CONSTRUCTION SCENE at the Cooperstown building project; these residences for married students should be completed by the fall term of 1956.

Science Instructors To Attend Workshop

Kentucky science teachers on all levels—as well as school superintendents and other administrators—have been invited to take part in a State Workshop on Science Education to be held at the University of Kentucky from August 8 to August 11.

First announcement of the statewide conference was made jointly last Friday by Dr. Lyman V. Ginger, dean of the UK College of Adult and Extension Education, and William Owsley, professor of biology at Morehead State College. They are serving as co-chairman for the workshop.

The workshop has been made possible through a \$2,000 grant made available by Gov. Lawrence Wetherby from his emergency fund, the co-chairmen reported. This amount was appropriated following a request from the Council on Public Higher Education.

Morehead State College, the State Department of Education and the University of Kentucky are sponsoring the workshop with the approval of the Council on Public Higher Education.

Overall objective of the affair is to improve both the quality and the quantity of science teaching in Kentucky high schools. Delegates attending the workshop will be divided into several groups in

order that all may engage in practical discussions on various problems.

Teachers themselves are submitting topics which will be discussed during the period. An attempt also will be made to help promote co-operating and understanding among high school teachers, college teachers and other groups represented.

The shortage of qualified science teachers and lack of interest in science among students will be discussed in detail during the workshop. Also planned are sessions on the need for improved facilities in science classrooms and laboratories.

This workshop program grew out of a meeting of the National Association of Biology Teachers, held last fall at the University of Florida. A group of Kentuckians at this meeting organized themselves as a committee to promote a workshop in Kentucky. Louise Combs, director of Teacher Education and Certification, Frankfort; C. R. Hager, superintendent of schools, Jessamine county; William Owsley, professor of biology at Morehead State College; Herbert P. Riley, head of the UK Department of Botany; and E. D. Whedbee Jr., Central High School, Louisville.

Annual Livestock Event Is Attraction For 900 Farmers

The UK Agricultural Experiment Station was the scene of the annual livestock field day last Friday, and approximately 900 farmers, the largest number ever to attend an event of this sort on the campus, were present.

Farmers from all sections of the state were in attendance. Central Kentucky counties had the largest delegations, but there were several big groups from Eastern Kentucky. Officials said the large number indicated that there is more interest in livestock as a result of the decrease in tobacco acreage.

Importance of grass in successful livestock production was stressed

by Dr. A. D. Weber, principal speaker at the afternoon program. Dr. Weber is dean of the School of Agriculture and director of the Agricultural Experiment Station of Kansas State College, Manhattan, Kansas.

See Livestock

During the morning the visitors were transported on tractor-drawn wagon over the farm and were shown beef cattle, sheep and swine. While they inspected the herd, members of the UK staff explained some of the livestock experiments in progress.

Dr. Frank J. Welch, dean of the College of Agriculture at UK, de-

livered the welcoming address. He told of some of the experimental farms over the state, emphasizing that all experiments were conducted at Lexington and several large sub-stations.

A. D. Wells, Frankfort, president of the Kentucky Purebred Livestock Association, spoke briefly He told of the remarkable growth of livestock organizations in Kentucky during the past year.

William M. Summers, Bardstow, a director of the livestock association, awarded KPLA college scholarships to three youths. They were Albert Lee Wilson, Hopkinsville; Rodney Marie Schlitz, Augusta, and Richard Brooks, Glasgow.

Garrigus Speaks

Dr. W. P. Garrigus, chairman of the Animal Industry Group and associate director of the experiment station, talked about the livestock research program and what it will mean to farmers now and in the future. Ray Hopper, of the Animal Husbandry Department at UK, spoke briefly. Grady Sellards, of the Animal Husbandry Department, was chairman of the morning program.

Because of a power failure, the farmers were not served the beef barbecue that they had been promised. Instead the lunch consisted of fish and ham.

Dr. Weber in his address said: "In considering the human element as a favor in successful livestock production, it is also well to keep in mind that animal husbandry progress has paralleled man's struggle for freedom. Both have been brought about because of emphasis on the dignity of the individual."

"Social justice and self-government are the keystones of democracy, and the opportunity for full expression of inherent capabilities by those engaged in livestock production is democracy's contribution to animal husbandry's progress."

Dr. Weber advised his listeners to keep operations in line with available resources. He urged a system in accord with the ability of the operator, size of farm, and its productive capacity, and the conservation practices in use or contemplated.

Sound financing and operative efficiency were stressed by the speaker.

Frat Standings Tops For State Universities

University of Kentucky fraternity men had the highest scholastic standing of any state university in the country last year, it was announced by Ralph W. Wilson, Executive Director of College Fraternity Processing.

