

MEETING OF THE EXECUTIVE COMMITTEE
UNIVERSITY OF KENTUCKY
MARCH 21, 1917

The Board met in President Barker's office and in the absence of Chairman Nichols, Mr. Johnston presided with the following members present, Messrs. Johnston, Stoll, Brown and Brock, Mr. Nichols coming in later and taking the chair.

President Barker read the following report which was ordered spread upon the minutes:

March 21, 1917

Executive Committee,
University of Kentucky.

Gentlemen:-

Since your last meeting, everything pertaining to the University as an educational institution has been going forward in the most satisfactory manner.

In undertaking to execute your suggestion with regard to the spraying of the trees and beautifying the campus, I found difficulty, which grew out of the fact that Professor McFarland seems to have overlooked the rights and duties of his superior, Professor Mathews. As soon as I found this friction existed, I called the Dean of Agriculture, explained the situation to him, and required, at his hands, a satisfactory solution of the whole matter, which would carry out your orders and at the same time get rid of all friction. This he has done in a report to you this morning, which will be read to you and which, I think you should adopt.

I had the impression that the memorial unifying the College of Agriculture, which was sent to you sometime ago, had been adopted by the Board. I understand that it was only received and filed. I am quite sure this Board intended to adopt this memorial, and I have acted upon it as a law of the University. I hope you will now adopt it as of the date it was filed.

In adjusting the matter of appointments in Extension, I have ruled, based upon the memorial above referred to, that all appointments of officers, agents or employees in Extension work shall first be recommended to the Dean of the College of Agriculture, who, if he approves them, will recommend them to me, and shall make them subject to your approval and, if necessary, to the approval of the Extension Committee. I think there is a little vagueness as to the authority of the Extension Committee which meets at Frankfort, and of which his Excellency, the Governor, is Chairman. This Committee meets tonight, and

I desire to have them ratify my ruling as to appointments in the Extension service. This will unify and harmonize all the Agricultural authorities and get rid of any friction along the line indicated.

Professor Roberts sets forth a statement of what the Experiment Station can do in furnishing funds for Extension service next year to meet the requirements of the Smith-Lever Bill. I commend this part of the report to you as an exposition of how we can meet the terms of the Smith-Lever Bill in full and thus give to the people of Kentucky the benefit of all funds furnished by the State and the United States Government.

In establishing Home Economics as an independent department sometime ago, we overlooked the fact that Miss Mary E. Sweeney was only an Associate Professor. In order to give her a proper rank, I now suggest that she be made a full professor without any increase in pay. This entails no additional cost of the University but completes the symmetry of this independent department.

In arranging for the athletics for next year, I find that it will be much to the advantage of the University to retain Doctor Tigert as coach. I therefore, request that his leave of absence from the Chair of Philosophy be extended another year. This will leave the matter in statu quo, entailing no expense on the University, and the work be done just as satisfactorily as last year. I hope you will adopt this suggestion, as I think, under all circumstances, it will redound to the good of the whole institution.

Very respectfully,

H. S. Barker, President.

The regular order of business was suspended and Professor F. Paul Anderson, Chairman of the Committee of Deans appeared before the Board and made the following report:

THE COMMITTEE OF DEANS
UNIVERSITY OF KENTUCKY.

Lexington, Ky., Mar. 5, 1917.

The Executive Committee,
Board of Trustees,
University of Kentucky.

The Committee of Deans, having been directed to make recommendations regarding the adoption of the military system, known as the "Reserve Officers Training Corps", which system

is embodied in the National Defense Act, an Act of Congress of June 3, 1916, do therefore respectfully make recommendation as follows:

1. That the proper authority of the University of Kentucky make to the War Department an application to have established and maintained at the institution an Infantry Unit of the Senior Division of the Reserve Officers Training Corps in conformity with existing Federal law and the regulations as promulgated by the Secretary of War, especially as modified in respect to land grant institutions of learning.

2. That, in connection with the above recommendation, the course in Military Science leading to the degree B.S., hereto appended and marked "A", being adopted as part of the regular curriculum of the University.

3. That proper steps be taken to have both of the foregoing recommendations put into full force and effect after the end of the present academic year and before the beginning of the academic year 1917-18.

F. Paul Anderson, Dean,
College of Mechanical & Elec. Eng.
Chairman

Arthur M. Miller,
Dean College Arts & Science, Secy.

TO THE COMMITTEE OF DEANS:

Your sub-committee, appointed to make recommendations concerning a course in Military Science, submits the following for your consideration:

(2) That a course in Military Science be self-contained and under the direction of the head of the Military Department, now designated by the War Department as the Professor of Military Science and Tactics in the University of Kentucky.

(1) That a course in Military Science be offered in the department of Military Science at the University of Kentucky.

(3) That the following course of Military Science be recommended for adoption:

The successful completion of the above courses will put the graduate in a fair way toward obtaining a commission in the Army from civil life; every required subject in the examination to that end, being included therein.

F. Paul Anderson, Dean,
College of Mechanical & Elec. Eng.

Arthur M. Miller, Dean,
College of Arts & Science

John C. Fairfax, Captain,
Infantry, D.O.L., Commandant.

