

Education in a Natural Setting in Breathitt County

Dr. Earl Kauffman Jr., associate professor of physical education at the University of Kentucky and director of UK's summer session at Camp Robinson, lectures before a class in "Camping in Educa-

tion." The natural "classroom" was created by the students themselves from logs cut to make room for the power line to the camp.

Summer-Session Camp Opens In Forest

Located about 125 miles from UK is the Clemons Fork section of Breathitt County, but since mid-June the thickly wooded area at the end of Clemons' hollow has been actually a part of the main campus.

Testimonial to this will be given by more than 100 Eastern Kentucky teachers who are engaged in the University's first regular summer-session camp.

These teachers are enrolled in the University's "Summer School in the Forest." It opened July 13 at Robinson Recreation Camp, 21 miles from both Jackson and Hazard. The camp's name may sound poetic, but a look at one day's schedule for the teachers indicates that all activities are business-like, even if run informally.

Yet neither students nor officials of UK's College of Adult and Extension Education, the sponsoring agency, would contend that all is book work at the camp.

Each of the six classes offered during the summer period have been broken into interest groups to afford variety in study. For instance, students in the class in nature study have become near-experts in the identification of various kinds of reptiles, while the group studying recreational leadership has a folk-dancing project.

Such a camp has been considered for several years, but it became a reality only this year. Two of the leading figures in getting the camp started are Dr. Lyman Genger, dean of the College of Adult and Extension Education, and Dr. Earl Kauffman, Jr., UK's recreational specialist and member of the physical education faculty, who is serving as camp director.

Dr. Kauffman has hardly spent a night away from Clemons' Hollow since the session opened. Originally, UK had planned for the summer students to live on the campsite throughout the period. But daily chores at their homes in Breathitt and surrounding counties has made it necessary for most of the students to commute each morning.

The university took advantage of that and divided the interest groups by locality. The result is that group discussions have been held in the automobiles as the commuters return to their homes via car pools at the end of the school day.

(Continued on Page 4)

Water-Sewage School To End Today

Water supply and the treatment of sewage were the topics of discussion this week at a five-day School for Water and Sewage Plant Operators held at the University.

The annual school, which was conducted at Anderson Hall, was sponsored by the UK College of Engineering, Division of Public Health Engineering for the Kentucky State Department of Health, and Kentucky Water Pollution Control Commission.

Subjects on water supply were covered the first three days. The final two days of the "short course" were devoted to topics on sewage treatment. A comparatively new topic, "Atomic Blast Effects on Water Works," was discussed Wednesday morning by Albert H. Stevenson, director of the Division of Sanitation, Federal Civil Defense Administration, Battle Creek, Mich.

Approximately 80 water and sewage plant operators registered Monday morning. They were welcomed by Dean D. V. Terrell, head of the UK College of Engineering, and Ralph C. Pickard, director of the Division of Public Health Engineering, Kentucky State Department of Health.

The opening session dealt with water plant design, management and sizing of meters. Speakers were James W. Bowman, Lexington engineer with the J. Stephen Watkins firm; E. E. Jacobson, manager of the Lexington Water Co., Inc., and J. T. Guthrie, sales engineer for the Signal Mountain, Tenn., Water Works Supplies.

On Monday afternoon, J. Wiley Finney Jr., associate of Howard K. Bell, Consulting Engineers, Lexington, spoke on emergency water works and Nick G. Johnson, assistant director of the Division of Public Health Engineering, will discuss water plant operation reports.

The chemistry of water, interpretation of chemical tests and chemistry laboratories was presented during Tuesday morning and afternoon sessions by W. L. Williams, assistant superintendent of purification for the Louisville Water Works, and Harry C. Keyer Jr., chemical engineer, for the Louisville Water Co.

Other Wednesday morning discussions, in addition to Stevenson's address, were: "Preventive Maintenance," John S. Kenney, of Kenney & Co., Consulting Engineers, Lexington; "Algae Control," B. B. McIner, UK associate professor of botany, and "Instrumentation at Water Works," William C. Bachelor, branch manager of the Foxboro Co., Cincinnati.

"Corrosion in Action," a film of the International Nickel Co., was shown Wednesday afternoon. Thursday's topics were: "Sewage Characteristics," Louis F. Birkel, executive director of the

No. 35

Dr. Chappell To Resign

Dr. Tolan L. Chappell, Assistant Director of Personnel, has announced his resignation from the University as of August 1.

He has resigned to join the firm of William Lynde and Williams, Consulting Psychologists. A partner of this firm is Dr. Robert Henderson who received his Ph.D. from UK in 1949.

Dr. Chappell, before coming to the University in 1954, was a Research Associate in Psychology at the University of Missouri from 1953 to 1954. He conducted a research on teacher effectiveness under contract between the University of Missouri and the office of Naval Research.

He received his A.B. from Hope College in 1949, A.M. degree from the University of Missouri and his Ph.D. was acquired in 1953 at the University of Missouri also.

