SEED INSPECTION IN KENTUCKY, 1957-1958

The twenty-sixth year of operation of the Kentucky Seed law began May 1, 1957 and closed April 30, 1958. During this time 813 official samples were taken from the various lots of seed inspected.

Enforcement officials have passed upon all violations and irregularities and helped to solve many of the problems of farmers and seedsmen.

EXPLANATION OF TABLES

The following tables show the results of analysis of official samples. Table 1 shows the percentages of purity and germination stated on the tags and the percentages found, a statement of excessive amount of noxious weed seeds when present, irregularities in tags, and absence of tags. The variations allowed in purity, germination, and weed seed per ounce are described on pages 36-39, USDA Service and Regulatory Announcements, No. 156, Rules and Regulations Under the Federal Seed Act, reprinted August, 1956; paragraphs 201.59, 201.60, 201.63, and 201.65. Results within the allowed variations are marked with "+" if above, or "-" if below statement on the official tag.

Variations greater than those allowed constitute violations of the Kentucky Seed Law, and such results are underscored. In the table, "L" means listed on the tag and "F" means found in our test. The long line means "not listed."

Table 2 shows violations found in samples classified according to wholesale dealers from whom they were purchased.

Table 3 contains a summary to show the kind and number of violations detected.

The percentage of unlawful samples this year is 4.05. This is the lowest percentage of unlawful samples since the current seed law was enacted in 1932. The average for the last 3 years is 6.41 (1957 - 4.05; 1956 - 8.98; 1955 - 6.20).

The educational program of the Department of Entomology and Botany has continued as usual. The fine cooperation of seedsmen and farmers has placed the general seed situation on a safer basis than ever before. The more general reading of the State Seed Tag and the more careful interpretation of its message are pointing the way to a greater satisfaction among those who deal in seeds.
