Academic Affairs Committee Report

AACR 1 Creation of the Department of Orthopedics

Finance Committee Report

FCR 1 Robert and Nellie Ellis Foundation Gift
FCR 2 Estate of Betty Jo Heick
FCR 3 Greg Wells Pledge
FCR 4 Kentucky Medical Services Foundation, Inc. Gift to Replace Unfulfilled Pledges to Chair in Neurorehabilitation Fund and Professorship in Traumatic Brain Injury
FCR 5 Dr. Charles E. Pritchett and Dr. Robert Sims Gifts and Pledges
FCR 6 Estate of Regina J. Drury Gift and Children's Miracle Network Pledge
FCR 7 Kentucky Medical Services Foundation, Inc. and Children's Miracle Network Council Pledges
FCR 8 Dr. Helen Thacker Hill Gift
FCR 9 Fit-up 4th Floor of the Biomedical/Biological Sciences Research Building
FCR 10 Renovate Football Practice Fields
FCR 11 Renovate Commonwealth Stadium Locker Room
FCR 12 Acceptance of Interim Financial Report for the University of Kentucky for Three Months Ended September 30, 2004
FCR 13 Approval of 2003-04 Endowment Match Program Annual Report

Minutes of the Meeting of the Board of Trustees of the University of Kentucky, Tuesday, October 26, 2004.

The Board of Trustees of the University of Kentucky met at 1:00 p.m. (Lexington time) on Tuesday, October 26, 2004, in the Board Room on the 18th Floor of Patterson Office Tower.

A. Meeting Opened

Mr. James F. Hardymon, Chair, called the meeting to order at 1:07 p.m., and Mr. Stephen Branscum gave the invocation.

B. Roll Call

The following members of the Board of Trustees answered the call of the roll: Mira S. Ball, Stephen P. Branscum, Ann Brand Haney, James F. Hardymon (Chair), Michael Kennedy, Pamela May, Billy Joe Miles, Roy Moore, Frank Shoop, Alice Sparks, Myra Leigh Tobin, Rachel Watts, JoEtta Y. Wickliffe (Vice Chair), Billy B. Wilcoxson, Russ Williams, Elaine A. Wilson (Secretary), and Barbara S. Young. Absent from the meeting were Marianne Smith Edge, Phillip Patton, and Steven S. Reed. The University administration was represented by President Lee T. Todd, Jr., Provost Michael Nietzel, Acting Executive Vice President for Finance and Administration Frank Butler, Executive Vice President for Health Affairs Michael Karpf, Executive Vice President for Research Wendy Baldwin, and General Counsel Barbara W. Jones.

C. Consent Agenda

Mr. Hardymon called attention to the items on the consent agenda; approval of Minutes, Personnel Actions, and FCRs 1 through 8. He asked if anyone had any comments, corrections, or changes to the Minutes. He entertained a motion of approval of the consent agenda. Ms. Sparks moved approval. Her motion, seconded by Ms. Tobin, carried without dissent. The items on the consent agenda follow:

- Minutes – September 21, 2004
- PR 2 Personnel Actions
- FCR 1 Robert and Nellie Ellis Foundation Gift
- FCR 2 Estate of Betty Jo Heick
- FCR 3 Greg Wells Pledge
- FCR 4 Kentucky Medical Services Foundation, Inc. Gift to Replace Unfulfilled Pledges to Chair in Neurorehabilitation Fund and Professorship in Traumatic Brain Injury
- FCR 5 Dr. Charles E. Pritchett and Dr. Robert Sims Gifts and Pledges
- FCR 6 Estate of Regina J. Drury Gift and Children's Miracle Network Pledge
- FCR 7 Kentucky Medical Services Foundation, Inc. and Children's Miracle Network Council Pledges
- FCR 8 Dr. Helen Thacker Hill Gift

D. President's Report

President Todd called attention to the *Kaleidoscope* publication in the Board packets. He said that the publication contains some interesting material. It focuses on UK's top students and undergraduate scholarships. He noted that the publication has grown and said that he is very proud of it. He encouraged the Board to review it.

President Todd mentioned the following items in PR 1:

UK has awarded Host Communications Inc. and Gray Television Inc. the university's expanded athletic multimedia marketing rights. It is an \$80.5 million contract. The Athletics Department and Purchasing Department were very effective in negotiating the contract and did a tremendous job. He said, in his opinion, they maximized the benefit for the University.

Mitch Barnhart has been willing to help invest in five new Singletary scholarships. The Singletary Scholarships have not increased in approximately 20 years. This money, in addition to the \$1 million a year Athletics has already pledged for scholarships, will help the scholarship program.

The UK College of Dentistry has been awarded a Center of Biomedical Research Excellence (COBRE) grant totaling more than \$10.9 million for research in oral health. He noted that this is the University's second \$10 million COBRE grant in the past month.

The National Science Foundation has renewed the Appalachian Mathematics and Science Grant for \$5.7 million to continue the University's program. This is part of the \$22 million grant received a few years ago. It is the biggest in the University's history.

The University recently announced 8 new initiatives to improve the safety of women on campus.

A National Science Foundation grant of nearly \$2 million will enable UK to evaluate the science skills of more than 10,000 seventh and eighth grade Appalachian students during the next five years. He noted that this will be \$2 million well spent.

The National Science Foundation has chosen UK to lead a \$3 million project to facilitate improved computational research in chemistry. This is \$3 million for a multi-university project with the University of Illinois, Louisiana State University, Ohio State University, and the University of Texas. This is impressive because it has to do with UK's Hewlett-Packard SuperDome computer which is capable of more than a trillion calculations per second. UK has already chosen the contract. The UK proposal was one of only 14 proposals funded out of 141 submitted. UK's Computational Science group continues to bring in money to make the University look good.

UK and Cardinal Hill have announced a joint research appointment. A \$2 million grant from Cardinal Hill to UK in 1999, along with \$2 million in matching funds from the state's Research Challenge Trust Fund, has made possible the appointment of three shared faculty positions in Neurorehabilitation Research. A press conference was held last week to announce that UK professor Joe Springer has accepted the Cardinal Hill Endowed Chair in Neurorehabilitation Research. It will be a \$4 million chair, and it will allow UK to work very closely with Cardinal Hill in its area of Neurorehabilitation Research.

A press conference was recently held to announce a Lethal Cancer Project in Kentucky's 5th Congressional District. This is a \$1 million earmark the University received with the help of Congressman Hal Rogers for the Marty Driesler Lethal Cancer Project. Dr. Al Cohen, who heads the Markey Cancer Center, and other UK physicians will be involved with this project. They will be working with the community physicians in the 5th Congressional District to try to profile that population to understand why they lead the nation in lethal cancer. He said that he is very proud of the outreach of the Markey Cancer Center.

A \$4 million grant from the U.S. Department of Energy was recently awarded to Secat Inc., a Kentucky aluminum research and testing firm to improve energy efficiency in the aluminum industry. There are 142 facilities that will benefit from this grant with more than \$5 billion in shipments of aluminum.

UK had a two-day coal conference that was very well attended. It was a joint effort with Cinergy when Cinergy was celebrating its 10-year anniversary. Jim Rogers, who is a UK graduate, and Dr. Baldwin were involved in putting together a plan for a Coal 2020 Conference. Leaders from across the nation attended and talked about the future of coal from an environmental perspective and a production perspective. Governor Ernie Fletcher was there to kick off the Conference.

The National Institutes of Health presented a \$3.7 million grant to UK to complete the neuroscience research space on the fourth floor of the Biomedical/Biological Sciences Research Building (BBSRB). Dr. Baldwin and Dr. Del Collins are to be congratulated for bringing this \$3.7 million grant to UK to complete the BBSRB open space.

The Sloan Foundation has established a UK Center for a Sustainable Aluminum Industry. Secat, a consortium aluminum company, applied for a Sloan Foundation Center grant. The Sloan Foundation selects Centers of Excellence around the country to try to keep the country in the manufacturing business. The new center joins 23 other Sloan Centers for Industry housed at 15 universities across the country, including MIT, Harvard University, Carnegie Mellon University, and the Georgia Institute of Technology. The Sloan Foundation initially provided \$300,000, the State of Kentucky and the Governor himself provided \$150,000, and \$360,000 was provided by the aluminum industry to establish this Center.

President Todd asked the Board to review the other great announcements and achievements of the faculty, staff, and students in PR 1.

President Todd called upon Dean David Mohney, College of Design, to speak about his College.

E. College of Design Report

Dean Mohney said that it was a pleasure to be at the meeting. He said that it was approximately this date 11 years ago that the Board of Trustees confirmed his appointment as Dean of the College of Architecture. The Board also approved the design of the William T. Young Library that day. Architecture matters on UK's campus. The William T. Young Library and the Main Building are two very worthy projects that have done a lot to make the case that design of buildings, interior design, and architecture can matter to a university and can really work to improve it. A summary of Dean Mohney's presentation follows:

Since the mid-1990s, design education has undergone a significant transformation at the University of Kentucky. Professional schools in architecture and interior design, along with the Department of Historic Preservation, have joined in the creation of a new College of Design. This new College replaced the College of Architecture in January 2003. Thus, the College now encompasses five degree programs, three of which are graduate degrees, for its 550 students. Developing a research culture within the College which supports the university's goals for research is the primary objective at this time.

The College of Design has a significant outreach presence across Kentucky. Utilizing community design centers in Lexington and Louisville, along with project-based work in smaller communities across the state, the design programs have developed and worked closely to advance public knowledge about design through a variety of projects. From zoning analyses of Old Louisville to new housing in Morehead to participation in Lexington's downtown master plan, both faculty and students have engaged real-world issues of design to improve Kentucky.

The College continues a longstanding tradition of significant international travel programs with students in Germany and Italy this fall and recently in Chile, Japan, India, and France. A number of awards, for integration of design education with professional objectives, for innovative housing projects in rural Kentucky that respect the traditions of rural Kentucky, and for furniture design, have further increased the visibility of the college's programs at a national, and even international, level.

The faculty has received a number of different fellowships and awards. Architecture and Interior Design projects are often judged in design competition by a group of peers. The College has done very well in the past few years with a number of different projects based in Kentucky having been recognized at a national and international level. The students who finish as undergraduates have gone on to very prominent programs with fellowships around the country and with very prominent firms located all around the world. Some of the leading architects are very pleased with the quality of students who graduate from UK and work for them.

The program has been recognized with a number of other awards as well, most prominently a major national prize from the National Organization of Architecture Registration Board (NCARB). UK won a prize as well as an honorable mention, being the first school to win two of

these awards out of all the 120 architecture schools around the country. This summer 24 schools submitted projects to a national furniture competition in Atlanta where they gave 50 awards, and UK received 5 of those awards. Two weeks ago in Beirut, Lebanon at an international furniture competition, UK students walked away with second and third prizes overall.

Following his presentation, Dean Mohny received a round of applause from the Board. He asked for any questions or comments from the Board.

Mr. Hardymon asked him to expand a little on the international information he had provided. He said that he was intrigued with the international exposure of students.

Dean Mohny said that Architecture has had longstanding international programs based in Venice for the past 25 years, but there are temporary programs in Africa, in Asia, and throughout Europe as well as in this country. Interior Design, since joining architecture, has been able to participate in those programs. They are looking at a long-term program that will have both architecture and interior design students in Berlin, Germany.

Mr. Hardymon asked about the size of the facility and the number of people there.

Dean Mohny reported that Venice can handle about 16 or 17 students, which is the normal studio size, and there are 14 students in Berlin right now.

President Todd said that Dean Mohny has done an outstanding job with the outreach addition. He gets his hands dirty with everything from deplorable houses, to sustainability issues, to urban development. He puts a good face on the University of Kentucky. He thanked Dean Mohny for his report and called upon Dean Allan Vestal, College of Law, for his report.

F. College of Law Report

Dean Vestal said that he was pleased to be at the meeting. A summary of Dean Vestal's presentation follows:

The College was initiated in 1908 as part of the general transition from Kentucky State College to Kentucky State University. It has always been a standalone college with no departments, and for accreditation reasons, this is really the model nationwide. The College's three-year, full-time program, leads to the Juris Doctor Degree.

The College of Law is poised to make a quantum leap in the excellence of its program and in the contribution it makes to Top 20 status for the University. The College of Law already has a student body equivalent to those of some of the top public law schools. The entering class is approximately 145 students every year, and people who come to the College of Law tend to graduate in three years. The College is getting applications from the majority of well-qualified students in Kentucky who want to attend law school. The number of nonresident applications is increasing, and it is very difficult to get into UK law school as a nonresident.

The College could try to become a national law school or a nationally regarded school. The profitable model for UK is to become a nationally regarded law school, and the examples in this type of scenario are schools like Iowa, North Carolina, Illinois, and Wisconsin, that tend to be a little bit larger than UK now, that tend to have a concentration of residents that is about where UK is right now, but that are nationally regarded in the sense that graduates from these schools can go anywhere in the country and have their law degree be a source of strength for them when they get there.

The College has a strong, nationally regarded faculty, which is known for its teaching, scholarship, and service. Recent faculty hires have added strength in new areas. The College now has five assistant professors. The College has a good mix of permanent faculty members teaching the vast majority of courses in the curriculum, but it is also using adjunct professors in substantive areas where it is appropriate.

The College has four elected members to the American Law Institute. It also has a strong publication performance. During the past year, 23 faculty members published 26 books or chapters in books and 41 journal articles. The placement of the journal articles is strong.

The College has a diverse group of faculty members who have individual accomplishments of note: a member inducted into the Civil Rights Hall of Fame last year, a member who argued a case before the Supreme Court, faculty member Bob Lawson who won the Acorn Award, and a variety of people who over the years have been named Great Teachers within the University. It is a strong and diverse faculty that is highly accomplished.

