NEW SERIES, NUMBER 60

VANDERBILT NINE TO OPPOSE 'CATS ON STOLL FIELD

Wildcats Are Confident of Winning Two-Game Series From Commodore Nine

FARRELL OR McBRAYER TO PITCH FOR 'CATS

Big Blue Split Series With Vanderbilt Nine Last Week at Nashville

After returning from a disastrous trip into the south, Kentucky's baseball machine will attempt a comeback when they meet Vanderbilt on Stoll field this afternoon in a two-game series. The Cats previously met Vanderbilt in two games and divided the series.

Coch Devereux has had his boys out on the diamond every day since their return, and all appearances they are in good shape. Wednesday afternoon the Blue and White sluggers spent their time in hitting curve ball pitching, as this seemed to be their chief weakness this season. Saturday at Alabama and Mississippi A. & M. especially when they had men on base.

Up to date, Kentucky hasn't shown any signs of championship caliber, but if they succeed in getting these next three games on their schedule they can fairly well expect their season successful.

Coch Devereux announced that he will start either Farrell or McBrayer on the mound, with Captain Barnes behind the plate today's game. McBrayer has been pitching good ball, but has not been getting the support from his infield that he should. Incidentally "Mac" won his first Southern Conference baseball game in his four years in college when he set the Crimson T-7 of Alabama back by the score of 7 to 0 at Alabama's week ago.

Council Elections

Annual elections of representatives to the Men's Student Council will be held Wednesday and Friday, May 13 and 15, according to an announcement released yesterday by an officer of the council.

SUMMER SESSION PLANS RELEASED

More Than 1,500 Students Are Expected to Attend Two Terms During June, July, and August

More than 1,500 persons are expected to attend the two terms of the Summer Session which will be held at the University during June, July, and August according to Dean W. B. Taylor, director of the summer session.

Conditions for the summer session will be similar to those of the regular term. The University Communes will be held at the same time and place as those which prevail during regular terms.

The residence halls for men and women will be opened and arrangements for rooms there may be made by the first of June. Rent in the men's dormitories will be from \$12.50 to \$17.50 a term. The University Communes will be held at the same time and place as those which prevail during regular terms.

Chi Delta Phi

Members of Chi Delta Phi, national honorary literary sorority, are urged to attend an important meeting to be held Sunday at 4 o'clock, at the home of Miss Nancy Duke Lewis, West Sixth street. Reorganization and plans for next year will be discussed, and new officers will be elected. Members of the sorority, not affiliated with Xi chapter who have attended other schools are also invited to attend.

History of Mother's Day Reveals That Custom is Only 17 Years Old

By GILBERT KINGSBURY

Sunday is Mother's Day. Probably no many realize that the commemoration of this day has reached all parts of the world in the short space of 17 years. Not many know that Uncle Sam's mail clerks made special preparations to handle the rush of mail that is certain to arrive within the few days before the second Sunday in May. Few are aware of the fact that manufacturers make plans in December for the increased volume of business that their factories will handle on Mother's Day. In fact very little is generally known of the origin of the holiday and its history throughout North and South America.

Curtain to Rise on Stroller Revue of '31 Monday Night

Tickets for Show Are on Sale at Stores and at Various Points on Campus

The Stroller Revue of 1931 will be given its presentation Monday night at the Woodland auditorium with curtain at 8:30 o'clock. This is the first production of its kind in university history.

The Stroller Revue is composed of chorus numbers, music, songs, comedy sketches, specialties and novelties as are all standard productions of this type. There is no plot, and the show is presented "for entertaining purposes only," according to the production staff.

Two Committees Named to Arrange for Lexington Day

Board of Commerce to Invite Citizens to Visit University May 28

Two committees to make the final arrangements for Lexington Day will be held May 28, have been appointed, and work will be worked out within a few days.

Colorful Carnival Ball Tonight Will Mark Close of Annual Engineers' Day Program

By DANIEL W. GOODMAN

Throwing away all cares and woes in effort to attain the goddess of carnival, literally leaping up into a colorful galaxy, to glide with overwhelming technicians through nocturnal and enigmatic diversion, the members of University of Kentucky tonight will assemble in the Men's gymnasium to witness the close of the year's most successful carnival ball in the history of the institution. Masqued and costumed in harmony with the occasion, the engineers and their guests will gather at 9 o'clock and dancing to the rhythmic strains of the Rhythm Kings and the Mambo quadrer orchestras, will while away their time until the wee hour of 1, Saturday morning.

PHI BETA KAPPA ANNOUNCES FIVE NEW MEMBERS

Honorary Fraternity Admits Two Men and Three Women Students

Annual Banquet, Initiation Services Will Be Held May 5

Phi Beta Kappa is known as the premier Greek letter fraternity. Its first chapter was established at William and Mary College. There are now 114 chapters throughout the world.

The mother chapter at William and Mary became extinct during the Civil War but since then has flourished as the Phi Beta Kappa.

STROLLER REVUE
 Few students at the university other than those who actually are participating in the forthcoming Stroller Revue of 1931 are aware of the labor which is required to produce a student entertainment of this kind. Members of and aspirants for membership in Strollers have been devoting the major portion of their spare time to the revue and their efforts will be judged by the remainder of the student body at Woodland auditorium Monday evening. The kernel believes that every student should attend the revue, not only because it is produced by undergraduates at the university but because it will be one of the best shows of its kind which has ever been presented in Lexington.

With the introduction of student written productions Strollers last year became definitely a ranking modern collegiate dramatic organization. As in the very successful "Home Talent" students are responsible for every phase of production of the revue this year. The fact that those who have seen the entertainment in rehearsal are instilling in their praise it connotes ability and originality on the part of the producers. Most commendable feature are the directors of the revue, those who have forgotten nothing which will add in making it the stage highlight of the university season.

It is natural that the revue type of entertainment will be much more popular with a student audience than would vespertine drama, and knowing the likes and dislikes of their associates the directors of the forthcoming production have embodied everything that will entertain students. Appearing in the revue are undergraduates who have achieved campus fame in the past for excellent directing, acting, singing and dancing. With extensive talented material and with able and original direction can fall to please even an audience of hypercritical collegeans. The kernel congratulates the organization for its initiative in producing the Stroller Revue of 1931 and urges every student who possibly can attend the entertainment to do so. Recognition commensurate with the value of a student activity would be a different and desirable failure of university life.

STAY IN SCHOOL
 During our participation in the World War when many industrial plants were working overtime to keep up with war orders, we heard the principal of one of the high schools of Akron, Ohio, ask a conference of educators this question: "What can I say to my boys that will keep them in high school when they are offered sixteen dollars a day for working in an automobile tire factory?"

What do you say now? Could he present the ultimate value of a high school education so effectively as to offset the present value of the high wage offered his boys? You will agree that he and all other principals at that time had a real difficulty under those conditions in keeping boys in school.

When wages are high it may be a question whether one should continue his education or work to earn money.

In a time like this, when economic conditions all over the country are difficult, when wages are low, when there is much unemployment, conditions are reversed and it pays best to devote one's time to earning credits in high school.

A boy or girl who has good health and a good mind, who has completed high school, should be able to find enough work of various sorts in the college neighborhood to meet necessary expenses.

There will be friendly souls on the faculty and in the community. Thousands of influential citizens can testify to this from their own college experience. What has been done, can be done.

Another point, the young man or woman who stays out of college and holds a regular job may be forcing a married man out of work. His wife and children are absolutely dependent upon that very income which the younger person does not really need.

Parents, teachers, ministers, friends, will do well to advise young folks to "stay in school" this year. Credits can be earned more economically than at any time for a decade. When times improve, the young people can take jobs if they wish at higher wages than at present and they will then have, moreover, the additional educational work to their credit.

