6.12.61 Den (over) Data

AMONG the many activities of the government-sponsored Works Progress Administration in the 1930's was the preparation of lists of early American books, pamphlets, and broadsides printed in the various states within certain time limits. The Historical Records Survey division established an American Imprints Inventory under the direction of Douglas C. McMurtrie, an authority on American printing, which undertook to locate and record items printed in the United States with date limits varying with the period of settlement of the different states. These limits ranged from anything printed earlier than 1820 in the New England states up to 1890 in the Rocky Mountain region, with Kansas being assigned 1876 as a final date.

Under this project, printed materials, exclusive of newspapers and serials, were examined in libraries all over the United States. Information about them was recorded and sent to a central office in Chicago to be sorted and turned over to the Historical Records Survey director of the state in which the items had been printed.

Ideally, printed matter would bear an imprint consisting of place of publication, publisher or printer, and date printed. Actually, comparatively few of the items surveyed gave all this information. Place and date often had to be determined from the text, and great care was required to assign them to the right category.

In spite of the difficulties, inventories of printing in many states were published with location symbols of libraries holding the individual items. A *Check List of Kansas Imprints, 1854-1876*, was published in 1939 as No. 10 of the American Imprints Inventory, by the WPA Historical Records Survey Project, Topeka. This mimeographed list contained 1,574 main entries, in addition to a few entries for doubtful titles, and over 400 legislative bills. "It is inevitable that many other titles will turn up," wrote McMurtrie in the preface. His prophecy has proved correct. Since the 1939 list was published, librarians, collectors, and dealers have been discovering other items printed in Kansas before 1877. While this will no doubt be true no matter how many supplements are issued, enough entries have now been collected to make a supplement desirable.

Information has come from many sources. Nearly two dozen new entries were obtained when the Historical Records Survey sent to the Kansas State Historical Society all the Kansas entries which had been received too late to be checked and included in the 1939 edition.

Since 1939 the Society has acquired three sizable collections of early imprints. The Morrill Public Library, Hiawatha, gave several volumes of pamphlets and folders collected by D. W. Wilder. A scrapbook of printing specimens of Crane & Co., Topeka, was obtained from Eberstadt & Sons. W. C. Simons, of Lawrence, lent for microfilming a collection of job printing done by the Lawrence *Journal* and other presses. Many of these items had not been previously listed.

Alan Farley has listed here his own private collection and items which he has learned about by consultation with other collectors.

The University of Kansas and the University of Kansas City have both been helpful in listing holdings for inclusion here.

As in the *Check List*, newspapers and other serials have been omitted. In addition it has seemed desirable to omit certain classes of imprints in the Society's possession if they add no new printers and are of limited interest. Among these are 180 briefs of cases tried in the Kansas Supreme Court and 300 legislative bills not included among those previously listed.

Also omitted except for a few examples are blank forms of varying nature which were printed on many presses. These include legal forms (deeds, tax receipts, checks, mortgages, etc.), certificates of membership in clubs,<sup>1</sup> certificates of election to office, shares in town associations,<sup>2</sup> letterheads, business cards, and commissions of officers in the Civil War. One of the most interesting of the latter is the commission of Lt. George Ellis, for whom Ellis county was named. Printed at Lawrence by the *Kansas State Journal* Steam Press, it was signed "Gov. C. Robinson, Nov. 3, 1862."

Despite these omissions, a wide variety of material is represented in the following new entries, ranging all the way from ornate invitations to masquerade balls through advertisements of stock powders, from pamphlets on how to raise silk worms to posters offering rewards for the apprehension of murderers and thieves.

The compilers have followed the style used in the *Check List* for those items which they were able to examine. Items credited to other libraries and dealers are described in somewhat less detail as they appear in their catalogs.

1. Alan Farley has a certificate for one share of stock issued by the Wyandotte City Cricket Club, September 1, 1867, to Lawson Cook, Jr.

2. An example of these is a share issued by the Quindaro Company. See item 16.

No effort has been made to list all libraries holding a given item or to list additional copies of items already located in the *Check List*.

For convenience, symbols, listed below, have been used to indicate a few of the libraries and collectors whose names appear as holders of items. Full names of other holders are given under items held.

Walker, William.

[Pamphlet in reply to George W. Brown. *n.p.* 1854.] [ 1 ]

In the *Herald of Freedom*, April 14, 1855, p. 2, col. 1, Brown writes: "We learn that a pamphlet, from the pen of Ex-Governor Walker, of the Wyandots, has been published in reply to a letter written to him by us about a year ago, propounding certain interrogatories on which we desired information. The pamphlet has been before the public since last autumn, and yet we have thus far been unable to get hold of it. Will some friend place us under obligations by furnishing us a copy?"

No copy located.

# PAWNEE KANSAS TER.

## PUBLIC SALE OF LOTS!

In consequence of numerous applications from persons desirous of building immediately, the trustees are induced to announce

### A SALE OF LOTS

to take place at an earlier date than that already advertised.

**There will therefore be TWO Sales of Lots in PAWNEE, one on the 10th of APRIL and the other on the 15th of MAY next.**

The situation of PAWNEE is such as scarcely to admit a doubt of its becoming in a short time a large and important place. Being at the head of navigation of the Kansas it is the most delightful starting point for persons emigrating to our more western territories. A Military road from PAWNEE to Bridgers Pass in the Rocky Mountains affords the most direct route to Utah, California and Oregon, whilst the road to New Mexico is considerably shortened by a new one recently made. The Military post of Fort Riley is scarcely distant a mile from Pawnee and the government business connected with it will mostly be transacted here.

Ample accommodations will be ready for persons attending the SALES. These as above stated will be on the 10th of April and 15th of May next.

**TERMS.--Half the purchase money in cash; the ballance on completion of the title.**

WILLIAM A. HAMMOND,

# \$500 REWARD!

On the evening of the 28th day of April, A. D. 1869, in the town of Council Grove, Morris county and State of Kansas, one

## Wm. Polk Shot and Killed

One Wm. Hess, of said town, county and State and said Polk made his escape. The said Polk is about 19 years of age, has light hair, florid or red complexion, hazel eyes, a scowl or frown on his face, is rather loud spoken, weighs about 165 lbs. and is about five feet eight and a half inches in height, healthy looking, well formed.

Now, therefore, I, W. D. Kahl, Sheriff of Morris county, Kansas, do hereby offer the sum of \$500.00 for the arrest and delivery of the said Polk to me at Council Grove, or into the hands of the proper authorities of this State.

Given under my hand this May 8th, 1869.
