Life, Liberty and Pursuit

By Adele Denman
Some say that we are back in the swing of things, and I guess we are. It's so nice to see the happy vets in their new clothes again marching about the campus, saluting every officer they meet, ailing a profusion of falling books. And a change has come over the girls too, many think they are too, too intellectual with their greeting of "Bonjour, Monsieur."

Dancing In The Grill Is Suggested By Letter

October 9, 1945
Opinion letter to the University authorities?
Why can't the University furnish the student body a place to go in the evenings which will be exclusively "college"? Rose Street, the Tavern, and the Paddock are all right in their own little way, but they are so often filled either with an older crowd or else with bobble-soxers. We need a place to go and dance where we can get cakes and sandwiches, etc., which is near the campus and University-run.

LIFE: Speaking of bedclothes, some persons of the campus need sheets. Pat Hall women announced yesterday in a late bulletin that "Women cannot live by mattress and sheet. They will be accepted with a tear-in-the-eyes gratefulness."

"Will thou take this man, to have and to hold, to love and to cherish, until death do us part..."
Our happy wives have hearts which would weigh extra pounds on any scales—for you see, these unhappy wives have hated almost all in culinary arts and sciences on their husbands' gastronomical classifications. So Betty Bohannon Meyer and Sally Buchner Morrison are exposing themselves to learning in a freshman cooking class, in the Home Ec. department.

The Spanish classes, have offered no end of amusement to profs. In a first quarter Spanish session, a boy, obviously of mountain heritage was called upon to pronounce the word "mojo" as he passed a bottle of our happy wives have hearts which would weigh extra pounds on any scales—for you see, these unhappy wives have hated almost all in culinary arts and sciences on their husbands' gastronomical classifications.

Cwens First Club Discussed In Series
A series of articles on the many University clubs and honorary organizations is initiated this week with Martha Yates' story on Cwens, sophomore member of the first class.

Evidence that the war is truly over is the fact that the U.S. on the U.K. campus, but on all others as well. Classes at West Virginia U. are overcrowded; dormitories are overfilled; and professors are overworked to capacity.
With professors already worked to the limit and many classes full, it is an impossible task for colleges throughout the United States to take care of their increasing enrollments.

An Honor System For UK?

Cheating is not only common but accepted in University classes. There is no tactful way of stating such a shameful fact. Everyone knows it, and if he happens not to indulge himself, he considers it none of his business if another student does.

Although he is taking another person's work and calling it his own, the class cheater's conscience doesn't bother him. Cheating isn't considered dishonest. It is putting something over on the prof, or getting a better grade, or a little game of trying to get by without getting caught.

Pupils who are absolutely reliable in other things may copy from their neighbor's paper during an exam. And they don't feel that they are doing anything wrong. They would probably say "Everyone does it," and they would be about right. But if everyone didn't do it, think how much better it would be. It could be said with pride that "Students at the University simply don't cheat."

Only if the students of the college community want to get rid of cheating can it be done. Signing pledges and having the instructors constantly on the guard won't prevent if one really wants to cheat. The methods are well known. Hidden notes, pencil signals for true-false questions, quick glances, reminders inked on cuffs, or wrists. And there was the girl who had her notes in her stocking top—and slyly slid up her skirt to read the answers. What could the prof do?

The University faculty has taken no action on a situation they realize exists, because they know a solution must come from the students. An honor system, which would be the only plan, must have the support and cooperation of the student body to be a success.

Why couldn't the honor system work at UK? Recall the classes where the instructor handed out test papers and walked from the room. He expected no cheating and anyone who did would have felt like a heel. That is the honor way. And then there were classes where those taking an exam were watched suspiciously, although they had been placed in separated desks, given alternate questions, and warned that anyone cheating would be flunked. College men and women were supposed to have outgrown that kind of treatment when they left high school. Nothing hurts a student more than treating him like a child.

The honor system works at Vanderbilt, at Randolph-Macon, at V.M.I., and at West Point it has worked for years and years. The Army cadets have a set of rules they have worked out for themselves, and prescribed penalties for infractions. They are on their honor to report not only anyone they see breaking a rule, but to

report themselves, and they go to any extreme to not break their honor-bound rules. In a university of this size and standing, it is a disgrace not to take a stand against cheating. Why couldn't the Student Government association make the installation of the honor system here one of their projects for the year? That body, representative of the students, could draw up the rules, and fix the penalties. An Honor Court, set up like a regular court with the advice of law students, could be provided to try cases. The mechanics of the system, however, could be what the students want. The important thing is that the need for an honorable way of eliminating cheating be recognized.

