THE KENTUCKY ALUMNUS

Editorial Comment

ANNOUNCEMENTS.

All signs of the University for 1917 read: "This way to the Golden Jubilee." Jubilee."

If you do not appear correctly in the Directory, kindly look into a mirror and do your talking.

The Alumnus desires to acknowledge the receipt with thanks and appreciation of two life subscriptions to the Association—Dr. Philip L. Blumenthal, '09, and Raymer W. Tinsley, '12.

The results of the Alumni election of officers for the Association are: President, J. M. Graves, Pittsburg, Pa.; Vice-President, J. H. Gardner, Tulsa, Okla.; Secretary-Treasurer, J. D. Turner, Lexington, Ky., and the Executive Committee, J. F. Battaile and Louis F. Hillenmeyer, of Lexington, Ky.

For Board of Trustees of the University, J. F. Battaile and S. B. Marks.

The fifth installment of the "Early History of Athletics," by Prof. A. M. Miller, does not appear in this issue, due to the lack of space on account of the Directory. This installment will appear in the next issue.

The Alumnus is pleased to announce the formation of two Alumni Clubs—The Oklahoma Club, with headquarters at Tulsa, Okla., and The Eastern Kentucky Club, with headquarters at Ashland, Ky. Also, others are in process of organization.

The Alumnus has been sent to all Alumni for the past year, whether they paid their dues or not, to show them that we are making a determined effort to succeed—to help the Association and the University. It goes without saying that this was done at a considerable sacrifice. All must appreciate this. It was done to interest you—to put aglow that little spark of loyalty, love and devotion for the University that still smoulders and lingers, and we feel that it has brightened the spark in the memories of many for they have told us so.

Beginning with the new year—the next issue—The Alumnus will be sent to only those who subscribe or pay dues to the Association.

Class '16

Class of 1916, We greet you and welcome you into the ranks of loyal alumni. Commencement is a great day in your lives. It is a day of great achievement, but it is the achievement of having successfully begun your education. You have been laying the foundation and have laid the cornerstone. You are commencing now the superstructure.

Your stay in the college has or should have prepared you to become a student. You have the means at hand now by which you can acquire knowledge, wisdom and culture.

Every experience and adventure in life, whether of joy or sorrow, of success or failure, of ease or pain, will contribute to your strength of character and joy of living, if only you keep your faith unimpaired and your heart filled with charity.

If only truth and right be your guide, no circumstance can ever defeat you, but if ever the love of power and material gain make you deviate from the path of rectitude, then you invite defeat; indeed you will have already been defeated. Remember the State has educated you to be strong men and women, not mere machines for creating or accumulating material wealth. The world needs you and is waiting with open arms to receive you, but will first try you out, and then to permit you to serve.

The Association

The constitution of the Alumni Association states: "The object of this Association is to promote the best interests of Alma Mater and the professional welfare of its members and to strengthen the bonds of friendship and social fellowship among the alumni of the University."

Every college or university worthy of the name has a body of alumni, who, individually or collectively, have for their purpose the object set forth above. It is their duty and privilege as alumni, the children of the institution, to be interested in their Alma Mater. They would not be true to themselves, nor the friends of education, nor the institution that gave them their training, their intellectual birth, their vision of the future, their equipment for life's service if they were not. And, it is befitting, for they are the only permanent body of the institution, the professors, the officers and members of the board of trustees are merely transitory. It is very natural that they watch and guard with jealous interest the welfare of their Alma Mater.

If the alumni have not that interest, love and devotion for the institution that has given them their training, they have failed to get *something* from the institution which is justly theirs and a very important factor too in their make-up. If the institution cannot give the boys and girls—the alumni, its finished product, that *something* and thus command the love, respect and devotion of the alumni, it is not doing the kind of work that is expected of it and living up to its opportunities.

The alumni of the University of Kentucky, individually and collectively,

feel that they have not received the full measure of *that something* which they were entitled to when they graduated—*that something* which inspires sentiment—love—devotion—enthusiasm for Alma Mater. The older and more experienced they become, the keener they feel and realize it. Proof of this may be obtained from the results of hundreds of other colleges and universities which should not be any better than the University of Kentucky and most certainly have no better young women and men as material.

