

Minutes of the Meeting of the Executive Committee of the Board of Trustees  
of the University of Kentucky, Friday, August 19, 1966

The Executive Committee of the Board of Trustees of the University of Kentucky met in regular session in the Board Room of the Administration Building on the campus of the University at 1:30 p. m. , EST, on Friday, August 19, 1966, with the following members present: Dr. Ralph Angelucci, Chairman, Dr. Harry Denham, and Mr. Robert Hillenmeyer. Absent were Dr. H. B. Murray, Secretary, and Mr. Smith Broadbent. The administration was represented By Vice Presidents A. D. Albright, Robert F. Kerley, and Glenwood L. Creech. Representatives of the various news media were also present.

A. Meeting Opened

Dr. Angelucci called the meeting to order and appointed Dr. Harry Denham to serve as acting secretary in the absence of Dr. H. B. Murray. Following the roll call, Dr. Denham reported a quorum present and Dr. Angelucci declared the meeting officially open for the conduct of business at 1:45 p. m.

B. Mr. Richard E. Cooper Sworn in as New Board Member

Dr. Angelucci administered the oath of office to Mr. Richard E. Cooper recently appointed to the Board of Trustees by the Governor to replace Mr. O. L. McElroy whose term expired December 31, 1965. Mr. Cooper's appointment is for a four-year term, expiring December 31, 1969.

Dr. Angelucci welcomed Mr. Cooper to membership on the Board and expressed the pleasure of the members of the Executive Committee that he was able to attend this meeting.

C. Minutes Approved

On motion by Mr. Hillenmeyer, seconded by Dr. Denham, and so ordered, the reading of the Minutes of the July 15, 1966 meeting of the Executive Committee was dispensed with and the Minutes were approved as published.

D. Report on Activities

Dr. Angelucci explained that Dr. Oswald had not returned from his trip to Europe and Dr. Albright had been called to Frankfort unexpectedly. He, therefore, asked Dr. Glenwood L. Creech to present the President's Report to the Trustees.

Dr. Creech commented briefly on the items in the report and indicated that as usual copies would be distributed to the faculty and key alumni following acceptance by the Board. Dr. Angelucci, without objection, ordered the report received and filed.

E. Recommendations of the President (PR 2)

Dr. Angelucci asked the members of the Executive Committee if they had any questions relative to the items in PR 2, Recommendations of the President, and if not, he would entertain a motion for approval.

On motion by Dr. Denham, seconded by Mr. Hillenmeyer, and so ordered by Dr. Angelucci, PR 2, Recommendations of the President, was approved as a whole and ordered made a part of the official Minutes of the meeting of August 19, 1966. (See PR 2 at the end of the Minutes.)

F. Supplemental Recommendations of the President (PR 3)

After taking a few minutes to examine the items in PR 3, Supplemental Recommendations of the President, Dr. Denham made the motion that PR 3 be approved as a whole and ordered made a part of the official Minutes of the August 19, 1966 meeting. His motion was seconded by Mr. Hillenmeyer and, without objection, it was so ordered by Dr. Angelucci. (See PR 3 at the end of the Minutes.)

G. Tribute Paid to Dean R. E. Shaver

Dr. Angelucci said that prior to the next item on the agenda, he would like to recognize Dean R. E. Shaver who was present at the meeting. He said it gave him great pleasure to read the following tribute to Dean Shaver who would soon assume his new responsibilities as Director of the Engineering and Construction Management Division in the Office of Business Affairs:

Dean Shaver, it is a pleasure for me to express, on behalf of the University Trustees, our sincerest appreciation for your long and effective service to the College of Engineering

Over a 35-year period - as a professor, as a department chairman, and as dean - you have made noteworthy contributions to this institution. Your valued service has added immeasurably to the prestige not only of the College of Engineering but of the entire University.

Particularly during the last 10 years, a period which coincides almost exactly with your tenure as dean, this nation has looked to the

engineering profession for the scientific and technical advances that are essential to our existence in the Space Age. Thanks in great measure to you, the College of Engineering has played an important role in supplying the know-how and the skilled manpower that are requisite to this nation's security and continuing progress.

A time-proved yardstick for measuring the effectiveness of any educational institution is the performance of its graduates. I know that a source of deep pride to you, as it is for this Board of Trustees, is the high quality of professional service that is being rendered to state and nation today by your College of Engineering graduates.

As you enter upon a new area of service to the University - one for which you are uniquely qualified - this Board extends sincere thanks for your past contributions and looks forward with complete confidence to your performance of new and equally responsible duties.

H. Dr. Robert M. Drake, Jr. Named Dean of the College of Engineering (PR 4a)

Dr. Albright, who had returned from Frankfort, indicated his great pleasure in recommending to the Executive Committee of the Board of Trustees the appointment of Dr. Robert M. Drake, Jr. as Dean of the College of Engineering, effective September 1, 1966. He indicated that this recommendation carried the wholehearted endorsement of President Oswald and the faculty of the College of Engineering. The Faculty Search Committee which Dr. Oswald had appointed to seek a replacement for Dean Shaver had set up certain criteria which are given in PR 4a attached, and had then carefully screened 40 candidates out of a list of approximately 70 names submitted to them. This screening process resulted in a small number of names of eminent persons in the engineering field who satisfied the criteria and among these few names was that of a member of the faculty of the College of Engineering at the University of Kentucky--Dr. Robert M. Drake, Jr. This recommendation carries the unanimous support of the Search Committee.

On motion duly made, seconded, and carried the recommendation that Dr. Drake be named Dean of the College of Engineering, effective September 1, 1966, was approved unanimously.

Dr. Drake was called in to the meeting and Dr. Angelucci informed him of his appointment and expressed the gratification of the Executive Committee that he was to assume the leadership of the College of Engineering and said that the Board of Trustees had utmost confidence in his ability to develop a program, particularly at the graduate level, which would place the College of Engineering at the University of Kentucky in the forefront of the engineering colleges of the nation. (See PR 4a at the end of the Minutes.)

I. Dr. Lewis Cochran Named Acting Dean of the Graduate School (PR 4b)

Inasmuch as the departure of Dean Kirwan is imminent and inasmuch as the Search Committee appointed to seek his replacement as Dean of the Graduate School will require time to perform its function properly, Dr. Albright requested that the appointment of Dr. Lewis Cochran as Acting Dean of the Graduate School be affirmed effective September 1, 1966. He added the affirmation of Dr. Cochran as Acting Dean would provide experienced continuity and would insure leadership in this period for the further development of graduate education in the University.

Upon motion duly made, seconded, and carried, Dr. Lewis Cochran's appointment as Acting Dean of the Graduate School, effective September 1, 1966, was affirmed with the understanding that he would continue to carry the responsibilities of Provost. (See PR 4b at the end of the Minutes.)

J. Dr. Roscoe D. Kelley Named Director of Somerset Community College (PR 4c)

Dr. Albright said that he had one further administrative appointment to recommend--that of Dr. Roscoe D. Kelley as Director of the Somerset Community College, effective by agreement upon the earliest terminal date of his present employment. He added that the Community College System was fortunate to have been able to obtain the services of a person with the background and experience which Dr. Kelley has to head up the Somerset Community College.

On motion duly made, seconded, and carried, the appointment of Dr. Roscoe D. Kelley as Director of the Somerset Community College was approved. (See PR 4c at the end of the Minutes.)

