Ohio man pleads not guilty to charges

Police records say Rathiff shoved the pillow against the woman's face with "enough force to bloody her nose" and mouth and prevent her from breathing.

Because of oxygen deprivation, McComas said the color of the woman's face still was "absolute blue" when police officers arrived to investigate.

A UK spokesman told the Ken-tucky Kernel on Sunday that Ratliff was a friend of a fraternity member and that he apparently had attended a party at the AGO house prior to the assault.

Fraternity president Rex Smith said yesterday, however, that Ratliff was not a friend of a fraternity member and that he did not attend the only AGO party scheduled for

the weekend, a social event that of-ficially ended 8 p.m. Saturday. "This guy was not invited in, he was not a firend of any member and he came in after the party was over," Smith said of Ratliff, whom he described as a "party crasher." Interfraternity Council president Mike Wainscott said yesterday that Ratliff was a co-worker of a frater-nity member's relative.

The relative apparently discussed with Ratliff his plans to attend the Saturday party, and Ratliff decided to come down from Ohio as an uninvited guest, Wainscott said.

Robert Welch, however, ex-plained the situation differently. In his testimony at the trial in Fayette Circuit Court, he said the narcotics found during the arrest was planted on him by the arresting officers.

His defense attorney, Chandra Pelichet, said during closing argu-ments that Welch was entrapped by police and asked the jury to find him not guilty.

However, a decision on this case was never made.

Lawmakers in Russia authorize referendum

By Thomas Ginsberg Associated Press

MOSCOW — Lawmakers under-cut President Boris Yeltsin's power again yesterday and authorized an April referendum to let voters pass judgment on Russia's painful eco-nomic reforms.

Closing out a raucous, four-day emergency session, parliament speaker Ruslan Khasbulatov pro-claimed they had blocked a presi-dential coup. Legislators also creat-ed a commission to investigate the defiant speech Yeltsin made to sup-porters Sunday, calling it an "open call for revolt."

With the failure of hard-liners to vote Yeltsin from office Sunday, the Congress session seemed to leave the president and lawmakers in a bitter draw and intensified the power struggle that has paralyzed government for nearly a year.

The president's legal options were limited, including appealing to the Constitutional Court. Some pro-Yeltsin lawmakers said his best route was simply to ignore decisions by the Congress.

Candidates for SGA Senate state reasons for seeking office

Editor's note: On their applica-tions, Student Government Associa-tion Senate candidates are asked to write a short paragraph stating their reasons for seeking office. Be-low are the responses of this year's candidates, as upplied to the Ken-tucky Kernel by SGA.

I am seeking the office of Senator of the College of Fine Arts because I believe I would work for the college and work to bring additional and much needed funds to the organizations that correspond to the College of Fine Arts.

Currently, everyone in the college knows that there is a very limited relationship between the college and SGA. Both are very different worlds and have very little in common besides the fact that SGA has the capability to allocate funds that the College of Fine Arts organizations need.

Offensively, UK was led by jun-iors Brad Hindersman and Matt Bragga. Hindersman, a designated hitter, went 4-for-6 with a pair of doubles and two RBI in the double-

header. Bragga, an outfielder, went 3-for-3 with two home runs in Sun-day's game to lift his team-leading totals in batting average (.392) and RBI (19).

UK used the pitching experience of seniors Scott Smith and Lohrn Frazier in the doubleheader. Smith (3-4) pitched a complete game, allowing only two carned runs and striking out 10 Alabama batters. Frazier remained undefeated (4-0) wholding the Tide to only two earned runs in the nightcap.

Barnhardt Gallery a hidden treasure of art

By Richard Gay Contributing Critic

The Barnhardt Gallery, located in the Reynolds Building on UK's campus, is an exhibition space that does not receive the attention it de-

serves.

Currently, the gallery houses a
dual exhibit by UK undergraduate
studio majors and artist Sherra
(fiften-Murphy).

Juried by UK professor emeritus
John Tuska, "The Undergraduate
Exhibition" includes fiber, photography, drawing, welded steel,
mixed media and painting.

The 13 works on distaly were se-

mixed media and painting.
The 13 works on display were se-lected from more than 30 entries and represent a fine display of UK talent. Many of the works surpass the normal cademic exercise and the best examples show a maturity beyond the undergraduate level.

