FOREWORD

I am happy to present this bulletin which gives pertinent information concerning the program of secondary education in Kentucky. In it will be found a classified list of all the high schools existing in the state for the school year 1963-64. A companion bulletin is being issued later which gives similar information for the elementary schools.

In presenting this bulletin I am mindful of the fact of the great improvement that is going on in the area of secondary education throughout the state. I want to commend all the personnel on the local level as well as on the state level for giving their efforts toward improving the education for our children and youth.

It is hoped that the materials given in this publication will be useful to the members of the profession as they strive to improve educational opportunities on all levels.

HARRY M. SPARKS
SUPERINTENDENT OF PUBLIC INSTRUCTION

FOREWORD

The purpose of this report is to present the results of a study which gives pertinent information regarding the present and future of secondary education in Kentucky. It is intended to serve as a guide for the various agencies and individuals who are concerned with the improvement of the secondary school system. The study was conducted by the Kentucky State Board of Education, and the results are presented in this report. The study was conducted in 1934-35, and the results are presented in this report. The study was conducted in 1934-35, and the results are presented in this report.

KENTUCKY HIGH SCHOOL - 1963-64

Kentucky public and private high schools are classified and accredited by the State Board of Education. This requirement is set forth in the law which requires that each school district in the state provide an approved twelve-grade school service and that rules and regulations be adopted governing the quality of this service. The law also provides that the "Superintendent of Public Instruction shall annually prepare or cause to be prepared and submit for approval and publication by the State Board of Education a list of all public and private high schools or other secondary schools in the state, showing their classifications." Accredited classifications are given each year by official action of the Kentucky State Board of Education on recommendations of the staff in the Division of Instructional Services, Section on Instruction, State Department of Education. The Commission on Secondary Schools of the Kentucky Association of Colleges, Secondary, and Elementary Schools has worked in close cooperation with the staff of the Division of Instructional Services in an advisory capacity on arriving at the recommended ratings.

The number of high schools classified and accredited annually continues to decline. This year, we have 483 high schools of all types of organizations or 23 fewer schools than existed in 1962-63. Table I which follows shows the number of schools classified according to the type of organization and the controlling authority under which they operate.

**TABLE I

Grades thru 10	3	1	4
Grades thru 9	16	30	1	1	48
Other	1	1
Totals	268	125	12	78	483

Of the 483 schools operating, 425 are high schools offering a Program of Studies through the twelfth grade, and are considered complete high schools. The complete high schools also show a

decline from year to year which means that the high schools are becoming larger making it practicable to offer a broader Program of Studies for the youth of the State.

Table II shows the number of complete high schools and the change in number for a thirteen-year period from 1950-51 to 1963-64. In this period of time, the number of high schools have decreased from 569 to 425, or 144 fewer schools than existed 13 years ago.

TABLE II

1960-61	45	107	95	114	81	20	462
1961-62	44	96	88	116	90	27	461
1962-63	38	83	79	119	94	39	452
1963-64	35	60	73	105	104	48	425

It is the purpose of Table III to show the breakdown according to the size of the complete high schools and the control under which they are operated. In the county school district it will be seen that only 6 schools with an enrollment of 99 pupils or below remain and only 3 such schools remain in the independent districts. This year, there is a total number of 152 high schools with an enrollment of 500 and above. Last year this number was 133 which represents that within the school year, 19 high schools had grown in size to an enrollment of more than 500 pupils.

TABLE III
COMPLETE HIGH SCHOOL ORGANIZATIONS
GROUPED ACCORDING TO SIZE AND CONTROL

Size by Enrollment	County District	Independent District	State, Federal, Regional	Private	Total
99 and below.....	6	3	2	24	35
100-199	28	15	2	15	60
200-299	42	15	2	14	73
300-499	67	29	1	8	105
500-999	72	18	2	12	104
1,000 and above.....	31	14	---	3	48
Totals	246	94	9	76	425

Of the 425 complete high schools, it will be noticed that 246 are operated by the county school districts, 94 are under control of independent districts, 9 are state, federal or regional schools and 76 are private schools.

The common type of high school organization conforms to either a six-year high school, grades 7-12; or a four-year high school, grades 9-12. For a number of years, the trend has been moving away from the six-year high school organization to the four-year high school organization. It will be observed, that this year there are 126 six-year high schools and 272 four-year high school organizations. Last year there were 145 six-year high schools and 281 four-year high schools.

The remaining high schools offer programs ranging from the seventh through the eleventh grade. By far the greater number of these schools are organized as separate junior high schools, grades seven, eight, and nine.

In Table IV, there is an accumulation of information concerning the number of high schools representing approximately a half-century of growth. It will be noticed that for twenty years there was a gradual growth from 316 schools in 1915-16 to 848 in 1934-35. Since then, there has been a gradual and continuous decrease from 848 to 482 schools which represents 366 fewer schools operating now than 30 years ago. It is interesting to notice the number of discontinued high schools during the 44 year-period represented in Table IV is more than those existing at the beginning of the period by 50 schools.

1962-63	379	—	73	452
1963-64	350	—	75	425

The number of pupils enrolled in the high schools continues to increase. This year there has been an increase of over 12,000 pupils enrolled in grades 7-12 from 233,462 in 1962-63 to 245,905 in 1963-64. The breakdown between the enrollment of the high schools operated by the county school districts and the independent school districts is represented by over two-thirds of them being enrolled in the county school districts against less than one-third in the independent school districts.

Table VI which follows gives the enrollment in all types of high schools in the state, grades 7-12 classified according to the type of control under which the school operates.

TABLE VI
HIGH SCHOOL ENROLLMENTS BY
GRADES AND CONTROL

Grades	County Districts	Independent Districts	State Regional Federal	Private	Total
7	12,026	10,406	586	88	23,106
8	11,824	10,463	551	178	23,016
9	38,307	15,106	717	5,780	59,910
10	33,448	13,656	613	5,302	53,019
11	29,828	12,550	520	5,156	48,054
12	22,957	10,185	406	4,165	37,713
Ungraded	437	585	51	14	1,087
Totals	148,827	72,951	3,444	20,683	245,905

The greatest increase in the number of pupils enrolled in the high schools this year occurred in the county school districts. This increase in the county school districts numbered 9,831 pupils from 138,996 in 1962-63 to 148,827 in 1963-64. In the independent district there was a smaller increase 1,106 pupils from 71,845 in 1962-63 to 72,951 in 1963-64.

Table VII is presented to show the growth and the enrollment in the high schools of the State for 50 years, from 1914-15 to 1963-64, classified according to the white enrollment, the Negro enrollment and the enrollment in the private schools. Since integration of white and Negro pupils has occurred rather rapidly since 1954-55, the State Department of Education has discontinued in keeping separate statistics. Today almost all of the high schools are integrated schools and therefore nearly all of the enrollment for the public schools is represented in the column headed Public White High Schools.
