

Minutes of the Executive Committee of the Board of Trustees of the University, of Kentucky, October 19, 1962.

The Executive Committee of the University of Kentucky met in the President's Office on the campus of the University at 1:45 p.m., EST, Friday, October 19, 1962, with the following members present: Dr. Ralph J. Angelucci, Chairman; Robert H. Hillenmeyer and Dr. H. B. Murray. Absent: Smith Broadbent, Jr. Present also for the meeting were Dr. Frank G. Dickey, President of the University and Dr. Frank D. Peterson, Secretary of the Board.

A. Luncheon and Report, College of Medicine.

Members of the Executive Committee had luncheon in the Office of the President at 12:00 noon. Dr. E. D. Pellegrino, Chairman of the Department of Medicine of the College of Medicine, had been asked to meet informally with the Executive Committee at the luncheon. After a delicious luncheon, Dr. Pellegrino made a report on the Department of Medicine, as to function and purpose, breaking same down into various sections according to the present organization of the department. Members thanked Dr. Pellegrino for a very informative report.

B. Meeting Opened.

At 1:45 p.m., EST, the press and public were invited into the office of President Dickey and the Chairman of the Executive Committee, Dr. Ralph J. Angelucci, called the meeting of the Executive Committee to order.

C. Approval of Minutes.

Upon motion duly made, seconded and carried, the minutes of the meeting of the Executive Committee of August 24, 1962, were approved as published.

D. Financial Report.

Mr. Peterson, Vice President of Business Administration and Treasurer of the University, made a report for the three months ended September 30, 1962. The report contained a balance sheet and related financial statements, presenting a complete financial picture for all funds of the University. The report having been mailed to members of the Executive Committee some ten days before the meeting and members of the Committee having read the report and being advised, upon motion duly made, seconded and carried, the Financial Report was received and authorized filed.

E. University Purchases Approved.

Mr. Peterson submitted the following information:

October 11, 1962

President Frank G. Dickey
University of Kentucky

Dear President Dickey:

From July 1, 1962 through September 30, 1962, the following requisitions and orders were processed for the purchase of merchandise, supplies, materials and other items for the use and benefit of the University of Kentucky:

S.D. Orders	Inclusive 51-567
State Requisitions	Inclusive 388-1342
Emergencies, State	Inclusive 956-1225, 1-490
Special Orders	Inclusive 6,491-7,500; 7,515-8,125; 8,216-9,108
Job Order Vouchers	Inclusive 16,955-17,639
Stores Vouchers	Inclusive 3,291-4,377
Vouchers	Inclusive 1-6,735
Order by Letters	Inclusive 1-633
Athletic Orders	Inclusive 1-62
Emergency Purchase Orders	Inclusive 1-2,581
Stores Material Requisitions	Inclusive 38,154-42,848
Food Storage Orders	Inclusive 1,298-1,803
Requests for Quotations	Inclusive 1,407-1,420; 1-263

The requisitions, emergency requisitions, special orders, vouchers and other documents are made a part of this letter and are available to the Board of Trustees for inspection. All purchases have been made in accordance with approved policy of the Board of Trustees, and I respectfully request confirmation and approval of the purchases as listed conforming to the Statutes requiring action by the Board of Trustees.

Very truly yours,

(Signed)

Frank D. Peterson
Vice President
Business Administration

Members of the Committee, being familiar with University purchasing procedure, upon motion duly made, seconded and carried, concurred in the recommendation and ratified and approved purchases as requested in the letter of communication.

F. Deed of Easement for Sanitary Sewer Approved.

Mr. Peterson submitted a Deed of Easement to the City of Lexington to permit the City to construct a sanitary sewer service at the intersection of Nicholasville Pike and the entrance to Shawneetown Housing Project.

Mr. Peterson explained that construction of the sanitary sewer would eliminate the pumping station now on University property in the vicinity of the intersection covered by this Deed of Easement. He explained that the University had nothing to lose and that construction of the sanitary sewer would be a benefit both to the University and to the City. He recommended that the Deed of Easement be granted and authorized executed.

Upon motion duly made, seconded and carried, the recommendation was concurred in and the Deed of Easement authorized executed on behalf of the University of Kentucky.