K. Degree Candidates Approved

Since the University Senate does not meet until the opening of the fall semester, approval of the list of degree candidates which follows is recommended with the understanding that such approval shall be given contingent upon subsequent approval by the University Senate and upon the proper certification by the Registrar that all persons have satisfactorily completed all requirements for the degree for which application is made:

Candidates for the Degree of Bachelor of Architecture

William M. Carroll, Jr.  
 Frank Michael Mattone

Houston G. Reese

Upon motion duly made, seconded and carried, approval, contingent upon subsequent approval by the University Senate, was given to the list of candidates presented with the understanding that all requirements have been met and the President was authorized and directed to confer upon each the degree to which he or she is entitled at the commencement exercises in May 1967.

L. College of Agriculture and Home Economics Organization (PR 6)

Dr. Albright called attention to PR 6, a copy of which is included at the end of the Minutes, stating that the proposed organization of the College of Agriculture and Home Economics is the result of special analyses and a restudy of the program in the college and should provide for an even stronger program in the future.

On motion duly made, seconded and carried, the organization of the College of Agriculture and Home Economics as proposed in PR 6 was approved and PR 6 was ordered made an official part of the Minutes of the meeting. (See PR 6 at the end of the Minutes.)

M. Agreement with Kentucky Science and Technology Commission (PR 7)

Dr. Albright said he felt the recommendation and background statement in PR 7 were self-explanatory and recommended approval of the recommendation contained therein.

On motion duly made, seconded and carried, the President was authorized to enter into a contractual agreement with the Kentucky Science and Technology Commission whereby the University will provide administrative, staff, and other professional support to the Commission in order that the Commission may be enabled to carry out its responsibilities as designated by the 1966 General Assembly. (See PR 7 at the end of the Minutes.)

N. Report on Dormitory Housing for the Fall Semester 1966 (PR 8)

Mr. Kerley called attention to PR 8 which gave a detailed explanation of the housing situation which has necessitated the temporary use of off-campus facilities to house 329 students until the 5 low rise buildings in the dormitory complex can be completed. He commended members of his staff, Mr. G. J. Ruschell in particular, for the excellent job which they have done in handling this emergency situation.

Dr. Angelucci accepted the report on behalf of the Executive Committee and ordered it made a part of the Minutes of the meeting. (See PR 8 at the end of the Minutes.)

O. Accreditation of the School of Architecture Announced (PR 9)

Dr. Albright called attention to PR 9 which announced the accreditation of the School of Architecture. He said that particular note should be taken of the fact that only one or two other new schools of architecture have received a full five-year accreditation at the time of their initial accreditation.

Dean Charles P. Graves, who was present at the meeting, was commended for the splendid accreditation report received by the School of Architecture. (See PR 9 at the end of the Minutes.)

P. Report on Research Developments (PR 10)

Dr. Bard called attention to PR 10, Extramural Awards Received During 1965-66 in Support of Research, Training and Related Activities. He explained that the total awards amounted to \$10,348,437.62 and then pointed out the breakdown of these awards according to University units, and according to supporting agencies.

Dr. Bard indicated that research activities show an increase in interdisciplinary or "team" type of operation, such as the Center for Developmental Change, the Tobacco and Health Research Project. There is also increased interest and support of training for service programs, such as the Peace Corps, Head Start, etc. Administrative responsibility in connection with research has become markedly greater since much of the money to support research now comes from Federal grants.

In answer to a question, Dr. Bard replied that the University of Kentucky has a research program comparable with institutions of similar size and is favorably positioned with even larger institutions.

Dr. Angelucci thanked Dr. Bard for his informative report and commended the University of Kentucky Research Foundation for the excellent program which it has developed. (See PR 10 at the end of the Minutes.)

Q. Dr. John L. Ragland Named Professor of Agronomy and Chairman of Department of Agronomy

Dr. Albright said that PR 2 which had been approved before he returned from Frankfort contained the recommendation that Dr. John L. Ragland be named Chairman of the Department of Agronomy; however, it did not include mention of his promotion from Associate Professor to Professor and he wished to recommend approval of this promotion.

On motion duly made, seconded, and carried Dr. John L. Ragland was named Professor of Agronomy as well as Chairman of the Department of Agronomy.

R. Association of Governing Boards Regional Conference

Dr. Albright extended an invitation on behalf of the Association of Governing Boards to members of the Board of Trustees to attend a colloquium to be held in New Orleans, October 11-12, 1966. This is one of a series of regional sessions which will be concerned with the outlook for the liberal arts both in the university and in the separate college.

S. Meeting Adjourned

Dr. Angelucci having first determined there was no further business to come before the meeting, called for a motion for adjournment. On motion duly made, seconded and carried, the meeting was declared officially adjourned at 2:45 p. m.

Respectfully submitted,

Harry Denham, Acting Secretary  
Board of Trustees

PR 2, PR 3, PR 4a, 4b, 4c, PR 6, PR 7, PR 8, PR 9, and PR 10 are official parts of the Minutes of the August 19, 1966, meeting of the Executive Committee of the Board of Trustees.

PR-1

PRESIDENT'S REPORT TO THE TRUSTEES

August 19, 1966

1. SENIOR CITIZENS PROGRAM PRODUCES DEGREE-WINNER

The Herman L. Donovan Senior Citizens Fellowship Program, which was inaugurated by the University in 1964 to provide free classroom instruction to any interested person 65 years of age or older, has produced its first graduate. She is Mrs. Amanda Newell Hicks of Midway, who recently completed requirements for a degree in elementary education.

Mrs. Hicks, who for some years has been a teacher at Sayre School in Lexington, plans to continue her studies under the Donovan program. She is one of approximately 200 who have taken advantage of the opportunity for free study.

The Donovan program, which is directed by Dr. Earl Kauffman, continues to attract wide attention. The August 12 issue of Time Magazine contains a report on the program, emphasizing the enthusiasm which the participants demonstrate for their work. A similar article on the Donovan program, which appeared in The National Observer in April, brought inquiries from persons in 13 other states, including a candidate for governor and a state legislator who wished to copy the program in their states.

2. TECHNICAL INSTITUTE OFFERING NEW PROGRAM

A new associate-degree program in respiratory therapy is being offered in the University's Lexington Technical Institute. Students now are being enrolled in the program, which calls for approximately one year of general education courses and another year of technical courses. The student who successfully completes the two-year program is awarded the degree of Associate in Applied Science.

Openings still exist in the Institute's technical programs in mechanical and electrical engineering. Enrollment is closed, however, for two other associate degree programs, nursing and dental laboratory technology.

3. OVER 100 ATTEND WORKSHOP FOR EDITORS

More than 100 high school yearbook editors and advisors were on campus August 3-4 for a workshop presented by the University and the Kentucky High School Press Association. The visitors received instruction in copy writing, yearbook design, and photography. They also inspected the University printing plant and heard critical evaluations of their yearbooks by representatives of several publishing companies.

Consultants for the workshop included Joe Creason, Lee Heiman and Billy Davis, all of The Louisville Courier-Journal; William Robertson, editor of The Thoroughbred Record; Richard Deane, Eastern Kentucky University; Prof. J. A. McCauley of the University School of Journalism, and UK photographer Ken Goad.

4. VIDEO TAPE USED BY COUNSELING STUDENTS

Students in the College of Education who plan to become guidance counselors now are using video tape for a more effective analysis of their practice counseling. In the same way that athletes learn to correct mistakes by watching films of their own performance, so do the counseling students observe the strengths and weaknesses of their technique in conducting interviews. Use of the video tapes was initiated this summer in a project headed by Dr. Car M. Foster, who says they appear to be considerably more effective as teaching aids than the sound-on-tape recordings that have been used for years in counseling classes.

