ADMINISTRATION BUILDING

# The Kentucky Alumnus

Official organ of the Alumni Association of the University of Kentucky published quarterly on the campus of the University, at Lexington. Subscription to non-members, \$1.00, to members of the Association 50 cents, membership in the Association includes subscription to the Alumnus.

Entered as Second Class Matter at the Postoffice at Lexington, Ky., May 22, 1929, under the Act of March 3, 1879

Vol. VII. FEBRUARY, 1935 No. 1

## OFFICERS

Chas. I. Dawson, '98	President
Mrs. J. M. Herndon	Vice-President
Betty Hulett, '30	Secretary
James Shropshire, '29	Treasurer

## EXECUTIVE COMMITTEE

W. C. Wilson, '13	Marguerite McLaughlin, '03
Wayland Rhoads, '15	Maury Crutcher, '17
E. C. Elliott, '02	Dr. G. Davis Buckner, '08
Lulie Logan, '13	Lee McClain, '19
L. K. Frankel, '00	Ray Moss, '10
Geo. H. Wilson, '04	Marcus Redwine, '19
Mrs. T. R. Underwood, '19	Willy King, '27

## ALUMNI CLUBS

Ashland Alumni Club	J. Snead Yager, President
Atlanta Alumni Club	E. T. Cross, President
Bell County Club	Mrs. George W. McKee, President
Birmingham Alumni Club	J. M. Sprague, President
Bowling Green Club	Charles Taylor, President
Buffalo Alumni Club	Claude Daniels, President
Chicago Alumni Club	H. M. Nichols, President
Cincinnati Alumni Club	John R. Bullock, President
Cleveland Alumni Club	C. R. McClure, President
Lexington Alumni Club	Marguerite McLaughlin, President
Louisville Alumni Club	Ben Garr King, President
Kansas Alumni Club	C. G. Blakely, President
Middletown Alumni Club	Wm. Dannecker, President
New York Alumni Club	Samuel A. Smith, President
Owensboro Alumni Club	Carol Byron, President
Paducah Alumni Club	Ben Leroy, President
Philadelphia Alumni Club	L. C. Davidson, President
Washington Alumni Club	Elmer D. Hayes, President

IF YOU WANT INFORMATION CONCERNING MEMBERSHIP IN ANY CLUB, WRITE TO THE ALUMNI SECRETARY, UNIVERSITY OF KENTUCKY

Mail today your check for \$1—your dues of loyalty to the University and Association. U. K. ALUMNI ASSOCIATION, Lexington, Ky.

## HAPPY NEW YEAR!

The officers and members of the Executive Committee of the University of Kentucky Alumni Association wish to take this opportunity, through the pages of the Kentucky Alumnus, to thank all Kentucky alumni for their cooperation during the past year. It has been a difficult year, and, except for the expressions of loyalty and the encouragement of friends, the Association would have found it necessary to abandon its work early in the year. Many alumni have been generous in their contributions of money, time, and aid of all kinds, all of which has been appreciated greatly.

At this time, we want to wish you well, and express our hope that the New Year will bring you untold happiness, success, and contentment.

## ATLANTA ALUMNI CLUB ENTERTAINS DR. McVEY

While attending the Southern Association of Colleges and Secondary Schools, over which President Frank L. McVey was presiding, an informal dinner was given in his honor by alumni of the University of Kentucky residing in Atlanta. Those present were:

Blanche Kellett, Decatur; E. T. Gorbandt, Atlanta; W. B. Thornton, Atlanta; Ruth D. Clare, Atlanta; John R. Marsh, Atlanta; J. H. Layman, Atlanta; C. L. Templin, Atlanta; J. A. Weingartner, Decatur; and Robert L. Porter, Atlanta.

## PHILPOT TRANSFERRED

After ten years in Chicago as Engineering Sales Manager in that district, N. E. Philpot was recently appointed manager of sales and engineering for The Duriron Co., Inc., of Dayton, Ohio, in the New York district with offices at 22 East Fortieth St., New York City.

Mr. Philpot is a graduate of the College of Engineering with B.M.E. degree in 1915, a member of Tau Beta Pi, and while in Chicago was an officer several times in both the Chicago Alumni club and the Kentucky Society of Chicago.

After leaving the service in 1919 as an Ensign U. S. N. R. F., he became associated with The Duriron Co., Inc., at Dayton in a sales capacity in 1920, and has been in various territories promoting the uses and sales of Duriron and Durco Alloy Steel equipment for resisting severe acid and corrosive conditions in the chemical process industries, steel, paper and all plants concerned with corrosion problems.

Mr. Philpot is married and with Mrs. Philpot and their children, Bob, 10 years, and Marjorie, 5 years of age, will make their new residence in Scarsdale, near New York City.