G. Deed of Easement to Kentucky Utilities Company Approved.

Mr. Peterson presented an Easement for an electric power line across Spindletop Farm, bounded on the west by Berea Road in Fayette County, to the property owned by Spindletop Research, Inc. He explained that the Spindletop Research corporation has requested the Kentucky Utilities Company to establish a permanent source of power for use in the Spindletop Research Administration Building. He recalled that Spindletop Research, Inc., owns a tract of 75 acres of the Spindletop Farm and that the shortest way to acquire power service from the Kentucky Utilities Company is to cross a strip of land belonging to the Kentucky Research Foundation and the University of Kentucky. He explained that the line is for a short distance and will not interfere with any future use made of the land involved. He recommended that the Easement be granted.

Upon motion duly made, seconded and carried, the request was concurred in and the Deed of Easement authorized executed.

H. Contract, Coal Testing Program, Approved.

Mr. Peterson submitted an Agreement with the Department of Finance, Division of Purchases, Commonwealth of Kentucky, for a coal testing program to be performed by and through the Engineering Experiment Station in the College of Engineering. Mr. Peterson stated that this program will give to the Department of Finance, Division of Purchases a complete analysis of coal purchased for various agencies and divisions of the Commonwealth through the Division of Purchases, Department of Finance. The Division of Purchases, from its appropriated funds, will reimburse the University in the amount of \$4,000.00 for services rendered from July 1, 1962, through June 30, 1963. Mr. Peterson further stated that this is a continuation of an existing contract and recommended its approval and authorization for execution.

Members of the Committee, being advised, on motion duly made, seconded and carried, approved the contract and authorized same executed on behalf of the University.

I. Purchase of Kentucky Seed Stocks, Inc.

Mr. Peterson submitted recommendation for the purchase of all of the assets of every kind and description of the Kentucky Seed Stocks, Inc., 744 Press Avenue, Lexington, Ky. He reported that the Kentucky Seed Stocks, Inc., was a private corporation operated in cooperation with the Agricultural Experiment Station, under laws of the Commonwealth of Kentucky. He stated that the Kentucky Seed Stocks, Inc., had for a number of years, developed and furnished to the Agricultural Experiment Station and to the public foundation seed stocks, essential to various programs of research of the Agricultural Experiment Station. He stated that the corporation had, for a number of years, been profitable but in recent years had found it difficult to operate upon its own income. He reported that the Board of Directors of the Kentucky Seed Stocks, Inc., had unanimously voted to sell to and deed to the University of Kentucky for use by the Agricultural Experiment Station all of its assets, including real property at 744 Press Avenue, seed inventory and equipment for the sum of \$19,000.00. Dean William A. Seay estimated the total assets of the Corporation at the present time to be worth approximately \$90,000.00. Dean Seay and President Dickey joined in the recommendation to acquire the property, inventory and equipment of the Corporation.

Mr. Peterson explained that the Experiment Station had certain restricted funds that could be made available for the purchase of property. He further advised that it would be necessary for the Agricultural Experiment Station to activate its own program of research in foundation seed stock, if it did not acquire these assets.

Members of the Committee, being advised, upon motion duly made, seconded and carried, authorized purchase of the Kentucky Seed Stocks, Inc., including all of its assets of every kind and nature, real, personal and mixed, for the sum of \$19,000.00 and the Vice President, Business Administration, was authorized and directed to consummate the purchase.

J. Purchase of 458 Clifton Avenue and 678 South Broadway Approved.

Mr. Peterson presented recommendation to purchase 458 Clifton Avenue, a one-story frame residence on a lot 55' x 256' on the east side and 214.5' on the west side of said property for the sum of \$17,000.00. Mr. Peterson advised that this is equivalent to \$1.31 per square foot of land acquired. He stated that the residence consists of six rooms, one bath, a front porch and a back porch. He proposed to convert the residence into two three-room apartments. He further advised that the University had agreed to lease to the Alpha Gamma Rho and Sigma Chi fraternities a part of this lot when acquired, provided the fraternities were in a position to pay the purchase price. President Dickey joined in the recommendation.