Some of the finest pieces were created in the sculpture department, nore specifically in the metal shop. These examples not only are con-ceptually strong but also well-executed.

The contributing student artists include Shannon Anderson, Amy Boyanowski, John R. Brown, Chris Casey, Victoria Gritton, Eric Hadley, Andrew Marsh, Mollie Rabin-er, Mary A. Robinson, Jim Shambhu, Keith Spears, Megann Thomas and James Wade.

The organizers of this juried exhibition are to be congratulated for offering developing artists the opportunity for exposure and recognition.

The student exhibition is accompanied by 17 works on paper by Giffen-Murphy, who received her fertificate of Fine Arts in paining from the Art Institute in Boston. She currently is studying at the University of New Mexico College of Fine Arts.

Fine Arts.

Her works in the Barnhardt may be divided into two distinctly different groups: small collages incorporating pages extracted from dictionaries and larger unframed acrylics and oil-sticks on paper. The collages offer a myriad of images and incorporate word associations which invite the viewer to intellectually, as well as visually, explore the works.

Although the images are often personal, the artists encourage free association and welcome the viewer's personal interpretation. The small size of the collages demands close examination of the works and heightens the viewer's personal experience on an individual level.

A work titled "Apogee" presents the viewer with the words apogee and apex, images of a jumping dol-phin, a bird in flight and a flower in full bloom; it asks the viewer to draw his own conclusions.

Whereas the small collages chal-lenge the viewer, the larger works on paper ask for less intellectual in-teraction. These loosely executed works offer few surprises and do not maintain the stature established by the smaller collages. However, the shortcomings of the larger works are more than compensated for by the strengths of the overall exhibition.

The exhibitions are running concurrently through tomorrow and may be viewed from 9 a.m. to 4 p.m.

Depeche emerges from hiatus with mature, emotional album

Depeche Mode Songs of Faith and Devotion Sire/Reprise Records

By Chris McDavid Staff Writer

The last time Depeche Mode re-leased an album, I got it as a gift for my 16th birthday. It's been a long

time, guys.

Violator, the group's 1990 release, went multi-platinum and spawned Depeche Mode's first hits since it rode on a wave of haircut bands in the early '80s. It also is the band's worst album.

usic Review

Part of the group's appeal was the ability to fuse cold, hypnotic synthesizers with emotional vocals. Violator had none of that.

Fortunately, Songs of Faith and Devotion doesn't have that problem. The album shows that the group spent the four-year hiatus doing some major soul-searching, and the result is the most mature work

of the group's career.

The first single from the album,
"I Feel You." rocks along a grinding guitar rift behind Dave Gahan's
growling bedroom vocals. At first
look and listen, the guitars, long
hair and tattoos just beg, "take me
seriously." Then you can't get the
song out of your head.

This is the most musically diverse album Depeche Mode has
ever released. "Condemnation"
sounds like a gospel hymn, with
Gate howling in desperation.
Depeche was convinced to bring

Depeche was convinced to bring in outside musicians for some tracks by co-producer Flood. The results are positive, especially on "One Cares," which features an entire orchestra.

tire orchestra.

Other tracks on the album are designer Depeche Mode. Lyrically, Gore is hitting all of his usual topics — lust, rejection, religion and the occasional mushy love song.

It may be business as usual for Depeche, but it is their best work since the highly acclaimed 1987 release Black Celebration.

LOS ANGELES — Marisa Tomei, Joe Pesci's feisty girlfriend in "My Cousin Vinny," was aurporting actress last night. Gene Hackman, the sadistic sheriff in "Unforgiven," won as best supporting actor.

"Unforgiven," Clint Eastwood's brooding Western, also pricked up an early award for indediting. It was bidding for best picture and other top honors, along with the stately "Howards End" and "The Crying Game." the sexually provocative film about love and terrorism.

Hackman, who won a best actor award for the 1971 film "The French Connection," thanked Eastwood, "who made it all possible for me. It was a wonderful experience."

In accepting her award, Tomei said: "This is such a great honor to receive this in a year when we recognize and celebrate and honor women."

The theme of the 65th Academy Awards, televised live by ABC to a worldwide audience estimated in advance at 1 billion, was "Oscar Salutes Women and the Movies."

Others competing for best film were "Scent of a Woman" and

Rob Reiner's military court drama "A Few Good Men."