The University is no better and can be no better than its finished product—the men and women, the alumni, it turns out, and the character of this finished material depends entirely on the ability of the institution to mould and shape the youth of the Commonwealth into good citizenship. The University therefore must have proper guidance; it must have men and women to teach and to teach right; it must be free from selfish and political blight; it must have facilities and equipment; it must have the ability of arousing and waking up its pupils and setting them forward in the path of accomplishment and duty. When these things are, there will be wholesome and proper spirit, love, respect and support of the alumni and people of the State generally.

The alumni appreciate this as never before as their own families grow up and the time comes for them to take a college course.

The Alumnus

In enunciating the policy of The Alumnus in the December issue, one of the principles set forth is: "To speak plainly and without color on all subjects under consideration affecting the Association and the University." This, The Alumnus has endeavored to do—in other words, to state facts, to tell the truth, thus assuming that the truth would not, at least should not, hurt any one, but "thereby hangs the tale." In acknowledging the truth and being frank enough to state it, The Alumnus has incurred displeasure.

The Alumnus is the official organ of the Alumni Association with no desire for reward except the consciousness of duty well performed—and duty well performed is a hard task these days. Nobody knows this better than The Alumnus.

The Alumnus refuses to advance the propaganda of any faction or interest and is subservient to no cause except the betterment of the Association for service to the University. In doing this, it believes that it reflects the sentiment of the Alumni, old students, professors and the true friends of the University.

For being true to its principles, The Alumnus has been severely criticised and taken to task by some of the authorities and it has been requested that it be taken from the bulletin series of the University publication and that the editor resign, to both of which the editor yields. This issue therefore carries the change in the title page necessary to remove it from the bulletin series of the University. The present editor's term of service expires with this issue.

A "College Wise Man"

From the January number of the *Purdue Alumnus* it appears that there is a situation at Purdue which may be of some interest to us. It arose over the President declining to re-employ a foot ball coach, after his contract had expired. This was the occasion of some hard feeling among the student body and alumni against the President. When the President's reasons were made known, however, it appears that he had good reasons for his action. The unpleasant situation arose more from a lack of information than from anything else.

The results are instructive, as showing how those who have the direction of affairs may get into trouble by not taking into their confidence the people whose affairs they are directing. A clear understanding among all concerned about what is to be done and what is going on is a good thing and conduces to a spirit of co-operation and general good feeling.

In a long article upon the situation, Prof. George W. Monroe suggests a bureau of publicity as a remedy for such misunderstandings in college affairs. Some plan of this sort may be worth consideration, so we quote this part of his article:

"What is needed seems to be vehicle, a 'College Wise Man,' who shall be close enough to the students so they will drop in to his office to talk freely and a man thoroughly informed on all university affairs. This suggestion came from a student to the President, who mentioned it to me. To get the matter in concrete form for discussion I have elaborated it as follows:

"Assuming that the truth though known will injure no man, the publicity agent should have every means of knowing the facts regarding every phase of university activity. He should attend the meetings of the Board of Trustees, and the faculty and should be notified of all meetings of the faculty committees and have the privilege of attending. His access to university records and correspondence should be unquestioned. He should be furnished with proper stenographic and clerical assistance and have a fund for publicity work such as sending news letters to the alumni or the press of the State. That he be free from even the suspicion of undue influence, he should be responsible only to the Board of Trustees direct. He should be answerable only for the truth of his statements and judged only by the results obtained in completeness of understanding between the university authorities, the students and the people of the State. His door should have a sign reading, 'PURDUE IS A PUBLIC INSTITUTION AND ANY MAN IS ENTITLED TO KNOW ANY FACTS REGARDING ITS CONDUCT OR MANAGEMENT. FOR ANY REASON OR FOR NO REASON. IT IS MY BUSINESS TO KNOW THESE FACTS. ASK ME.'

"In short, my remedy for the present lack of understanding is "Pitiless Publicity."

