CALENDAR.

1876.

- SEPT. 2—The Senate of the University meets, . . . Saturday, 10 A. M.
SEPT. 11—The first Term of the Session begins, . . . Monday, 9 A. M.
DEC. 22—The Christmas Recess begins, Friday Morning.

1877.

- JAN. 2—The Christmas Recess ends, Tuesday Evening.
JAN. 20—The Senate of the University meets, Saturday, 10 A. M.
JAN. 26—The Intermediate Examinations end, Friday Evening.
JAN. 29—The Second Term of the Session begins, . . . Monday, 9 A. M.
FEB. 22—Celebration of Washington's Birth-day by
the Literary Societies, Thursday, 10 A. M.
JUNE 2—The Senate of the University meets, Saturday, 10 A. M.
JUNE 10—The Baccalaureate Sermon, Sunday, 4 P. M.
JUNE 12—Annual Meeting of the Board of Curators, . Tuesday, 2 P. M.
JUNE 12—The Final Examinations end, Tuesday Evening.
JUNE 13—Anniversary Address to the Undergraduates, Wednesday Evening.
JUNE 14—General Commencement, Thursday, 10 A. M.

KENTUCKY UNIVERSITY.

FOUNDATION.

THE existence of Kentucky University is due chiefly to the efforts of John B. Bowman, its Founder and present Regent.

In the year 1855, while a young man thirty years of age, he conceived the plan of building up in his native State a University, in its full and true sense, on a Modern, American, and Christian basis. With the understanding that he was to be free to pursue his own plans in his own way, he voluntarily dedicated his life to this work, and has prosecuted it with great success for more than twenty years, without accepting a salary, and without abatement of his purposes and pledges.

(His object was, as expressed in his reports to the Donors and Curators, "to build up eventually, a great, liberal Institution, which, while under the auspices of the Christian Church, was to be unsectarian and unsectional; also to cheapen and widen the system of higher education, so that the humblest youth in all the land could enter it, and receive such education, general or technical, as would qualify him for any business of life, and that under the broad, expansive influences of our advancing civilization, the blessings of the Institution should flow as free as our great rivers, accomplishing the greatest good to the greatest number of the coming generation.")

(With these liberal views, and for the purposes of Endowments, Grounds and Buildings, Apparatus, Libraries, Museums, Laboratories, Prize Funds, &c., the necessary appliances for the most advanced education, he has secured by donations of money and property, and by Legislative Acts of consolidation and confederation, assets to the amount of not less than Seven

Hundred and Fifty Thousand Dollars, which constitute the present basis of the University.)

(These assets were secured from about one thousand individual Donors, from the U. S. Government, from the State of Kentucky, and from the Trustees of Bacon College and Transylvania University, and are sacredly held and to be applied by a Board of Curators appointed under the Charter, in perpetuity, for the benefit of Science, Education, and Religion, and subject to all the trusts and obligations imposed by the benefactors.

Under this general view there are three interests:—

THE KENTUCKY UNIVERSITY INTEREST.

This was secured by Mr. Bowman while the Institution was located at Harrodsburg, and amounts to \$200,000, including about \$9,000 from the wreck of Bacon College.

THE TRANSYLVANIA UNIVERSITY INTEREST.

On the destruction of the Kentucky University buildings at Harrodsburg, Ky., by fire, in 1864, negotiations were opened by Mr. Bowman with the Trustees of the Transylvania University at Lexington, for a union of their interests with those of Kentucky University. The assets of Transylvania were College Buildings, Real Estate, Museums, and Library, worth \$100,000, besides cash investments and accrued dividends amounting to about \$70,000. The negotiations resulted in a union of the two interests, under the common designation of Kentucky University, the seat of the combined Institutions to be henceforward at Lexington. Transylvania University, endowed by Virginia, by the State of Kentucky, by the city of Lexington, and by private donations, retains all her immunities, franchises, and trusts under the consolidation.

THE NATIONAL AND STATE INTEREST.

By the Congressional Act of 1862, donating land for the endowment of Agricultural and Mechanical Colleges, 330,000 acres were allotted to Kentucky. Simultaneously with the

negotiations for combining the Kentucky University with Transylvania, Mr. Bowman made overtures to the State to engraft upon the united interest the State Agricultural and Mechanical College. The same Legislature which passed the act of consolidation in regard to the old Kentucky University and Transylvania in 1865, also passed an act establishing the State Agricultural and Mechanical College as one of the Colleges of Kentucky University. By this act the proceeds of the Congressional fund, amounting to \$9,900 annually, are given to the University for the exclusive support of the Agricultural College. Its Faculty is wholly undenominational. The State is entitled to send to this College three properly prepared students each year from each representative district in the State. The site of this College is the Ashland and Woodland estates, purchased at an expense of \$145,000, the funds for which were raised by Mr. Bowman as a condition of its location by the Legislature.

These several interests constitute the basis of the University as at present organized. It is confidently expected that this basis will be enlarged by Mr. Bowman in the farther prosecution of his work.

LOCATION.

The several Colleges of the University, with their numerous buildings, are located on the splendid estates of Ashland, the homestead of Henry Clay, including "Woodlands," and of old Transylvania, embracing in all four hundred and fifty acres of beautiful grounds, in and near the city of Lexington.

The city, containing 22,000 inhabitants, is located in the midst of the far-famed Blue Grass region of Kentucky, and is noted for its healthfulness and its superior social and religious influences, affording to students who can board in the best private families most favorable advantages for culture and refinement.

It is easily accessible by two daily trains from Louisville, and

two from Cincinnati, each city less than 100 miles distant; and it is expected to be soon in more direct communication with the East, via the Chesapeake and Ohio Railroad, and with the South by the completion of the Cincinnati Southern Road to Chattanooga.

ORGANIZATION.

KENTUCKY UNIVERSITY embraces several Colleges, each under the immediate government of its own Faculty and Presiding Officer. The general supervision of the University as a whole is committed to the Regent, who is elected from among the Curators, and is *ex-officio* Chairman of the Executive Committee. He is the representative of the Board of Curators before the donors and the public, and it is his duty, in connection with the Executive Committee, to see that the general laws and statutes of the University are faithfully executed.

Each College is divided into several Schools or Departments of Study; and each School is under the immediate government and instruction of a competent Professor, assisted, when necessary, by subordinate Instructors and Tutors.

The Colleges of the University are severally styled—

1. The College of Arts.
2. The Agricultural and Mechanical College of Kentucky.
3. The College of the Bible.
4. The Normal College (not yet organized).
5. The Commercial College.
6. The College of Law.
7. The College of Medicine.

While the course of study and instruction in each College is complete, yet the four first named above are so associated that a student, regularly matriculated in any one of them, may have the benefit of instruction in the others without additional charge for tuition.

GOVERNMENT.

The general government of the University is vested in the Board of Curators, which consists of not less than thirty members, representing the donors, under the conditions prescribed in the charter. The delegated and representative powers of the Corporation are vested in the Regent and the Executive Committee.

For purposes of counsel and co-operation in regard to the general interests of the University, the Faculties of the several Colleges assemble as one body, under the name of the Senate of the University; but the immediate government of the students of each College is committed to the Faculty thereof, each student being amenable to the Faculty of that College to which he belongs by virtue of his matriculation

The Board of Visitors of the Agricultural and Mechanical College of Kentucky consists of six members, who are appointed by the Governor of the State, with the advice and consent of the Senate of Kentucky, and whose powers and duties are prescribed in the Act of the General Assembly establishing this as one of the Colleges of the University.

CORPORATION.

JOHN B. BOWMAN, REGENT.

CURATORS.

R. M. BISHOP,	Cincinnati, Ohio.
J. B. BOWMAN,	Lexington.
JOHN G. ALLEN,	St. Louis, Mo.
BENJAMIN GRATZ,	Lexington.

WILLIAM E. ROGERS,	Versailles.
JAMES G. KINNAIRD,	Fayette County.
GEORGE G. WHITE,	Paris.
A. M. BARNES,	Lexington.
R. M. GANO,	Dallas, Texas.
N. B. WELLS,	La Grange.
J. J. E. LEE,	Owingsville.
J. Z. PRICE,	Covington.
SAMUEL COLEMAN,	Fayette County.
W. T. TIBBS,	Mt. Sterling.
JOHN F. PAYNE,	Scott County.
GEO. C. CASTLEMAN,	Newcastle.
H. A. HEADLEY,	Fayette County.
J. P. METCALFE,	Lexington.
JAMES S. LANE,	Fayette County.

OFFICERS OF THE BOARD.

R. M. BISHOP,
CHAIRMAN.

D. S. GOODLOE,
TREASURER.

JOSEPH S. WOOLFOLK,
SECRETARY.

EXECUTIVE COMMITTEE.