At other colleges the honor system is traditional. Why couldn't it become so at the University of Kentucky? When a veteran starts back to college he quite naturally attracts more interest than the average new student. His uniform, if he wears one for a while, his service record, the maturity and special knowledge that his experience has given him are the objects of admiration of other students. He is "the veteran." At first he will stand out from the anonymous group of new comers. Then he must become a student first, and a veteran second.

He will be given special considerations and positions which he will not seek but rightfully deserves. His opinions and needs will greatly determine the course taken in student affairs. Through the Veterans' club, the ex-army, or navy men or marines are, and will become even more, of a force on the University campus. Doing an excellent job in helping ex-servicemen get in the swing of college life, the Veterans' club also protects their interests and aids in solving their particular problems.

No one should know better than the veteran the advantages of group action. Having been in the armed forces he should also be aware of its limitations. However, to become an integral part of a college, the veteran must not stop at being influential through his club. He must participate as an individual. Not outstanding merely because he distinguished himself in his country's service, but because he is qualified to lead as a working, thinking student. He must become identified with other student groups and activities, which will welcome his taking part. He must enjoy his college associations, and he will. To be completely adjusted he must become a part of the student body. As veterans these men are welcomed by the students, but we want them to feel that they are one of us—and know them and like them as persons.

Renfro Wins First In Union Program

Johnny Renfro, disguised as "Carman" and imitating Betty Hutton to the recording of "Stiff Like That There" plus his tap dancing, was the winner of the amateur hour held at the Student Union Saturday night.
Others featured in the program were Fran Johnson, Bill McCoy, Mary Martha Presley, and a jive band organized by Tommy Shuck. Betty Bain Adair was accompanist, Hal Hackett master of ceremonies. Judges were Mrs. Sarah B. Holmes, Mrs. Mackie Radall, and Mrs. Dorothy Evans. The amateur hour was sponsored by the Student Union Board.

Proceeding the amateur hour, a carnival included a magician, three fortune tellers, a comical movie, ring throwing games and bingo. Joe Ward and Eva Singleton cut black paper silhouettes of carnival participants. Mattie E. Douglas and Bill Shurgill, social chairman of YWCA and YMCA, had charge of the carnival.
A dance followed the amateur hour with Milt Mool and his Troubadours furnishing music.

Give your grey coat or your black Chesterfield the once over. It may not be yours.
During the madmen of rush week four coats were involved in a case of mistaken identity. Miss Jane Hancock told The Kernel. Someone left at the Kappa Alpha Theta house a grey wool coat with a "Perkins" label, taking in its place one with a "Detroit Hudson Specialty Shop" label. At the Alpha Delta Pi house a black Chesterfield with no store label was taken for one with a "Style Shop" matter.

They all look alike and the mistake is understandable. But look at your coat anyway. As we said, it may not be yours.

Believe It or Not

A ton of average freight by railroad moves one mile for less than a postal card; a passenger one mile for much less than a letter.

Surprising, but true! The railroad freight rate for an average ton per mile hauled is less than one cent; and the rate per passenger per mile is an average of about two cents.
The wear and tear on shoe leather for a mile walk would probably exceed the rail rate for an average ton of freight or a passenger for the same distance.
When some one says "high freight and passenger rates," consider the above facts. There's not a better bargain in the whole world than in U.S. railroad service.
Today, with high operating costs, freight

Kentucky Out To Avenge '44 Defeat

By Don Towles
Coach Bernie Shively's Kentucky Wildcats and Coach Wally Butts' Georgia Bulldogs will meet for the first time this season on Stoll field tomorrow at 2 p.m. The Cats, having lost two of three tilts this season, will be out to whip the undefeated Bulldogs.

Kentucky, defeated 21-7 by CV Miss and 7-6 by Michigan State, has won over Cincinnati in a last quarter rally, 13-7.

Georgia has defeated Murray State, Clemson, and the University of Miami. "Baldy" Gibb, Kentucky's line coach, who scouted the opponents last week, reported that Georgia will be three touchdowns stronger this year than they were last year.

Possible danger men for the Bulldogs will be Reid Mosley, pass receiving end, and Johnny Rauch, quarterback, who does the bulk of Georgia's passing. Mosley is said to be able to catch the pigskin if it gets anywhere in his vicinity, while Rauch is rumored to be an expert passer. The Bulldogs' main offensive attack has been through the air.

The Wildcats' attack will probably be paced by halfback Jesse Tunstall and end Bob Schleicher, the fellows who sparked the attack against Michigan. Jimmie Barnett, who was injured in the Michigan tilt, will start against the Bulldogs. The entire Kentucky team is ready and in condition to avenge the 13-12 defeat by Georgia last year.