The College has some challenges. Reductions in funding have hurt the College of Law. Progress that might have been made has been deferred. Because of the leadership of the Board, the President, and the Provost, responses of the University to budget cuts have been well-conceived and fair. The burden of these cuts has been equitably spread across the University, and the departments and colleges of the University now are poised to make a lot of progress moving forward.

The total budget for the College is about \$7.4 million, and 73 percent of that is salaries and other compensation. The College spends about 10.9 percent of its resources on scholarships. The fellowship in memory of Paul Van Booven should add about 10 percent to the total budget. It will bring between \$800,000 and \$1 million when it is completed. That has been a very successful program in Paul's memory. The operating expenses are around 9.8 percent. Continuing legal education program produces about 6 percent of the total budget although it operates as an independent entity and really is not a part of the law school for most of its purposes.

Tuition has increased 43 percent in two years. Law school tuition remains competitive, but it is not the bargain it once was. In-state tuition is about \$10,000 a year, and non-resident tuition is about \$20,000 a year.

Federally funded renovations of the existing law building have bought some time, but the key to the advance of the College of Law is its projected new building. The existing building is qualitatively and quantitatively inadequate for the law school. This has been noted in accreditation visits. The American Bar Association (ABA) evaluated the College in 1999, and they will be

coming back next year. The University has made this capital project a high priority. It is now number three on the building list. The President and Provost have been very supportive in terms of the College getting out there, doing the planning necessary for new buildings, and raising the private funds that will be required for it.

The College is poised to launch a \$15 million capital campaign which will be part of the \$1 billion University campaign. This goal has been tested by an outside consultant who found it ambitious but achievable. The people are in place with a new communications director and a new development director. The College is now using an institutional advancement model where development, communications, and alumni all work together pushing the project.

The College is going to have to continue to recruit strong faculty members, secure adequate faculty and scholarship resources, and attract the best students to make the quantum leap forward, and it is on track to do all of those things. The reputation, program, and competitive opportunities for the law school depend upon the new building. The College has plans for the new building across the street from Taylor Education Building on Scott Street. The architectural style will compliment the University and will be a gem on campus for years to come.

Mr. Hardymon said that the reports about the colleges are good sessions, and the Board will continue having them as they can be put into the agenda. He called on Ms. Sparks for the Academic Affairs Committee report.

G. Creation of the Department of Orthopedics (AACR 1)

Ms. Sparks, Chair of the Academic Affairs Committee, reported that the Committee met that morning and had one item on its agenda. It is the Creation of the Department of Orthopedics. The recommendation is that the Board of Trustees approve the creation of the Department of Orthopedics by separating the current Division of Orthopedics from the Department of Surgery effective November 1.

Dr. Karpf appointed an ad hoc committee to examine the status of the Division, and it has gone through all the necessary steps of the University, including the Board's Academic Affairs Committee. This separation should accomplish several things. The development of such subspecialties in orthopedics would be a productive strategy to expand the clinical operation at UK and provide needed service to an aging population. It would allow the recruitment of more faculty in orthopedics, ideally at the middle level or senior level with national reputations in critical areas such as joint replacement. Orthopedics at the University of Kentucky will best reach its clinical and scholarly potential if granted departmental status. The department should be the cornerstone of development of a musculoskeletal center of excellence. This has become commonplace in other universities, and Michigan has just recently separated orthopedics from surgery. It will involve 14 orthopedic faculty members moving out of surgery, but 78 faculty members will remain in the Department of Surgery. On behalf of the Committee, she moved approval of AACR 1. Professor Kennedy seconded the motion, and it carried without dissent. (See AACR 1 at the end of the Minutes.)

Ms. Sparks announced that the Committee is continuing its quest for information in Academic Affairs. The Committee has a meeting tentatively scheduled for December 2 at 9:30 a.m. The Committee has several items to look at and then bring to the Board's attention. She noted that it could be a two-hour or possibly a three-hour meeting. She invited all Trustees to attend the meeting. The Committee will be receiving information about the Direct Federal Loan Program that UK uses for financial aid and the effects of enrollment growth on classroom size which has gotten some publicity lately.

Mr. Hardymon said that it is good that the Committee is taking the time to separate from normal administrative duties and look into these things. He said he thinks that this is the way for it to work. The committees should look hard at these items and then bring them to the Board after a number of people have researched them. He called upon Ms. Wickliffe for the Finance Committee report.

Ms. Wickliffe, Chair of the Finance Committee, thanked the staff for all the background materials they supplied the Committee prior to the meeting. It is helpful to understand the items before the Committee meeting.

H. Gifts and Pledges (FCRs 1 through 8)

She reported that FCRs 1 through 8 were on the consent agenda. The gifts and pledges in those items total \$3,342, 500. Of that amount, \$1,757,500 was cash gifts, and \$1,585,000 was pledges. She noted that FCRs 5, 6, 7, and 8 are eligible for matching by the state's Research Challenge Trust Fund (RCTF), and they total \$1,750,000. (See FCRs 1 through 8 at the end of the Minutes.)

I. Fit-Up 4th Floor of the Biomedical/Biological Sciences Research Building (FCR 9)

Ms. Wickliffe said that FCR 9 is the Fit-up of the 4th floor of the Biomedical/Biological Sciences Research Building (BBSRB). On behalf of the Committee, she asked for approval of \$7,963,250 for the fit-up of the 4th floor of the BBSRB building. Of this amount, \$3,685,000 will be in the form of a federal grant from the National Center for Research Resources Extramural Research Facilities Improvement Program. The University of Kentucky Research Foundation will fund the remaining amount. On behalf of the Finance Committee, she recommended the approval of FCR 9. Ms. Tobin seconded her motion, and it carried without dissent. (See FCR 9 at the end of the Minutes.)

Mr. Harydmon noted that this is a big project on top of a big project. The project is going as planned, and researchers are ready to use the new building as soon as it is finished, which is always good when you put a facility together.

J. Renovate Football Practice Fields (FCR 10) and Renovate Commonwealth Stadium Locker Room (FCR 11)

Ms. Wickliffe requested that she be allowed to present FCR 10 and FCR 11 as one item. FCR 10 is to renovate the football practice fields, and FCR 11 is to renovate the Commonwealth

Stadium locker room. She called upon Mitch Barnhart, Athletics Director, to give a brief synopsis of his presentation at the Finance Committee meeting to the Board.

Mr. Barnhart said that these are two items relating to football facilities that the Athletics Department needs to do in order to continue moving the facility program forward. The Athletics Department will take the funds out of the quasi-endowment for both items and replace the funds with pledges that are made to the program.

He said that the first item is a safety practice issue for athletes on the football fields. All the water comes off of Cooper Drive and makes the fields almost unplayable because of a drainage problem. Athletes must go indoors to practice under minimal precipitation. The coaches want to practice outside and would also like to have an artificial surface to be able to practice on in case of inclement weather.

Mr. Barnhart explained that the other project involves a locker room. UK is probably one of the few programs in Division I football that has two locker rooms separated by a hallway. The offense team is on one end, and the defense team is at the other end. The coach has to give two separate talks to the teams, and having two separate locker rooms does not create a team atmosphere. The space was originally planned to accommodate about 60 people and is not conducive to having 105 to 120 people. The time line is to be able to get the safety issue taken care of on the practice fields, to be able to practice outside, and to get the ability to be one team in one locker room for the next season.

On behalf of the Finance Committee, Ms. Wickliffe moved that FCR 10 and FCR 11 be approved by the Board. Mr. Branscum seconded the motion, and it carried without dissent. (See FCR 10 and 11 at the end of the Minutes.)

K. Acceptance of Interim Financial Report for the University of Kentucky for Three Months Ended September 30, 2004 (FCR 12)

Ms. Wickliffe said that FCR 12 is the acceptance of the Interim Financial Report for the University for the three months that ended September 30, 2004. As of September 30, 2004 the University had realized income of \$458,191,000. That represents 31 percent of the 2004-05 estimate of \$1,471,304,000. The expenditures and the commitments total \$369,315,000 or 25 percent of the approved budget. She referred to the detailed report that shows that the cash flow is very good at this time. On behalf of the Committee, she recommended the acceptance of FCR 12.

Mr. Hardymon asked if all Board members received the two-page summary report that the Committee received. He said that he was not trying to make the members financial geniuses, but it is a language just like other languages. The summary report provides highlights so the Board can come back with questions or comments. He noted that the assets are strong, and the liabilities are growing slower than the assets. This is very important. He asked if there were any comments or questions on FCR 12. Ms. Watts seconded Ms. Wickliffe's motion, and it carried without dissent. (See FCR 12 at the end of the Minutes.)

L. Approval of 2003-04 Endowment Match Program Annual Report (FCR 13)

Ms. Wickliffe said that FCR 13 is a very detailed report that also includes a CD. It is the annual report of the Endowment Match Program. She pointed out the executive summary of the report. She said that the report is very thorough. It shows that the University had 437 endowed activities created or enhanced through the Research Challenge Trust Fund (RCTF) endowment match program better known as the Bucks for Brains. She encouraged the Board to review the report in detail because the University has done a great job with that program. On behalf of the Committee, she recommended the adoption of FCR 13. Ms. Tobin seconded her motion, and it carried without dissent. (See FCR 13 at the end of the Minutes.)

M. Other Business

Professor Kennedy said that he would like to make a short statement. He read the following statement:

Most of the people sitting around this table have heard me say this in individual conversations or in formal discussions. I want to say it to all of you together because it speaks to the current financial strain that we are under, and because it relates to a goal I believe we can endorse, and one that almost all faculty would support wholeheartedly.

Somewhat more than 30 percent of those who contribute to the UK athletic program also contribute to the academic program. It would be wonderful for UK's principle mission if fundraising procedures could be instituted that would make that number 100 percent.

Coming close to reaching such a goal might not be hard. Fundraising for the academic program could be piggybacked onto athletic department fundraising. For example, after a commitment for a donation to athletics was secured, the fundraiser could suggest that an additional 5 to 10 percent would really help UK out on the teaching side, especially given the tough times. Wouldn't most donors respond positively?

I understand that in many cases the additional money contributed would be a token amount. We'll take it. We need it. I understand that in many cases the funds would be nonrecurring. We'll take them. We need them.

I very much appreciate the previous efforts at de-silo-fication that have been made by the administration so far, and I believe this proposal could be a major step toward extending those efforts.

If next year we could say that all those who supported the UK athletics program also supported the teaching mission of the University, we would have accomplished much, and benefits would accrue to both programs.

Thank you.

Mr. Hardymon said that everyone had a copy of Professor Kennedy's statement, and it would be in the Minutes. He thanked Professor Kennedy for bringing this up and letting the Board have a chance to review it before it comes to the meeting. He said, in his opinion, that is the way to control it. He said that they were not going to stop things coming in, but he believes it is better coming through a formal process.

President Todd asked Mr. Miles to come forward and receive a plaque. He said that he realized that people who spend their time, energy, and intellect serving as Chairman of the Board were not receiving a token of appreciation from this institution. While this token is small, it is something that Mr. Miles earned and deserves for his service as Chairman of the Board from 1999 to 2002. He said that he appreciated the time that Mr. Miles was Chairman, the mentoring, and the discussions. He presented Mr. Miles with a plaque.

Mr. Miles said that he was surprised. When he was elected Chairman of the Board, he promised that he would be one of 20 members, and everybody would get the same. He said that the other 19 members have a plaque coming.

President Todd said that he had a plaque to present to Mr. Reed at the next Board meeting.

N. Meeting adjourned

With no further business to come before the Board, Mr. Hardymon adjourned the meeting at 2:07 p.m.

Respectfully submitted,

Elaine Wilson
Secretary, Board of Trustees

(PR 2; AACR 1; and FCR 1, 2, 3, 4, 5, 6, 7, 8, 9,10, 11, 12, and 13 which follow are official parts of the Minutes of the meeting.)

PR 1

Office of the President October 26, 2004

1. **UK Awards \$80.5 Million, 10-year Contract for Athletics Broadcast Rights**

UK has awarded Host Communications Inc. and Gray Television Inc. the university's expanded athletic multimedia marketing rights. Host, UK's radio and television rights' holder for most of the past three decades, and Lexington's top-rated television station, WKYT-TV, will pay the university \$80.5 million over the 10 years of the agreement, making it one of the most lucrative deals of its kind in NCAA history. Lexington-based Host Communications is a subsidiary of the Bull Run Corporation, while WKYT-TV is owned by Gray Television. Host has been UK's rights' holder since 1974, except for a six-year period from 1977 to 1983, and WKYT-TV has been the flagship television station for the UK Network during that same period. The current agreement between UK and Host, which includes radio and TV rights to Kentucky's football and men's basketball games and the football game program, is worth \$17.65 million over five years and expires April 15, 2005. In addition to previous radio and TV rights, the new agreement adds women's basketball and baseball radio and television broadcasts, corporate sponsorships, stadium and arena signage and the official athletic Web site. UK is currently generating \$5.1 million annually on the inventory included in the new agreement. The agreement calls for Host/Gray to provide cash guarantees worth \$79 million over the life of the contract, with an additional \$1.5 million investment in new scoreboards for Memorial Coliseum and Cliff Hagan Stadium. The agreement features a focus on the Big Blue Network, the school's re-branded statewide radio network. Every football, men's basketball, women's basketball, and baseball game will be offered to all affiliates on the Big Blue Network.