JOHN B. BOWMAN,
CHAIRMAN EX-OFFICIO.

BENJAMIN GRATZ,
W. T. WITHERS,
J. S. WOOLFOLK.

AGRICULTURAL AND MECHANICAL COLLEGE.

BOARD OF VISITORS.

HON. L. J. BRADFORD, Covington.
HON. W. C. P. BRECKINRIDGE, Lexington.
HON. G. A. C. HOLT, Murray.
REV. L. B. WOOLFOLK, Lexington.
HON. JOHN PRESTON, Milton.
HON. D. H. BAKER, Muhlenburg.

THE SENATE OF THE UNIVERSITY.

JOHN B. BOWMAN, LL. D.,
Regent, and Chairman ex-officio.

HENRY H. WHITE, LL. D.,
*Presiding Officer of the College of Arts, and Professor of Mathematics
and Astronomy.*

JAMES K. PATTERSON, PH. D.,
*Presiding Officer of the Agricultural and Mechanical College, and Mor-
rison Professor of Civil History and Metaphysics.*

ROBERT GRAHAM, A. M.,
*Presiding Officer of the College of the Bible, and Professor of Sacred
Literature.*

.....
*Presiding Officer of the Commercial College, and Professor of Commercial
Law and Ethics.*

MADISON C. JOHNSON, LL. D.,
Presiding Officer of the College of Law, and Professor of Commercial Law.

H. M. SKILLMAN, M. D.,
*Dean of the Faculty of Transylvania Medical College, and Professor of
Physiology and Hygiene.*

JOHN H. NEVILLE, A. M.,
Professor of the Greek Language and Literature.

ALEXANDER R. MILLIGAN, A. M.,
Professor of the Latin Language and Literature.

JOSEPH DESHA PICKETT, A. M.,
Professor of English Literature and of Sacred History in the College of Arts.

ROBERT PETER, PH. D., M. D.,
Professor of Chemistry and Experimental Philosophy.

H. W. EVEREST, A. M.,
Professor of Geology, Zoology, and Botany.

JOHN SHACKLEFORD, JR., A. M.,
Professor of English Literature in the Agricultural and Mechanical College.

JAMES G. WHITE,
*Professor of Mathematics and Astronomy in the Agricultural and Mechanical
College.*

G. N. WHISTLER, U. S. A.,
Professor of Military Tactics and Civil Engineering.

FRANCOIS M. HELVETI,
Professor of French, German, and Spanish.

J. W. MCGARVEY, A. M.,
Professor of Sacred History and Sacred Didactics.

JOHN B. HOUSTON, A. M.,
Professor of Common and Statute Law.

W. C. P. BRECKINRIDGE, LL. D.,
Professor of Equity Jurisprudence, and Constitutional Law.

RICHARD A. BUCKNER,
Professor of Evidence, Pleading, and Practice.

J. SOULE SMITH,
Adjunct Professor in the Law College.

JOHN T. SHELBY, A. B.,
Adjunct Professor in the Law College.

W. O. SWEENY, M. D.,
Professor of Surgery and Anatomy.

.....
Professor of Principles and Practice.

.....
Professor of Obstetrics and Diseases of Women and Children.

ROBERT PETER, Ph. D., M. D.,
Professor of Chemistry and Toxicology.

J. W. WHITNEY, M. D.,
Professor of Materia Medica and Therapeutics.

.....
Demonstrator of Anatomy.

OTHER OFFICERS AND INSTRUCTORS.

JOHN A. DEAN,
Superintendent of the Agricultural Department.

EDWARD LLOYD,
Instructor in Meteorology, and Signal Station Officer, U. S. A.

ROBERT MATHISON,
Librarian.

MATRICULATION.

1. A student upon his arrival at the University will report promptly to the *Regent*, with his testimonials of character and standing, and will designate the College which he may wish to enter; whereupon he will receive a session-bill, referring him to the Presiding Officer of that College for consultation, and to the Treasurer for the payment of his fees.

2. He will, as early as practicable, secure suitable boarding; and any unnecessary delay in doing this, or in reporting to the Regent, Presiding Officer, or Treasurer, will be regarded as sufficient evidence of his unfitness for admission.

3. Having presented his session-bill to the Presiding Officer, the student will be referred by him for examination to the Professors into whose Schools he seeks to be admitted.

4. After successful examination he will report to the Secretary of the Faculty; and, having received from that officer a copy of the Laws of the University, he will, after reading them, be entitled to matriculate by signing the following declaration: "I enter the University with a sincere desire to enjoy the benefits of its instruction, and with a determined resolution to conform to its laws."

5. After signing the declaration, the matriculate will at once enter upon his studies in the Schools to which he has been admitted. The number of his recitations must in all cases amount to at least three a day, unless, at the request of the student's parent or guardian, he may for satisfactory reasons be permitted by the Faculty to attend a less number.

COLLEGE OF ARTS.

COURSE OF INSTRUCTION.

I. School of the English Language and Literature.

PROFESSOR PICKETT.

FRESHMAN CLASS.

FIRST TERM.—Quackenbos's Rhetoric; Exercises in Composition and Elocution.

SECOND TERM.—Quackenbos's Rhetoric; Exercises in Composition and Elocution.

JUNIOR CLASS.

FIRST TERM.—Kames's Elements of Criticism; Essays, Criticisms, and Declamations.

SECOND TERM.—Whately's Logic, with Practical Exercises.

SENIOR CLASS.

FIRST TERM.—Whately's Rhetoric, with Practical Exercises.

SECOND TERM.—Shaw's Manual of English Literature, with Lectures; Readings in the English Classics, with Critiques; Theses, Orations, and Forensic Disputations.

II. School of Mental and Moral Philosophy.

PROFESSOR PATTERSON.

FIRST TERM.—Metaphysics; Hamilton's Lectures.

SECOND TERM.—Moral Philosophy, Calderwood; Blackie's Four Phases of Morals.

III. School of Mathematics.

PROFESSOR WHITE.

FRESHMAN CLASS.

FIRST TERM.—Towne's Algebra.

SECOND TERM.—Davies's Legendre's Geometry, Books I., II., III., IV., V., VI.

SOPHOMORE CLASS.

FIRST TERM.—Davies's Legendre's Geometry, Books VII., VIII., IX.; Davies's Plane Trigonometry and Mensuration.

SECOND TERM.—Loomis's Surveying and Navigation; Loomis's Analytical Geometry.

JUNIOR CLASS.

FIRST TERM.—Loomis's Calculus.

SECOND TERM.—Snell's Olmsted's Mechanics.

SENIOR CLASS.

FIRST TERM.—Davies's Spherical Trigonometry; Snell's Olmsted's Astronomy.

IV. School of the Greek Language and Literature.

PROFESSOR NEVILLE.

PREPARATORY.

FIRST SESSION.—The whole of Kuehner's Elementary Grammar (unabridged edition); a daily exercise on the black-board in writing Greek with the accents. The Third and Fourth Books of Xenophon's Anabasis, in Goodwin's Greek Reader.

SECOND SESSION.—The remainder of Goodwin's Reader—the Selections from Xenophon, Herodotus, Plato, and Thucydides; Dialogues of Lucian.

FRESHMAN CLASS.

FIRST TERM.—Twelve Books of the Iliad.

SECOND TERM.—Xenophon's Memorabilia; Plato's Apology and Crito.

SOPHOMORE CLASS.

FIRST TERM.—Three Books of Thucydides; Arnold's Prose Composition.

SECOND TERM.—Demosthenes on the Crown; Boise's Exercises in Greek Syntax.

JUNIOR CLASS.

FIRST TERM.—Euripides, The Medea; Sophocles, The *Œdipus Tyrannus*.

SENIOR CLASS.

SECOND TERM.—Aristophanes, The Acharnians and the Knights; Plutarch *De sera Numinis Vindicta*.

TEXT-BOOKS AND BOOKS OF REFERENCE.—Goodwin's Greek Reader; Weale's Lucian; Boise's and Owen's Homer's Iliad; Owen's and Arnold's Thucydides; Holmes and Tyler's Demosthenes on the Crown; Anthon's Xenophon's Memorabilia; Tyler's Plato's Apology and Crito; White's *Œdipus Tyrannus* of Sophocles; Green's Acharnians and Knights of Aristophanes; Hackett and Tyler's Plutarch *De sera Numinis Vindicta*; Crosby's and Hadley's Greek Grammars; Goodwin's Greek Moods and Tenses; Crusius's Homeric Lexicon; Long's Classical Atlas.

V. School of the Latin Language and Literature.

PROFESSOR MILLIGAN.

PREPARATORY.

FIRST SESSION.—Latin Grammar; Black-board exercises in writing Latin, with the quantities marked.

SECOND SESSION.—Latin Grammar reviewed; Three Books of Cæsar's Commentaries; Sallust's Conspiracy of Catiline; Three Orations of Cicero.

