

Phila. Tuesday night

Sep 17 '61

My dear Annie

Yours was received several days and ought to have been answered sooner but I have been so exceedingly busy that I have put off everything that it was possible to lay aside for a few days - we are going to move in a short time (during this month) and each one of the little Janneys needed a fall suit - and between this work and horse hunting I have been busy we are all pretty well - and you don't know how the children are growing - I think in another year Geo will be as large as his Pa - Harry seems pretty well but we have to be careful of him - he continues to be his father's pet and considers himself privileged to do as he pleases with everything in the study