Mr. Peterson presented a recommendation for the purchase of 678 South Broadway, the Theodore Kirk property, a rather large tobacco redrying plant. He stated that this property, by inheritance, now belongs to Louise Kirk Headley. It has a front footage on South Broadway of 82 feet and a depth of 432½ feet. He also advised that the lot has an outlet from Scott Street and a new warehouse structure thereon. The lot contains approximately one acre of land and the building contains approximately 58,000 square feet of floor space. Mr. Ben H. Story, Jr., SRA, land-use consultant and appraiser, placed a value of \$100,000 on this property as of March 31, 1962. Mr. Peterson advised that he had negotiated for the purchase for \$62,000.00.

Mr. Peterson further explained that a part of the building facing on Scott Street would be used for paper storage for the University printing plant and that the other area would be used for general storage and other purposes on behalf of the University. He answered questions and members being advised, upon motion duly made, seconded and carried, the property at 458 Clifton Avenue was authorized purchased for \$17,000.00, to be paid for from the Haggin Fund; and the property at 678 South Broadway was authorized purchased for the sum of \$62,000.00, to be paid for from Account 3445, Printing.

K. Surplus Property.

Mr. Peterson reported a list of household and dormitory surplus furnishings belonging to the University, removed from housing projects, dining halls and departments. He recommended that the University be authorized to

dispose of this property, which is surplus to needs of the various departments and to the University, and that the list referred to by this correspondence be made a part of the minutes by reference and kept in the files of the minutes of the Board of Trustees.

Upon motion duly made, seconded and carried, the recommendation was concurred in and the Vice President, Business Administration, was authorized to dispose of the property by taking bids or by offering the property for sale by public auction.

Mr. Peterson called attention of the members of the Executive Committee to the increase in the number of injuries reported. He recommended that these claims be paid, with the expressed understanding that the University does not admit negligence or liability in connection with each one of these injuries.

Upon motion duly made, seconded and carried, the claims were authorized paid, with the expressed understanding that the University does not admit negligence or liability in connection with each one of the injuries and claims.

M. Budget Transfers.

President Dickey presented recommendation for transfer from the unappropriated surplus of the General University Budget of the sum of \$2,030.80 to Account 1570-2, University Computing Center.

Upon motion duly made, seconded and carried, the recommendation was concurred in and the necessary budget adjustment authorized.

N. Free Fee Scholarship Granted.

President Dickey reported request from the Committee on Foreign Students that Mr. Eun Sul Lee, Korea, be named the recipient of a free fee scholarship for the academic year 1962-63.

Upon motion duly made, seconded and carried, the recommendation was concurred in.

O. Mrs. Eldon Smith Employed--Nepotism Rule Waived.

President Dickey reported a recommendation from Dean C. C. Carpenter, College of Commerce, to waive the nepotism rule and employ Mrs. Martha Smith in the Bureau of Business Research on a part-time basis for the balance of the current fiscal year. He explained that she is the wife of Associate Professor Eldon Smith. Mrs. Smith has previously worked in the Bureau and is uniquely prepared by experience and training to take part-time work on a research project being done under contract with the Kentucky Department of Highways.

Upon motion duly made, seconded and carried, the recommendation was concurred in and Mrs. Smith authorized employed.

P. Alice Higgins Employed--Nepotism Rule Waived.

President Dickey submitted a recommendation of Dr. W. R. Willard that Miss Alice Higgins be employed as Associate Professor of Nursing, effective November 1, 1962. She has had excellent preparation in the field of medical-surgical nursing and has made extensive progress toward the doctor's degree in nursing education. Miss Higgins has a sister employed at the University.

President Dickey advised that Dr. Willard feels that Miss Alice Higgins' training and experience are such that we are very fortunate in attracting her to Kentucky. He recommended that the request be granted and advised that the sisters would not be working together in Lexington.

On motion duly made, seconded and carried, the Nepotism Rule was waived and Miss Alice Higgins was authorized employed.

Q. Cooperative Relationship Established for Basic Science Departments.

President Dickey read a communication from Dr. W. R. Willard, Vice President, Medical Center, recommending a cooperative relationship for the Basic Science Department in two colleges.