From 1943 to 1946, he was in the army, and stationed in Europe with the 76th Division.

Trip Deadline Today

Today, July 15, is the last day to sign up for the UK night of "Wilderness Road," presented by Berea College. Everyone connected with the University that desires to make the trip must register in Room 115 of the Student Union Building by 4:00 o'clock.

Round-trip bus tickets will be \$1.35; tickets to the play are priced at \$1.75, \$2.50 and \$3.00.

High School Musicians To Meet On Campus

The University of Kentucky will play host to about 150 high school musicians from seven states at the sixth annual Summer High School Orchestra Conference, July 18-22. The young musicians will be directed by Thor Johnson, conductor of the Cincinnati Symphony Orchestra, and will hold a public concert Friday, July 22 at 8 p.m. in Memorial Coliseum under his leadership.

An elementary orchestra made up of young string players from the Lexington area will rehearse during the week in addition to the regular Summer High School Orchestra and will appear along with the senior orchestra Friday

GEORGE L. HOSSFELD, ten times winner of the world's professional typewriting championship, to give lecture.

Professors Undecided About Classroom Attire

By BILL LATHAM

The burning issue of class room attire has been kicked about from one end of the campus to the other, so the Kernel decided to take a poll of the faculty to have them air their views about Bermuda shorts and leisure summer wearing apparel.

Dr. Black, instructor in English:

Frankly I prefer more formal dress in class. I have had boys wear Bermuda shorts to class, and it didn't seem to make any dif-

ference or bother any one. However, I feel that class is a rather formal situation, and I would prefer for boys not to wear Bermuda shorts, and for girls not to wear shorts or slacks.

Dr. Karsner, Assistant Professor of Physical Education:

I have no objection. Girls look silly in them. So do boys for that matter. I think its fine if they want to. . . . Go ahead and wear them.

Mr. Orlie Hamilton who is doing research in the Agronomy Department:

I think its up to the student. I don't wear them myself in public, but I do to mow the grass or something like that.

Dr. J. R. Schwendeman: Head of the Department of Geography: Are those those things men wear? I don't like them. I haven't seen any in my classes, but I've seen men walking around the campus in them, and they look awful.

Mr. Aimo Kiviniemi, Associate Professor of Music:

Is this a joke? Are you really serious? Well it's immaterial to me: doesn't matter one way or the other.

Summer Calendar

Wednesday, July 20—University Faculty String Music Recital—Memorial Hall, 8 p.m.

Thursday, July 21—Outdoor Folk Dance—Women's Gym, 7:30 p.m.

Business Conference In Session

George L. Hossfield, ten times winner of the world's professional typewriting championship, will give a typewriting demonstration at the eighth annual Business Education Conference tomorrow. The conference is being held July 15 and 16 in the Music Room of the Student Union Building.

Mr. Hossfield established a record of 143 net words a minute for one hour to win his first World's Professional Championship. In explaining his time, Mr. Hossfield said, "All of the records were made on the basis of counting actual words instead of counting each five strokes as one word as is done on the present basis."

His highest official record, using the five stroke word count, is 139 net words a minute for one hour's typing from unfamiliar material. On the old word count basis, this would be equivalent to writing at the rate of about 154 words a minute. Mr. Hossfield has the distinction of being the only person ever to win the World's Professional Typewriting Championship ten times.

The conference is to be held in three sessions and is sponsored by Nu Chapter of Delta Pi Epsilon, national graduate business educational fraternity.

Mrs. Julia Satterwhite, president of Nu chapter presided over the first session which began with registration at 8:45 this morning.

First speaker was Madeline S. Strony, national authority on teaching shorthand, who discussed "Streamlining Shorthand Instruction."

Z. S. Dickerson, head of the Department of Business Administration followed with a talk on "Administration and Supervision in Business Education."

"Curriculum Trends in Business Education" was then discussed by Theodore Woodward, head of the Department of Business Education at George Peabody College for Teachers, and National President of United Business Education Association.

The group then visited exhibits provided by book publishers in room 127 of the SUB.

Luncheon in the football room will be followed by a speech by W. Harmon Wilson, editor of The Balance Sheet, a business publication. His topic will be "What Do

Hepburn Gives Organ Recital

Priscilla Hepburn, organist, gave her graduate recital Friday, July 8, in Memorial Hall on the UK campus. This recital was given as partial fulfillment in the requirements for the Master of Music degree in Applied Music.

She is a member of Phi Beta, national professional fraternity of music and speech. Her graduate and undergraduate studies were both spent in organ study with Arnold Blackburn.

Daughter of a Lexington family, Mr. and Mrs. William Hepburn, she is, at present, organist at the Second Presbyterian Church.

Pre-ignited Interest Bogs Down Discussion

Mr. John Bondurant, A & S senior, didn't get very far in his discussion of "The Christian Doctrine of Sin," last week, at the Methodist Student Center.

The program was one in a series of interdenominational meetings which discuss basic Christian doctrines under the sponsorship of the Presbyterian, Disciples, Methodist, and Lutheran student fellowships.