Since 1939 all of the Kentucky-Georgia games have been won in the last two and a half minutes of play. In 1939, Kentucky trounced the Bulldogs when Jim Hardin caught a pass from Dave Zoeller and made the winning touchdown for Kentucky with one minute and 50 seconds left in the game. In 1940, the teams tied 7-7. In 1942, when Georgia had their Rose Bowl team, the Wildcats lost in the last two minutes of play when Georgia scored the winning touchdown, to make the tally 7-6.

According to S. A. "Daddy" Boles, there will be a sellout crowd on hand tomorrow afternoon to see the tilt between the Cats and Dogs.

JIMMY BARNETT

TURKEY IN THE STRAW—They play a tough brand of football around Huntington, W. Va., and the fact that Jimmy Barnett, University of Kentucky fullback, made the all-state and Big Seven Conference teams while playing with Huntington East High indicates the Wildcats won't be without brilliance in the backfield. Barnett's nickname is Turkey.

Barnett 'Cat High Scorer

By O. C. Halvard

Jimmy Barnett, 17-year-old freshman from Huntington, W. Va., has scored three of Kentucky's four touchdowns this year, becoming the leading scorer with 18 points.

Sports writers often refer to him as "Turkey," a nickname that he acquired when he was to raise them. His football career began three years ago at Huntington East high school where he was captain of the team in his senior year and made the Big Seven conference all-star eleven. During high school he compiled a total of 99 points, 56 of them in his last year. Jimmy, fast on his feet, is a consistent ground gainer, and because he is a fast starter he gets through the holes in

the line before they can close. Jim is six feet one, weighs 165, has blond hair, and is rather modest about his football fame. Jimmy, whose father is a minister in Huntington, is taking physical education and wants to become a coach after he finishes school. Basketball, swimming, and bowling are a few other sports that Jim likes. However, at the present time he plans only to play football at college. As for the girl readers, Jimmy is not attached—yet, but he has noticed that there is a large number of good looking girls strolling along the campus.

These four linemen have been doing the bulk of the line smashing for Kentucky, breaking up scoring plays and smothering the opposition. They threw an average of 215 pounds per man at the center of the line and all are veterans from last year's squad. McDonald, center; Serini and Haas, guards; English, tackle.

Blues Lose To Spartans 7-6

Playing against "old lady luck" the Wildcats of Kentucky lost a thrill packed game to the Spartans of Michigan State, 7-6, on a rain drenched turf. The big gun was Jesse Tunstall. The Big Blue missed a scoring opportunity late in the final canto thus enabling Michigan to go ahead 2-0 in a series that started last year.

In almost a replica of what happened last year at Stoll field the Wildcats out gained and out rushed the Michigan team but came out on the short end of the score.

After recovering a Michigan State fumble on the 45-yard line the Wildcats bulldozed their way to the three. There the Big Blue, touchdown hungry and over anxious, was called off side and moved back to the eight. With time running short, Blanda fired a pass intended for Bill Chambers in the end-zone but he was pulled to earth before he could handle the pass. It looked like the

Cats would be given the ball in the end-zone for a touchdown but to add to Kentucky's string of luck the officials tumbled Chambers with illegal use of the hands and penalized the Cats back to the twenty-three.

The high light of the game came on the second play of the second

quarter when Jesse Tunstall cut through a hole made by Serini and Paul for a 57-yard touchdown run.

Lady Macbeth needed an electric washing machine

LADY MACBETH was the original lather lady! She hated spots. A "Damned Spot" . . . to be exact. In fact it was a tell-tale spot of blood that caused her downfall, according to Will Shakespeare, the w.k. Bard of Avon. All Lady Macbeth needed was some peroxide, cold water and an electric washing machine . . . to change her destiny.

All the various elements of an electric washing machine, yes, even all the aluminum was on earth when Lady Macbeth delivered her famous soliloquy to the bleak Scottish moors . . . but the best kilted necromancers of her Highland Court lacked the "know-how" to imaginee them.

We invented the word "Imagineering"™ to describe how Alcoa, and other great groups of technicians go about the job of supplying the methods, materials and machines of modern life.

Today . . . Youth laments that there are no new lands to discover, no new frontiers to cross. And yet in the uncharted kingdom of the mind, hardy pioneers are daily spanning new horizons in the twin fields of invention and adaptation. Aluminum offers exciting new opportunities to every intrepid Imagineer . . . who seeks new industrial worlds to conquer.
