

PLEGDED---

To the lot of Alpha Tau Omega: Bob Nelson, Lexington, pledge class president; Bill Smith, Paris; Royce Pullen, Cynthiana; Rufus Pulliam, Cynthiana; Herbert Thompson, Ashland; Bill Allen, Paducah; Russ McMane, Louisville; Joe Shotton, Louisville; Evan Ray, Central City; Tommy Simpson, Central City; Jimmy Wickel, Ashland; John Bala-sola, Mexico City, Mexico; Jim Caswell, Doerfler, Ala.; Owen Vance, Dayton, Ohio; and Joe Palmer, Elizabethtown.

GERALDINE DUGAN of Rockford, Ohio, has been re-elected president of Epsilon Omega chapter of Kappa Delta sorority. Other officers include Mary McDonald, Frankfort, vice president; Frances Yontsev, Covington, secretary; Marion McVain, Cynthiana, treasurer; Norma Green, Paducah, a assistant treasurer; Martha Sue Crosby, Paducah, rush chairman; Virginia Mintz, Beckley, W. Va., assistant rush chairman; Jean Coleman, Lexington, summer rush chairman, and Carolyn Meyer, Henderson, editor.

Sig Ep Area Head Visits UK Chapter

C. H. Barnes, district governor of Sigma Phi Epsilon fraternity, visited Kentucky Alpha chapter Tuesday. Plans were discussed for celebrating the district convention in Knoxville the early part of April.

Hill Elects Officers

Gilbert Rappaport, law senior from Louisville, was elected president of Hill Top youth group at his last meeting. Officers who will hold executive posts are Irving Baker, Pauline Golden and Chester Stein.

Stage-Ex
James C. Stage of Lexington has received the presidential citation at his station on Ocean. Before entering the service two years ago he was a student in the University. He has been in Guam a year.

FROM THE GREEKS

By Janet Sulzer
ΝΕΟ ΠΡΕΤΤΙ Χ Χ Φ
Friday night, the night before the Louisville-wide celebrating the AEGEs entertained their dates with a dinner at the Club Madrid in Louisville. Spider Webb made the arrangements.

Since Friday night in Lexington probably would have been very dull, the Tau Alpha PIs were guests at a slumber party that night at Dorothy Leiby's home on East Maxwell. Both activities and pledges were present.

Mrs. R. L. Stiff, province director of Delta Zeta, arrived last Wednesday to be a guest of the local Delta group. The active members of Delta Zeta will entertain Mrs. Stiff with a dinner tonight at the Canary Cottage.

From 4:30-5:30 tomorrow afternoon, the Thetas will give a party for the Delta Tau Deltas. The Theta Mothers' club is in charge of arrangements.

Tonight, beginning at 8 p.m., the Kappa Sigma pledges will be honored with a party given by the activities. Guests include the boys' dates. Mac Pettit is in charge.

Tri-Dels going to Louisville for the game tomorrow night are: Frances Wickliffe, Betty Yeager, Beth Shipman, Helen Hardy, and Betty Broadbent.

The Kappa house will be the scene of a faculty tea from 7-9, Tuesday night. Freda Wade is in charge of the arrangements.

The Sigma Chi will hold open house from 2-4 today, in honor of Miss Frances Street, who was elected sweetheart of Lambda Lambda chapter of Sigma Chi last spring, and the other members of Delta Delta Delta sorority. John Allen is making the arrangements.

The Sigma Chi will be guests of the Zeta Tau Alphas tonight, when the latter group entertains with a party. It will be held in the Zeta house on Maxwell Street.

The SAEs are definitely going to move into their house at the beginning of next quarter, and plans are being made accordingly.

Activities and pledges of Sigma Phi Epsilon fraternity serenaded the women's dorms and sorority houses Wednesday night.

Pledges of Sigma Phi Epsilon fraternity will entertain actives of the chapter with a stag party tonight.

Officers recently elected for the pledge class of Phi Delta Theta chapter of Phi Sigma Kappa are as follows: Paul Grumbles, president; Charles K. Sexton, vice-president; William H. Bixler, secretary and treasurer. Pledges pictured here back row, left to right: Brenwale B. Bolton, and Michael E. Whitfield; middle row, left to right: William H. Bixler, Frankfort; James M. Rice, Ashland; Beresee Y. Campbell, Olympia; Charles K. Sexton, Carlisle; front row: George G. Judge, Carlisle; William L. Miranda, Ashland; Paul G. Grumbles, Ashland; Thomas E. Huzzey, Ashland; Harry Boez, Mayfield, was not present when picture was taken.