2. **UK College of Dentistry Wins \$10.9 Million for Second COBRE Program**

The UK College of Dentistry has been awarded a Center of Biomedical Research Excellence (COBRE) grant totaling more than \$10.9 million from the National Center for Research Resources, a division of the National Institutes of Health. Promising investigators will research how oral diseases affect other health problems including HIV, atherosclerosis, gestational diabetes, and viral/bacterial interactions in chronic disease. The COBRE grant will support 10 promising new researchers working with their first major grants as principal investigators in studies of their own design, with the aid of senior faculty mentors. The COBRE grant will enable the university to create a program of faculty development and

recruitment that will advance UK's standing as a research institution. Jeffrey L. Ebersole, associate dean for Research and Graduate Studies and director of the Center for Oral Health Research, will serve as COBRE program director for the UK College of Dentistry. This award is the second COBRE grant UK received in late September for a total exceeding \$20 million.

3. NSF Renews Appalachian Mathematics and Science Grant for \$5.7 Million

The National Science Foundation (NSF) has renewed for the fourth year a grant UK used to establish its Appalachian Mathematics and Science Partnership (AMSP) of nine colleges and universities and 51 school districts. The grant is aimed at improving math and science education in pre-kindergarten through 12th grade in Appalachian school districts in Kentucky, Tennessee and Virginia. The renewal, totaling \$5.7 million, brings the funding level to \$13.7 million in a five-year program that has total NSF-committed funding of \$22.5 million. With this latest commitment that began October 1, NSF funding of the project is expected to continue through September 2007. Participation by teachers and students in the NSF-funded program – the largest grant-supported project of its kind in the university's history – has been truly phenomenal. During the summers of 2003 and 2004, the AMSP has engaged in over 30 mathematics and science teacher institutes intended to give 500 K-12 teachers enhanced teaching skills. An additional nine Partnership Enhancement Projects involving 18 partner school districts and higher education partners have been funded to meet specific needs of the school districts. Including students, teachers and others, AMSP programs have now reached some 3,100 persons.

4. President Todd Announces Initiatives to Improve Women's Safety on Campus

UK President Lee T. Todd Jr. announced eight new safety initiatives in late September that the university will implement this academic year to improve the safety of women on campus. The programs resulted from findings of a victimization survey conducted at UK with 1,010 female graduate and undergraduate students. The study, conducted by the UK Center for Research on Violence Against Women, measured the prevalence of victimization among female students, their fear of crime, university response, and related items. Carol Jordan, director of the center, released the findings of the study. The new safety programs include creation of UK Women's Place, a central point of contact for coordinating victim services, education and prevention programs, training, and other efforts related to improving the safety and well-being of UK's women; a cell phone lending program called C.A.T.S. phones (Campus Area Telephone for Safety) that will make free wireless phones donated by Verizon Wireless available to students; and a state-of-the-art police training program conducted in partnership with the Kentucky State Police, the Lexington-Fayette Division of Police, UK Police Department, UK Athletics, the Center for Research on Violence Against Women, and Verizon Wireless. Todd also formed a Women's Safety

Advisory Group to evaluate implementation of the new programs and to make further recommendations to him regarding the safety of women and all members of the UK community.

5. UK to Evaluate Youngsters' Science Skills with \$2 Million NSF Grant

A National Science Foundation grant of nearly \$2 million will enable UK to evaluate the science skills of more than 10,000 seventh and eighth grade Appalachian students during the next five years. The education research under the Appalachian Math Science Partnership in the UK College of Arts and Sciences will determine whether students who have studied under middle school teachers who participated in UK-developed distance learning training in the physical sciences perform better than students learning science from those same teachers prior to having conducted such training. The project is titled "Assessing How Distance Learning for Teachers Can Enable Inquiry Sciences in Rural Classrooms." UK's online teacher-training program, "Hands-On/Virtual (HOV) Physics," is also a project that has been developed over the past three years under a grant program managed by co-principal investigators professors Joseph Straley and Sally Shafer in the Department of Physics. Teachers from the Appalachian areas of Kentucky, Tennessee, West Virginia, Virginia and southeastern Ohio will participate in summer training about physical science content knowledge and inquiry-based teaching techniques.

6. Center for Computational Sciences to Lead \$3 Million Multi-university Project

The National Science Foundation has chosen UK to lead a \$3 million project to facilitate improved computational research in chemistry. The UK Center for Computational Sciences, directed by John Connolly, will work on the Computational Chemistry Grid program with the University of Illinois, Louisiana State University, Ohio State University, and the University of Texas. The project will benefit the national chemistry research community by providing computer hardware and software to solve problems involving molecular interactions of complex materials such as biological proteins and pharmaceuticals. Among the supercomputers available on the grid is UK's Hewlett-Packard Superdome, which is capable of more than a trillion calculations per second. The Center for Computational Sciences plans an upgrade to that machine that will more than double its capability. The program is funded under the NSF's National Middleware Initiative, a program that encourages more efficient use of modern grid computing. The UK proposal was one of only 14 proposals funded out of 141 submitted.

7. UK and Cardinal Hill Announce Joint Research Appointment

The UK College of Medicine and Cardinal Hill Rehabilitation Hospital announced a step forward in brain and spinal cord injury research. A \$2 million grant from

Cardinal Hill to UK in 1999, along with \$2 million in matching funds from the Kentucky Research Challenge Trust Fund, has made possible the appointment of three shared faculty positions in neurorehabilitation, including a chair and two professorships. UK professor Joe Springer, who holds a doctorate in psychobiology, accepted the Cardinal Hill Endowed Chair in Neurorehabilitation Research. Springer's passion and expertise in translational research connects lab research to the patient bedside – advancing the study of spinal cord and traumatic brain injury. According to President Todd, "This is an historic partnership between two of Kentucky's premier institutions. Generations of Kentuckians have benefited from trauma care at UK and rehabilitation at Cardinal Hill. Future generations will benefit from this collaborative effort to better understand and treat serious neurologic injuries."

8. Lethal Cancer Project Is Launched in Kentucky's 5th Congressional District

A mid-October summit at the Center for Rural Development in Somerset kicked off the Marty Driesler Lethal Cancer Project, funded by the Centers for Disease Control and Prevention. In February, U.S. Congressman Hal Rogers and President Todd announced a unique health care initiative aimed at increasing the survival rates of people with deadly cancers throughout Kentucky's 5th Congressional District. The UK Markey Cancer Center will partner with more than 200 physicians and health care providers in the district to establish a community outreach program of early detection, prevention and treatment for lung, pancreatic, liver and esophageal cancer. Kentucky has the fourth highest cancer mortality rate in the nation. It is estimated that more than 9,300 Kentuckians will die in 2004 from some sort of cancer. Eastern Kentucky leads the state in deaths when it comes to liver, lung, and pancreatic cancers.

9. Secat Wins \$4 Million to Improve Energy Efficiency in the Aluminum Industry

A \$4 million grant from the U.S. Department of Energy was recently awarded to Secat Inc., a Kentucky aluminum research and testing firm to improve energy efficiency in the aluminum industry. Secat, located at UK's Coldstream Research Campus, is leading the study, which involves nine aluminum companies, two national research laboratories, and UK. Over a three-year period, these partners will develop processes to reduce the amount of energy needed to melt aluminum, thereby reducing energy costs and benefiting the environment by producing less waste. Kentucky has the highest concentration and diversity of aluminum industry in the world, with 142 facilities and more than \$5 billion in shipments. Two cans in every six-pack sold in the United States are made from Kentucky aluminum.

10. Psychology Professor Says Men and Women Drinkers React Differently

Research by UK College of Arts and Sciences associate professor of psychology Mark Fillmore shows that men and women react differently to drinking alcohol. Fillmore, whose findings were published in the October 2004 edition of *Addiction*, the professional journal of the Society for the Study of Addiction, said his research shows that men have less impulse control after drinking and that women tend to have an opposite reaction. Fillmore's research was conducted under his \$750,000, four-year grant from the National Institute on Alcohol Abuse and Alcoholism in the National Institutes of Health. He and Jessica Weafer, an undergraduate student who co-authored the report, tested 12 male and 12 female social drinkers whose average age was about 22.

11. UK Hospital Activates Computerized System for Physicians' Orders

UK Hospital has activated a computerized provider order entry (CPOE) system that allows physicians to direct patient care electronically from the patient's bedside. Currently, the CPOE system, created by Eclipsys Corporation®, has been deployed on UK's Labor and Delivery, Obstetrics and Gynecology units, eighth floor Surgical Unit, Neurosurgery Intensive Care Unit, and 22 ancillary service departments. CPOE allows physicians the ability to electronically enter patient orders and view patient care results. Traditionally, clerks spend approximately two hours daily entering physician orders. With CPOE, the physician enters new orders which are sent immediately to other caregivers. This creates legible orders which speeds delivery of medications and improves turnaround times for test results. With immediate, real-time access, the physician is alerted to information critical to the patient, such as possible drug allergies and drug interactions.

12. UK Teamed With Cinergy to Present 'Coal 2020' Conference

UK and Cinergy Corp. sponsored a mid-October conference on the future of coal, highlighting the major environmental, economic and technology issues associated with its use. Coal 2020 - Burning Questions at the Marriott Griffin Gate Resort in Lexington, featured Kentucky Governor Ernie Fletcher, Kentucky Public Service Commission Chairman Mark David Goss, Cambridge Energy Research Associates Chairman Daniel Yergin, U.S. Environmental Protection Agency Assistant Administrator Jeffrey Holmstead, and scientific researchers and executives of the major coal producers in the region. The conference was hosted by President Todd and Cinergy Chairman, President and CEO James E. Rogers and was sponsored in part by Eastman Chemical Company.

13. NIH Presents \$3.7 Million to Help Complete Research Building's Construction

The National Institutes of Health presented a \$3.7 million grant to UK to complete the neuroscience research space on the fourth floor of the Biomedical/Biological Sciences Research Building. Both the third and fourth floors will house about 40 faculty and 80 staff, postdoctoral and graduate students working on Parkinson's disease, Alzheimer's disease, traumatic brain and spinal cord injury and other neurological diseases. The \$73 million, 210,000-square-foot building, which will also house genomics and proteomics research, will open in early 2005. NIH funds approximately \$45 million in neuroscience projects at UK, according to Wendy Baldwin, UK executive vice president for research.

14. UK's First Winter Intersession Offers Innovative Array of Classes

An interdisciplinary arts and cultural tour of New York City and an on-site examination of Australian public health issues are among the innovative offerings of the University of Kentucky's first Winter Intersession. On- and off-campus, traditional and Internet classes, as well as travel learning courses are available in the Winter Intersession beginning Dec. 20, 2004, and ending Jan. 11, 2005. According to Provost Mike Nietzel, "UK joins other colleges and universities – including our benchmark schools – in offering these compact sessions. The Intersession is designed to assist students in balancing academic loads, progressing toward graduation, and experiencing enrichment courses and educational travel. It ties closely to UK's new Graduation Agreement. Information on Winter Intersession courses and faculty is available at www.uky.edu/UExt/winter. Enrollment is open to UK students and the community.

15. UK Police Add Explosives-detection Dog and Motorcycle Detail

An explosives-detection dog and a motorcycle detail are the latest in the UK Police Department's additions to address safety and security on campus. The UK Police Department recently became only the second university in the country to receive an explosives-detection dog from the federal Bureau of Alcohol, Tobacco, Firearms and Explosives. UKPD received the dog and training for its handler, Officer Robert Turner, at no cost to the department. Turner and the 16-month-old black Labrador named Becka attended an intensive 10-week training program at the United States Customs and ATF canine training facility in Front Royal, Va. UKPD also added two motorcycles to its vehicle fleet. Lt. Bill Webb and Officer Bob Pearl attended a two-week police motorcycle operator training class offered by the Northwestern University Center for Public Safety in Des Moines, Iowa, in August.

16. Harvard Psychologist Speaks at UK as Part of 2004 ideaFestival

In a lecture at UK that was part of Lexington's 2004 ideaFestival, Harvard University psychology professor Steven Pinker argued that human beings' minds are not "blank slates" but reflect darker aspects of human nature. Pinker said the experience of the 20th century provides evidence challenging French philosopher Jean-Jacques Rousseau's view that human beings are "noble savages" at birth and that the influences of society generate evil and selfish traits in them. Pinker noted that during the last 100 years, isolated tribes in South America, Africa and other areas – peoples who fit Rousseau's vision of those unshaped by corrupting Western influences of government and commerce – recorded much higher percentages of their male populations killed in tribal warfare, compared to the percentages of American and European men lost in two world wars. Pinker's lecture was one of nearly two dozen events featured in the ideaFestival, an event co-sponsored by UK, the Kentucky Science and Technology Corp., Georgetown College, and several area businesses.

17. UK Grad and Nobel Laureate William Lipscomb Delivers 2004 Blazer Lecture

Nobel Prize laureate and Lexington native William Nunn Lipscomb Jr., who earned a bachelor's degree in chemistry from UK in 1941 and won the Nobel Prize in chemistry in 1976 for his work with the element boron, delivered the 2004 College of Arts and Sciences Blazer Lecture during Arts and Sciences Week in mid-October. Lipscomb, who received his doctorate in chemistry from the California Institute of Technology in 1946, taught chemistry at Harvard University from 1959 to 1971 and was chairman of the chemistry department there from 1962 to 1965. His work received practical application in Japan as doctors used irradiated boron in the experimental treatment of brain tumors. The Blazer Lecture Series in the Humanities was endowed 53 years ago by Paul G. Blazer Sr., founder of Ashland Oil, Inc., and his wife, Georgia Blazer, who was the first woman to serve on the UK Board of Trustees.