Professor Anderson detailed, after submitting his report, the outline of study and discussed for the enlightenment of the Board, various phases of a recent enactment of Federal law affecting Military Training in Universities as set out in General Orders #49 issued by the War Department at Washington. Dean Anderson then discussed fully for the understanding of the Board that part of his report which also recommended and outlined a new course of study in the University to be known as "Military Science Leading to a Degree of B.S." and the benefits which in his judgment the establishing of such a course in the University would bring, both to the Institution, the students and the Federal Government.

Dean Anderson's interpretation of General Orders No. 49 was briefly; that drill work would continue for two years throughout the Freshman and Sophomore years as it does now but that the government would, for those years, assume the expense of uniforms for students so drilling; that at the close of the two years required by all Land Grant Colleges, the student might then elect to proceed with Military Training for an additional two years, the government agreeing if he did so elect, to continue to furnish the student one uniform a year and payment of 30¢ each day he drilled.

Dean Anderson explained the limitation of the course in Military Science which his Committee had recommended as an additional department in University Training. He said that the student taking such course and electing this as his major, would be required to complete to the satisfaction of the various instructors involved, the course outlined, in the report appended; that uniforms would be furnished for students throughout the entire four years by the government and that when the student had completed the course outlined, he would then be in line for official duty in the U.S. Army. He said that as matters now stood such student would be expected to take a Federal Examination if he desired to enter the Army, but that he believed that as soon as matters assumed more definite form, the government would see it a way clear to accept graduation in the course here outlined as final credentials for entrance upon official duty in the army; that this official duty would carry with it the usual army salaries.

Details of the Military Training course were discussed freely among members of the Board. Mr. Stoll then moved that the report of the Committee of Deans Military Training be adopted and courses of study provided for therein be established; that the Committee of Deans with the Commandant added be authorized to direct professors and instructors in this institution to teach the subjects recommended as part of their regular instruction duty; that the Commandant be designated as Head of the Department of Military Science and that President Barker be directed to fill out and forward to the Adjutant General at the War Department in Washington the application

required in General Orders No. 49 which in words is as follows:

APPENDIX III.
APPLICATION BLANK.

From:

To: The Adjutant General, United States Army.

Subject: Application for establishment of unit or units
of Reserve Officers' Training Corps.

1. By direction of the governing authorities of _____
University, I hereby submit application for the establish-
ment of one or more units of the Reserve Officers' Training
Corps at this institution.

2. Should this application be accepted by the President,
the authorities of this university hereby agree to estab-
lish and maintain a two years' compulsory course of mili-
tary training as a minimum for its physically fit male
students, which course when entered upon by any student
shall, as regards such student, be a prerequisite for
graduation; to allot a minimum of an average of three
hours per week per academic year to military training and
instruction during the first two academic years and to
arrange for five hours per week during the balance of
such student's course, and to use their endeavors to
promote and further the objects for which the training
corps is organized.

3. The authorities of this institution also agree to
conform to the regulations of the Secretary of War re-
lating to issue, care, use, safe-keeping, and accounting
of such government property as may be issued to the in-
stitution.

4. Attached herewith is a statement giving particulars
with reference to the institution.

STATEMENT

1. Grade of Institution and degree it confers:

- (a) Land Grant
- (b) Collegiate
- (c) Number of years of academic study necessary
for a degree
- (d) Preparatory institution

2. Number of students not less than 14 years of age en-
rolled in the institution (inclose last printed catalog
if not already furnished.)

3. The number of male students the institution is prepared to instruct at one and the same time (capacity of buildings, apparatus, and instructors).
4. Number of cadet companies, troops, batteries organized at present date.
5. Details (material, dimensions) of storage facilities for arms, equipment, etc. (Stable facilities and shelter for forage and for guns and caissons in case mounted arms of service are to be organized).
6. Designation of governing body (board of regents, trustees, etc.)

- (a) Number of members of same.
- (b) Official designation of the head of the institution.

Mr. Stoll's motion was adopted unanimously. Messrs. Stoll, Brown, Johnson, Brock and Nichols, the last named of whom had come in after the meeting had convened, voted in the affirmative.

Dean Miller of the College of Arts and Science was called into the room and asked concerning the arrangement by which Doctor J. J. Tigert was given a leave of absence for one year to take charge of the football team. Dean Miller reported in response to questions by Board members, that since Doctor Tigert's retirement from the chair of Philosophy which he held at the time the leave of absence went into effect the chair had been filled by Doctor Glanville Terrill to his and the entire satisfaction of Professor Noe, Head of Department of Education. Asked whether the work done in this chair by Doctor Tigert had been satisfactory, Dean Miller explained that during the time that Doctor Tigert was giving his entire attention to teaching, his work was eminently satisfactory but that when it became necessary to divide his attention between football on one hand and the chair of Philosophy on the other, his teaching work had not been entirely satisfactory. This question had been precipitated by reason of the fact that Doctor Tigert desired a definition on whether he could come back to his chair. Dean Miller said further that if Doctor Tigert insists on returning to that work, he is entitled to come back to the chair of Philosophy.

Dean Miller: I had only satisfactory reports of Doctor Tigert's teaching when he gave that teaching his full attention.