FRESHMAN CLASS.

FIRST TERM.—Five Books of Virgil's *Æneid*, with Exercises in Scanning; Latin Prose Composition; History of Rome.

SECOND TERM.—Two Books of Livy; Latin Prose Composition; History of Rome.

JUNIOR CLASS

FIRST TERM.—Selections from Horace, with Scanning; Latin Prose Composition.

SECOND TERM.—Selections from Tacitus; a Comedy of Plautus or Terence; Latin Prose Composition.

SENIOR CLASS.

FIRST TERM.—One of Cicero's Philosophical Works, with Exercises in Re-translation.

SECOND TERM.—Seven Satires of Juvenal; a Select Author.

TEXT-BOOKS AND BOOKS OF REFERENCE.—Bingham's Latin Grammar; Hanson's Preparatory Latin Prose Book; Anthon's or Frieze's Virgil's *Æneid*; Lincoln's Livy; Anthon's or Maclean's Horace; Anthon's Tacitus; Harrington's Plautus or Weale's Terence; Anthon's Cicero de Officiis; Anthon's Juvenal; Arnold's Latin Prose Composition; Liddell's History of Rome; Madvig's or Zumpt's Latin Grammar; Andrew's Latin-English Lexicon; Smith's English-Latin Lexicon; Anthon's or Smith's Classical Dictionary; Smith's Dictionary of Greek and Roman Antiquities; Long's Classical Atlas, or Kiepert's Atlas Antiquus.

VI. School of Sacred History and Evidences of Christianity.

PROFESSOR PICKETT.

JUNIOR CLASS.

FIRST TERM.—Old Testament History, begun.

SECOND TERM.—Old Testament History, continued.

SENIOR CLASS.

FIRST TERM.—New Testament History.

SECOND TERM.—Evidences of Christianity.

TEXT-BOOKS —English Bible; Milligan on Reason and Revelation.

VII. School of Chemistry and Physics.

PROFESSOR PETER.

JUNIOR CLASS.

FIRST TERM.—Lecture or Recitation daily; Elementary General Physics and Chemical Physics, with Experimental Illustrations and Applications.

SECOND TERM.—Same, continued into Elementary Chemistry.

SENIOR CLASS.

BOTH TERMS.—Lecture or Recitation, daily; General Chemistry with its application to Agriculture, Medicine, and the Mechanic Arts, fully Illustrated by Experiments.

PRACTICAL CHEMISTRY.

SECOND TERM.—Advanced students will be taught two hours daily on three days of the week. Each student will be charged with the apparatus he may break; and, unless a State student, must pay a fee of \$15 for the course.

VIII. School of Natural History.

PROFESSOR EVEREST.

JUNIOR CLASS.

FIRST TERM.—Human Anatomy and Physiology.

SECOND TERM.—Botany.

SENIOR CLASS.

FIRST TERM.—Zoology.

SECOND TERM.—Geology and Paleontology.

IX. School of Civil History.

PROFESSOR PATTERSON.

JUNIOR CLASS.

FIRST TERM.—Freeman's Outlines of History.

SECOND TERM.—Sime's History of Germany; Doyle's History of the United States.

SENIOR CLASS.

FIRST TERM.—The Student's Hume; the English Constitution.

SECOND TERM.—Yonge's Three Centuries of Modern History; Constitution of the United States; Political Economy.

X. School of Modern Languages.

PROFESSOR HELVETI.

JUNIOR CLASS.

FIRST TERM. . .	}	<i>German</i> .—Otto's Grammar, Part I.
		<i>French</i> .—Fasquelle's Grammar, Part I, to Lesson 100.
SECOND TERM. .	}	<i>German</i> .—Otto's Grammar; Otto's Reader.
		<i>French</i> .—Fasquelle's Grammar, Part I; Fasquelle's Colloquial French Reader.

SENIOR CLASS.

FIRST TERM. . .	}	<i>German</i> —Otto's Grammar, Part II.; Schiller's Jungfrau von Orleans; Maria Stuart; Wilhelm Tell.
		<i>French</i> —Fasquelle's Grammar, Part II.: Reading; Le Conscrit de 1813; Un Philosophe sous les Toits; Au Coin du Feu.
SECOND TERM. .	}	<i>German</i> .—Whitney's Grammar; Goethe's Hermann and Dorothea; Lessing's Nathan der Weise; Schiller's Wallenstein; Don Carlos; Modern Plays.
		<i>French</i> .—Borel's Grammaire Francaise; Moliere's Le Misanthrope; Racine's Athalie; Modern French Plays by Scribe and others.

ENTRANCE.

To enter the Freshman Class of the Schools named below, the candidate must give evidence of a fair acquaintance with the following preparatory course, or its equivalent:

SCHOOL OF THE ENGLISH LANGUAGE.—English Grammar; Composition.

SCHOOL OF MATHEMATICS.—Arithmetic; Algebra to Quadratic Equations.

SCHOOL OF THE GREEK LANGUAGE.—The whole of Kuehner's Elementary Grammar, the English Exercises to be written in Greek with the accents; the whole of Xenophon's Anabasis or Goodwin's Greek Reader; Selections from Lucian's Dialogues.

SCHOOL OF THE LATIN LANGUAGE.—Bingham's Latin Grammar, the

English Exercises to be written in Latin with the quantities marked; Three Books of Cæsar's Commentaries; Sallust's Conspiracy of Catiline; Three Orations of Cicero.

GRADUATION, DEGREES.

A student may graduate in any School on the following conditions:

1. That he shall have been a member of that School at least one year, and shall have completed in a satisfactory manner the studies thereof, or what the Professor in charge may deem a fair equivalent; the record of his scholarship for each term being not less than seventy-five per centum of the scale on which one hundred denotes perfection.

2. That he shall have habitually observed the rules of the University.

Graduation in all the Schools, except in that of Modern Languages, is required for admission to the regular Degree of Bachelor of Arts; the candidate, however, being permitted, with the consent of the Faculty, to substitute for the Calculus, or the Senior Latin, or the Junior and Senior Greek, the course in the French or German language; or to substitute for the Calculus and the Senior Latin the course in the Hebrew as taught in the College of the Bible.

A student may be admitted to the regular Degree of Master of Arts on the following conditions:

1. That he shall have been admitted, at least one year previously, in this College, to the Degree of Bachelor of Arts.

2. That he shall have passed a satisfactory examination in at least three of the following languages: Hebrew, French, German, Spanish, and Italian; or in any two of these, and in a course of Historical Study prescribed by the Faculty.

3. That he shall have paid ten dollars to the Library Fund.

AGRICULTURAL AND MECHANICAL COLLEGE.

COURSE OF INSTRUCTION.

I. School of the English Language and Literature.

PROFESSOR SHACKLEFORD.

FRESHMAN CLASS.

FIRST TERM.—Swinton's Progressive Grammar, with Exercises in Composition.

SECOND TERM.—Graham's Synonyms, with Exercises in Composition.

SOPHOMORE CLASS.

FIRST TERM.—English Lessons, with Exercises in Composition.

SECOND TERM.—Kames's Elements of Criticism, with Exercises in Composition.

JUNIOR CLASS.

FIRST TERM.—Sir William Hamilton's Lectures on Logic.

SECOND TERM.—Whately's Rhetoric, with Exercises.

SENIOR CLASS.

FIRST TERM.—Shaw's English Literature; Shaw's Specimens from English Authors.

SECOND TERM.—Chambers's English Literature.

II. School of Mental and Moral Philosophy.

PROFESSOR PATTERSON.

FIRST TERM.—Metaphysics; Hamilton's Lectures.

SECOND TERM.—Moral Philosophy, Calderwood; Blackie's Four Phases of Morals.

III. School of Mathematics.

PROFESSOR WHITE.

FRESHMAN CLASS.

FIRST TERM.—Schuyler's Algebra.

SECOND TERM.—Davies's Legendre's Geometry, Books I., II., III., IV., V., VI.

SOPHOMORE CLASS.

FIRST TERM.—Davies's Legendre's Geometry, Books VII, VIII, IX.; Davies's Plane Trigonometry and Mensuration.

SECOND TERM.—Loomis's Surveying and Navigation; Loomis's Analytical Geometry.

JUNIOR CLASS.

FIRST TERM.—Loomis's Calculus.

SECOND TERM.—Snell's Olmsted's Mechanics.

SENIOR CLASS.

FIRST TERM.—Davies's Spherical Trigonometry; Snell's Olmsted's Astronomy.

IV. School of Chemistry and Physics.

PROFESSOR PETER.

JUNIOR CLASS.

FIRST TERM.—Lecture or Recitation, daily; Elementary General Physics and Chemical Physics, with Experimental Illustrations and Applications.

