

Minutes of the University Faculty January 13, 1947

3. That the following changes be made in courses:

Education 71, Trade Analysis and Course Planning, 4 qtr. hrs. be changed to Education 71, Trade Analysis, 3 qtr. hrs.

Education 123, Vocational Guidance, 4 qtr. hrs. be reduced to 3 qtr. hrs.

Education 78, The Conference Method of Instruction in Industrial Education, 3 qtr. hrs., be changed to Education 78, Conference Leader Training, 3 qtr. hrs.

4. That the following courses be expanded:

Education 183, Methods in Industrial Education, 4 qtr. hrs., to Education 183a and 183b, Methods in Industrial Education, 3 qtr. hrs. each. The course description remains the same.

Education 255, Guidance in Today's Schools, 4 qtr. hrs., changed as follows:

Education 255a. GUIDANCE IN TODAY'S SCHOOLS (4). A course for superintendents, principals, teachers, counselors, and others who have the responsibility of carrying out an effective program of guidance in the public schools. The course deals with principles and techniques for the formulation and evaluation of a complete guidance program including inventories, counseling, placement, and follow-up.

Education 255b. TECHNIQUES OF COUNSELING (4). This course is intended for all teachers. Attention will be given to the counseling of pupils on educational, vocational, and personal problems. Each person enrolled will be given an opportunity to work with pupils in determining aptitudes and abilities and in aiding them to work out programs for their continued education.

Some time was devoted to a discussion of pre-classification and registration problems arising out of the present system. On motion, duly seconded, the Faculty voted that the matter should be considered by a committee, either standing or special, the selection of the committee to be left to President Donovan.

MINUTES OF THE UNIVERSITY FACULTY FEBRUARY 10, 1947

The University Faculty met in the Assembly Room of Lafferty Hall Monday, February 10, at 4:00 p.m. President Donovan presided. Members absent were A. J. Brown, Alex. Capurso, L. L. Dantzler, Thos. P. Cooper,

Minutes of the University Faculty February 10, 1947

W. D. Funkhouser, Margaret King, E. W. Rennells, Irwin T. Sanders, D. V. Terrell, and Amy Vandenbosch.

The minutes of January 13 were read and approved.

President Donovan called to the attention of the Faculty the fact that in the recent reorganization of the University, which provided for the office of Vice President, no provision was made for membership of the Vice President on the University Faculty. On motion and second, the Faculty voted that the Vice President should be an ex-officio member of that body. The same action was taken with respect to the Head of the Department of Military Science and Tactics, since the representative of that department, under Army regulations, may not be an elected member.

Dean Seay, Chairman of the special committee appointed to study pre-classification and registration, presented the following report to the Faculty:

To the University Faculty:

At the request of the University Faculty January 13, President Donovan appointed a special committee to study problems connected with pre-classification and registration and to report to the Faculty. This committee has held two meetings and has drafted the following recommendations to the colleges:

1. That the week of March 10-15 be designated as pre-classification week, and that no student be given a card prior to the specified time. This does not mean that a student cannot consult his adviser prior to this date.
2. That definite plans for pre-classification be made by each college, such as having students report alphabetically, or by classes.
3. That each college estimate in advance its needs for the official period of classification, March 25 and 26, so that the work of representing the various departments may be divided among the members of the respective staffs, thus avoiding the necessity for any staff member having to be present the entire time.

The committee also approved a plan, submitted by the Registrar, for confining the official registration period to one and one-half days by having the registration set up in two buildings simultaneously.

The committee received a suggestion from the Committee on Schedule of Classes, on the basis of which it adopted the following recommendation to the University Faculty:

That the Faculty rule regarding late registration and entry to organized classes be modified to allow only four days for late registration. The present rule reads: "Late Registration. After the second Wednesday of the fall, winter, or spring quarters, no student may register for an organized class. The final date for the summer quarter and the first term of that quarter is the

Minutes of the University Faculty February 10, 1947

seventh day, and for the second term, the fourth day."

It is recommended that the rule be modified to read as follows:

Late Registration: After the fourth day of classes in the fall, winter or spring quarters, or in either term of the summer quarter, no student may register for an organized class.

The committee recommends further that the rule apply to all students.