Mr. Brown: Can the chair be eliminated and the work be continued satisfactorily under the present arrangement?

Dean Miller: It could be satisfactorily continued under the arrangement that now obtains.

Dean Miller said further, "if Doctor Tigert should return, Doctor Terrell would handle the classics. In that event we could get along without Miss Pollitt. Elimination of Miss Pollitt would bring about a saving of \$800 difference in salaries. She gets \$600 now and I have recommended \$800. Doctor Tigert's salary would be \$2000."

Mr. Johnston: Would Doctor Terrell be willing to continue as matters now stand in case Doctor Tigert's leave of absence were extended another year?

Dean Miller: I am satisfied that Doctor Terrell would not object to continuing.

Dean Miller at this point said that he was opposed to indefinite leaves of absence because in his judgment such leaves had a tendency to cause the work of teaching to dis-integrate.

At this point, Mr. Stoll moved that the question of continuing Doctor Tigert's leave of absence be referred to the Committee of Deans with a request that they report at the next regular meeting of this Board. Without objection, the motion was adopted.

After discussing details of the proposed purchase of certain property lying East of the University and belonging to the estate of the late James H. Mulligan, which purchase was authorized by the Board of Trustees in a meeting at Frankfort January 31, 1917, Mr. Stoll offered a resolution which was as follows:

WHEREAS, the Board of Trustees of the University of Kentucky has heretofore authorized the Executive Committee of the University to purchase the property belonging to the late James H. Mulligan and lying between the Campus of the University and Rose Street and extending from Winslow Street to Washington Avenue and to make whatever arrangements might be necessary to complete the said purchase,

AND WHEREAS, the Attorney General for the State of Kentucky has by letter advised the President of the University that the Board of Trustees can not lawfully incur any indebtedness in the purchase of said property, but may lawfully use any surplus funds which the University may have accumulated or may hereafter accumulate from time to time in the purchase thereof, which letter is in part as follows, to wit:

"I am of the opinion that some one may purchase the property as Trustee and hold it for the University, and the University may pay as much on the property as it can out of surplus funds, or it may furnish the Trustee money to pay part of the purchase price."

AND WHEREAS, the Phoenix & Third Trust Company, of Lexington, Kentucky, has offered to purchase said property and hold the title thereto and hereafter convey the same to the University of Kentucky under and in accordance with the terms of a proposed agreement, which is as follows, to wit:

THIS AGREEMENT made and entered into this _____ day of March, 1917, by and between the University of Kentucky, a corporation, part of the first part, and the Phoenix and Third Trust Company, a corporation, of Lexington, Kentucky, party of the second part,

WITNESSETH, That whereas first party desires to purchase the following real estate, to wit:

The property known as the Mulligan home and the lots on Rose Street all in one tract of land and fronting on Winslow Street about 310 feet and extending in a southerly direction along Rose Street a distance of about 1900 feet to Washington Avenue, bounded on the North by Winslow Street, on the east by Rose Street, on the south by a small strip of land on Washington Avenue, and on the west by the property of the University of Kentucky and the property of Professor Sherfius, being the property formerly owned by James H. Mulligan, deceased, and now owned by the heirs of said James H. Mulligan.

AND WHEREAS, said property is now owned by the heirs of the late James H. Mulligan, some of whom are under age by reason whereof the entire interest in said property can not be transferred except by order of the Fayette Circuit Court in a suit to sell said land,

AND WHEREAS, it is understood that L. J. Mulligan, James J. Mulligan, Alice P. Molloy, Mollie M. Stevenson, Dennis M. Mulligan, Marian Mulligan and Kathleen Mulligan, together with the husbands and wives of those who are married, are ready and willing to enter into a written contract with second party to convey or cause to be conveyed to second party for the sum of Forty thousand (\$40,000) Dollars the property aforesaid and to institute said proceedings as may be necessary to affect a judicial sale thereof.

AND WHEREAS, the sum of Twenty Thousand (\$20,000) Dollars now stands to the credit of the Fertilizer Department of the Kentucky Agricultural Experiment Station, which sum may be lawfully used on and towards

the purchase of said property by the University of Kentucky, and if so used will make it necessary for the second party to pay out on the purchase of said property the sum of only Twenty Thousand (\$20,000) Dollars;

AND WHEREAS, the parties hereto desire to enter into an agreement whereby the second party shall purchase and acquire the title to said property and whereby first party may secure the use and enjoyment of said property until such time as said first party may have on hand funds sufficient to purchase the same and to require second party to convey the legal title to said first party, and whereby said second party may be fully reimbursed for all moneys expended by it in making said purchase, together with all expense and cost which may be reasonably incurred in or about this agreement and the purchase of said property by second party and the subsequent conveyance of said property by second party to first party, and whereby said second party may be protected and secured against any loss on account of said matters;

NOW THEREFORE IN CONSIDERATION of the premises and the sum of One (\$1.00) Dollar cash in hand paid by second party to first party, the receipt of which is hereby acknowledged, and the further consideration of the mutual stipulation and covenants hereinafter set out it is agreed by and between the parties hereto as follows, to wit:

1. The second party agrees to enter into a contract forthwith with the above named heirs of James H. Mulligan and the husbands and wives of those who are married to purchase and pay for said property the sum of Forty Thousand (\$40,000) Dollars provided said heirs will procure a judicial sale thereof whereby second party shall acquire a clear, perfect and unencumbered fee simple title to said property. Said agreement shall before its execution be approved by the Chairman of the Executive Committee of first party.