Bad as the war was from many standpoints, it did give an impetus to education. The soldiers saw that their officers were mostly college-trained men. Those who came back sought more education for themselves. Those who made the supreme sacrifice had done their bit for education because their letters home bade their younger brothers and sisters: "Stay in School!"

An economic depression always injures the highest interests of the country. Education suffers with the church. But the school and the church are building for the future and whatever hurts them in the present hurts the whole country in the future.

Every boy and girl in school, every young man or woman in college this winter, is first of all, helping himself or herself to the best possible advantage right now.

Secondly, those in school or college are building most assuredly for the future of their country. The boy of today is the citizen of tomorrow. Stay in school!—Wendell S. Brooks, Ph. D., president International Union College, Helena, Montana.—Selected Editorial Service.

MOTHER
 Mother, to a child is a dear guardian, a lovely lady who sews buttons on pants, who makes good bread and jam, who speaks, who smiles, who cuddles him in her arms when he is hurt, who loves him, prays for him, and is the base on which he stands, and grows, and lives.

Mother, to the youth is a joyful companion, an intuitive judge of right and wrong, a good wife to his father, a sincere woman, an untiring slave-creature urged through her hymenopteran endeavors by an unconscious desire, working her life away for his happiness, peace, and contentment.

Mother, to a grown man resurrects a series of remembrances, incidents, perhaps, still pictures of love framed inside the corporeal semblance of an old woman, a rocking chair, a shaggy shawl, gray hair, and eyes, silent yet radiating with an unquenchable spirit and a beatific soul.

Mother, to the world is an engraven panegyric chiseled in a precipitous mountain side, a gigantic image without face, without hands, without motivated appeal, whose pleated stone garment falls in enormous folds and faces at last into the smooth surface of the rock; an everlasting monument to man's best friend, his light, his guide, his love; a stately, crownless impression offering no tangible picture, only an encompassment of infinite and indefinable softness.

This mountain side, this image, stands far from the pathways of the world. There is no approach. The world passes by, once a year to genuflect before its majesty. A flood of sunlight luminates its surface. It is warm. The earth below waves its flowered hands in homage. The figure does not move. The spirit of the figure only feels.

PROFS AND THEIR GRADES
 "The best professors give the highest grades and the poorest ones give the lowest ones," is the startling statement of Walter Dill Scott, president of Northwestern University after a recent investigation of the grades given by both the instructors of his college who are recommended for promotion and by those who are being dropped from the payroll.

The explanation for this fact is obvious. The best professor gives the best grades because he is able to dismiss grades entirely from his own and his students' minds. The teacher who can instill the desire for mastery of his subjects, who can present his subject clearly and completely, and who can get his main points across without a ten-minute quiz every twenty days, and in an unobtrusive way, the intelligence quota hypothesis or an irregular way, is the best teacher. He is a prophet of the college of the future which embraces the theory that grading of a student's work is the greatest detriment to good work.

If a professor so interests a student in the course that he forgets the grades, it is inevitable that the student will do more work and will receive a better grade.

Another reason may also influence the giving of better grades. The expert instructor is also an expert psychologist and knows that good grades encourage the student to greater attainment. If he gives a good grade for fair work at the first of his course, the student will usually strive to achieve superior grades, and in the end will be worth a superior grade.

Whether the best teacher obtains his good results through his presentation of the subject or through his understanding of his students is not it is enough to say that the best professor gives the best grades, and that the stern-browed distributor of D's and E's doesn't amount to much.

MATHEMATICAL MEETING
 On behalf of the University of Kentucky, The Kernel extends a cordial welcome to representatives from the colleges throughout the state who will attend the convention of the Kentucky branch of the American Mathematical Association here Saturday. It is with a great deal of pleasure that students and authorities play the part of hosts to representatives from other educational institutions of Kentucky and it cannot but be a source of pride that the university is chosen so often for gatherings of this kind.

Representatives to the convention will have their headquarters in McVey hall and will be entertained at luncheon at the University Commons. A complete program has been planned for the delegates and, judging from the arrangements which have been made, progressive and worthwhile results will emanate from the meeting at the university tomorrow.

Someone always starts the Engineers' Ball by rolling.

Four years of college at least makes you think where the money's going to come from when you get out.

War is just a form of self-expression on a big scale.

Making a name for yourself is entirely unnecessary after all the fond uncles and aunts make their suggestions.

A Pullman berth is a device for making a whip out of your spine.

The worst part of being a freshman is to know that you still have to be a sophomore.

The little things in life are what make us wish there were no smaller insects than dogs.

Maybe the path to success is a bed of roses, but it often looks shiny.

Even a lot of clever faces eventually go to the dogs.

Home is where you can eat soup in E minor, and get away with it.

Birth-control may have its good points, but death-control over some people would suit us just right.

ENGINEERS' DAY
 Today and tonight will mark the annual Engineer's Day and Carnival Ball at the university. Visitors will visit the shops and buildings of the Engineering College this afternoon and special demonstrations and exhibits will be held. It is the hope of the dean of the college and his associates that the program of the day will promote a feeling of interest and goodwill on the part of visitors who take advantage of this opportunity to see the actual work which is being done in the Engineering College. Students will act as guides for guests of the day and every effort will be made to give those who are present a more enlightened viewpoint of the functioning of the College of Engineering.

Following the program of the afternoon the Carnival Ball will be given in the Men's gymnasium from 9 until 1 o'clock. Every year this entertainment has been the most outstanding belief of the directors that the ball this year will eclipse even those which have been held in the past. More guests are present at the affair annually than at any other university school function, many visitors from other schools journeying to Lexington for the event.

It is entirely fitting that the Engineers' Ball should be the most outstanding dance of the year, on the whole, students in the College of Engineering entertain less frequently than do the undergraduates in other colleges of the university. As usual, elaborate preparations have been made for the affair and no effort has been spared which will tend to make the occasion the most enjoyable of the year.

Police were called upon recently to break up a fight between four hundred freshmen and sophomore women on the campus of Ohio Wesleyan University. The freshmen refused to wear berets and the sophomores tried to enforce the regulations. The fighting was characterized by hair pulling, scratching, biting and even stinking. One was seriously hurt before the public could quiet the combatants.

NEW TRAFFIC RULES
 New traffic rules applying to Limestone street recently have been put into effect by city authorities. Students at the university should observe every precaution in obeying the new regulations, as undergraduates generally have obtained reputations for being careless and unheeding. The new regulations prevent parking on the west side of South Limestone and permit turning right on a red light if one is on the inside lane of traffic. Signs have been placed along the street which clearly indicate what can and what cannot be done by the motorist. Effective enforcement of the regulations is planned and The Kernel hopes that students will not be found violating the rules. Most of the student traffic passes over South Limestone and almost all student drivers will be affected by the new ordinance.

FINAL CURTAIN
 With the presentation, this week of "Holiday," the final curtain is drawn on the 1930-31 season of the Guilford theater which has included five regular productions and one intra-schedule offering. The season, as a whole, was received enthusiastically by students and townspeople.

The Guilford has provided the only spoken drama this year in Lexington at the campus. This accomplishment is, in itself, a signal triumph.

Plays with an unusually wide scope of appeal composed the list. Comedy, drama, tragedy—all were presented in an atmosphere of culture and refinement by polished casts and careful production. Each play was distinctive. Each cast was unique. Each situation was marked with finesse.

JEST AMONG US
 The worst part of being a freshman is to know that you still have to be a sophomore.

The little things in life are what make us wish there were no smaller insects than dogs.

Maybe the path to success is a bed of roses, but it often looks shiny.

Even a lot of clever faces eventually go to the dogs.

Home is where you can eat soup in E minor, and get away with it.

Birth-control may have its good points, but death-control over some people would suit us just right.

LIBRARY FILM IS GIVEN BY SCHOOL
 Reel Presented at University of Denver Is Intended to Introduce Students to Book-Finding Procedure

"Romance of the Library," motion picture taken on the University of Denver campus in August of 1928 by F. F. Clatworthy, Jr., and Professor Linda M. Clatworthy, has attracted the attention of many schools and universities throughout the United States, according to the letters received here by the librarian.

