"K" DANCE BIG EVENT OF UNIVERSITY YEAR

Large Crowd Gathers in Buell Armory to Enjoy Annual Affair.

PROVES FINANCIAL SUCCESS

The "K" dance last Friday evening in Buell Armory, gave to State students the first opportunity of the season to enjoy the dance.

Many took advantage of the occasion and were out in gala attire to dance without a thought of care until the hour of midnight struck.

The "K" dance is an annual affair. It was originated by the class of 1911 and the proceeds are for the benefit of the Kentuckian. This year a good sum was realized, which makes a nest egg for the Kentuckian fund.

Friday night was in ideal night for dancing, being damp and unpleasant without. All was warmth and happiness within, however, as the workaday students, transformed for the time being into "lords and ladies fair," swayed rhythmically to the inspiring notes of the saxophone trio.

The programs for the dance were in the form of tags with a large "K" and the dances printed on them in blue. The chaperones were Miss Mary Louise Michot, Mrs. Tandy Hughes, Professor and Mrs. A. C. Zembrod and Mrs. C. J. Underwood.

PHI DELTA THETAS GIVE JOLLY DANCE

The Kentucky Epsilon Chapter of Phi Delta Theta entertained with a dance for their pledges, last Saturday evening at the chapter house on South Upper Street. About sixty people were present and the good music was danced to by nearly all present. The dance was ably chaperoned by Judge Lyman Chalkley and Dr. and Mrs. J. J. Tigert. There were several out-of-town guests present, among whom were Dan T. Mayhan and E. D. Blake, both of whom are Vanderbilt men. Refreshments of ices, punch and cakes were served.

EPSILON OMEGA WINS SCHOLARSHIP CUP

Epsilon Omega Chapter of Kappa Delta Sorority won the scholarship cup given by the Women's Pan-Hellenic Association to the sorority having the highest average for 1913-14. The cup will be presented at the next Pan-Hellenic meeting.

The averages of the sororities are: Kappa Delta, 91. Kappa Kappa Gamma, 89. Alpha Gamma Delta, 88. Alpha Xi Delta, 85. Chi Omega, 82.

The Blue Grass Baptist Young People's Convention will be held in the First Baptist Church, Lexington, Thursday, October 29, 1914.

ALUMNI TO TACKLE THE WILDCAT TEAM

A comparison of the good old days in football with the new will be made on Stoll Field, November 21, when the alumni of the University will oppose the vigorous Wildcats. Twenty-four of the old men, with visions of prowess in the years gone by, will meet at the Y. M. C. A. Tuesday night for the first practice. Those on the list of eligibles most of whom have worn the Blue and White, are: Dick Barbee, William Rodes, Leslie Guyn, Howard Guyn, White Guyn, Pete Rodes, William Brooks, J. D. Turner, J. J. Tigert, Carl Taylor, Ham Payne, J. Waller Rodes, "Red" Reilley, Bill Ellis, Foster Helm, Joyce Gibbons, "Lengthy" O'Neill, Bill Swope, Howell Spears, P. T. Atkins, "Doc" Rodes II, E. J. Caswell, "Doc" Scott and Cronley Elliott.

HOOSIERS COMING TO BATTLE ON OUR FIELD

Earl College Next Squad to Test Claws of Wildcat Aggregation.

PROSPECTS FOR GOOD GAME.

The next to the last home game will be played Saturday on Stoll Field, when the Wildcats line up against Earlham College, of Indiana. Last year the Greys came down and jumped on the Cats for a fluke touchdown and a field goal in the first quarter before the Blue warriors could imagine what was happening to them.

The whole student body, including the team, coaches, subs and rooters, sincerely hope that we will have no more parades on the field. In the first two games this year the Cats scored more points than in all the games last year put together. But the sky is the limit, so roll them up.

Coach Brumage will probably give a number of the scrubs a chance in this game to save the regulars for the Cincinnati game, which follows the Earlham game. Coupon No. 5 good only for this game.

BULLETIN BOARDS ERECTED ON CAMPUS

The Y. M. C. A. has erected five bulletin boards, which are placed at such points on the campus that the whole University can be reached through publicity, by means of them. They have been placed as follows: At the entrance of the Agricultural building; in front of the old dormitory, opposite the mail box; on the east side of Mulligan gate; near the stile on the southeast corner of the campus, and at the entrance to the Gymnasium building.

These bulletin boards, the material for which was furnished by the University, are divided into three sections. The left section is for announcements of chapel. The center section is for the Y. M. C. A. only. The right section is donated for general use.

STROLLERS PREPARE FOR AMATEUR NIGHT

Two-Hour Entertainment for Halloween to be Concluded With Dance in Gymnasium.

One of the best entertainments of the year is promised by the committee from the Strollers on Amateur Night, on Halloween, October 31. For the various events there are quite a number of entries, many of whom seem to possess unusual ability.

The time of the entertainment has been limited to two hours, so it is assured that no part of the program will be allowed to lag. One member will follow closely and snappily after the other, and at intervals between events a student orchestra will give several entertaining numbers.

The Woman's Club of the University has united with the Strollers and every effort will be made to furnish the best of entertainment for all those who attend. After the Amateur Night performance there will be a dance given by the Woman's Club in the gymnasium. The Strollers' entertainment will be given in the Armory, which will be fitted up especially for the occasion.

The Strollers will take no part in any of the competitive events, which are principally for the new students, but also for all non-members of the Strollers.

Suitable prizes will be offered for the winner or winners in each event, and judging from the way all those who entered are working, competition is going to be very keen. Amateur Night is serving a double purpose, for in addition to furnishing two hours of entertainment for all those attending, it will give the Strollers an idea of the ability of the new students, who will probably be asked to join the club. Differing from the general rule, there will be two plays staged by the Strollers this year, one or both at the Ben. All Theatre, and one to be taken on the road, making a tour of a number of the towns throughout Central Kentucky.