The 22 students who were involved in the summer-term video project were divided into two groups. Members of one group studied their tapes immediately after each interview and critically analyzed their performance. The other students did not view their tapes until the term had ended. A comparison of progress made by the two groups will supply more information on the usefulness of video tape in the classroom.

5. PRESS PUBLISHES BOOK ON MARINE TRANSPORTATION

A book published early this month by the University Press traces the history of coastal shipping along the Pacific seaboard of the United States. The volume, "Ships That Sail No More," is by Giles T. Brown, chairman of the history department at California State College at Fullerton. It tells the story of West Coast marine transportation from 1910 to 1940 but focuses particularly on the Admiral Line, which dominated the industry throughout much of that period.

6. UK PROFESSOR HAS KEY DATA ON VIET NAM

When the shooting finally does stop in Viet Nam, much of the effort to rebuild that country's war-devastated economy will be based on data collected during a two-year stay there by Dr. Robert H. Stroup, associate professor of economics. The Agency for International Development recently approved a \$30,892 grant that will allow Dr. Stroup to begin analyzing his store of information on rural Viet Nam, collected there during a 1963-65 survey for the AID.

The UK economist possesses what is generally held to be the most comprehensive collection of information on the Viet Nam countryside. A preliminary report, published by the U.S. Operations Mission to Viet Nam in July, 1965, represents most of what is currently known about economic conditions in rural South Viet Nam.

7. LAW STUDENTS AID EAST KENTUCKY AGENCIES

Five University law students have been employed this summer in Eastern Kentucky, assisting anti-poverty agencies and local attorneys in identifying the legal needs of indigents. The summer internship program is sponsored by Oak Ridge Associated Universities through a \$23,000 grant from the Office of Economic Opportunity. The grant supports the work of 10 law students, five from UK and five from the University of Tennessee.

The Kentucky interns, whose work is supervised by Prof. Eugene Mooney of the College of Law, are Sidney B. Douglas, Harlan, working with the Harlan County Planning and Development Council; Stephen C. Cawood, Pineville, assigned to the Knox County Economic Opportunity Council; Gary Littleton, Grayson, with the Northeast Kentucky Area Development Council; Keen W. Johnson, Paintsville, the Big Sandy Community Action Program, and Kendall Robinson, Booneville, the Jackson County Improvement Association.

8. EDWARD BRYANT TO DIRECT ART GALLERY PROGRAM

Edward Bryant, who joined the University faculty a year ago as visiting assistant professor of art, has been appointed director of the art gallery. Mr. Bryant formerly was general curator of the Wadsworth Atheneum, Hartford, Conn., and associate curator of the Whitney Museum of American Art in New York City.

Among the exhibitions which Mr. Bryant currently is planning are paintings by important artists associated with various universities, masterpieces from university collections, recent Italian prints and drawings, primitive art, and 20th century stage and costume designs.

9. COLLEGE OF EDUCATION TO AID HANDICAPPED

Teachers of handicapped children often find themselves handicapped by an acutely short supply of suitable classroom materials. To help remedy that situation, the U.S. Office of Education has commissioned the College of Education and nine other institutions across the country to produce and distribute such materials.

The College of Education has been allotted a \$110,494 grant to support the first 12 months' activity in a three-year program that will see the establishment and development of a Special Education Instructional Materials Center. Under the direction of Dr. W. J. Tisdall, the center will offer direct services to Kentucky school systems and supply consultative service to schools in West Virginia, Virginia, North Carolina, Maryland, Puerto Rico and the Virgin Islands.

Dr. Tisdall said the new facility will develop and collect such classroom aids as language kits for children suffering from brain injury, materials for use in correcting speech handicaps, and specially developed reading matter for the mentally retarded. Personnel of the center not only will evaluate the new materials but will demonstrate their use to special education teachers in schools, clinics, hospitals, and other institutions which work with handicapped children.

The UK center will maintain close communication with the nine other regional centers, eventually by means of a computerized teletype network.

10. AWARDS GO TO 20 GRADUATE STUDENTS

Twenty students looking toward careers in the diplomatic service or in other areas of international affairs have been awarded grants for graduate study at the University during the 1966-67 academic year. The awards include assistantships and fellowships in the Patterson School of Diplomacy and International Commerce, and the Center for Developmental Change. Dr. Richard Butwell, director of the Patterson School, says the recipients are drawn from colleges and universities from Vermont to California. Several have completed service as Peace Corps volunteers, he reports.

Recipients of the study grants are Roy Thoman, Evansville, Ind.; John E. Diller, Norwich, Vt.; Laszlo D. Miklos, Pueblo, Colo.; William Bowker, Shreveport, La.; Randall D. Burge, Cleveland Heights, Ohio; Janet I. Denick, Dayton, Ohio; Albert F. Eldridge, Franklin, Va.; Taesung Juhn, Seoul, Korea; Danny M. Loftin, Troutman, N. C.; Dusan Lovric, Buffalo, N. Y.; David R. Simon, Champaign, Ill.; Daniel W. Telegdy, Bridgeville, Pa.; Joe B. Darnall, Benton, Ky.; Kenneth J. Fischer, Oaklawn, Ill.; Janice W. Humble, Winchester, Ky.; Brady J. Deaton, London, Ky.; Lynden V. Emerson, Mill Valley, Calif.; Robert Benner, Owensboro; Charlotte T. Kennedy, Lexington, and Ronald J. Aulgur, Lebanon, Tenn.

11. ALUMNI MAGAZINE WINS THREE AWARDS

The Kentucky Alumnus, official magazine of the Alumni Association, has won three of the American Alumni Council's 1966 publication awards. The magazine, edited by Quentin Allen of the Department of Public Relations, captured the Time-Life Award as the most improved publication in the Alumni Council's District Three, an area embracing nine southern states, and tied for second place nationally in this category. Sharing the national runner-up spot with the UK magazine was the alumni publication of Franklin and Marshall College. The first-place winner was the UCLA magazine.

The UK magazine also won an Alumni Council special award for two articles published during the past year. The prize-winning stories were "Growth Comes to Kentucky," a report on the development of the community college system, and the "Enrollment Jam - A Crisis Yet Unresolved," which urged parents to help institutions of higher education.

12. REPORT ANALYZES POPULATION GROWTH

Kentucky's Blue Grass region has, in the long view, contributed more to the state's population growth than any other area. That is one of the findings of a study, "Population Growth in Kentucky, 1820-1960," just published by the Agricultural Experiment Station. The report, compiled and written by Dr. George A. Hillery, Jr., associate professor of sociology, lists the population figure of each Kentucky county for every year in which there is a record. It also traces the growth pattern for the state's various geographic areas.

The report by Dr. Hillery is one in a series of Kentucky population studies that were originated by Dr. Howard W. Beers. Copies of the new report may be obtained from the Agricultural Experiment Station.

13. STUDY WILL PROBE U.S. FUNDS' EFFECT ON SCHOOLS

The effect upon Kentucky school districts of new educational programs financed by federal funds is the subject of a one-year study now being undertaken by Drs. James R. Ogletree and James B. Kincheloe of the College of Education.

Objects of their study are to be four Kentucky school districts which have received funds under Title I of the U. S. Elementary and Secondary Education Act. Title I provides for program innovations in schools. Each district will be examined for evidence of social and other change attributable to the federally financed programs. The study by the two University investigators is financed by a \$49,356 grant from the U.S. Office of Education.