PORTRAIT OF PRESIDENT EMERITUS PATTERSON

Through the generosity of a number of alumni, we have been enabled to purchase a splendid portrait of President Emeritus Patterson painted by the late Mr. Charles Hooven, of Chicago. This portrait is to be presented to the University by the alumni at the fiftieth anniversary celebration of the founding of the University next year. It is a most fitting and appropriate recognition of the distinguished services of Dr. Patterson to the University and to the cause of higher education in Kentucky, extending over a period of well-nigh half a century. By this gracious and appropriate act, the Alumni Association of the University honors itself in thus honoring Kentucky's oldest and most distinguished scholar and educator.

**SKETCHES OF THE ORIGIN AND GROWTH OF THE
UNIVERSITY OF KENTUCKY.**

By James K. Patterson, President Emeritus.

CHAPTER IV.

The Kentucky University when consolidated with old Transylvania University, and enlarged by the incorporation of the Agricultural and Mechanical College of Kentucky, comprised the following colleges, viz.:

1. The College of Science and Arts located on the grounds of Transylvania and using Morrison College for purposes of instruction.

2. The Agricultural and Mechanical College situated on the Woodlands Estate and using the old Tilford Mansion for academic work. Several frame cottages were erected near the college building and were occupied by students as dormitories and club rooms. They were thus enabled to live very comfortably on \$1.50 to \$2.00 per week. Similar cottages were improvised at Ashland for the same purpose.

3. The College of Law was established in the Morrison College Building.

Mr. Bowman expected to add at no distant date a College of Medicine and a Commercial College. The latter wish was realized, the former never took on definite shape. His intention was to erect the necessary buildings on the Tilford Estate for all the Colleges of the University, except Law and Medicine, leaving Morrison College on the Transylvania grounds for their exclusive use.

COLLEGE OF ARTS AND SCIENCE.

Robert Graham, President, Professor of English Language and Literature.

John Augustus Williams, Professor of Mental and moral Philosophy.

John Henry Neville, Greek and German.

Henry H. White, Mathematics and Astronomy.

THE KENTUCKY ALUMNUS

Robert Peter, Chemistry and Physics.
 Alexander Winchill, Geology, Botany and Biology.
 John W. McGarvey, Sacred History and Didactics.
 James Kennedy Patterson, Latin Language and Literature.
 Alexander Milligan, Adjunct Professor of Latin and Greek.

COLLEGE OF AGRICULTURE AND MECHANICAL ARTS.

John Augustus Williams, Pres., Professor of Mental and Moral Philosophy.
 James Kennedy Patterson, Civil History and Political Economy.
 Monsieur Eyraud, French Language and Literature.
 Henry H. White, Mathematics and Astronomy.
 Alexander Winchill, Botany, Biology and Geology.
 Robert Peter, Chemistry and Physics.
 William E. Arnold, Instructor in Mathematics and Military Science.

COLLEGE OF THE BIBLE.

Robert Milligan, President, Professor of Sacred Literature.
 John W. McGarvey, Sacred History and Didactics.
 William I. Moore, Sacred Rhetoric and Ecclesiastic History.

COLLEGE OF LAW.

Madison C. Johnson, Pres., Professor of Evidence, Practice and Pleading.
 John B. Huston, Common and Statute Law.
 William C. Goodloe, Equity Jurisprudence, and Constitutional and International Law.

THE ACADEMY.

Alexander R. Milligan, President.
 George W. Ranck, Instructor in English.
 William E. Arnold, Mathematics.
 John W. Crutcher, Book-keeping.
 A. B. Smith, Penmanship.