SECOND TERM.—Same, continued into Elementary Chemistry.

SENIOR CLASS.

BOTH TERM.—Lecture or Recitation, daily; General Chemistry with its application to Agriculture, Medicine, and the Mechanic Arts, fully illustrated by experiments.

PRACTICAL CHEMISTRY.

SECOND TERMS.—Advanced students will be taught two hours daily on three days of the week. Each student will be charged with the apparatus he may break; and, unless a State student, must pay a fee of \$15 for the course.

V. School of Natural History.

PROFESSOR EVEREST.

To enter the Sophomore Class of this School, students must have attended as least one course of Lectures upon Organic and Inorganic Chemistry, and must present a certificate of having sustained a thorough and satisfactory examination therein. Those wishing to enter any advanced class must sustain an examination upon the studies of the previous classes, or present proof of having done so elsewhere.

FRESHMAN CLASS.

FIRST TERM.—Physical Geography.

SECOND TERM.—Elementary Anatomy and Physiology, alternating with Elementary Botany.

SOPHOMORE CLASS.

FIRST TERM.—Human Anatomy and Physiology, or the structure and laws of the human body, and the preservation of health, both physical and mental.

SECOND TERM.—Botany; Structural and Physiological Botany, or the anatomy and mode of life of plants, especially in reference to their cultivation and propagation; Systematic Botany, or the study of the species, varieties, races, etc., of plants and their classification according to affinities.

JUNIOR CLASS.

FIRST TERM.—Zoology, begun; Structural Zoology, or the anatomy of the brute creation, domestic animals, etc.

SECOND TERM.—Zoology, finished; Systematic Zoology, which deals with animals as Systematic Botany does with plants.

SENIOR CLASS.

FIRST TERM.—Geology and Paleontology, begun; Geology, or the History of the structure of the earth, and the phenomena of mines, metals, ores of iron, coal, building-stone, mineral springs, etc.

SECOND TERM.—Geology and Paleontology, finished; Paleontology, or the history of fossil animals and plants, and their agency in the formation of coal-beds, coal-oil, limestone, marble, and rocks in general.

VI. School of Civil History.

PROFESSOR PATTERSON.

JUNIOR CLASS.

FIRST TERM.—Freeman's Outline of History.

SECOND TERM.—Sime's History of Germany; Doyle's United States.

SENIOR CLASS.

FIRST TERM.—The Student's Hume; English Constitution.

SECOND TERM.—Yonge's Three Centuries of Modern History; Constitution of the United States; Political Economy.

VII. School of Modern Languages.

PROFESSOR HELVETI.

JUNIOR CLASS.

FIRST TERM.	{	<i>German.</i> —Otto's Grammar, Part I.
	{	<i>French.</i> —Fasquelle's Grammar, Part I, to Lesson 100.
SECOND TERM.	{	<i>German.</i> —Otto's Grammar; Otto's Reader.
	{	<i>French.</i> —Fasquelle's Grammar, Part I.; Fasquelle's Colloquial French Reader?

SENIOR CLASS.

FIRST TERM. { *German.*—Otto's Grammar, Part II.; Schiller's Jung-
frau von Orleans; Maria Stuart; Wilhelm Tell.
French.—Fasquelle's Grammar, Part II.; Reading;
Le Conscrit de 1813; Un Philosophe sous les Toits; Au
Coin du Feu

SECOND TERM. { *German.*—Whitney's Grammar; Goethe's Hermann
and Dorothea; Lessing's Nathan der Weise; Schiller's
Wallenstein; Don Carlos; Modern Plays.
French.—Borel's Grammaire Francaise; Moliere's Le
Misanthrope; Racine's Athalie; Modern French Plays
by Scribe and others.

VIII. *School of Civil Engineering and Mining.*

PROFESSOR WHISTLER.

In this School will be taught Geometrical and Topographical Drawing, Tinting, Shading, and Lettering; Descriptive Geometry; Linear Perspective; Shades and Shadows; Practical Astronomy; Road Engineering; the use of Engineering Instruments; Leveling; Architectural Drawing; Geology of Mining Districts; Metallurgy; Mining Engineering; Construction of Furnaces; Determination; Mineralogy; and History of Mining Operations.

TEXT BOOKS.—Church's Descriptive Geometry; Mahan's Civil Engineering and Stereotomy.

IX. *School of Military Tactics.*

PROFESSOR WHISTLER.

The course will comprise Practical and Theoretical Instruction in the Tactics of the different Arms in Military Discipline, including the duties of Guards, Sentinels, etc., in accordance with the Tactics and Regulations prescribed for the United States Army.

METEOROLOGICAL OBSERVATORY.

EDWARD LLOYD, U. S. A., INSTRUCTOR.

A Signal Service Station of the War Department has been established on the College grounds. Facilities are given for instruction in

Meteorology.

FIRST TERM.—Loomis's *Meteorology*, fully illustrated with standard instruments, including Barometers, Thermometers (Maximum and Minimum), Hygrometers (Wet and Dry-bulb Thermometer), Anemometers (with self-registering attachment), etc.

SECOND TERM.—Buchan's *Meteorology*, illustrated with a complete set of apparatus

ENTRANCE.

To enter the Freshman Class in this College the candidate must, upon examination, show a fair acquaintance with the following subjects: English Grammar; Geography; Outlines of History; Ray's *Arithmetic*, Part III.; Ray's *Algebra*, Part I.

For the present, Preparatory Classes in English Literature and Mathematics are organized for the benefit of such students as have been unable to qualify themselves for regular admission.

GRADUATION, DEGREES.

A student may graduate in any School on the following conditions:

1. That he shall have been a member of that School at least one year, and shall have completed in a satisfactory manner the studies thereof, or what the Professor in charge may deem a fair equivalent; the record of his scholarship for each term being not less than seventy-five per centum of the scale on which one hundred denotes perfection.

2. That he shall have habitually observed the rules of the University.

Graduation in all the Schools, except in those of Modern Languages, Civil Engineering, and Military Science, is required for admission to the regular Degree of Bachelor of Science.

A student may be admitted to the regular Degree of Master of Science on the following conditions:

1. That he shall have been admitted, at least one year previously, to the Degree of Bachelor of Science.

2. That he shall have passed a satisfactory examination

before the proper Faculty, in an advanced course of two departments of Natural Science, and a course of historical study prescribed by the Faculty.

3. That he shall have paid ten dollars to the Library Fund.

STATE STUDENTS.

By a provision of the act incorporating the Agricultural and Mechanical College, each Legislative District in the State is entitled to send to this College, free of charge for tuition, three properly prepared students, who have also the right to receive, free of charge, the benefit of instruction given in the College of Arts and the College of the Bible.

The law requires that the selection of students shall be made by the Justices of the Peace in each Legislative District. This should be done at the regular meetings of the County Court, and the orders appointing them duly certified by the Clerk.

The appointees should be at least fourteen years of age, of good character and industrious habits, and should be versed in the elements of the English branches. It is earnestly recommended, that the system of competitive examinations be adopted, and that one or more competent teachers be selected in each District as a Board of Examiners, thus giving all, especially the poor young men, a chance for the State honor.

The recommendation of the County Judge, until the next meeting of the Quarterly Court, will entitle them to admission.

State students have priority in choice of rooms, but to exercise this privilege they should be present at the beginning of the session.

MILITARY INSTRUCTION.

The act of Congress granting the land scrip requires any Agricultural College receiving the benefit of the grant to give instruction in Military Tactics. In accordance with the provisions of this act, regular instruction is given to the students of this College in the Infantry Drill, and Military Discipline and Police, in accordance with the regulations prescribed for the United States Army.

The School of Military Science is now elective, and admission to the same is optional with all students of the University. Each member of this School will need a uniform of cadet-gray cloth, such as is usually worn at the Military Schools of the country. It can be obtained here at a cost not exceeding that of an ordinary suit.

THE LABOR SYSTEM.

All students of the Agricultural and Mechanical College are required to spend a portion of their time in active labor, either in the Agricultural or Horticultural Department. They are distributed into these departments according to their respective qualifications, and, as far as practicable, in harmony with their wishes.

Students who desire to defray a portion of their expenses while acquiring their education, are required to labor from four to five hours per day upon the Farm, six days in the week. The rates of compensation will vary from five to ten cents per hour, according to industry and proficiency. Job-work is sometimes assigned to students, for which they receive wages according to stipulation.

All students applying for admission are left free to elect either the compensated or uncompensated labor.

During the Winter months out-door labor may be suspended in whole or in part by the Faculty, upon recommendation of the Superintendents.

Students desiring to remain upon the Estate during the vacation, will find a pleasant home, and will have an opportunity of laboring a part of the time on the Farm. A Summer School will be provided during vacation for the benefit of students wishing to prosecute their studies. Such students, however, will be required to matriculate, and they will be subject, during the vacation, to the regulations of the Institution.

