

WOMEN'S GLEE CLUB PRESENTS SUNDAY RECITAL

Mildred Lewis Directs Fifty Voices in Varied Program; Martha Durham at Piano

SOLOIST IS MARION CONNELL, PIANIST Native Songs Received With Delight by Non-Capacity Audience

By FRANK BURGER Take fifty voices with fifty selected voices, and a capable director and an outstanding soloist and you have an explanation of why the University Women's Glee club, directed by Mildred Lewis and featuring Marion Connell, pianist, gave one of the most enjoyable performances in the present Sunday afternoon musicale series. The program was given Sunday at 4 o'clock in Memorial hall.

The girls appeared in formal gowns of various bright colors, adding to the program a refreshing sparkle like the coming of spring. Miss Connell displayed an admirable technique and charming interpretation. Her numbers were taken from the works of Bach, Chopin, Mendelssohn, Bachmann, and Liszt. Encores were demanded after each appearance.

The Glee club, accompanied by Martha Sue Durham, demonstrated remarkable versatility, their selections including chorales, vocal novelties and even "Down in the Valley," a Kentucky mountain song. The latter, however, was sung in a style vastly different from that employed by "hillbilly bands."

Bach-Chopin's "Meditation" was beautifully featured by the club, accompanied by Lela W. Cullis, organist; Martha Sue Durham, pianist, and Lee Crook, violinist.

A murmur of delight swept through the audience even before the group started to sing "Short-nin' Bread."

Despite the popularity of the performing group, a noted refreshment and perfect weather the audience did not fill Memorial hall. Many persons could have been comfortably seated. Either Lexingtonians are not appreciative of such performances, or the musicians were not sufficiently publicized.

SCIENTISTS ATTEND MEETING The Departments of Physics and Mathematics of the University attended a series of lectures given at the University of Cincinnati in Lexington last Saturday. Dean Paul P. Boyd of the College of Arts and Sciences was one of the principal speakers at a dinner given Saturday night.

STOLEN GOODS RECOVERED Apprehended for stealing suitcases containing clothing from Jane Proctor and Jane Thurston at the Alpha Delta Theta house, two negro children were arrested yesterday. The bags and contents were valued at approximately \$100 each by the police.

Kampus Kernels There will be a Sigma Delta Chi meeting at 8 o'clock tonight at 324 Aylesford. Mr. Sulzer will entertain, with Mrs. Sulzer assisting, and the usual refreshments will be served, to be paid by the chapter. Everybody come.

Free tickets for the lectures of Toyohiko Kagawa, internationally known Christian leader, will be given Wednesday, March 11, at Woodland auditorium, will be ready for distribution Wednesday, March 11. Tickets are at the University Y. M. C. A. and Y. W. C. A.

The Social Service group of the Y. W. C. A. will meet at 3 p. m. Wednesday, at the Woman's building. The Bacteriology society will meet at 7:30 o'clock tonight in Room B-14 of Kastle hall. Members and friends are invited.

Vienna Choir Boys to Be Presented Tomorrow Night At Henry Clay Auditorium

Admission Limited to Members of Group; No Single Tickets to Be Sold At Door

By R. D. MCINTYRE The Community Concert Association of central Kentucky will present as the fourth attraction of the season the famous Vienna Choir boys, one of the most interesting choral ensembles touring the country today, at 8:15 o'clock on Wednesday evening March 4, 1936 in the auditorium of the Henry Clay High school. Admission will be limited to members of the association and no single admission tickets will be sold at the door.

The school in which they were founded by the Emperor Maximilian in 1498. These singing boys have toured America for four years and have won lavish praise from the critics in every city in which they have appeared. Their program is divided into three parts, the first being devoted to music of the church. The second is a one act opera presented in costume, while the third is a group of secular songs.

The Community Concert Association is entertaining the choir boys from the choir school of St. Peter's Catholic church and the boys who trained under the Emperor Maximilian in 1498. These singing boys have toured America for four years and have won lavish praise from the critics in every city in which they have appeared. Their program is divided into three parts, the first being devoted to music of the church. The second is a one act opera presented in costume, while the third is a group of secular songs.

The program to be presented is as follows: I. Replete Bunt (for eight parts)..... J. Gailus Venient..... J. M. Asula The Virgin's Slumber..... Max Regier God in Nature..... Schubert II. Der Haensliche Krieger (A Song about a group of children)..... Schubert Especially arranged for the Vienna Choir Boys (Entire Ensemble in Costume) III. German Dance..... Schubert Little Sandman..... Folk Songs Madrigal..... ruck..... Arr. by V. Gombos Tales from the Vienna..... J. Strauss Dean..... Rector Josef Schmitt Musical Director Victor Gombos.

Riflewomen Face Wide Competition The Women's Rifle team swung into a week of competition with the best shooting it has done in two years, by turning in a count of 498 against Penn State, Maryland, Vermont, and Washington.

Dorothy Harris led this week's team with a possible 100. The ten girls who shot best this week besides her are: Carrel, 99; Bach, 98; McKinney, 98; Nevin, 98; Gibbs, 97; Allison, 96; Evans, 96; Gross, 95; and Gies, 94.