## A CENTRAL HEATING PLANT FOR THE UNIVERSITY

By M. J. Crutcher,  
Supt. of Buildings & Grounds

In discussing the need of central heating for the University of Kentucky two pictures will be drawn to show conditions as they exist today and what we might expect under a system of central heating. At the very outset it is well to say that the University of Kentucky is the only major institution of higher learning in the state today that does not have a central heating plant. Most of them recognized the necessity of central heating at the very beginning and built plants along with their first buildings. State College recognized this fact in 1882, and built a boiler house to heat its first two buildings. And when the third building was added in 1889, it was connected to this central boiler house. After that, as new buildings were erected the idea of central heating appears to have been laid aside for various reasons, principally because the old boiler room and equipment was limited in area and capacity and could not be called on to carry the extra load. In other words, the college expanded and grew far beyond the fondest hope and expectation of the founders without adequate provision in the first place for boiler room expansion to go along with ordinary growth. State College of two buildings in 1882, has grown into the University of Kentucky of today with 45 buildings on the main campus and a score or more on Experiment Station Farm. The plan of central heating has been lost in the shuffle from that day to this, and serious thought is now being given to the general problem of constructing a modern plant sufficient to heat the present University, with provision for expansion over a period of 25 years.

Those of you who still retain a clear picture of the campus will recall the little low, squatty brick building and tall brick smoke stack

immediately behind the Administration building. It is known as the old heating plant, and as has been said, it was built in 1882, to heat the first two college buildings, namely, Administration and White hall, known then as Recitation building and the old dormitory. It had room for only two boilers and the floor is 15 feet below the top of the ground. In 1889, the Law building, known then as Experiment Station and Old Chemistry building was built and connected to this plant. Then in 1890, Neville hall or new dormitory was erected and each room was provided with open grates for heating purposes. Many old timers will recall those grates and the joys and pleasures attending the business of rustling coal from open bins placed in the hall-

---

The Lexington Alumni Club of the University of Kentucky, will be host to mid-year graduates at a banquet to be held in the University Commons Friday, January 25, at 6:45 p. m. Mr. John Whitaker, of Russellville, who is a Kentucky alumnus, will be toastmaster. Judge William Blanton, of Paris, also an alumnus of the University, will give the principal address of the evening. Tickets will be on sale at the Commons, but reservations should be made by noon, January 25. Tickets are fifty cents each. Reservations may be made by writing or calling the University Alumni office.

---

ways; Senior Heaven; Senior Court and so on.

From this time on no provision was made to enlarge the old heating plant or increase capacity so that new buildings could be connected to it. Instead, as new buildings went up a separate heating plant had to be incorporated into each one. This system was carried on until 1925 when the University started out on a comprehensive new building program.

From that time to the present writing considerable improvement has been made in heating. The old individual hand fired plant, has given way to a system of stoker-fired group heating plants, where buildings are so located that two or more can be heated from one boiler room. A change in thought of this kind has tended all along to cut down the number of plants and

materially reduce the initial cost of heating. It is even yet still necessary to build separate plants in cases of isolated buildings, such as Teacher Training school, Alumni gymnasium and a few others. At the present time this system of group heating has reached its limit and very little can be done to improve the situation. Further expansion of building cubage ahead of central heating would be ill advised as will be shown later on.

To give one a clearer picture of existing conditions a table of information is introduced at this point showing the number of plants, location of plants, number of buildings heated, number of boilers, stokers and firemen.

When this formidable array of figures is placed on one sheet of paper and properly digested, the resulting picture is not so very prepossessing. It might tend to discourage those whose duty it is to keep all these things going when a panorama like this is hung on the wall. Twenty-five heating plants with 44 boilers stacked up in a row, 22 stokers grinding and crunching along, 20 firemen grinning or scowling depending on the quality of coal received that day, vacuum pumps, boiler feed pumps, sump pumps, grate bars, slice bars, scoops, shovels, wheelbarrows, ash hoists and ash cans. "The Dean of Heat," as Kid McCain, '92, calls the diminutive Mr. Dickerson, the man in charge, certainly has a "busy day" from one August to the next, year in and year out.

The matter of keeping these plants supplied with coal all winter is a separate problem in itself and is in some ways a bigger job than the actual heating. Most of the old buildings are so arranged that coal must be shovelled from the truck into the boiler room, while the newer buildings have manhole covers arranged so that a truck can dump directly into the bin. In practically all cases ashes must be lifted or hoisted a considerable distance from boiler room floor to the truck bed. A great many bins will hold less than a month's supply while others are large enough to store a season's supply. The net result is this: only 900 tons can be stored in bins during the summer months, leaving 2,700 tons to be hauled during the winter.

Fortunately the University has its own railroad siding running into the Service Building. All coal comes direct from the mine to this siding and is loaded from gondola to truck

(Continued on Page Ten)

### ALUMNI DONORS TO THE U. K. LIBRARY

W. A. Anderson, Jr., '23, University of Iowa, Iowa City, has sent to the library five reprints of articles written by him for botanical magazines. Alumni, please note! The library wants your reprints!

Alexander Bonnyman (ex) Knoxville, Tennessee, presented to the library a valuable collection of Baedekers and other guide books for European countries.

Other alumni who have given books and periodicals: A. M. Peter, '80; M. L. Pence, '81; Henry E. Curtis, '88; Lillie K. Kesheimer, '94; Elizabeth K. Smith, '95; Mary E. Clarke, '97; George Roberts, '99; Nell Whitfield Duerson, '03; William H. Townsend, '12; J. S. Chambers, '13; Annabel G. Chambers, '15; Florence Amelia Edmonds, '21; Ellen V. B. Stutsman, '25; Thomas D. Clark (M.A.) '29; Robert L. Carter, '30; Mildred R. Guthrie, (M.A.) '32; Charles Tucker, '32; Elon Tucker, '32; Alan Herron, '33.