2. First party agrees that it will be proper resolution of the Executive Committee set aside the sum of Twenty Thousand (\$20,000) Dollars out of moneys now to the credit of the Fertilizer Department of the Kentucky Agricultural Experiment Station to be paid and applied in the purchase price of said property, and will direct the business agent of first party to pay said sum to second party whenever requested by second party and ordered by the Chairman of the Executive Committee to make said payment, provided second party shall then be required to make payment of the purchase price of said property.

3. Second party agrees that it will furnish such sum as may be necessary to complete the payment for said property at the purchase price of Forty Thousand (\$40,000) Dollars, and in the event it may become necessary to bid at the sale of said property in excess of the sum of Forty Thousand (\$40,000) Dollars in order to obtain the same, then second party may purchase at such increased price, provided the Chairman of the Executive Committee of first party shall give written approval thereof.

4. First party agrees to be made an examination of the title to said property and to furnish second party with an abstract thereof, and second party shall be under no obligation to take the title thereto or to pay any part of the purchase price unless it is satisfied with said title.

5. In the event and as soon as second party shall under this agreement become the purchaser of said property and entitled to the possession thereof, then second party agrees that first party shall have and receive at once full possession of said property under a year to year lease until the _____ day of _____ 1923, and the right to purchase the said property at said time and require a conveyance of the title thereto under the following terms and conditions, to wit:

(a) Second party shall render to the Chairman of the Executive Committee of first party as soon as practicable after the completion of the purchase of said property a statement showing the total amount paid by second party on the purchase price and in addition thereto any expense which second party may then have incurred on account of said purchase or under or on account of this agreement, which statement when approved by the said Executive Committee shall be deemed and considered the amount paid by second party on said purchase price.

(b) First party for the first and occupation of said property under such year to year lease and as annual rental therefor shall pay to second party an amount equal to six per cent of the purchase price paid by second party as ascertained in manner aforesaid, which annual rental shall be paid semi-annually, the first payment to be made six months after the date of the payment by the second party of the agreed purchase price of said property or the execution of bonds for said purchase price. First party shall also be bound and hereby agrees to keep the improvements on said property in a reasonable state of repair and in as good repair as the same now are without expense to second party, and first party shall also and hereby

agrees and binds itself to pay all taxes, charges, and assessments which may be made or levied against said property from time to time, if any, and will further keep the improvements on said property insured in good and solvent insurance companies in the name of second party so such an amount as may be required by second party, and will further pay any expense that second party may reasonably incur on account of said property during said lease.

(c) First party shall be under no obligation to rent said property for any period longer than one year, but shall notify second party three months in advance of the expiration of each year's lease shall constitute an election by first party to renew said lease for the following year.

(d) First party shall have the right and option at any time prior to and including the _____ day of _____ 1923, to require second party to execute to it a deed to said property, provided first party shall have paid the annual rentals which may have accrued as aforesaid, including all taxes and assessments, and shall have taken out insurance as aforesaid and paid the premiums thereon, and shall have paid all expenses incurred by second party as aforesaid, and shall then pay to second party the full amount which second party shall have paid or expended on account of the purchase of said property ascertained as aforesaid. It is agreed and understood, however, that first party shall be under no obligation to pay to second party the amount paid by it on the purchase price of said property as aforesaid, but such payment shall be optional with first party. If first party shall fail to require a conveyance of said property to it by second party, or shall have failed to perform any of the conditions precedent to its right to require such conveyance as hereinbefore set out on or before the _____ day of _____, 1923, then second party shall have the right at any time thereafter to sell said property at either public or private sale on such terms as second party may determine, and after paying to itself out of the purchase price all expenses incurred by it as aforesaid and all expenses incurred on account of such resale and the amount paid by it on the purchase of said property, together with six per cent interest thereon, calculated semi-annually as aforesaid, after crediting thereon such rentals as may have been paid by first party, (it being the intention and purpose of this agreement that second party shall be fully and completely reimbursed without loss or expense to it), said second party shall pay the balance of the amount realized on such resale to first party with-

out any other or further liability to first party.

6. First party shall have the right to make to second party at any time and from time to time, partial payments to be applied on the purchase price of said property, provided said partial payments shall be not less than Five Hundred (\$500) Dollars each, and provided further that if any partial payments shall be made by first party then first party shall receive an abatement in the rental aforesaid on the basis of six per cent interest on such partial payment.

7. This contract shall be executed in duplicate, each copy to have the full force and effect of an original.

IN TESTIMONY WHEREOF the University of Kentucky hereunto sets its hand by the Chairman of its Executive Committee and has caused his act to be attested and its corporate seal to be affixed by Enoch Grehan, its Secretary, and the Phoenix and Third Trust Company hereunto sets its hand by its President and has caused his act to be attested and its corporate seal to be affixed by its Secretary as of the day and year first above written.