The squad as a whole shows a great improvement over its first week of inter-collegiate targeting in which it won two days, lost one, and lost one. Kentucky turned in a 489 against Connecticut State's 482, South Dakota's 498, Michigan's 489, and Missouri's 489. The Michigan furnished the results of its five man team only, they have been invited to forward more information.

Joe Penner, Jimmy Durante Type Appeals To UK Coed

By BETTY BURPHY Not in accordance with the usual wish of a poor, secluded, shut-in dormitory girl for a "tall, dark and handsome" man in her life, the sweet young things of Patterson hall have decided that they would prefer someone like Jimmy Durante or Joe Penner to be the light of their lives.

There is nothing in all the world like a good "horse laugh," and a ridiculous lover would at least keep a girl amused, while a handsome man would probably consider himself King Tut after romance had waned, and would expect to be believed when she tells him she was bended knee, and have his sex darned without knots on the heels. Things which can be accomplished only by a genius.

The ideal man would take his wife (or somebody else's) out to dinner every night, to a show afterward and then to come to a very classy place to dance to the music of the delightful Hal Kemp. Of course, there must be a trip to Florida every winter, Atlantic City in the summer, and oh, various places in the spring and fall. A perfect man is one who knows his own mind, tells his beloved what he wants, and has the reliable old line to another and then believe her when she tells him she was only fooling. He must trust her implicitly, believing anything in the world she tells him, no matter how fishy it may sound.

U.K. STUDENTS HURT IN CRASH

Lexingtonian Is Killed As Car Collides With Truck on Georgetown Pike, Early Sunday

Three University students received slight cuts and bruises and another escaped injury when the car in which they were riding collided with a truck early Sunday morning on the Georgetown pike. Jack A. Claus Jr., of 211 Waller street, Charles Jones, Manchester, and Miss Alice Aubrey, of 222 State street, was seriously injured in the crash.

Ernest Whitl, Pikeville, University student; Bert Combe, Manchester, University student, and Evelyn Marksbury, Lexington, University students, received cuts and bruises. Whitl was also injured in the rear of the car but escaped injury.

According to Combe, who was sitting in the rear seat beside Claus when the accident occurred, Whitl, driver of the car, apparently lost control of the automobile after passing another car that was moving along in front of the truck. Combe said he could not see the highway, nor did he see the truck until the collision. He said that the Whitl car bounded crazily from the highway after the crash and landed in a ditch about 50 feet from where it collided with the truck.

Officers who investigated the accident said that the rear end of Whitl's car was demolished, and that the side of the body on which Claus was sitting was caved in and badly mangled.

Dr. L. H. Carter To Address Engineers "Social Security" will be the subject for a discussion by Dr. L. H. Carter, of the College of Commerce at an Engineering assembly to be held at the third hour Wednesday, March 4.

Clark Writes Article An article entitled "The Slavery Background of Foster's 'My Old Kentucky Home,'" by Prof. Thomas D. Clark, of the History department of the University, appeared in the January issue of the Filson Club History Quarterly.

Campus Hop Will Be On March 13 The next All-Campus dance will be held in the Alumni gymnasium Friday, March 13. Andy Anderson, of the College of Commerce, is planning the affair, which will last from 8 until 10:30 p. m. The price of admission will be 25 cents as usual.

Joe Penner, Jimmy Durante Type Appeals To UK Coed (Continued) He must make a tremendous and gigantic fuss over her, as all girls desire. One of the foremost qualifications for Mr. Ideal is: he must like "Star Dust"; he must adore it. It seems that the song, "There's Something About a Soldier" should be revised to say "There's Something About a Red Head." By interviewing a number of girls we have found that there seems to be a partiality to a "rusty" lurking in the corner of every girl's regard. What is this strange power they possess to quicken the pulse and cause a slight palpitation in the heart? I guess that that is the problem confronting the American people today.

Perhaps moustache appears debonaire and sophisticated to some females, but to only a few. The majority of girls regard them as silly and uncalculated. As worn by Warner Baxter, well, that is a different thing, as there is only one Warner Baxter in the world, but we won't go into that.

Not only necessary, but also very convenient, is a snappy car equipped with heater, radio, cigarette lighter, ash tray and cigarettes. It is not real cute, matches will be sufficient. All this bunk is my idea, of the best man; but if you queer trick of fate, there did happen to be such an animal in existence. I sincerely hope I never run into him.

FAMED CHORISTERS Tennessee Defeats Cats 39-28 In Semi-Finals Of Southeastern Tourney

Kentuckians Are No Match for "Red-Hot" Vols Who Draw Away in Second Half

Kentucky's Wildcats, after conquering Mississippi State 41-39 in the opening round, dropped a 39-28 verdict to Tennessee last Saturday night to eliminate themselves from the annual Southeastern Conference basketball tournament at Knoxville.

The Wildcats were forced to the limit to win over the Staters in the closing minutes and faltered badly against Tennessee in the closing half to give the Vols a decisive victory. The second victory by the Volunteers scored over Kentucky this season and the last Tennessee win was by the identical score.