Women's League Submits Application To State Committee

The officers of the Campus League of Women Voters held their fifth board meeting Monday in the Union building. Mrs. Amy Vandenberg, adviser to the group, was present, and Mary Keith Dosker, chairman, presided. It was announced that the league has submitted an application for "associate membership" to the Committee for Kentucky.

The next general meeting will be held Monday at 4 p.m., in room 204, of the Union building, with Mrs. G. Moss Patterson of the Bureau of School Service as speaker. The program will be based on the education report published by the Committee for Kentucky.

Future plans for the league include election of officers, application to the faculty for recognition as a University organization, and a campus poll on "Have You Caught Up With the Atom?"

YM-YW To Hold 'Old Kaintuck' Party

Members of the YWCA and YMCA cabins will entertain their advisory boards and the husbands and wives of the board members with an "Old Kaintuck" party tonight at Maxwell Street Presbyterian church.

Eleven AST's Now At VMI

The following eleven members of the ASTP unit which left the University of Kentucky in January have gone to Virginia Military Institute for two more terms under the ASTP program.

John P. Condon, Charles L. Erickson, Ross T. Gault, Joseph H. Harrison, Jerome R. Johnson, John H. Knight, Robert A. Mintz, Harry A. Ruder, Richard M. Sims, William D. Stanley, and John Stephens.

Dr. Snow To Lead Y Panel Discussion

Dr. Charles Snow, professor of anthropology, will lead a panel discussion on race relations at a meeting of upperclass members of the YM and YWCA at 7 p.m. Tuesday in the Y lounge.

Members of the panel will be Jean Ritchie, Ann Garrigan, and Joe Covington. Ruth Anthony will introduce the speaker.

This program will continue a series begun at the last meeting by Representative Charles Anderson, Louisville, who spoke also on race relations.

Weddings and Engagements

FENMORE-WHITLEY
Mr. and Mrs. William Roe Fenmore of Lexington, announce the engagement of their daughter, Agnes Louise, to James Robert Whitley Jr., son of Mr. and Mrs. James Robert Whitley of Majestic, Ky.

Both the bride-elect and the bridegroom-elect attend the University, where she is a member of Chi Omega sorority and he is president of Lambda Lambda chapter of Sigma Chi fraternity.

HAGAN-HEATON
The engagement of Martha Danna Hagan to James N. Heaton, son of Mr. and Mrs. James A. Heaton of Lexington, is announced by her parents, Mr. and Mrs. F. G. Hasan of Lexington.

The bride-elect attended the University.

KNIGHT-PHILLIPS
Mr. and Mrs. Joseph Lee Knight of Nicholasville, announce the wedding, March 2, of their daughter, Josephine, to Harold Dudley Phillips, son of Mr. and Mrs. Otis Phillips of Nicholasville.

The bride-elect attended the University.

O'CONNELL-CAIN
The marriage of Margaret O'Connell to James Paul Cain, son of Mrs. Mary F. Cain of Middletown, Ohio, is announced by her parents, Mr. and Mrs. Michael O'Connell of Lexington.

Both the bride and the bridegroom are graduates of the University.

LAND-BLOSS
The marriage of Mary Louise Land and Fred Donald Bloss, son of Mr. and Mrs. Fred M. Bloss of Chicago, is announced by her parents, Mr. and Mrs. Paul W. Land of Eminence.

MILLER-LOWRY
The engagement of Mary Jane Miller to Lloyd Douglas Lowry, son of Mr. and Mrs. C. T. Lowry of Carlisle, is announced by her parents, Mr. and Mrs. Brucker Miller of Madisonville.

The bride-elect attended the University where she is a member of Alpha Xi Delta sorority for which she served as president of her pledge class and social chairman.

FULTON-MCCORD
The engagement of Betty Brooke Fulton to Walter Roberts McCord, son of Mrs. Walter Schrey and Dr. J. R. McCord of Atlanta, Ga., is announced by her parents, Judge and Mrs. William H. Fulton of Louisville.

The bride-elect attended the University where she is a member of Kappa Kappa Gamma sorority.

CURRENTS-HODGETTS
Mr. and Mrs. Guy Currents, Versailles, announce the engagement of their daughter, Doris, to James Hodgetts, son of Mr. and Mrs. W. A. Hodgetts, Covington.

The wedding will take place April 12.

