Love Miller - you that I also understand
Mrs. Gaudin's and that is
characteristic she knows well the life
is miserable & further more - the summer
at the sea, is better but you are at
the Cape. In fact there is no time
for you to visit - Salma - she says you
if all goes well she shall look in
later trip to the other side - Adrien
Almond C & I in very thing - El-Alpha
& when in which he should - the highest
in Alpha was D+ which does not break

dominated in the summer - so many do to this but he -
clearest when you will see
by this letter paper I am
getting down to scrape for
Maggie's family correspondence
from all affairs & sales
abundance of envelopes -
if it is not entirely with
exaggerable & I hope continue
to send you letters in di-
stinctive form - we are now
working in view of the great
character, so that a blessing
as the dust has become pe-
terable & increases per me
& "chick like" in the more.

Yesterday afternoon about four I went
in to Mrs. Mudge to assist her in
serving coffee to some of her Mother's
Contemporaries when I got home your
Father had returned to see Mr. Allen
& the Rev. Sadlong was "boasting" of
himself. Mr. Oliver was prominent
& they were prevailed upon to remain
just as he seated himself in some
Pector Place so another seat was
put on after dinner an usual

chattering, & then I read "Morse Chan-
dler" - your Father had a good
time & all seemed interested. They
are coming again some being of the
Lady's side the subject of interest
Saturday your Father & Col. Ripley go
out to the Lake - something for pro-
gressing & it will be as much of a
surprise to me as to you since I have
not been out - Letter from Cambridge
report a mild winter & Florida returned
from Maine to be much better - that you

W. D. - You may know she is young
When she starts the school - I suppose
the girls - it will be her school -
My last friend & she took it - they - Mary
& Mary, Andrew - straight as it goes -
Also Kate - soon - Maria - Chapin - had
the time of her life - I am sure Walker
is quite ill of 'em - Mr. Gardner
is in Los Angeles - He was waiting in waiting
the situation - so that the situation was
checked - I have been quite some time
the situation - He may be obliged to wait his school

See for David as a teacher
to the boys for that matter
as students - By next year
Addison - you got in the
High School - there he will
stick until old enough to
try Addison - the work I
consider his course - the more
I am convinced that Howard
will be the University for him
The active method is best for
him I think - just now he is
absorbed in telegraphy - he &
Trudley have mechanical - spending
at all hours - it is a good
play thing - in the same way -

Stenography could be put to good
account. Do let me know about the
Easter vacation right away. I have
several books for you. I should like
to have you read pleasantly & dis-
criminately. Something like the
Maid of Medicinal is of incalculable
value to you. Your store of knowledge
which makes you master of all
situations. When you receive books
be sure to put your name in them

& do not lend. I hear Dudley
& Addison holding forth which gives
the warning of Gush. Master has
just come in radiant from the cold
she is a great talker. I have been
hearing little stories of the garden &
all about my friend Kelly. Old grey
& Chan Reliker. Finally she asked
what Daddy used to refer to I hesitated
in replying. When she said laughing
I feel the code horse radish I had

Cutting down those who
pay dividends must adjust
after the first of the year
just make your opportunity
count. & what you
undertake do it like a
gentleman. This absolute
rule will be popular &
generally adopted in due
time. Mr. Hamilton dropped
in this morning from New
York - he is business manager
for the N. Y. Tribune. He seems
in very good spirits, but heart-
at the attitude of the papers in
St. Paul. Of course he should
know that there is no such

from his missing, Matilda &
Alma & I hope to get a
good woman for kitchen
& Ann's work. No solid
obligations are already
incurred & we can con-
fidently & properly get
on until May 1st when
we shall go to the country.
A laundress in our employ
at present & old Elmer
for the red room work &
Monday will give us some
computations & many reductions
in expense. Nearly all in
moderate circumstances are

Quality, as loyalty in this climate
wages all sorts of excellencies.

I received a good many cards
from many parts of the country
when I spoke later I shall be more
explicit just now I must be on
I think to my sorrow are mistaken
give a word of love to your
grand mother & thank her for
her remembrance & also your

Mother & Auntie Mary Susan
& Jennie - All send love
& wish a happy New Year
& God bless you & all
Devotedly

could & Hunter just about
half alive to the situation
Mr. Albin - Mr. Davis &
Preston Reale died
with us & Preston brought
the fruit-cake his father
sent him to us - I think
you are enjoying your
visit - & get all of the
pleasure you can from
it - As upon your return
you must pack, soon
to work in earnest -
I am glad you sent Dr =

Charles Fisher - & are
all in the clutches of
that demon Grippe -
Hunter is feeling very
much worse & your
father is worried
sympathetically &
themselves - Our Christmas
was slow & he certainly
missed you - There were
numerous messages
in flowers, telegrams, &
telegrams - but he could
not get away on account of

Memorances to your Fathers Family
I am enclosing Mrs Fosters note to
you & when you reach Andover
shall send a silver pencil Case
maintain while next year about
those assistance you may ask
in order that you may be spite
above the critical eyes of the
Foster "allans" send a note of
thanks at once in the proper way
By todays mail I received a

note from Mrs Foster Sr. & Jr. Much
gladness & many false suggestions
However we shall not meet again
I trust & then upon formally to be
business terms only until death do us
part. I can never forgive your grandda
Foster Jr her duplicity - of her father
your Father has seen Col. Piffers &
he reports a two or fifteen percent
dividend with a 50% reduction in
salaries, making the difference of one
thousand dollars a year in the affairs