14. BOOKLET SUMMARIZES ARTS-HUMANITIES SYMPOSIUM

The arts-humanities symposium held on campus last December is summarized in a booklet published last month by a Dayton, Ohio, firm. The publication includes excerpts from papers presented by philosopher Harold Taylor, sociologist Edgar Z. Friedenberg, drama critic Stanley Kauffmann, art critic Harold Rosenberg, conductor Robert Shaw, and poet Stephen Spender.

Dr. Richard I. Miller of the College of Education, who served as chairman of the symposium, writes in a preface to the booklet: "If one common thread ran through the papers and discussions, it was the conviction that the arts and humanities have loitered backstage too long."

Copies of the booklet may be obtained by writing Westab, Inc., Hulman Building, Dayton, Ohio 45402.

15. COMMUNITY COLLEGES OFFER SECRETARY PROGRAM

With the start of the fall semester, eight of the University's community colleges will offer a revised two-year program in professional secretaryship. The associate degree program, available at all except the Fort Knox college, provides general administrative, legal, medical, and bilingual specialties. The first three of these will be offered by the Lexington Technical Institute.

The new curriculum was developed as a means of partially relieving the state's critical shortage of trained personnel in technical and semi-professional fields. Professional secretaries graduating with the degree of associate in applied science are qualified for many positions in banks, hospitals, insurance and manufacturing firms, and in the offices of attorneys and physicians.

Professional courses included in the program are typewriting, shorthand, accounting, secretarial procedures, office machines and records management. Approximately half of the curriculum consists of general education courses in the humanities, mathematics, modern foreign languages, English composition, biological, behavioral and social sciences.

16. INSTITUTE DRAWS DELEGATES FROM 29 STATES

The 14th annual College Business Management Institute, held on campus July 17-22, drew a record number of participants--126 persons from 29 states and one foreign country. One of only two programs of its kind in the United States, the institute is sponsored by the University's business affairs department, the College of Business and Economics, and the Southern Association of College and University Business Officers. Coordinator for this year's event was Paul Nestor, director of the Business Services Division.

17. STATE MAKING HEADWAY IN ECONOMIC GROWTH

A recent study by Dr. L. Randolph McGee, assistant professor of economics, shows that Kentucky's economy is growing faster than that of the nation as a whole, and is less sensitive to fluctuations in the business cycle.

Writing in the current issue of "Research Briefs," a publication of the Bureau of Business Research, Dr. McGee notes that during the 1960's the Kentucky economy has improved both its cyclical performance and its growth position relative to that of the U.S. at large. He also cites recent findings of Don M. Soule, assistant director of the business research bureau, that general improvement in the Kentucky situation is providing an economic climate which is reducing the net out-migration of Kentuckians. "The fact that fewer Kentuckians are looking for jobs in other states," Dr. McGee writes, "has no doubt had a favorable impact on the relative cyclical sensitivity of personal income in Kentucky."

18. FARM YOUTHS FROM 35 COUNTRIES VISIT CAMPUS

More than 100 young people from 35 countries were guests of the University from July 27 to August 3 for the International Farm Youth Exchange Mid-Point Conference. The visitors, who are studying life in the United States by making their homes for several months with American families, now are at the mid-point of their stay in this country. Panels of University staff members attempted to answer questions that had arisen in the visitors' minds as a result of their observations of Americans' current way of life.

Reflecting their concern with international problems, the exchange students sought information on such topics as the world food shortage, overpopulation, the U.S. foreign aid program, the effect of automation on industrialized societies, and the philosophy underlying this country's vast expenditures for nuclear research and exploration of space.

19. MT. STERLING STUDENT WINS WHITEHOUSE AWARD

Isaac David Rogers, Mt. Sterling, has been named winner of the A. J. Whitehouse Award as the University's outstanding pre-medical graduate of 1966. The award is an annual gift of Dr. A. J. Whitehouse, Lexington physician and UK alumnus. Mr. Rogers, a chemistry major who was graduated with honors in May, will be a member of this year's entering class at the College of Medicine.

20. RESEARCH AWARDS TOP \$3 MILLION MARK IN JULY

The University Research Foundation has reported the receipt of 65 agreement awards during the month of July. The total sum represented by these awards is \$3,025,143. During July, the Foundation also received \$12,100 for scholarships, loans, and other purposes.

The July awards were distributed as follows:

COLLEGE OF AGRICULTURE

Department of Agricultural Engineering - Dr. J. M. Bunn, \$3,000, for evaluation of burley tobacco curing through physical and chemical measurements. R. J. Reynolds Tobacco Co.

Department of Agronomy - Dr. A. J. Hiatt, \$112,829, biosynthesis and metabolic pathways and secondary amines and other nitrogen compounds and to observe the translocation and redistribution in tobacco plants of health-related compounds and means of regulation. U.S. Department of Agriculture.

Dr. A. J. Hiatt, \$4,000, for study of uptake of plant nutrients and burley tobacco varieties and its relation to quality of leaf. R. J. Reynolds Tobacco Co.

Dr. H. F. Massey and Dr. J. L. Ragland, \$4,000, for study of influence of native levels of minor elements in Kentucky soils and nitrogen fertilization upon the inorganic and organic composition of burley tobacco. R. J. Reynolds Tobacco Co.

Dr. H. F. Massey, \$311,394, for investigations on the analysis of tobacco, tobacco smoke condensates and fractions thereof. U.S. Department of Agriculture.

Dr. J. L. Sims, \$92,988, for investigations designed to study the effects of varying soil, fertilizer, cultural practices, varieties and curing methods on the levels of compounds which are considered to be precursors of nitrosamines. U.S. Department of Agriculture.

Dr. G. W. Stokes, \$123,731, for investigations on the manufacturing of experimental cigarettes and the preparation of cigarette smoke condensates. U.S. Department of Agriculture.

Dr. G. W. Stokes, \$74,656, tobacco and health related research involving genetic control of sterols and nitrogenous constituents. U.S. Department of Agriculture.

Department of Animal Science - Dr. W. P. Garrigus, \$5,000, for swine, beef and meats research in the department. Fischer Packing Co.

Department of Entomology and Botany - Dr. L. H. Townsend, \$450, for investigation of chemical control of insects attacking tobacco, forage and vegetable crops. Allied Chemical Corp. Dr. Richard Thurston, \$4,000, for study of insecticide residues on tobacco. R. J. Reynolds Tobacco Co.

Department of Plant Pathology - Dr. M. R. Siegel, \$127,000, for investigations designed to determine the role of microbial activity in producing carcinogens in marketed tobacco. U.S. Department of Agriculture. Dr. G. W. Stokes, \$1,000, for study of the inheritance of alkaloids. R. J. Reynolds Tobacco Co. Dr. G. W. Stokes and Dr. C. C. Litton, \$1,000, for study of black shank breeding plots. R. J. Reynolds Tobacco Co.

#### COLLEGE OF ARTS AND SCIENCES

Department of Chemistry - Dr. E. V. Brown, \$86,323, for investigations of nitrosamines in cigarette smoke. U.S. Department of Agriculture.

Department of Microbiology - Dr. R. H. Weaver, \$5,300, predoctoral fellowship. National Institutes of General Medical Sciences.

#### COUNCIL ON AGING

Dr. Earl Kauffman, \$11,422, for project concerned with continuing education for older people. U.S. Office of Education.

#### COLLEGE OF DENTISTRY

Office of the Dean - Dr. A. L. Morris, \$39,479, for health professions educational improvement program. U.S. Public Health Service.