The entries for the dramatic reading event include Misses Rucker, Powell, Stout, Holton, Cregor, Kavanaugh and Parker.

Messrs. Frazier, Dean, Adams, Crowder, Kalibreier, Bradford and Wolf have entered the contest in dramatic monologues. Miss Helen Burkholder has entered for the character song.

Those entering the musical event are: Soule and Company, Miss Helen Agnew and Charles Herz. Messrs. G. C. Wilson and C. P. Nicholson are the entries for buck and wing dancing. Evans and Company will stage a one-act play.

Earlham, Cincinnati Purdue, Louisville and Tennessee, in order named. Three out of the five are played, many placing the team at a great disadvantage. All those who can possibly accompany the team on this trip should do so.

JOURNALISTS AND STROLLERS INVITED

H. Van Gurnee, manager of the Ada Meade Theatre, will give a talk, Saturday morning, October 24, at 10 o'clock, at the Ada Meade, on "Play Making, Play Writing and Play Producing." Scenes will be set and "struck," to illustrate the mechanical side of producing a play. Mr. Gurnee has offered a prize for the best sketch written, applying the principles he will set forth on Saturday. The Strollers Dramatic Club and all students in the journalism classes are invited. Every one is urged to make an effort to be there, and thus show that these departments appreciate such interest in their work.

LITERARY SOCIETIES PUT OFF MEETING

On account of the celebration over the Wildcat victory Saturday, October 17, the Patterson Literary Society postponed its regular meeting until Wednesday evening, October 21.

The Union Literary Society did not hold its regular meeting Saturday night, October 17, owing to the parade which celebrated the Wildcat football victory.

The program, which was intended for the evening, will be given at the meeting Saturday night, October 24.

JUDGE CHALKLEY TO ADDRESS Y. M. C. A.

Judge Lyman Chalkley, of the law department, will address the Y. M. C. A. Sunday night at 6 o'clock. The judge is a splendid and forceful speaker and will bring an important message to the young men.

FRESHMEN PLAY CYNTHIANA H. S.

To be Staged Friday, October 23, at Cynthiana.

The Freshman football team is scheduled to meet the warriors of Cynthiana High School, Friday afternoon at 3 o'clock, on the Cynthiana field. Arrangements have been made for round trip at seventy-five cents, provided a certain number accompany the Freshies. This game will be one of much interest and the Freshman squad are in good condition to put up a grand exhibition of football.

TO CINCINNATI - Via - Q. & C. Saturday, October 31

Round Trip, \$1.50.
Train leaves at 8:45 for Cincinnati.
Returns at 7:30.
Special car for team.

MISSISSIPPI LOSES TO FAST KENTUCKY TEAM

A. & M. Backs Are Bears Until They Lose Lard Can; Then Prove Easy for Infuriated Wildcats.

PARK'S GOALS WIN GAME.

Feline sagacity triumphed over bulldog ferocity last Saturday when the Kentucky Wildcats defeated the Mississippi A. and M. Bulldogs by the score of 19 to 13. The game was one of the greatest exhibitions of football ever staged on Stoll Field and to Captain Jimmy Park belongs the honor of the victory. It was he who kicked a perfect field goal in the last quarter with the score tied thirteen and repeated the stunt three minutes later just to make things safe.

The Wildcats were confronted with one of the finest teams in the South and one which outweighed them twenty pounds to the man. But the old Kentucky spirit was in evidence all through the contest and enabled the Cats to pull down a thirteen point lead and emerge victorious.

The work of the Kentucky line showed up well in the first period when they held the slippery Mississippi backs for downs on our three-yard line and in the perfect protection they gave "Turkey" when he booted those two placement kicks over.

The Reds scored early in the first quarter. Mississippi kicked off and Scott returned twenty yards. Three of our line plays failed and Park's kick was blocked. The Reds' backfield then tore down the field to our three-yard line where Kentucky held for downs. Park's kick got off all right this time, but Jackson, the Mississippi fullback, carried the ball over in two straight plays.

The A. and M. boys scored again in the second quarter when McArthur, he of the slippery pants, hit on left wing for forty yards through the whole Wildcat secondary defense, our men throwing the Southerners' sturdy halfback, but being unable to hold him. On this play Captain Park made as pretty a tackle as ever was seen in any football game but was unable to hold the greasy Southerner.

After this the Cats came to life and a few moments later secured the ball on downs on their own thirty-yard line. Triple passes, double passes, false kicks, forward passes and a little straight football injected as a side line put "Dutch" Schrader over for a touchdown. Joy in the camp of the Wildcats. No goal was kicked, leaving the score: A. & M. 13, Ky. 6.

Nothing was doing in the scoring line during the third quarter in which both teams played air-tight football. But early in the last quarter Paul Hite grabbed a Mississippi forward pass out of the air and throwing his headgear away, set out full speed and made about fifteen yards before being downed placing the ball on the Reds'

twenty-five-yard line. Schrader pulled down another long pass from Park and made the two-yard-line. The Bulldogs held one plunge but could not stand up against two of Tuttle's attacks and he went over for a touchdown. The crowd was breathless while the preparation for the goal-kicking was taking place. Then the ball sailed over and through the standards, tying the score.