September 14, 1962

President Frank G. Dickey
Administration Building
Campus

Dear President Dickey:

Subject: Relationship of the College of Medicine Basic
Science Department to the College of Dentistry.

You may recall my brief memorandum to you dated May 21, 1962 concerning the organizational and functional relationships of the basic science departments of the College of Medicine to the College of Dentistry. In the memorandum I recommended that the Board of Trustees approve the establishment of a Department of Anatomy in the College of Dentistry and that all faculty members of the Department of Anatomy in the College of Medicine be appointed to the Department of Anatomy in the College of Dentistry. This was in accordance with a plan anticipated to cover eventually all the basic science departments. My recommendation was submitted with the support of Dean Morris and with the concurrence of the chairmen of our basic science departments.

According to a memorandum from you dated July 13, you did not feel it advisable to approve the recommendation which I made. I believe you felt that it might lead to an undesirable duplication of basic science departments in the Colleges of Medicine and Dentistry. Apparently I did not explain to you clearly the rationale behind this proposal and its method of implementation and as a result you had understandable misgivings about it. Therefore, Dean Morris and I followed the suggestion in your memorandum and discussed the proposal with Dr. A. D. Albright. I believe that I am correct in saying that he considers this proposal to be a reasonable approach to a complex problem. Upon his suggestion, I am resubmitting it by means of this memorandum which contains a more adequate explanation. After considering this memorandum, you may wish to discuss this matter directly with Dr. Albright.

Our proposal is not intended to be a means for creating duplicating or competing departments in the College of Dentistry and the College of Medicine. Neither Dean Morris nor I favor such a development and in fact, Dean Morris is convinced that its occurrence would not be in the best interests of the College of Dentistry. Certainly the

basic science departments of the College of Medicine would oppose such a development. In fact, our proposal is intended to prevent the creation of duplicating and competing departments.

There is need for a defined relationship of the basic science departments in the College of Medicine with the College of Dentistry. Dean Morris and the College of Dentistry obviously need basic science instruction, and if the dental program is to develop as it should, the basic science departments must be responsive to the needs of the College of Dentistry and be interested and involved in its affairs. A majority of dental schools have a serious problem with the basic science. Either they have separate basic science departments which usually are not strong and cannot compete successfully with the College of Medicine departments, or else they are completely dependent upon medical school departments over which they exercise no control and which exhibit little interest or concern for the dental school and its program.

Our objective is to provide an organizational framework with defined responsibilities and relationships which will facilitate the cooperative relationships and program integration which we desire. Although appropriate attitudes and good inter-personal relationships are essential for success, a sound organizational framework should facilitate our objectives.

The primary elements of our proposal are these:

1. There would be single basic science departments for respective areas such as anatomy in the Medical Center which would serve both the College of Medicine and the College of Dentistry and such other Medical Center programs as were appropriate. Obviously these departments would have other responsibilities not relevant to these considerations such as that for the graduate program. The departments would be listed as departments of both the College of Medicine and the College of Dentistry in catalogs and other publications as appropriate.
2. There would be only one department chairman and he would be responsible for the conduct of his department to the Dean of the College of Dentistry in the program of dental education and to the Dean of the College of Medicine for the program of medical education. If he wished to delegate the responsibility for his departmental program in dental education to an associate in his department, he could do this with the concurrence of the Dean of the College of Dentistry.
3. A serious effort would be made and is being made to recruit for each basic science department one or more faculty members who were competent in the basic science discipline and were primarily

interested and oriented in dental students and dental education. Already we have made a few such appointments. Related to this, there would be joint appointments in both the College of Medicine and the College of Dentistry for some or all faculty members of the basic science departments concerned. Probably most faculty members of the basic science departments would have such joint appointments because most of the department chairmen see all of the members of their department participating in the teaching programs of both colleges, although there will be situations where an appointment in only one college would be appropriate.

4. The basic science departments would have representation upon the Faculty Council and appropriate committees of the College of Dentistry, thus being intimately and appropriately involved in the development of program and educational policy within the the College of Dentistry.

5. Collaborative research activities between the Colleges of Medicine and Dentistry would be fostered in the basic science departments when possible and appropriate.