On Friday night Mississippi State got off to an early lead and held it steadily throughout the entire first half, mainly on the strength of their long-distance shooting. It was not until more than half the second period was over that the Wildcats finally caught the Staters and a few minutes later passed them.

The Kentuckians were considerably off form against the ready Mississippi team. Kentucky misses easy shots, passed wildly and in general acted as if frightened. It took them almost the entire game to settle down to business and win the ball game. Joe "Red" Hagan was high point man for the Cats with 13 points, with Ralph Carlisle close behind him with 12 markers. Stone passed the Mississippi scorers with 10 points.

Vols Toe Shotgun For U. K. After leading the Volunteers to a two-point advantage at the half, Kentucky slumped up in the final period in Washington, D. C. Tennessee team to ride through to a well-earned triumph, 39-28.

Although Carlisle started the "Cats off with a bang, scoring a field goal and two fouls before the game was well under way, the Vols soon settled down to steady playing and the two teams played on even terms throughout the first half.

DR. BEAUMONT TO SPEAK Dr. Henri Beaumont of the Psychological division, will preside at the YWCA Freshman town group, at 4 p. m., Thursday, in the Woman's building, on the "Psychology of Personality." This is the third in a series of discussions on personality which the group is studying.

N. Y. A. Checks Are Now Ready The Federal aid checks for students working under the National Youth Administration have been received and will be distributed this afternoon at 4 o'clock in the Commons, or T. J. Jones announced today. There are about 500 of these checks altogether.

Want to Get On the Air? Well, Chance For All at UK "Ever been on the radio? Be glad to give you an audition." The words are sincere to attract the interest of 99 out of every 100 persons. And they are sincere words at the University of Kentucky, for this institution offers to its students advantages in radio broadcasting that are hard to match.

E. G. "Bromo" Sulzer is the director of the radio studios and whether you came to the location of Patterson hall, the price of business is at 4 o'clock, Dean T. J. Jones announced today. There are about 500 of these checks altogether.

Potential Track Stars Solicited All students desiring to become members of the Wildcat track squad are asked to report to Coach Bernie Shivy as soon as possible. The first outdoor practice was held yesterday, with about 25 of our men participating in the workouts.

O. D. K. TO HONOR U. OF K. WOMEN

Mrs. McVey, Dean Blanding To Be Honor Guests at Banquet on Thursday

Mrs. Frank L. McVey and Dean Sarah Blanding will be guests of honor at a formal dinner to be given by the University chapter of Omicron Delta Kappa, Thursday night at the Green Tea tea room, it was announced by Dave Difford, president of the organization.

The dinner is being given as a tribute to the years of tireless, unselfish work given to the University and to the community by the two women. Both Mrs. McVey and Miss Blanding are outstanding University workers, traveling and lecturing extensively before groups throughout this part of the country.

Dr. Esther Cole Franklin to Lead Initial Discussion, Sponsored by YM-YW, at Patterson Hall Dr. Esther Cole Franklin, assistant professor of political science, will lead the first of the five March forums, sponsored by the Y. W. C. A. and Y. M. C. A. tonight at Patterson hall at 8 o'clock.

Militarism will be the topic discussed, and all interested students are invited to attend. Doctor Franklin has just returned from the Eleventh Annual conference for the Cause and Cure of War which met in Washington, D. C. during January, to which she was sent by six local women's organizations.

The other forums will be held every Tuesday and will be conducted by Dr. M. M. White, of the Department of Psychology, and Dr. Robert Miles, pastor of the First Presbyterian church.

Dr. Henri Beaumont of the Psychological division, will preside at the YWCA Freshman town group, at 4 p. m., Thursday, in the Woman's building, on the "Psychology of Personality." This is the third in a series of discussions on personality which the group is studying.

Yaqul Indians, when desiring to capture a horse, set out on foot to catch the animal, running behind them down by sheer endurance. The Chinese and Japanese, desiring to capture a horse, set out on foot to catch the animal, running behind them down by sheer endurance.

Sheepmen Will Come Over At U. K. Various Problems of Farmers to Be Discussed at Meeting of State Farmers Sheep breeders from Fayette and surrounding counties will meet for the Quality Lamb conference sponsored by the College of Agriculture, Wednesday, March 4, at 10 a. m. in the judging pavilion on the Experiment Station farm.

Other speakers include R. C. Miller, Prof. E. S. Good, Harold Barber, Dr. R. C. Reed, R. F. Guy of Swift and Co., Jay D. Well, Dr. F. E. Hull, Prof. L. J. Horlacher, H. B. Price and Frank Leube. Problems of Kentucky sheepmen, lamb crop, feeds, management, diseases and parasites control, care of wool for market and market outlook will be discussed. The feature address will be given at one o'clock by R. F. Guy, Swift and Company.

L. K. Student Under Knife James K. Miller, Wayland, suffering from a knee injury, the result of a fall while skating, was operated on Saturday morning at the Good Samaritan hospital to remove the injury. He will be forced to drop out of school till next semester when he plans to re-enroll. He is a freshman in the College of Arts and Sciences and is a pledge of Lambda Chi Alpha social fraternity.