FINDER AND LENORA FRATERNITY
The education department is headed by Gentry A. Shelton, under whose direction Mr. Stephenson executes the program.

HOLMES-BOYLE
Mr. and Mrs. Ben Holmes of Valden, Miss., announce the marriage of their daughter, Marguerite, to George Forrest Doyle, son of Mrs. Olive Doyle of Nicholasville. The wedding took place February 24. Mr. Doyle was graduated from the University.

TAYLOR-WRIGHT
The engagement of Elizabeth Venable Taylor to Albert E. Wright Jr., son of Mr. and Mrs. A. E. Wright of Mt. Sterling, is announced by her parents, Mr. and Mrs. Edmund Taylor of Greenville, Miss.

The bride-elect attends the University where she is a member of Kappa Kappa Gamma sorority. Mr. Wright attended the University.

DEAN-HAGER
The engagement of Dorothy Pemberton Dean to Lyman Hager, son of Mr. and Mrs. Arch Hager of Nicholasville, is announced by her parents, Mr. and Mrs. Sherman Dean of Nicholasville.

The bride-elect was graduated from the University and Mr. Hager attended the University.

LAYMAN-BROWNING
Mr. and Mrs. D. E. Layman of Franklin announce the engagement of their daughter, Mildred Louisa, to Carl M. Browning, son of Mr. and Mrs. M. B. Browning of Nicholasville.

The bride-elect attended the University.

LAND-BLOSS
The engagement of Louise Land to Don Bloss, son of Mr. and Mrs. Ted M. Bloss of Chicago, Ill., is announced by her parents, Mr. and Mrs. Paul W. Land of Eminence.

The bride-elect was graduated from the University and the bridegroom-elect attended the University.

OLDHAM-ORTENBURGER
The engagement of Margaret Arnold Oldham to Clark Kelloog Ortenburger, son of Mr. and Mrs. Charles William Ortenburger of Richmond, is announced by her parents, Mr. and Mrs. Harold Oldham of Richmond.

The bride-elect attended the University where she is a member of Kappa Kappa Gamma social sorority. The bridegroom-elect attended the University where he was a member of Phi Delta Theta social fraternity.

WYLIE-FOY
The wedding, Saturday, Feb. 24, of Jean Wood Wylie to Wallace E. Foy, son of Mr. and Mrs. Oscar Foy of Nashville, Tenn., is announced by her parents, Dr. and Mrs. Birch Wylie of Nicholasville.

The bride attended the University where she was a member of Kappa Delta sorority.

MARY JANE MILLER
Mary Jane Miller is an A and S senior from Madisonville, Ky. She is a member of the YWCA and Alpha Xi Delta social sorority. Marjane is political representative and social chairman for her sorority.

She is also a member of the staff at Guilford and at the Radio Studio.

Painting Continues Despite Tool Loss

Though handicapped by loss of tools and equipment in the service building fire the Maintenance and Operations department is carrying on spring repairs and painting. Mr. E. B. Farris, head of the department,

has set up a temporary office on the second floor of the Administration building.

In a letter to members of the department President Donovan promised that a new and better building will be built and encouraged members of the department to carry on until then.

Painting in McVey hall and the Union building is going on without interruption. "Most of the painter's tools and equipment was on the job and not destroyed in the fire," said Clyde Lilly, chief clerk of the department.

Workers are busy now finishing the painting of the great hall of the Union. The music room, card room, corridor, and the upstairs halls of the SUB will also be finished in the next week or so. In McVey hall the offices of The Kernel news staff and the editor have been finished.

Dr. William S. Webb, head of the University physics department, ponders—but not excitedly—the prospect of man's travel to the moon, adding, "I don't see why anyone wants to go there."

No Moon Trip For Webb

Prefers Teaching To Space Jaunts

By Myrtle Westheers

"I'm not at all excited about going to the moon," said Dr. William S. Webb, head of the University physics department, to The Kernel Tuesday.

"Imagination is quite alright," Dr. Webb commented, but added that uncontrolled imagination has no place in science. Real voyagers to the moon are more in the realm of Buck Rogers and Jules Verne.

The moon has no atmosphere, Dr. Webb pointed out, adding that man would have "considerable difficulty" in taking an atmosphere with him and making it stick where gravity's pull is far less than on the earth.

"Of course we could have wonderful track meets on the moon," he added, with the comment that, all other things being equal, a man who could jump 10 feet on Earth could whip off a 100-foot span on the moon. Otherwise, Dr. Webb sees no object in man traveling to this celestial body.

