Science Degrees must meet the entrance requirements for advanced study at the University of California at Los Angeles or the University of Southern California.

Program Under this Cooperative Plan, commencing June 1953, participants will follow this schedule of employment at Hughes:

- FULL TIME—from June, 1953 to Sept., 1953
- HALF TIME—from Sept., 1953 to June, 1954
- FULL TIME—from June, 1954 to Sept., 1954
- HALF TIME—from Sept., 1954 to June, 1955

Recipients will earn five-eighths of a normal salary each year and attend a university half time during regular sessions working on their Master's Degree.

The salary will be commensurate with the individual's ability and experience, and will reflect the average in the electronics industry. Salary growth will be on the same basis as for full-time members of the engineering staff. In addition, the individuals will be eligible for health, accident, and life insurance benefits, as well as other benefits accruing to full-time members.

For those residing outside of the Southern California area, actual travel and moving expenses will be allowed up to Expenses ten per cent of the full starting annual salary.

Tuition, admission fee, and required Sponsorship books at either the University of California at Los Angeles or the University of Southern California, covering the required number of units necessary to obtain a Master's Degree, will be provided by Hughes Research and Development Laboratories.

Approximately one hundred Cooper-Awards are made each year, if sufficient qualified candidates present themselves.

Candidates will be selected by the Committee for Graduate Study of the Hughes Research and Development Laboratories.

Application forms should be obtained prior to February 15, 1953. Completed applications accompanied by up-to-date grade transcripts must be returned not later than February 28, 1953. Selection will be made during the month of March.

Sports Sidelights

By TOM EASTERLING

After careful consideration we wonder if the move by the intramural department to separate the boys on athletic scholarships from the other students isn't defeating the purpose that others have fought for so long. That is, a closer relationship between the athletes and the rest of the student body.

The overall intramural program would be greatly improved if it were at all possible to divide the teams into three divisions with the best teams in the first division class and etc. This year each basketball team will be allotted a certain number of practices before actual play begins. A committee could be appointed to watch each team practice and rate them accordingly. After every team had been rated they could be placed in one of the three divisions according to their ability. The trouble with athletics today, is the fact that the athlete is placed in a class by himself. This idea of not allowing him to participate against other students doesn't contribute to closer relations between the athlete and the student body.

Las year the motion was made that the annual Blue-White spring football game be replaced by a game between the varsity and former Wildcat gridlers. Other schools have been playing this type of spring game for years and have found it to be a huge success.

UK officials could not pick a better year to start than the present year. Here is just a few of the boys that will be in school next semester: John Griggs, Bob Fry, John Baldwin, Frank Fuller, Harry and Larry Jones from this year's squad and Jim McKenzie, Doug Moseley, Ed Hamilton, Emery Clark, Cliff Lawson and John Netoski, who have been assisting UK's coaching staff this year. Babe Parilli will be back in school next semester. Wallace Jones is located here in Lexington. Al Bruno will probably be back in school. Pat James is coaching at Danville at present. What more could UK fans want than to see these former Cat stars in action once again? If necessary the old timers could call on four former Wildcat greats who are on the UK coaching staff—Ernal Allen, Phill Cutchin, Jerry Clairborne, and Bill McCubbin.

Intramural basketball players have the chance to gain information for which some colleges and pro teams would gladly pay twenty thousand dollars a year. Only 25 team representatives showed up for the second meeting with Coach Adolph Rupp, Harry Lancaster and Bill McCubbin. This column is sure that if school had been in session the past two weeks there would have been a greater number present. It isn't too late to take advantage of these instructions. Rupp will conduct a clinic each Tuesday and Thursday afternoon from 5 to 6 p.m.

Hard Work Can Pay Off Recording Artist Proves

By PAUL COWLEY

Felicia Sanders, 25, was born in New York City and moved to California in 1942. She has studied modern dance and originally wanted to be a dancer. At the University of Southern California, she studied piano and uncovered her natural flair for vocal performance. Felicia's exacting approach to any subject to which she was attracted led her into research on vocal artists and their styles and into working with local composers and musicians.

The aspiring neophyte made some transcriptions with a studio band and played a few local nightclub dates creating no great excitement, but still working, observing, and studying. Then like the usual singer trying to break into the business, Felicia cut several audition records for songwriters. One of these was brought to the west coast musician, Benny Carter, who immediately became her mentor, and assisted her in developing a distinct singing approach. Carter was sure from the time he heard Felicia that she couldn't miss stardom.

Felicia attempts to "create a personalized sound." "I don't have a sound," she states, "I just try to reach each person's emotions."

Try Camels for 30 days and see how mild, how flavorful, how thoroughly enjoyable they are as your steady smoke!

More People Smoke Camels THAN ANY OTHER CIGARETTE!