This film was made to introduce to new students the library procedure in any standard library. The aim is to make each student an expert in finding available material and also to make each student feel his responsibility in keeping the library in order.

The film is ten minutes long. It shows the university campus to a considerable advantage. This feature also has been attractive to other schools who have viewed the film.

Schools using this film, which was but an experiment of Professor Clatworthy, include high schools, colleges, universities, Indian schools, library civic clubs, and state library clubs.

The publishers of the Magazine Index have recently written to Professor Clatworthy concerning making a commercial film which would depict library procedure and could be sold to schools conducting such instruction.

The scenario of this film was written by A. Beatrice Young. Students attending the university took the part. According to Professor Clatworthy, the film has some comedy in it which makes it more interesting to the average freshman student.—Denver Clarion.

TAYLOR WILL SPEAK
 Dean W. S. Taylor of the College of Education has been asked to deliver commencement addresses to eight high schools in Kentucky during the month of May. The schools and the dates on which he will make the addresses are as follows: May 7, Russell Springs; May 14, Cannonsburg; May 15, Butler; May 18 Olive Hill; May 19, Grayson; May 21, Columbia; May 22, Midway; and May 26, Lebanon.

HONOR CO-ED
 The place of honor in the University of Wyoming year book this year will go to Miss Peggy Simpson, of Walden, Colo., freshman member of Kappa Kappa Gamma sorority. Miss Simpson was chosen by fraternity men at the University of Virginia from 25 photographs of these young women which were sent to Virginia for judging.

Many a student can attribute his start in life to the alarm clock.

"The University's First Revue"

HOWLING Comedy!
RHYTHMIC Music!
UNIQUE Novelty!
IRRIDESCENT Color!
FASCINATING Dances!
HAUNTING Melodies!

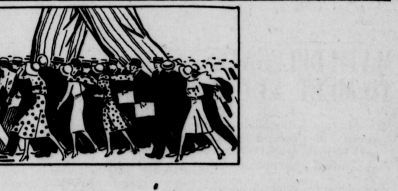

These, and more, are provided for your entertainment by the greatest cast ever assembled for a university production—the Stroller Revue of 1931. Only in this merry, mad, musical mélange of showcraft will you find such sterling entertainment! You cannot afford to miss it!

FATE TEASES

Fate held a bubble before my eyes.
A gorgeous thing in a worldly guise.
But you know how neckie Fate can be.
And how he could laugh at silly me.
And burst up my bubble and prove
false too.
Even the friends that I thought true
still cry.
And now I just laugh, but my heart
still cries.
I want no more bubbles before my eyes!

CALENDAR

Friday, May 8:
Engineer's Day, ending with the Ball from 9 to 11 o'clock in the evening at the Men's gymnasium.
Sigma Xi banquet, at 6:30 o'clock at the Lafayette hotel.
Tennis and baseball matches in the afternoon on the campus.
Y. M. C. A. and Y. W. C. A. spring

FRATERNITY ROW

Mrs. T. H. Halley, Cincinnati, spent the week with her daughter, Miss Mary Virginia Halley.
Miss Edythe Reynolds spent last week-end at her home in August. Mr. Bruce Daley has been visiting at the Delta Tau Delta house.
Miss Edythe Reynolds, Louisville, spent last week-end at the Delta Zeta house.

Delta Zeta sorority was at home informally yesterday afternoon at the chapter house in honor of some of the high school girls of Lexington.
Miss Lucille Garth, Trenton, was a week-end guest at the Alpha Gamma Delta house.

Messrs. Malcolm Barnes, Charles Struble, Elsworth Jennings and William Dixon spent the week-end in Oxford, Ohio, where they attended the opening of the new Phi Kappa Tau house of Miami University.
Messrs. William Erwin, Frankford, Charles Lovell, Danville; John Hardin, Danville; and Fred Gabbard, Pineville.

Theta Sigma Phi party
Misses Frances Holiday and Edna Smith entertained the members and pledges of Theta Sigma Phi at a party on Thursday night at the home of Miss Holiday on Park avenue. Five tables of bridge were in play.

The house was attractively decorated with lilies of the valley, tulips and other spring flowers. The hostesses served delicious refreshments.
At 9:30, Misses Mary Alice Salzer and Juliet Galloway were pledged to the fraternity. Miss Edythe Hardin is also a pledge. These girls will be initiated the first of the week.

Other guests besides the active members and pledges included: Mrs. Enoch Grehn, Mrs. Victor Portmann, Mrs. Gerald Hill, Mrs. Reid P. Meacham, Mrs. Frank Murray, Misses Virginia Boyd, Marjorie McLaughlin, Margaret Tressy and the three honorary sopherom members, Misses Alice Bruner, Mary Elizabeth Price, and Eleanor Dawson.

Guignol party
Miss Katherine Davis entertained the members of the cast of "Guignol" play, with a buffet supper at midnight on Wednesday at her home on Boonesboro avenue. The decorations were tulips and other beautiful spring flowers, and a delicious menu was served.

Mr. and Mrs. R. W. Davis assisted Miss Davis in entertaining the following guests:
Mr. and Mrs. L. C. Robinson, Mr. Frank Fowler, Mr. and Mrs. William Pettit, Misses Virginia McVey, Virginia Boyd, Leonora Alice Row, Christine Johnson, Annette Newlin, Messrs. W. S. Morgan, Julian Leffler, G. L. Crichton, Morton Healy, Duke Johnston, Douglas, Niel Cain, Woodson Knight, Hugh McGuire, and Andrew Hoover.

Treasure Hunt
Delta Zeta sorority entertained yesterday afternoon with a Treasure Hunt in honor of the university girls and girls who will graduate from the University High school and Henry Clay high school this year.
After the hunt, which took the guests to many parts of the city, they returned to the chapter house for tea.

The members of Delta, Zeta are Misses Katherine and Martha Canty, Louise Schmitt, Florence Ryan, Virginia Collins, Mary Hopper Laytham, Gayle Elliott, Nancy Kinchloe, Helen Terry, Dorothy Compton, Virginia Mills, and Pauline Fitzpatrick.
Pledges are Misses Sara Bethel, Mary Wieman, Maurice Terrell and Ida Mae Shearer.

McVey Tea
Dr. and Mrs. Frank L. McVey welcomed faculty, students and alumni of the University of Kentucky for tea Wednesday afternoon at Maxwell place.
The members of Alma Magna Mater club, who were special guests for tea, held a meeting at five o'clock.

Mrs. D. A. Sherrill presided at the tea table, and was assisted in serving by the following girls: Misses Justine White, Mildred Shute, Stella Mae Ison, Flossie Minter, Buena Mathis and Mrs. Ben Spear. The house and tea table were attractive with tulips and panes.

Delta Sigma Phi, international professional, commerce fraternity, entertained Saturday evening with a dinner dance in the ballroom of the Phoenix hotel, in honor of the new members of the fraternity who were initiated Saturday afternoon.
The tables were arranged in night club fashion and were decorated with spring flowers and candles. Music was furnished by the Kentucky Ramblers.

The guests of honor, the new members, were: Messrs. John Bertram, Harold Bredwell, Ansel Crady, Paul Howard, Harry Lair, Forest Marquis, William Marshall, Elmer Neuman, Bernard Spelman, C. M. Stephenson, and Earl Surgener.
The active members attending, hosts for the evening, were: Messrs. Ben Stapleton, John M. Jones, William Henry Young, S. H. Downs, R. J. Edwards, August Gresham, Walter Hardyman, Thornton Helm, Albert J. Kikel, James Luckett, Robert McVay, Edward McLean, R. R. Phillippi, Eugene Royse, George Stewart, James Todd, Eugene Wilson.