In order to give an organic unity to the University, the Curators created the office of "Regent." The Regent was Chairman of the "Senatus Universitatis," which consisted of all the professors and principal instructors of the several Colleges of the University, but he was not a member of any Faculty of any one of its Colleges, hence, he did not teach. He exercised a general superintendence over the whole institution and was the representative of the Donors as well as of the Board of Curators before the public and before each other. The duties attached to the office were similar to those which now devolve upon the President or Chancellor of a University. John B. Bowman was unanimously appointed "Regent" and accepted the appointment on condition that he receive no salary. This he voluntarily relinquished. The Board of Curators in the exuberance of their gratitude, tendered him the use of the Ashland residence with certain important prerogatives and privileges, which unhappily were but vaguely understood. He was expected to entertain visitors

of distinction and to dispense the hospitality of the University. This his own private income enabled him to do on a scale commensurate with the dignity of the office which he held. Though not a professional scholar, he was a well educated man, his executive abilities were of a high order. The charm and grace of his manner and the dignity of his bearing made friends for himself and the educational interest which he represented. An interchange of class instruction in the College of Arts and the College of Agriculture, promoted economy and efficiency by obviating the duplication of professorship for identical subjects.

The general breakdown of institutions for higher education in the South in consequence of the war brought many students from Missouri, Texas, Louisiana, Mississippi, Alabama, Georgia, Tennessee, North and South Carolina, and also from the neighboring States of Indiana, Ohio and Illinois.

The opening of the University in the autumn of 1866, although the College of Agriculture and the Mechanic Arts did not open till October of the following year, brought hundreds of students. As a rule they were young men of maturity, whose education had been interrupted four years before. Some of them had seen military service. Their means were small and their scholarship meager, but they came to work in the class room, in the shop and on the ample farm. Remunerative employment, even beyond the resources of the College of Agriculture and the Mechanic Arts, was furnished to large numbers. Football, baseball, dances and banquets would have seemed to the hardy, ambitious but impecunious matriculates of those days sadly out of place and a criminal waste of time and of money. They found ample recreation and amusement coupled with instruction in military training, in manual labor and in the exercises of the literary societies. The hardihood, mental and physical vigor, and the solid and substantial acquisitions of the student of those early years have never been surpassed in the subsequent history of College or University.

(To be Continued in Chapter V.)

TRACK SEASON, 1916

The 1916 Track Team was not so successful as it might have been from the standpoint of winning meets. But in other respects it was a good season. Although dual meets were lost to Georgetown and to Vanderbilt some new records were made. Earle Grabfelder broke the State Record in the 220 in the Georgetown meet, setting a mark of 21 4-5 seconds. In the same meet Thomas Marshal broke the record in the low hurdles. His time was 26 2-5. For the first time in the history of the institution representatives were sent to the S. I. A. A. Track Meet. Grabfelder, Marshall and Hodges were sent. Of these Grabfelder placed in the 100 and the 220. This year's track team was coached by H. G. Stack, of the New York Irish-American Athletic Club. Earle Grabfelder was elected Captain of the 1917 team.

REVIEW OF BASE BALL SEASON

The base ball team of 1916 has been in the hands of W. P. Tuttle, and has been handled most efficiently. Considering the circumstances, with only a few old men on hand, and no experienced pitchers, and a series of disasters eliminating one man after another until only one or two men who started the season were left on the team—the season was surprisingly successful. McClelland, who defeated Ohio Wesleyan decisively in the first game of the season and gave promise of great things as a pitcher, sustained a broken leg in that game and was unable to pitch any more. Captain Park sustained a severe injury in the second Georgetown game and was forced to the bench. Crum and Waters, of last years nine, dropped out at the time of the Tennessee trip, and other valuable players were eliminated by the Faculty requirements of scholarship. In spite of these facts, at the present writing the team has won seven games and lost five. Ohio State University is the only institution which has won a series from us. One more game remains to be played. A large number of new men have been developed and prospects are very flattering for a good team in 1917. Bill Tuttle has been very adept in bringing out and developing new material during the present season.

DEPARTMENT OF ATHLETICS AND PHYSICAL EDUCATION

During the year 1916-17, Jno. J. Tigert will remain in charge of Athletics and all Physical Education at the University. W. P. Tuttle, who has been very successful during the present season, will be retained as a Field Coach. H. G. Stack, Gymnasium Instructor and Track Coach, will not return next year. S. A. Boles, at present Director of Athletics at Trinity University, Waxahachie, Texas, has been secured to take charge of the gymnasium work and will assist in some of the coaching work. The present arrangements should insure a successful year in athletics during the coming season.