Movie Films Made Available To U. K. Staff For Classes

Several Hundred Films Released by University Extension Department

A list of over 258 films which are available to the various members of the staff of the University has been issued by the Department of University Extension. According to the various phases in the fields of physics, social studies, geology, chemistry, mining, metallurgy, road engineering and biology.

Some of the subjects which the films show are: "From Coal to Electricity," "Wizard of Wireless," "Induction Voltage Regulator," "Cathedrals of England," "Back of the Weather Forecast," "Story of the Story of Copper Refining," "Story of the Romance of Glass," "The Story of a Mexican Oil Gusher" and "The Realm of the Honeybee."

Mister Freshman Is Put Very Wise "So you think college is going to be swell do you?" an upperclassman asked of his companion-for-the-moment, a freshman. "Sure college is going to be all right," the freshman came back. "In fact, it's going to be just about perfect."

"Oh yeah? Where were you on registration day when all that mob in the gym was signing up?" "Mob in the gym? When I was registering I didn't see any mob. Seemed to me that the place was deserted. But then I did go in yesterday on account of my job back home."

"An article entitled 'The Slavery Background of Foster's 'My Old Kentucky Home,'" by Prof. Thomas D. Clark, of the History department of the University, appeared in the January issue of the Filson Club History Quarterly.

The next All-Campus dance will be held in the Alumni gymnasium Friday, March 13. Andy Anderson, of the College of Commerce, is planning the affair, which will last from 8 until 10:30 p. m. The price of admission will be 25 cents as usual.

THE KENTUCKY KERNEL

OFFICIAL NEWSPAPER OF THE STUDENTS OF THE UNIVERSITY OF KENTUCKY
Entered at the Post Office at Lexington, Kentucky, as second class matter under the Act of March 3, 1919.

Editor-in-Chief: NORMAN C. GARLING
Managing Editor: FRANK BORRIES
A.S.T. Managing Editor: JOHN CHRISTIE

HERE SHALL THE KERNEL ALL STUDENT RIGHTS MAINTAIN

OUR LIBRARY

A subject of much complaint lately has been the University library. Many students have become completely disgusted with the facilities provided and the system employed in their administration and have abandoned any attempt to gain an education through contact with the resources of the bibliotheca.

The former concerns itself especially with the supply of books available. When an instructor makes an assignment in a book for the 50 or 60 members of the class and those members go to the library to read that assignment only to find that there is but a single copy available, the confusion which results is disconcerting.

Probably the major subject of complaint in the latter case is the hours which the library is kept open. Closing the building at 9 p. m. is almost ridiculous. Very few students can reach the library before 7:30, giving them, at most, a little over an hour to study from the time they find the desired book (if someone else isn't using it) until the attendant flashes the lights to "get out."

In the case of the complaint regarding facilities, The Kernel realizes that little can be done unless a greater appropriation is obtained for the purchase of books and periodicals, since the facilities are altogether dependent on this factor.

There is no reason why the library should not be kept open until 10 o'clock. The attendants needed for the extra hour could be provided through the NYA and the cost of the heat and lights for the extra hour would be fairly negligible since heat must be maintained during the night anyhow and lights would not have to be kept on in all the rooms, the principal ones needed being the reference rooms.

It is the hope of The Kernel that every effort will be exerted by the administration to better the present situation and provide the bibliographical facilities so necessary for the pursuit of the various schools and departments of education. Let the desire of the student body be at least encouraged by convenience.

HONOR AND THE STUDENT

The unhappy experiences which several of our American colleges have undergone lately with their honor systems has caused widespread speculation as to the inherent worth of these systems and what their future in collegiate circles will be.

At the Universities of North and South Carolina, located at Chapel Hill and Columbia respectively, there has been a general dissatisfaction with the systems, the result of which, at Chapel Hill, was a wholesale suspension of students. Members of the student body at Mercer University have just abolished their honor system because of the general dissatisfaction it caused there.

How to find what the student actually knows and then how to grade him, has long been one of the main problems with which American educators have had to cope. Many of our leading educators believe that the marking system in general use today is antiquated, and some of them declare that the practice of giving examinations is a futile business which has no place in the modern university.

If this is true, and if this dogma were to be put into actual use, there would hardly be any reason to have honor systems, but as long as the present plan is now carried out it is in force, honor systems will continue to be used and will continue to be successful or not, as the case may be.

It is a fairly well known fact, whether one wishes to face it or not, that the student of today is not bothered by many of the little things that the student of the last generation put so much store in. In some cases, traditions, customs, and general practices that had been in use for generations, have been forgotten or unheeded by the modern student.

In a sense the success of an honor system depends largely on the tradition which has grown up around it. Certainly, if the modern stu-

dent cares little or nothing for tradition, he will likewise care little for an honor system, nor will he respect its demands and wishes.