Department of Community Dentistry - Dr. W. O. Young, \$71,746, preventive dentistry training grant. Bureau of State Services, Public Health Service.

Department of Operative Dentistry - Dr. W. E. Fischer, \$50,213, dental auxiliary utilization training grant. National Institutes of Health.

Department of Oral Pathology - Dr. Sheldon Rovin, \$37,322, for clinical cancer training. National Institutes of Health.

Department of Periodontics and Endodontics - Dr. P. R. Courant, \$66,083, for investigations on the electron transport system of bacteroides melanogenicus. U.S. Department of Agriculture.

Department of Prosthodontics - Dr. J. R. Mink, \$500, for adaptation of a steel crown. Uniteck Corporation.

COLLEGE OF EDUCATION

Bureau of School Services - Dr. Paul Street, \$1,130, for study of physical facilities of the Trigg County (Ky.) School District. Trigg County Board of Education.

Division of Administration and Supervision - Dr. Harry Robinson, \$52,500, for National Teachers Corps program. U.S. Office of Education.

Division of Curriculum - Dr. A. S. Levy, \$3,100, for mental retardation training of child developmental technicians. Kentucky Department of Mental Health.

Division of Foundations of Education - Dr. E. D. McDaniel, \$5,400, for study of the impact of multi-level materials on teaching behavior and learning outcomes. U.S. Office of Education.

COLLEGE OF ENGINEERING

Department of Civil Engineering - Dr. J. W. Hutchinson, \$41,149, for locally oriented driver education through mass communication media. U.S. Office of Education. Dr. R. A. Lauderdale, \$27,745, for training in water supply and pollution control. U.S. Public Health Service. Dr. R. A. Lauderdale, \$87,500, for water resources project. U.S. Department of Interior.

Department of Mining and Metallurgical Engineering - Dr. J. G. Morris, \$1,000, for support of undergraduate student. Olin Mathieson Charitable Trust.

KENTUCKY GEOLOGICAL SURVEY

Dr. W. W. Hagan, \$535,000, Kentucky Geological Survey contract, Kentucky Department of Commerce. Dr. W. W. Hagan, \$88,125, for topographic mapping project. Kentucky Department of Commerce.

COLLEGE OF MEDICINE

Office of the Dean - Dr. W. R. Willard, \$57,902, for health professions educational improvement program. U.S. Public Health Service.

Department of Anesthesiology - Dr. D. H. Morrow, \$8,228, for study of anesthesia and digitalis toxicity. U.S. Public Health Service. Dr. P. P. Bosomworth, \$29,799, career development award. National Institutes of Health.

Department of Behavioral Science - Dr. Robert Straus, \$29,035, for medical behavioral sciences graduate training grant. National Institutes of Health. Dr. Robert Straus, \$46,810, human behavioral training grant. National Institutes of Health.

Department of Biochemistry - Dr. R. L. Lester, \$5,100, biochemistry predoctoral fellowship. Dr. G. W. Schwert, \$24,844, biochemistry graduate training grant. Dr. R. S. Schweet, \$76,813, for synthesis of hemoglobin in a cell-free system. All awards from National Institutes of Health.

Department of Community Medicine - Dr. Keene Watson, \$5,000, for survey of non-resident population in Leslie County. Office of Economic Opportunity. Dr. Keene Watson, \$1,833, for community medicine biostatistics. Johns Hopkins University. Dr. Hugh Fulmer, \$7,000, residency training in general preventive medicine. U.S. Public Health Service. Dr. J. W. Tapp, \$32,619, field professorship in community medicine. U.S. Public Health Service.

Department of Medicine - Dr. J. E. Cohn, \$45,046, pulmonary graduate training grant. National Institutes of Health. Dr. W. W. Winternitz, \$25,196, endocrinology graduate training grant. National Institutes of Health. Dr. Paul Mandelstam and Dr. E. D. Rees, \$56,500, for investigation of the absorption of carcinogens and structurally related non-carcinogens from gastrointestinal tract of rodents. U.S. Department of Agriculture.

Department of Pathology - Dr. Irene Roeckel and Dr. L. D. Dubilier, \$44,367, for investigations on respiratory epithelial cell turnover. U.S. Department of Agriculture. Dr. W. B. Stewart, \$18,721, for study of effects of lathyrogens on cultured connective tissue. National Institutes of Health.

Department of Pharmacology - Dr. J. W. Flesher, \$64,166, for investigations on the distribution and metabolism of benzo. U.S. Department of Agriculture.

Department of Psychiatry - Dr. J. C. Finney, \$22,429, for development of objective psychological tests. Dr. J. B. Parker, \$37,800, G. P. residency training grant in psychiatry; \$17,081, G. P. postgraduate training grant; \$41,480, undergraduate psychiatry, and \$39,874, psychiatry basic residency training grant. All awards from National Institutes of Health.

Department of Physiology and Biophysics - Dr. L. D. Carlson, \$37,739, physiology graduate training grant. Dr. L. L. Boyarsky, \$13,248, transmitter release. Both awards from National Institutes of Health.

Department of Surgery - Dr. L. R. Bryant, \$15,625, study of post-surgical ventilation blood flow changes. Dr. Benjamin Rush, \$58,291, clinical cancer training grant. Dr. Ben Eiseman, \$11,760, for study of blood volume and hypotension in narcotic addicts. Dr. W. O. Griffen, \$56,449, clinical investigator training grant. Dr. K. N. Walton, \$18,303, study of metabolism of prostatic cancer.

#### OTHER

John and Mary Markle Foundation, \$12,000; Wyeth Laboratories, \$100.

21. SIGNIFICANT ACTIVITIES OF FACULTY AND STAFF

Dr. J. C. Eaves, professor of mathematics, has been elected president of the national mathematics honorary, Pi Mu Epsilon. He is the first Kentuckian to head the 63-year-old organization.

Dr. Robert O. Evans, associate professor of English, is the author of a book, "The Osier Cage," published last month by the University Press.

Dr. Ray H. Dutt, professor of animal sciences, has been elected vice president of the American Society of Animal Science.

Dr. Mark M. Luckens, assistant professor of materia medica, has been named editor of the Journal of Environmental Sciences.

Dr. Thomas B. Brewer, assistant professor of history, is co-editor of "Views of American Economic Growth," a two-volume work published recently by McGraw-Hill Book Co.

Prof. Alfred L. Crabb, Jr., assistant to the chairman of the Department of English and Speech, has been elected to the executive board of the Conference on English Education.

Richard S. Warren, assistant administrator of University Hospital, will be inducted this month into the American College of Hospital Administrators.

Dr. G. W. Schneider, associate director of the Cooperative Extension Service, has been elected a fellow of the American Association for the Advancement of Science.

Dr. Mary Ellen Rickey, associate professor of English, is the author of a book, "Utmost Art," published recently by the University Press.

Dr. A. D. Albright, executive vice president, has been named to the board of trustees of the American College Testing Program.

Dr. Malcolm E. Jewell, professor of political science, is co-author of a book, "The Legislative Process in the United States," just published by Random House.

Kermit Mills and Harvey E. Hamilton, both of the Cooperative Extension Service, won first-place awards in the recent national exhibits competition sponsored by the American Society of Agricultural Engineers.

Dr. Ernst Jokl, professor of physical education, delivered a paper on preventive cardiology at a recent meeting of the Berlin Medical Association.

Dr. John M. Carpenter, professor of zoology, has been named by the Association for Higher Education to a special committee for the study of undergraduate education problems.