Alumni members attending the dinner and dance were: Ross Adams, Gus Carpenter, Jack McGurk, Leroy Miles, Carlisle Scheu-meyer, Forest Dalton, Preston Berry, and John Epps.
Other guests of the evening were: Misses Virginia Young, Julia Webb, Ruth Storey, Bettie Davis, Mary Adair, Grace Hughes, Bettie Board, Amelia Ligon, Mary Lou Renaker, Jane Vaughan, Gertrude Black, Mary King, Montgomery, Virginia Whithead, Kitty Drury, Hilda Cooper, Carleen Grant, Virginia Boyd, Irma Price, Charlotte Herx, Dorothy Kelly, Martha Lowy, Eunice Jane Deaton, Virginia Lory,

Kursed Korns Kause Kollegiate Kids Konsiderable Konsteration

By A. A. DAUGHERTY

Corns, bunions, and ingrown toenails are far more distressing to University of Kentucky students than is athlete's foot, the national evil, a visit to the dispensary disclosed.
Sufferers from the "tiny white ring" will sorely average one in the list of approximately 1,900 persons receiving treatment every month, and it has been so long since any one of the athletes proper appeared at training quarters with the dread malady that "the memory of Mann" runneth to the contrary.

On the other hand—or rather foot—therapy of callous indurations on the epidermis of the pollex great toe is commonplace. Some of the podagra cases are emergency ones brought on by patients' inability to dodge the clumsy bipeds walking through the corridor-waiting room.
As the laconic Miss—would like to break down and comment, "It is difficult to walk the gait without treading on a few of the acromegolous 'dogg' sprawling there."

Men seeking treatment at the dispensary outnumber two to one, the women appearing there. This is not due solely to the greater number of men enrolled, but partly to the fact that many of the women receive medication from the nurse in Patterson hall.
Retiring officers are Paul Averitt, president; Morris Farber, vice-president; William Haller, secretary-treasurer and D. M. Young, editor.
The annual chapter outing is planned for May 31 at Boonesboro beach. The traditional baseball game between the faculty and seniors will be played as part of the day's program. The rest of the program consists of swimming and a dinner at the Boonesboro hotel.

Four hundred New York girls paraded before Florenz Ziegfeld, recently, but he found only two beautiful enough for his next follies. Has he never heard of Kentucky?

POINTERS GIVEN BY BOBBY JONES

Expert Says Easiest Way to Play Better Golf is to Simplify and Understand Shots Attempted

The simplest way to play better golf is to simplify and understand the ease and comfort with which better shots can be executed, according to Bobby Jones, the Atlanta wizard of pitch and putt.
Bobby learned his golf from Stewart Maiden, the caddy Caranostie Scot who recognized in the then six-year-old youngster, a potential champion; and while Bobby's first club was a discarded creak, his golfing education really started on the putting green.

Maiden, who also started Miss Glennia Collett on her brilliant career, has always been a firm believer in the simplest of fundamentals and, always, comfort and understanding. Maiden has found, through his more than 50 years of instructing, that the easiest place to start building a golf stroke is at the bottom and with the club requiring the shortest possible swing.
It naturally follows that Maiden's first work would be with a putter and to "Calamity Jane," his faithful greens bludgeon. Bobby now gives all due credit. Bobby spends much time practicing with his putter. Results have been very gratifying.

In his first picture, Bobby explains why he has adopted his much discussed grip. He proves conclusively that the grip is conducive to wrist freedom and flexibility and shows why the grip permits the left hand to take the club head back from the ball with absolutely no trace of lift or irregularity in regulating the length of the back swing and the effortless follow through that combine to spell putting success. Bobby's left forefinger rides on top of the small finger on his right hand in the putting grip and both thumbs point directly down the shaft. His feet are placed close together, conducive to greater control, Bobby claims as he asks you to try out this grip.

Mortar Board Holds Election of Officers

Miss Edythe Reynolds Chosen President of Women's Honorary

Edythe Reynolds, Augusta junior in the College of Arts and Sciences, and a member of Chi Omega social sorority, was elected president of Mortar Board, senior honorary fraternity for women, at a meeting of the old and new members, Tuesday night at Patterson hall.
Miss Reynolds succeeds Miss Mary Virginia Halley as president.

Other officers who were elected from the new group are Emily Hardin, vice-president; Eleanor Smith, secretary; Mary Elizabeth Fisher, treasurer; and Mary Alice Salzers, historian. Other outgoing officers are Nancy Scroggum, vice-president; Katherine Phelps, secretary; Buena Mathis, treasurer; and Mae Bryant, historian.

Plans for next year were discussed at the meeting.

ductive to wrist freedom and flexibility and shows why the grip permits the left hand to take the club head back from the ball with absolutely no trace of lift or irregularity in regulating the length of the back swing and the effortless follow through that combine to spell putting success. Bobby's left forefinger rides on top of the small finger on his right hand in the putting grip and both thumbs point directly down the shaft. Mother
Because I feel that in the Heavens above,
The angels, whispering to one another,
Can find, among their burning terms of love,
None so devotional as that of "Mother."

—Poe.

Next Sunday, May 10, will be nationally observed as Mother's Day. Remember Mother on her day—take along a box of Nunnally's Candy—the sweetest gift.

Teacher: "What a famous man said."

"Don't give up the ship?"
Johnny: "I never can remember that Scotchman's name."

Lecturer: "As I gaze about, I see before me a great many bright and shining faces."
Just then eighty-seven powder puffs came out.

Which reminds us of Armand's new S y m p h o n i c Face Powder, that actually blends in with the natural complexion and only one shade for all occasions. We really the only thing new in face powder since its invention.

That looks like a water wagon and runs like a steam roller.

"According to the 'Prof' in Economics, prosperity is that period when we run up bills that worry us during a depression.

Every picture tells a story . . . an Anso Box Camera and several rolls of films will record the story of your vacation or the visit back home, or Junior's first outing, vividly for future reference . . . we have one for a dollar fifty that gets every picture.

Geology Fraternity Elects 1931 Officers

Herbert Parker, Lexington, was elected president of Chi chapter of Sigma Gamma Epsilon, national honorary geology, mining, metallurgy and ceramics fraternity, Wednesday night at the last meeting of the fraternity for this year. Other officers elected were William G. Haug, Henderson, vice-president; G. R. Gerhardt, Augusta, secretary-treasurer; and Joseph H. Mills, Lexington, editor.
Retiring officers are Paul Averitt, president; Morris Farber, vice-president; William Haller, secretary-treasurer and D. M. Young, editor.
The annual chapter outing is planned for May 31 at Boonesboro beach. The traditional baseball game between the faculty and seniors will be played as part of the day's program. The rest of the program consists of swimming and a dinner at the Boonesboro hotel.

Sneers Snickers Scandal

By WILLIAM ARDERY

Students from the high schools had finished achievement tests which were given at Centre College. One of the home town youths, whose father is the owner of the illustrious Tannery, received one of the awards. As President Turk, opponent of pari-mutuals and strong adversary of gambling in general—as the worthy president handed him the \$45 the young man thanked him and told him that he would bet it on Tannery.

Stroller Revue of 1931

Ordinary Occurrences
It occurs to us that the wild onions have not yet sprouted in the S. A. E. front yard—the persons we saw working on the yard in early morning (who said they were sowing seeds, must have been Kappas and 3dets, wearing men's clothes and attempting to repay the gentleman for their many kindnesses by tilling their ground for them... that the student who does not see the Stroller show is missing an excellent entertainment opportunity... that we would like to see the person who said we were "no more amusing than a K. A. meeting" at Chi Omega"... that in the Cottage ago someone at the next table said "Artery—of course he doesn't like the Kappas, one of them took him for a ride"... that the Engineer's Ball will be as crowded as the S. A. E. house after pledge week... that the sort of poetry we like is that which rhymes "agalin" with "swain"... that the Alifangs go for us in a big way—all except the Alifangs.