This makes the third year that UK fraternity men have been ranked in the top two state universities. In 1952-53 they were first in scholarship and first in improvement. In 1953-54 they ranked second to L.S.U. The 1954-55 record is the highest ever attained at any state university.

The individual fraternity averages as announced by Dean of Men Leslie L. Martin, are as follows.

FRATERNITY	Year	2nd Sem.
Triangle	2.76	2.86

Tau Kappa Epsilon	2.62	2.77
Sigma Alpha Epsilon	2.57	2.70
Delta Tau Delta	2.54	2.54
Phi Delta Theta	2.52	2.67
Phi Kappa Tau	2.50	2.42
Alpha Gamma Rho	2.48	2.63
Alpha Sigma Phi	2.45	2.40
ALL FRATERNITY		
AVERAGE	2.39	2.49
Zeta Beta Tau	2.31	2.59
Kappa Sigma	2.39	2.30
Kappa Alpha	2.29	2.37
Lambda Chi Alpha	2.26	2.34
Phi Sigma Kappa	2.24	2.23
ALL MEN'S AV.	2.24	2.34
Pi Kappa Alpha	2.23	2.44
Delta Chi	2.22	2.53
Sigma Nu	2.19	2.44
Sigma Phi Epsilon	2.17	2.36
Alpha Tau Omega	2.13	2.14
Sigma Chi	2.10	2.34

University Plays Host For High School Coaches Clinic

The University of Kentucky will play host to the annual high school coaches clinic August 10-13.

The clinic, which will consist of instruction on football, basketball and research on athletics has an outstanding instructional staff.

From UK on the staff is Coach Blanton Collier, Coach Adolph Rupp, director of athletics Bernie Shively and Dr. Ernst Jokl, Director of Physical Medicine and Rehabilitation.

Collier, who gained "Coach of the Year" honors in the Southeastern Conference last year is a sound fundamentalist with 16 years in the high school field. He came to Kentucky in 1954 after serving as backfield coach of the professional Cleveland Browns.

Rupp, famed mentor of the Wildcats, is the advocator of the controlled fast break pattern that has become the trademark of his teams.

Shively, director of the coaching clinic, is a former Illinois All-American gridder who has guided the Wildcats' athletic program since 1938. During his regime he has doubled as track and football coach. UK Basketball Aide Harry Lancaster will assist in the cage discussions. Wildcat grid assistants helping out in football talks will be Ermal Allen, Clarence Underwood, Bill Arnsperger, Bill Mosley, Charles Bradshaw and Matt Lair. Dr. Ernst Jokl is a specialist in medical research in exercise and athletics. He served as medical consultant for the Olympic Games in Helsinki in 1952.

Among the other athletic "greats" are Bud Wilkinson, grid

chief of the Oklahoma Sooners; Forrest Evashefski, University of Iowa's head coach, Tommy Blackburn, cage coach at the University of Dayton and Charles Werner, track coach at Penn State and U.S. Olympic team track coach in 1952.

Students Receive Law Book Prizes

The prizes for outstanding achievement in the UK college of law for the second semester 1954-1955 were announced Tuesday by Dean Elvis J. Stahr. The prizes are law books donated by their publishers.

Charles R. Doyle, Naples, Florida, won the Frank R. Shepard Co. award for the highest cumulative average on graduation.

The prize for the highest standing for first year work presented by Callegan & Co. was won by Charles L. Calk, Lexington. C. Gibson Downing Jr., Lexington, had the highest standing for second year work, while Robert R. Humphreys, Clinton, had the highest standing for third-year work. Both received prizes donated by the West Publishing Co.

Prizes were awarded by the Kentucky Law Journal for the best contributions to it by law students for the year. John A. Gregory Jr., Harlan, took the first prize; Gardner L. Turner, Lexington, second; and Charles L. Calk, Lexington, third. (Continued on Page 4)

Contemporary Art Books Secured By Art Library

The Fine Art Library of the University of Kentucky has lately secured new books, scores and microfilm, much of which are contemporary artists.

One of the reference additions to the collection is a set of four volumes of the "Pelican Art History Series." This brings the total belonging to the library to eight books, which represent the accumulation of only two years.

These books contain the general history of art, and include information on the subjects of archi-

ecture, sculpture, painting and pottery. The completed series is planned to number forty-four volumes. Each separate edition is under the direction of a different person, an expert in his special field and is published by Harry N. Abrams, Incorporated. This is the same company that is publishing the Pocket Library of Great Artists.

Subscriptions to two new art magazines began this summer and will continue next semester.

HERE'S A GAL that knows how to stay cool, calm, and collected, while studying for those crazy finals. "Would you care to join me?"—"DE-LIGHTED!"

Kentuckian

Today is the last day that seniors can pick up their issues of the "Kentuckian". The time 9:00-10:00 a.m., in the Journalism building.