Mrs. Lizette Van Gelder, associate professor of English, has been appointed by the U.S. Office of Education to examine proposals for 1967 English Institutes to be held under provisions of the National Defense Education Act.

Capt. James B. Channon of the Department of Military Science is co-author of a book, "The First Three Years," which details the Vietnamese combat operations of the 173rd Airborne Brigade.

Dean Charles P. Graves of the School of Architecture has been elected second vice president of the National Council of Architectural Registration Boards.

Office of the President  
August 19, 1966

PR 2

To Members, Executive Committee, Board of Trustees:

RECOMMENDATIONS OF THE PRESIDENT

I. Graduate Faculty Appointments

Recommendation: that approval be given to the following persons for membership in the Graduate Faculty.

Background: The persons whose names appear below have been approved by the area committees and the Board of Trustees and are now eligible for membership in the Graduate Faculty.

William Axton, Associate Professor of English  
Richard C. Birkebak, Associate Professor of Mechanical Engineering  
Joe M. Bunn, Associate Professor of Agricultural Engineering  
Samuel F. Conti, Professor of Microbiology  
Clifford John Cremers, Associate Professor of Mechanical Engineering  
James L. Gibson, Associate Professor of Business Administration  
Willis Griffin, Associate Professor of Education  
Lloyd Jensen, Associate Professor of Political Science  
Frank R. Keogh, Professor of Mathematics  
Fred W. Knapp, Associate Professor of Entomology  
Swarupchand M. Shah, Professor of Mathematics  
Robert K. Thorpe, Associate Professor of Journalism  
Wayne Wonderley, Professor of German

II. Patent Assignment

Recommendation: that authorization be given to the proper officials of the University of Kentucky Board of Trustees to execute an assignment on behalf of the Board to the University of Kentucky Research Foundation of the following applications for Letters Patent of the United States and the inventions represented thereby: Fred W. Knapp - Serial No. 552,928, filed May 25, 1966, and Serial No. 552,834, filed May 25, 1966.

Background: Fred W. Knapp has invented certain improvements in (a) Method of and Apparatus for Producing and Dispensing an Insecticide Liquid for which he filed an application for Letters Patent of the United States on May 25, 1966,

identified by Serial No. 552,928, and (b) Insecticide Dust Bag for which he filed an application for Letters Patent of the United States on May 25, 1966, identified by Serial No. 552,834. Under date of August 2, 1966, he executed an assignment of his entire right, title and interest in and to the said applications, including all priority rights arising therefrom, all inventions therein disclosed, and any and all Letters Patent of the United States and of all other countries which may be granted for the said inventions, or any of them to the Board of Trustees of the University of Kentucky.

The Patent Committee of the University of Kentucky has reviewed the assignment and agreement made between the University and the Patentee and recommends that such assignment be transferred to the University of Kentucky Research Foundation for administration.

### III. Classification of Professional Librarians

Recommendation: that approval be given to the indicated classifications for the professional librarians on the Lexington campus and at the Community Colleges.

Background: At the February 18, 1966 meeting, the Executive Committee approved a recommendation that effective July 1, 1966, librarians at the University have faculty status and hold academic appointments in grades designated Librarian I, Librarian II, Librarian III, and Librarian IV, equivalent to the academic titles Professor, Associate Professor, Assistant Professor, and Instructor. The Director of Libraries was instructed to make recommendations concerning criteria for appointment or promotion to these grades to the Executive Vice President who would consult with an appropriate committee of the faculty and recommend action to the President. It is now recommended that the designated classifications be approved for the persons whose names appear below:

#### Librarian I

Jacqueline P. Bull  
Nancy H. Chambers  
Stuart F. Forth  
William M. Gardner  
Harold D. Gordon  
Carolyn R. Hammer  
M. Elizabeth Hanson  
Kate T. Irvine  
Dorothy Salmon  
Ellen B. Stutsman

#### Librarian II

Mary Ruth Brown  
Susan D. Csaky  
Rebekah Harleston  
Catherine L. Katterjohn  
Larry J. Pope

Frances D. Shine  
Emily V. Smith  
Eliza P. Underwood

#### Librarian III

Charles L. Atcher  
Ellen P. Baxter  
Lois M. Chan  
Elizabeth R. Clotfelter  
Mary Hester Cooper  
Emily H. Dawson  
Evelyn P. Evans  
Norma J. Gibson  
Sara H. Leech  
Vivian J. MacQuown  
Claire McCann  
Agnes S. McDowell  
Margaret A. Meyer

Frances N. Milward  
Mildred A. Moore  
Elizabeth R. VanHorne  
Mary C. Voorhes  
Virginia C. Walker  
Barbara Woods  
J. Michael Bruer

#### Librarian IV

Marie T. Copeland  
Sandra A. Hazlett  
M. Frances Kelley  
Virginia P. Kerr  
Jo Ann Koehne  
Elizabeth G. Morgan  
Jane M. White  
Nancy M. Yang

COMMUNITY COLLEGESLibrarian II

Maralea Arnett

Freda Howell

Marion Smith

Robert Wallace

Gertrude Dale

Librarian III

Betty J. McFarland

Librarian IV

Frederick Gardner

IV. Appointments and Other Staff Changes

Recommendation: that approval be given to the appointments and/or other changes which require Board action and that the report relative to appointments and/or changes already approved by the administration be accepted.

Background: Approval of the Board of Trustees is required for all appointments to positions with the rank of Associate Professor and above, for promotions, for the granting of tenure, and for salary changes above \$12,000 for non-academic personnel and \$15,000 for academic personnel. All other appointments and/or changes may be made by the President and reported to the Board.

BOARD ACTIONNew Appointments

Harry V. Barnard, Associate Professor, Division of Curriculum, Education

Roberta Bleiler Hill, Associate Professor, School of Home Economics

Donald L. Richard, Associate Professor, Department of Accounting, Business and Economics

Salaries Above \$15,000

Robert Frank Gloor, Assistant Professor, Department of Community Medicine

Donald Worth Rice, Assistant Professor, Department of Prosthodontics, College of Dentistry and Lexington Technical Institute, Community College System

J. Kent Trinkle, Instructor, Department of Surgery

Thomas E. Buie, Jr., Instructor, Department of Psychiatry, and Physician, University Health Service

Frank S. Cascio, Assistant Professor, Clinical Medicine, Department of Medicine, and Physician, University Health Service

Resignations

Loren D. Carlson, Professor and Chairman, Department of Physiology and Biophysics

William Carse, Associate Professor and Chairman, Division of Counseling and Guidance, Education

Edmund D. Pellegrino, Professor and Chairman, Department of Medicine

Promotions

Clyde Carpenter, Instructor to Assistant Professor, School of Architecture  
 Dorothy R. Tapp, Instructor to Senior Instructor (with tenure), Henderson  
 Community College  
 E. L. Overfield, Instructor to Senior Instructor (with tenure), Henderson  
 Community College

Leaves of Absence

John A. Koepke, Associate Professor of Pathology, sabbatic leave, calendar  
 year 1967  
 Gene H. Brown, Associate Extension Agent, sabbatic leave, July 1-November 15,  
 1966  
 Elizabeth Howard, Library Assistant, leave without pay, September 1, 1966  
 through May 30, 1967  
 Beverly Stanley, Assistant Professor, Division of Curriculum, leave without  
 pay, September through December 1966.