The Engineers Entertain
It has always seemed to us that it would be a truly excellent idea

for the men of blackened brows to charge two or three iron fans for their party, have a big time band and a tea dance in the afternoon. In other schools there is really one huge dance which is really worthwhile—we wish it were so here.

Stroller Revue of 1931

Military Department Uses New Ceremony

For the first time at this post, the alternate ceremony was held in lieu of the regular ceremony for battalion and regimental parades when the first battalion of the R. O. T. C. regiment passed in review yesterday afternoon. The alternate ceremony differs from the regular in that company commanders, officers second in command of companies, platoon commanders and guidon bearers close to the front at the command, "Officers, Center." The remainder of the review is carried out in the usual manner. Under the direction of William Saunders, captain in command, the Pershing Rifles unit appeared in an intricate drill exercise. Cadet Major Austin M. Henderson is in command of the first battalion.

Prof. Frank Murray To Aid in Restatement

Prof. Frank Murray, of the College of Law, will compile the Kentucky annotations to the laws of contacts in the general restatement undertaken by the American Law Institute. The Kentucky Bar Association meeting which was held recently at Somerset voted to assist in the restatement and to bear any clerical expense connected with this work on the state laws. Professor Murray probably will be engaged in the annotating work for at least a year. The national institute convened May 6 in Washington. Dean Alvin E. Evans, College of Law is to be among those attending.

COURSES IN LEISURE!

The New York University school of education has inaugurated a course in leisure time for students from 16 to 30. The purpose is to show the average man the many creative things he can do during his spare time.

Department of Art Issues Pamphlet on Work of Staff

The department of art at the university recently has issued an attractive pamphlet describing the work which the members of its staff are doing and explaining the work and the accomplishment of the department.

The pamphlet: "The department of art at the University of Kentucky is one of the well equipped and capably staffed schools of art in the South. Exhibitions are held in drawing and painting are held in well lighted studios under the instruction of competent artists. Classes in design are also adequately provided for, with facilities for professional treatment of this useful subject. Supplementing these two fields of actual practice there are thorough courses in the history and appreciation of art which have the advantage of an excellent art library with 1,100 volumes, 3,200 photographs and lantern slides covering all important periods in the history of art. Exhibitions are held regularly each season. Important exhibitions during the year 1930-31 included one large and representative group of "Contemporary American Paintings" and exhibition of the best contemporary paintings in the country; drawings and lithographs; drawings and paintings by Elmer Forsberg, Chicago artist; and numerous other displays and representative works in full color. Apart from the J. B. Speed Memorial Museum in Louisville, the University of Kentucky is one of the few organizations bringing exhibitions of museum quality into the state of Kentucky. They are of incalculable value to the student of art as they bring him into direct and actual contact with some of the most representative art of this country today. Paintings and etchings by students of the department of art, are exhibited each year in successful

competition with the work of professional artists. Exhibition of student work held at the College Art Association in New York this year a painting carried off first honors. Arrangements are being made to exhibit etchings and drawings in high schools of Kentucky during the coming school year. Through the very real contact with art that comes from actually doing the thing rather than reading or talking about it the student develops the kind of judgment and taste one needs in such practical problems as the selection and framing of pictures. Standards in art are high in proportion to the number of those who know what to look for and insist upon it.

The department of art is housed with the department of music and the Little Theater, in the Art Center—an attractive building suited to the special needs of these departments. All of which present their subject in a thoroughly professional way. As a result of this serious and selected young graduates of the university are prepared to uphold the fine traditions of Kentucky in every community it judged. They become a part of the best in art and demands it, whether it be an individual thing, a home or whether it be some civic enterprise like the erection of a monument or memorial. In both cases their judgment and taste become a community asset.

The Department of Art at the University of Kentucky will welcome inquiries about its exhibitions, art reference material, courses offered and also information as to the opportunities and requirements for professional work in various fields of art.

GREEKS DRINKING HAS DECREASED

E. R. Murrow, former President of Student Body at the Washington State College Gives Opinion on Prohibition

E. R. Murrow, former president of the student body at the Washington State College and now member of the National Student Federation of America, addressed members of the Senior Assembly Monday. Murrow has visited 250 colleges and universities throughout the Orient, Europe and the United States. The N. S. F. A. was founded six years ago on a budget of \$85,000. There are 11 members of the Federation who aim to make a better understanding between world peace. It aims at developing the interest of university students from their own localities and removing campus consciousness.

According to Murrow, the first student government was formed in Bologna. It provided that no professor was to leave the campus without the permission of the student body. In giving his opinion on Prohibition, Murrow said "I am absolutely certain that there is less drinking in college fraternities in America than in any other type of American organization."

The N. S. F. A. sponsors the International debating teams which visit the United States each year. The aim is to meet and to know representative America and Foreign students. Next year two students from the University of Angora, in Turkey will visit the United States. In addition, according to Murrow, the N. S. F. A. conducts semi-monthly broadcasts introducing leaders in all fields of learning to students. This year Tagore, Einstein and Wilbur were among the speakers presented.

In conclusion, Murrow stated that European students are looking toward American students for the future. At present they are being developed by the jealousies and hatreds of tradition.—Denver Clarion.

Chicago Professor Speaks at Meeting Of Pi Mu Epsilon

Mrs. Mayme I. Logsdon, associate professor of mathematics at the University of Chicago, and formerly of Elizabethtown, spoke to the members of Pi Mu Epsilon and their guests at their regular meeting Thursday afternoon on "Something about the Methods and Results of Algebraic Geometry." She is an authority in this field of mathematics which has been developed by the Italians. After Mrs. Logsdon's address initiation was held for W. E. Allison, Elizabeth Napier, and Mary Allison Threlkeld, students in the department who were recent inductees to membership. A banquet in honor of Mrs. Logsdon and the new initiates was given last night at the Chalmers Hotel. Dr. H. Downing, president of Pi Mu Epsilon, presided as toastmaster. Other meetings of the organization will be held each Thursday afternoon at 4 o'clock in room 109. Meetings will consist of reviews of these will be given by the candidates for advanced degrees in mathematics. They are W. E. Allison, Alice Lemons, and Lydia R. Fischer.

Looking Over The Magazines

By NICHOLAS WINN WILLIAMS

Foreign authors visiting our shores are prone to take a little dig ever so often at our institutions. To which Americans throw up their hands in horror as if they were beyond reproach. Now Mr. J. B. Priestly has been visiting us (and taking little stabs at which the public cries loud and loud in protest. Unfortunately, as someone pointed out, we have merely read the news story and have not heard the tone of the man's voice. And this certainly makes a difference. There is no mistaking about the tone of Mr. Priestly in his contribution to the April BOOKMAN in which he asks the question "Are Authors Human Beings?" He answers rather glumly, and no doubt truthfully, "Hardly, I think." Yet one expects nearly anything of this man. Priestly who seems to have the knack of saying the unexpected. Americans, it has been said, criticize by extending themselves up and down and miss the common level of humanity." To woman, Mr. Priestly gives advice to stay away from the author for "Even when he is kissing her, he will be trying to decide the exact flavor and making it so located as to be able to be used for at least two more build."

That he made the middle ground, the temperate decent life more moving than any other writer has ever made it. "To be clean, to be hard working, to be honest, to be not necessarily kind but just—this is not, with Mr. Bennett, to be also dull."