Respectfully submitted,

The Committee

L. A. Bradford
 Leo M. Chamberlain
 Stacie Erikson
 R. D. Haun
 J. S. Morine
 Roy Moreland
 Frank D. Peterson
 William S. Taylor
 M. M. White
 Maurice F. Seay, Chairman

After some discussion of the recommendation to the Faculty regarding time allowed for late registration, an amendment was moved, seconded, and adopted that the sentence, "Exceptions may be made with the approval of the Registrar and the Dean of the College concerned", be added to the recommendation. The Faculty then approved the recommendation as amended and the rule will now read: Late Registration. After the fourth day of classes in the fall, winter, or spring quarters, or in either term of the summer quarter, no student may register for an organized class. Exceptions may be made with the approval of the Registrar and the Dean of the college concerned."

The following resolution on the death of Jessie Wilson, University Recorder, was read by Maple Moores, Assistant Registrar.

JESSIE LOUISE WILSON

The University of Kentucky and the Registrar's Office have suffered a great loss in the death, on February 5, of Miss Jessie Wilson, University Recorder.

Jessie Louise Wilson was born in Louisville, Kentucky, March 31, 1909, a daughter of the Reverend and Mrs. Eugene Leigh Wilson. She was educated in the Lexington Public schools and in the University of Kentucky from which institution she received the bachelor of arts and master of arts degrees. She was a member of Delta Zeta, social sorority, Kappa Delta Pi, honorary education Fraternity, and the Presbyterian Church.

Miss Wilson worked in the Registrar's office as a student assistant during the four years of her undergraduate study. Upon receiving her master's degree in 1932, she was made Assistant Recorder, and in 1937 she became Recorder.

Minutes of the University Faculty February 10, 1947

No finer tribute can be paid to her efficiency than that paid by the people who worked under her supervision: "She was as nearly perfect in her work as it is humanly possible to be." Her sincerity of purpose, pleasant smile, and gentle manner enabled her to secure the confidence of the students and faculty in the fairness of her interpretation of the University regulations. She represented the University in its finest and highest sense to all who came in contact with her. The feeling of those who knew her best may be expressed by the following:

She left us with a greater interest in doing things well,
With a better approach to our problems,
With a truer philosophy of life.
She made the world a better place in which to live.
She never poured poison in anyone's cup,
Nor left a scar from combat.

It is requested that the University Faculty receive this resolution and order it spread upon its minutes, and that a copy be sent to the family of Miss Wilson.

Ezra L. Gillis
Leo M. Chamberlain
Maurice F. Seay
The Staff of the Registrar's Office
Maple Moores, Chairman

The Faculty approved the resolution and ordered that it be spread on the minutes and a copy sent to Miss Wilson's family.

Dean Boyd presented for the College of Arts and Sciences the following recommendations concerning new courses and changes in courses, which were approved:

ARTNew Course

138. The Northern Renaissance. 3 quarter hours.
The arts of Northern Europe through the sixteenth century; Flemish, French, German and English schools. The Northern art forms, analyses of style; study and individual masters. Illustrated lectures and reports.
Correction (to conform with above)
140. Renaissance Art. 4 quarter hours.
Strike out the words "and in the North" because, in practice, the content of the course has had to be limited to Italy.

Changes in Quarters Hours' Credit

- 35 Ancient Art
Reduce from 4 to 3 quarter hours.
- 36 Medieval Art
Reduce from 4 to 3 quarter hours.
- 147 Art in America
Reduce from 4 to 3 quarter hours.

Minutes of the University Faculty February 10, 1947

CHEMISTRY

Curriculum Changes in Industrial Chemistry

Deletion of the courses in physical education and reduction of the total number of quarter hours required for a degree from 237 to 231.

Addition of the following statement as a footnote: "The requirements in physical education must be met by a completion of work prescribed by the Department of Physical Education without credit".

Change the word "humanities" to "social studies" in the electives limited for the senior year. This is in accord with the original intent and present practice. Originally the word "humanities" was used in too broad a sense and included twenty quarter hours of electives.

GEOLOGY

New Course

106c Economic Geology. 4 quarter hours.

Engineering aspects and groundwater. Professional training in the work of the geologic consultant and staff geologist in engineering work. Exploratory work for industrial and farm groundwater supplies.

Prerequisite: Geology 30a,b,c, and 123a,b

Discontinue

31a,b Laboratory Work in Regional Historical Geology (2 quarter hours each)

Changes in Quarter Hours' Credit

124a,b,c, Regional Geology

Change to 4 quarter hours each. The laboratory work of 31a,b,c is being added to this course.