Waiver of Nepotism Regulation

Judith Worell, wife of Leonard Worell, Professor, Department of Psychology,  
 as Research Associate, Department of Psychology

ADMINISTRATION REPORTNew Appointments - Campus

Mary Wilma Hargreaves, Assistant Professor, Department of History  
 William M. Bayer, Instructor, Department of Art  
 Carl E. Burkhead, Assistant Professor, Department of Civil Engineering  
 Frank A. Butler, Assistant Professor, Department of Physics  
 Bradley Canon, Instructor, Department of Political Science  
 James Edward Carver, Assistant Professor, Department of Zoology  
 Joseph Ceo, Assistant Professor of Music (Applied), Department of Music  
 Guy Lee Monty Chappell, Assistant Extension Professor of Animal Science  
 Rodney Farrar, Instructor in Music (Applied) Department of Music  
 Car M. Foster, Assistant Professor, Counseling and Guidance, Education  
 Everette Hugh Gerlach, Jr., Instructor, Department of Pathology  
 Michael D. Hall, Assistant Professor, Department of Art  
 E. Wayne Herron, Assistant Professor, Department of Psychology  
 Gary Lee Hill, Instructor, Department of Physical Education  
 Dennis R. Hoilman, Instructor, Department of English  
 H. Douglas Jameson, Assistant Professor, Department of Neurology and  
 Department of Physiology and Biophysics  
 Marty J. Kalb, Instructor, Department of Art  
 David Teh-Yu Kao, Instructor, Department of Civil Engineering  
 Robert G. Loy, Assistant Professor, Department of Veterinary Science  
 Stanford J. Lunstrum, Instructor, Department of Forestry

Louis A. Norton, Assistant Professor, Department of Orthodontics  
 Jon W. Petway, Assistant Professor, Department of Electrical Engineering  
 Anthony Dan Tarlock, Assistant Professor, College of Law

New Appointments - Community College System

Ashland Community College

Annabel R. Lenning, Instructor, English

Southeast Community College

William McKinley Davis, Instructor

Elizabethtown Community College

Marshall Dean Myers, Instructor

Bill Gene Smith, Instructor

Jean Kabler Custer, Instructor

Somerset Community College

John J. Madura, Instructor

John M. Dykes, Instructor

Hopkinsville Community College

Charles E. Fothergill, Instructor

H. Stephen Mohler, Instructor

Joseph M. Murphy, Instructor

James E. Barnes, Instructor

M. W. Twyman, Instructor

J. D. Wright, Instructor

Desmond Ray Hargis, Instructor

Prestonsburg Community College

Ray Reed, Instructor

Lexington Technical Institute

Madeline Marie Billow, Instructor

Reappointments - Campus

Juris I. Berzins, Assistant Professor, Department of Psychology

Walter R. Luszczyński, Assistant Professor, Department of French

Martha A. Rolingson, Instructor, Department of Anthropology

Members, Executive Committee, Board of Trustees:

SUPPLEMENTAL RECOMMENDATIONS

I. Free Fee Scholarship

Recommendation: that a free fee scholarship be granted to Mr. Armando Gonzalez from Managua, Nicaragua, at the Henderson Community College for the academic year 1966-67.

Background: The Henderson Rotary Club has sponsored several foreign students in the past by providing books, housing, and board, and the University has provided free fee scholarships for them. The Club has requested that the University provide a free fee scholarship for Mr. Armando Gonzalez who has been selected by their Scholarship Committee as the recipient this year. In addition to the sponsorship of a foreign student, the Henderson Rotary Club has awarded three local student tuition scholarships to the Henderson Community College for 1966-67.

II. Graduate Faculty Appointments

Recommendation: that approval be given to the following persons for membership in the Graduate Faculty.

Background: The persons whose names appear below have been approved by the area committees and the Board of Trustees and are now eligible for membership in the Graduate Faculty.

Lawrence Allen, Professor and Chairman, Department of  
Library Science  
Robert Pranger, Associate Professor, Department of  
Political Science

III. Appointments and Other Staff Changes

Recommendation: that approval be given to the appointments and/or other changes which require Board action and that the report relative to appointments and/or other changes already approved by the administration be accepted.

Background: Approval of the Board of Trustees is required for all appointments to positions with the rank of Associate Professor and above, to promotions, and to the granting of tenure, and to salary changes above \$12,000 for non-academic personnel and \$15,000 for academic personnel. All other appointments and/or changes may be made by the President and reported to the Board.

#### BOARD ACTION REQUIRED

##### Tenure Granted

James Cobb, Assistant Professor, Department of English, tenure granted in the University and/or the Community College System

##### Resignation

Bennon J. Trawinski, Associate Professor, Department of Behavioral Science

#### IV. Certification and Verification of Cremation of Bonds and Coupons (Attachment 1)

Recommendation: that the attached certification of destruction of principal bonds and coupons be accepted as verification of said destruction of bonds and coupons and that the certification be made a part of the permanent records of the August 19, 1966 meeting of the Executive Committee of the Board of Trustees.

Background: These bonds and coupons were received from the Paying Agents of the respective issues after payment and cancellation. At the July 15, 1966 meeting of the Executive Committee of the Board of Trustees, Mr. Clay Maupin and Mr. George Kavanaugh were authorized to incinerate these bonds and coupons and to certify to the Board that such had been done.

Members, Executive Committee, Board of Trustees:

APPOINTMENT OF THE DEAN OF THE COLLEGE OF ENGINEERING

Recommendation: that, based upon recommendation in the report of the faculty search committee for the deanship, Dr. Robert M. Drake, Jr., be named Dean of the College of Engineering, effective September 1, 1966

Background: After Dean Shaver had expressed a desire to relinquish the deanship and to assume other University responsibilities, and following University policy and procedures, a committee was appointed by the President upon recommendation from the University Senate Council of a panel of faculty members to search for and recommend persons qualified to serve in the deanship of the College of Engineering.

The search committee initially requested the faculty members of the College, other colleges of engineering which had recently appointed deans of engineering, and the Kentucky Society of Professional Engineers to submit statements of qualifications that a candidate should possess and also to suggest the names of prospective persons who might be considered.

The committee established the following general criteria that nominees should meet in order to be considered:

1. A demonstrated ability in the development of undergraduate and graduate programs.
2. A national and international reputation as a scholar and research worker in his chosen field.
3. Ability to guide the faculty, work with other people and represent the College of Engineering in the University organization.
4. Possess an appreciation of the problems in all areas of engineering.
5. Have experience in industry, a record of service to the engineering profession, and be a registered professional engineer.
6. Have experience in university administration.

The committee received approximately 70 names of nominees. After a preliminary screening according to the criteria, vitae were collected on approximately 40 of the persons. The data were then carefully examined, comparisons made, and the criteria applied to each nominee. Included in the small resulting number of remaining names of the most eminent nominees was one member of the present staff in the College of Engineering, Dr. Drake. The appointment of Dr. Drake has the unanimous support of the search committee.

Office of the President

Members, Executive Committee, Board of Trustees:

APPOINTMENT OF ACTING GRADUATE DEAN

Recommendation: That the appointment of Dr. Lewis W. Cochran as Acting Dean of the Graduate School be affirmed effective September 1, 1966.

Background: Dr. A. D. Kirwan, presently Dean of the Graduate School, has been granted a sabbatic leave from the University for the 1966-67 academic year to accept the honor of a Fulbright Lectureship at the University of Vienna. The earlier request of Dean Kirwan to relinquish the deanship has been accepted, and a committee, appointed by the President upon the recommendation from the University Senate Council of a panel of faculty members, is presently in search of nominees for the deanship.