18. Harvard's Samuel Huntington to Deliver Vince Davis Lecture

Harvard University international affairs professor Samuel P. Huntington will deliver the 2004 Dr. Vince Davis Memorial Lecture at 1 p.m. Oct. 28, in the University of Kentucky Student Center Theatre. The event is sponsored by the UK Patterson School of Diplomacy and International Commerce. Huntington's topic will be the American national identity, a timely subject as the 2004 presidential election approaches. Huntington is the Albert J. Weatherhead III University Professor and chair of the Harvard Academy of International and Area Studies. His principal interests are national security, strategy and civil military relations; democratization and political and economic development of less developed countries; cultural factors in world politics; and American national identity. The Dr. Vince Davis Memorial Lecture is named in honor of the late director of the Patterson School.

19. First Woman to Head Public Relations Society to Deliver Bowling Lecture

Betsy Plank, the first woman president of the Public Relations Society of America, will deliver the 2004 Bowling Executive-in-Residence lecture at 6 p.m. Thursday, October 28, in the auditorium of the William T. Young Library. A reception in Plank's honor will be held at 4:30 p.m. in the library's gallery. Plank, a graduate of the University of Alabama, also received the first two PRSA top professional awards ever presented, the Gold Anvil as the nation's outstanding professional and the Lund Award for exemplary civic community service. Plank was the first female to head a company department at Ameritech (formerly Illinois Bell), directing external affairs for 17 years.

20. Expert on International Finance to Speak at UK

Barry Eichengreen, an expert on the history, economics and politics of international finance and the George C. Pardee and Helen N. Pardee Professor of Economics and Professor of Political Science at the University of California, Berkeley, will speak at 2:30 p.m. Oct. 29, in the UK William T. Young Library auditorium. His talk, titled "Global Imbalances and the Lessons of Bretton Woods," is sponsored by the College of Arts and Sciences and is open to the public.

21. Three Are Inducted Into College of Health Sciences Hall of Fame

The UK College of Health Sciences inducted three graduates into its Hall of Fame in October in acknowledgement of their professional success and contributions to the health sciences, profound positive influence on the college, and display of the highest degree of character and integrity. This year's inductees were Barbara Sanders, an accomplished chair and associate dean in physical therapy at Texas State University; Harriett Smith, a retired medical technologist and microbiologist who graduated with honors from UK in 1940; and Robin Strode, a distinguished speech-language pathologist.

22. Three Are Inducted Into College of Arts and Sciences Hall of Fame

A former UK Wildcat basketball player, a former scientist with the Atomic Energy Commission, and the former president of the Shell Chemical Company were inducted into the UK College of Arts and Sciences Hall of Fame in October. The inductees were Larry Conley, a former Wildcat basketball player who graduated from UK in 1966 with a Bachelor of Arts in political science and is now a broadcaster with ESPN Sports; Glenn Price, who graduated in 1946 with a Bachelor of Science in physics and later earned a doctorate in physics, served as a scientist with the Brookhaven National Laboratory from 1952 to 1985 and the Atomic Energy Commission from 1987 to 1989; and Michael Grasley, who earned

a master's degree in chemistry from UK in 1961 and retired as president and chief executive officer of Shell Chemical.

23. UK Arts Museum to Hold Inaugural Arts and Leisure Auction on November 19

The UK Art Museum will hold its inaugural Arts and Leisure Auction from 6:30 to 10 p.m. Friday, November 19, at the Marriott Griffin Gate Resort in Lexington. Proceeds from the auction will help further the museum's mission in the community and help promote an understanding and appreciation of art for the people of Kentucky. The evening's theme, *A Night in Casablanca*, will recreate the magic of the classic movie starring Humphrey Bogart and Ingrid Bergman, complete with music and decor inspired by the cinema's golden era, the 1940s. Lexington radio personality Sue Wylie will be the mistress of ceremonies for the evening. Silent and live auctions, by auctioneer Steve Lewis, will feature art and leisure items and experiences. Along with many fine works of art, some of the items to be auctioned include four tickets to the 2005 Indianapolis 500, complete with a behind-the-scenes garage tour by the Ganassi Race Team; minority ownership in a race horse, courtesy of Bongo Stables; UK men's basketball tickets; and passes to a Toby Keith concert. The evening will feature a reception and formal dinner. Tickets are \$100 per person. To purchase tickets, call 257-6218.

24. UK Training Center Wins Excellence Award for Health Education Program for Hispanics

The North Central Kentucky Health Education Training Center, funded through a UK federal initiative, received the 2004 Award of Excellence at the recent National Area Health Education Center (AHEC) Organization meeting in Baltimore, Md. The award was presented to the NCHETC in recognition of the "Promotoras" program, a program that trains Hispanic volunteers to assist community members in improving the health status and access of health care for Central Kentucky's Hispanic population. Since its beginning, the program has graduated 101 trained Promotoras. Through federal funding, the classes are offered free of charge.

25. Center for Rural Health Wins \$713,000 State Grant to Plan Insurance Strategy

The Kentucky State Office of Rural Health, based at UK Center for Rural Health in Hazard, has received more than \$713,000 to implement a planning process focused on strategies for expanding health insurance to the state's neediest residents. The one-year State Planning Grant from the federal Health Resources and Services Administration is a collaborative effort with UK, the Kentucky Long-Term Policy Research Center in Frankfort, and the University of Louisville. It is aimed at exploring public and private means for reducing the number of Kentuckians without health coverage. Currently, that total is approximately

548,000 residents, or 13.6 percent of the population, according to a 2003 U.S. Census Bureau population survey. The issue is particularly problematic in rural Kentucky, with the highest uninsured rate found in Clay County, where 20.7 percent of residents have no health insurance.

26. Sloan Foundation Establishes Center for Aluminum Industry Sustainability at UK

Joining other top-echelon universities, the University of Kentucky has been awarded a grant to fund a Sloan Industry Center focusing on research into challenges confronting the aluminum industry. The UK Sloan Center for a Sustainable Aluminum Industry, to be housed in the UK Gatton College of Business and Economics, will enhance the university's long-standing ties to the industry, which already include the UK College of Engineering's Center for Aluminum Technology, and Secat Inc., a university-industry partnership devoted to advances in aluminum technology. The Alfred P. Sloan Foundation provided \$300,000 to establish the center. In addition, the center is supported by \$150,000 from the state and \$360,000 from the aluminum industry. Providing work for almost 18,000 Kentuckians, the industry is the state's fifth largest employer. President Todd noted the new center joins 23 other Sloan Centers for Industry housed at 15 universities across the country, including MIT, Harvard University, Carnegie Mellon University, and the Georgia Institute of Technology.

27. Newspaper Editors Discuss Their Success at Wilson Journalism Symposium

"Making Your Mark," a symposium featuring successful journalism careers, was the subject for the Third Annual Richard G. Wilson Journalism Alumni Symposium held in early October. Judy Clabes, former publisher of The Kentucky Post who is president of the Scripps Howard Foundation, moderated a panel discussion with Nancy Green, vice president of circulation for Lee Enterprises and publisher of the Waterloo-Cedar Falls Courier; Julie Satterly, editor of the Oldham Era newspaper in LaGrange, Ky.; Valerie Wright, associate editor of Texas Monthly; and Virginia Edwards, president of the Editorial Projects in Education Inc. and editor of Education Week.

28. Seminar Focused on Balancing Priorities

In celebration of National Work-Life Month, the UK Office of Work-Life held a "Life is a Balancing Act!" seminar and a Work-Life Information Fair in October. The seminar, presented by Linda Siebert Rapoport, director of the Office of Work-Life, focused on three work-life balancing goals: identify top life goals; build work, self and home relationships; and commit and follow through to results. The Office of Work-Life was created in July when Siebert Rapoport joined the university as director of the office. The Work-Life Task Force worked to create the office as part of the university's strategic plan.

29. William T. Young Library Re-opened on 24-hour Basis

In response to student demand, the William T. Young Library has been re-opened on a 24-hour schedule during most weekdays. The library is now open continuously from noon Sundays to 10 p.m. Fridays, and from 10 a.m. to 10 p.m. Saturdays.

30. Kentucky Journalism Hall of Fame Seeks Nominations for 2005

The UK Journalism Alumni Association is accepting nominations for 2005 inductees into the Kentucky Journalism Hall of Fame. To be eligible, nominated journalists must either be Kentucky natives or must have spent a significant portion of their careers working in newspaper or broadcast journalism in Kentucky. Since its inception in 1981, some 135 persons have been inducted into the Kentucky Journalism Hall of Fame. Plaques honoring the members are on exhibit in the Enoch Grehan Journalism Building on the UK campus. A nomination form is available on the UK School of Journalism and Telecommunications Web site at jat.uky.edu.

31. Agriculture Alumni Offer Leadership Development Program Featuring Top Experts

The UK College of Agriculture Alumni Association and the UK Cooperative Extension Service is offering top quality leadership development opportunities, including the recent "Living Leadership" live global satellite event. Sixteen downlink sites across the state, including the one in Lexington, carried the satellite conference that featured top experts in the field of leadership development, including John Maxwell, Mikhail Gorbachev, Jim Collins, Peter Drucker, Ken Blanchard, Donald Trump, Rosabeth Moss Kanter, Russell Simmons, and others.

32. UK Women's Forum Schedules Lunches to Discuss Safety and Self-defense Issues

The UK Women's Forum has scheduled a series of brown bag luncheons on campus safety, self-defense, and violence against women. The first series in September and October included sessions titled "Don't Be a Victim!," and discussions about violence against women are scheduled for November. Presentations are being held in the UK Student Center and the Chandler Medical Center to increase the availability of information. In the "Don't Be a Victim!" sessions UK Police Lt. Tiua Chilton and Crime Prevention Officer Alan Saylor provided advice on how to avoid becoming a crime victim and ways to protect yourself. Carol Jordan, director of the UK Center for Research on Violence Against Women, will make presentations in November on the findings of a recent survey at UK about violence against women and how the university is addressing the issue. The brown bag lunch sessions are free and open to students, faculty and staff.

33. Rural Journalism Program Gives First Tom and Pat Gish Award to Gishes

A new program to help rural journalists gave special recognition to a couple of journalism heroes earlier this month in Whitesburg. The inaugural Tom and Pat Gish Award was presented to the Gishes, publishers of the Mountain Eagle in Whitesburg since 1958, in recognition of their courage and tenacity as rural journalists by the Institute for Rural Journalism and Community Issues based in UK's School of Journalism and Telecommunications. The institute was created to help rural journalists set the public agenda in their communities and grasp regional issues that have local impact. The program has already begun to recognize good rural journalism in The Rural Blog, published on the Web at www.ruraljournalism.org.

34. Ecuador's Ambassador Discusses Latin American Issues in UK Visit

Raul Gangotena, Ecuador's ambassador to the United States, spoke at UK on Latin American issues early this month. His topic was "Political, Social and Economic Trends in Latin America, with Special Emphasis on Ecuador." Gangotena has been the Ecuadorian ambassador since 2003. Prior to that, he was executive director of the Quito, Ecuador, Chamber of Commerce from 2001 to 2003. He also was chairman of the Universidad de Las Americas in Quito from 1998 to 2000. His visit was sponsored by Kentucky Ecuador Partners, which is celebrating its 40th anniversary.

35. Women's Writers Conference Wins 2004 Sallie Bingham Award

The Kentucky Women Writers Conference at UK received the 2004 Sallie Bingham Award from the Kentucky Foundation for Women. Louisville native and author Sallie Bingham established the foundation in 1985. Through two grant programs, the foundation awards \$200,000 annually to feminist artists and social-change organizations that have done the most to promote feminist arts in Kentucky. Rebecca Howell, director of the Kentucky Women Writers Conference and a faculty member of the UK Department of English, accepted the award on behalf of the conference and its advisory board.

36. Council on Foreign Relations Official Addresses 'Globalization' in UK Speech

James M. Lindsay, vice president and director of studies at the Council on Foreign Relations, discussed "Globalization and the Bush Foreign Policy" in an early October speech sponsored by the UK Patterson School of Diplomacy and International Commerce. Lindsay holds the Maurice R. Greenberg Chair at the council, a scholarly center based in Washington, D.C., that focuses on foreign policy issues. He is a leading authority on domestic influences on American foreign policy with expertise on Congress, the news media, and public opinion.

37. UK Art Museum Wins \$130,000 Grant for Exhibit of French Landscapes

The UK Art Museum has received a \$130,000 grant from the Institute of Museum and Library Services, an independent federal grant-making agency dedicated to creating and sustaining a nation of learners by helping libraries and museums serve their communities, to organize a painting exhibition titled "Barbizon to Brittany: Landscapes of France in Bluegrass Collections." The exhibit will be on display in the Art Museum in the Singletary Center for the Arts in the fall of 2006. A catalogue will be published to accompany the exhibit. Special educator resources will be made available to K-12 teachers and students and family activities will be planned around the exhibit.

38. Student Awards and Achievements

- Amelia Armstrong, Design graduate student, led a presentation and tour at the National Trust for Historic Preservation's National Preservation Conference in Louisville on September 30 and Oct. 2. She facilitated discussions regarding prefabricated and contemporary ranch-style houses built between 1930 and 1955 in Louisville.
- Carla Crane Mahan, Educational and Counseling Psychology doctoral candidate, is one of two individuals that have recently been appointed by Commissioner Pat Wear of Kentucky's Department for Mental Health and Mental Retardation Services, as a program evaluation and research specialist within the department's Division of Administration and Financial Management. The positions are new and will collectively focus on department-wide program evaluation efforts, applied research activities, and best practice implementation.
- Ryan Bandy, Christopher Barkley, and Christian Comer, students in Landscape Architecture and Design, were selected for the top three awards in a national student design competition sponsored by the Environment Protection Agency, the University of Maryland, and Prince George's County. The competition invited students to submit design and planning problems and solutions that used low impact development techniques.
- Sixteen students were recently honored by the University of Kentucky College of Medicine at the Academic Convocation and Awards Day for their outstanding scholastic and community service achievements. The awards ceremony acknowledges the accomplishments of the previous year and encourages even greater success in the new academic year.
 - Andrew Harris, second-year College of Medicine student, was awarded the William H. Knisely Award for exceptional achievement in anatomy and the Irving and Esther Kanner Memorial Award for outstanding performance in basic sciences and physical diagnosis.