### KENTUCKY ANTIQUES ARE DONATED TO UNIVERSITY

Early Kentucky antiques, used by the Swango and Quicksall families in Morgan and Wolfe counties have been presented to the University of Kentucky by Mrs. Ellen Quicksall Swango, widow of W. T. Swango. Mrs. Swango is moving to Middlesboro to make her home with her daughter, and made the gift to the University before her departure.

Included in the gift are a hand loom shuttle and spool, a saddle maker's wooden tool; spinning wheel head and spindle, flad flyer for spinning linen, a shoe last, the property of Mrs. Swango's father, J. S. Quicksall; fireplace pot hooks; 125-year-old hand shovel; a 75-year old spring house gourd; cotton warp for weaving; jean-cutting shears, and an embroidered linen cloth made from flax grown and woven in Kentucky.

### INTEREST IN ALUMNI

Some of the things that the University of Kentucky wants to know about its alumni are: What are they doing? What experiences have they had, and how have they arrived where they now are? This ought to be of great interest to all alumni, and should be of value to the University. Hoping to get such information, Dean C. R. Melcher has been asked to give his knowledge and experience to the securing of such information, and the hope is that any request which he makes will be promptly answered.

Very truly yours,  
FRANK L. McVEY, Pres.

## Many Students Working on FERA Projects on Campus and In City

### DR. J. CARTON JONES DIES AT WASHINGTON

Funeral services for Dr. J. Carton Jones, 45, head of the Political Science Department at the University of Kentucky since its establishment, were held at 10 o'clock Sunday morning, December 30, from the W. R. Milward undertaking establishment at Lexington. The Rt. Rev. H. T. Almon Abbott, Bishop of the Episcopal Diocese of Lexington, officiated.

Dr. Jones died at Washington, D. C., where he had been engaged in research work for the past two years while on leave from the University. Following the services at Lexington the body was taken to Barbourville, Dr. Jones' native city, for burial.

### LETTER FROM AN ALUMNUS

Oct. 26, 1934

Alumni Secretary,  
University of Kentucky  
Dear Sir:

I feel very badly about not having written sooner to pay my yearly dues, but one seems to lose a conception of time in the Orient.

I am enclosing a check for \$6.00. Would you be kind enough to take \$2.00 of this for the 1934 and 1935 dues and pay the remaining \$4 to the "loyalty fund" about which Dr. McVey wrote some time ago. I remember the assistance I received from the Student Loan Fund and I am glad to help it along a bit.

I had a fleeting visit to the campus last December while home on leave and was glad to see the improvements there, in spite of the difficulties you have had.

My thoughts were constantly of the University during the time when I heard of dear Dean Anderson passing away. I had the pleasure of not only knowing him while I was a student but later for two years while I was an instructor on his staff and I can never forget his smile, his optimism, his faith in Kentucky, his broadmindedness and his philosophical advice. I know that he meant and means a great deal to me, perhaps more than I realize, and I know this is true of all who sat at his feet.

My very best wishes for the future success of Dr. McVey and the University.

W. G. HILLEN, '23

Made possible by allotments through the Federal Emergency Relief Administration, 279 students are making part of their school expense by working in various offices and departments of the University.

Each student on the FERA payroll works 50 hours a month, and receives 30 cents an hour for the time worked, which makes it possible for a student to earn \$15.00 a month. This work consists of office and clerical help, work in the shops of the engineering college, work on the buildings and grounds, and also in other departments at the University.

Many of the students receiving federal aid have other jobs in Lexington and are paying most, and in some cases all, of their expenses. If it were not for the money allotted by the government, these students would be forced to drop out of college and thereby miss the opportunity of getting a much needed and cherished college education. The student of today needs college training more than ever before in the history of the nation; all large corporations are getting to the point where they demand that an employee of their company have this training. Those students who are not fortunate enough to have the necessary funds for college expenses must either work or do without this valuable training which they can receive in the modern colleges and universities of today.

These students are allowed to work during their vacant periods, each being assigned a certain place to work, just as would be done in a private business.

Before a student can get a job on the FERA he must make his application to the dean of men or the dean of women and present a good reason why he should be given a job on the relief work. Each student who receives the work also has to have two prominent citizens of his community to verify his statement that he needs the work in order that he may attend the University. Every precaution is taken in handling the applicants, the issuance of jobs, and in seeing that the student really needs the aid. All of this is handled by the dean of men, T. T. Jones, and the dean of women, Sarah G. Blanding, who care for the men and women students respectively.

## MANY ALUMNI ATTEND HOMECOMING

Novmeber 4 saw many old grads and former students of the University of Kentucky returning to their Alma Mater to take part in the annual Homecoming Day exercises. Several hundred were registered during the day, and many more who were not registered attended the game.

The celebration was opened Friday night before the game, when a mammoth pep rally was held on Stoll field. The entire student body, the University band, and several hundred other Kentucky rooters paraded through the streets of Lexington, stopping at the Lafayette Hotel to welcome the members of the Alabama football team.

Saturday morning, registration was held in two of the down-town hotels. All alumni who were registered were given the Blue and White ribbons of Kentucky. Mrs. Thos. R. Underwood and Miss Annelle Kelley were in charge of registration at the Lafayette Hotel, while Robert K. Salyers and the alumni secretary were in charge at the Phoenix.