6. As program develops and we can calculate a proper basis for the allocation of costs of the basic science departments to the Colleges of Dentistry and Medicine, we would budget the appropriate amount in each of the colleges. After the budgets were approved, we would transfer from the College of Dentistry to the accounts of the basic science departments the budgeted sums. This would permit the department chairmen to administer their departments with a unified budget. However, by means of this technique each department chairman would be forced to justify part of his budget to the Dean of the College of Dentistry which would give the Dean an influential voice in the affairs of the department and would help to insure his needs being met satisfactorily. Likewise, the chairman of each basic science department would deal with the Dean of the College of Dentistry when budgetary matters involving that college arose during the course of the year. Any disagreements or major policy issues which occurred would be resolved in conference with the Vice President of the Medical Center.

7. The departments which we propose recognizing in both the College of Dentistry and the College of Medicine are as follows: Anatomy, Biochemistry, Physiology, Pharmacology and Behavioral Science. There may be others at some later date when our development has proceeded further.

8. The implementation of this proposal would be gradual and would occur concurrently with the development of functional program relationships. At the moment, working relationships with the Department

of Anatomy are harmonious and the farthest advanced, and we are prepared to implement this proposal for that department. It would be implemented for other departments at a later date. It would simplify matters, however, to obtain approval for this proposal for all of the departments listed above so that we were not forced with the necessity of returning to the Board of Trustees for action each time we were ready to move with a department.

If you have questions about this matter, I would be glad to discuss it with you. I recognize that we are dealing with some complex issues of organization in a large institution for which there are perhaps no perfect answers. We feel that this proposal among possible alternates, is best suited to our situation and that it gives reasonable promise of achieving the objectives desired.

(Signed) WRW

President Dickey discussed the philosophy of departmental unity and concurred in the recommendation.

Upon motion duly made, seconded and carried, the recommendation was approved.

R. Consultant Services of Faculty Members Approved.

President Dickey advised that Dean William A. Seay recommended that Professor John B. Roberts, of the Department of Agricultural Economics, be allowed to serve as consultant to the legal firm of Brown and Alagia, in Louisville. He estimated that the time involved would be about two days per month and would be scheduled so as not to interfere with the performance of Professor Roberts' duties at the University. The stipend would be at the rate of \$75.00 per day for the time used during the year.

President Dickey presented a recommendation of Dean William A. Seay to permit Dr. George A. Hillery, Jr., to serve as consultant to one or more firms in connection with population estimates and projections. He stated that the consulting work would be of a temporary nature and the compensation would not exceed \$300.00. The work would be so scheduled as not to interfere with Dr. Hillery's duties at the University.

President Dickey reported a recommendation of Dr. W. R. Willard to permit Dr. H. A. Gordon, Professor of Pharmacology, to accept a position as guest professor in biology at the University of Notre Dame. He explained that Dr. Gordon would make several trips to South Bend, Indiana, so arranged as not to interfere with his teaching or other departmental responsibilities at the College of Medicine, University of Kentucky, and would receive no remuneration for this service.

President Dickey presented a request from Dean William A. Seay that Dr. James R. Rooney, Department of Animal Pathology, be permitted to serve on the Advisory Board of the Mark L. Morris Animal Foundation. Dr. Rooney would not receive compensation but would receive from the Foundation expenses in connection with travel and lodging.

President Dickey reported a recommendation from Dean M. M. White that Dr. Roger J. Chacon be permitted to teach a course in critical thinking for a period of twelve weeks, one night a week, under the sponsorship of IBM. Doctor Chacon will receive the sum of \$300.00 for his teaching. The work will be so scheduled as not to interfere with his duties in the Department of Philosophy.

President Dickey presented a recommendation from Dean Lyman Ginger that Dr. James B. Kincheloe, Dr. A. D. Albright and Dr. Paul Street serve as consultants to study the administrative organization of the Kanawha County, West Virginia, school system, ten hours per month each, from August 10, 1962 through June 30, 1963. Doctor Kincheloe, Doctor Albright and Doctor Street will receive expenses for travel and lodging.