The Kernel believes that an honor system whose workings are successful, is a wonderful thing for any college to have, and something of which both students and alumni should be proud. When a system which shows itself to be not that it should be, however, then it should be discarded along with the other antiquated relics of a bygone age.

THE SAMURAI

It is difficult to understand Japan's recent trouble with her army. Last week part of the army revolted, killing several persons who thought to be detrimental to the government because of their desired moderation in Japan's imperious plans.

The murdered statesmen had been insistent that taxation on the poor for continuance of war was becoming too burdensome. Such moderation was not understandable to the War-Lords. Moderation is highly unbecoming to their militaristic training, and to the propaganda they have spread throughout the empire.

Following the assassinations, the King sent his brother to communicate with the captain of the revolting forces. Such insolence was manifested that the royal guard was called to assure safety of the royal family. The militarism of Japan has run away with itself. A Frankenstein has been created—and like the monster, has turned upon its creator.

The outcome of this revolution may be the forerunner of a change in government. Japan's fate will be the fate of Germany, Spain, Italy and Russia should the army support the revolutionists. Dictatorships are the result of force. Governments of this type are undemocratic. Japan's government is undemocratic, but the rise of a dictatorship would see ruthless disregard for life, property or welfare of the people. The "yellow peril" would be greater feared than it is at present.

It is highly to be hoped that the Emperor is not dethroned. It is possible that he may realize that Japan's policy has been misled, and that he will moderate it. On the whole, his subjects are loyal. Love for his people may cause the king to accept the more peaceful plans of Premier Okada.

In the event that the army is victorious, wars are inevitable. The first step will be continued attacks upon China. Other countries will be drawn into the engagement because of interests in China. The two countries which manifest most "alarm" at the rise of the Rising Sun are Russia and the United States. Other countries are watching with interest and amusement. Stop to consider that the population of Russia is 135 million as comparable to Japan's 78 million. Resources and superior numbers are enough to stop Japan's movements should they ever be so foolish as to attack any of the major powers.

The Blue and White Orchestra has been chosen from among several of the country's most popular name bands to play the largest and most important Spring Formal at the University of Cincinnati for two years in succession. This dance is sponsored by Omicron Delta Kappa, campus leadership fraternity.

The Blue and White Orchestra when first organized as a small combination played a summer engagement in Paris and Coburg, France. The following summer this same unit made a world tour on the S. S. President Jefferson.

The Blue and White Orchestra has been heard over both the Columbia and NBC networks at various times. This orchestra is considered by both networks as one of the outstanding bands in the South.

The Blue and White Orchestra has appeared before the microphone of WHAS approximately 1400 times.

The Blue and White Orchestra was organized at the University of Kentucky in 1920 and has been the outstanding musical organization on the campus ever since that year.

At the university, despite the hard times enacted by the depression, only one of eighteen fraternities had to turn in its charter through inability to carry its financial obligations.

Strangely enough, the best article of commerce between the early American traders in the Orient and the Chinese, were kegs of Mexican silver dollars.

Advertising is what draws away the trade from the small village. Advertising will also keep it at home.

Someone wants to know how the custom of handshaking originated. Well, probably Adam discovered that the votes of Eve, Cain and Abel weren't enough to land him in office, so he would have to get out and shake the horny paws of Tom, Dick and Harry.

Hoi Polloi

The Military Ball... sweet music... a warm evening... and people wonder why we all like to go to U. K. Without a doubt it was one of the best. You know, our Governor "Happy" he ain't such a bad guy after all. Entering into the fun with the rest, he really lived up to his name and let Lee Keen Johnson. We heard a fine one on him. While he was with Marjorie Fleber in the grand march she looked up at him (and how she can look), smiled, and said: Did you know that you get to dance with me after the march is over?

The Frigid Returns Ben Willis was in the rosiest glow on record this last week-end. Cause why? Cause his bunch of loveliness, Martha Bittner, was in town. How come she to go to U. of Louisville this semester with you down here, Ben? Some powderhouse.

Can't Believe It Success has come to the Phidels. After their dance Saturday night, two KA's came over to a group of them, seated TWO KA's and congratulated them on the decorations, remarking that they were the best ever seen in the gym. It was worth pinning the KA's on their (five miles) of crepe paper together just to hear such an unexpected compliment. Thank you, gentlemen.

It's a Shame, Girls For those romantics down in Patterson hall. Did you know that "Skinny" Dennis, Hal Kemp's traveling tenor, is engaged to the heiress of the Dodge motor car millions? Too bad...

Poor John Bain Always said that there was something screwy about a fellow promising law students. Ka Johnny Breckinridge went to a class the other morning and sat in it ten minutes before he realized that he didn't even have the class.

How About It, Kelly? Our pal, Kelly the Kop, evidently goes down into the botanical gardens to do more than root all the lovers. Maybe he is to learn a new technique. He sure is frequenting the Dunn drug a lot lately, especially the sandwich section. Getting over Kelly?

Roses and Apologies I believe that you will all concede in giving the roses to the lovely ex-man-hater, Military Ball Queen Lucy Maddox, this week. The oh's and ah's that swept the gym on her entrance dispelled any doubt in the columnist's mind as to whom to present them for she reigned supreme that night. The roses must be getting up in the world to rate one like her.