Going into the ceremony at the Los Angeles Music Center, "Howards End" and "Unforgiven" led the nominations with nine apiece, followed by "The Crying Game" with six and the animated "Aladdin" with five.

Among best actor nominees, only Denzel Washington, star of Spike Lee's epic-length "Malcolm X," has ever won before.

Also in the running were Rob ert Downey Jr., who played film legend Charlie Chaplin in "Chaplin," and Stephen Rea, the disilusioned Irish Republican Army member in "The Crying Game."

Besides Thompson, the woman most often cited as a contender for best acress was Susan Sarandon, who played the devoted mother of an aiting child in "Lorenzo's Oil." Others nominated were Michelle Pfeiffer, a JFK-obsessed housewife in "Love Field;" Mary McDonnell, the paralyzed soap diva of "Passion Fish;" and French star Catherine Deneuve, a plantation owner in "Indochine."

Elections

Jones, Shveda possess outstanding character, deserve top SGA posts

ENDORSEMENT

This man can stop the wind. When Moses told the people of Israel he would part the waters of the Red Sea and lead them to the promised land, there were many skeptics.

Many people were probably doubtful, but their faith in Mo-

ses' ability to lead and his vision of success led them across the wa-

doubtful, but their ianu in object.

Thomas Arthur Jones, who goes by "T.A.," has a miracle to perform as well. His miracle is to become the next Student Government Association president, a feat that would parallel Moses' miracle. Jones wants to lead UK students across the Red Sea of apathy toward a new and brighter promised land for SGA.

Jones is unique because he is the only outsider running in this election. Sunday's Greek Political Action Committee Debate proved that point. Jones, clad in a pullover, stood out among the three navy blue sport coats.

This uniqueness is where stopping the wind at Patterson Office Tower becomes relevant. Jones, an architecture student, realizes the small concerns of students, such as the wind tunnel between the office tower and the Administration Bullding.

With his architecture know-how he could fix that, but, more importantly, he wants to replace the umbrella graveyard with a different type of wind tunnel in that area. He wants to make the POT pla-

with a different type of wind tunnel in that area. He wants to make the POT plaza the free speech area — within earshot of the Administration Building.

Student protests and free speech have been buried behind the Student Center become parotests and tree speech have been buried behind the Student Center for too long, and Jones wants to move it upstream where students can see it — where it belongs. This may seem insignificant, but if the University is to become a community, we cannot hide our thoughts in a dark corner outside a building on the far side of campus.

Jones is more aware of the needs and concerns of the many students who rightly believe SGA is unware of them because he, unlike the other three candidates, has been one of the disenfranchised.

The others all have past ties with SGA that make them a part the staid, unrepresentative establishment. Jones realizes the proteins facing UK students and cares about finding real solutions not rhetoric.

He uses his outsider status as a footbold to make these discovered the status as a footbold to make the status as a fo

not rhetoric.

He uses his outsider status as a foothold to grab those disenfran-chised and disinterested students who have long since given up on student government. He inspires them with a message of change

and action.

When he made his formal announcement to run by standing on a table in the Student Center many people laughed — but they also listened. He is creating a new awareness of SGA few have thought of and no other candidate has attempted.

He's taking his message to the people in a way that student government hasn't seen for a long time.

The strength of Jones and his running mate Andrew Shveda doesn't really stand out until compared to the other three tickets in the running. The similar character of those three presidential candidates — the issue each said was the key issue in the campaign — are outshined dramatically by not only Jones, but also by their vice presidential running mates.

The other three presidential tickets should be reversed. The vice presidential candidates should be the ones running for president.

Downy consistently has placed third during the campaign.

The Jeremy Bates and Ellien Hamilton ticket is led by an insider whose connections to the University make him as susceptible to being co-opted as the past few presidents have been. Bates has made noise for students' rights while serving as a senator but consistently has failed to follow through.

While Hamilton has shown the drive to get in touch with the many apathetic students on campus, her enthusiasm would be overshadowed by Bates' inside connections.

Presidential candidate Scott Mason is chairman of the SGA Prejudice Reduction Task Force. The task force has been ineffective and shown little progress in helping to smooth racial tension on campus this year. If his work with the task force is any indication of a Mason presidency, we can expect "same old, same old."

His running mate Michael Eaves is just as knowledgeable on campus issues, if not more so, than Mason.

