Minutes of Meeting of the  
Board of Trustees of the University of Kentucky  
June 4, 1918

The Board of Trustees of the University of Kentucky met in regular session at 11:00 o'clock a. m., on June 4, 1918, with the following members present: Governor A. O. Stanley, J. I. Lyle, R. C. Stoll, P. P. Johnston, Jr., J. R. Rash, Rainey Wells, and Superintendent V. O. Gilbert, the seven members present constituting a quorum of the present membership of the Board. The meeting was called to order by Governor Stanley, who feeling obliged to go to the barber shop, called Mr. Stoll to take charge of the meeting, and authorized President McVey vote in his place on all matters requiring a vote.

The minutes of the previous meeting were read and adopted, and the Board proceeded to the election of officers. On motion made by Mr. Lyle and seconded by Mr. Gilbert, the officers elected at the previous meeting were continued for the ensuing year. These officers were:

R. C. Stoll, Vice-chairman  
Wellington Patrick, Secretary  
John R. Downing, Treasurer,  
R. C. Stoll, Chairman, Executive Committee, and  
Messrs. Ernst, Gordon, Elliston, and Johnston as members.

The President was then called on to report any matters which he might have to present to the board. President McVey then presented the names of the candidates for degrees, which were as follows:

Mr. Lyle: Mr. President, I note in the list that you have just read, that you are presenting the names of a number of candidates who are receive the degree of Bachelor of Science in Mechanical Engineering. Why should the words "Bachelor of Science" appear in this degree?

President McVey: To more nearly conform with the customs that prevail elsewhere. I think it distinctly superior for it to appear in this way.

President McVey: Gentlemen, I recommend that the degrees herein presented be authorized.

On motion made by Mr. Wells and seconded by Mr. Rash, the granting of the degrees recommended by the President was authorized.

President McVey then proceeded with his report to the Board, which was as follows:

The President further reported that Mr. John C. Olmsted of Olmsted Brothers had visited the University grounds two or three times and that he expected to receive a preliminary report on plans for the Campus from him in a few days. He further stated that Mr. Olmsted had recommended that Mr. Arthur Coolidge of Boston be employed as advisory architect to work jointly with Olmsted Brothers.

A discussion of the report of the President then followed.

Mr. Stoll: Mr. President, I am opposed as a general proposition to building temporary buildings at the University. President McVey mentions the possibility of building wooden dormitories that would cost perhaps \$50,000, and they would be fire traps. We should have permanent buildings, for we have too many bad buildings as it is.

President McVey: I agree with the proposition that the erection of temporary buildings is a very bad thing to do, but it is necessary to take care of the boys and such buildings would be more fit than what we now have. I should not make this recommendation except that at the present time it would be practically impossible to secure labor and material to build permanent buildings. Of course these buildings would be replaced by permanent structures later.

A general discussion of the plans followed, and the point was made by Governor Stanley that there is too much heterogeneity in architecture at the University, and that some type of architecture should be worked out and conformed to in the future. Governor Stanley further advanced the idea that the old dormitory might be rearranged and used for housing drafted men.

President McVey said on this point: This plan might be feasible if it were not for the fact that there are a number of other matters that have to be taken care of at the same time. In addition, the old dormitory would not care for more than 150 men and we should have to build barracks anyway.

On motion made by Mr. Lyle and seconded by Mr. Stoll, President McVey was authorized to make arrangements with Mr. Arthur Coolidge of Boston to act in the capacity of an advisory architect.

On motion made by Mr. Stoll and seconded by Mr. Wells, the President was authorized to enter into a contract with the United States Government for the training of enlisted men. The arrangement of the details was left to the President.

With reference to the building program presented by the President, the following motion was made by Mr. Gilbert: I move that the whole matter of rearrangement of buildings be referred to the President and Executive Committee with power to act.

Mr. Lyle: I desire to offer an amendment to the motion that it is the sense of the Board that a gallery should not be built in the Chapel unless there is an outside stairway leading to it.

Mr. Stoll: I desire to offer further amendment that it is the sense of the Board that except for the use of drafted men, that it is the sense of the Board that no temporary or wooden buildings be built unless it should become a matter of necessity.

After discussion, the motion as amended was adopted.

President McVey then continued his report by recommending offering the following appointments, resignations, transfers, and leaves of absence, which were approved:

The roster of salaries was presented to the Board by the President, and on motion duly made and seconded, adopted by the Board as the salary roster for the coming year.

The president then presented the following appointments, resignations, transfers, and leaves of absence, which were approved as presented:

The President's recommendation regarding Dean Anderson was taken up and discussed, after which the President said: "I desire to modify my recommendation, and recommend that he act as Dean of the College of Engineering at the same rate salary that he now receives for a period of one year from the time I came to the University, which would be until next September. This will give me time to read the fourth volume of the testimony given before the Probe Committee, which I have not read, and it will also give me time to make further investigations regarding the criticisms which have been made against Dean Anderson."

The President then said: The matter of the Dean of Women is a question that has been giving considerable concern, and after careful consideration, I desire to make the following recommendation: That Miss Anna J. Hamilton, Dean of Women, be granted leave of absence for one year on full pay, and that at the end of that time her connection with the University shall cease. In view of her long service and the difficulties under which she has worked, the recommendation is made that she be granted this leave with pay.

After discussion, motion was made by Mr. Stoll and seconded by Mr. Gilbert that the President's recommendation be accepted. <sup>On vote</sup> The motion was carried unanimous.

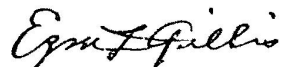

The hour having arrived for the Installation exercises, the Board adjourned.