After this no team on earth could hold the Wildcats. They hit into those poor Bulldogs, worrying them, trampling them and finally reached their fifteen-yard line. Then Jim Park's first attempt at a field goal went wrong and A. & M. secured the ball. MrArthur punted but the grease must have not been rubbed off his shoes and the ball went out of bounds on the forty-yard line. Park and Hite carried the ball in two tries to the twenty-seven-yard line directly in front of the goal. Here Park called for another place kick; and, with Scott holding the ball and his other nine teammates holding out the enemy, placed the pigskin over the bar, placing the Wildcats in the lead. Score: Ky. 16, A. & M. 13.

Not being satisfied yet the Cats further beat up their opponents. Three minutes after the first field goal was made, Park called for another one from the forty-two-yard line and well to the side of the field. Again the line held and again Park kicked the goal. The quarter ended with the ball on Mississippi's thirty-five-yard line in their possession.

Every Wildcat that got into the game covered himself with glory. Of course credit must be given to Park, Schrader, Hite, Scott and Tuttle for the offensive work that won the game. Bailey, Downing and Petrie probably showed up more prominently in the line than the others. Petrie played a great game against his 195-pound opponent, Spurlock, until he was hurt in the second quarter and removed from the game.

For the Bulldogs, McArthur, Jackson and Kimball starred although it is doubtful if they would have made so big an impression in our defense had they not been greased from the waist down to prevent tackling. At the beginning of the second half the players wearing greased pants were forced to remove them.

The summary:

Kentucky	A. & M.
Zerfoss	Gaddy
Crutcher	Potter
Petrie	Carpenter
Bailey	Wells
Downing	Spurlock
Thompson	Rainey
Schrader	Shaw
Park	Kinney
Tuttle	Kimball
Hite	McArthur
Scott	Jackson

Referee—Dan Blake, Vanderbilt.
Umpire—Caswell, Georgetown. Head Linesman—Larson, Chicago. Time of

Periods—Fifteen minutes. Score by Periods—Kentucky: 0, 6, 0, 13—19; A. & M.: 6, 7, 0, 0—13. Touchdowns—Jackson, 1; McArthur, 1; Schrader, 1; Tuttle, 1; Goals From Touchdowns—Potter, 1; Tuttle, 1. Field Goals—Park, 2.

Substitutions—Kentucky: Wright for Zerfoss; Corn for Crutcher; Smith for Petrie. A. & M.: Nobles for Kimball, Ellerd for Gaddy; Gaddy for Jackson; Kimball for Noble; Jones for Kimball; Nobles for Kinney; Patton for Carpenter.

AT THE BEN ALI

"SEPTEMBER MORN."

Miss "September Morn" now bobs up as a musical comedy with Leo Greenwood as the star. It is offered by Rowland and Clifford's big musical comedy company, which includes Leo Greenwood, Ollie Carew, Barbara Douglas, Robert Thurston, Charles S. Morgan, Harry B. Jones, Carlton Meeker, Georgia Ellen, assisted by the most attractive lot of girls that were ever gathered together in one company.

The production from a scenic and costuming standpoint is beautiful. A big dancing number, embracing various styles of the famous Tango offers spicy moments of amusement and good wholesome entertainment. Other entirely new dance ensembles are introduced for the first time in this country, among the lot the Shark-Swish dip, which is now the rage in London, England.

Miss Carew is called "The American Gaby Desleys," and besides being a clever little actress and singer is seen in dances now the rage in Paris. The attraction comes from the La Salle Opera House, Chicago, where it created a sensation and is among the La Salle's biggest successes.

"September Morn" comes to the Ben Ali Theatre Friday and Saturday and Saturday matinee, October 23-24.

JOHN McCORMICK WILL SING AT WOODLAND PARK AUDITORIUM, OCTOBER 24.

John McCormack, the famous Irish tenor, who is to make his first appearance in Lexington, October 24, when he gives the first of The Studio Club Concert series is doubtless the best known concert singer of the present day.

The admiration in which he is held by the public amounts to a positive furor; he is actually besieged with attentions and expressions of admiration. But such a great artist is he that he goes unconsciously singing on his way, singing the songs all love, the songs of home and childhood, of youth and hope, of maturity and contemplation, of old age and retrospection. And always he sings with that abandon to his art, that gracious, care-free Celtic manner that he has endeared him to the hearts of Americans.

His repertoire includes the deepest songs of the ages and the highest, most buoyant ballads, with all the gradations of artistic expression between these extremes.

Never is heard after his concerts, "It was too much for me." Because even in his most technical efforts he

expresses a sympathy and exuberance that always "gets over the footlights" into the souls of his audiences.

To miss the opportunity of hearing Mr. McCormack is to miss the most popular musical treat ever offered to a Lexington audience. His big, sweet, joyous voice will thrill the hearts of, without doubt, the largest audience of music lovers ever gathered in Lexington, when he stands before his listeners in the Woodland Park Auditorium on October 24.

Regular price, season \$5.00. Three concerts. Students, \$4.00. Seats, \$1.00 to \$3.00 per concert; to students, 25 cents less. Special rates to parties of thirty.

HUSSANE AND ROLLER TO MEET OCTOBER 26

Yussif Hussane, the noted Turk, and Dr. B. F. Roller, the physician wrestler, will meet Monday night, October 26, at the Ben Ali Theater, in what promises to be the most scientific wrestling bout ever "pulled" in Lexington.

Roller has been here several times, where his wrestling victories have made athletic history. Hussane is regarded as the hardest nut Roller has yet had to crack, if indeed he is able to crack it at all.

The bout will be the best all-round athletic battle ever seen here.

PHILOSOPHIANS HOLD BUSINESS SESSION

Philosophian Literary Society met October 14th, 1914. An amendment to the constitution and by-laws were presented and accepted. According to the new constitution all women students in the University are eligible

for membership, after having presented, before the society, an acceptable paper, talk or reading.