Students in these working divisions are arranged in two classes, one laboring in the forenoon and the other in the afternoon, thus alternating labor and study.

Club-houses, situated conveniently to labor, are provided upon the Estate for such as wish to adopt a cheap system of boarding.

AGRICULTURAL AND MECHANICAL
COLLEGE.

COLLEGE OF THE BIBLE.

The design of this College is to prepare young men for the work of the Christian Ministry. Those who enter it must be at least sixteen years of age, and must present satisfactory testimonials of their good Christian character.

The course of instruction is adapted to two classes of students: *first*, to those who have completed the course in the College of Arts, or in some other College of equal rank, and who desire to obtain a thorough and critical knowledge of the Holy Scriptures in the original languages; and *secondly*, to those who have little or no acquaintance with the Greek or Hebrew, and who desire to obtain only a general and practical knowledge of the English Scriptures. The course of instruction designed for the former is comprehended in the three following Schools, except that they are not required to study the course of English Exegesis.

COURSE OF INSTRUCTION.

I. School of Sacred Literature and Christian Doctrine.

PROFESSOR GRAHAM.

FRESHMAN YEAR.

Hebrew Grammar and First Lessons in Reading.

JUNIOR YEAR.

Hebrew, continued; Hellenistic Greek; and Greek and Hebrew Exegesis.

SENIOR YEAR.

Exposition and Defense of the Scheme of Redemption as it is taught and illustrated in the Holy Scriptures.

TEXT-BOOKS AND WORKS OF REFERENCES.—Instruction in this School is given partly by Lectures and partly by the use of the following text-books and works of reference: Green's Hebrew Grammar, Hahn's Hebrew Bible, Milligan on Reason and Revelation, Milligan on Scheme of Redemption, Bagster's Critical New Testament (Greek and English), Alford's Greek Testament, Bagster's edition of the Septuagint, Robinson's Greek and English Lexicon of the New Testament, Liddell and Scott's Greek and English Lexicon, Winer's Grammar of the New Testament, and Gesenius's or Fuerst's Hebrew-English Lexicon.

II. *School of Sacred History and Evidences of Christianity.*

PROFESSOR M'GARVEY.

FRESHMAN YEAR.

FIRST TERM.—Pentateuch, begun.

SECOND TERM.—Pentateuch, finished; Job, Joshua, and Judges.

SOPHOMORE YEAR.

FIRST TERM.—Remainder of the Old Testament History begun, with the Poetical and Prophetical Books introduced in their chronological order and studied historically.

SECOND TERM.—The same completed, and a course of Lectures on the Intermediate History of the Jews.

JUNIOR YEAR.

FIRST TERM.—Narratives of Matthew and Mark.

SECOND TERM.—Narratives of Luke and John.

SENIOR YEAR.

FIRST TERM.—Acts of Apostles, and a brief Historical Outline of the Epistles.

SECOND TERM.—Discussion of the Authenticity, Integrity, Inspiration, and Authority of the Books of the New and Old Testaments; with an examination and refutation of the most prevalent forms of Modern Infidelity.

TEXT-BOOKS AND WORKS OF REFERENCE.—English Polyglot Bible; Coleman's Sacred Atlas; Milligan's Analysis of the New Testament, Volume I; Milligan's Reason and Revelation; McGarvey's Commentary on Acts; and Smith's Dictionary of the Bible.

III. *School of Homiletics and Hermeneutics.*

PROFESSOR GRAHAM.

JUNIOR YEAR.

FIRST TERM.—Hermeneutics and English Exegesis.

SECOND TERM.—English Exegesis, continued, with a course of Lectures on the Duties and Habits of Preachers.

SENIOR YEAR.

FIRST TERM.—Homiletics begun, with frequent exercises in the Composition and Delivery of Sermons.

SECOND TERM.—Homiletics finished; Discussion of Topics; Composition and Delivery of Sermons.

TEXT-BOOKS AND WORKS OF REFERENCE.—English Polyglot Bible, Milligan's Reason and Revelation, Broaddus on the Preparation and Delivery of Sermons.

The same course of instruction is designed also for students of the Second class, except that they are not required to study the Hebrew and the Greek. They must, however, in order to regular admission, be well versed in Arithmetic, Geography, English Grammar, and the outlines of History; and in order to graduation they must also stand an approved examination on all the branches pertaining to the School of English Literature.

IV. School of English Literature.

PROFESSOR PICKETT.

FRESHMAN YEAR.—Philosophy of Grammar and Rhetoric.

JUNIOR YEAR.—Criticism and Logic.

SENIOR YEAR.—Rhetoric and English Classics.

TEXT-BOOKS.—Quackenbos's Rhetoric, Kames's Elements of Criticism, Whately's Logic, Whately's Rhetoric, and Shaw's English Literature. Special attention will be given to Composition and Elocution during the entire course in this School.

REGULAR COURSE OF STUDY.

I. Classical Course.

FIRST YEAR.—Freshman Sacred History; Sophomore Sacred History; Junior Sacred History; and Freshman Sacred Literature.

SECOND YEAR.—Senior Sacred History; Junior Sacred Literature; Senior Sacred Literature; and Senior Homiletics.

II. English Course.

FIRST YEAR.—Freshman Sacred History; Sophomore Sacred History; and Freshman English Literature.

SECOND YEAR.—Junior Sacred History; Senior Sacred History; and Junior English.

THIRD YEAR.—Junior Homiletics, etc.; Senior Sacred Literature; Senior Homiletics; and Senior English.

ECCLESIASTICAL HISTORY.

Some attention is given to Ecclesiastical History, chiefly in connection with the course of instruction in Christian Doctrine and the Evidences of Christianity. The works of Neander, Schaff, Mosheim, and Giesler are all used as books of reference.

CERTIFICATE OF GRADUATION.

No degrees are conferred in this College, but Certificates of Graduation will be given to all who complete either the English or the Classical Course; provided that during their connection with the University they shall have complied strictly with all its rules and regulations.

EXPENSES, ACCOMMODATIONS, ETC.

In order to encourage poor and pious young men to enter this College with the view of better qualifying themselves for the work of the Ministry, the Board have appropriated for the *exclusive* use of such, the large Brick Dormitory on the University premises. It consists of twenty-four large, well-ventilated rooms, and will accommodate eighty-four students, besides furnishing a good kitchen and dining-room. In the Adelpian Club—composed wholly of the matriculates of this College—a student can board for about \$1.75 a week, that is, for about \$70.00 a session. His bill for washing during the same time is about \$10.00, and for fuel and lights about \$10.00. Besides these expenses, every student has to furnish his own room, and to pay to the Treasurer, on his arrival at the University, a matriculation fee of \$10.00, and a room fee of \$5.00. The cost of furnishing a room is about \$40.00, that is, about \$10.00 for each occupant; but the articles purchased will of course,

with proper care, last for several years, and this expense belongs only to the first session.

No charge is made for Tuition, and hence the entire expenses of a student in the Adelpian Club, exclusive of what he may spend for clothing and furniture, are about as follows: For matriculation fee, \$10.00; room fee, \$5.00; boarding, \$70.00; washing, fuel and lights, \$20.00; books and stationery, \$20.00; making in all \$125.00 for a session of forty weeks.

Students are received at any time; but if possible all should be present and have their rooms secured on Saturday preceding the opening of the session. No room can be secured for any new student in anticipation of his arrival at the University, nor until he shall have obtained his *Permit* from the Regent. Those who design to enter the College of the Bible should come directly to the Brick Dormitory and inquire for the Steward of the Adelpian Club. By so doing they will save both trouble and expense.

 COLLEGE OF THE BIBLE.

COMMERCIAL COLLEGE.

The studies of the Commercial College of Kentucky University have been selected for their practical value. The course is well adapted to the wants of all who expect to become merchants or farmers; and to others who desire to fit themselves for the practical duties of life. The greatest liberty of choice consistent with thorough discipline is allowed, and the course of study is so arranged as to meet the pecuniary wants of young men.

COURSE OF INSTRUCTION.

I. Book-keeping Course.

This is arranged for two terms; but students who enter prepared to pass an examination in Grammar and Ray's Arithmetic, Part III., can complete it, and in one term get a diploma. The first term is, therefore, to be regarded as preparatory.

FIRST TERM.—Ray's Arithmetic, Part III.; Butler's Grammar; Composition; Penmanship, and Theoretical Book-keeping.

SECOND TERM.—Bryant and Stratton's Arithmetic; Rhetoric and Composition; Penmanship; Practical Book-keeping.

Students who complete this course are entitled to graduate in this department.

II. Bachelor of Commerce Course.

JUNIOR CLASS.

FIRST TERM.—Algebra; Commercial Arithmetic; Rhetoric; Penmanship; Theoretical Book-keeping; Philosophy; Physiology.