- Agatha Critchfield, third-year College of Medicine student, was awarded the Excellence in Introduction to the Medical Profession course for her outstanding performance.
- Adam Lyles, third-year College of Medicine student, was awarded the Excellence in Pathology Award for achievement in the second-year pathology course, the Pharmacology Student Achievement Award for excellence in performance, and the Irving and Esther Kanner Memorial Award for outstanding performance in basic sciences and physical diagnosis.
- Crystal Potter, third-year College of Medicine student, was awarded the William R. Martin Award for outstanding performance in medical pharmacology.
- Jonathan Amspacher, Lauren Baldwin, Wendell Lake, and Burhan Mohamedali, all second-year College of Medicine students, were awarded the Human Function Academic Achievement Award for outstanding performance in the Human Function course.
- Keisa Bennett and Matt Purdom, both fourth-year College of Medicine students, were awarded the McGraw-Hill/Appleton and Lange Awards for outstanding performance during the third year of their medical education.
- Fareesh Kanga and Mark Dassel, both second-year College of Medicine students; Kojo Abbeyquaye and Jessica McFarlin, both third-year College of Medicine students; and Julie Atkinson and Greg Reynolds, both fourth-year College of Medicine students, were all presented Community Service Awards for outstanding contributions to the community.

39. Faculty and Staff Awards and Achievements

- John Armitstead, Pharmacy, was named Pharmacist of the Year during the Kentucky Society of Health-System Pharmacists Fall Meeting last month in Lexington. He also was installed as KSHP president-elect.
- Wendy Baldwin, Executive Vice President for Research, hosted an alumni event in San Diego last weekend at Neuroscience 2004. More than 1,800 UK alumni were invited to the reception.
- Elinor Brown, Curriculum and Instruction, published a significant research article, "What Precipitates Change in Cultural Diversity Awareness During a Multicultural Course: The Message or the Method?" in the September/October issue of the Journal of Teacher Education, the official journal of the American Association of Colleges for Teacher Education.
- Tricia Browne-Ferrigno, Educational Administration and Supervision, made a paper presentation, "Meeting the learning needs of students: A rural high-need school districts systemic leadership development initiative," at the annual meeting of the National Rural Education Association in Indianapolis. She also published four articles in three different publications: Educational Administration Quarterly, Education Leadership Review, and two articles in the Twelfth Annual

Yearbook of the National Council of Professors of Educational Administration.

- Carla Craycraft and Craig Wood, Agricultural Communications Services, have been named national co-associate directors of content for the National Association of State Universities and Land Grant Colleges and USDA Cooperative State Research, Education and Extension Service e-Xtension initiative for Web-based learning.
- Mark T. Fillmore, Psychology, and his doctoral candidate assistant, Jessica Weafer, published "Alcohol Impairment of Behavior in Men and Women" in the October edition of "Addiction," the professional magazine of the Society for the Study of Addiction.
- Thomas R. Guskey, Educational Policy Studies and Evaluation, presented a Distinguished Lecture at Harvard University this fall. His lecture was part of a series of talks sponsored by the Hope Foundation on the theme of Courageous Leadership for School Success. In addition, Guskey traveled to Japan and Vietnam to present at special conferences sponsored by the East Asian Council for Overseas Schools. He also published chapters in the International Handbook on the Continuing Professional Development of Teachers and Teacher Education Yearbook XI, and articles in the Journal of Staff Development, Phi Delta Kappan, and Principal Leadership.
- Kay Hoffman, Social Work dean, was the keynote speaker at the Korea Association of Social Workers and the Korea National Council of Social Welfare International Forum in Seoul, South Korea, in September. She also was one of four representatives from the United States of America to the World Congress on Social Work in Adelaide, Australia.
- Edward T. Jennings Jr., Martin School of Public Policy and Administration, received the Charles H. Levine Memorial Award for Excellence in Public Administration from the American Society for Public Administration and the National Association of Schools of Public Affairs and Administration.
- Richard Lubunski, Journalism and Telecommunications, had an article, "When Congress Tampers with the Court's Independence," syndicated to 300 newspapers and other news services by History News Service, which syndicates editorial pages.
- Peter D. Little, Anthropology, has been named a joint winner of the Royal Anthropological Institute's Amaury Talbot Prize for African Anthropology for his book, "Somalia: Economy Without State." The Royal Anthropological Institute, the world's longest-established scholarly association dedicated to the furtherance of anthropology, awards the annual Amaury Talbot Prize to the most valuable of the works of anthropological research published during the previous calendar year.
- Melanie Otis, Social Work, presented "The State of Unions: Same-Sex Marriage and the Fuzzy Line Between Church and State" at the University of South Carolina Social Policy Conference. She also presented "The Right to Marry: Lesbian and Gay Activists Framing of the Newest

Battle for LGBT Rights” at the Society for the Study of Social Problems annual meeting.

- Kenneth B. Roberts, Pharmacy dean, received the President's Award during the Kentucky Society of Health System Pharmacists' fall meeting last month.
- Annette Sossou, Social Work, presented the poster “Gender Inequality and HIV/AIDS Prevention in Ghana: Do Women have the Right to use Birth Control Devices and Demand Safe Sex?” at the National Institute of Mental Health's annual International Research Conference on the Role of Families in Preventing and Adapting to HIV/AIDS.
- Timothy Stombaugh, Biosystems and Agricultural Engineering, has earned a Blue Ribbon Award from the American Society of Agricultural Engineers for his entry in the ASAE's educational aids competition for his publication titled “Elements of Precision Agriculture: Lightbar Guidance Aids.”
- Jennifer Swanberg, Social Work, presented “Rocking to Heaven: Using Visual Images to Influence Public Policy” in August at the International Visual Sociology Association meeting. She was interviewed by National Public Radio and the Boston Globe about work/family concerns of low-wage and hourly workers this summer.
- John R. Thelin, University Research Professor and Educational Policy Studies, was keynote speaker for the University of Georgia's Institute of Higher Education 40th anniversary forum in September. Thelin also was a featured speaker on “Trends in Higher Education” at the Kentucky Council on Postsecondary Education's annual conference for board members, trustees and presidents in September.
- Pam Weeks, Social Work, developed six elective courses related to practice in public child welfare and delivered through the Credit for Learning Program. During the fiscal year ending June 30, 2004, 394 employees of the Cabinet for Health and Family Services enrolled in graduate courses offered through the UK College of Social Work Credit for Learning Program.
- Pam Weeks and Lynn Geurin, Social Work, presented “Outreach to Part-time Learners Through University/Agency Partnership and Technology” at the Council on Post-secondary Education 2004 Faculty Development Conference in Lexington.

40. Faculty Research Activities

- Suzanne Arnold, Internal Medicine, A Randomized Phase 3 Trial of ALIMTA and Cisplatin versus GEMZAR and Cisplatin in Patients with Locally Advanced or Metastatic Non-Small Lung Cancer.
- Suzanne Arnold, McDowell Cancer Network, Phase I/II Trial of Oral Bexarotene in Combination with Cisplatin and Irinotecan in Patients with Extensive Stage Small Cell Lung Cancer.
- Mary Arthur, AES/Forestry, \$29,305, Effects of an Exotic Pest and Geological Substrate on the Carbon and Nitrogen Dynamics in Northern Hardwood Forests.

- Wendy Baldwin, Executive VP for Research, \$3,685,000, Neuroscience Research Institute Facility Fit-Up.
- Michael Bardo, Psychology, \$23,522, NRSA Fellowship: Cocaine and Sucrose Cross-Sensitization in Rats.
- Dibakar Bhattacharyya, Chemical and Materials Engin., \$42,000, Functionalized Sorbents For Mercury Capture From Vapor Phase.
- Guoying Bing, RCTF-Anatomy & Neurobiology, \$47,946, Fellowship/Nguyen: Dynorphin in Age-Related Impairment of Learning/Memory.
- Terry Birdwhistell, Library Administration, \$10,000, African American High School Athletics.
- Wesley Birge, Biological Sciences, \$155,000, Division of Waste Management Soil/Sediment/Waqter/Fish Sample Study.
- Allen Brenzel, Psychiatry, The Comprehensive Assessment and Training Services Project (CATS): Multidimensional Assessment.
- Lowell Bush, AES/Agronomy, \$360,310, Animal Health and Grazing Systems.
- Charles Carlson, Psychology, \$56,000, Clinical Training Agreement with Eastern State Hospital.
- Zhi Chen, RCTF-Electrical Engineering, \$129,498, Novel Carbon Nanotube-Based Nanostructures for High-Temperature Gas Sensing.
- James Cibulka, Education, \$83,800, Prototype Online Formative Assessment System – Scope.
- James Clark, Social Work, Comprehensive Assessment and Training Services Project: Adoption Support Services.
- Alfred Cohen, Cancer Center-Core Support, \$2,000,000, Kentucky Cancer Experimental Therapeutics Program.
- Henry Cole, Education Psych & Counsel, \$206,568, Partnerships for Preventing Farm Injuries to Rural Youth.
- Julia Costich, KY Injury Prevention & Research Center, \$2,000, Kentucky Board Emergency Medical Services Trauma KIPRC 04.
- Mark Crocker, Ctr for Applied Energy Research, \$49,814, Development of Nitric Oxide Oxidation Catalysts for Fast SCR Reactions.
- Peter Crooks, Pharmaceutical Tech, \$59,968, Radiosensitization by the Cellular Heat Shock Response.
- Alvin Cross, Journalism, \$5,000, Prototype Online Formative Assessment System.
- George Davis, Pharmacy Practice & Science, A Pharmacokinetic/Pharmacodynamic Study of Oral Bexarotene with Cisplatin and Irinotecan in Extensive Stage Small Cell Lung Cancer.
- Terence Delahanty, 4-H Central Operations, \$120,000, Positive Youth Development State and Local Collaboration Demonstration Project.
- Willem De Villiers, Internal Medicine, Remicade Safety Under Long Term Study in Ulcerative Colitis (RESULTS-UC).
- Paul Dunbar, OISTL/Engineering Distance Learning, \$10,000, Continued Support for Development of a Depleted Uranium Battery.

- James Ferguson II, Obstetrics & Gynecology, \$500,000, Building Interdisciplinary Research Careers in Women's Health.
- Jeremy Flynn, Pharmacy Practice & Science, \$15,000, Clinical Utility of the Rapid Platelet Function Analyzer following OPCAB Surgery.
- Greg Gerhardt, RCTF-Anatomy & Neurobiology, \$57,599, Effects of mGluR and iGluR on Extracellular Glutamate.
- Richard Greenberg, Internal Medicine, A Phase IIIB, Randomized, Open-Label, Multicenter Study of the Safety and Efficacy of GW433908 (700mg BID) Plus Ritonavir (100mg BID) Versus Lopinavir/Ritonavir (400mg/100mg BID).
- Theodore Grossardt, Kentucky Transportation Center, \$95,075, Provide Management and Logistical support for the National Showcase for Intelligent Transportation Systems -- Commercial Vehicle Operations (ITS-CVO) Deployment to Take Place in February or March of 2005.
- Grove, J., AES/Agronomy, \$74,999, Precision Agriculture: Precision Resource Management - Scope F.
- Robert Hadley, Clinical Sciences, \$168,887, Preventive Medicine in PA Primary Care Training.
- Carol Hanley, Tracy Farmer Center for the Environment, \$12,500, All Wild About Kentucky's Environment (AWAKE): Virtual Outdoor Encyclopedia.
- John Henninger, UK Center for Manufacturing, \$48,562, Design of a Continuous Journal Crankshaft.
- Stephen Higgins, AES/Biosystems & Ag Eng, \$354,572, Demonstration of Enhanced Technologies for Land Application of Animal Nutrient Sources in Sensitive Watersheds.
- Doris Hoffman, Social Work, \$454,578, Training Resource Center: Credit for Learning Program.
- Doris Hoffman, Social Work, \$292,566, Training Resource Center-Adoption Support Programs.
- Stephen Holmes, Chemistry, \$14,989, Synthesis of Discrete Molecule Based Clusters for Engineered Molecular Electronics.
- David Horohov, AES/Veterinary Science, \$27,116, Scope C: Horohov -- Progressive Investigation of Male Reproduction Loss Syndrome.
- Carol Ireson, Health Services Management, \$197,528, Meeting Information Needs of Referrals Electronically.
- Jerzy Jaromczyk, Computer Science, KY- INBRE; Kentucky Network Biomedical Research/Jaromczyk Scope.
- Jerzy Jaromczyk, Computer Science, \$161,213, KY- INBRE; Kentucky Network Biomedical Research/Jaromczyk Scope.
- Hoonbae Jeon, Transplantation Surgery, A Prospective, Randomized, Open Label Twenty-Six Week Study of the Efficacy and Safety of Converting Post-Kidney and Liver Transplant Patients with Tacrolimus-Associated Abnormal Glucose Metabolism to Neoral with C-2h Monitoring.
- Jeffrey Jones, Center for Prevention Research, \$84,048, HIV Prevention Evaluation.