Attest:

UNIVERSITY OF KENTUCKY

Secretary

By _____
Chairman of Executive Committee

Attest:

PHOENIX AND THIRD TRUST COMPANY

By _____
President.

NOW THEREFORE, BE IT RESOLVED by the Executive Committee of the University of Kentucky as follows, to wit:

First: That the contract aforesaid be and the same now is hereby approved, and the Chairman of the Executive Committee is directed to execute said contract for and on behalf of the University of Kentucky, and the Secretary of said Committee is directed to attest the act of said Chairman and affix the seal of the corporation.

Second: That the sum of Twenty Thousand (\$20,000) Dollars now standing to the credit of the Fertilizer Department of the Kentucky Agricultural Experiment Station be and the same is now hereby set apart separate and distinct from all other funds of the University,

and the business agent of the University is hereby directed to deposit said sum to the Phoenix and Third Trust Company, of Lexington, Kentucky, upon the order of the Chairman of the Executive Committee of the University of Kentucky whenever said Phoenix and Third Trust Company shall be required to make payment on the purchase price of the property aforesaid.

Third: That the President of the University be and he is hereby authorized and directed to employ the firm of Allen and Duncan, the Attorney General having consented thereto, to attend to all matters connected with this transaction and to examine and make a report on the title to said property and to make an abstract thereof and to furnish one copy of said abstract to the Chairman of the Executive Committee and one copy to the Phoenix and Third Trust Company.

Fourth: That the University shall set apart out of its funds each year a sum sufficient to pay the annual rentals and amounts to be paid which may accrue under the aforesaid contract with the Phoenix and Third Trust Company, including insurance premiums, taxes, charges and assessments, if any, and expenses of said Phoenix and Third Trust Company as provided for in said contract.

Fifth: That the University of Kentucky shall set apart each year the sum of Four Thousand (\$4000) out of its funds for the purpose of using and applying the same in purchasing said property under the terms of the aforesaid contract.

The foregoing resolution was seconded by Mr. Johnston and adopted unanimously by the following vote, Messrs. Johnston, Brown, Brock, Nichols and Stoll voting aye.

Mr. Stoll then moved that the firm of Allen & Duncan be employed to look after the University's interest in the matter of examination of the title, and legal details looking toward the closing up of the sale. The motion was adopted by unanimous vote.

The following letter was read:

March 27, 1917.

Executive Committee,
Board of Trustees,
University of Kentucky,
Lexington, Ky.

Gentlemen:-

The special Investigating Committee which

was appointed by the Governor pursuant to resolution of the Board of Trustees at a recent meeting in Frankfort, has begun its work and finds that in order to fully complete the duties imposed upon it, it will probably have to spend something like \$2500 or \$3000. I am giving you this information now so that you will have more opportunity to arrange to take care of this expense when it becomes due.

Thanking you for giving this matter attention, I beg to remain,

Yours truly,

(SIGNED) Robert G. Gordon,
Chairman Special Investigating Com.

Mr. Stoll said that Mr. Peak, Business Agent had informed him that he could take care of \$1500 of this amount out of the University's funds. Mr. Stoll then moved that \$1500 be taken out of the funds of the University and \$1500 out of the funds of the Experiment Station to be applied to the payment of expenses incurred by the Probe Committee. This motion was adopted by the full vote, Messrs. Nichols, Brown, Johnston, Stoll and Brock voting aye.

Mr. Stoll moved that the Secretary notify heads of all departments that the University was not in condition to appropriate any more funds for their departments of the present year. This motion was adopted by unanimous vote.

Mr. Stoll moved that the Minutes of the previous meeting be amended to the effect that Professor H. Garman be directed by President Barker to spray such plants and trees on the campus as may, in his judgment, need such treatment and the President was requested to notify Professor Garman to this effect. Motion was adopted.

Professor George Roberts, Dean of the College of Agriculture submitted the following report:

Lexington, Ky., March 20, 1917.

The Executive Committee,
University of Kentucky.

Gentlemen:-

I desire to present for your consideration the following monthly report:

In my last report I recommended that Mr. L. B. Mann, be appointed instructor in Animal Husbandry in the College of Agriculture, but it seems that the

matter was overlooked and no action was taken either for or against the recommendation. I therefore, request that the recommendation be approved, and that Mr. Mann has already been appointed Assistant in Animal Husbandry in the Station, but Professor Good needs his services as instructor in the College, and \$300 was set aside in the annual budget for this purpose.