The following program was well rendered at the last meeting, Wednesday, October 21, 1914.

Piano Solo—Francis Geisel.
Welcome—Lila Jones.
What is the Philosopher—Marie Louise Michot.
Reading—Christine Hopkins.
Vocal Solo—Elizabeth Myers.
Character Reading—Mary Becker.
Current Events—Miriam Horne.
Critic's Report—Rebecca Smith.

BABBAGE TO GO TO LAKE VIEW FARM

Agricultural College Graduate Goes to Broader Field.

Mr. V. A. Babbage, of Cloverport, a graduate of the College of Agriculture, class of 1914, is a visitor at the University for a few days. Mr. Babbage has resigned his position as manager of the Dairy Department of the Idle Hour Stock Farm in order to go to Chattanooga, Tenn., where he will be manager of the dairy department of the Lake View Stock Farm near there.

Mr. Babbage made a special study of the dairy business while in college and is meeting with much success in his work.

Mr. Babbage was former business manager of The IDEA and was one of the most popular men of his class.

"AGS" TO TAKE PART IN ANNUAL APPLE SHOW

Nine States to Participate in Big Trophy Event to Be Held in January.

One of the big events that will be participated in by the horticultural department in the College of Agriculture this year will be the annual apple show and student judging contest of West Virginia State University, Morgantown, W. Va.

This show will be held January 7, 8 and 9, and nine states will take part. Trophies for judging by students and student teams will be offered and a team to represent the University is already in training under Professor Hofman. The West Virginia University is taking up horticultural work in that state with great energy and is making great progress, as West Virginia has within the last few years risen to a high place in the production of fine apples.

The states that will send teams are Maryland, Pennsylvania, Virginia, West Virginia, Kentucky, Ohio, Delaware, New Jersey and Indiana. The teams will be ranked on three considerations: Proficiency in identification, accuracy in placing, and the approach of their score to the ideal score of the judges. The varieties

that are to be judged will probably be the following: York Imperial, Stayman Winesap, Rome Beauty, Winesap, Ben Davis, Gano, Jonathan, Grimes, Baldwin, Northwestern Greening, Maiden Blush, Wagener, Wealthy, Arkansas, Yellow Newtown, Fall Rambo, Yellow Bellflower, Delfelous, King David, Fall Pippin, Akin, Tompkins King, Hubbardstown, Stark, Winter Banana, Missouri, Oliver, Northern Spy, Rhode Island Greening and Roxbury Russet.

PROF. JONES TO GO TO PURDUE UNIVERSITY

One of the most serious losses to the staff of the College of Agriculture and Experiment Station that has occurred for a long time, is the resignation of Prof. S. C. Jones, who leaves November 15, to accept a better position with considerable more salary and chance for promotion, at Purdue University.

Professor Jones has been connected with this College and Station for about six years, before which time he was with the Soil Survey in Illinois. He is a graduate of the University and later took his Master's degree under Hopkins at Illinois. He is recognized by the United States Soil Survey officials at Washington, and by all those well informed on soil work in Kentucky, as the best man in Kentucky for soil survey work, and it is a matter of great regret that he should leave just as the mapping of Kentucky's soils was being put well under way by him, he having done most of the work in Kentucky practically single handed. It will be impossible ever to get another man who knows Kentucky soils so thoroughly, but it is to be hoped that the work of mapping the soils of the State will not be altogether dropped.

THE RELATION OF STOCK AND SCION

An experiment was carried on by the writer to illustrate the fact that in grafting operations the stock did not influence the protoplasmic properties of the scion's cells. Black Valentine and Navy beans were planted in pots, and as soon as about four inches high the navy bean seedlings

were grafted upon Black Valentine stocks. Approach graft was the method used. Black Valentine has dark black cotyledon and purplish stems, while navy beans have white cotyledon and pale green stems. If the stock had any influence upon the scion, as is believed by many people, it would have been natural for these grafted navy beans to produce black or purplish cotyledons and stems, as we know that white is strongly recessive to black. The results obtained showed that in spite of black and purplish properties of the stock, the grafted navy beans produced just as white cotyledons and pale green stems as those grown from navy bean seeds. There was a sharp line of separation where the two stems were united, and not even one cell on the separating line was observed to contain a single purple pigment. Even supposing that one-half of the white cell and one-half of the purple cell were united in grafting and a bud was formed and developed from this union, yet it would have produced a black, brown or purple bean, but one, with the half of its cotyledon white and the other half black.

Plant cells are independent from one another. It is impossible for the living protoplasm to pass from one cell to another, and it is still more difficult for the nucleus to do so; and as we know that the chromosomes contained within the nucleus are the hereditary factors governing the properties of a given cell, it is easy to see that there is no ground to suppose that the stock will have any influence upon the protoplasmic properties of the scion's cells. The stock is merely a passage to carry minerals and water towards the scion, and its functions stop there. Of course if the stock is of naturally dwarf growing habit, a scion with large growing habit will not receive enough minerals and become dwarf, but its fruit will be just as large and just as good. A sweet apple grafted on a sour stock will never produce even slightly acid apples, pears grafted upon quince stocks have never had the tendency to produce quinces. No matter what the characteristics of a given stock, the scion will perpetuate its properties without any interference.

LEON LEONIAN.

"JUNIOR NIGHT" AMONG "AGS"

The Agricultural Society held its "Junior Night" program Monday evening, October 19, and it proved one of the most interesting of the season. All numbers on the program were by Juniors, with the exception of a short talk made by V. A. Babbage, one of the 1914 graduates of the College of Agriculture.

Attendance in the society is excellent this season. About eighty members have been enrolled and nearly all were present to answer roll call. At the close of the program a short business meeting was held and several new members were initiated.

