Dear Major

I note you of my interview with Dr Hagan last Monday or Tuesday night. He promised that I should hear from him within 24 hours; but it is now Saturday morning & I have not a word from him. Between you & me I am a little distrustful of him. He told me that while he was a friend of Dr Bullock he was also a friend of the woman & would not testify against her.

After I note you Alex Humphrey called here for a few minutes & I took the liberty to talk with him about the matter very briefly. I trust you will see him & determine