In my last report, I reported the resignation of Professor James A. Farra, Assistant Professor of Farm Engineering, effective February 1, and stated that the students registered for his course had been taken care of by putting them in other courses. Most of them went into the class in forage crops taught by Mr. Gordon. Professor Farra received \$1200 per year, so that \$500 of his salary was released. I recommended that Mr. Gordon's salary be increased \$100 on account of the extra work put upon him. Mr. Gordon was recommended for a salary of \$1000 for the present year, but was given only \$900. I think it a deserved increase and recommend its approval. I recommended that the remaining \$500 be used in the department of Agronomy and for the general expense of the College. I have already explained to you that when I was appointed the budgets had been made out and that there was only \$240.40 in the general expense fund, with \$212 already spent for a picture machine, and an old bill of \$128 coming over from last fiscal year to be charged up against it. There has since been an appropriation of \$250 to the general fund. We have been as economical as we could be, but we had on March 1st only \$22.83 in the general expense fund, and the department of agronomy fund was overdrawn \$216.17. I may say here that I reported to the President that it was a case of going on and buying apparatus and materials for the soils laboratory, or stopping the course. He authorized me to make the purchases with the idea that the adjustment could be made later. I now ask that we be allowed to use the remaining \$500 referred to above to offset this deficit in the agronomy budget, and for whatever contingencies may arise during the remainder of the year. This will obviate the necessity for making appropriations that I asked for in a former report. This matter was referred to President Barker and Mr. Stoll at the last meeting with power to act. I was out of town for ten days following the meeting. After my return I made several attempts to get President Barker and Mr. Stoll together, but failed to find a time when both could meet. At Mr. Stoll's suggestion, I am re-presenting the matter.

(Dean Roberts was notified that the funds referred to were not available for the purpose outlined).

We are very much overcrowded in the Agricultural Building. The Farm Management Department is housed in a cloak room which is also an entrance to the attic stairway. This room is $12\frac{1}{2}$ X 10 feet, and has in it the entire staircase leading to the attic. The actual floor space is $107\frac{1}{2}$ sq. ft. In this room are three people, three desks, (one typewriter) and chairs and two stacks of filing cases. There are several students who help in this work who are compelled to sit out in the hall or dodge around from class room to class room when they are un-occupied. There is no relief whatever in the building and the condition has become intolerable. The cottage on South Limestone on the lot adjoining the campus and within a few feet of the College is now vacant and can be rented for \$15.00 per month. It has four rooms that can be used as offices and one or two that can be used as storage. I urgently recommend that the College be allowed to rent this cottage for at least a year to relieve the congestion. Professor Mathews is very much crowded in his department, and could get some relief also in this way.

Some controversy has arisen over the care of the campus. It seems that Professor McFarland has made certain recommendations requiring the spraying of trees by Professor Garman and the buying of shrubs, etc. by Professor Mathews without advising or consulting with these gentlemen, and that he further asked that the college greenhouse be turned over to him and that Professor Mathews and Professor Gilbert be so notified. This action on the part of Professor McFarland has created some unpleasant feeling on the part of these gentlemen, and they have made some protest to the President, who has asked me to make some recommendations looking to the adjustment of the matter, inasmuch as all the men involved are in the College of Agriculture.

I regard the care of the campus as primarily a matter of landscape gardening, and believe it logical that the general supervision of the grounds should be placed in the department of horticulture where landscape gardening and allied subjects are taught. This would automatically require that the head of the department have general supervision of the grounds. I recommend therefore, that all grounds of the University, including the Experiment Station campus and any grounds on the farm needing such services be placed under the supervision of the department of horticulture. I can offer assurance that such matters as spraying, etc.

can be handled agreeably without any appeal to the Executive Committee and the President to have it done. I have Professor Mathews' consent to this arrangement and Professor Garman assured me of his hearty cooperation. I think the foregoing arrangement will settle the campus question for all time to come.

(Board reiterated its former action which in effect left Professor McFarland in charge of the campus with the exception that Professor Garman do the spraying of trees).

The time has arrived when the amount of money the Experiment Station shall have to put into Extension as an offset to Smith-Lever funds should be determined. I am submitting a statement of the estimated resources of the Experiment Station for the coming year, also a statement of the resources of the Extension Department.

ESTIMATED RESOURCES OF THE
EXPERIMENT STATION
For the Fiscal Year Beginning
July 1, 1917.

Hatch Fund-----	\$15,000
Adams Fund-----	15,000
State Appropriations-----	50,000
Feed and Drug Inspection-----	30,000
Fertilizer fees-----	30,393
Feed Inspection Fees-----	26,364
Farm sales-----	18,300
Serum sales-----	34,906
Balance January 1-----	<u>17,506</u>
	\$237,469

Of the above amounts, the following amounts are not available for experiment and research:

Food and Drug-----	\$30,000
Feed inspection-----	19,000
Fertilizer inspection-----	13,300
Seed and nursery inspection-----	5,300
Serum manufacture-----	<u>34,906</u>
Apparent working resources-----	\$ 102,506
Less proposed appropriation for extension	<u>15,000</u>
	\$ 119,963

Extension funds for the Fiscal Year July 1, 1917 to June 30, 1918.

Federal Smith-Lever-----		\$66,234.65
State S-L to	State Appropriation	13,000
offset Federal	Experiment Station	15,000
Smith-Lever	Normal Schools	1,000
	Farmers' Funds	20,000
	Ba. on State Ap.	<u>7,234.65</u>
		56,234.65
U. S. Government Funds-----	40,000	40,000.
To offset-----	30,000	<u>30,000.</u>
		192,469.30

The item in this report under heads "Experiment funds for the fiscal year July 1, 1917 to June 30, 1918" is covered by the following resolution:

Be it resolved that there be appropriated out of the funds of the University for the Agriculture Extension fund \$35,234.65 from the following funds:

11905.16	Out of the Act March-1916 for the fiscal year 1915-16
13000.00	Out of the Act of March 1916 for the fiscal year 1917-18
<u>10349.47</u>	Out of the Experiment Station Approp. of \$50,000
35234.65	Total

Seconded by Mr. Johnston the motion was adopted, Stoll, Brown, Johnston and Nichols voting aye, Mr. Brock having left for home.