STARBUCK: Benton's Tavern... how that place seems to breed fun... has the most popular nickel photograph in Lexington. Too bad some one didn't warn those romantic lovers who signed up for astronomy... from all we hear its no crisp... but they say love solves all problems... well, so does death... Looks like there is more to that affair between Mary Lou Starks and Harry Bullock than we thought. Better watch out Sloppy or you won't have any girl... Still have one h--- of a time getting up and down the stairs in McVey between hours... they ought to try an escalator... Joke of

A Review Of U. K. Books

(Writer's note: The books below have just been placed in the rental files of the library. This department, as well as the price of a book is being obtained in rental fees, makes it available for circulation. This is the library's chief means of purchasing new books, especially those of a fictional nature. The rental charge is 3 cents per day.)

By FRANK BUEGER Take It Easy by Walter E. Pitkin. Take at least an hour or so a day to be lazy if you want to live long and be healthy is the advice of Mr. Pitkin in his latest work. Imagine an entire book devoted to the art of relaxation, one of the most needed things in modern American life. All phases of the problem are discussed, including a common-sense analysis of nudism. Although written in all seriousness, you are sure to laugh at the author's reasons for advocating the use of suspenders instead of belts. If you only can find time to read one book this semester, choose this one and learn how to "Take It Easy."

Skin Deep by M. Phillips. An exposé of the billion dollar "beauty racket". This book, like "100,000,000 Guinea Pigs" was written on the basis of information, released by Consumers' Research. The author warns the campus co-ed to beware of the magic that comes in lotions and bottles, pointing out simple and inexpensive ways to safeguard beauty and health. The products examined are called by name and the results of unbiased examination given in each case. Hand lotions, creams, powders, lipsticks, deodorants, astringents, soaps, suntan burn preventatives, rouges, etc. are all subjected to the unprejudiced tests of the scientific laboratory.

The Voice of Eagle Ann by Mackinlay Kantor. A 128 page novel which tells a legend of the Missouri hill country. For a hundred years men have bred fox-hounds in the green valleys of the middle west. But there were very few like Eagle Ann. The legend of this famous dog has been immortalized in this, the latest of Kantor's works.

the week... a boy was heard to remark that his idea of dream girl was an old-fashioned girl full of romantic ideas... the listener retorted... that all he had ever been able to find was a romantic girl full of old fashions... OK, I think its pretty bad too... Jimmy Lunceford is going to be playing at the Cotton Club this Tuesday night... and can he play Stardust... Hell Weeks are starting... a great institution... so say the actives... The height of this Tuesday night... Yesterday the notebook she kept in the class to her prof for ten (10) dollars... Wanda Strong sitting in the Tavern holding Frank LeBar's hand and calling him her Commish... commissioner to you... This monopoly game must be a great treat... four hotels the other night... that's the main theme of the players... T. C. Endicott and Donohue had the best time of the bunch that journeyed to Knoxville... Everybody else lost their money betting on the game and had to burn a ride home off Coach Rupp... And its happened again... Doss Reid (III) has pinned Mary LeBus again... what's become of Lulu... Yesterday was a typical Blue Monday and therefore it looks as though it is going to reflect in this d---- column.

On Military

HERMAN G. JAMES, President OHIO STATE UNIVERSITY I am now connected with an institution which has military training. Nevertheless, I am glad to repeat what I have said on other occasions, that I believe military training in our educational institutions, particularly in state-supported institutions, is a very valuable thing. It is valuable to the student trained; it is valuable to the institution in which the training is given; and it is valuable to the country.

CARROLL WILSON, Asst. to Pres. MASSACHUSETTS INSTITUTE OF TECHNOLOGY I believe that the best indication of the value which the governing bodies of M. I. T. place on military training in military science is the fact that the last time the advisability of continuing compulsory military training was considered in the spring of 1933, both the Faculty and the Executive Committee of the Corporation voted unanimously to keep military science and tactics as a required course in our curriculum.

CHARLES W. PUGSLEY, President SOUTH DAKOTA STATE COLLEGE It is my firm belief that R. O. T. C. training as conducted at land grant colleges makes a very worthwhile contribution to the individual, the government, and the college.

The contribution to the individual is, in my opinion, the greatest. Respect for constituted authority, all too lacking these days, is naturally absorbed during such training. At the same time the student is constantly placed in positions where he must do original and fast thinking for himself, another condition too infrequently present in modern education. The physical gains of body care, carriage, etc. may be minor, but they are certainly important. Citizens who have respect for constituted authority coupled with the ability to do straight original thinking make a representative government such as ours secure. The R. O. T. C. is certainly a big factor in training such citizens.

JOHN G. BOWMAN, Chancellor UNIVERSITY OF PITTSBURGH The R. O. T. C. course of military training adds to the educational resources of the institution, in that it provides specialized instruction in the principles of personal efficiency, in the elements of military technique, in the duties of citizenship, and in the military history of our nation.

