ISSUED MONTHLY

Entered as second-class matter March 21, 1933, at the post office at Frankfort, Kentucky, under the Act of August 24, 1912.

VOL. XVIII APRIL, 1950

No. 2

Library
University of Kentucky

FOREWORD

This Number of the Bulletin is prepared annually by the Bureau of Instruction in the State Department of Education. This publication is designed to give pertinent information regarding the high schools of the state.

High schools in Kentucky, both public and private, are accredited annually by the State Board of Education. The official accredited rating of each high school is set forth in this bulletin. The official rating given each high school by the State Board of Education is made on recommendation of the Commission on Secondary Schools of the Kentucky Association of Colleges and Secondary Schools.

It is hoped that superintendents and principals will study the material found in this publication.

KENTUCKY HIGH SCHOOLS—1949-50

Schools and Types of Organizations. There are 623 public and private high schools in Kentucky. Last year the number was 640. Of the 623 high schools now operating, 577 are complete organizations in that they offer work through the twelfth grade. The remaining 46 high schools, because they do not offer work through the twelfth grade, are recognized as incomplete feeder schools. Of the 46 incomplete high schools, 35 are separate junior high schools organized as one distinct unit offering work exclusively in grades seven, eight, and nine. The remaining eleven high schools are incomplete organizations that offer work only through the tenth or eleventh grades.

Of the 577 complete high schools, 343 are operated by county boards of education while 158 are maintained by boards of education in independent school districts. The remaining complete organizations are either private secondary schools or schools that are operated by the state in connection with institutions that are maintained entirely by the state.

This year, the six-year high schools (grades 7-12) number 277 while the traditional four-year high schools (grades 9-12) number 260. The remaining forty complete high school organizations represent modifications of the six-year and traditional four-year plans.

The following table presents data regarding the various types of high school organizations to be found in the state.

TABLE I
TYPES OF HIGH SCHOOL ORGANIZATIONS
AND NUMBER OF EACH

Types of Organizations	County Districts	Independent Districts	Private Schools	State or Regional	Total
Grades 7-12.....	167	96	9	5	277
Grades 9-12.....	162	47	50	1	260
Grades 8-12.....	12	7	10	0	29
Grades 10-12.....	2	8	1	0	11
Grades up to 11.....	1	0	0	0	1
Grades up to 10.....	8	0	1	1	10
Grades up to 9.....	16	19	0	0	35
Totals	368	177	71	7	623

The foregoing table not only shows the number of different types of high schools that are found in the state but it also indicates the number of such schools that operate under different types of control.

Table IV shows that there was a continuous growth in the number of high schools from 1915 to 1935. In 1935 there were 848 public and private high schools in the state. This is the largest number of high schools that the state has ever had. Now that we have 623 high schools, public and private, it is clear that there has been a decrease in the number of high schools of 225 since 1935. The decrease in the number of public high schools has resulted very largely through small high school organizations being merged into larger school centers.

Table V presents an interesting picture in total high school enrollments in different types of high schools (public white, public colored, and private) since 1915. High school enrollments increased rapidly until around 1941. After 1941 the total high school enrollment began to decrease and continued to decrease until 1945. During these war years many of high school age entered the armed services. Since 1945 the enrollment has gradually increased to the point where it is about the same as the enrollment figures for the year preceding the war. This increase has gone on in both the public and private high schools of the state.

* Beginning with the school-year 1932-33, the enrollment of the seventh and eighth grades of six-year high schools and of junior high schools are included.

Table VI shows the situation as regards the number of accredited high schools by years since 1910. When we think of a high school that is accredited we think of one that offers a program of work through the twelfth grade. High schools that do not give work through the twelfth grade should be looked upon as incomplete feeder schools for the regularly organized, complete high schools.

The high schools in Kentucky are accredited by the State Board of Education. This applies to both public and private schools. The official rating given each high school by the State Board of Education is made as a result of the recommendations of the Commission on Secondary Schools of the Kentucky Association of Colleges and Secondary Schools. The members of this Commission meet with the supervisors in the Bureau of Instruction and canvass the annual high school reports that are made to the State Department of Education and also the special reports that are made of inspections by the supervisors.

* Interpretation of High School Ratings:

- A—Accredited through the entire high school course (through grade twelve).
- B—Accredited through the entire high school course (through grade twelve).
- 11 Gr.—Accredited through grade eleven.
- 10 Gr.—Accredited through grade ten.
- 9 Gr.—Junior high school—recognized through grade nine.
- T—This initial when attached to the designation of any rating indicates that such rating is given in the face of some deficiency, and that the accredited rating of the school should be terminated at the close of this school year.
- E—This initial suggests that an emergency is recognized to exist that may justify the operation of the school even with an observed shortage in the number of pupils or of teachers.
