

Monday 5:45

Jan. 2nd 1956.

my Sons:- time, but did the morning to home
 I do hope you are getting close to home
 and that you have had good driving and not
 too tired, we wonder how the long drive has
 effected your back, Do hope your shingles
 don't last long.

Our day has been very quite soon as
 you left I went to work and got all the
 Christmas things sorted and packed ready
 for putting away and it took me a long
 time, Dad took the out side lights off
 and has them packed for storing.

Soon as I got the regular things done
 and the trimmings packed I went to work
 on pockets for Dads pants and what a pair
 of pockets I made, He may be able to carry the
 few Colours in them. It was a mean job
 but I am proud to have that mending done.
 I cooked some potatoes and made Corn bread
 and warmed up dinner. When I started my bread
 I realized I hadn't made enough hot Corn bread
 for you on the last of your visit for which
 I am very sorry.

To day has been cloudy and cold all
 day long and since dusk the wind is blowing -