MECHANICAL AND ELECTRICAL SILVER JUBILEE

The Silver Jubilee of the College of Mechanical and Electrical Engineering was held on May 30, beginning at 10 a.m.

The first part consisted of the dedication of the restoration of a portion of the original track of the Lexington and Ohio Railroad. Invitations for this dedication were sent out to railroad officials, alumni, and friends of the University.

The official dedicatory program consisted of three speeches.

"The Development of Railroads and the Locomotive," by Dr. D. F. Crawford, Superintendent of Motive Power, Pennsylvania Lines West.

"The Railroad Builder," Major James Poyntz Nelson, member of the Valuation Committee, Chesapeake and Ohio Railroad.

Dedication Speech, Judge Samuel M. Wilson, of Lexington.

After the regular program short responses were made by a few of the visiting railroad officials.

The second part of the Jubilee, beginning at 11:30, a.m. was presided over by President Barker. Speeches was made by Dr. Joseph H. Kastle and Professor Henry Anderson, of the University of Michigan. A bronze tablet commemorating the occasion was presented to the College by Mr. J. Irvine Lyle, and was accepted by Dr. James K. Patterson.

The third part of the Jubilee consisted of a buffet luncheon served in Mechanical Hall to the visiting alumni and their friends at 1 p. m.

SENIOR INSPECTION TRIP

The 1916 senior inspection trip of the College of Mechanical and Electrical Engineering was entirely successful and enjoyable. The party left March 26 and returned to Lexington on April 2.

The trip itinerary was very complete and although it required a maximum amount of energy and "pep" to complete the arrangements on schedule, the visitors finished the week tired but triumphant.

The Chicago Chapter of the University of Kentucky Alumni Association entertained the visiting seniors and faculty at a banquet held at the Morrison Hotel on the evening of Saturday, April 1. The innovation introduced at this banquet was the presence of the wives and women guests of the members of the association. A number of toasts were responded to by the visitors and alumni and the evening was closed by a short informal dance.

CIVIL ENGINEERING PRIZE

Henry Powell was awarded first prize and H. E. Anderson second, in a literary contest held April among the students of Civil Engineering of the University.

Two books were offered as prizes by The Transit, a monthly publication of the Civil Engineering School, to be given to the writers of papers of not less than 2,000 words on one of ten subjects named by the magazine. Mr. Powell chose as his subject, "Technical Education versus Practical Training," and H. E. Anderson wrote on "The Possibilities of Reinforced Concrete."

The faculty of the Civil Engineering School acted as judges of the contest and the winning articles are to be published in the May issue of the Transit.

SENIOR LOAN FUND

The members of the senior class have placed on foot a movement to set aside a student loan fund which, in the future, will be available to those needy students who desire to secure an education at the University.

Although this is not the first loan fund ever started at the University, it bids fair to prove the most successful. An evidence as to the success of the movement, is apparent in the readiness with which the members are signing the petitions now in circulation.

By the terms of this petition each signer agrees to make payments as follows: \$5.00 one year after graduation; \$5.00 two years later; \$10.00 annually for six consecutive years, and for the last two years of the decade \$15.00 each.

It is part of the plan to allow the student \$100 a year for four years, the period of the college course. The full particulars of the plan have not been developed, as yet.

The beginning of this worthy plan now about to be carried out by the senior class owes its origin to the fact that there are now a large number of students who are working their way through school.

PROF. J. T. C. NOE ADDRESSES K. E. A.

Professor J. T. C. Noe, head of the Education Department, spoke at the opening session of the K. E. A. in Louisville Wednesday night, April 19, on "Nature and Human Nature of Cale Young Rice's Poetry." He was one of the guests at a dinner given by Mr. Rice. Others present were Miss Ida M. Tarbell, of New York; Mrs. Annie Fellows Johnston and Professor Finis King Farr, of Cincinnati.

KEY-THIRTEEN

The Key-Thirteen dance was given at the Armory Friday evening, April 14, in honor of the new members of the two organizations who were pledged at that time.