- Jeffrey Jones, Center for Prevention Research, \$100,000, Foundation for Healthy Kentuckians Technical Assistance and Evaluation.
- Jane Joseph, Anatomy & Neurobiology, \$27,881, Fellowship/Gathers: Developmental fMRI Study: Face and Object Recognition.
- Pradeep Kachroo, AES/Plant Pathology, \$14,960, KSEF R&D Excellence: Genome Wide Search of Oleate-Responsive Genes in Arabidopsis.
- Alan Kaplan, Microbiology, Immunology & Molecular Gen, \$362,500, Program in Functional Genomics of Autoimmunity and Immunology of the University of Kentucky and the University of Alabama.
- Jacqueline Kearns, Interdisc Human Development Institute, \$40,736, Splash.
- Harold Kleinert, Interdisc Human Development Institute, \$80,944, Hope For Tomorrow
- Lee, Chad, CES/Agronomy, \$68,680, Precision Agriculture: Precision Resource Management - Scope E.
- Carl Leukefeld, Center on Drug and Alcohol Research, \$414,835, Central States Criminal Justice Drug Abuse Center (CJ-DATS).
- Robert Littrell, Pharmacy Practice & Science, \$820,810, Performance Measurement System.
- Robert Lodder, Pharmaceutical Tech, \$382,140, Molecular Computing System.
- Donald Lynam, Psychology , \$33,334, Drug Abuse Prevention: A Lifecourse Perspective IV Lynam Scope 2.
- Xin Ma, Curriculum & Instruction, \$96,878, National Assessment of Educational Progress Secondary Analysis.
- Charles Mabry, Pediatrics, \$149,000, Metabolic Services.
- Katherine McCormick, Special Ed. & Rehab Counseling, \$134,004, University of Kentucky First Step Technical Assistance Team.
- Karen McDowell, AES/Veterinary Science, \$185,524, Scope A: McDowell - - Progressive Investigation of Male Reproduction Loss Syndrome.
- Robert Mcknight, Southeast Ctr for Ag Health & Injury Pr, \$800,794, Southeast Center for Agricultural Health and Injury Prevention.
- Robert Mcknight, Southeast Ctr for Ag Health & Injury Pr, \$89,482, Agricultural Populations Emphasis Area.
- Robert Mcknight, Southeast Ctr for Ag Health & Injury Pr, \$115,300, Partnering Stakeholders for Prevention.
- M. Menguc, Mechanical Engineering, \$100,000, Elliptically-Polarized-Surface-Wave-Scattering-Based Diagnosis of Self-Assembly and Nano-Fabrication.
- William Mikel, CES/Animal Sciences, \$25,000, Development of a Small Plant Mini-Audit Guide For Food Safety.
- William Mikel, CES/Animal Sciences, \$25,000, Small Plant Pilot Testing of a Unique HACCP System.
- David Moliterno, Internal Medicine, An International Phase 2-3, Stratified, Randomized, Open-Label, Parallel-Group Clinical Trial to Evaluate the

Safety and Efficacy of a Single Intravenous Bolus of Enoxaparin Versus Intravenous Unfractionated Heparin in Patients.

- David Moliterno, Internal Medicine, Evaluating Ischemic and Restenotic Outcomes in the Drug Eluting Stent Era.
- Lloyd Murdock Jr, CES/Agronomy, \$8,000, Indirect Benefit of No Till Wheat: Enhanced Yield of Rotational No Till Corn and Soybean.
- Kenneth Muse Jr, Obstetrics & Gynecology, A Double-blind, Randomized, Placebo-controlled, Efficacy and Safety Study of DVS-233 SR for Treatment of Vasomotor Symptoms Associated With Menopause.
- Lottie Naugle, Center for Entrepreneurship, \$1,123,089, Small Business Development Center: Kentucky Small Business Development Centers Program.
- Christopher Norris, Molecular & Biomedical Pharmacology, \$81,000, Calcineurin and Biobehavioral Markers of Brain Aging.
- Kenneth Olsen, Interdisciplinary Human Development Institute, \$1,300,000, Mid-South Regional Resource Center.
- Hatim Omar, Pediatrics, \$10,000, Tates Creek High School Wellness Center.
- Lindell Ormsbee, KY Water Resources Institute, \$149,884, Paducah Gaseous Diffusion ("Agreement in Principal" [AIP] portion).
- Lindell Ormsbee, KY Water Resources Institute, \$206,968, Paducah Gaseous Diffusion ("Federal Facilities Agreement" [FFA] portion).
- Donald Perrier, Pharmacy Practice & Science, \$729,718, Medicaid project – Pharmacotherapy.
- Donald Perrier, Pharmacy Practice & Science, \$419,184, Medicaid project - Data Analysis.
- Mark Prendergast, Psychology, \$27,832, Fellowship / Mulholland: Ethanol Withdrawal, Stress and Polyamine Neuroprotection.
- Chandrashekhara Ramaiah, Cardiothoracic Surgery, A Multicenter, Randomized, Double-Blind, Parallel-Group, Placebo-Controlled Study of 2 mg/kg Bolus Plus 24-hour 0.5 mg/kg/hr Infusion Pexelizumab in Patients Undergoing Coronary Artery Bypass Grafting with Cardiopulmonary Bypass.
- Deborah Reed, Nursing Instruction, \$69,426, Nurse Agriculture Education Project.
- James Rinehart, Administration & Supervision, \$48,783, Superintendent Testing and Training.
- Janet Rodgers, Laboratory Animal Resources, Upgrade and Renovation of the UK Animal Research Facility.
- Phillip Roeder, Family Practice & Community Medicine, \$1,106,957, Department of Corrections Health Care Network Monitor & Coordinator Medical and Dental Services.
- Kozo Saito, Mechanical Engineering, \$30,000, Modeling and Optimization of CVD Carbon Nanotube Synthesis Processes.
- Holly Salisbury, Center for the Arts Service Ctr, \$7,887, Community Arts Development Grant Program: World Rhythms Series.

- Nancy Schoenberg, Behavioral Science, \$299,653, An Appalachian Cervical Cancer Project.
- Gregory Schwab, CES/Agronomy, \$78,526, Precision Agriculture: Precision Resource Management - Scope B.
- Eric Scorsone, CES/Agricultural Economics, \$65,000, Kentucky Rural Health Works Program.
- F. Scutchfield, KY Injury Prevention & Res Cntr (KSPH), \$468,180, Community-Based Participatory Prevention Research (Community Partnership).
- John Schuster, Special Ed. & Rehab Counseling, \$192,060, Reaching Educators with an Alternate Certification for Teachers (REACT).
- Juliann Sebastian, Nursing Instruction, \$41,125, Harrison Elementary Clinic 2004-2005.
- Scott Shearer, AES/Biosystems & Ag Eng, \$615,682, Precision Agriculture: Precision Resource Management.
- Scott Shearer, AES/Biosystems & Ag Eng, \$53,614, Precision Agriculture: Precision Resource Management - Scope C.
- Scott Shearer, AES/Biosystems & Ag Eng, \$64,983, Precision Agriculture: Precision Resource Management - Scope D.
- Steven Shedlofsky, Internal Medicine, Career Training in Therapeutics & Translational Research.
- Balazs Siminszky, AES/Agronomy, \$49,980, Isolation and Characterization of Candidate Genes Involved in Nicotine Biosynthesis.
- Judith Skelton, Oral Health Science, \$44,240, Internet Adaptation of Dental Accreditation Materials.
- Suzanne Smith, Mechanical Engineering, \$100,293, KSEF Safety & Security: Technologies for Unmanned Aerial Vehicle Reliability in Changing Environments.
- Gregory Smith, Psychology, \$30,892, The role of urgency in problem drinking and binge eating.
- Brett Spear, Microbiology, Immunology & Molecular Gen, \$182,988, A Non-Surgical Method for Producing Gene-Modified Mice.
- Mary Sprang, Social Work, Comprehensive Assessment and Training Services Project: Multidimensional Assessment.
- Mary Sprang, Social Work, \$54,000, Training Resource Center-Adoption Support Programs-Scope A.
- Charles Staben, Biological Sciences, \$684,762, KY- INBRE; Kentucky Infrastructure Network Biomedical Research.
- Steven Steinhubl, Internal Medicine, FISH-Femoral Introducer Sheath and Hemostasis Device.
- Sharon Stewart, Rehabilitation Sciences, \$113,340, The Rehabilitation Sciences Ph.D. Program: A Continuation.
- William Stilwell III, Education Psych & Counsel, \$42,000, Clinical Training Agreement with Eastern State Hospital.
- Timothy Stombaugh, CES/Biosystems & Ag Eng, \$16,440, Precision Agriculture: Precision Resource Management - Scope G.

- Arnold Stromberg, Statistics, \$88,504, KY- INBRE; Kentucky Network Biomedical Research/Stromberg Scope.
- Arnold Stromberg, Statistics, KY- INBRE; Kentucky Network Biomedical Research/Stromberg Scope.
- Jeffrey Stringer, CES/Forestry, \$133,909, Precision Agriculture: Precision Resource Management - Scope A.
- Patricia Terrell, Student Affairs, \$199,714, Violence Against Women on Campus.
- Michal Toborek, Neurosurgery, \$44,558, Use of Natural Antioxidants to Overcome Efflux Systems of Brain Endothelial Cells and Improve HAART Efficacy in the CNS.
- Thomas Troland, Physics and Astronomy, Magnetic Fields in the Galaxy.
- Saratha Van Doren, AES/Agronomy, \$5,000, Physiological Basis for Yield Reduction in No-Till Wheat.
- D. Vansanford, AES/Agronomy, \$25,000, Soft Red Winter Wheat Breeding and Variety Development for Kentucky.
- Neil Williams, Livestock Diag Disease Control, \$6,400, Scope B: Williams LDDC -- Progressive Investigation of Male Reproduction Loss Syndrome.
- Kimberly Zeidler, Appalachian Center, \$9,936, KDE Summer Academy Follow Up Workshop for "Life Science: Characteristics of Organisms."
- Kimberly Zeidler, Appalachian Center, \$9,936, KDE Summer Academy Follow Up Workshop for "Making Sense of Numbers."
- Kimberly Zeidler, Appalachian Center, \$9,936, KDE Summer Academy Follow Up Workshop for "Reproduction and Heredity."
- Tongyuang Zhai, RCTF Materials Science, \$11,557, Prediction of Texture and Formability of Continuous Cast Aluminum Alloys.

PR 2

Office of the President
October 26, 2004

Members, Board of Trustees:

PERSONNEL ACTIONS

Recommendation: that approval be given to the attached appointments, actions and/or other staff changes which require Board action; and that the report relative to appointments and/or changes already approved by the administration be accepted.

Background: The attached recommended appointments and/or other staff changes require approval by the Board of Trustees in accordance with Part VIII-B of the Governing Regulations of the University. These recommendations are transmitted to the Board by the appropriate Provost/Executive Vice President through the President and have the President's concurrence.

Under the Governing Regulations, the authority to make certain appointments and/or other staff changes is delegated to the President or other administrators who are required to report their actions to the Board. These items of report follow the recommendations requiring Board approval.

Action taken: Approved Disapproved Other _____

OFFICE OF THE PRESIDENT
AND
EXECUTIVE VICE PRESIDENT FOR
FINANCE AND ADMINISTRATION

I. BOARD ACTION

A. CHANGES

Vice President for Institutional Advancement

Richey, David M., from Development Director, Office of Development, to Associate Vice President for Development, Office of Development, effective 10/1/04.

B. RETIREMENTS

Executive Vice President for Finance and Administration

Finch, Barbara, Radiological Technician, Employee Benefits, Human Resources, after 22 years and 2 months of total service, under AR II-1.6-1 Section III.B, effective 9/30/04.

Hill, William, Jr., Police Lieutenant, Employee Benefits, Human Resources, after 37 years and 8 months of consecutive service and 38 years and 5 months of total service, under AR II-1.6-1 Section III.B, effective 8/31/04.

Madison, Elizabeth, Custodial Worker Supervisor II, Employee Benefits, Human Resources, after 27 years and 4 months of total service, under AR II-1.6-1 Section III.B, effective 8/31/04.

Owens, Charlotte, Office Assistant, Employee Benefits, Human Resources, after 15 years of total service, under AR II-1.6-1 Section III.B, effective 8/31/04.

Powers, Donna D., Program Assistant, Employee Benefits, Human Resources, after 25 years and 7 months of total service, under AR II-1.6-1 Section III.B, effective 6/30/04.

Vice President for Facilities Management

Moore, Ida, Custodial Worker I, Physical Plant Division, Custodial Service, after 20 years of total service, under AR II-1.6-1 Section III.B, effective 9/10/04.

Morton, Lawrence, Custodial Worker Supervisor I, Physical Plant Division, Custodial Service, after 15 years of total service, under AR II-1.6-1 Section III.B, effective 9/24/04.

Vice President for Information Technology

Bramel, Clifford J., Sr. Program System Analyst, University Computing Enterprise, Information Technology, after 41 years and 10 months of total service, under AR II-1.6-1 Section III.B, effective 10/1/04.

B. EARLY RETIREMENTS

Athletics Director

Madison, Lyle Keith, Head Baseball Coach, Athletics-Baseball, after 24 years and 10 months of total service, under AR II-1-6-1 Section III.A.2, effective 10/31/04.

Vice President for Facilities Management

Dean, John A., Electrician II, Medical Center Physical Plant Division, after 19 years and 2 months of total service, under AR II-1.6-1 Section III.A.2, effective 7/30/04.

Scherr, Donald, Postal Supervisor, Auxiliary Services/Postal Services, after 24 years and 10 months of total service, under AR II-1.6-1 Section III.A.2, effective 9/10/04.