Various fraternities and sororities on the campus decorated their houses as a gesture of welcome to their alumni and the members of the Alabama squad. Many original and unique ideas were carried.

For the first time in many years, the business houses of Lexington cooperated almost 100 per cent with SuKy and decorated their windows for Homecoming Day. Nearly every store on Main Street and many stores on other streets were decorated with the Blue and White of Kentucky and the Red and White of Alabama. Efforts of SuKy were aided by the cooperation of Major B. E. Brewer, head of the University military department and alumnus of the University, and Mr. Ed Wilder, secretary of the Lexington Board of Commerce. The cup offered for the best decorated store was won by Keller-Orem, Florist, while Meyer & Hinkle, ladies ready-to-wear store, received honorable mention. Meyer & Hinkle won first prize for decorations for the Tulane game.

The football game between Kentucky and Alabama will be remembered by Kentucky alumni as an outstanding example of good football, good sportsmanship, and ability of a defeated team to make a comeback. The Kentucky Wildcats were hopelessly defeated when the first half of the game ended. However, with the beginning of the second half, the boys showed such superior playing and such a remarkable ability to fight that they scored 14 points on the Red Ele-

phants, more than any team had scored on them all season. The Kentuckians were proud of their team and justly so. Captain Joe Rupert and Bert Johnson played their outstanding games of the year.

After the game, alumni and friends of the University were guests at the Homecoming tea given by Dr. and Mrs. McVey at Maxwell Place.

The day's activities were concluded with the annual Homecoming dance at the Alumni gym. The dance was given under the auspices of the Lexington Alumni Club and the Alumni Association. Miss Marguerite McLaughlin, president of the club, was in charge of arrangements. The dance was pronounced an outstanding success by all who attended.

Among those who were registered were:

Paul M. Runyon, Ewing; Eleanor M. Stone; C. T. Hughes, Richmond; J. W. Land, Nicholasville; Mrs. Charles Russell; Charles Russell; Mrs. Lawrence Curry; Lawrence Curry; Pat Rankin, Stanford; E. D. Montgomery, Louisville; W. B. Walker, Lexington; Mary L. Renaker, Burlington; Beatty Davis, Covington; N. B. Smith, Versailles; R. J. Colbert, Lexington; J. W. Guyn, Lexington; Jouett McDowell, Louisville; Lynn Easley, Lexington; Sherrill Smith, Stearns; Elizabeth T. Howard, Ludlow; Johnny Richey, Glasgow; James Hearndon, Lexington; C. W. Headley; Peter Hardin, Hazard; Mrs. B. Woodbury, Dayton; Baron Woodbury, Dayton; C. McClanahan, Ft. Thomas; B. O. Barteel, Cleveland, O.; Elizabeth M. Goff, Somerset.

Bob Salyers, Lexington; C. D. Hunter, Ashland; C. N. Wooton, Hazard; J. F. Morris, Eminence; Tom Dewhurst, Jr., Lexington; John Epps, Dayton, O.; Mrs. J. E. Johnson, Jr., Hazard; J. E. Johnson, Jr., Hazard; Lydia Cleek, Lexington; Sallie Johnston, Lexington; I. Browning, Ashland; Ben LeRoy, Paducah; E. C. May, Lexington; D. Heyser, Pikeville; J. K. Robey, Franklin; Howard Wilson, Barbourville; C. Gifford, Lexington; M. E. Clark, Frankfort; J. B. Hennessey, Maysville; Woodson Knight, Carlisle; W. E. Sherwood, Louisville; G. D. Buckner, Lexington; J. H. Adams, Marion; Catherine C. Adams, Lexington; L. J. Wells, Yosemite; C. R. Melcher, Lexington; R. K. Kipping, Carrollton.

Charles Hayden, Lexington; H. B. Steely, Williamsburg; Comett Martin, Harlan; K. W. Ordway, Mur-

ray; J. P. Glenn, Kuttawa; N. Kelly, Hazard; J. S. Harmon, Whitely City; Jack Hirsch, Henderson; W. C. Wilson, Lexington; Benny Martin, Olive Hill; E. D. Armstrong, Beckley, W. Va.; R. M. Guthrie, Lexington; J. F. Adams, Hustonville; E. L. Rogers, Lexington; Harry Nisbet, Madisonville; R. C. Beemon, Louisville; C. R. Smith, Louisville; Jim Salyers, Lexington; James Park; O. H. Lambert, Carlisle; E. T. Proctor, Nashville, Tenn.; Mary L. Michot Proctor, Nashville, Tenn.; C. M. Ball, Elkhart, Ind.; J. G. Heber, Lexington; J. H. Tice, Blackey; P. H. Neblett, Jackson; W. E. Blake, Jackson; J. W. Glow, Lexington.