"It would be like climbing on a rock in the middle of one of the Great Lakes and then climbing off and going home."

"Why Go?" "I don't see why anyone wants

to go to the moon," Dr. Webb continued, pointing out that "there's nothing there to see, and if there were it would be pretty difficult bringing it home." Webb suggests that any information of any value about the moon could be obtained by sending rocket or jet-propelled ships to the moon with sensitive recording instruments in them—instead of men.

If a rocket ship can travel 1,000 mph, and the fastest one yet tested makes only 600 mph, the round-trip would take roughly 19 days. The moon is 240,000 miles from earth, and other near planets are millions of miles away.

Contact by radar with the moon could have been made, supposedly six or seven years ago, according to Webb. Excellent techniques were required, however, to make the returning radar wave detectable after its 480,000-mile trip to the moon.

The wave traveled at the speed of light, 186,000 miles per second, to the moon and returned to the earth in about two and one-third seconds.

Asked if he would board a rocket ship tomorrow and travel to the moon, Webb laughed. "No. I'll be in class tomorrow and the department of physics will go right on."

Admitting the possibility of man traveling to that body, he added that the trip would not be made in his lifetime and he would be quite content to continue teaching, because "I've never wanted to do anything else."

Children's Dislikes Prove Puzzling To Experimenters

By Margaret Dickey

One particularly stubborn child entered the room scowling and suspicious. He looked at the examiner and the conversation which followed went something like this:

"Did my mother send you here to test me?" "This isn't a test, sonny, and I don't believe I'm even acquainted with your mother."

"That's all right then. Let's get this thing over with."

And all because the Experimental Child Study class at the University of Kentucky is studying the likes and dislikes of children from grades one to six. The purpose is to determine whether or not there is an age or environmental difference in the like habits of children.

The study consists of twelve pictures of men and twelve pictures of women selected at random. The pictures are all the same size and are posted on the same kind of card. The child puts in one stack the pictures he likes and in another stack the pictures he chooses the

three he likes best and the three he doesn't like at all.

One of the pictures, a beautiful blond model, brought forth a number of varied comments. One little girl liked her because her hair was long and she looked like she could dance. Another child didn't like her at all because she resembled the Wolf Girl in L'il Abner. (He immediately launched a conversation about the latest installment.) A 10-year-old boy said nothing—he whistled.

During the test, the same boy just didn't like the way one man looked. He seemed to have no reason for his dislike when asked, but added as an afterthought, "He kinda looks like the principal."

Opinions were based on various things. One little girl chose her favorites on the beauty of the hair.

After fifteen minutes of this, the examiner began to feel a little uncomfortable. How did her hair look? One child looked up at the examiner and very thoughtfully said, "I'd probably like your mother and daddy, but I don't think I'm going to like you."

Ah, children!

Arthur Black Reigns As 'Lord 'n Master' Of Memorial Hall

By Roger Hicks

Arthur Black, the colored fellow in the white coat who is well-known to Memorial hall audiences as the man "who lifts the piano lid," has been lord and master of the auditorium for seven years.

Joked With Governors

During his many years' service at Memorial hall, he has come to know many important people. He has cracked jokes with Governor Willis and former Governor Johnson; he has presented flowers to Metropolitan sopranos; he has brushed the coats of forum speakers before they made their entrances; he has set the stage for the Christmas and Easter Chorus program; for that matter, he has done a little bit of everything to make conventions and musicales more polished and interesting.

Arthur, who is married and has two sons, is a veteran of the first World War, and he says that he is most interested in a number of forums held in Memorial hall concerning the war, since he saw service in England and France and is familiar with a number of the places and conditions mentioned in the discussions.

The colored janitor-overseer takes great pride in his building and ever strives to see that it is presentable for the various occasions and affairs which attract people to the hall.

Show Goes On

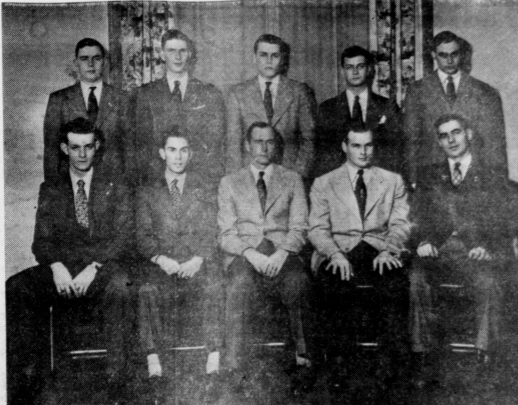

Programs ranging from Boy Scout conventions to Metropolitan musicales have come and gone during Arthur's stay, and, according to Arthur, anything can happen, although in this date every program has gone off smoothly; nobody has slipped on his newly waxed floors; no one has fallen down the steps; and as far as he knows, no one has passed out either on stage or back stage.