SECOND TERM.—Algebra; Geometry; Kames's Elements of Criticism; Penmanship; Book-keeping; Commercial Law; Botany.

SENIOR CLASS.

FIRST TERM.—Geometry; German; Chemistry; Mental Science; Physical Geography.

SECOND TERM.—Surveying; History of the United States; Political Economy; German; Chemistry; Moral Science.

Students who complete this course are entitled, on payment of fees for diploma, to receive the degree of Bachelor of Commerce.

III. Master of Commerce Course.

Students who have taken the degree of Bachelor of Commerce are admitted to this course. These studies are optional, and the student can choose any three with the advice of the Presiding Officer, and having prosecuted successfully his studies for one year is entitled to the degree of Master of Commerce. The studies in this course are as follows:

FIRST TERM.—Engineering; Logic; Constitutional Law; Hume's History; German; French; Sacred History; Zoology.

SECOND TERM.—Engineering; International Law; Gibbon's History; German; French; Sacred History; Zoology.

ENTRANCE.

To enter this College no special examination is required. For the Book-keeping course the student may enter at any time; for the other two courses he should enter at the beginning of the session.

GRADUATION, DEGREES.

Students who have a good knowledge of Grammar and Arithmetic can complete the Book-keeping Course in five months. They can take the Degree of Bachelor of Commerce in two years, and the Degree of Master of Commerce in three years from the time of entrance.

COLLEGE OF LAW.

The design of the College of Law is to provide a complete and thorough Course of Instruction—except in merely local law and practice—for young men preparing for the Bar in any part of the United States. Instruction is given by lectures, with examinations upon them, or by recitations, with familiar expositions by the Professors. Moot Courts, presided over by the Professors, will be regularly held. The Course of Study is so arranged as to be completed within two sessions. No examination or particular course of previous study is required for admission.

A diploma issued by this College is a license to practice law in the Courts of Kentucky.

JUNIOR CLASS.

TEXT-BOOKS.—Smith on Contracts; Smith's Mercantile Law; Blackstone's Commentaries; Williams on Personal Property; Williams on Real Property; Stephen on Pleading; Barton's History of a Suit in Equity; Fonblanque's Equity; Story on the Constitution.

SENIOR CLASS.

TEXT-BOOKS.—Parsons on Contracts; Kent's Commentaries; Chitty's Pleadings; Code of Practice; Greenleaf on Evidence; Adams on Equity Jurisprudence and Pleadings; Cooley's Constitutional Limitations.

Students attending the College of Law can enter the classes of the College of Arts, or those of the Agricultural and Mechanical College, or of the Bible College, and receive instruction without additional charge.

TRANSYLVANIA MEDICAL COLLEGE.

The Course of Instruction in this Department is thorough and comprehensive, under a full and able Faculty, embracing some of the distinguished Professors who were connected with the old Transylvania Medical College in its palmy days, many of whose pupils now fill honorable positions in the profession throughout the Mississippi Valley. It is the purpose of the Board to restore as far as possible the prestige of this the first and most popular Medical College in the West. In this endeavor they appeal to all the sons of their venerable Alma Mater for their assistance and patronage.

The benefits of instruction in the Classical, Scientific, and Technical courses of study pursued in the associated Colleges of the University will be extended *without charge* to the matriculates of this department, thus giving students, at a very moderate cost, peculiar advantages for both general and professional education.

TRANSYLVANIA MEDICAL COLLEGE.

JOHN B. BOWMAN, REGENT.

FACULTY.

H. M. SKILLMAN, M. D.,

Dean of the Faculty, and Professor of Physiology and Hygiene.

W. O. SWEENEY, M. D.,

MISCELLANEOUS.

SESSION, TERMS, COMMENCEMENT.

The collegiate year in all the Colleges consists of a single session of nine months, divided into two equal terms. It begins on the second Monday in September, and ends on the second Thursday in June, which is Commencement day.

REQUISITES FOR ADMISSION.

Every candidate for admission must present satisfactory evidence of good moral character; and, if previously connected with any other College, a certificate of honorable standing in it. For admission into the College of Arts, the Agricultural College, or the Commercial College, he must be at least fourteen years of age; into any other College, sixteen; for advanced standing corresponding increase of age is required.

A Professor may, at his discretion, admit into his School a student on probation for a reasonable length of time, upon condition that, if he fail to exhibit a satisfactory degree of diligence or proficiency, his connection with the school shall cease.

A candidate not prepared for the Freshman Class of any School may enter the Preparatory Class of that School; but no one can be admitted into the College unless he be prepared for the Freshman Class of at least one School.

EXAMINATIONS.

There are two classes of examinations: the first daily, in connection with the daily lecture or recitation; the second public, at the close of each term.

Immediately after an examination of either kind a number is affixed to the name of the student examined, designating the value of his performance. When perfect, the number is one

hundred; when an entire failure, zero; when intermediate in merit, the proper relative percentage.

From these numbers the scholarship of each student for the term is ascertained and placed on record, and a report sent to his parent or guardian. This report also contains an estimate, on the same scale, of the student's conduct in the recitation rooms, his general conduct, or conduct outside the recitation room, his industry and his punctuality.

F E E S .

MATRICULATION.—College of Arts \$20.00; Agricultural and Mechanical College, State Students \$10.00, others \$20.00; the other Colleges \$10.00.

TUITION.—College of Arts \$5.00; Agricultural and Mechanical College, State Students free, others \$5.00; College of the Bible free; Commercial College \$30.00; College of Law \$60.00; Medical College, each Instructor \$10.00.

ROOMS.—Unfurnished rooms, each occupant \$5.00.

DIPLOMA.—Commercial College \$3.00; the other Colleges free.

No tuition fee is required in the College of Arts or in the Agricultural and Mechanical College of any student in indigent circumstances, who has had at least one year's actual experience in teaching, and who designs to make it a regular profession.

All fees are required in advance, and no deduction is made from the full fees, however late in the session a student may enter.

Students intending to enter the Agricultural and Mechanical College should bring at least seventy-five dollars for their outfit and first month's board.

B O A R D I N G .

A student can select his own boarding-house, subject in all cases to the approval of the Faculty. He cannot, however, board at any house where intoxicating liquors are sold, or card-playing or billiard-playing is practiced, or the rules of good order and decorum are, in other respects, disregarded. The

cost of boarding in private families, including fuel, lights, and the use of furnished rooms, varies from four dollars to five dollars per week.

Unfurnished rooms on the University grounds may be occupied by students desirous of forming a club and boarding themselves; to such the cost of boarding, fuel, and lights is about two dollars per week. The expense of furnishing a room need not exceed ten dollars for each of its occupants. These rooms are assigned to applicants by the Presiding Officer in the order of application; they must be kept in a neat, cleanly condition, and at all times be subject to the inspection of any member of the Faculty. Damages done to them must be repaired by the injurer, if known; otherwise, by the occupants.

SOCIETIES.

The Literary Societies are five in number; two in the College of Arts, two in the College of the Bible, and one in the Agricultural and Mechanical College. They have their respective halls and libraries, and their weekly exercises add to the facilities afforded by the Schools of the English Language for practice in Composition, Elocution, and Discussion.

PUBLIC WORSHIP.

Every student is required to attend the chapel exercises at such an hour each day as may be designated by the Faculty of the College to which he belongs; and also to attend such other public religious exercises as may be ordered on National Thanksgiving-day or the Lord's-day, unless excused for special reasons by the proper Faculty.

LIBRARIES.

There are good Law, Medical, and Miscellaneous Libraries belonging to the University, which comprise about ten thousand volumes of valuable books, and which are open to all the students of the University. The Law Library is perhaps one of the best in the West.

APPARATUS.

There is a valuable collection of Chemical, Philosophical, and Astronomical Apparatus belonging to the University, adapted to the purpose of illustration and instruction in the various Schools of Science.

MUSEUMS.

Through the energy and liberality of Regent BOWMAN, a Museum of Natural History has been created, and it already contains about *twenty thousand* specimens, including a large number of the birds and mammals of North America.

The friends of the institution throughout the country will render valuable service to the cause of science by their continued contributions of geological and mineralogical specimens, and of animals, birds, fishes, reptiles, insects, relics, curiosities, etc., all of which can be sent *free of cost* by *express*. Such articles will be duly credited to the donors, and a list of them published in the Annual Catalogue.

The *Anatomical Museum* is also large, and was originally secured at great cost. It contains many valuable wax models, natural skeletons, and arterial and alcoholic preparations, illustrative of Anatomy and Physiology.

APPENDIX.

ANNUAL REPORT OF THE REGENT.