McVey Rites Held

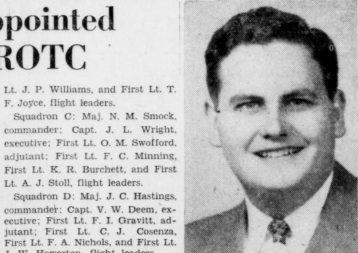

(Continued from Page 1)

National Association of State Universities. An author as well as an educator, his published works include eight books and articles dealing with economic and other subjects. His books were, "The Populist Movement," "History and Government of Minnesota," "Railroad Transportation," "The Making of a Town," "Applied Economics," "Financial History of Great Britain," "Modern Industrialism," and "Problems of College Presidents."

Active in Club Work
Dr. McVey was a member of Phi Gamma Delta, social fraternity; Phi Beta Kappa, national scholarship honor society; Omicron Delta Kappa, campus leadership fraternity, of which he was a honorary member of the Omicron Delta Kappa Club; and the Rotary. He was an elder in the First Presbyterian Church. He was also a member of many commissions and committees associated with the supervision of civic and charitable enterprises.

Cadet Officers Newly Appointed In University Air Force ROTC

A roster of newly appointed cadet officers in the UK AFROTC has been released by Col. Edward G. Davis, head of the UK Department of Air Science and Tactics. Cadet Col. Henry M. Vance, a junior in the College of Commerce, was selected as wing commander and the new wing executive is Cadet Lt. Col. L. R. Riddle, a senior in the College of Commerce. Other Cadet wing staff officers include Maj. Milton M. Alexander, personnel officer; Capt. Myron Zuckerman, assistant personnel officer; Capt. J. M. Bass, assistant operations officer; Maj. L. F. Callett, comptroller; Capt. F. F. Bradley, assistant comptroller; Maj. J. C. Nicholas, material officer; Capt. R. T. Tichenor, personnel officer; Capt. H. Maeser, operations officer; Capt. Arnold Schneider, material officer; Capt. J. R. Proffitt, adjutant. Squadron Cadet Officers Listed: Squadron A: Maj. R. E. Koehler, commander; Capt. Charles R. Whalin, executive; First Lt. W. D. Hamm, adjutant; First Lt. W. D. Furrin, First Lt. C. B. Rinehart, First Lt. K. J. McGee, flight leaders. Squadron B: Maj. L. C. Flowers, commander; Capt. E. H. Fontaine, executive; First Lt. J. R. Quinn, adjutant; First Lt. C. O. Hagan, First

THE REV. BILL CODY
BSU Secretary

English Club To Study Student's Composition

An original student composition will be read and criticized at a meeting of the English Club at 3 p.m. Thursday in the music room of the Student Union. The composition will be an example of the type of writing desired for Vague, creative writing magazine. After the composition is read, a discussion of it will follow. Students interested in submitting articles to the magazine are urged to attend this meeting. Ruth Sandner, club president, said this week. **Legal Frat Plans Initiation**
Phi Delta Phi, national legal fraternity, will hold initiation at 8 p.m. Friday in LaFayette Hall. Pledges which will be initiated are Brantley Amberg, James Lyon and Henry Pennington. **Newman Club Plans Ball**
Plans for the Newman Club's annual Mardi Gras ball will be made at 4 p.m. today when the dance committee meets at the Student Union. Carol Gudek and Jim McDonald are co-chairmen. **Wesleyites Open Center**
The Wesley Foundation student center, 561 S. Limestone Ct., will be open tonight for informal reception. The Rev. W. D. Swift, adviser, announced. **Outing Club Plans Trip**
The Outing Club plans an overnight trip Saturday to Red River Valley in Cumberland National Forest. All persons interested should sign up in Room 122 of the Student Union between 1 p.m. and 5 p.m. today. The group will leave at 1 p.m. from the entrance of the Student Union. A fee of \$3.50 will cover food.

Billy Graham Film To Be Presented

"Mr. Texas," called "the world's first Christian Western," will be shown at 6:30 p.m. and 8:30 p.m. Saturday in Memorial Hall. The full length color movie is produced by Billy Graham Evangelistic Films, Inc. and features Graham, who recently returned from an evangelistic trip to Korea. At the film's preview in the Hollywood Bowl, a record number of 25,000 persons comprised the largest attendance any motion picture has ever had in this country. During its first year of showings an estimated three million persons have seen the film. Admission to the showing, sponsored by Lexington churches and interested businessmen, will be free.

Then And Now Mildred Moore Returns To Accept Library Post

Mildred Allen Moore, '46, has accepted a position with the College of Engineering as librarian. She comes back to the University from Alabama Polytechnic Institute, Auburn, Ala., where she has held the position of assistant reference librarian since 1949. Miss Moore is a native of Lexington, and obtained a library degree from George Peabody College in 1947. Following her graduation, she served as reference assistant at Kansas State College before going to Auburn. Alan H. Vogler, '38, of Cincinnati, formerly associated with the Cincinnati law firm of Taft, Stettinius and Hollister, has announced the opening of offices for the practice of law at 1009 Traction Bldg., Cincinnati. Mr. Vogler specializes in the law of taxation.