Arnold Bennett
In a recent issue of the NATION is that he found a just appreciation of Arnold Bennett written by Dorothy Van Doren. The death of Bennett, like the death of all great men, has caused much comment on both sides of the fence. Dorothy Van Doren does not wax too strong on either side. I think the following bit sums up the man very nicely. Here she is explaining the philosophy of this great English novelist. "The middle ground is a safe ground; do not throw away your resources; do not passionately clutch them until you die of want. And it may be said of Mr. Bennett

FROSH BASEBALL TEAM FACES M.M.I. MONDAY, MAY 11

Only two more games remain on the Freshman schedule. They are return games with M. M. I. at Millersburg, and Athens, May 18 at Athens. From all indications the yearlings have top notch performances. They should have little trouble in disposing of their last two diamond encounters. Despite the fact that eleven of Coach Gill's best ball players were found ineligible for further competition on the diamond, players of the Green and White clad stagers were found in every ball game they have played this season. To date the Kittens have defeated the teams of Louisville Municipal, Athens, Millersburg Military Institute, and the frosh of Eastern Kentucky Normal. The Kittens have what it takes to make up a good ball club good pitching and fielding, plenty of spirit and courage. Out of the present group of freshman ball players there are several men who will localities and to the varsity next year. Pitchers Broadbent, Simone, DeMoisey, and Meyers look promising and with the handling that varsity coach Devereux will give them, they may develop into versatile hurlers. In the outfield, there is Wallace, a young slugger from Rochester, New York, who is expected to hold down a varsity berth next spring. Among the bulwarks of the frosh team were ruled out because of ineligibility were Core and Mattingly; catchers; Bach, an outfielder; and Clovis, a short stop; Cormack, Pate, Shoopman, Blair and several others.

Debate Session Ends For U. of K. Speakers

After having had a large number of interesting and brilliantly presented debates, the season is over for the debating team of the university, according to Professor Sulzland, debate coach. The subject of the chain store has been employed most in the past season. University teams met teams from England and Germany on the questions of "Is the Emergence of Woman from the Cave a Regrettable Feature of Modern Life?" and "Is the Foreign Indictment of American Culture Justified?" respectively.

Agricultural Group Elects New Officers

The 4-H scholarship club held its election of officers at the regular monthly meeting of the organization Monday night in the Agriculture building. J. W. Whitelade, state 4-H club leader gave a short talk on "A Trip to the University of Nebraska." Officers elected were: president, Louis J. Price; vice-president, Louise Ewing; secretary-treasurer, Catherine Cullon. Members decided to continue the policy of giving a scholarship to the outstanding 4-H club member in the state. Last year the first time that this scholarship has been awarded. A social outing for the club members is planned for the near future.

Chicago Professor Speaks at Meeting Of Pi Mu Epsilon

Mrs. Mayme I. Logsdon, associate professor of mathematics at the University of Chicago, and formerly of Elizabethtown, spoke to the members of Pi Mu Epsilon and their guests at their regular meeting Thursday afternoon on "Something about the Methods and Results of Algebraic Geometry." University's New Library to Be Ready for Summer School Term

By EUGENIA BECK

With the exception of the floor finishing and the general house cleaning the new library practically is finished. The library staff expects to start moving the present collection of 118,000 volumes about May 25, and to have the building and its contents in working order by the first session of summer school which starts June 15. The building which cost approximately \$400,000 is of modified Georgian style and is said to contain about a million cubic feet of space. It has a storage capacity of 250,000 volumes and is so built and designed that additions can be made at any time.

The floors of the large reading rooms are of cork tile and the remaining floor space is composed of either marble or linoleum. Beautiful birchwood has been used for the open shelves, the doors, and windows are the only wood in the building, which is fireproof throughout.

A very modern system of complete ventilation equipped with controls has been installed, and the heating plant is so located as to be able to be used for at least two more build.

That he made the middle ground, the temperate decent life more moving than any other writer has ever made it. "To be clean, to be hard working, to be honest, to be not necessarily kind but just—this is not, with Mr. Bennett, to be also dull."

Arnold Bennett
In a recent issue of the NATION is that he found a just appreciation of Arnold Bennett written by Dorothy Van Doren. The death of Bennett, like the death of all great men, has caused much comment on both sides of the fence. Dorothy Van Doren does not wax too strong on either side. I think the following bit sums up the man very nicely. Here she is explaining the philosophy of this great English novelist. "The middle ground is a safe ground; do not throw away your resources; do not passionately clutch them until you die of want. And it may be said of Mr. Bennett

ings. As it is now arranged it will furnish a warm for the Physics building as well as the library. There also has been installed an incinerator for all trash and the excess heat from this will be used to prepare domestic hot water. All the rest-rooms are completely equipped with marble floors and partitions, plate glass mirrors in nickel frames, and china plumbing fixtures. On each floor are drinking fountains provided with refrigerated drinking water. The elevators which have been installed are for freight, stock room service, and the library staff only.

On the first floor there will be the reserve book room in which will be most of the collection from the present reading room and some lobby display cases. The loan desk, the card catalogue and the general reading room will be on the second floor. There will also be a browsing room facing the front of the building. There, in easy chairs, among informal furnishings, students may read for and with pleasure. On the east side of this floor all the offices will be located.

Classrooms, study halls, and rest rooms for library science students will occupy the third floor, and the fourth floor will be devoted to the graduate department and has a charming reading room and 12 seminar rooms. There are eight levels in the stock room, three of which will not be finished at present.

TRACKMEN OF CINCINNATI SATURDAY

CO-CAPTAINS OF 1931 TRACK SQUAD

SHIPWRECK KELLY is a symbol for speed. John Sims Kelly, co-captain of the track squad, will run in the last dual meet of the year for the 'Cats. Facing two of the best runners in the Ohio conference he is out tomorrow to maintain his undefeated record in the dashes. Kelly has only been pressed once, and the Cincinnati team boasts of two or three stars, including Yagi, a Japanese Olympic star.

The track team is captained this year by two men, Gibson, and Kelly. Gibson was a high jumper and last year. With the return of Scaley Roberts, he entered the pole vault event and early in the year, was injured when his pole broke. Gibson will not be in condition to enter the conference meet at Birmingham next week. He has been pursued by injuries all year and the last mishap forced him to put his track shoes up for the season.

Geology, Botany Students to Have Annual Field Trip

The annual all-day field trip to Natural bridge will be held Saturday, when approximately 175 geology and botany students will leave on the University Special Louisville and Nashville train at 6:30 o'clock Saturday morning. Students from Transylvania and Hamilton colleges will accompany the university group.

The naturalists will be accompanied on the trip by Professors Macchem and Robinson of the department of geology. Paul Averitt and David Young graduate laboratory instructors, and William Haller and Hugh Tanner, senior laboratory instructors.

WILDCATS TRACK TEAM WILL MEET BEARCAT SQUAD

U. K. Thistles Enter Final Meet Boasting an Undefeated Record for 1931

KENTUCKY TO ENTER CONFERENCE GAMES

Kelly to Face Switzer, Yagi, Japanese Olympic Dash Star in 1928

With a clean slate thus far the Wildcat track team will meet the University of Cincinnati thistles on Stoll field Saturday afternoon at 2:30 o'clock. This will be a part of the state high school track program and will be run at the same time the youngsters have their final contests.

The Bearcats belong to the Buckeye conference and are one of the best teams in the conference and will provide the 'Cats with stiff competition. The boys in blue are determined to go through the season undefeated and will extend themselves to the utmost to win.

'Shipwreck' Kelly will have an additional incentive to extend his flying feet Saturday, as Switzer, Cincinnati sprinter, announced in one of the papers of the Ohio river metropolis that he could easily defeat Kelly. Kelly will also take part in the 200, the relay, the high jump, the broad jump and the javelin throw.

ALPHA SIGMA PHI WINS TRACK TITLE

The Alpha Sigma Phi fraternity won the annual intramural track and field meet held on Stoll field Saturday afternoon scoring 29 points. Sigma records were shattered including the 220, 440 and 880-yard runs; shot put, javelin, discus, pole vault, high jump and broad jump.