The Keys held their pledging service during the tenth dance, and announced the following new members from the freshman class: Aaron Coates, Spencer Roark, John Howard, Layton Thompson, Galen Poindexter, Rogers Moore, Frank Heick, Franklin Thompson, Hackney and Hayes.

During the thirteenth dance the Thirteens pledged the following men from the sophomore class: James Server, J. A. Brittain, Royce Iglehart, T. T. Richards, Harry Milward, John Campbell, J. W. Welch, Lloyd Wheeler, B. T. LaMaster, Tilford Wilson, Charles Haydon, Walter Dempsey and Robert Arnold.

ARBOR AND TAP DAY

Arbor Day and Tap day exercises of the Lamp and Cross and the Staff and Crown, senior honorary fraternities, were held on the campus last Friday morning. An all-day holiday was given in honor of the occasion and practically the entire student body of the University was present.

O. M. Edwards, president of the senior class, officiated in the Arbor Day exercises. Miss Rebecca Smith read the class prophecy and G. C. Wilson, representing the senior class, delivered the senior address and presented the Arbor Day spade used in planting the tree to William Shinnick, who accepted it for the junior class with a short address.

The battalion was out in full uniform and stood at parade rest during the pledging exercises. The University band furnished music during the festivities.

The pledging exercises of the Staff and Crown were held first and the following were chosen: Miss Helen Burkholder, Mary Hamilton, Linda Purnell, Frances Geisel, Rachael Bohrer, and Jane Dickey. The society gave its annual luncheon at the Phoenix Hotel Friday noon.

William Shinnick, McClarty Harbison, Curtis Park, George Gumbert, Bart Peak, George Hill, Than Rice, W. T. Radford, Oren LaMaster, and Ben Mahoney were tapped by the Lamp and Cross.

ROUSING AUDIENCE AT STROLLER PRODUCTION

An enthusiastic audience greeted the Strollers' production of "Father and the Boys" at the Lexington Opera House Thursday night, April 13, and to the brilliant presentations for which the University's Dramatic Club has always been noted was added the most ably done amateur play seen in Lexington for a number of years.

Emery Frazier, by his finished playing, has almost barred himself from future college productions, as ordinary amateurs may object to being "shown up" by men of professional ability.

Waverley Briggs, as the "spoiled darling society butterfly," gracefully allowed himself to be "redeemed" into a handsome semblance of a real man, and Leonard Taylor's pugilistic tendencies were adequately portrayed in the calming down process to a capable business man and model husband.

Probably the part most foreign to the real character of the actress was that played by Rebecca Smith, who as the slightly hardened, breezy girl who came from the "jumping-off place way out West," did decidedly the best work in her brief but crowded career in amateur theatricals.

Mary Turner, Alice Gregory and Eliza Spurrier did their roles in such

a manner as to more than adequately uphold the haughty Louisville tradition that from that city come the best, while Virginia Stout put Owensboro on the "map" by her clever handling of a delightfully supercilious matron.

Ector Lawson, Johnnie Cramer, Tate Bird, J. N. Farmer, Herbert Graham, W. L. Smith, J. F. Corn and Preston Cherry, by their superior acting, deserve more than mere mention, but those who saw "Father and the Boys" will not forget their work.

Special mention should be made of Eugene Gribbins' work as scenic artist for the production. Mr. Gribbin's talents are such that the Strollers' rival the Transylvania Dramatic Club, has asked his aid in staging their forthcoming production, "The Fortune Hunter," which will appear at the Opera House April 25.

McBRAYER WINS IN ORATORICAL CONTEST

J. J. McBrayer, a sophomore in the College of Law, was the winner of the Southern and Southeastern Peace Oratorical Contest which was held May 5 at Chapel Hill, North Carolina. Representatives from fifteen of the largest colleges and universities of the country competed in the contest and the fact that Mr. McBrayer succeeded in winning reflects considerable credit on him and on the University.

Five of these contests were held in various parts of the United States and the winners of each will meet in New York on May 20 to compete in the National Peace Contest. The winner in this will receive a cash prize of \$600 in addition to the oratorical championship of the universities and colleges of the United States.