The course of instruction is conducted in accordance with a definite program designed to meet the regular scholastic work of the student, a proper balance being maintained between practical and theoretical instruction throughout the course.

GEORGE W. RIGHTMIRE, Pres. OHIO STATE UNIVERSITY. I took the military training in this institution in squad, company, and battalion drill in the year 1889-90. How much value this experience has been to me I have no means of appraising and its educational content is not sure about. However, I am entirely certain that there is a degree of social training and a high degree of physical culture about the exercise and the acting in union with the other members of the company which have exercised considerable developmental influence upon my youth. In any case, I look back at the experience today and have all things regarded it from that time down to this with only the most pleasurable feelings and it is not likely that an experience projecting through a whole year which has left so pleasurable an impression all through the years could have been other than a fine educational influence. I was quite enthusiastic about the whole military program at that time and think of it today as a fine feature of the activities of a university on the land grant college foundation.

E. O. HOLLAN, President STATE COLLEGE OF WASHINGTON. Aside from the question of the worth of the military instruction as a protective measure, I am in favor of such training because of its value in the maintenance of discipline on the college campus and in teaching young men to respond promptly to the commands of their superiors. Such instruction, in addition to furnishing that preliminary or basic technical training essential to military leadership, possesses a disciplinary value unobtainable through ordinary physical training. Military instruction does much to show the young men enrolled in this work the necessity of their responding promptly and in union to the simple military commands by the cadet and regular military officers. Otherwise, in after-life, obedience and law enforcement will give way to discord and anarchy. This is a lesson that thousands of our people have not learned.

I am opposed to the elimination of the required instruction under the Morrill Act. It has justified itself and I hope it will continue.

as a protective measure, I am in favor of such training because of its value in the maintenance of discipline on the college campus and in teaching young men to respond promptly to the commands of their superiors. Such instruction, in addition to furnishing that preliminary or basic technical training essential to military leadership, possesses a disciplinary value unobtainable through ordinary physical training. Military instruction does much to show the young men enrolled in this work the necessity of their responding promptly and in union to the simple military commands by the cadet and regular military officers. Otherwise, in after-life, obedience and law enforcement will give way to discord and anarchy. This is a lesson that thousands of our people have not learned.

PRODUCTS EXHIBIT IN MAY

The University will have an exhibit in the Kentucky Products exposition, sponsored by the Kentucky Progress Commission and the Onward Kentucky movement which will be held here in May.

Did You Know ?

# Alumni News

ROBERT K. SALYERS, Secretary

Among the University graduates of the "gray nineties" is John Theodore Fale, B. M. E. '94, M. E. '97, now president of the department of mechanics, Ohio Mechanical Institute, Cincinnati. Mr. Fale served as instructor in engineering at the University of Michigan from 1895 until 1898, as a member of the engineering faculty here from 1898 until 1906, and as professor of mechanical engineering at the University of Cincinnati from 1906 until 1918. He has been in his present position since that time. Mr. Fale is a member of the American Society of Mechanical Engineers, the Society for the Promotion of Engineering, Tau Beta Pi, honorary engineering fraternity, and the Cincinnati Literary Society. An account of his work is found in "Who's Who in America" and in "Who's Who in Engineering." His home address is 2346 Winfield avenue, Cincinnati.

Ernest Myers Denham, B. C. E. '07, is chief mining engineer of the High Spint Coal company and Associated companies at Williamsburg, Ky. Mr. Denham went to Williamsburg, Tenn., to do engineering after graduating from the University. He later did civil engineering work for the Louisville, Nashville and Illinois Central Railroad. In 1915 he went to Hazard, Ky., to resume mining. In 1919 he began the work at Williamsburg which he has continued until the present time. Mr. Denham's home address is Williamsburg, Ky.

The vice-president of the Gilman Paint and Varnish company at Chattanooga, Tenn., is Murray Roney, B. M. E. '09. Mr. Roney did technical work for the Fort Orange Paper company at Castleton, N. Y., from 1910 until 1911. From 1911 until 1913 he was a member of the engineering staff of the Ideal Engine company at Springfield, Ill., and from 1913 until 1915 he was employed by the Chattanooga Railway and Light company. He was with the Lookout Oil and Refining company at Chattanooga, Tenn., until 1925, and from February of 1925 until the present time he has been with the Gilman company. Mr. Roney makes his home at the Mountain Club city in Chattanooga.

Frank Clarke Dugan, B. C. E. '10, is chief engineer for the Kentucky State Department of Health, and offices at Louisville. Mr. Dugan has served as assistant engineer for the commissioners of sewerage at Louisville. He has been manager of the advertising department since 1930. Mr. Dugan's home address is 4 East Seventeenth street, N. E. Atlanta.

Samuel Howard Ridgeway, Jr., B. M. E. '23, is district plant chief for the Southern Bell Telephone and Telegraph company at Atlanta, Ga. Mr. Ridgeway served for one year as engineer for the Carrier Engineering corporation after leaving the University. He has been with the telephone company since that time, having been employed in his present capacity for the last year and a half. His residence is 1096 Piedmont avenue, Apartment 4, Atlanta.