Jones also stands out from the other three candidates in his efforts to raise awareness of issues on campus and get people to vote.

If we are to take SGA to its promised land — where it will be an effective voice for students — Jones is the man to lead us there.

North Korea reneges on promise

Order in international law is a re-cent phenomenon. Before World War II there were few guidelines to govern the interactions between na-tions. The international system was chaotic, anarchical and unstable.

chaotic, anarchical and unstable. The construction of the United Nations was, to say the least, a milestone in the development of international law. Its basic purpose is to ensure stability in international politics and to foster an environment where nations can cooperate instead of commete.

instead of compete.

At the end of World War II, the At the end of World War II, the biggest threat to international stability was the potential spread of nuclear weapons. It was assured that destruction like that at Hiroshima was an event not worth repeating and the best way to ensure that nuclear weapons would never be used again was to limit the number of nations possessing these weapons.

of nations prosessing uncomes.

The Nuclear Non-Proliferation
Treaty has been a primary tool in
the effort to stop the spread of nuclear weapons. When a nation consents to the NPT, it promises not to
research or trade for nuclear technology. In addition, it consents to
inspections by the International
Atomic Energy Agency.

Recently, North Korea decided to pull out of the NPT rather than consent to the inspections by the IAEA. The move sent shock waves through the United Nations. If North Korea is allowed to pull out of the treaty, then other countries, such as Iraq, are sure to follow. The NPT, once thought to guard against the free flow of nuclear weapons, may no longer be worth the paper on which it is written.

The actions of North Korea have an immediate impact on Japan. Since the demise of the Soviet Union, Japanese leaders now consider North Korea to be their foremost security threat.

At a recent meeting with U.S. congressional leaders, Japanese Prime Minister Kischi Miyazawa was hesitant to talk about trade issues and instead wanted to focus

culture on the Korean people during a 35-year period of colonial rule.

The biggest risk of international disorder may come from the pressure on Japan to develop nuclear weapons of its own. The Japanese have been reluctant to pursue this course of action after Hiroshima, but Japanese leaders also have not ruled out the possibility.

Japan now receives shipments of plutonium that are supposed to be used for commercial nuclear energy facilities, and North Korea already has accused Japan of using nuclear energy plants to research the military applications of nuclear technology. Given that Japan is beginning to feel less secure under the U.S. military umbrella, especially against a North Korean nuclear attack, there is a good chance that it will succumb to the pressure of developing its own nuclear stockpile.

The North Korean-Japanese con-

flict is only one of many examples of how non-nuclear nations might begin efforts to join the nuclear club. To prevent this unfortunate scenario, North Korea must not be allowed to renege on the NFI.

If ever there was a time for swift action by the United Nations, this is it. Quick implementation of harsh trade sanctions by the Security Council would have a crippling effect on an already weak North Korean economy.

The Security Council must send a message to North Korea and all other nations that the NFI is a binding treaty and that the United Nations is willing to take action to guarantee enforcement.

Without swift action by the United Nations, the spread of nuclear technology may become a free-for-all, which would erase the achievements made in limiting proliferation over the past few decades.

The best course of action is for the United Nations to use a strong hand in dealing with North Korea now to prevent this situation from becoming a recurring crisis.

Ticket offers experience, leadership, responsibility

As the campaign for student body president and vice president winds down to the actual election on Wednesday and Thursday, we would like to offer some final thoughts about our vision for student government and mission for the students. Student government and mission for the students to the faculty and administration and to provide services for the benefit of all students. To achieve these goals we must concentrate on sound, realistic policies and programs that can best represent and serve students. The ticket of Jeremy Bates and Ellen Hamilton offers better ideas, leadership, experience and responsibility than any other candidates. We have a plan that will revolutionize the way students pay their things and the students and the students and the students and the students are successful to the students and the students and the students are successful to the students are successful to the students and the students are successful to the students are successful to the students and the students are successful to the students are succes

Payment Plan: it would allow any student that chose to participate the option of paying monthly installments on tuition and housing instead of as a lump sum at the begin-

stead of as a lump sum at the begin-ning of each semester.

This plan is vital to combating the tuition hikes by spreading the higher tuition over a period of mouths instead of all at once. Stu-dents should push for this plan and support the Bates/Hamilton ticket to enact it.

