Professor Rannells announced to the Faculty two art exhibits: one, First Year Work in Drawings and Design, in the Art Gallery, Department of Art; and the other, Paintings by Upper Division Students, in the Music Room of the Student Union Building, both exhibits to be continued through the month of June.

The Student Government Association presented the following request for an amendment to their constitution:

Following the suggestion of the University of Kentucky Rules Committee, the Legislature of the Student Government Association has changed the suggested amendment to the Constitution of the Student Government Association. This change, having been ratified by two thirds of the Assembly and an overwhelming majority of the students voting thereon, we hereby submit this matter to the University Faculty for approval:

Let the Constitution of the Student Government Association, Article V, Section 2, which states:

Minutes of the University Faculty May 30, 1945 - cont.

There shall be a Judiciary Committee to be composed of four student Members chosen by, but not from, the Assembly, and three faculty members chosen each year by the President of the University. The Judiciary Committee shall name as Chairman one of the four student members. The Judiciary Committee shall interpret the Constitution of the Student Government Association and the acts of the Assembly, etc. be amended to read thus:

There shall be a Judiciary Committee to be composed of six members. Five members are to be students, two chosen from the Assembly, including the Chairman, and three members to be chosen by the Assembly from the student body at large. The Sixth member of the Committee shall be the Faculty Advisor of the Student Government Association. The Judiciary Committee shall interpret the Constitution and the acts of the Assembly, etc.

The Faculty voted approval of this amendment.

Dean Wiest presented a recommendation from the Faculty of the College of Commerce for authority to offer two new courses, as follows:

Com. 157. Government Finance Administration. (4) Government budget, accounting, debt, purchasing, treasury, revenue, and auditing administration is examined; and illustrations are drawn from federal, state, and local experience. Each student makes a special report on finance-management study or experience. Not open, without instructor's permission, to undergraduates other than commerce, economics, and political science seniors.

Com. 158. Administrative Research Problems (4) The place of a research program in an administrative agency, the coordination between research work and the agency's functional activities, the types of research and the place of each type in the program, the sources of data within and without the agency, tabulation and charting procedures, the simpler processes of analysis of statistical and other information but with a minimum of practice in statistical techniques. Not open, without instructor's permission, to undergraduates other than commerce, economics, and political science seniors.

Authorization of these two courses is requested at this time in order that we may perform our part in the Southern Regional Training Program in Public Administration carried on jointly by the Universities of Alabama, Tennessee, and Kentucky, and the Tennessee Valley Authority.

These courses were approved by the Faculty. In connection with the matter of presenting new courses to the Faculty for approval, Professor Steele suggested that the names of the persons to offer the courses be included in the recommendations from the college. Dean Wiest stated that the courses just approved were to be offered by Professors Martin and Palmer respectively.

President Donovan announced the various activities in connection with Commencement, and urged attendance by members of the faculty and staff.