The program was as follows: "The Effect of the War on Horticulture"—W. C. Johnstone. Reading—Norman Terry. "My Experiences During the Summer"—Maryland Amburgey. Finale—Armiel Carman.

"AG." NOTES.

Prof. A. H. Gilbert has returned from St. Louis, where he has been in the interest of the Agricultural College.

The National Dairy Show will convene in Chicago Thursday, October 22 for a ten days' meeting. Prof. W. D. Nicholls, assistant dairyman of the

Experiment Station of State University, Jrof. J. J. Hooper, and four students of the Agricultural College; Phil Richards, D. B. Elliott, C. B. Taylor and B. Mahoney, who attended the cattle show at Waterloo, went to Chicago, Wednesday, where they will attend a big sale of Holstein cattle Tuesday.

It is too early to have any news from the dairy team at the National Dairy Show at Chicago October 23-29, but before the next issue of The IDEA it is expected that news of a "clean-up" by the Kentucky boys will have been received.

The team for judging fat stock at the Chicago International Live Stock Show just after Thanksgiving, will probably be made up within a short time. The squad trying out for the team has been doing enough work so that they have had a pretty fair chance to show their ability and after the choice has practically been settled most of the work will go to special training for the members of the team and alternates.

HOME ECONOMICS CLUB.

The Home Economics Club held its meeting Monday afternoon at 3:30 p. m., with quite a large attendance. Miss Lois Bartlett discussed "How the Household Arts Have Helped Me in My Own Home," while Miss Minnie Cramer talked on "How the Household Sciences Have Functioned in My Work in the Home." Both the discussions showed earnest preparation and were quite instructive.

A short business meeting followed the programme, after which the society adjourned.

The Home Economic students will be glad to welcome Miss Sweeney home next Monday. She has been out on extension work for the past three weeks and has been meeting with wonderful success.

A NEW ATHLETIC FIELD.

All students, as well as athletes, are aware of the fact that an athletic field is needed for the training of our teams. The information given out concerning the acquisition of a new field, by the local papers, was somewhat unofficial, as the committee has not as yet made any permanent arrangements with the city about taking possession of the "dump" in front of the campus.

There is much discussion as to where the field should be located. Provided the vacant lot could be obtained by the University, gridiron and baseball diamonds could be easily prepared, which might be used for weekly practice. This would leave Stoll Field for contest only and the result would be that the field would be covered with thick grass, furnishing an ideal gridiron and diamond, free of dust and other undesirable encumbrance.

The Athletic Association contemplates building a stadium in the future which will be of concrete, built a section at a time as means permit. The general opinion is that such a stadium could not be built on the dump after it was leveled, since much material used to fill up the deep holes would continue to sink for an indefinite period. This obstacle can be overcome by extending Stoll Field westward, with the entrance near Limestone, thus giving area enough for two gridirons on Stoll Field.

The idea of preparing an athletic field on the lot North of the campus is very inviting to the aesthetic eye, but is not a step possible. The location is of such that the entrance would be on the car line and would add much beauty to the surrounding campus. With our present field extended, the entrance would be within one hundred yards of the car line. Every one knows that this field is in a fit condition for a stadium and the name of Stoll Field is a familiar term to all old and present students of the University.

(o) OUR NATIONAL FLAG AND CLASS BANNERS.

Last May the University was proud to receive as a gift, our National flag, from the United Daughters of the Confederacy. The flag was presented with appropriate ceremonies and has since had a conspicuous place on our campus. The University and all concerned are proud of that banner and the students should not abuse the pole or flag by placing class banners on the rope or staff. These past occurrences were thoughtless and in a certain degree are evidences of immaturity.

Our flag that "May ever wave over the land of the free and the home of the brave," was purchased by blood and treasure of the most consecrated army that ever waged war. It is a symbol of our liberties and the sight thereof should cause the bosoms of freemen to thrill for ages.

In many places, as in the army, a gentleman and a loyal citizen lifts his hat when passing before the flag. This is a beautiful custom and our patriotic spirit should instill into each of us a desire to do likewise.

(o) PARADING.

The "bulldogs" of Mississippi Agricultural and Mechanical College went down in defeat last Saturday before the plucky "Wildcats," though outweighing the Varsity about twenty pounds to the man. Such victories furnish occasion for public demonstrations and parades. Saturday night, about seven o'clock, more than three hundred students, attired in night robes and pajamas, paraded harmlessly and joyously through the prominent streets of the city, and their conduct throughout was exemplary and a source of gratification both to the student body and the authorities of the University.

It is a source of peculiar pride to THE IDEA to be able to chronicle to the world that the time has come at last where State University young men seem to have decided that rowdiness is not sport and that wanton destruction of property and acts of public offense are not to be countenanced or continued.

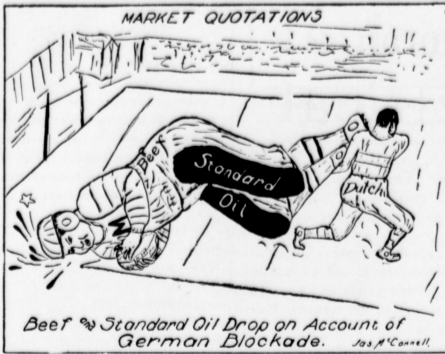

The IDEA, in this connection, is inspired to make just one more request. Henceforth when visiting teams come to Lexington, let us try to see if we cannot treat them more like guests and make them feel the movement of a Kentucky welcome, rather than to receive them as rivals and contenders for the trophies of athletic combat.

***** (o) *****
I'll be real lonesome when I die;
* HUM OF THE GADFLY * It will be tiresome up there, gee!
***** With no one but T. R. and me.

