Dean Hill distributed to the members of the Faculty the results of the poll on probable attendance in the summer quarter. Approximately 700 of 1892 students polled indicated that they plan to continue their work in the summer quarter.

President Donovan discussed briefly the probable effect on the University enrolment of the new provision for the enlistment of students in the Army Reserve, and stressed the necessity for wide publicity for this program. It was suggested that the University might accept some applications for the Navy V-1 program, though the University's participation in this will not be publicized or emphasized.

MINUTES OF THE UNIVERSITY FACULTY
June 19, 1942

The University Faculty met in the President's Office Friday, June 19, with President Donovan presiding. Those attending were Jesse E. Adams, Paul P. Boyd, Alvin E. Evans, W. D. Funkhouser, J. H. Graham, Frank D. Peterson, W. S. Taylor, and Edward Wiest.

The minutes of May 27 were read and approved.

On recommendation of the College of Engineering, the Faculty approved petitions from three engineering students as follows: D. H. Florence, Jim B. Williams, Clayton H. Shackelford. Each of these students was asking that he be considered to have satisfied the requirements for the degree of B.S. in Electrical Engineering at the end of the first term of the current quarter. When courses for which they are enrolled are completed, each of these three students will have credit in excess of the minimum requirements for graduation from the College of Engineering. Mr. Shackelford will lack one credit in physical education at the close of the summer term, and he requested that he be excused from completing this requirement. The courses for which these students are currently enrolled were scheduled for the full quarter, but because of their character it was the recommendation of the College of Engineering that these three students be allowed to complete them during the first summer term.

For the current summer quarter only, the Faculty approved as a maximum load to be carried by any student in the University, 24 quarter hours for the entire quarter and 13 quarter hours for either term. This action was necessary in view of the fact that the statement in the summer quarter bulletin was in conflict with the rule on student load recently approved by the Faculty action. It was the understanding that the provision in the Faculty Rules will govern student load after this summer quarter.

On recommendation of the College of Agriculture, Marshall McKenzie was given permission to carry and receive credit for 26 quarter hours during the present summer quarter. Mr. McKenzie stated that this amount of work would complete his requirements for the degree of B.S. in Agriculture, and that his draft board had refused to defer him after this quarter. He stated that his standing last semester was 2.5.

The Faculty placed the following interpretation on a rule adopted last winter, relative to the credit a student might receive on leaving