Board Okays Plans

(Continued from Page One)

announced Wednesday in Frankfort that the state fire and insurance fund is liable for \$202,473 in damages of the \$450,000 total loss of the old building.

Dr. H. L. Donovan reported that the executive committee, discussed appointments and other staff changes made at the monthly meeting include 13 in the College of Arts and Sciences, 17 in the College of Agriculture and Home Economics, and 10 in other departments of the university housing office of the Fed-

Du Pont Digest Items of Interest in the Fields of Chemistry, Engineering, Physics, and Biology

CHLOROPRENE RUBBER DEVELOPED BY DU PONT

Chemists and Engineers Unite to Produce "Neoprene," Prove Value of Group Research

THE synthesis of rubber was for many years a challenge to the chemists of the world. In 1925 Du Pont chemists undertook to solve the problem, using as

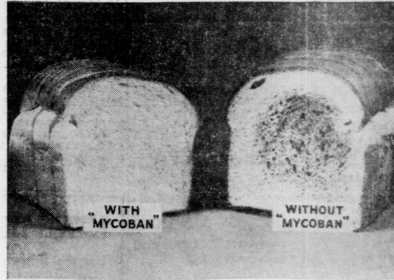

their starting point a discovery announced by Dr. J. A. Nieuwland at Notre Dame University in connection with the polymerization of acetylene. The Du Pont research staff modified his process to form a material known as monovinyl-acetylene and discovered that this, treated with hydrogen chloride gas, produced chloroprene, a chemical pro-

duously unknown. Their next discovery was that the polymerization of chloroprene resulted in a rubber-like solid, superior in many respects to natural rubber itself!

Neoprene, as this synthetic rubber is now called, was first placed on the market in 1931. Although more costly than natural rubber, the demand for it grew rapidly. Du Pont engineers were called upon to design and build manufacturing units embodying improved equipment and better production techniques. The result is that today neoprene production is measured in millions of pounds a year, and the price is only slightly higher than that of prewar natural rubber.

The development, the improvement and the large-scale production of neoprene are another tribute to the value of modern, coordinated research. Neoprene is the result of the cooperative efforts of many Du Pont research chemists, engineers and other technical men.

Chemistry extends the mold-free life of baked goods

A hungry world cannot afford to waste bread. Yet until recently millions of pounds of bread were being wasted annually in the United States because of mold. There was a real commercial need for a material that would delay the growth of this food enemy, if only for a day or two. But to meet requirements, this material had to be edible, wholesome, and completely beyond any suspicion of being toxic.

was found to be sufficient for average conditions.

Calcium and sodium propionates are made from propionic acid, the synthesis of which (from carbon monoxide and ethyl alcohol) is another chapter in the achievements of Du Pont research—and an interesting one. The propionates occur in low concentration in Swiss cheese and other dairy products, as well as in the human body. Hence their consumption in foodstuffs is both natural and safe.

"MycoBAN"—as the Du Pont propionates are called—is a shining example of how intensive research solved a problem which long perplexed baking technologists.

More facts about Du Pont—listen to "Carnivale of America," Mondays, 8 PM EST, on NBC

Questions College Men ask about working with Du Pont

"WILL I CONTINUE TO LEARN AT DU PONT?"

On-the-job training of new chemists and engineers is supplemented at many Du Pont plants and laboratories by training courses, lectures, and conferences. In 27 laboratory centers—chemical, biological, metallurgical, engineering, physical—new men are continually exposed to the thinking and direction of men who have given cellophane, nylon, polystyrene, and many other products to America.

Scribe Roland Explains Vets And Organization

By R. Clayton Roland
GIVE REPS ARE EARN'
Some worried souls around the campus have wondered just why the Veterans' club threw the original constitution out the window not long ago and adopted a new one. The best reason we have been able to find was it corresponded very closely to the Kentucky constitution—it was antiquated. We had a concrete example of this last week when representatives of the local club and eleven other Kentucky colleges met in Louisville with the idea in mind of organizing an "Association of Kentucky College Veterans' Clubs."