Mrs. T. R. Underwood, Lexington; Jean Dawson, Louisville; L. O. Coleman, Beaver Dam; H. R. Bunell, Munfordsville; M. M. Hughes, Louisville; Mary E. Downing Evans, Pineville; H. J. Evans, Pineville; N. F. Green, Louisville; Christine Harmon, Campbellsville; R. L. Mays, Cleveland, Ohio; S. P. Strother, Lexington; N. E. Stone, Madisonville; Mrs. W. O. Watson, Ashland; Mrs. J. Sneed Yager, Ashland; J. Sneed Yager, Ashland; J. W. Howard, Prestonsburg; Mrs. A. A. Hines, Ashland; John Whitaker, Russellville; S. C. Lambert, Henderson; C. L. Cropper, Burlington; J. C. Riddle, Madisonville; E. C. Clements, Morganfield; Roberta Elam, Lexington; J. A. Sug, Jr., Morganfield; C. E. Westerman, Anchorage; B. F. LaMaster, Louisville; Ruth D. Webb, Lexington; M. J. Crutcher, Lexington.

W. K. Guillard, Louisville; G. E. Zerfoss, Lexington; Annelle Kelley, Lexington; D. H. Hall, Pippapass; J. T. Ligon, Mayfield; J. W. May, Lexington; Warren Ford, Hodgenville; Leon Runyon, Majestic; Eugene Lovett, Williamsburg; J. R. Dewey, Knoxville, Tenn.; J. W. Guyn, Lexington; E. T. Riley, Russellville; Harold Greoner, Corbin; Elizabeth Smith, Corbin; T. D. Williams, Paris; Virginia Conroy, Mt. Sterling; Emily H. Pribble, Lexington; B. L. Pribble, Lexington; G. H. Creech, Pineville; H. L. Baker, Lexington; E. B. Webb, Lexington; Mrs. Jere Beam, Bardstown; C. P. Roun, Versailles; A. F. Baker, Lexington; J. E. Hill, Carrollton; J. S. Johnson, Lexington; Mrs. T. H. Oliver, Luke, Md.; Clyde Bland, Lexington.

John W. Dundon, 1st Lt. U. S. A., Louisville; Louise Jefferson, Miami Beach, Fla.; Margaret Elliott, Lancaster; Harold Parks, Irvington; B. P. Swinford, Cynthiana; A. B. Phister, Fort Thomas; F. T. Miles, Fort Thomas; Charles Straus, Cincinnati, Ohio; Louise Smathers, Mt.

Sterling; Elizabeth Coleman, Mt. Sterling; R. H. Baker, Pineville; R. L. Jones, Evanston, Ill.; A. G. Hillen, Chicago, Ill.; W. D. Hamilton, Versailles; J. N. Hawkins, Louisville; Elizabeth Erschell, Newport; J. W. Pennel, Louisville; W. H. Grady, Louisville; Mr. Montgomery, Louisville; C. Jefferson, Louisville; Mrs. Raymond Connell, Paris; Raymond Connell, Paris; M. L. McMakon, Louisville; D. W. Congleton, Taylorsville; W. T. O'Donnell, Richmond, G. L. McClain, Bardstown; Tom R. Underwood, Lexington; Mrs. T. A. Ballentine, Louisville; T. A. Ballentine, Louisville.

R. C. Stoll, Lexington; Carey Burchett, Louisa; R. R. Metler, Lexington; Harry E. Clo, Baldwin, N. Y.; Raymond B. Dyer, Smithland; A. H. Terrell, Paducah; R. F. Bamber, Louisville; Ray B. Moss, Pineville; J. A. Dishman, Louisville; George Tyle, Akron, O.; Tyler Munford, Morganfield; F. D. Crutcher, Richmond; J. R. Walter, Stanford; Mrs. G. Donoh, Morehead; Dr. G. Donoh, Morehead; E. Houlihan, Jr., Lexington; A. S. Durham, Harrodsburg; C. E. Sanders, Louisville; W. H. Roll; Bruce Manford, Carlisle; L. G. Forquer, New Castle; L. Payton, Lynch; D. H. Starns, Lexington; E. V. Bean, Paducah; Dr. P. W. Adkins, Insull; Mrs. W. I. Darter, Lexington; W. Beard, Cincinnati, O.; B. J. Kells, Cincinnati, O.; Malonda Bosh, Lexington; M. K. Eblen, Hazard; F. W. Dempsey, Erlanger.

#### A. A. BERLE TO SPEAK AT U. K.

A. A. Berle, Jr., New York and Washington, chamberlain of the city of New York, member of the law faculty at Columbia University, and special counsel to the Reconstruction Finance Corporation on railroad matters, was the speaker at the general university convocation held Monday afternoon, January 21, at 3:30 o'clock in Memorial hall on the University campus.

#### DAVISS COUNTY ALUMNI DESIGN NEW PROGRAM

Alumni of the University in Owensboro and Daviess County have inaugurated a program designed to interest high school seniors and people of the community in the services offered by the University. Under the direction of Carroll Byron, '30, president of the Owensboro Alumni club, and H. Miller Holland, '08, member of the Board of Trustees of the University, plans are being made for a luncheon sometime this spring to which all high school graduates will be invited.

#### COLLEGE PUBLICITY ASSOCIATION HOLDS MEET U. OF K., DEC. 7, 8

Those men and women who obtain more newspaper space and less personal mention than any other one group, directors of college publicity bureaus, came in for a bit of publicity of their own December 7 and 8 when the fourth district of the American College Publicity Association convened for a two-day session at the University of Kentucky. Elmer G. Sulzer, director of the University of Kentucky Publicity Bureau is regional director of district four.

