#### OPPORTUNITIES FROM THE COUNCIL ON LIBRARY RESOURCES

The Council on Library Resources, through its Professional Education and Training for Research Librarianship (PETREL) program, also continues to address important concerns in library education. At the ARL Meeting in Scottsdale, John McDonald, Chairman of the PETREL Advisory Committee, reported on several new and continuing activities. On April 24 the CLR Board authorized expenditure of nearly \$450,000 in additional support for PETREL activities. With PETREL funding, the University of Chicago Graduate Library School will begin offering a new Certificate of Advanced Study in Library Management; six students will begin work in the 1982-83 academic year. The University of Michigan School of Library Science has augmented its basic professional curriculum with an intensive research library internship. Five students have been selected to participate and another five will be selected for next year. The Graduate School of Library and Information Science at the University of California, Los Angeles, has inaugurated a Senior Fellows program. Twelve outstanding librarians will participate in six weeks of intensive study of present and future contexts of research libraries and the best current practices in research library management. The first year's participants are: Millicent D. Abell, University of California, San Diego; Jean L. Aroeste, Princeton; Joan L. Chambers, University of California, Riverside; Richard J. Dionne, Yale University, D. Kaye Gopen, University of Alabama; Clinton N. Howard, University of Kansas; Marcia G. Jebb, Cornell University; Beverly Lynch, University of Illinois-Chicago Circle; Philip E. Leinbach, Harvard University; Ann K. Randall, Brown University; Barbara J. Smith, Pennsylvania State University; and PAUL A. WILLIS, University of Kentucky. The program will be supported by the Council for two more years, with the hope that it can become self-supporting in the fourth year. -- reprinted from ARL NEWSLETTER, no. 111, June 17, 1982, pages 8 and 9.