Women's Glee Club Presents Varied, Well-Chosen Program

The Women's Glee club presented its annual concert before a large audience Sunday afternoon at Memorial hall. Miss Mildred Lewis directed the group in a varied and well-selected program. The choral arrangements were sung in a style that showed excellent training and fine balance.

Helen Gibson Hutcherat, music major from Paris, was featured piano soloist on the program. She played a group of selections including "Prelude in B-Flat Major" by Bach, "Gavotte" by Prokofoff, and "Hungarian Etude" by MacDowell.

Miss Hutcherat played with grace and assurance, and she received enthusiastic applause from her audience.

Other numbers sung by the Glee club included "To Music" by Schubert, "Tomorrow" by Strauss, "With a Water Lily" by Grieg, and a group of American folk-songs: "I Wonder When I Shall Be Married," "The Arkansas Traveler," "Salangoudou," a Creole lament.

New pledges of Kentucky Epsilon of Sigma Alpha Epsilon are, standing, left to right: Ed Sutherland, Frank Long, Gene Hogwood, Bob Shearer, Hoyte Moore, Joe Holland, Turk Munson, Don Wood, Henry Newell, Ed Moss. Seated, left to right: Jim Bailey, Bud Tuel, Knox Trigg, Bryan Reed, Paul Rice, Jack Newton, Bill Cowgill, Baylor Van Meter, and Charlie Patrick.

Poetess Eunice Adams Is Student Ruth Settle

By Martha Yates
Ever hear of Ruth Settle? Probably a lot of students on the campus know her. What they do not know, however, is that a non de plume is hiding her from the public eye.

Under the name Eunice Adams, Ruth is recognized by critics all over the south as a promising poet of our time.

Ruth came back to the University this year after an absence of several years spent working in a war plant, in an Army camp, and traveling around with her husband.

'Boys From Home' Spur Parkinson's SEC Triumph

By Dora Lee Robertson
There might be a special reason for Captain Jack Parkinson leading the Cats to victory as high scoring man throughout the season and throughout the SEC tourney.

Could it have been that fourteen-cheering-lad-section from Yorktown, Ind? They came down for the tournament fully assured that Jack wouldn't let them down, and fully prepared to give him their whole-hearted support.

The fourteen, two of whom are Jack's older brothers, sat in a body in the middle section of the gym. They wore white sailor hats (which we bought at the dime store) covered in blue paper around the brims.

They carried large blue placards with white lettering spelling out "Kentucky" on one side and "Wildcats" on the other. Blue and white tassels on sticks could be seen waving in the air as each yell went up from this smallest but loudest cheering section in the Louisville Armory.

Negro Assemblyman Speaks To Y

As far as I am personally concerned, Kentucky has been wonderful to me; however, not all of my race have been as fortunate as I. Charles W. Anderson, Jr., Louisville, told Uppercross Y members Tuesday.

Anderson, who is the only Negro representative to the Kentucky legislature, stated that "To some extent, America is today what our forefathers intended it to be; yet it is not what we hope it to be in future years."

Representative Anderson, who said he was extremely interested in the reaction of the University students to the Negro question, then gave a number of problems that affect the Negro group as a minority in America.

In closing, Anderson asked for all races to co-operate and "help make democracy work on the home front."

Canterbury Club

The Canterbury club, recently formed on the University of Kentucky campus for the benefit of Episcopalian students, brings to four the number of such organizations at UK. Others are: The Newman club for Catholic students; the Pitkin club for Presbyterians; and the Hiller group for those of Jewish faith.

lyric, in an occasional tone. Everyday subjects are set apart by Ruth, making them seem natural and yet important and distinctive again.

Although Ruth married in 1943, she plans to continue her writing and not discontinue it for a domestic career.

Reviews of "Souvenir" are now in the campus bookstore, and her book is available by order.

WAA News

The Women's Intramurals started with a bang Tuesday, March 5, when the Tri Delta took the Chi O's 14-10, and the Theta won over the Kappas 15-5.

The teams entered are as follows: Tri Delta, Chi O Theta, Kappa, Alpha Xi, Kappa Delta, WAA, and an inter-society team. The games were continued through the week.

Scores for Wednesday's games are WAA 19, Kappa Delta 17; Tri Delta forfeited to Kappa Alpha Theta; WAA 22, Alpha Xi 12.