You will note that the estimate lacks \$10,000 of offsetting the U.S. Department of Agriculture funds placed in this State. This is because Doctor Mutchler and I went to Washington and had a conference with Doctor Knapp in which he agreed to waive an offset of \$10,000. On this basis the Extension Department is asking for \$15,000 from the Station, but would have presumably asked for \$25,000 if the waiver had not been granted. I wish to call your attention to the fact that the Experiment Station is suffering for funds with which to carry on its work. It has been generally supposed that it has large resources at its disposal. The \$237,469 total resources is not all available for real experimental work. You will note that about \$104,000 of this money goes into fixed items of expense in the administration of regulatory laws. For example, the \$30,000 for food and drug inspection contributes nothing to experimental work in agriculture, and serum production is not more than self-sustaining. So after all, the experiment station is rather poor when it comes to the conduct of its productive experimental work.

The receipts for fertilizer inspection have fallen

off considerably, and where two or three years ago there was a balance of \$40,000, there is now a balance of only about \$15,000. New work has been added from time to time, until now many lines of work are very much restricted for lack of funds. I, therefore, urge that the Station funds be touched as lightly as possible, and suggest that steps be taken to have the next legislature relieve the Experiment Station altogether from the burden of supplying funds to the Experiment Department, which now has much larger funds for productive work than has the Station.

Respectfully submitted,

George Roberts, Dean pro tem.

Mr. Brown moved a vote of thanks to the Business Agent of the University and the Secretary of this Board for satisfactory reports made by them. Carried.

Mr. Stoll moved that the Business Agent of the University be directed to proceed immediately to consolidate the Business Offices of the Experiment Station and the University in accordance with a resolution formerly passed by this Board. The motion carried.

On recommendation of President Barker, Mr. Brown moved that the title of Miss Mary Sweeney, Head of the Department of Home Economics be that of Professor of Nutrition and Sanitation. Motion was adopted. Mr. Brock retired.

It was brought out in this motion that this motion contemplates that Miss Sweeney's title as Head of the Department remains.

D. H. Peak, Business Agent, submitted the following report:

Lexington, Ky. March 21, 1917.

To President H. S. Barker and
the Executive Committee of
University of Kentucky.

Gentlemen:-

I submit the following report:

FINANCES.

The Financial report shows a surplus of \$2078.14, and a careful estimate of increased expenditures in University General make it apparent that the entire balance will be needed to meet the requirements of the budget and appropriations.

ORDNANCE BOND

The premium on the Ordnance Bond has been reduced to \$10.00. Before this can be completed, it will be necessary that you make an order authorizing it to be signed.

(The following order was then made).

"The Business Agent, D. H. Peak, having called attention of the Board to the fact that under a change of conditions as to the amount of Ordnance which the University holds from the United States, the War Department was willing to accept a bond for the return of the Ordnance conditioned in the sum of Five Thousand (\$5000) Dollars, and that this arrangement would save the University a yearly difference between fifty-two and fifty cents (\$52.50) paid on the former bond and ten dollars (\$10.00) required for the new bond. It was moved by Mr. Stoll, seconded by Mr. Brown and un-animously carried that the Business Agent, D. H. Peak, be and he is hereby directed to execute for and in the name of the University of Kentucky a bond conditioned in the sum of five thousand (\$5000) dollars, to be satisfactory to the War Department of the United States; said bond to be executed in duplicate, one copy of which is to be forwarded to the Quarter Master General and the other to be filed in the office of the Business Agent for future reference."

CONTRACT FOR UNIFORMS

Mr. Kaufman has asked the Commandant for a renewal of contract for uniforms of cadets, and he has referred the question to me. I think it proper that your Committee direct what shall be done.

(On motion the President and Business Agent were authorized to continue the contract to purchase uniforms at such price and terms as they deemed proper).

INSURANCE

The total inventory of contents of buildings is \$195236.87, belonging to the University and \$11865.25 left in care of the University at University buildings. The total valuation of buildings made by Professor Anderson is \$466100.00. Grand total on which co-insurance may be had \$673192.12. In addition to this the

President's dwelling and other property on which co-insurance may not be made are valued at \$4451.00.

If insured for \$500,000, the premium for five years will be \$13,500.

If insured for \$531,269.50, 80 per cent co-insurance clause, the premium will be \$11,177.94.

If insured for \$605,872.90, 90 per cent co-insurance clause, the premium will be \$11,954.23. The insurance must be taken out before April 1 in order to avoid increased rate.

(Mr. Brown moved that the Business Agent's recommendation be concurred in and that he be directed to have the University Buildings insured in accordance with a resolution passed by this body at its meeting Feb. 21, 1917 and that the said Business Agent be directed to amortize the premiums over the period covered by the insurance and that no more than \$100,000 be placed with any one agency. Seconded by Mr. Johnston, the motion carried by the following vote, Messrs. Nichols, Stoll, Johnston, and Brown voting aye.)

