from contact with your women
as he puts it - He says
"the best of ministers who are
not licensed - but all large to
drive the college student &
the feeble & guideless young
man who begins to feel the
venue of blood flowing in
his veins - misapplied energy
put it off in cold water or

nausea to resist evil in that
form & so many times it is offered

to do your part. Mrs. Cappa
is very watchful you boys
will not be absent. you must
not be disappointed here. Mrs.
Grandma is most anxious
to have all the family there
this summer. Peter's good
case of bluff. John is
in California & goes to
Pittsburgh in October for an
operation. Widely very delicate
must be his appointment to Mrs. Porter

in Sugar Coated form. All we
can do is to guide the youth
& in listening to believe & generation
of children. Carry the Stamp of
such indulgence & the liberal
of it - we must be the thinking
person. Mrs. Porter looks
well & Father is going to
at the impossible young age
it requires skill to manage

he is in the transition state.

Strike ultimately - The people must
be knocked down - Jim says it
happened at 1st but really blame
Addison - He takes it as a good
thing for both - It will be a long time
before we'll believe in the
"Milkmaid" - The Reg. which is necessary -
We must be able to exercise control

Dear Mother
Yesterday I promised
myself that under no cir-
cumstances should the
day pass without a letter
going to you & Addison.
But here it is, another
day & I am just taking
my pen in hand. I
return you Addison yesterday's
letter of a ~~Contract~~ with
Contract

When one of the Pups at Easter
the boy was persistent in his
compliances & Addison after repeated
protests finally got mad &
knocked him down falling on
top & in consequence the young
Mills sustained injuries to the ef-
fect of a broken collar bone -
Of course I wrote an epistle to Addison
reminding him of losing his temper &
of those offences I would always

Strike any body at any time. You
1st - to be called a liar
2^d - to be called a thief
3^d - to be called a son of a B.

The boy, no doubt was most
imitating - but Addison should have
left the room rather than have a
hand to hand struggle under the
circumstances - You know I often
feel the desire to strike a blow but
my self interest kills such an expression
of inward wrath or disgust - One must

You do not remember when
you had Whooping Cough
The Water Addition was one
one of the few things you were
had in wild form.

Men often conceal their emotions
A man must be brave,
Courageous & fearless. See
This is a good specimen
He out of this comes that
honesty & independence.
Do not seek a quarrel
Get right when the right
thing comes. I am so pleased
to hear of your work & that
you are attaining what you
desire. The result of which
stimulates & feeds the flame

of Hope & Ambition - His speech in
Gardner's primer - Mercy, which
means Contentment, Confidence
& Success - A steady, rational
process of thought. Wings give
altitude & makes you sure
of yourself - Keep your mind &
body in training of you will reap
a full harvest - Work away &
rest will come later -

the country by Tuesday, but a Sun

another week must pass before

She is coughing at night more than
during the day - & we must be
patient until the remaining three
weeks of the total six is over.
The course of the disease extends the
six weeks -

or if you will Charlie does
not make a tin strike. You
boys & "Lion Jane" may be
the only paper in factories
on your father's side. Do you
see things must be kept to the

returned this morning from
her trip. Then came lunch

last. He today's leader from
Coxington & see Uncle Henry
Duncan will attend to the
celebration of his class in
Harvard June 29th. He leaves
for Boston June 20th. You

Grandmother knew some of his class
mates. There are thirty eight em-
erging members of the class - Very
interesting don't you think. If you
are not Audover at the time - I
should like to have you leave a card
in his pocket - for appearances -
The celebration is to be in the Union Club

to ask whomsoever you wish -
By the way, Mrs. F. only was
there the other day, or she tells

They were told that paper to
attend - She likewise said
they wanted to read Caroline

you believe it - The young people
are getting familiar & intimate - She

Manus & the Pope are getting nearer
about it - The Debutantes are reported
as being absolutely silly & noisy -
Did you get any letters from me plan
or did I miss you that we should
go east for the holidays - Washington

as we have it in west to be - When you we
may find ourselves - but certainly

Conventional forms are best where it
is not extreme or artificial - I
think it is a great thing to know the
proper form in good society - it
clamps a person at once - just
as a good representative of a man
of anything is conspicuous & preferable
I don't suppose you have much time
for independent reading - I want to
send you 154-40 or 154-41 - it
contains the most interesting history you

Howard Field's in the State to him
the day he left - & he seemed
under suppressed excitement

Just - imagine what it means to
him - his health & the attempt
made here some time ago -
Such America is a wonderful
country for money, up the sides
of the bank - I think there seems
to be opportunity - at my hand
if only the youth could realize
of St. Raphael - Jim Hill declares
as you will read in the paper
that he means to establish his
line through Canada - his idea
seems to be to traverse East to West
North to South - what an

Ambitious Hog he is -

You will be glad to hear that