Games to be played Friday are Kappas vs. Kappa Delta, 3-45 at University gym; Tri Delta vs. WAA, 7-45 at Women's gym; Alpha Xi vs. Kappa Alpha Theta, 4-15 University high gym, and Chi Omega vs. WAA, Women's gym.

Jack Tingle

Ralph Beard

Captain Jack Parkinson was the only unanimous choice by all the sports writers and radio men voting. Wallace (Wah Wah) Jones got 27 out of a possible 40 votes for the center spot. Jack Tingle drew 36 for a forward position, while Ralph Beard collected 39 votes to become the other guard.

It is the third time that Parkinson and Tingle have made the first team in their three years at UK. Both boys made the team in their freshman and sophomore year. Now, Jones and Beard having made the team in their freshman year have an opportunity to continue and equal this record. Wilbur Schu, the remaining Kentucky starter, was selected as one of the forwards on the second team.

Bobby Lowther of LSU turned in some fine conference play to best Schu out and take the final position on the first team.

In addition to Schu the second team was composed of Carl Shaffer

Time Out!

By O. C. Holyard Jr.

The recent request by other members of the Southeastern Conference that Coach Rupp bring his glory-laden Kentucky Wildcats on more frequent visits to the south next season and participate in more conference games was a pleasing one to me and must have been extremely pleasant to Rupp's ears. In his 16 years as head manager at Kentucky, Rupp has been striving to promote basketball in the Southeastern Conference. Until now, however, athletic directors of the southern schools have shown little interest in developing the hardwood sport.

Already agreements have been reached to pit the Wildcats against all other conference teams except Florida and Auburn. The Gators and the Plainsmen refused games with the Wildcats because they didn't think their teams were strong enough to warrant Kentucky's coming that far south. In addition to playing in a Sugar Bowl basketball game next year, the Wildcats have several double-headers scheduled throughout the south.

Having just returned from the recent Southeastern Conference Tournament in Louisville, we along with many others, however, Louisville has made a proposition out of it with the type of basketball contributed by some of the contestants. If it weren't for the great Kentucky following throughout this section, and the desire by enthusiasts around here in southern Indiana to see basketball, we could believe the tournament committee would have to meet and decide what to do with the profits. At last maybe the other teams have realized that unless the competition becomes more keen, the crowds will begin to get smaller every year in this basketball section.

To quote Shakespeare, "The die is cast." The other teams in the conference have shown a desire to improve their basketball and Coach Rupp has shown a willingness to help them. By scheduling games with Kentucky they hope to promote interest in basketball in the south. And when fans get interested, they will demand better teams. And when the schools develop better teams, competition in the Southeastern Conference tournament will

Ky-Temple Game Saturday

By Don B. Towles

The Kentucky Wildcats will endeavor for the second time to overcome the opposition of Temple University tomorrow night in a cage tilt at the Jefferson county arena. The Cats met and were defeated by the Temple Owls at Fallsdellphia on the first day of January by an eight-point margin, 53-45. Last year was the first time that a Kentucky team had ever met a Temple team and they overcame them by a score of 45-44. This game was a close one, with first one side and then the other leading, but the Kentuckians came out on top when the final whistle sounded.

This year, the game was close but Temple held the lead most of the time. Kentucky had only two days before, defeated St. John's University 73-59 and by game time the fresh Temple squad was too strong to overcome. This was one of the two defeats Kentucky suffered this season, the other being by Notre Dame on January 26 by a score of 56-47.

Last week the Wildcats won their third consecutive and eighth Southeastern Conference crown. The opposition the Wildcats overcame to win the final game for the coveted honor was very strong and it is doubted by many basketball-minded fans that the Temple team will be much stronger.

Coach Rupp announced last Sunday that the Wildcats were in fine shape and that all they needed to be kept in this condition was light

Coach Bryant Disappointed Over Tryouts

By Don B. Towles

Coach Bryant announced that football practice will be discontinued after tomorrow. The team has been practicing for the past few weeks and Coach Bryant feels that the coaching staff has had ample time to "look 'em over."

About 69 players started practicing but the number has now been cut to about 30. Coach Bryant said that the team looked good physically but that the spirit of the Kentucky team was bad. He also said that the team did not have competitive spirit and that only a few of the players had any spirit at all. He further stated that the Kentucky team has less spirit than any group of boys that he has ever coached.

The practice so far have consisted of nothing but conditioning drill, which are rather dull to the team. Bryant said that he knew his boys did not like that kind of practice but that they must have conditioning work in order to get into shape. He said that the object of these practices was to give the boys a chance to look over the team and see how much material Kentucky has.