Thomas, William, Jr., Custodial Worker Supervisor I, Custodial Services, Physical Plant Division, after 31 years and 4 months of total service, under AR II-1.6-1 Section III.A.2, effective 9/22/04.

Vice President for Information Technology

Godbey, Frank J., Sr., Program System Analyst, Enterprise Computing, Information Technology, after 32 years and 7 months of total service, under AR II-1.6-1 Section III.A.2, effective 10/01/04.

PROVOST

I. BOARD ACTION

A. ACADEMIC APPOINTMENTS

Aiken, Glen E., College of Agriculture, Associate Adjunct Professor, Agronomy, 7/1/04 through 6/30/05.

Almasi, Janice, College of Education, Associate Professor (with tenure), Curriculum and Instruction, appointed to the Carol Lee Robertson Endowed Professorship in Literacy, 1/1/04 through 12/31/09.

Buck, James L., College of Medicine, Professor* (with tenure), Diagnostic Radiology, appointed to the Endowed University Professor of Diagnostic Radiology Fund, 7/1/04 through 6/30/09.

Bullard, Steven H., College of Agriculture, Professor (temporary), Forestry, 11/1/04 through 6/30/05.

Capece, Vincent R., College of Engineering, Associate Professor* (with tenure), Mechanical Engineering, appointed to the H. E. Katterjohn Professorship in Engineering, 1/1/05 through 12/31/09.

Carpenter, Clyde R., College of Design, Professor (with tenure), Architecture, appointed to the Clay P. Lancaster Endowed Professorship in Historic Preservation, 7/1/04 through 6/30/07.

Crooks, Peter A., College of Pharmacy, Professor (with tenure), and joint appointment as Professor (without tenure), Toxicology, Graduate School, appointed to the George A. Digenis Professorship/Chair in Drug Design and Discovery in Pharmaceutical Sciences, effective 10/1/04.

Domer, Dennis, College of Design, Professor (with tenure), Historic Preservation, appointed to the Helen Edwards Abell Endowed Research Fund in Historic Preservation, 7/1/04 through 6/30/07.

Douglas, William I., College of Medicine, Assistant Professor*, Surgery, and joint appointment as Assistant Professor*, Pediatrics, appointed to the Jason Gill Professorship in Cardiothoracic Surgery, 7/1/04 through 6/30/07.

El-Sabaawi, Mohamed A., College of Medicine, Associate Professor (voluntary), Psychiatry, 9/1/04 through 6/30/06.

Green, Sharon F., College of Medicine, Clinical Instructor, Internal Medicine, 11/13/04 through 6/30/05.

Han, Kuo-Huang, College of Fine Arts, Professor (temporary), Music, 8/1/04 through 5/31/05.

Hart, Lisa M., College of Pharmacy, Clinical Assistant Professor, 7/1/04 through 6/30/05.

Hirschowitz, Edward A., College of Medicine, Associate Professor (with tenure), Internal Medicine, appointed to the Merck & Co. Pulmonary Medicine Professorship, 7/1/04 through 6/30/09.

Leggas, Markos, College of Pharmacy, Assistant Professor, 6/1/04 through 6/30/05.

*Special Title Series

- McClure, Rick R., College of Medicine, Clinical Associate Professor, Internal Medicine, 8/1/04 through 6/30/05.
- Miller, Wallis J., College of Design, Associate Professor (with tenure), Architecture, reappointed to the Charles Parker Graves Endowed Professorship Fund, 7/1/04 through 6/30/07.
- Mukherjee, Debabrata, College of Medicine, Associate Professor* (with tenure), Internal Medicine, effective 10/1/04.
- Nardolillo, John J., College of Fine Arts, Professor (temporary), Music, 8/1/04 through 5/31/05.
- Rabchevsky, Alexander G., College of Medicine, Assistant Professor, Physiology, appointed to the Spinal Cord and Head Injury Chair No. 1, 7/1/04 through 12/31/08.
- Rotondi, Michael, College of Design, Architecture, reappointed to the Brown-Forman Visiting Chair in Urban Design, 7/1/04 through 6/30/05.
- Schoenberg, Nancy E., College of Medicine, Associate Professor (with tenure), Behavioral Science, and joint appointments as Associate Professor (without tenure), Internal Medicine and Associate Professor (without tenure), Anthropology, College of Arts and Sciences, appointed to the Marion Pearsall Professorship, 7/1/04 through 6/30/09.
- Simpson, Deidra, College of Pharmacy, Clinical Assistant Professor, 7/1/04 through 6/30/05.
- Smalle, Jan A., College of Agriculture, Assistant Professor, Agronomy, 9/1/04 through 6/30/05.
- Springer, Joe E., College of Medicine, Professor (with tenure), Physical Medicine and Rehabilitation, and joint appointment as Professor (without tenure), Anatomy and Neurobiology, appointed to the Cardinal Hill Rehabilitation Hospital Chair in Neurorehabilitation, 7/1/04 through 6/30/09.
- Stier, Gary R., College of Medicine, Clinical Associate Professor, Anesthesiology, 1/15/05 through 6/30/05.
- Sullivan, Patrick G., College of Medicine, Assistant Professor, Anatomy and Neurobiology, appointed to the Spinal Cord and Head Injury Chair No. 3, 7/1/04 through 6/30/09.
- Swetnam, Bruce A., College of Design, Associate Professor* (with tenure), Architecture, reappointed to the Kentuckiana Masonry Institute Endowed Professorship, 7/1/04 through 6/30/07.
- Taylor, Christina, College of Pharmacy, Lecturer, 7/1/04 through 6/30/05.
- Zhu, Hongyan, College of Agriculture, Assistant Professor, Agronomy, 9/1/04 through 6/30/05.

B. ADMINISTRATIVE APPOINTMENTS

- Bullard, Steven H., College of Agriculture, Professor (temporary), Forestry, appointed Chair, Forestry, 11/1/04 through 6/30/10.
- Jennings, Edward T., Graduate School, Professor (with tenure), Martin School of Public Policy and Administration, appointed Director, Martin School of Public Policy and Administration, 7/1/04 through 6/30/08.

*Special Title Series

C. JOINT APPOINTMENTS

Cassis, Lisa A., Graduate School, Professor (with tenure), Nutritional Sciences, and joint appointment as Professor (without tenure), Toxicology, new joint appointment as Professor (without tenure), Internal Medicine, College of Medicine, effective 9/1/04.

Montgomery, Christopher L., College of Medicine, Associate Professor* (with tenure), Anesthesiology, joint appointment as Associate Professor* (without tenure), Molecular and Biomedical Pharmacology, effective 9/1/04.

D. REAPPOINTMENTS

Pauly, Thomas H., College of Medicine, Clinical Professor, Pediatrics, 7/1/04 through 6/30/05.

Thompson, Eric, College of Business and Economics, Associate Research Professor, Economics, 7/1/04 through 7/31/04.

E. CHANGES

Kiessling, Stefan G., College of Medicine, Assistant Professor*, Pediatrics, from 7/1/04 through 6/30/05, to 7/12/04 through 6/30/05.

Li, Guo-Min, College of Medicine, from Associate Professor (with tenure), Pathology and Laboratory Medicine, and joint appointments as Associate Professor (without tenure), Molecular and Cellular Biochemistry and Assistant Professor, Toxicology, Graduate School, to Associate Professor (with tenure), Graduate Center for Toxicology, and joint appointment as Associate Professor (without tenure), Molecular and Cellular Biochemistry, effective 9/1/04.

Mellon, Isabel, College of Medicine, from Associate Professor (with tenure), Pathology and Laboratory Medicine, and joint appointment as Associate Professor (without tenure), Toxicology, Graduate School, to Associate Professor (with tenure), Graduate Center for Toxicology, effective 9/1/04.

F. RETIREMENTS

McCallister, Carroll, College of Agriculture, Research Farm Technician I, Western Kentucky Station, after 15 years, 8 months of consecutive service, under AR II-1.6-1, Section III.B, effective 10/15/04.

McCann, Claire, Libraries, Librarian I (with tenure), after 41 years, 6 months of consecutive service, under AR II-1.6-1, Section III.B, effective 8/31/04.

McCollum, William H., College of Agriculture, Professor (with tenure), Veterinary Science, after 49 years, 11 months of consecutive service, under AR II-1.6-1, Section III.B, effective 6/30/04.

Richardson, Daniel R., College of Medicine, Professor (with tenure), Physiology, after 34 years, 1 month of consecutive service, under AR II-1.6-1, Section III.B, effective 6/30/04.

*Special Title Series

G. EARLY RETIREMENTS

- Evans, Sharon, College of Medicine, Staff Support Associate II, Internal Medicine, after 10 years, 5 months of consecutive service, and a total of 29 years, 7 months of service, under AR II-1.6-1, Section III.A.2, effective 9/3/04.
- Jessup, Jossie A., College of Agriculture, Extension Assistant, Cooperative Extension Service, after 30 years, 11 months of consecutive service, and a total of 31 years, 4 months of service, under AR II-1.6-1, Section III.A.2, effective 9/30/04.
- Lubinski, Donna V., College of Medicine, Student Affairs Officer II, Center for Rural Health, after 17 years of consecutive service, under AR II-1.6-1, Section III.A.2, effective 9/30/04.
- Taylor, Anna W., College of Dentistry, Dental Assistant Senior, Oral and Maxillofacial Surgery, after 29 years, 8 months of consecutive service, and a total of 35 years, 3 months of service, under AR II-1.6-1, Section III.A.2, effective 9/30/04.
- Troutman, David L., College of Agriculture, Agriculture Regulatory Specialist, after 26 years, 9 months of consecutive service, under AR II-1.6-1, Section III.A.2, effective 11/4/04.
- Walker, Nancy L., Libraries, Library Technician, after 19 years, 7 months of consecutive service, under AR II-1.6-1, Section III.A.2, effective 10/1/04.
- Wilson, Frances W., College of Medicine, Nurse Staff I, Internal Medicine, after 19 years, 10 months of consecutive service, under AR II-1.6-1, Section III.A.2, effective 8/10/04.

H. POST-RETIREMENT APPOINTMENTS

- Brown, Ralph, College of Business and Economics, Instructor (part-time), Management, 8/16/04 through 5/15/05.
- Donohew, Robert L., College of Communications and Information Studies, Professor (part-time), Communication, 7/1/04 through 6/30/05.
- Gorrell, Grace, College of Agriculture, Assistant Director, Center for Leadership, 1/10/05 through 1/9/06.
- Johns, John T., College of Agriculture, Professor (part-time), Animal Sciences, 11/4/04 through 11/3/05.
- Wiehe, Vernon R., College of Social Work, Professor (part-time), 8/16/04 through 6/30/05.

I. PHASED RETIREMENTS APPOINTMENTS

- Collins, Glenn B., College of Agriculture, Professor (with tenure), Agronomy, 1/1/05 through 12/31/09.

II. ADMINISTRATIVE ACTION

A. ACADEMIC APPOINTMENTS

- Alvarez, Anthony, College of Health Sciences, Instructor (voluntary), Clinical Sciences, 7/1/04 through 6/30/06.
- Anderson, Mickey D., College of Health Sciences, Instructor (voluntary), Clinical Sciences, 7/1/04 through 6/30/06.
- Bowlds, Paul J., College of Health Sciences, Instructor (voluntary), Clinical Sciences, 7/1/04 through 6/30/06.
- Buttleman, Rhonda, College of Health Sciences, Instructor (voluntary), Clinical Sciences, 7/1/04 through 6/30/06.
- Cook, Aaron M., College of Pharmacy, Assistant Adjunct Professor, 7/1/04 through 6/30/05.

Clark, John R., College of Business and Economics, Instructor (part-time), Accountancy, 8/16/04 through 6/30/05.

Coleman, Phyllis, College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Connell, Robert B., College of Fine Arts, Instructor (part-time), Art, 8/1/04 through 12/31/04.

Cooper, Robert M., College of Health Sciences, Assistant Professor (voluntary), Clinical Sciences, 7/1/04 through 6/30/06.

Cosby, Robin, College of Communications and Information Studies, Instructor (part-time), Journalism and Telecommunications, 8/16/04 through 6/30/05.

Curl-Nagy, Deborah J., College of Social Work, Clinical Instructor, 7/1/04 through 6/30/05.

Davis, George A., College of Pharmacy, Assistant Professor*, 7/1/04 through 9/15/04.

*Special Title Series

Doris, Sara, College of Fine Arts, Assistant Professor (temporary), Art, 8/1/04 through 12/31/04.

Doss, Dianne M., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Erwin, Anne B., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Evans, Julie L., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Faulkner, Samuel S., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Fulbrook, Denise, College of Arts and Sciences, Assistant Professor, English, 7/1/04 through 6/30/06.

Geurin, Danni L., College of Social Work, Clinical Instructor, 8/16/04 through 6/30/05.

Gibson, Onecia, College of Arts and Sciences, Instructor (part-time), Statistics, 8/16/04 through 12/31/04.

Gildersleeve, Marion A., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Gunther, Denotra S., College of Business and Economics, Instructor (part-time), Management, 8/16/04 through 5/15/05.

Hall, Jennifer G., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Hamby, Brandy L., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Hayden, Arthur C., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Hodges, Robert, College of Arts and Sciences, Instructor (part-time), History, 8/16/04 through 12/31/04.

Holdren, Michael R., College of Fine Arts, Instructor (part-time), Art, 8/1/04 through 12/31/04.

Jones, Blake L., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Kamlager, Carolee, College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Kelly, Robert, College of Design, Instructor (part-time), Architecture, 8/1/04 through 12/31/04.

