

Oct. 27, 1939.

Mr. C. E. Bowman, Agent,
L & N Railroad Co.,
Benham, Ky.

Dear Sir:

The following WSWX car was placed on our track for loading on October 25th, but it was necessary to return it to the L&N Yard account of being damaged:

No. 237 - Slid-flat wheels, R&L-1, and R&L-3.

Will you please call this to the attention of the proper authorities in order that we may be furnished with Defect Card covering this damage. We are anxious to get this car back into service as soon as possible, and your prompt attention to this matter will be greatly appreciated.

Yours truly,

WISCONSIN STEEL COMPANY
