

PREFACE.

In offering to the public the first book of this kind ever published, we are carrying out the suggestions of several eminent breeders who have examined our collection of photographs, and who have declared them to be the best pictures of horses ever produced. This is a point on which each admirer of good horses may judge for himself. The pictures are all taken from life, and present every animal just as they actually appear when at rest, which is the posture every horseman desires to examine a horse in when studying his various points of form.

Such a galaxy of distinguished horses being brought together in one collection, an opportunity is given for comparisons, which could not be offered in any other way. Even visiting the stables of the eminent breeders and horsemen in the various States from which this collection was made, would not be so interesting and instructive to the student of equinology, who seeks in form and proportion for the explanation of speed and endurance.

To such study, comparisons are a prime necessity, and to make comparisons, the objects must be brought together.

That the value of the work may be enhanced to breeders, and its interest to all horsemen increased, pedigrees and performances are given in connection with the photograph.

Such a collection of accurate pictures of the celebrated horses of the past would be one of the choicest of treasures.

If we could have the "counterfeit presentment" of Messenger, alone, and could know that it was perfectly accurate, nothing omitted, to the slightest particular, and nothing added by the vain attempt of the artist to make a picture to please the still more pitiful vanity of an owner, there is not a horseman in the country that would not gladly pay for it more than this whole collection will cost.

The value of such pictures as these is not alone in the pleasure and profit they afford to the present, but will increase with years, indefinitely, becoming an interesting part of history that can forever be relied on as perfectly accurate.

Truly Yours,

SCHREIBER & SONS.