LIARS AND HEAVEN.

If liars cannot go on high,

If T. R. can pass the gate,

Cease bewailing you sad fate.

You may gamble all your tin
Ananias will get in.

—Albany Argus.

If that strong team makes the grade,
And good St. Peter is undismayed,
Why, peel your eyes an take a look
And you will see one old Doc Cook.

—Fort Plain Standard.

If Doc and Ana and T. R.

All go on high to play the lyre,
Look there for the guy, for there he'll
be,

Who said State'd lose to Miss'ippi.

The following telegram, censored by the Mississippi coach, was probably sent to Mississippi A. and M. just after the game Saturday:

"Mississippi A. & M.: Played Kentucky State at Lexington this afternoon. Score was (deleted) in favor of (deleted)."

For the first time in five years, the students carried the Blue and White team off the field on their shoulders Saturday. Carrying this weight caused some of the boys a little harder work than they were accustomed to, but as the odds on the game were 10 to 8, they no doubt received good pay for their labor.

In celebration of the game, the students formed an "evening dress only" affair and paraded the city attired in night shirts and pajamas. The co-eds did not take part.

One of the most important events of our social year is the institution of a new dance, which promises to become very popular among the smart set. This dance is known as the "thermo glide," and is novel in that the floor movements are executed on the four points of a PV diagram.

State's total football score to date in three games is 186 points to their opponent's 13. Another game or two and President Barker will have to go before the Legislature and make arrangements to secure an adding machine.

The easy running of the Mississippi backs in the first of the game may be due to the fact that their moleskins were covered with axlegrease.

W. L. Smith was up in the air Sunday morning after writing a letter to his most adored one, but he went "up in the air" at the top step of the Phoenix Hotel and stayed in the thin nothingness until he came down with stunning reality on the bottom step.

It has just come to light that three fair ones from the out-in-town clan went to the Freshman-Manual game with only one umbrella and the next day two of them went into the Lexington Drug Company and purchased new complexion.

Last week W. K. Thomas took a foolish notion to "doll up" for once in his life, so he got a hair cut, shaved, put on a white shirt and collar, had his shoes polished and started down the street. Five people he had never seen before spoke to him.

Director Anderson announces his intention of teaching dancing in his gym classes; not the ordinary hesitation or tango, but the old fashioned buck and wing dancing. Under such circumstances, imagine if you can, "Fats" McClure taking gym.

Freshmen at Northwestern University are subjected to an iodine massage and a bath of obsolete eggs, yet State yearlings, who only get their hair clipped, think they are getting a crooked deal.

That greased pants trick was invented by the gladiators in Rome and was merely resurrected for the occasion by the Bulldogs. A new trick now and then would be refreshing.

The Freshmen girls last week pinned yards of ribbon on their valiant heroes and adherents; "Red" Turner would let a fair one pin some on him and as soon as they passed on he would take it off and wait for another decorator to come along with more decorations. Before the day was over, "Red" had four and a half yards of ribbon.

The Sophs lost the tug-of-war but wouldn't go through the pond and what followed only goes to prove the Gadfly's contention that some people are so blamed opposed to taking a bath that they would fight over it.

Noel Williams says that Mother Experience has taught him that some people are so unlucky that every time they make a date for a dance it rains.

A member of the battalion, who braved the rain to meet W. J. Bryan last week, says Bryan may be a grape juice advocate and one of the "drys," but that day he was met by a "wet" delegation.

In view of the fizzle last Tuesday, the Gadfly makes the suggestion that the tug-of-war of the future be carried on by correspondence.

State University of Kentucky

Offers free tuition in all departments to the graduates of Kentucky High Schools who are prepared to enter the Freshman Class.

Each county in the State is entitled to send FREE of tuition, matriculation, laboratory and other fees, one or more appointees.

Necessary expenses moderate. For full information regarding appointees, courses of study, cost of board, etc., apply to

H. S. BARKER,

President, Lexington, Ky.

Mechanical and Electrical

EIGHT MEN TAKEN IN BY TAU BETA PI'S

Annual "Tap Day" Exercises Are Held in University Chapel.

At the annual "tap day" exercises of Tau Beta Pi, the national honorary engineering fraternity of State University, the new men elected were: G. L. Cherry, H. Y. Barker, G. B. Arnold, T. F. Elchhorn, C. S. Rollings, L. S. O'Bannan, K. P. Howell and M. C. Batsel. Mr. Cherry is the honor man from the Junior class.

The exercises were presided over by G. P. Aud, president of the local chapter. The old and new members marched in and after the fraternity colors were tied around the arms of the pledges, the program began.

Professor W. B. Freeman, professor of electrical engineering in State University, a member of Tau Beta Pi, gave a short history of the fraternity, after which Dean Paul F. Anderson spoke on "Tau Beta Pi Ideals."

The musical selections were given by Prof. Roy Young, violinist.

UNIVERSITY NOTES

The College of Mechanical and Electrical Engineering has secured a number of speakers to deliver addresses to the students of that college in the near future, among whom will be Wm. Gibson, prominent business man of Pittsburg; Fairfax Harrison, president of the Queen and Crescent railroad; George W. Stevens, president of the Chesapeake and Ohio railroad, and T. C. Powell, vice-president of the Queen and Crescent.

The proposed interurban route between this city and Richmond is being surveyed by a party of the Senior civil engineers, composed of R. L. Ehrlich, G. R. Allison, C. S. Rollings and J. R. Watkins. The work started Tuesday, and will be continued Tuesday, Thursday and Saturday of each week for about three weeks. When the outside work has been completed, maps of the route, including estimate of the cost of construction and design of the bridges across the Kentucky river, will be prepared.