Kincer, Darrell L., College of Fine Arts, Instructor (part-time), Art, 8/1/04 through 12/31/04.

Lambert, Hilary, College of Arts and Sciences, Instructor (part-time), Geography, 8/16/04 through 12/31/04.

Lankster, Florence M., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Lazzari, Lori W., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

Lin, Elizabeth G., College of Pharmacy, Lecturer, 7/1/04 through 6/30/05.

Lindsay, Tedrin B., College of Fine Arts, Instructor (part-time), Music, 9/1/04 through 5/31/05.

Mao, Catherine D., Graduate School, Assistant Professor, Nutritional Sciences, 7/1/04 through 6/30/05.

Masse, Gerard J., College of Fine Arts, Instructor (part-time), Art, 8/1/04 through 12/31/04.

McNary, Ross E., College of Fine Arts, Instructor (part-time), Art, 8/1/04 through 12/31/04.

Mills, Mary T., College of Fine Arts, Instructor (part-time), Art, 8/1/04 through 12/31/04.

Penn, Stephen T., College of Fine Arts, Instructor (part-time), Music, 9/1/04 through 5/31/05.

- Rapp, Joel, College of Communications and Information Studies, Instructor (part-time), Journalism and Telecommunications, 8/16/04 through 6/30/05.
- Reece, Erik, College of Arts and Sciences, Lecturer, English, 7/1/04 through 6/30/05.
- Reid, Caroline E., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.
- Robinson, Deirdra L., College of Social Work, Clinical Instructor, 8/16/04 through 5/15/05.
- Rogers, Jackie B., College of Education, Assistant Adjunct Professor, Special Education and Rehabilitation Counseling, 8/16/04 through 6/30/05.
- Ross, Edgar C., College of Business and Economics, Instructor (part-time), Accountancy, 8/16/04 through 5/15/05.
- Sanders, Scott G., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.
- Secor, Anna, College of Arts and Sciences, Assistant Professor, Geography, 7/1/04 through 6/30/06.
- Shotwell, John, College of Communications and Information Studies, Instructor (part-time), Journalism and Telecommunications, 8/16/04 through 6/30/05.
- Silman, Miriam S., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.
- Stevens, Randall S., College of Design, Instructor (part-time), Architecture, 8/1/04 through 12/31/04.
- Strada, John T., College of Communications and Information Studies, Instructor (part-time), Communication, 8/16/04 through 6/30/05.
- West, Colleen A., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.
- Wheeler, Kathleen S., College of Fine Arts, Instructor (part-time), Art, 8/1/04 through 12/31/04.
- Worne, Janet, College of Communications and Information Studies, Instructor (part-time), Journalism and Telecommunications, 8/16/04 through 6/30/05.
- Zimmerman, Suzanne K., College of Social Work, Instructor (part-time), 8/16/04 through 5/15/05.

E. CHANGES

- Agouridis, Carmen, College of Agriculture, from Engineer Associate, Biosystems and Agricultural Engineering, to Engineer Associate IV/Research, Biosystems and Agricultural Engineering, effective 8/26/04.
- Botts, Sheila, College of Pharmacy, from Clinical Assistant Professor, to Assistant Professor*, 7/1/04 through 6/30/05.
- Gu, Liya, College of Medicine, from Assistant Professor, Pathology and Laboratory Medicine, to Assistant Professor, Graduate Center for Toxicology, 9/1/04 through 6/30/05.
- Hester, Molly Y., College of Medicine, from Assistant Professor*, Diagnostic Radiology, to Clinical Assistant Professor, Diagnostic Radiology, 10/1/04 through 6/30/05.
- Kim, Mi-Ok, College of Arts and Sciences, from Assistant Professor, Statistics, to Assistant Professor, Biostatistics, College of Public Health, and joint appointment as Assistant Professor, Statistics, College of Arts and Sciences, 7/1/04 through 12/31/04.

*Special Title Series

Office of the President
October 26, 2004

Members, Board of Trustees:

ESTATE OF BETTY JO HEICK

Recommendation: that the Board of Trustees accept a gift of \$320,000 from the estate of Betty Jo Heick for the renovation of the E. S. Good Barn in the College of Agriculture.

Background: Betty Jo Heick was an alumna of Randolph Macon College, but she, along with her late husband, John, were very loyal supporters of the University of Kentucky's College of Agriculture. John Heick, a class of 1950 alumnus, was a long-time donor to the college until his death in 1998.

Betty Jo Heick, who died in 2000, directed her estate gift to the renovation of the E. S. Good Barn in the College of Agriculture.

Action taken: Approved Disapproved Other _____

FCR 3

Office of the President
October 26, 2004

Members, Board of Trustees:

GREG WELLS PLEDGE

Recommendation: that the Board of Trustees accept a pledge of \$472,500 from Greg Wells of Hazard, Kentucky, to the University of Kentucky Athletic Association for renovation of the football locker room.

Background: Mr. Wells is a businessman and longtime supporter of University of Kentucky athletics. His pledge will be completed over a period of four years beginning in 2004.

Action taken: Approved Disapproved Other _____

FCR 4

Office of the President
October 26, 2004

Members, Board of Trustees:

KENTUCKY MEDICAL SERVICES FOUNDATION, INC. GIFT TO REPLACE
UNFULFILLED PLEDGES TO CHAIR IN NEUROREHABILITATION FUND AND
PROFESSORSHIP IN TRAUMATIC BRAIN INJURY

Recommendation: that the Board of Trustees accept a gift \$600,000 from Kentucky Medical Services Foundation, Inc. of Lexington, Kentucky, to replace unpaid pledges made in 1999 to the Chair in Neurorehabilitation Fund and the Professorship in Traumatic Brain Injury in the College of Medicine.

Background: In June 1999 the Board of Trustees accepted a pledge totaling \$800,000 to create and endow the Chair in Neurorehabilitation Fund and the Professorship in Traumatic Brain Injury. The \$800,000 was matched by the state's Research Challenge Trust Fund (RCTF). The guidelines for RCTF require pledges to be paid within five years of the pledge date. The company making the pledge has been unable to fulfill their commitment, leaving \$600,000 in outstanding pledges. The gift from the Kentucky Medical Services Foundation, Inc. replaces the unpaid pledge.

Action taken: Approved Disapproved Other _____

FCR 5

Office of the President
October 26, 2004

Members, Board of Trustees:

DR. CHARLES E. PRITCHETT AND DR. ROBERT SIMS GIFTS AND PLEDGES

Recommendation: that the Board of Trustees accept gifts and pledges totaling \$100,000 from Dr. Charles E. Pritchett and Dr. Robert Sims to create and endow the E. Preston Hicks Professorship in Orthodontics and Oral Health Research in the College of Dentistry.

In accordance with the Council on Postsecondary Education guidelines, the Board of Trustees acknowledges that it has primary responsibility for the implementation of the Endowment Match Program and is responsible for providing oversight of all endowment funds.

Background: Drs. Pritchett and Sims assumed leadership roles in working with other College of Dentistry Orthodontics program alumni to create this professorship in honor of Dr. E. Preston Hicks. Dr. Hicks is an outstanding practicing orthodontist and has been a faculty member of the College's Orthodontics program since 1987. Dr. Pritchett graduated from the Orthodontics program in 1970. Dr. Sims graduated from the College of Dentistry in 1990 and the Orthodontics program in 1994.

Income from the endowed professorship will be used to enhance significant Orthodontics research being conducted in the College of Dentistry. Dr. Pritchett has made a gift of \$10,000 and a pledge of \$40,000. Dr. Sims has made a gift of \$5,000 and a pledge of \$45,000. The gifts and pledges are eligible for matching funds from the state's Research Challenge Trust Fund (RCTF). When the endowment's principal reaches \$1 million, the income will be used to support a chair entitled the E. Preston Hicks Chair for Orthodontics and Oral Health Research.

FCR 6

Office of the President
October 26, 2004

Members, Board of Trustees:

ESTATE OF REGINA J. DRURY GIFT AND
CHILDREN'S MIRACLE NETWORK PLEDGE

Recommendation: that the Board of Trustees accept a gift of \$100,000 from the estate of Regina J. Drury, Lexington, Kentucky, and a pledge of \$500,000 from the Children's Miracle Network Council (CMN), Lexington, Kentucky, to create and endow the Regina Drury/Children's Miracle Network Chair in Pediatric Research in the College of Medicine's Department of Pediatrics.

In accordance with the Council on Postsecondary Education guidelines, the Board of Trustees acknowledges that it has primary responsibility for the implementation of the Endowment Match Program and is responsible for providing oversight of all endowment funds.

Background: Regina J. Drury named the UK Children's Hospital as the recipient of a gift from her estate along with several other charitable and religious organizations. The gift from her estate was received in August 2004. Since her gift was not designated to a particular area of children's health care, administrators made the decision to combine it with a pledge from the Children's Miracle Network Council to obtain a match from the state's Research Challenge Trust Fund (RCTF) and create an endowed chair having a principal of \$1.2 million.

The Children's Miracle Network Council, a board composed of community and civic leaders from central and eastern Kentucky, raises funds through the Children's Miracle Network telethon broadcast to support the UK Children's Hospital and Department of Pediatrics.

The gift from Ms. Drury's estate and the pledge from CMN will give the Department of Pediatrics an opportunity to recruit and retain outstanding faculty to conduct research for improving treatment of pediatric diseases. The gifts and pledges are eligible for RCTF matching funds.

Action taken: Approved Disapproved Other _____

FCR 7

Office of the President
October 26, 2004

Members, Board of Trustees:

KENTUCKY MEDICAL SERVICES FOUNDATION, INC.
AND CHILDREN'S MIRACLE NETWORK COUNCIL PLEDGES

Recommendation: that the Board of Trustees accept pledges totaling \$500,000 each from Kentucky Medical Services Foundation, Inc. (KMSF), Lexington, Kentucky, and the Children's Miracle Network Council (CMN), Lexington, Kentucky, to create and endow the Children's Miracle Network Research Chair #3 in the College of Medicine's Department of Pediatrics.

In accordance with the Council on Postsecondary Education guidelines, the Board of Trustees acknowledges that it has primary responsibility for the implementation of the Endowment Match Program and is responsible for providing oversight of all endowment funds.

Background: The Children's Miracle Network Council, a board composed of community and civic leaders from central and eastern Kentucky, raises funds through the Children's Miracle Network telethon broadcast to support the UK Children's Hospital and Department of Pediatrics. The Council will pay its pledge at \$100,000 a year beginning in December 2004 and ending in September 2008.

The Kentucky Medical Services Foundation, Inc., one of the University's most generous benefactors, will pay its pledge by contributing \$250,000 by December 31, 2004 and the remaining \$250,000 by September 2008.

The \$1,000,000 in gifts and pledges from KMSF and CMN will give the Department of Pediatrics an opportunity to recruit and retain outstanding faculty to conduct research for improved treatment of pediatric diseases. The gifts and pledges are eligible for matching funds from the state's Research Challenge Trust Fund.

Action taken: Approved Disapproved Other _____

Office of the President
October 26, 2004

Members, Board of Trustees:

DR. HELEN THACKER HILL GIFT

Recommendation: that the Board of Trustees accept a gift of \$50,000 from Helen Thacker Hill of Milledgeville, Georgia, to create and endow the James Arvle Thacker Fund in the Department of Special Education and Rehabilitation Counseling in the College of Education.

In accordance with the Council on Postsecondary Education guidelines, the Board of Trustees acknowledges that it has primary responsibility for the implementation of the Endowment Match Program and is responsible for providing oversight of all endowment funds.

Background: The James Arvle Thacker Fund, named in honor of the donor's father, will create fellowships to support student research in the Master's Degree Web Based Rehabilitation Program in the College of Education's Department of Special Education and Rehabilitation Counseling. Helen Thacker Hill, a generous supporter of the College of Education, is director of support services for students with special needs at Georgia College and State University. A native of Pikeville, Hill earned her bachelor's and master's degrees from UK and her doctorate from Oklahoma State University. The gift and pledge are eligible for matching funds from the state's Research Challenge Trust Fund.

FCR 9

Office of the President
October 26, 2004

Members, Board of Trustees:

FIT-UP 4TH FLOOR OF THE BIOMEDICAL/BIOLOGICAL
SCIENCES RESEARCH BUILDING

Recommendation: that the Board of Trustees approve the fit-up of the 4th floor of the Biomedical/Biological Sciences Research Building (BBSRB) using federal and university funds. The current estimated scope of the project is \$7,963,250.

Background: The University received a grant award of \$3,685,000 from the National Center for Research Resources Extramural Research Facilities Improvement Program to fit-up the 4th floor shell (32,750 sq. ft.) of the new BBSRB to expand the dedicated research laboratory space for the Neuroscience Research Institute. The University of Kentucky Research Foundation, Inc. (UKRF) will fund the remainder of the project. UKRF has sufficient funds in reserve for the project.

Contingent upon approval by the Board of Trustees, the design phase of project (\$850,000) will be submitted for approval to the Council on Postsecondary Education at its November 8, 2004 meeting and then to the Capital Projects and Bond Oversight Committee on November 16, 2004. The University will seek full project authorization during the 2005 Session of the Kentucky General Assembly.

PAGE NOT FOUND

Sorry, but the page you requested couldn't be found. You might try our search page, which provides both a site index and a full-text search. You can also try shortening the location of the page (known as the URL) that your browser is looking for by removing the part after the last slash. That may move you back to a page that does exist and could give you a contact to help you locate the page you are after. Our Help Desk may be able to assist you further.

Contact webmaster@www.uky.edu if you have questions or comments about our web services.