The summary: 100-yard dash—Parish, Phi Delta Theta; Harvey, Alpha Tau Omega; Blumer, Alpha Sigma Phi. Time, 16.8. 220-yard dash—Wallace Independent; Henderson, Sigma Chi; Blincoe, Delta Chi; Goodell, Alpha Gamma Rho. Time, 33.3. 440-yard dash—Wallace Independent; Cassidy, Pi Kappa Alpha; Blincoe, Delta Chi; Cleary, Delta Tau Delta. Time, 53.2. 88-yard dash—Goodman Alpha Beta Xi; Dickerson, Pi Kappa Alpha; Carter, Alpha Gamma Rho; Vinson, Independent. Time, 2:07. Mile run—Goodman Alpha Sigma Phi; Vinson, Independent; Coffman, Delta Tau Delta; Martin, Sigma Alpha Epsilon. Time, 5:24. 120-yard low hurdles—Blumer, Alpha Sigma Phi; Swishem, Sigma Beta Xi; Dickerson, Pi Kappa Alpha; Guttermuth, Delta Chi. Time, 14.8. 120-yard high hurdles—Yeager, Triangle; Martin, Sigma Alpha Epsilon; Johnson, Sigma Chi; Dickerson, Pi Kappa Alpha. Time, 1:14. Javelin—Judd, Phi Delta Theta; Roger, Sigma Alpha Epsilon; Gray, Delta Chi; Mahan, Phi Sigma Kappa; Alpha Gamma Rho. Distance, 171 feet, 5 inches. Discus—Weisenberg, Independent; Luther, Lambda Chi Alpha; Colwell, Kappa Sigma; Watts, Alpha Sigma Phi; Barber, Phi Sigma Kappa. Distance 106 feet, 4 inches. Shot-put—Mains, Phi Sigma Kappa; Forquer, Sigma Chi; Weisenberg, Independent; Aldridge, Lambda Chi Alpha. Distance, 39 feet, 9 inches. Broad jump—Yates, Sigma Alpha Epsilon; Burns, Alpha Sigma Phi; Harvey, Alpha Tau Omega; Longmire, Pi Kappa Alpha. Distance, 21 feet 1 1/2 inches. High jump—Bridges, Phi Sigma Kappa; Martin, Sigma Alpha Epsilon; Coffman, Delta Tau Delta; Aldridge, Lambda Chi Alpha; Burns, Alpha Sigma Phi. Height, 5 feet 4 inches.

Pole vault—Parish, Phi Delta Theta; Wilson, Delta Chi; Gartin, Alpha Gamma Rho; Guttermuth, Delta Chi. Height, 10 feet, 9 inches. Medley relay won by Alpha Sigma Phi; Sigma Alpha Epsilon; Pi Kappa Alpha; Delta Chi. Time 4:07.4.

1931 KENTUCKY TRACK SQUAD

For the first time in the history of the university, the varsity track team has come to the end of their scheduled season. Last year, Tennessee early in the season defeated the 'Cats, for their only loss. This year under the able tutelage of Bernice Shively, the Wildcats have tramped over the best track squads in the South and have yet to meet defeat. Led by Kelly, O'Bryant, Roberts, and Cavana, who have won consistently for the Big Blue, the 'Cats will enter the Cincinnati meet tomorrow favorably to win from the Bearcats. They will enter the Southern Conference meet May 15, at Birmingham, Ala.

COACHING SCHOOL HEADED BY RUPP

Coach Adolph Rupp head basketball coach at the university will head the coaching school to be held at Centre College June 28 to July 4 inclusive, it was announced today by Coach Ed Kubale.

HILLEN GOES TO JAPAN

Mr. W. G. Hillen, a graduate of the College of Engineering, of the university in the class of 1923, who has been for the past few years director of the training school established by the Carrier Corporation, Newark, New Jersey, has been sent to Japan for three years as chief engineer of the Toyo Carrier Kogyo Kaubushii Kaisha company, a company recently organized.

WHAT, ANOTHER?

Prof. Gerald Griffin, of the department of journalism, recently sold his second short story to a nationally known publication. The story is based on a news incident which happened in Kentucky several years ago and which Professor Griffin covered as a reporter.

 ROSE STREET CONFECTIONERY
 "THE MECCA OF COLLEGE STUDENTS"
 Friday, May 8th and Monday, May 11th
 There will be the regular two-hour music Wednesday and Friday the 13th and 15th respectively

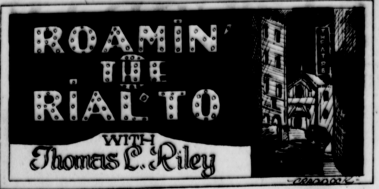

MAY WE INTRODUCE...

By CAMERON COFFMAN
 Alice Lang
 Alice Lang has added another name to her long list of activities in that she has the distinction of being the first freshman girl of the year to be introduced in this column.
 Alice was graduated from Henry Clay high school in the class of 28. While in high school she was president of the Girl Reserves a member of the Piper and Pan club, and took a leading part in the senior play.
 Recently at a banquet given by the Women's Administrative council she was awarded the cup offered annually by Alpha Gamma Delta sorority to the most outstanding freshman girl on the campus. She was chosen for this award because (quoting a member of the council), she has undertaken and accomplished more than any other freshman girl on the campus.
 Alice was awarded a cup in her sorority, which is incidentally the Tri-Delta club, for the most proficient pledge. She is a candidate for Beta, a member of Outgood theater staff, a Stroller eligible, and a member of the Y. W. C. A. cabinet. She is a Pan-Hellenic representative for her sorority and made a standing of 2.3 in the College of Arts and Business last semester. P. S. Phi Delta Theta seems to be her favorite fraternity.

Roamin' Rena is disconsolate... And it's her fault. She's afraid she'll miss the STROLLER REVUE MONDAY...

Cracked Nuts will be the last co-starring vehicle for Woolsey and Wheeler... It seems that all you can think of is the

STROLLER REVUE MONDAY... By this time we were almost heartbroken. Just thinking about Rena missing the big show of the year almost sickened us.

STROLLER REVUE MONDAY... Everybody says the revue is going to be the best entertainment of the year and all that sort of thing but don't forget that a picture opens at the Ben All Sunday that is worthy of attention.

STROLLER REVUE MONDAY... We agreed and then started pleading. We dislike to plead with a woman, but Rena, as we've said before, is different.

STROLLER REVUE MONDAY... We remembered it quite well and agreed with Rena that it was charming and that his later picture, "Devil-May-Care", in particular, was, on the whole, very satisfying entertainment.

STROLLER REVUE MONDAY... "And listen," said the fair one throwing a dictionary at us...

STROLLER REVUE MONDAY... We are expected to attend. Euneau Dawson and Joe Rustenacker are in charge of arrangements.

STROLLER REVUE MONDAY... The golf team of the University of Kentucky went to the Ashland Golf club links Saturday afternoon...

STROLLER REVUE MONDAY... Hogan Watson shot a 71 to defeat Hument. No. 1 in the Dayton team...

STROLLER REVUE MONDAY... Watson shot a good game of golf, and had he missed our first easy putts he would have had a score close to par.

STROLLER REVUE MONDAY... Hument holds several Ohio championships and he was key man...

STROLLER REVUE MONDAY... Hument broke even in his match with Redding when he defeated him one up on the out nine...

STROLLER REVUE MONDAY... Large blue golfers defeated Dayton U. niblick wielders...