In outlining three different interpretations as to the nature of sin or evil, Bondurant said of the first idea, "Evil is the result of man's ignorance and poverty. If people are better educated and our society develops a system of economic security for each individual, evil will disappear."

This view, used only for background material, set off an explosive discussion which left the

main part of the talk hanging fire. Diogenes Allen, 1954 UK graduate, undermined this Humanistic thought when he said, "There have been two World Wars in the last forty years. These wars, the most destructive to date, came at a time when education and economic progress of the western world had reached its peak."

"In the early part of the Twentieth Century people thought that all men's problems were on the brink of solution because of the educational and economic progress of western civilization," Allen continued. "Yet how this optimism has been belied."

Bondurant had better luck this week as he returned for another bout.

Business Course Given To Bankers

Some 75 bank employees from banks all over the state were in Lexington Monday to attend a five-day course in banking sponsored by the state bank association and the University.

Students in the course stayed classes were held.

Most of the employees are from smaller banks, and are taking the course to prepare themselves for future promotions.

Dames Club Meets

The University of Kentucky Dames Club will have their summer meeting at 8:00 p.m. on July 20th at the home of Mrs. John B. Roberts, 242 Chenault Rd.

The main event will be a Style Show of clothes made and modeled by members. All UK student's wives are invited to attend.

Bingham Gives Journalism Award

The Inter-American Press Association Scholarship Fund, Inc., has instituted a "Tom Wallace-Louisville Times" Scholarship of \$2,500 for journalists and graduate students of journalism.

The scholarship, which will be awarded annually for three years, was donated by Barry Bingham, president of the Courier-Journal and Louisville Times, of Louisville.

It is the second \$2,500 scholarship instituted by the Scholarship Fund. Earlier John S. Knight, of the Knight Newspapers, had donated a "La Prensa Scholarship."

The Courier-Journal and Times scholarship honors Tom Wallace, Editor Emeritus of the Times and Honorary President of the IAPA. The Knight scholarship is in honor of the legitimate La Prensa, of Buenos Aires.

Schools Trade Texts

Yale University has arranged an inter-library exchange with UK. A portfolio of facsimiles of poems, letters, title pages and drawings of Goethe, it is from the William A. Speck collection of Yale. Some of the reproductions are in color.

Donald Wing, Yale University Librarian, is in charge of the move. This portfolio is to be source material for student research on Goethe.

Twin Pipes that play sweet music!

Chevrolet's "Super Turbo-Fire V8" with 180 hp.

You can spot this one by the twin tailpipes. No matter what you drive, you're going to see twin-exhaust Chevrolets pulling away—in traffic, on the toughest hills, on the long straightaways.

... Unless you have a "Super Turbo-Fire V8" of your own. And then you'll know what it's like to pilot the car that sets the pace for everything else—and doesn't pause to read the price tags!

What makes the Super scot? Chevrolet's superb valve-in-head V8, with the shortest stroke in the in-

dustrial, the most power per pound, and the *only* 12-volt electrical system in its field—all this plus a four-barrel carburetor and free-breathing twin exhausts.†

Want to sample this silk-lined cyclone? Just give us a call, any day this week, and we'll be proud to show you just how hot a V8 can be.

*Optional at extra cost.

†Station wagon models have single exhaust pipes.

Civil Service Opens Jobs

A civil service examination for Cartographic Survey Aid has been announced for filling positions in the U.S. Coast and Geodetic Survey.

The jobs, paying from \$2,500 to \$4,205 a year, are located with mobile field units operating throughout the United States. It was stressed that unit location will

be changed frequently and persons unwilling to travel almost continuously should not apply for this examination.

Applications will be accepted until further notice and must be filed with Board of U. S. Civil Service Examiners, Coast and Geodetic Survey, Department of Commerce, Washington, 25, D. C.

Harris Jr., engineer with the Division of Occupational Health, Kentucky State Department of Health.

Summer Session

(Continued from Page 1)

The summer session was divided into two terms. The first ended June 29. The second term began on June 30 and will continue through July 16. Courses offered are recreational leadership, camping in education, nature study, teaching arithmetic in the elementary school, conservation of natural resources, and teaching of reading. Three full-time UK staff members were at the camp during the first term, and five are teaching or assisting during the second term.

The University is planning to conduct similar summer sessions at the camp annually. Chief drawing features this summer have been the all-weather cabins and hot showers and modern plumbing, recently installed in the camp bathhouse.

The Stirrup Cup proudly presents as Kernel of the Week Prof. Victor R. Portmann, veteran member of the staff of the School of Journalism and secretary-manager of the Kentucky Press Association. Today Professor Portmann will be in Frankfort participating in a public relations clinic for the State Police. Next week-end he will be in Roanoke, Va., lecturing on typography makeup before members of the Virginia Press Association.

To this busy and versatile journalism professor the Stirrup Cup extends an invitation to enjoy two of its delicious meals.