Inasmuch as the departure of Dean Kirwan is imminent and as the search committee will require time to perform its function properly, the appointment of an acting dean of the Graduate School is appropriate. Fortunately, the affirmation of the appointment of Dr. Cochran will not only provide experienced continuity in the office of the Graduate School Dean but will insure leadership in this period for the further development of graduate education in the University. Dr. Cochran has served formerly as Associate Dean of the Graduate School as well as department chairman and professor and at present as Provost. The present responsibilities of Provost will be carried by Dr. Cochran along with those of Acting Dean of the Graduate School.

Office of the President  
August 19, 1966

Members, Executive Committee, Board of Trustees:

APPOINTMENT OF THE DIRECTOR OF SOMERSET COMMUNITY COLLEGE

Recommendation: That Dr. Roscoe D. Kelley be appointed Director of the Somerset Community College effective by agreement upon the earliest terminal date of his present employment.

Background: Dr. Kelley is presently Academic Dean and Director of Institutional Research, Black Hawk College, Moline, Illinois. He formerly served for thirteen years as professor of Mathematics at Troy State College where he also served as assistant dean and then dean of students.

His membership in professional organizations include the Alabama Academy of Science, Southern and American College Personnel Associations and American Personnel and Guidance Association.

Serving in World War II and the Korean Crisis, he rose in rank from Private to Lieutenant Colonel. He has attended the Command and General Staff College.

He is married and has four children.

Office of the President

August 19, 1966

PR 6

Members, Executive Committee, Board of Trustees:

COLLEGE OF AGRICULTURE AND HOME ECONOMICS ORGANIZATION

Recommendation: that, effective September 1, 1966, the College of Agriculture and Home Economics be organized under the Dean into the positions of (1) Associate Dean for Instruction, (2) Associate Dean and Director of the Agricultural Experiment Station and (3) Associate Director of the Agricultural Experiment Station; that (1) Dr. Stanley Wall become Associate Dean for Instruction, (2) Dr. Charles E. Barnhart be appointed Associate Dean and Director of the Agricultural Experiment Station, and (3) Dr. G. W. Stokes be named Associate Director for the Agricultural Experiment Station.

Background: The development of the academic plan for the University began, and has continued, with examinations and restudy of programs and activities of the various units in the institution. Special analyses and studies in Agriculture have been active over the past several months. Based upon these efforts, the recommendations for organization of the College are proposed.

The Associate Dean for Instruction will have responsibility for the resident instructional programs of the College on campus, for the advisement and planning with the Dean of the Community College System on agriculturally related programs in the Community Colleges, and for other teaching programs of the College.

The Associate Dean under the general direction of the Dean will have the responsibility of supervision in planning, implementation, and appraisal of the various programs of the College, and in the absence or unavailability of the Dean, have administrative responsibility for the College.

The Director of the Agricultural Experiment Station will be responsible for the research programs of the College. As indicated in the Federal Hatch Act, "The Director has broad authority for the expenditure of Hatch funds. Generally, this authority will not conflict with established State and institutional procedures and policies." This office will have responsibility for allocations of funds, preparation of budgets, and the approval of proposals for the research programs. Department chairmen and the research faculty members will be responsible to the Director for their programs. The Director will be expected to work with other units and colleges of the University in the development and conduct of interdisciplinary programs and he will be responsible for the graduate education programs of the College. Various delegations to this position by State and Federal laws will be assumed by the Director.

The Associate Director of the Agricultural Experiment Station will assist the Director in administering the research and graduate programs of the College.

Office of the President  
August 19, 1966

Members, Executive Committee, Board of Trustees:

AGREEMENT WITH KENTUCKY SCIENCE AND TECHNOLOGY COMMISSION

Recommendation: That the President be authorized to enter into a contractual agreement with the Kentucky Science and Technology Commission under sections 152.580 and 152.590 (9) (11) of the Kentucky Revised Statutes whereby the University will provide administrative, staff and other professional support to the Commission in order that the Commission may be better enabled to carry out its responsibilities as designated by the 1966 General Assembly.

Background: Under such an agreement the Kentucky Science and Technology Commission would provide adequate support to the University for coverage of costs incident to the agreed-upon services required for the development and conduct of Commission programs.

Office of the President

Members, Executive Committee, Board of Trustees:

Report to Board of Trustees on Temporary Housing  
Fall, 1966

The University had planned and budgeted for the housing of 4100 students at the beginning of the fall semester. This figure included 880 spaces in five low rise buildings in the new dormitory complex:

The University was informed that the official contract completion date would not be met due to material shortages, material delivery problems, strikes and unavailability of skilled tradesmen.

At a meeting with Mr. McConnell, Chief Engineer, Department of Finance, and a representative of Foster & Creighton Company it was agreed that new building completion dates would have to be designated. New completion dates were set forth as follows:

Low Rise Dormitory #8	September 1
Low Rise Dormitory #7	September 16
Low Rise Dormitory #6	October 13
Low Rise Dormitory #5	November 9
Low Rise Dormitory #4	November 29

The completion dates were very tight, but the contractor has agreed to better these dates if possible, and work closely with the University in preparation for the installation of furnishings prior to actual completion.

As a result of this delay in completion dates, it became necessary for the University to either reject 400 applications for housing or find temporary housing for these students. Temporary housing was the decision reached and 329 students will be accommodated in the below mentioned facilities and the remainder will be housed in existing University facilities.

Arrangements for accommodations have been made as follows:

(1) Phoenix Hotel	- 200 beds (women)
(2) Town House Motel	- 60 beds (women)
(3) University of Kentucky Medical Center Hospital - 8th floor	- 69 beds (women)

Students assigned to temporary housing may use any of the three cafeterias on campus. (Donovan, Blazer and Student Center.)

Arrangements have been made for mail service, telephones, security, and linen service for all three facilities. Transportation is being arranged for the students assigned to the Phoenix Hotel.

To Members, Executive Committee, Board of Trustees:

ACCREDITATION OF SCHOOL OF ARCHITECTURE

At its Annual Meeting in Denver, Colorado, on June 25, 1966, the National Architectural Accrediting Board granted accreditation to the School of Architecture at the University of Kentucky for the normal period of five years, subject to the review of the Annual Interim Report. The 1966-67 List of Accredited Schools of Architecture will carry the School of Architecture at the University of Kentucky as an accredited institution.

The School of Architecture was visited on March 28 to 30, 1966 by a Committee representing the National Architectural Accrediting Board. The Committee members were Charles H. Kahn, AIA, Professor, School of Design, North Carolina State University, Raleigh, North Carolina; Charles G. Rummel, AIA, Architect, Chicago, Illinois, a member of NAAB; G. Scott Smitherman, FAIA, Architect, Shreveport, Louisiana; Frederick H. Hobbs, Jr., AIA, Architect, Columbus, Ohio, also a member of NAAB and Chairman of the Committee. The Committee met with the President and selected members of the faculty and administration and discussed University policies, admission procedures, and overall objectives, toured facilities, met with design faculty, studio review, visited with University Librarian, held discussions with general faculty and had individual contact with students. The Committee reviewed its observations and impressions with the President at a concluding conference.

In its report the Committee indicated that "The School is clearly succeeding in meeting its challenge and attaining its objectives." The report indicates that one of the greatest strengths of the School lies in its newness, the absence of a frozen approach to education; that there is respect for valid tradition but that there appear to be no strictures of complacency and self-esteem. Dean Shaver was commended for the steady support which he has given in bringing about the ultimate establishment of architecture as an autonomous school.
