## PREFACE.

---

FROM a consultation of the following pages, it will be observed that the penalties imposed during the years 1874 and 1875, occupy more than *four times* the space taken up for similar matter during the preceding four years, or exactly stated, 221 pages of this printed record against 52 pages in a total of 273 ; showing an average of office work for the past two years exactly *eight and a half times* as large as the average of the preceding four years.

The gradual enlargement of the necessary records, from year to year, is associated with a corresponding increase of accounts and transactions which must pass through the office, the nature of which necessitates the strictest care and accuracy in the administration of the details, and applied to the extraordinary volume of business incident to the matters of record herein reported, involves an amount of labor which is simply enormous and almost wholly hidden from the observation and knowledge of those most interested in its results.

The matter contained in the Record herewith, is so arranged as to exhibit each re-instatement, conspicuously in the margin and against the penalty to which it applies, thus affording ready means of ascertaining not only what penalties have been imposed and what removed, but precisely when and how each re-instatement was effected.

Separate indexes are presented of all the names of persons and horses appearing in the record, followed by an

index showing the names of those members upon whose orders penalties have been imposed. Attention is called to the head note of each index.

Each member can easily possess full knowledge of all changes which occur in the status of the penalties herein exhibited, by entering in the margin all such re-instate-ments as shall from time to time be reported, which, with the aid of the usual current notices and monthly pamphlets will afford ample information of the standing of each person and horse named in the record.

For the convenience of members, we have issued a revision of the monthly pamphlet for December 31st, 1875, containing the names of all persons and horses then remaining under penalty, and showing the date and character of each penalty, details of which information are embraced herein.

A table of errata will be found at page 275, which embraces all errors we have discovered, and members and others are requested to report any inaccuracies they may find in any part of the work.

*Secretary and Treasurer.*

# INDEX.—HORSES.

[NOTE.—The figures in this Index refer to the foregoing pages; those which are printed in broad-faced type indicate *expulsions*,—the others refer to *suspensions*. Figures inclosed in parenthesis signify penalties which have been removed.

When an asterisk (\*) is used, (in the Index of Horses,) it marks an *alias*, or an additional name for the same animal—the penalty, in each case, being recorded and indexed to a name that is not so marked.]