Gentlemen of the Board of Curators:

I have the honor to submit to you my Nineteenth Annual Report upon the affairs of Kentucky University. I trust we have assembled with a full sense of the great responsibilities resting upon us, and in that spirit of fraternity and philanthropy which becomes those who are the guardians of interests so broad and far-reaching into the future. By the charter of the Institution we are the repositories of the most sacred trusts, committed to us by nearly a thousand individual Donors throughout the Mississippi Valley, by the U. S. Government, by the State of Kentucky, by the Trustees of Bacon College, and by those of old Transylvania University, in perpetuity, for the cause of education and religion, and ultimately for the glory of God and the elevation of our race.

These trusts have been created and transmitted chiefly through my own voluntary agency during the past twenty years, by securing donations of money and property and by procuring acts of consolidation and confederation for the perpetuation of the same. By a compact well-understood before the passage of the charter of the University, and ratified and made a matter of record by this Board, I stand between it and the Donors as their representative, and before the public, solemnly and especially pledged to see that the various trusts are faithfully carried out. They trusts are vested in Endowments, Real Estate, Buildings, Libraries, Apparatus, Museums, &c., which are inalienable. These constitute the basis of the University as at present organized, and are the appliances for the promotion of the improved, cheap, and free education of the

people. To study and understand these various trusts, and how best to administer them to effect greatest results in the proper education of the people, should always be a matter of the most earnest and prayerful consideration. It is made my official duty to report to you annually the condition and want of the Institution, with such recommendations as may be necessary, and also to present it properly before the public for its support and patronage.

The Executive Committee will, in their detailed report, present to you a summary of their action in carrying out the onerous work imposed at your last meeting. In harmony with the suggestions which I had the honor to offer in my last Report, looking to the adjustment of the difficulties which existed, and with a view to the speedy endowment of the Bible College, the Executive Committee, in accordance with your action, and upon the recommendation of the Kentucky Christian Education Society, appointed Professors Robert Graham and J. W. McGarvey to the chairs in the Bible College, designating the former as Presiding Officer of the same. They also transferred Prof. H. W. Everest to the chair of Natural History in the A. & M. College. With these appointments the organization of the several Colleges was completed for the approaching session. On account of the stringent condition of the finances of the Institution, and the urgent necessity for retrenchment, the Committee determined to issue no catalogue last year, and to expend nothing in advertising. This failure to give to the public the usual information in regard to the University, imposed upon me the necessity of supplementing it with a heavy correspondence in answer to the inquiries which came, and I am satisfied also curtailed very considerably the patronage during the past session. Notwithstanding this, however, and also the general financial depression throughout the country which affected the patronage of most of the Western and Southern Colleges, my books show that three hundred applicants for session bills were enrolled, and the widely extended patronage shows that the Institution still maintains its national reputation. Students were here from twenty-four States and Territories, and four foreign countries, as follows: Kentucky, Tennessee, Missouri, Arkansas, Texas, Louisiana, Mississippi,

Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, District of Columbia; Pennsylvania, New York, Ohio, Indiana, Illinois, Iowa, Kansas, Idaho, Oregon, Mexico, Nicaragua, Australia, and New Zealand. No College or University perhaps in the whole country shows a more diversified patronage. These were distributed according to their choice, to the College of Arts, the A. & M. College, the Bible College, the Law College, and to the Commercial College. The officers of instruction during the past year were Professors White, Patterson, Graham, Perrin, and Johnson (the Presiding Officers of the several Colleges), and Professors Peter, Neville, Pickett, Shackelford, Milligan, Helveti, White, Jr., Everest, Breckinridge, Smith, Houston, Shelby, Whistler, Turner, Hopkins, and Tutors Cook, Lloyd, Holton, and Blanchard, and Superintendents Dean and Thompson. The educational work of the year was performed by this corps of faithful and efficient Instructors, the details of which are presented in the reports of the several Presiding Officers, and in the accompanying reports of the professors, which I have the pleasure of submitting to you. The session has been a pleasant and harmonious one, the health of officers and students good, and the results for the cause of education and Christian morality have been very satisfactory. I am confident that the thoroughness of the work performed by the students and Professors is fully up to the standard of that of our best American Colleges.

THE COLLEGE OF ARTS.

The report of Professor White, the Presiding Officer of this College, which has just passed through its seventeenth session, shows that there were eighty-one students in attendance, two less than last year; and that, with the exception of two classes, regular instruction was given in the ten schools of this College, six of them taught by its own Professors, and four by the Professors at the A. & M. College. There are six candidates for the degree of Bachelor of Arts, whose names will be presented to you for their degrees. This report, and the accompanying reports of the several Professors, are respectively referred to the Standing Committee on this College for their consideration.

THE AGRICULTURAL AND MECHANICAL COLLEGE.

At your last meeting leave of absence was granted to Prof. Patterson, Presiding Officer of this College, to visit Europe, for the purpose of attending the meeting of the International Geographical Association at Paris, to which he was appointed as a delegate by the Governor of Kentucky. During his absence, which was continued until about the 15th of November, Prof. Shackelford discharged the duties of Presiding Officer with general satisfaction. The loss to the Institution by the temporary absence of Prof. Patterson was more than repaid by the service rendered to the cause of science, and by the credit reflected upon the State and upon the University, by his able Report which was presented to the Legislature last winter. The number matriculated in this College was ninety-four, four less than last year. The patronage of this College has been materially reduced for the last two or three years by the necessity of discouraging the attendance of a number of poor young men, not State students, who wished to secure their education by work, but for whose compensation means were not available. The Compulsory Military System, subjecting the young men to the expense of uniform, and to a severer discipline than that which pertains to the other Colleges, has also reduced considerably the roll of matriculates. I am glad to unite in the recommendation of the Faculty and the Commandant, that the Drill and other Military duties be made voluntary, instead of compulsory, as at present, and that the School of Military Tactics be placed on the same footing as the other Schools, allowing the students of any of the Colleges, who may desire, to enter it. I would call your attention also to the suggestions of the Presiding Officer, expressing the views of the Faculty in regard to the workings of the Club-System at Woodlands, and would recommend that the subject be referred to the Executive Committee and the Faculty for their mature consideration.

The urgent suggestions of Prof. Everest in regard to the preservation of the Museum of Natural History, should also receive the consideration of the Board. I also call your attention to the recommendation by the Faculty of Mr. T. R. Hardin, an alumnus of this College, for the Degree of Master of Science.

BIBLE COLLEGE.

The report of Prof. Graham, Presiding Officer of the College of the Bible, shows that there were fifty-nine matriculates, a considerable increase over the number of last session. Instruction was given in the four Schools of this College by Professors Graham, McGarvey, and Pickett; the instruction in Hebrew having been given by Prof. Turner of Hocker College, under a special arrangement made by Prof. Graham at his own expense. The reports of the Presiding Officer and his Colleagues show very satisfactory results from the labors of the year. The report of Prof. Pickett to the Presiding Officer presents some forcible reasons for the elevation of the standard of admission to, and of graduation in, the English course of the Bible College. These I heartily endorse, and would commend to the consideration of the Board. Eight young men, two in the Classical and six in the English course, have completed in a satisfactory manner the studies prescribed, and their names will be presented for Diplomas.

COMMERCIAL COLLEGE.

In the Commercial College, which has been under the charge of the Presiding Officer, Prof. Perrin, thirty-five matriculates were enrolled. The reduction in the number of students arose chiefly from the suspension of the preparatory classes, which were attached to it the previous year. The decrease in numbers, however, diminished the expense by the salary of at least one instructor, and gave greater efficiency to the labors of Prof. Perrin, though at the same time largely increasing them. Seven students have completed the Book-Keeping Course, and one the course for the degree of Master of Commerce. Six regular classes were taught by Prof. Perrin, and one class, during the second term, by Mr. John B. Holton. Instruction was given to the classes in Book-Keeping, Arithmetic, Penmanship, Commercial Law, Commercial Ethics, and Political Economy. It is greatly to be desired that the valuable services of Prof. Perrin should be continued in this most important course of Instruction, for which there is an increasing demand.

LAW COLLEGE.

This Department has been under the instruction of its able Faculty, consisting of Professors M. C. Johnson, J. B. Huston, and W. C. P. Breckinridge, supplemented in part by the labors of J. Soule-Smith and John T. Shelby. Twelve young men have completed the course, and will receive their degrees at their Commencement on Wednesday evening. This College is financially self-sustaining.

In addition to these classes, Mr. James Lloyd, the U. S. Signal Officer detailed to the A. & M. College, gave instructions to a class in Meteorology. Instruction in Elocution was also given by Prof. Jas. J. Hopkins to some forty students of the University, with very satisfactory results.

The Classes in Surveying and Civil Engineering were instructed by Col. Whistler, U. S. Commandant of the cadets, in addition to his military duties, and without charge to the Institution.

I submit herewith the report of Mr. Dean, the Superintendent of the estate, containing an exhibit of the crops, stock, &c., which I commend to the consideration of the proper Committee.