All publicity directors of Kentucky colleges were invited to attend the two-day conference at the University, as well as all A.C.P.A. members in district four, which includes all colleges in Ohio, Indiana, West Virginia, Illinois, Michigan, Wisconsin, Kentucky and the Dominion of Canada.

The conference opened Friday afternoon, December 7, in the recreation room at Patterson hall with Dr. W. S. Taylor, dean of the College of Education delivering the address of welcome. An introduction of members followed and a short business session was held.

The program for the Friday afternoon session consisted of six fifteen-minute talks on subjects pertinent to college news bureaus. A. A. Daugherty, Georgetown, alumnus of the University of Kentucky and editor of the Georgetown News discussed "What the College Publicity Bureau can give the County Weekly;" Len Tracey, Lexington, also a University alumnus, discussed "What the College Publicity Bureau can give the Small City Daily." Mr. Tracey is on the news staff of the Lexington Herald. Gerald Griffin, Lexington correspondent for the Louisville Courier Journal, alumnus of the University and former member of the journalism staff, discussed "What the College Publicity Bureau can give the Metropolitan Daily;" Joe Jordan, Lexington Leader columnist and alumnus discussed "The College and the Columnist," and Miss Helen King, assistant to the director of the University of Kentucky Publicity Bureau and alumna of the University, discussed "Filing Systems." The afternoon program concluded with a discussion of "Budgets," by John P. DeCamp, University of Cincinnati publicity director.

The University of Kentucky library staff were hosts to the publicity directors at a tea at five o'clock Friday afternoon in the staff room of the University library, and that evening at seven o'clock a banquet was held at the Patio on South Limestone street.

Joe Eaton, program manager of

station WHAS, Louisville, was the banquet speaker, discussing "The Commercial Radio Station and the College," and following the dinner the group adjourned to the radio studios of the University, in the Art Center on Euclid Ave., where a special three-point broadcast from the University studios, over WHAS, Louisville, with pick-ups being made simultaneously on orchestra in studios, organ in Memorial hall on U. K. campus and organ in main studios of WHAS, was handled.

The Saturday morning session was held in the library science room in the new library, and opened at 9:45 o'clock with a talk by Harold K. Schellenger, director, News Bureau, Ohio State, on the "Past and Coming National Convention." Following this was a talk by Joseph Wright, Publicity director, University of Illinois, "Putting it on the Wire;" a discussion of "Mailing Lists" by Russell Alexander, DePauw, Indiana college publicity director, and a talk on "Display Advertisements," by Fred F. Montiegel, Chicago, director of publicity at Loyola University. The morning session closed with an informal inspection of publicity material and the group adjourned to "Waveland," Blue Grass estate, where a noon breakfast was served.

Following breakfast a tour of the Blue Grass was conducted, and the conference members returned to Dicker Hall in the College of Engineering at the University in the late afternoon for a burgoo feast prepared by Mr. James T. Looney, Lexington, the "Burgoo King." An election of a new director, announcement of place for next meeting and informal discussions concluded the conference.

#### "PUG" BACH TO DIRECT CENTER'S ATHLETICS

Stanley "Pug" Bach, former University of Kentucky football star, has been named athletic director by the Lexington Recreational Center, it has been announced, and has started the winter schedule of activities. The Center is operating the old Y. M. C. A. building at Mill and Church streets.

Junior and senior basketball leagues have been organized, with teams representing various churches and business houses. Volley ball and indoor baseball leagues are also contemplated, and an assistant to Mr. Bach gives swimming and diving lessons in the swimming pool. Reading rooms and game rooms are being used and two bowling alleys were put into condition.

Churches or business houses wishing to enter teams in the basketball leagues can reach Mr. Bach by telephoning Ashland 3867.

# ENROLLMENT SHOWS SUBSTANTIAL INCREASE

By R. K. Salyers,  
Research Ass't, Office of President

From its establishment in 1866 through the year 1931-32, the number of students enrolled for residence work at the University steadily increased. During the first semester of 1931-32, the enrollment was 3,221; for the entire year, including the summer term, it was 4,992.

Then the depression struck with full force. During the two years 1932-33 and 1933-34, the total enrollment decreased 22 per cent. A similar decline in university enrollment occurred in all parts of the country, a natural result of the shrinkage in family incomes, the depletion of loan funds and the inability of many students to find part-time work.

Now the tide seems to have turned. Enrollment for the first semester of the current year is 2,831, as compared with 2,488 for the same period last year, an increase of 13.8 per cent. Table I shows the enrollment by colleges for the first semester of 1933-34 and the same period of the current year. It is interesting to note that in five of the colleges more students are enrolled this year than last, while in the other two there have been only small decreases. The enrollment of men students has increased by 197, or 11.9 per cent, and the number of women students by 146, or 17.5 per cent.

All of the undergraduate classes are substantially larger than last year, with the freshman group showing the larger increase, 28.8 per cent. Table II shows the enrollment by classes for the first semester of 1933-34 as compared with the present semester.

A number of factors have contributed to this increase. Through the Federal Emergency Relief Administration, sufficient funds were made available to provide part-time employment for 186 men and 93 women. Of the 279 students thus employed, one-half, or 139, were required to be new students. Probably none of these would have been able to attend without this extra financial assistance.