HISTORY

New courses (for summer 1947 only)

124a Social and Cultural History of the United States to 1830.
4 quarter hours.

124b Social and Cultural History of the United States since 1830.
4 quarter hours.

These courses deal with changing phases of social and cultural life in American in an effort to establish the background of American society by examining the forces which have influenced the cultural growth of the Nation.

Minutes of the University Faculty February 10, 1947

LIBRARY SCIENCE

New Courses

127. Reading for Young People. 3 quarter hours.
A book course complementary with L.S.128. It assumes that students will have from L.S.152a a general knowledge of book selection tools, criteria for evaluating books of different kinds and a general knowledge of the types of books being turned out by publishers. The course will consider whatever knowledge of reading interests of this age is thought necessary and desirable. It will consider the important aspects of both school and public library service to this age group.
- 152a Book Selection. 4 quarterhours.
A general study of book selection principles and methods, topics and activities included: principles and standards for the selection of books and periodicals for library use; the book publishing industry and its output; reading and evaluation of types of books; writing book notes and book reviews; critical examination of aids to book selection including book reviewing periodicals; practical problems in the selection of books; business aspects of book description; library records for the acquisition of books and periodicals.
- 152b Book Selection. 3 quarter hours.
Reading and evaluation of typical books on philosophy, religion, social and natural science, useful and fine arts, travel, history, biography, fiction and literature (short stories, essays, poetry, and drama). Practice in oral and written reviews.
145. Organization of Library Materials. 2 quarter hours.
A course designed to give the beginning librarian practical instruction in the acquisition and organization of library materials. Among the topics included are ordering, accessioning, preparation, of books, and other materials for library use, mending, binding procedures, inventory, and the other processes concerned with the physical maintenance of the collection. The use of library statistics in making reports is investigated.

Courses discontinued:

- 144 Library Records and Methods. 3 quarter hours.
150a Book Selection. 4 quarter hours
150b Book Selection. 4 quarter hours.

MATHEMATICS

The Mathematics Department request the expansion of 207a,b to 207a,b,c, Course descriptions are as follows:

- 207a Theory of Numbers. 4 quarter hours.
This course covers the material in Chapters 1,2,3 of MacDuffee's "an Introduction to Abstract Algebra", with supplementary reading.

Minutes of the University Faculty February 10, 1947

- 207b. Theory of Numbers. 4 quarter hours.
This course covers the material in Chapters 4, 5, 6 of MacDuffee's "An Introduction to Abstract Algebra"; with supplementary reading.
- 207c. Theory of Numbers. 4 quarter hours.
This course covers the material in Chapters 7, 8 of MacDuffee's "an Introduction to Abstract Algebra", with supplementary reading.

PHYSICS

9 Because of the increased amount of material now available in the field of theoretical physics which should be treated, it is proposed to increase the content of Physics 217a, 5 quarter hours; 217b, 4 quarter hours; to Physics 217a, 4 quarters; 217b, 4 quarter hours; and 217c, 4 quarter hours. The distribution of content of the course when extended from 9 to 12 quarter hours and offered for three quarters instead of two will be as follows:

- 217a. Theoretical Physics. 4 quarter hours.
Lectures upon advanced dynamics of particles, rigid bodies, deformable bodies and fluids. Much of the material will follow such standard treatises as Page's or Stater and Frank's "Introduction to Theoretical Physics". Prerequisite: Two (100" courses in Physics and Mathematics 105a.
- 217b Theoretical Physics. 4 quarter hours.
A continuation of 217a. Thermodynamics and statistical mechanics, kinetic theory of gases. Electrostatics and magnetostatics. Electric currents.
- 217c. Theoretical Physics. 4 quarter hours.
A continuation of 217b. Electromagnetic theory of Maxwell and as modified by special relativity. Geometrical optics and physical optics. Origin of spectra including the fundamental theory of molecular spectra.

RADIO ARTS

- New Course
- 101 Radio Regulations. 3 quarter hours.
An intensive study of Parts 2, 3 and 4 of the Rules and Regulations of the Federal Communications Commission, including various application procedures; the music licensing regulations of ASCAP, SESAC, and BMI and programming procedures; transcription services and network practices; censorship through FCC licensing practices; libel and slander; copyrights as applied to broadcasting. No prerequisite.