In each case noted above, the President concurred in the recommendation, and upon motion duly made, seconded and carried, the actions of the President were approved and authorized noted in the minutes.

S. Candidates for Degrees, August, 1962, Approved.

President Dickey submitted a list of 336 candidates for degrees at the close of the 1962 summer session. He explained that, since the University does not hold a summer commencement, these students are permitted to accept their degrees or return for the commencement in 1963 and receive their degrees with the other candidates granted degrees at that time. He recommended that each be awarded the degree to which he is entitled.

Upon motion duly made, seconded and carried, the candidates were ordered awarded the degrees and the President of the University was authorized and directed to confer upon each the degree to which he or she is entitled.

T. \$10.00 Course Fee in Skating Authorized.

President Dickey submitted a recommendation from Dean M. M. White, College of Arts and Sciences, for the establishment of a regular fee of \$10.00 for the Department of Physical Education course in skating. He stated that Dean White thought the expenses in connection with the course would approximate \$10.00 per student and that it would be necessary to pass this expense on to those participating.

Upon motion duly made, seconded and carried, the Executive Committee authorized a \$10.00 course fee in Skating.

U. Agreement with Mr. Howard Tilson Approved.

Dr. William A. Seay submitted a request that the University Agricultural Experiment Station be permitted to supply newborn lambs for research purposes to the Department of Entomology and Botany. He explained that Mr. Tilson is already engaged in the sheep business and his knowledge of experimental work, generally, better equips him to supply newborn lambs less than one day old over a period of two to four weeks each spring. Each lamb is to be one of a set of twins. Lambs born at night will be left with the mother ewes until noon to permit suckling of colostrum. Approximately 25 lambs are to be supplied each year, at a rate of \$15.00 each, with price subject to re-negotiation in event of wide changes in market prices.

Upon motion duly made, seconded and carried, since these lambs are to be used for special research purposes, the recommendation was concurred in and the arrangement authorized.

V. Petty Cash Authorized for University Hospital.

President Dickey presented a request from Dr. W.R. Willard to establish a petty cash fund in the University Hospital for cashing checks at the Hospital other than for patient care. He explained that Dr. Willard has recommended that THE FUND for Advancement of Education and Research in the University of Kentucky Medical Center, which is a restricted account of the Medical Center, be used for making an advance of \$500.00, so that the Cashier's Office of the University Hospital may be in position to cash small checks for people frequenting the Hospital who are in need of cash. He further explained that the Cashier's Office would use diligence and caution in cashing checks for persons frequenting the Hospital but that he wanted to relieve the personnel involved of accountability for acceptance of checks not honored by the banks.

The question was further explored, and upon motion duly made, seconded and carried, the sum of \$500.00 was authorized advanced by THE FUND to provide a source for meeting the need of cashing checks in the University

Hospital. It was further understood that money lost through operation of such a procedure will be a loss to THE FUND and not to the individual as long as the individual evidences discretion, reasonable efficiency and prudent judgment in executing the procedure outlined. The person responsible for handling THE FUND is to make a quarterly report to the University Business Office.

W. Instrument of Fee Simple, Spindletop Research Acreage, Approved.

Mr. Peterson explained that the University originally owned, in the name of the Commonwealth of Kentucky, for the use and benefit of the University of Kentucky 75 acres of the Spindletop Farm, purchased from the Kentucky Research Foundation. Since acquisition of this acreage, the University of Kentucky has relinquished all rights, use and benefit to the Commonwealth of Kentucky. The Spindletop Research, Inc., desires to acquire fee simple title to this acreage from the Commonwealth of Kentucky. The State is willing to sell and transfer title.

The University feels that it has no claim upon this property but the Directors of the Spindletop Research, Inc., would like the University to concur in the transfer of title by the Commonwealth of Kentucky. Mr. Peterson stated that he could see no reason whatsoever for not concurring, even though he did not feel it was necessary. He recommended that the request be granted, that the Chairman of the Executive Committee be authorized to sign the instrument of Fee Simple and that the Secretary be authorized to attest to the signature.

Upon motion duly made, seconded and carried, the request was approved and the Chairman and Secretary were authorized to execute the instrument.