The amateur entertainment, which is to take place on Halloween night at State University, will be a big event

of the social and dramatic calendar. There has been a number of entries for the various events and suitable prizes have been offered. Those who have entered for the dramatic readings are Misses Becker, Powell, Stout, Holton, Berkholder, Cregor, Kavanaugh, and Parker, Messrs. Frazier, Dean, Adams, Wolf, Bradford and Kallbreier in dramatic monologues. Messrs. Nicholson and Wilson are the entries in buck and wing dancing. Evans & Company will stage a one act play, and those who have entered the musical event are Miss Helen Agnew Soule & Company, and Charles Herz. There will be dancing after the program.

President Henry S. Barker addressed about fifty students in the Y. M. C. A. meeting held in the gymnasium building Sunday night. His subject was "The Freshman Team," and the Freshman class was well represented. Judge Barker spoke of the unlimited possibilities of every man and of each man's duty to make good those talents which he has.

The October Popular Astronomy contains an article entitled, "Discovery of the Ninth Satellite of Jupiter." This satellite is of the nineteenth magnitude and was accidentally discovered while photographing the eighth magnitude at the Lick Observatory.

Messrs. J. D. Bender and Clyde D. Kilso, both former students in the University of Tennessee, have entered State University. Their matriculation now raises the number of Tennesseans to eight who have recently entered.

President Henry S. Barker and Prof. C. R. Melcher have been requested to be present at the Ashland District Educational Association, which convenes at Paris in the near future.

President Henry S. Barker will go to Louisville Sunday, October 25, to open a chautauqua there.

President Barker and Prof. C. J. Norwood, of the mining college, will attend a miner's institute at Pond Creek, Johnson County, Ky., next week.

Dr. A. S. MacKenzie, dean of the graduate school, has recently sent out over a thousand bulletins to prospec-

ive graduate students, and is working untiringly to build up that department. At present there are about fifteen students working in the graduate school. Dr. MacKenzie has his office in the Weather Bureau Department.

Plans have been submitted by which Stoll Field will be extended 214 feet westward and 100 feet southward. When this is completed State will have two separate football fields and a separate baseball diamond.

State University Prohibition League a branch of the National League, met Friday evening, October 16, in the Y. M. C. A. building and elected officers for the ensuing year. The purpose of the movement is to get college men interested in the prohibition question. There are now in Kentucky six organizations which will compete next March in the Inter-Collegiate Prohibition Oratorical Contest, for a prize of fifty dollars in gold. The winner of this contest will represent Kentucky in the Southern contest.

Since the report is out that State University is to have a new athletic field, the Seniors in the Civil Engineering Department are preparing to make preliminary sketches of the proposed site. When this has been done it is probable that plans will be made for the stadium. This will be splendid practice work for the men and will consume some time.

The Mining Society will hold a meeting Friday night and the following men will be initiated: L. Reusch, J. McCorkle, L. Walters, J. P. Hill, Edward Flocken and J. T. Higgins. The new men are all Freshmen.

Prof. Frederick Hoffman has succeeded in producing a bronze peach tree. The foliage of the tree is pleasing to the aesthetic eye and it is an ornament to any lawn.

CIVILS TAKE UP WALK-BUILDING WORK

Work has been begun by the Civils in surveying and staking out the new concrete walks in the campus, which are expected to be completed before bad weather sets in. The walk from the main gate will be continued to the main building, along the side of the main building and in front of the old dormitory to the commons. A walk will also be constructed in the rear of the main building.

Each year a few hundred feet of these walks is constructed and it is confidently expected that the present generation will see the day when this work will be completed.

Y. M. C. A. CABINET HOLDS ITS SESSION

The cabinet of the Y. M. C. A., composed of Secretary Hall, Ira M. Nickell and the chairmen of the various committees, met in Secretary Hall's office Saturday afternoon, October 17. The meeting was called to order by Frank Kenendy, president, with L. E. Stanhauser, chairman of the Missions Committee; J. W. Linsay, chairman of Bible Study; G. F. Raddiser, chairman of Social Committee; Clarence Clark, Promotion Chairman of Arts and Science Department, present.

The matter in regard to distribution of hand-books was discussed. It was found that about 250 men have been interviewed with the purpose of enlisting their aid in the progress and benefit of the Y. M. C. A.

Plans will be announced later in regard to the revival meeting to be held here, February 6 to 8, were decided upon, as well as specific preparations for the convention of College

Y. M. C. A. of Kentucky, at Winchester, November 2 and 3.

CATHOLIC CLUB OF STATE GIVES DANCE

Interesting Program is Rendered and Leading Citizens Present.

The Catholic Club of State University gave a dance last Thursday evening at the U. C. T. hall, on Main Street. The guests of honor were the girls of the congregation of St. Paul's and St. Peter's, together with those who are staying at Patterson Hall.

The University colors (blue and white), were in evidence with an abundance of autumn flowers. The guests were received by President Philpot, of Owensboro, and the committee of Mr. Leo J. Sandmann, L. J. Emmert and E. A. Taylor.

The following patrons were present: Judge and Mrs. H. S. Barker, Dean Anna J. Hamilton, Mr. and Mrs. James Lyons, Mrs. Early Minter and Miss Marguerite McLaughlin.

Misses Margaret Benckart, Marguerite Welsh, Louise Keller, Agatha Welsh and Leo J. Sandmann sang pleasing solos. Several excellent compositions were given on the piano by Miss Myrtle Kesheimer, Mr. Louis Ginochio and Miss Zita Buchignani. Miss Mary Louise Michot gave a reading.

After the refreshments of ices, cakes and bonbons, the Rev. Father Punch delivered an address. The club has a membership of about forty-five members. This is the first of a series of social affairs planned by the club.