Cited in "School and Society" as an outstanding leader in educational work, Miss Anna Catherine Hendricks, A. B. '22, is teacher, dean of girls, and director of the dormitory at Pikeville High school, Pikeville, Ky. Miss Hendricks taught summer normal schools for the state department of education four summers, working at Bedford, Grayson, Jamesmont, and Tomkinsville. She was assistant principal at the dormitory at Pikeville High school in 1922 and 1923, and head of the department of English at Pikeville High school in 1924 and 1925. Wright hall, the dormitory under Miss Hendricks' direction at Pikeville, is considered the largest public high school dormitory in the United States. She has been honored by having her name and work included in "Who's Who in American Education, Vol. V, 1932. She received her Master's degree from Columbia University in 1929, and her home address is Box 387 Pikeville, Ky.

Dr. James Robert Hamilton, A. B. '23, is establishing a reputation as an outstanding diagnostician as a physician at Mitchell, Indiana. He was married to Miss Nellie Stone, A. B. '23, and they have two sons, Joshua Stone, six years old, and

Robert, whose arrival recently was announced.

Clyde English Taylor, B. M. E. '23, is shop engineer in the engineering department of Dodge Brothers division of Chrysler Motors Corporation, Detroit, Mich. Mr. Taylor served for a time as engineer for the Packard Motor corporation but has been with the Dodge company since 1925. His residence is 17242 Runyon avenue, Detroit, Mich.

George Russell Page, B. M. E. '24, went to Chicago, Ill., to take a student training course under the direction of the Western Electric company, immediately after his graduation from the University. He is an engineer for that company, having charge of the physical, electrical and chemical laboratories at the Baltimore, Md., plant. Mr. Page is a member of the American Institute of Electrical Engineers, and is secretary of the Mount Club of Maryland. His home address is 3610 Yolanda Road, Baltimore.

Thomas Leigh Garwood, B. M. E. '24, is engineer for the New Orient Mine at West Frankfort, Ill. Mr. Garwood was for one year a member of the staff of the Robinson Ventilating company at Pittsburgh, Pa., and has been employed by the Chicago, Wilmington and Franklin Coal company's mine at West Frankfort since that time, where he is in charge of surveying, ventilation and safety preparation. His residence is 116 McFall avenue, Benton, Ill.

Active civic leader, licensed attorney, and recognized educational leader, Miss Ophelia S. T. Carr, A. B. '25, is principal of Stuart hall private school at Staunton, Va. Miss Carr was for a time principal of Chatham hall, at Chatham, Va., and attended the University of Chicago law school in 1927. A teacher of French and German, Miss Carr served as a member of the faculty of Lawrenceburg, Ky., High school and Hamilton college, Lexington, she is a member of the American Genetic association, the Garden club of Virginia, and has been honored by mention in "Who's Who in Education" (1932) and "Who's Who in America" (1934). Her home address is Staunton, Va.

Mrs. Richard Jones (Eugenia O.) Hara, A. B. '26, is employed as United States government clerk at San Francisco, Calif. Her home address is Box 139 Belmont, Calif.

John L. Sullivan, B. S. '28, last week was married to Miss Elizabeth Ann Woodson, former student of the University, at the Madison Avenue Christian church at Covington, Ky. The bride had done work at Western State Teachers college before coming to the University in 1933. She is an instructor in the Palmouth, Ky., graded school and will continue her work there until the end of the present term. Mr. Sullivan received his Master's degree at the University of Iowa and the Department of Education at State Teachers college for the last seven years.

Two prominent citizens of Norton, Va., who were graduated from the University of Kentucky are Mr. and Mrs. Lewis Russell McCormick, LL. B. and A. B. '31, the latter formerly Miss Margaret Cundiff. Mr. McCormick was admitted to the Virginia bar in July of 1934 and began the practice of law there in September of that year. He was married to Miss Cundiff in June of 1934. Mr. McCormick is a member of Phi Alpha Delta, law fraternity, and resides at 206 Highland Avenue, Norton.

Mr. James Robert Hamilton, A. B. '23, is establishing a reputation as an outstanding diagnostician as a physician at Mitchell, Indiana. He was married to Miss Nellie Stone, A. B. '23, and they have two sons, Joshua Stone, six years old, and

# Luckies

a light smoke

OF RICH, RIPE-BODIED TOBACCO—"IT'S TOASTED"

Luckies are less acid

**LUCKIES ARE LESS ACID!**  
Recent chemical tests show\* that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.

\*RESULTS VERIFIED BY INDEPENDENT CHEMICAL LABORATORIES AND RESEARCH GROUPS

**STANDARDIZED UNIFORMITY**

The simple mechanical details of cigarette manufacture are of surprising importance. Upon them depend the physical properties of the cigarette, such as weight, size, firmness, moisture-holding properties, uniformity of fill—uniformity of product—all of which have a far-reaching effect on the character of its combustion and the constituents of its smoke.

In the manufacture of Lucky Strike Cigarettes all of these properties have been standardized with care for the perfection of A LIGHT SMOKE.