STROLLER REVUE MONDAY... The order of events for Saturday is as follows:

STROLLER REVUE MONDAY... Morning 10:00-120-yard high hurdles (University) 10:30-Shot, pole vault (finals) 10:30-100-yard dash (trials) 10:50-200-yard dash (trials) 11:00-Discus, high jump (finals) 11:20-200-yard dash (trials) 11:20-200-yard dash (finals) 1:30-440-yard dash (finals) 1:30-Broad jump, javelin (finals) 1:40-100-yard dash (finals) 1:40-100-yard dash (trials) 1:50-100-yard dash (finals) 2:05-100-yard high hurdles (finals) 2:20-One mile relay (high schools) 2:30-100-yard dash (University) 2:30-Shot put, pole vault (University) 2:40-One mile (University) 3:00-200-yard dash (finals in high school) 3:10-120-yard high hurdles (University) 3:20-200-yard run (high school) 3:30-High jump (University) 3:30-440-yard run (University) 3:40-200-yard dash (University) 4:00-Javelin, broad jump (University) 4:10-200-yard high hurdles (University) 4:20-200-yard run (University) 4:30-440-yard run (high school) 4:40-One mile relay (University)

U. K. to Hold High School Track Meet (Continued from Page One) are to be guests at a banquet Saturday night following the meet. The banquet is sponsored by the department of an extension in the University Commons.

Some of the best high school athletes developed in the state will be among those competing in the meet. Noble of Berea, who throws the javelin 190 feet and the shot 45 feet is one of these riders of Middleboro, is highly regarded as a discus thrower, while Smith and Chamberlain of Manual are sprinters who have run the 100 in 10 seconds. There are many other fine athletes included in the list.

There are only four or five states in the South that hold high school track meets. Comparative records show that Kentucky records are good. The following is a list of the Kentucky marks:

- 100-Yard dash - Esterle (Male) 10 seconds. 200-Yard dash - Esterle (Male) 22.2 seconds. 400-Yard dash - Eckerle (Male) 51.8 seconds. 800-Yard run - Isaacs (Berea Acad.) 4:38.8 seconds. 1000-Yard relay - Louisville, Manual 1:33 seconds (Palkenberg, Beard, Chamberlain, and Smith). 440-Yard relay - Louisville, Manual 3:39 seconds. 120 high hurdles - Root (Male) 15.2 seconds. 100 yard hurdles - Burton (Manual) 25.8 seconds. Pole vault - Query (Sturgis) 11 feet 6 inches. High jump - Roberts (Lexington) 5 feet, 10 3/4 inches. Shot put - Baumgartner (Male) 29.8 seconds. Discus - Long (Manual) 121 feet 5 inches. Javelin - Noble (Berea Academy) 181 feet, 6 inches. Competition in the North is keener...

Y. M. C. A. Cabinets Will Meet at Camp Annual Spring Training Retreat Will Be Held Saturday and Sunday

Cabinets of the Y. M. C. A. and the Y. W. C. A. will meet at Camp Daniel Boone on the Kentucky river for their annual spring training retreat this week end. Plans for the coming year will be discussed and an effort will be made to promote closer contact and organization between the two groups.

Religious emphasis week, which has been sponsored for several years, will be discussed and plans made for their annual spring training retreat. Dr. S. Parkes Cadman of New York, a noted authority on practical religion, will be in charge of the Associated Press and radio speaker has been obtained as a speaker for next week's retreat. This retreat will be held at Camp Daniel Boone, and will be the largest ever held. Dr. S. Parkes Cadman of New York, a noted authority on practical religion, will be in charge of the Associated Press and radio speaker has been obtained as a speaker for next week's retreat.

Besides the various conferences, periods of recreation have been arranged which include swimming, hiking and various games. The entire program is completed after the State Retreat which is held annually by the state officers. This is the third annual university retreat at the Miss Margaret Lewis and Mr. Art Peak, secretaries at the university, will be in charge of the entire retreat, which will leave Friday afternoon and return Sunday afternoon.

Cabinets from both organizations and Prof. and Mrs. E. A. Bureau are expected to attend. Euneau Dawson and Joe Rustenacker are in charge of arrangements.

Big Blue Golfers Defeat Dayton U. Niblick Wielders

The golf team of the University of Kentucky went to the Ashland Golf club links Saturday afternoon, by the score of 12 1/2 to 5 1/2.

Hogan Watson shot a 71 to defeat Hument. No. 1 in the Dayton team. Watson shot a good game of golf, and had he missed our first easy putts he would have had a score close to par.

Hument holds several Ohio championships and he was key man in the Dayton team. Watson defeated him three up on the front nine and five up on the back nine. John Busick broke even in his match with Redding when he defeated him one up on the out nine and lost the back nine one up. Willard Meredith also defeated his opponent one up, one the out nine and lost one up on the in nine.

Summer Session Plans Released (Continued from Page One) must be accompanied by a certificate of discharge. The letters for the summer session students will be six hours. A student will be allowed to take seven hours of work if he can present a satisfactory record for the preceding term.

Courses for undergraduates will be numbered from 1 to 100. Courses for both undergraduates and graduates will be numbered from 150 to 199. Graduate courses will be numbered from 200 up.

For entrance to the freshman class in units of work for preceding term. Courses for undergraduates will be numbered from 1 to 100. Courses for both undergraduates and graduates will be numbered from 150 to 199. Graduate courses will be numbered from 200 up.

Pres. Frank McVey To Speak at Vespers Musical Program to Be Given by Miss Parker and Mrs. Cullis

President Frank L. McVey will be the speaker at the vesper hour on May 10, at 4 o'clock in the Memorial auditorium. President McVey has chosen for his subject, "The Vespasian Mind."

The musical program will be presented by Miss Josephine Parker, soprano and Mrs. Lela Cullis, organist. Dr. T. C. Eaton, pastor of the Calvary Baptist church, will pronounce the invocation and benediction.

The program is as follows: Organ Prelude, Selected, Mrs. Lela Cullis; Invocation, Reverend T. C. Eaton, pastor of the Calvary Baptist church; Soprano aria, "Un bel te di venti anni," Mrs. Lela Cullis; Soprano solo: "The Three Cavaliers," Dargomyzhsky, "Sheep and Lamb," Schubert, "My Lover Comes on the Ski," Clough-Lightner, Miss Parker; Postlude, Selected, Mrs. Cullis.

Five Are Elected To Phi Beta Kappa (Continued from Page One) have been revived. Headquarters have been established in New York, N. Y. Since then, however, it has prospered and its first chapter was established in this city.

Phi Beta Kappa was not always an honorary scholastic fraternity. It was first established in 1827. It was founded in 1827 and has been conducted only as an honorary society.

Members of the dance committee for this year are J. B. Dieter, chairman; W. L. Albert secretary; Ben Crosby, D. I. O'Rourke, Carroll Yoder, Wylie Wilson, Perry G. J. Yager, decorations; Pauline Fitzpatrick, R. C. Aldrich, posters; W. L. Albert, R. D. Cooke, W. E. Young, music; Carol Yoder, Elizabeth Warren, E. Marrs, program.

Chaperones are Mrs. C. Melcher, Dean Sarah Blandford, Prof. and Mrs. F. Farquhar, Prof. C. H. Anderson, Prof. and Mrs. W. Brinley Barnett, Prof. and Mrs. M. W. Beebe, Prof. and Mrs. A. J. Carrel, Prof. and Mrs. C. S. Crouse, Prof. F. S. Barnhart, Prof. and Mrs. J. S. Horine, Prof. C. C. Jett, Prof.

This brings the total elections for the Phi Beta Kappa chapter which is now in the university library. Officers of the university chapter are: Chairman, Dean Sarah Blandford, Katharine Carr, Kendall Holmes, and Charles Morrell were elected the first semester.

Impressions of Other Campuses Wisconsin, Ohio, Michigan, etc., appointing, perhaps because of so much heard about it that too much is counted easily...

Chicago—a huge, machine-like place, but the campus beautiful with its kenops of constant Gothic architecture, the main campus built around a court, across at the entrances, the coffee shop where students drink coles as well as coffee...

Northernwestern—Lake Michigan a cold gray water in close hearing the dull sound of the waves beating on the shore...

White hat wielders opened their jaunt with a two game series at Madison, Tenn., with the Commodores of Vanderbilt. Vandy, led by Roberts, led the Cats down on the short end of the score...

In the second game Kentucky scored the series by winning from the Commodores 2 to 1. The Wildcats received much better pitching...