FRESHIES GIVE YELLS.

Following the University of Cincinnati the freshmen marched down to Government square and gave their class yells. About 30 of the first year men were in the bunch, and all fell in gay spirits on account of the fine victory over the Gamble aggregation. The Freshies have the right spirit this season and turn out for the contests in good numbers.—Cin. Enquirer.

RECORD OF PRIZES IN JUDGING

Proof of the ability of many of the State Agricultural students to judge live stock of all sorts properly is afforded by the string of checks for prize money won at the State Fair at Louisville last month and recently on exhibition on the main bulletin board in the Agricultural building.

"John, dear, I've got a lot of things I want to talk to you about."
"Good," said her husband affably. "Usually you want to talk to me about a lot of things you haven't got."

HENRY CLAY SOCIETY

Interest in the Law Society runs high. Monday night witnessed nearly every member present and a large number of visitors were also on hand to behold the proceedings of the evening.

Speaker Rountree, as usual, conducted the body of legislators in a masterly way and the assembly fell nothing short of the real "Kentucky Legislature" in dignity.

Several bills were reported by the different committees and one was reported by the Judiciary Committee, which was taken up as a special order. The bill was to prohibit the hazing of students in the State University. The bill was reported with some amendments, which caused the original bill to be called for. The house was immediately divided and several members arose to champion his respective belief. Debate continued until house adjourned. The same bill will be taken up first at the next session and argument continued. A hard fight will be made to pass the original bill.

HORACE MANN MEETS.

The Horace Mann Literary Society held its weekly meeting, Thursday evening, October 15, in Professor Noe's room in the Educational building. The two most interesting features of the meeting were the talks given by President Henry S. Barker and Professor G. M. Baker.

President Barker's talk was filled with praise and encouragement to the members of the society, while Professor Baker, on the subject, "Why I selected Columbia as the school in which I should do my graduate work," showed the advantages of Columbia as an Eastern university and is located in New York.

BIOLOGICAL CLUB.

The Biological Club met Friday, October 16, at 7:30 p. m., in the lecture room of the Agricultural Building. An invaluable program was rendered in the person of Prof. W. S. Anderson, subject, "Human Genetics." The lecture was thoroughly enjoyed by all. Professor Hofman then gave a very thoughtful impromptu address, which was followed by Professor McFarland.

The club was then called to order for a business session and F. T. McFarland was elected vice-president and G. C. Settles secretary and treasurer. After further business the club adjourned to meet some definite time as set by the executive committee. Announcements will be made as to the time, and all persons are cordially invited, especially those interested in biology and natural history.

A MISUNDERSTANDING.

Her lawyer was a bashful man, And plainly blushed as he began Her poor dead husband's will to scan. He smiled while thinking of his fee; Then said to her, most tenderly: "You have a nice, fat legacy." And when next day he lay in bed, With bandages upon his head, He wondered what the Hell he'd said.—Scraps.

OUT OF THE "HELL BOX"

"Remove your arm," she coyly said, In a tone of mild correction; "For can't you see it's a round about way Of expressing one's affection."

Dean Miller—"Have you had bacteriology?"
Freshman—"No-oo sir, I ain't had anything but measles and mumps."

M. Pisgah says: The only banking some fellers do is in the pool room.

Joy Rogers says that he ain't near so homesick when he can go down and see the train leave for home. It ain't the home but what you'd like to make a home for, that makes you homesick.

The latest book is, "She Stoops to Crank Her."

Their meeting it was sudden, Their meeting it was sad, The sacrifice her sweet young life 'Twas all the life she had. She sleeps beneath the daisies fair, In peace she is resting now, There is always something doing When a freight train meets a cow.

M. PISGAH'S "QUESTIONS AND ANSWERS."

Q.—What is a good cure for sunburn?—Anxious.

A.—Soak the face over night in buttermilk.

Q.—Should a boy kiss a girl on the hand?—J. P.

A.—Yes, if he can't find a better place.

Q.—What can I do to get into a fraternity?—Alexander Z.

A.—Better start one of your own.

If you want to kiss her neatly, kiss her sweetly and completely, If you want to kiss her so's to kiss her nice;

When you get a chance to kiss her, Make a dodge or two, and miss her, Then sock her on the kisser once or twice.

Rube Oldring, the Philadelphia outfielder, has been halled into court by his wife on a charge of non-support. Plank and Bender might well have the other athletics arrested on the same charge.

LISTEN, LADIES.

Whenever a girl gets too proud to marry a man with 100 acres of land and 20 red pigs, just because he wears blue jeans and can't tell the difference between the tango and a gin rickey, you can set it down as a fact that she will either die an old maid or marry some \$6 a week clerk with a head full of ozone and only one change of hole-proofs.

Better to be hooked up to some fellow who wears 50-cent overalls and knows when to hit the top of the market than to a "Percy" or "Algernon" who plays bridge, smokes Turkish cigarettes, and lives off his "old man's" pension. Still there's no accounting for tastes. That's why they're establishing courts of domestic relations here and there.

"Juice" Duncan—"Have any of you seen an old Babcock Electric?"

Earth (as usual)—"There are some in Louisville, but they are all late models."

"Juice"—"That's strange. They quit making them four years ago."

Need Lumber? Good Lumber?

It is not alone necessary that lumber shall be good in the first place, but good lumber to retain its goodness must have proper care and attention.

Every stick of lumber that enters our yards is carefully handled. Some is stacked on sticks, some piled in open sheds and some put in enclosed buildings, according to the individual needs. So, each piece will reach you in the best possible condition.

You will find, here, lumber for any purpose from the smallest operation to any ordinary undertaking.