Other ideas include extending the Trade A Book Service, reorganiz-

months instead of all at once. Student recruiter.

Our responsibility ranges from support the Bates/Hamilton ticket to enact it.

Other ideas include extending the Trade A Book Service, reorganizing the legal service and many other campus-changing opportunities. These opportunities will become area adulted only if the Bates/Hamilton are candidates with the subject of Supermental affects with the subject of Supermental and February to a support of Supermental and February to a support of Supermental and Support and the responsibility to see to it that the students has priority. The answer is clear: It's Bates/Hamilton of governmental affairs.

ticket is elected. This is simply be-cause of the involvement and dedi-cation of our ticket.

cation of our ticket.

Our experience with student government extends from a two-term senator at large to the chairperson of the National Student Voter Education Day, an unprecedented event held on campus during the fall state and national elections.

and national elections.

Our leadership expands from being the Interfratemity Council President and Southeastern IFC President to representing UK as a student recruiter.

the students all along? Which ticket has thought through and researched plans that will best serve students? Which ticket has put more than a year of effort into organizing a cam-paign centered on realistic goals by religing with students about their talking with students about their needs and concerns?

needs and concerns?

These questions are good ones, and they have a good answer. The ticket that will enact realistic policies and programs is the one with the best ideas, the experience and know-how to get things done, the leadership to represent all students and the responsibility to see to it that the student has priority.

The answer is clear It's Bates!

Candidates for senate offer sound policies

Ed Oberst stated, "We don't want to reinvent the wheel."

SGA is not a wheel, an engine or any other mechanical part. Instead, it is a living, breathing organization full of imperfect people with good intentions. As in any other democratic organization, SGA never with good intentions. As in any other democratic organization, SGA never with perful of strife and compromise.

Tommy Dennison and I believe that this is just one of many problems with the perception of SGA and its effectiveness in serving students. We believe that our ideas and plans for action make us worth voting for in the upcoming election. I shall name just a few.

In the March 9, 1993, edition of the Kentucky Kernel, Don Puckett suggested that the evaluations of professors and classes should be made available to students so they can make "more informed selection of classes."

Trent Knuckles Tommy Dennison Guest Opinion

the first place. If elected, we intend to draft legislation that will make professor evaluations available to students once again.

students once again.

Another glaring problem with
SGA is that the student lobbying effort in Frankfort, Ky., is weak.
Take, for instance, the opposition to
further budget cuts and tuttion hikes
spearheaded by SGA. SGA members, namely President Pete November, tried in earnest to rally support for the opposition and take that
support with them to Frankfort to
influence the policy decision.

Because students clearly have

influence the policy decision.

Because students clearly have shown that they are not interested in this aspect of SGA, then so be it. The students indirectly have spoken and SGA should listen. This is not to say that the lobbying effort should be eliminated, but that a different approach might be in order.

Tommy Demision and L believe.

We agree with this idea and won-der why the practice was stopped in

possibility of hiring a professional lobbyist, maybe a retired or defeated state politician who knows the ropes in the state capital and would be more effective in lobbying for student interests. Furthermore, we believe that SGA should consider making substantial contributions to key officials' campaign efforts to gain favor and support for student interests in future policy considerations.

gain tavor and support for student interests in future policy considerations.

The March 9 editorial in the Kentucky Kernel, which called for the
dissolution of SGA, made some
very valid points. The editorial stated that SGA offers many important
services, but the "dearth of the leadearthip leaves them underdeveloped
and underutilized."

We believe that this is true for
one of two reasons: Either some
SGA members are not putting the
effort into the services that are required to make them more successful or SGA is not putting enough
money into these programs.

To remedy the problem of underdeveloped services, we propose the
following solutions:

First, SGA should provide a monthly newsletter that, in very brief form, updates the SGA's business for that mouth. The newsletter could be printed at low cost and either be distributed separately or with the Kentucky Kernel.

Second, because many of the services provided by SGA may fail because they are underfunded, we believe that a special committee should be established to review all of the services and organizations should be established to review all of the services and organizations that SGA provides and funds. This committee should decide which of these are most important and used most by the students and scrap the ones that are not. The money saved from this should be used to upgrade the worthwhile projects.

These are just a few of the ideas that we think will improve the effectiveness of SGA, and make it a more representative organization in the future.
