Maj. H. C. McDowell,

Lexington, Ky.

Dear Sir:-

Enclosed you will find statement from the Veterinary who had "Fugue" in charge, which explains itself. He made same out at my request that you may understand what her condition was when she arrived. I was present when she was unloaded, and noticed when she was led down the platform that she was a very sick mare and at once went after the Veterinary myself, and was with her when she died.

Everything was done for her comfort that was possible, and it is unnecessary to say how deeply I regret her sufferings and your loss.

Yours truly,

*Budd Doble*