Kentucky Utilities Establishes Fund

A fund to assist in the expansion of the research and teaching programs of the University of Kentucky's College of Engineering has been established by the Kentucky Utilities Company.

Under provisions of the plan, the electric power company has made a gift of \$12,000 for the year July 1, 1955-June 30, 1956, to be used for research and instructional purposes in the Department of Electrical Engineering. The fund will be administered by the Kentucky Research Foundation, of which Dr. Chamberlain is president.

Horticulturists examine vegetables at UK.

UK Ag Farm Exhibits Fruits And Vegetables

Fruits and vegetables being tested at the Agricultural Experiment Station were shown and discussed Tuesday at the annual Horticulture Field Day. This took place at the farm just beyond the city limits on the Nicholasville Road.

Shown were 15 varieties of tomatoes, 10 types of beans, and other vegetables which included peppers, eggplants, sweet corn, white and sweet potatoes, watermelons, musk melons, cucumbers and squash.

Grapes, strawberries, blue berries, raspberries and other small fruits were seen and discussed.

Experiments in chemical weed control and mulching were also demonstrated.

Egypt announced that its next International Fair probably will be postponed until the latter part of 1957.

Teachers Attend Workshop

Twenty educators from Kentucky, Tennessee and Texas are taking part in a Workshop for Teachers of Handicapped Teachers, now in progress at the University of Kentucky.

Dr. Frank G. Dickey, dean of the UK College of Education, announced today (Wednesday) that the workshop, which opened two weeks ago, will continue through Saturday. Co-sponsors of the affair, along with the College of Education, are the United Cerebral Palsy and the Kentucky Cerebral Palsy.

Through a grant from the Courier-Journal WHAS-TV Crusade for Children, scholarships have been provided for a number of the educators participating in the workshop.

Prof. Thomas R. Weaver, member of the faculty of Wayne University, Detroit, Mich., and director of special education in the Detroit Public Schools, is directing the workshop and serving as instructor.

Several Kentucky school systems have recognized the need for teachers in special education, and many of these are considering the addition of teachers to work in these special fields, Dean Dickey said.

Bonds To Be Sold

Mr. Frank D. Peterson, vice president of Business Administration, was recently in Atlanta, Ga., on behalf of UK, in connection with the selling of \$275,000 worth of bonds that were used in the completion of Keeneland Hall.

The first bond portion was sold last year.

A silver shilling minted in 1652 in the colony of Massachusetts was dug up recently in Newtownards, Eire.

Frat Standings

(Continued from Page 1)
men's average for the year will be placed on social probation. All six of these fraternities had a chapter average for the year of better than the 2.0 minimum required for graduation.
The all men's average is derived by computing the standings of all undergraduate students (1.0 is equal to D, 2.0 is equal to C, 3.0 is equal to B, and 4.0 is equal to A).

**UK Professor
To Lecture
In France**

A University of Kentucky engineering professor has been selected to be a principal speaker at the Ninth International Congress of Refrigeration to be held in September in Paris, France.

He is Prof. E. B. Penrod, head of the UK Department of Mechanical Engineering. The department head will read two papers at the affair, scheduled at the Sorbonne in Paris.

"Heat Pump Progress in North America," a work prepared by Prof. Penrod himself, will be read by him at an early session of the conference. The second paper, "Intermittent Versus Continuous Operation of the University of Kentucky Heat Pump No. 1 on the Heating Cycle," was co-authored by Prof. Penrod and J. F. Thorpe.

Prof. Penrod will leave Lexington on August 27 and will arrive in Paris on August 29. He plans to leave Paris for his return home on Sept. 16. It will be the professor's first trip to Paris.

Book Prizes Awarded

(Continued from Page 1)
C. Gibson Downing Jr., Lexington, won the prize donated by the Foundation Press for greatest improvement during second-year law work. Edwin A. Monroe Jr., Falmouth, received the award for greatest improvement during third-year law work, presented by the Bureau of National Affairs.

Prizes were also received for best work in the various law courses for the second semester by: James Levin, Williamsburg; John Thompson, Utica; Harold Wells, Hazard; Luther House, Adolphus; Mrs. Warren Pfefferle, Kevil; Earl Henry, Frankfort; S. David Levy, Elizabeth, N. J.; Robert Trimble, Lexington; Carl Morgan, Lexington; Carl Turner, Lexington; Thomas Soyars, Hopkinsville; James F. Miller, Lexington; Robert R. Humphreys, Clinton; C. Gibson Downing Jr., Lexington; and Robert A. Palmer, Carlisle.

Most of these prizes were awarded by the Lawyers Cooperative Publishing Co., the Foundation Press, and the West Publishing Co.