An interesting experiment, in the form of a cooperative house, is being carried on under the direction of the Home Economics department in the College of Agriculture. Twenty girls, coming from 4-H clubs throughout the state, occupy the house, manage it and do all the work. They bring food and other supplies from home, receiving credit for them toward the maintenance of the house.

The general increase may be due also to better business conditions generally, to an improved agricultural situation, and to the feeling

that it is better to be in college than loafing at home. Increased competition for positions in business and industry has influenced many students to secure added training while "looking around."

## Where University Students Come From

Since 1866, 33,989 students have attended the University of Kentucky. Of this number, 30,610 have been from Kentucky, while 3,379 have come from other states and foreign countries. Only fifteen counties in the state have sent less than 50 students each during that time.

Of the 3,822 students in residence last year, 3,369 were Kentuckians, coming from every county in the state except one. Thirty-seven states, the District of Columbia, the Canal Zone and five foreign countries were represented in the enrollment, which speaks well for the drawing power of the University. Other states sending the largest numbers of students in 1933-34 were West Virginia, 58; New York, 50; Ohio, 39; Illinois, 34; Indiana, 29; and New Jersey, 27.

Figures compiled for the present semester by the Publicity Bureau show that 72 Kentucky counties are represented by more students than was the case last year, and only 28 counties sent fewer students. Out-of-state enrollment increased slightly, with the largest number, 58, coming from New York.

## The "Holding Power" of the University

Up to July 1, 1934, the University had granted 8,323 degrees, of which 5,594 were conferred upon men, and 2,729 upon women. During 1931-32, when enrollment was at its peak, the number of degrees granted reached 639. Last year (1933-34) this figure had dropped to 564, a decrease of 11.7 per cent within two years. During the same period, the total enrollment had declined 22 per cent, or nearly twice as much. In other words, although fewer students were coming, more, in proportion, were completing their work for degrees. This seems to indicate an increase in the "holding power" of the University, and shows the high morale maintained by the faculty and student body during a difficult period. If this trend continues, the next few years will see a rapid increase in the number of degrees granted by the University.

## How Alumni Can Help

Many students—perhaps a good many of the new ones—are at the University because it had been brought to their attention by some alumnus. To a considerable extent, the number and quality of the students to be found on any campus reflect the interest and loyalty of the alumni.

Many alumni find it impossible to support their University in a financial way; some cannot find the time to attend homecomings, class reunions, or other activities on the campus. Every alumnus, however, has frequent opportunities to make (Continued on Page Thirteen)

# FOOTBALL

## 1935 GRID CAPTAIN

"JIMMY" LONG

## LONG IS CHOSEN 1935 FOOTBALL CAPTAIN

Kentucky's grid squad shifted from one end of the line to the other when they chose Jimmy Long, regular end on the 1934 Wildcat team, to be captain during the 1935 season. While Joe Rupert, last season's captain, was leading the team at right end and earning himself a place among the University's football immortals, Long was playing a consistent game that earned him the respect of his teammates and fans alike.

Long will have plenty of responsibilities as the Wildcats swing into their 1935 schedule, one of the most difficult in years. As one fan has remarked, "The only thing necessary now is to schedule Minnesota for the open date, win all the games, and we'll have the national championship."

Long is a junior in the University, and is active in social and scholastic affairs. He is a member of Sigma Alpha Epsilon, social fraternity. His home is at Smithfield, Kentucky.

## KENTUCKY BOOKS 1935 GRID GAME WITH OHIO STATE

By Brownie Leach

Ohio State University has been added to the University of Kentucky's 1935 football schedule. The game will be played in Ohio State's horseshoe stadium at Columbus, O., Saturday, Oct. 12, and will open the Buckeyes' schedule.

Ohio State, which is expected to have one of the nation's most powerful grid teams in 1935, is the first ball schedule since the Wildcats lost Big Ten team on Kentucky's foot-to Northwestern University at Dyché Stadium, Evanston, Ill., by 7 to 0 in 1928. It also is the third game between the Buckeyes and Wildcats, who started their football relations in 1895 when Ohio State won by 8 to 6. In 1919 Ohio State defeated Kentucky 49 to 0.

The Buckeyes, coached by Francis Schmidt, lost only one game during their 1934 campaign, when Illinois gained a 14-to-13 edge in a Big Ten encounter. In a nationwide poll of 250 sports writers and coaches Ohio State was ranked with Minnesota and Alabama as one of the three outstanding teams in the nation during 1934. The Buckeyes scored the only victory gained against Colgate during the season.

Kentucky still has one open date on its schedule to fill, Oct. 26. It is likely that this date will be closed with some team which Kentucky figures will not give it much trouble, since the date falls in the hardest part of Kentucky's Southeastern Conference campaign.

Kentucky's schedule as it stands today follows:

- Sept. 28—Washington & Lee at Lexington
- Oct. 5—Xavier at Cincinnati.
- Oct. 12—Ohio State at Columbus.
- Oct. 19—Auburn at Montgomery.
- Oct. 26—Open.
- Nov. 2—Alabama at Birmingham.
- Nov. 9—Florida at Lexington.
- Nov. 16—Tulane at New Orleans.
- Nov. 28—Tennessee at Lexington.