Out of the whole group of men in the field, Coach Bryant said that not one good team could be picked. If a team were picked, they could not expect to beat any team in this section. He stated that the coming football team at Kentucky just have plenty of zip, fire, and determination to win if they expected to make a decent showing in the coming season.

When asked about the prospect of high school grads, who will enter school this fall, Coach Bryant replied that he hoped there would be plenty of boys with plenty of spirit and, if necessary, the football team would be made up of many of the high school men. He said that the team must have young men with the determination to go forward and win.

Charlie Coons, one of the players who has plenty of "get up and go" about him, will be a great help to the team as a back and a splitter, said Coach Bryant. Another work working: if not the hardest, it is the most important. And when competition becomes keener, the greater the demand for tickets to all games.

In three years, about the time required to improve basketball play in the conference, Kentucky will have her new field house with a large seating capacity. You 2-2 = 4. That's just good arithmetic.

Cats Defeat Auburn, Florida, Bama, LSU In Tournament

'Cats Score 256 Points; Foes 122

By "Hal" Vard

Turning in their best brand of play for this far this season, the Kentucky Wildcats operated smoothly in all four games to walk off with their third successive Southeastern Conference crown. The Cats clicked together as a team, and turned in almost flawless play throughout to win with little trouble, their eighth tournament and ninth conference championship. In 1935 no tournament was played, but Kentucky was conceded the championship on a percentage basis.

Kentucky scored 69 points each in the first two contests, and 59 each in the last two games to overcome their opponents by 45, 37, 29, and 23 points in that order as they advance to the championship. They defeated Auburn by the score of 69-24, Florida 59-32, Alabama, 59-30; L.S.U., 59-36; to give themselves a tourney average of 64 points per game, while holding their opponents to 39 1/2 point average.

It was Kentucky all the way with Parkinson Leads Scoring. Captain Parkinson leading the scoring, by turning in excellent play. The Cats had little trouble overcoming Auburn in their opening held Thursday night. The Plainsmen scored first on a field goal by Quentin Burgess, and Tingle came light back for Kentucky, and the Kentuckians were never behind again. They held a 29-14 count at inter on last year's team, but is being developed into a back for the coming team.

Two other backs, who could develop by next season are lightning "Dopey" Thesis and "Doc" Ferris. Both these men have showed up "pretty well" in practice and might be able to help the team by next year.

Gene Hass and Bobby Green have shown up well in the position of guard while Wes Sietel is the only back who has made any showing on the Wildcat squad. Jay Rodever is a likely possibility for the position of center.

Coach Bryant said that he hoped he would be "pleasantly surprised" by the team but that much more spirit must be had by the entire group if a winning football team was to be had by Kentucky.

Against the Florida Gators in the quarter finals, Jones started the scoring with a free throw and after Bob Ryan had tied it out, Beard put the Cats back ahead with a field goal. After that it was all Kentucky with the half time score standing at 35-17. The Wildcats' second team who had finished the first half started the second half and played the majority of it.

In the semi-finals, the Crimson Tide of Alabama who had upset Tennessee the night before, scored first and advanced their lead to 8-1 in short order. The Cats began to move slowly, and nine minutes of playing time had expired before Parkinson and Beard dropped through in close order successive long set shots that tied the score at 14-14. Charley Shaffer put Alabama back in the lead on a charity toss, but Parkinson quickly tied it up again, and Jones dumped in a field goal with nine minutes left in the half to put the Cats back on top to say. The half time score was 12-18. The second team went in after the score had climbed to 37-19, and finished out the period by accounting for 22 points and holding the Tide to 11.

LSU, Poisoned. Louisiana State's poisoned Bengal Tigers started rugged and Kentucky had a 7-1 lead early in the game which they advanced to 16-5 by the first period was half gone. However, LSU fought back and was behind only 31-17 at the rest stop. The Tigers scored first in the second half and despite their stubborn fighting spirit were unable to do much and the Wildcats led 59-31 at the automatic time out. At this point the entire second squad came into the game and although they were unable to hit the basket in the many attempts they made, they held L.S.U.'s first team to five points. The last minute and one-half of the game was scoreless.

Individual scoring for the tournament were:

Player	fga	ftm	fta	pts
Parkinson	56	21	14	56
Beard	40	12	16	50
Tingle	47	12	11	35
Jones	42	19	9	29