In the absence of Dean Cooper, Acting Assistant Dean L. H. Townsend presented for the College of Agriculture and Home Economics proposed changes in courses, which were approved by the Faculty. The changes are as follows:

Change in Name of Course:

Agronomy 2, Market Grain Grading Judging -
to be changed to MARKET GRAIN GRADING.

Minutes of the University Faculty February 10, 1947

Change in Credit

Animal Industry 181, Animal Nutrition, to be changed from three credits to four credits. Will be offered in four lecture hours.

Animal Industry 182, Laboratory Methods in Animal Nutrition - from two credits to three credits. Course will be offered as one lecture and four laboratory hours.

Farm Economics 200a-c, Agricultural Economics Seminar. Now offered without credit. Course to be given as a one-credit course.

Change in Name and Credit

Home Economics 3, Dietetics for Nurses, 6 credits, to be changed to Home Economics 3, Food Preparation and Elementary Nutrition.

(4) I, III

A course for nurses. Food composition is studied and its relation to normal nutritional requirements for optimum health. The laboratory includes practice in food preparation and the planning and preparation of meals for various age groups.

At the request of Dean Evans, the College of Law was given permission to designate certain courses from time to time in which credit in the first half of the course is to be made conditional pending completion of the second half.

Dean Taylor presented a request from the College of Education to make changes in credit or title of three courses. The Faculty approved the changes, which are as follows:

That the credit for Education 251, Problems in Public School and Community Music, be reduced from 5 quarter hours to 3 quarter hours.

That the credit for Education 253, Independent Work in Music Education, be reduced from 5 quarter hours to 3 quarter hours.

That the title for Education 44, Fundamentals of Elementary Education, be changed to Child Development and the Curriculum.

The Faculty approved a request from the College, presented by Dean Wiest, to reduce the credit in Commerce 11, Salesmanship, from 3 to 2 quarter hours, and the credit in Commerce 159, Governmental Accounting, from 4 to 3 quarter hours, also to change the number of Economics 16a and 16b, Tutorial Work in Economics to 16 and the credit from 2 to 1 quarter hour.

President Donovan announced the destruction of the Guignol Theatre by fire and urged the members of the Faculty to make every possible effort to control smoking in the classrooms and in the Administration Building. He emphasized the fact that during present crowded conditions on the campus many of the buildings present serious fire hazards and he pointed out the disastrous

Minutes of the University Faculty February 10, 1947

results of a fire which would destroy the Administration building, with its valuable educational and financial records. There was some discussion of ways in which the faculty might be of help in eliminating smoking in the buildings, and a suggestion was made that the Student Government Association might be asked to help. Howard Stephenson, President of the Student Government Association, stated that he would present the matter to that organization.

The meeting adjourned.

Maurice F. Seay
Maurice F. Seay
Secretary

MINUTES OF THE UNIVERSITY FACULTY MARCH 10, 1947

The University Faculty met in the Assembly Room of Lafferty Hall Monday, March 10, 1947. President Donovan presided. Members absent were R. S. Allen, George B. Carson, Thomas P. Cooper, Lyle R. Dawson, W. D. Funkhouser, T. L. Hankins, W. A. Heinz, J. S. Horine, W. M. Insko, T. T. Jones, G. C. Knight, C. G. Latimer, G. T. MacKenzie, L. E. Nollau, Frank D. Peterson, R. E. Shaver, and D. G. Steele.

The minutes of February 10 were read and approved.

Resolutions concerning Professors Henry Beaumont and Clay Campbell Ross were read by Dr. M. M. White and Dr. Carsie Hammonds respectively. The Faculty approved the resolutions and requested that they be included in the minutes and that copies be sent to the Board of Trustees and to the respective families.

HENRY BEAUMONT

Dr. Henry Beaumont, a distinguished member of the faculty of the College of Arts and Sciences, died February 21, 1947. He joined our faculty in August 1930, as an Assistant Professor of Psychology and as Executive Secretary of the University Personnel Bureau, and at his death was Professor of Psychology and Director of the Bureau of Industrial Psychology. During his first year at the University he not only instituted help programs for deficient students, but built up, with the cooperation of all the colleges, a placement center which operated efficiently during the depression years and which still brings benefits to the University.

Doctor Beaumont, a man of vision, trained in the classical tradition with a major in philosophy, at home in five languages, a world traveler, possessed of a thorough knowledge of the fundamentals of psychology, contributed much to the wide recognition that the Department of Psychology has received during recent years.

He was a popular teacher, holding firmly to the belief that interest contributes to learning. He wrote many articles