Mr. McBrayer, who is only 19 years of age, is an orator of considerable ability and his many friends in the University are confident that he will win the National Contest. The University is to be congratulated on having such a brilliant speaker in whom to place its hopes of winning the oratorical championship of America.

PROF. JONES, '02, EDITOR OF LATIN TEXT BOOK

A publication of Lyons and Carnahan which will be of interest to University students, is "The Story of the Gallic War," edited by J. Remsen Bishop, principal of the Eastern High School, Detroit, Michigan, and T. T. Jones, head of the Department of Latin, University of Kentucky.

In addition to the usual four books of Caesar there are selections relating to the customs of the Gauls and Germans, also extracts from the Lives of Nepos. The book is calculated to inspire and instruct the reader, and will no doubt be much used in high schools, particularly in Kentucky.

Professor Jones' friends are much gratified by the scholarly work he has presented and feel that he has reflected much honor on the University.

NEW PAN-HELLENIC COUNCIL IN CHARGE

The 1915-16 Pan-Hellenic Council has resigned in favor of the new council which will act as a governing body of the Pan-Hellenic Association for one year. An important question which will come before the council at its next meeting is the matter of pledging men before they become matriculates in the University. It is expected that a rule prohibiting pre-college pledging will be passed.

The new council and officers consists of B. F. LaMaster, Pi K. A.; Howard Evans, S. A. E.; H. C. Simpson, Sigma Chi; Harold Pulliam, Sigma

Nu; W. L. McKee, Kappa Sigma; McClarty Harbison, president, Kappa Alpha; Bart Peak, secretary, A. T. O., and F. Y. Hutchinson, treasurer, Phi Delta Theta.

WILLIAM SHINNICK REPRESENTS STATE

In the oratorical contest which was held in chapel April 21, William Shinnick, of Shelbyville, winner of the Patterson Literary Society medal, was victorious. He was opposed by Clarence Clark, of Owensboro, who represented the Union Literary Society.

By winning in this contest Mr. Shinnick had the honor of representing the University of Kentucky in the intercollegiate oratorical contest which was held in Danville, May 13.

Mr. Shinnick's subject was: "America and the Age of Ideals." Mr. Clark spoke on "Americans for America." The judges were Professor C. R. Melcher, Professor T. T. Jones and Professor E. F. Farquhar.

Mr. Shinnick finished second in the State contest.

UNION

The Union Literary Society held its annual declamatory contest in the society hall last Friday evening. There were four contestants. J. B. Hutson, whose subject was "Ideals of Today"; R. L. Duncan, "Belshazzar's Feast"; M. C. Finney, "Vision of Sir Launfal"; E. E. Kelley, "The Perfect Tribute."

The contest was excellent and was enjoyed by a good audience.

Messrs. T. T. Jones, Enoch Grehan and W. S. Webb were the judges and awarded the prize to Mr. Duncan. Mr. Finney was awarded second place.

KENTUCKY Y. W. C. A. COUNCIL ADJOURNS

The Y. W. C. A. cabinet council for Kentucky closed its annual session Sunday, April 2, with a lecture on Missions by Mr. E. McNiel Poteat, of Louisville.

The convention was a success and its effectiveness was largely due to the combined efforts of the members of the local association and of the advisory board of the Y. W. C. A. A commendable feature of the meeting was the selection of the speakers, among whom were Miss Jennie M. Strevig, Danville; Miss Juliet J. Poynter, Shelbyville; Miss Ina Scherrebeck, St. Louis; Miss Marguerite C. Harsey, Georgetown; Dean Anna J. Hamilton, Lexington; Miss Frances Jewell, Lexington, and Mr. E. M. McNeill Poteat, Louisville.

KATHLEEN SULLIVAN GETS H. E. POSITION

Miss Kathleen Sullivan goes to Richmond to be an assistant in the Domestic Science work in the Eastern Normal School. Miss Sullivan gets her degree in June and will be able to complete her work by returning to the University three days out of the week. The remaining days she will spend in Richmond.

Miss Sullivan came from Richmond four years ago to take work in the Home Economics Department and since then has been a student of high standing and scholarship. She belongs to the Alpha Xi Delta sorority.