The farm and gardens have been cultivated, as heretofore, chiefly by the students of the A. & M. College, many of whom have defrayed a large portion of the expenses of their education by their labor. The utility of this Estate, which was secured especially as an important part of the Educational Apparatus of this College, and for the beneficent purposes heretofore stated, is limited only by the want of means necessary to defray the expenses of the student-labor system, which ought not to be expected from the nature of things to be pecuniarily productive. It has, however, more than paid the legitimate expenses for its improvement and cultivation.

The valuable collection of green-house plants and shrubs which I have secured from time to time, entirely by donations, and especially for educational purposes, has increased to the full capacity of the two houses erected, and is becoming remunerative from the sales of the surplus stock. A printed catalogue of the same is herewith filed. It is with pleasure

that I acknowledge the receipt of valuable donations of plants and seeds from the Honorable Commissioner of Agriculture at Washington City.

The experiments made in the culture especially of the wheat and hemp seed which were furnished, have been most satisfactory, and have illustrated the great value of that Department of the Government in the improvement of the crops of the country.

I have received a valuable collection of plants during the past year, from the Superintendent of the Congressional green-houses.

Such, gentlemen, is a brief *resume* of the condition of the Institution during the past year. I am gratified to state that a better and more hopeful feeling has prevailed throughout the country in regard to its great benevolent aims and objects, and I believe many prayers are going up over the land for its ultimate success, based, I am sure, upon the faith that there are philanthropic Christian men connected with it, calm, brave, and self-sacrificing enough to rise above all strife and bitterness, and still to labor on in harmony and fraternity for its highest good.

But in the history of the best men, as well as of Institutions, pecuniary trials and difficulties sometimes come, which strain their resources and powers of usefulness, yet which may be overcome. This is now the chief shadow resting over the future of the University. As I have communicated to you in former reports, a large portion of the vested funds are paying no dividends at present. Over \$70,000 are invested in the first mortgage bonds of the Lou., Cin., and Lex. Railroad, \$32,000 of which were placed many years ago by the old Transylvania Board, and the remainder more recently, when they were regarded as amongst the most solvent securities, and were sought by many of the largest capitalists and best financiers of the State. Forty thousand dollars are invested in Commercial Bank stock, which was purchased previously to the removal of the University from Harrodsburg, eleven years ago; some at par and some at a premium. It was regarded as among the best stocks, and was sought by the Trustees of other charitable institutions, such as the Midway Orphan School and the

Kentucky Christian Educational Society, as among the best investments which could be made.)

But for reasons for which this Board is in no way responsible, the Short Line Road and the Commercial Bank have become involved in financial troubles, which have suspended for about three years the payment of their dividends. When they will resume payment I have no means of knowing. I regard the Railroad Bonds, however, as still a good, safe investment, with ample security, in the way of a first mortgage, for their ultimate redemption. I am not so hopeful in regard to the value of the Bank Stock. From this default in the payment of the interest on about \$113,000 of the funds (the endowment of more than four chairs of the University), a large income debt has been created, which has become embarrassing to the Institution, and for which some provision should be made by the Board. The amount of the indebtedness will be reported to you by the Treasurer.)

The Board will bear me out that in my former reports for several years, in view of this contraction of the resources, I have urged a corresponding reduction of the expenses. I have no other remedy to suggest now, except the most rigid economy and retrenchment consistent with the best interests of the Institution. The indebtedness is, in my judgment, such as can be met in a few years by wise and harmonious action, with the large resources of the Institution as a basis of security. The A. & M. College, with its funds and property, and with the outstanding obligations to the Real Estate and Building Fund, can, with proper management, meet its obligations, and at the same time help bear the burdens of the other Colleges, as it is now doing, by giving instruction, through its Professors, to a number of their classes.)

(The Law College is self-sustaining, and I think an economical arrangement can be made by which the important course of instruction in the Commercial College can be continued at a small cost. I doubt not that you, in your wisdom, can devise some means by which the necessary work in the College of Arts and the Bible College can be carried on, and I recommend the whole subject to your most careful consideration.)

There are outstanding notes to the Endowment Fund, the

Library and Apparatus Fund, and the Real Estate and Building Fund, some of the latter not entirely due, which can be, and ought to be, collected. The payment of many of these has been suspended on the alleged grounds of the depressed condition of the finances of the country, and I have been reluctant to press their collection by law; but I trust that now, in view of our urgent necessities, effective appeals can be made to induce the early payment of all these outstanding obligations which are solvent. Of course, in so long a period, and under such complications as the country has passed through in the last few years, much of it (I have no means of knowing the exact amount) will be unavailable. To this work, however, with the co-operation of the Executive Committee, I shall address myself energetically in the future.

In the midst of our financial difficulties, I trust the Board will authorize the Executive Committee to take steps to keep up the patronage of the Institution by the publication of the reports and catalogues, and by a proper system of advertising. The increased patronage will, in my judgment, more than pay for a liberal expenditure in this direction.

Another consideration of great importance is that of the continued preservation and maintainance of the value and utility of the property which has been given by the public for educational purposes. Houses, Grounds, Apparatus, Libraries, Collections for the purposes of instruction, and especially for *improved* instruction, continually need repairs, improvement, renewal, alteration, or enlargement. No one can live in the plainest house without some expenditure for its preservation, and the larger and more valuable the buildings, the greater must be the expenditure. Neglect of these matters will be wrong, and I trust the Board, in its efforts to retrench expenses, will not lose sight of this most important matter. Our large property in the city and near to it, with the numerous College buildings, Professors' residences, club-houses, shops, farm-houses, fences, &c.; &c., are subject to unusual depredations and damages.

Especially would I urge that some immediate provision be made for the preservation and utilization for educational purposes of the valuable Museums of Natural History which I have

gathered together for the Institution at scarcely any cost, and which, for want of proper rooms and care, are rapidly going to destruction, and are of little practical use to the student in consequence of being boxed up for preservation. Such is the case largely, also, with the other collections which have come from Transylvania. Accommodations also will soon be necessary for the reception of the large and valuable collection which will no doubt come to the A. & M. College from the State Geological Survey under a special act of the Legislature.

So far as my own official duties and labors are concerned, I have but to say, that I have endeavored with all diligence to keep the Institution properly before the public, by correspondence, by travel, and otherwise, and to cherish its interests with unflinching devotion in whatever direction I could. I have not for one moment abated my zeal for its greatest success, nor abandoned the fix purpose of my life to do all in my power to enlarge its resources for usefulness as, in the providence of God, a field for work may be opened up. (In my report nineteen years ago to the first meeting of donors, I looked to the securing of not less than a half million of dollars as the foundation merely of a great Institution, which should be a blessing to the Church, to the State, and to the world; and though we secured more than this sum in money and property years ago, yet our present necessities and those of advanced education show us that we are absolutely poor and straightened in our means.)

With this view I have spent much of the past winter at the National Capital urging, as at previous sessions, a bill for a plan of National Education, which will not only lay a substantial foundation for a system of public schools in all the States, and especially in those of the South, and for the benefit of all their people, but which, if passed, will eventually more than double the entire assets of our University, placing the State Agricultural and Mechanical College upon a broad basis of usefulness, and making it a means of incidental support to the other Colleges of the University.)

(The great principle of setting apart the actual proceeds of the sales of the twelve hundred millions of acres of the public domain yet undisposed of in this country for the education of the whole people, is so just and beneficent that it is daily grow-

ing in public favor. Such a bill I helped to prepare this last winter, and advocated and pressed it before the proper committees of the two Houses of Congress, which have reported it favorably, and I have no doubt of its ultimate passage.

The prosecution of this work shall not, however, prevent me from laboring in any other direction for the increase of our funds as opportunity may present itself.

Before concluding this report, I cannot forget that, while we have been much favored by our Heavenly Father during the past year, the sad visitations of His Providence have come to us in the death of two of our beloved co-laborers and Curators, Dr. Joseph Smith and Dr. James Crutcher, who were with you at your last meeting, but both of whom have so suddenly passed away from us. They were too well known to this Board to need any eulogium from me. I recommend the appointment of a committee to prepare and put on record suitable testimonials of respect to the memory of these our departed friends.

In conclusion, I pray the richest blessings of God upon our deliberations, and that in love and peace we may all labor for the highest good of His cause and for that of our fellow-men.

Respectfully submitted,

J. B. BOWMAN, Regent Ky. Uni'y.

ASHLAND, June 6th, 1876.

SUMMARY OF TREASURER'S REPORT
FOR FISCAL YEAR ENDING MAY 31ST, 1875.

FARM ACCOUNT.

Receipts during fiscal year	\$ 6,924 51
Expenses " "	6,871 46
Excess of receipts	\$ 53 05