FIRE ESCAPE

I have given considerable time to the question of fire escapes at Patterson Hall, and have sought the advice of the State Fire Marshall whose recommendations I submit herewith. After consulting the Board of Supervisors of the Hall, and upon their advice, I am referring the question back to you for further consideration. The cost of such escape as suggested by the fire marshal will probably reach \$350.

(Mr. Brown moved that the Business Agent install such fire escape at Patterson Hall as will meet the approval of the State Fire Marshal and that the same be paid for out of funds belonging to Patterson Hall. Seconded by Mr. Johnston, the motion was adopted by the following vote, Messrs. Nichols, Johnston, Brown, and Stoll voting aye.)

Respectfully,

D. H. Peak, Bus. Agent.

The following reports were submitted by Deans Rowe, Miller and Anderson:

March 20, 1917.

To the Honorable Executive Committee,
University of Kentucky.

Gentlemen:-

The following order will be posted in the near future:

All freshmen and sophomore students in the College of Civil Engineering will go into camp for surveying and railroad work on June 2, 1917, for a period of two weeks.

Other students in the University having had surveying may be admitted to camp by special permission and by complying with all of the regulations prescribed for freshmen and sophomore Civil Engineering students.

Each student must deposit with the College of Civil Engineering the sum of \$10.00 for which students will receive proper space for lodging in tents, camp cot bed, and two weeks board. Students must pay their own transportation and furnish the necessary bedding.

All students concerned are hereby notified to shape their plans accordingly.

Very truly yours,

W. E. Rowe, Dean
College of Civil Eng.

March 21, 1917.

To the Executive Committee,
University of Kentucky.

Gentlemen:-

I hand you herewith, my monthly report pertaining to the College of Mechanical and Electrical Engineering.

The theoretical work for the senior mechanical and electrical engineers closed on the week of March 17. On March 19, we began the composite thesis, organizing the senior class into a modern designing office with a chief draftsman and time-keeper. We have provided a routing board and have started the men at once on the design

of new shops and laboratories for the University of Kentucky. This thesis will involve not only mechanical and electrical engineering designing, but will include architecture for the buildings will be designed by the members of the class.

I hand you herewith a blue print showing the recitation schedule of every matriculate in the department of mechanical and electrical engineering. You will observe that every man has a full quota of work.

The faculty of the College of Mechanical and Electrical Engineering meets regularly every week on Wednesday at twelve o'clock, and at this meeting we discuss any students who are not doing creditable work. We pay especial attention to any tardiness or absences. It is our purpose to see that every man attends strictly to his university schedule and if he is not willing to do this, we drop him from the rolls of the department.

We are continuing the course in English with the seniors at the first hour every morning until commencement time. We begin the work in the designing room on Monday, Tuesday, Thursday and Friday at nine o'clock, and continue to four thirty. Work on Wednesday we devote to Collateral Activities and theoretical and laboratory work in Photography.

Professor Farquhar, in charge of our senior English, has written a short play which will be presented by our seniors on the occasion of the Chicago Alumni dinner, April 14.

On Friday morning, February 23, two addresses were delivered by the senior mechanical and electrical engineers, one by Mr. J. C. W. Reith, in charge of the British inspection department in this country, and the other consisted of a reading by Mr. John Fox, Jr., from his short stories, "Hell for Sartain."

In the afternoon of the same day, Mr. Fielding Yest addressed the class and presented a very interesting set of maxims, applying football procedure to the game of life.

On Tuesday, February 27, Mr. Theodore Weinsbank, an eminent heating and ventilating engineer from the Warren Company of Camden, New Jersey, discussed before the seniors, the subject of Vacuum steam heating. After he had finished his technical presentation he gave to the class a dissertation on conditions in Russia, which in the light of what has happened since, was almost a prophetic utterance.

On Thursday, March 15, the senior class was addressed by Professor Herman Schneider, Dean of the Engineering College, University of Cincinnati. Mr. Schneider is an authority on the cooperative plan of education engineers. His address before the seniors was a study of the adaptability of men for specific engineering work.

Yours most respectfully,

F. Paul Anderson, Dean.

Dean Anderson's report was accompanied by a copy of the schedule of class work of students in the college of Mechanical and Electrical Engineering, which map could not be entered upon these minutes.

Dean Miller of the College of Arts and Science re-submitted the report made at the February meeting of this Board and entered upon the minutes of that meeting with the following changes affecting certain salaries and supplies:

Salaries:	Education Professor	\$1500	
	Professor Dantzler	100	raise
	" Farquhar	100	"
	" Weaver	100	"
	" Butt	100	"
	" Daniels	100	"
Supplies:			
	Repair on heating plant for Physics	170	"
	Physiology Budget \$160.00	97.	"
	Mathematics	170.00-	\$85. increase
	History	300.00	raise-\$150
	will be returned from sale of syllabus to students.		
	Ancient Language	150.00	135. raise

On motion the meeting adjourned.

Respectfully,

(Signed) Enoch Grehan
Secretary