S. J. GAUDILL GETS UNIQUE APPOINTMENT

S. J. Caudill, senior in the College of Mining and Metallurgy, has been appointed teaching fellow in geology in the School of Mines at Pennsylvania State College. Mr. Caudill's appointment comes as the result of the recommendation of W. R. Crane, Dean of the School of Mines, and is made by the president of the college. It is unique in that it is the only such appointment made in the United States and was consequently hotly contested for.

Mr. Caudill is a member of the Tau Beta Pi honorary fraternity and mining representative on the Transit staff, besides having held other responsible positions during his career at State.

The position carries with it a substantial salary and the further advantage of being placed in a college of such note as Pennsylvania State.

Mr. Caudill expects to take up the duties of his new position next fall.

Y. M. C. A.

Bart N. Peak, of LaGrange, a junior in the College of Arts and Science, was elected president of the University Y. M. C. A. for the scholastic year of 1916-17 at a recent meeting of the Y. M. C. A.

Mr. Peak has been prominent in Y. M. C. A. and college activities during his stay here. He is at present assistant editor of the Kernel, an officer in the History Club and a member of the A. T. O. fraternity.

Harry Milward, of Lexington, was elected Vice-President; Louis Rausch, of Covington, was re-elected Recorder, and Dr. J. J. Tigert, of Lexington, was re-elected Treasurer.

THE 1916 KENTUCKIAN

The 1916 Kentuckian, delivered May 20, is conceded by qualified judges to be the best annual ever produced by the students of the University. The increase in the quality of the annual this year was made possible by the keen interest shown toward it by the student body, more than 600 copies having been sold before it went to press.

The art work has reached a degree of perfection through the excellent art talent of the University together with help and advice from the printers and engravers. A literary genius in the person of Herbert Graham, editor-in-chief of the book, and a staff of capable writers who have worked long and carefully on their contributions, are responsible for this masterpiece of college annuals. The staff includes Herbert Graham, editor-in-chief; E. A. Blackburn, Miss Rebecca Smith, Miss Nata Lee Woodruff, R. A. Foster, John Marsh, Franklin Corn, L. J. Heyman, G. C. Wilson and James McConnell, associate editors.

The year-book is dedicated to Dr. J. K. Patterson, President emeritus of the University. The binding is semi-flexible, straight grained leather, which is the most expensive as well as the most artistic that has ever been used for the Kentuckian. On the front of the black leather covering is stamped a picture of Daniel Boone in pioneer costume. Another prominent feature of the Kentuckian is the pictures of twelve distinguished alumni with a full page write up of each.

The many friends of Mr. Graham are congratulating him and his staff upon this unparalleled work of art and literature. The University also, may well be proud that it possesses such capable writers and artists as the members of the Kentuckian staff have proved themselves to be.

MARRIAGES

A. Early Ewan, '10, to Miss Mary Lovell, Greenville, Ky., April 12, 1916.
 Willis E. Hobson, '12, to Miss Martine Bennett, May 23, 1916.
 H. K. Gayle, '14, to Miss Jennie Hall, Franklin, Ky., May 27, 1916.
 Henry N. Marsh, '14, to Miss Mary F. Moore, St. Louis, Mo.

BIRTHS

To Mr. and Mrs. Bert T. Rountree, '15, a son.

DEATHS

Eva May Nunnely, '06, at Lexington, May 6, 1916.

Clarence Egbert, who has been superintendent of the printing department of the University for the past two years, died at his home, 614 Central Avenue, Saturday morning at 11 o'clock from the effects of a paralytic stroke which he suffered three weeks ago.

Although the paralytic stroke was the direct cause of his death, Mr. Egbert's condition was made more serious by an attack of arteriosclerosis from which he suffered at the time he was stricken. The news of his death came as a distinct shock to his many friends and acquaintances throughout the University.

The funeral services were held at the family residence Monday afternoon at 3 o'clock, the Rev. E. T. Edmonds officiating, assisted by the Rev. Mark Collis. Burial took place in the Lexington Cemetery.