In addition to Kentucky, Ohio State will also play Drake Oct. 12, Northwestern Oct. 19, Indiana Oct. 26, Notre Dame Nov. 2, Chicago Nov. 9, Illinois Nov. 16, Michigan Nov. 23. The Kentucky, Drake, Northwestern, Notre Dame and Illinois games are at Columbus.

## MOST VALUABLE PLAYER

SHELDON WAGNER

## SHELDON WAGNER VOTED MOST VALUABLE PLAYER

Sheldon "Hans" Wagner, varsity tackle on the University of Kentucky football squad, recently was voted the most valuable man on the 1934 eleven by other members of the grid squad. Wagner, who is a senior, was outstanding in all the Wildcats' hardest games this season and was given honorable mention on many all-star southern teams and similar recognition on some all-American groups.

The football star, whose home is in Bellevue, is a candidate for a bachelor of arts degree next June, but will return to the University again next fall to continue his law course.

## KERCHEVAL TO RESUME CLASSES AT UNIVERSITY

Ralph Kercheval, former University of Kentucky football star, who has been playing with the Brooklyn Dodgers of the National Professional Football League, has returned to Lexington after an outstanding season in the pro circuit. Kercheval will re-enter the University for the spring semester.

Kercheval and Beattie Feathers, the latter of the University of Tennessee, were the best first-year men in the pro league this season.

the score with only a minute left to play. At this point in the game the officials, who were accused of robbing Kentucky of the game, called a personal foul on Edwards, giant pivot man for Kentucky, and this being his fourth personal so generously contributed by the officials he was automatically taken from the game. The gratis toss was made good and on the next play the N. Y. U. quint took the tipoff and kept control of the ball for the remaining few seconds of the game.

The remainder of the Kentucky schedule is as follows:

- Jan. 26—Tennessee at Lexington.
- Feb. 1—Alabama at Birmingham.
- Feb. 2—Vanderbilt at Nashville.
- Feb. 5—Xavier at Cincinnati.
- Feb. 9—Ga. Tech at Lexington.
- Feb. 11—Alabama at Lexington.
- Feb. 13—Mich. State at Lansing.
- Feb. 16—Tennessee at Knoxville.
- Feb. 22—Creighton at Lexington.
- Mar. 2—Vanderbilt at Lexington.
- Mar. 7—Xavier at Lexington.

### EDWARDS LEADS STATE COLLEGE SCORERS

LeRoy Edwards, University of Kentucky center, scored enough points against the University of Chicago and New York University last week to send him far out into the front in the race for high point honors among the players of Kentucky major college teams. In five games the Wildcat sophomore pivot man has made 80 points, an average of 16 a game.

Three players, Riggs Sullivan of Centre, Tom Green of Georgetown College, and Davis of Union, are tied for second place far behind the leader. Each has scored 44 points, Sullivan's 20 markers against Transylvania bringing him to the 44 point total in four games. Green and Davis each have played in five tilts.

Phillips of Murray and Hardin of Western are close behind with 43 and 42 points respectively. Phillips, who scored 12 points against Howard College, Tuesday night, has played in but three tilts, while Hardin has taken part in four.

Edwards' 26 points against Chicago is the highest total registered

by an individual in a single game so far this year. The same man's 22 points, made against Oglethorpe, is the second highest, while Sullivan's 20 against Transylvania gives him third place in this respect.

### "BIG BLUE" WINS TWO MORE EASY CONTESTS

As the Alumnus goes to press, the University of Kentucky's great basketball team has added two more victories to its record for the current season. On Friday and Saturday, January 18 and 19, it defeated Tulane in two games by top-heavy scores. In each game Coach Rupp used his entire squad, and showed that he has plenty of reserve strength.

Kentucky has now won seven out of eight games played, the only loss being the much-discussed one point defeat at the hands of New York University at Madison Square Garden.

In their next game, scheduled for January 26, the Wildcats will meet Tennessee at Lexington.

John Fox, Jr., noted Kentucky author and native of Bourbon county, was the subject of two broadcasts emanating from the University of Kentucky studios of WHAS, Louisville, November 28 and December 12.

The University is represented with another first class basketball team, as shown in their first six games of the 1934-35 season. The Wildcats have won five and lost one out of these six games played to date. The loss was to N. Y. U. by a score of 23-22 in a rough game played at Madison Square Garden before 16,539 howling fans.

The Ruppmen opened the season with a decisive victory over the Alumni. Following the Alumni tilt the Cats rolled up a total of 81 points in their next game, which was with the Stormy Petrels from Oglethorpe College. The Petrels were able to score only 12 points against the powerful defense displayed by the Cats.

Leaving the home court for the first time this season the Kentucky quint journeyed into the deep south and into Huey Long's state of Louisiana where they took two games from the Green Wave of Tulane University at New Orleans by scores of 36 to 9 and 52 to 12. The Cats' next victim was the University of Chicago who bowed by a 42 to 16 count.

Then came the much talked of N. Y. U. game at New York. The Cats led throughout the greater part of the last half and were out in front by a 22 to 18 count with but only four minutes remaining in the game. The Eastern City lads came through with two field goals to tie

**A CENTRAL HEATING PLANT FOR THE UNIVERSITY OF KENTUCKY**

(Continued from Page Three)  
with a second-hand gasoline un-loader. Three cars per week are handled by two trucks and three men. Sometimes it is necessary to employ more trucks and labor to save demurrage when three cars are delivered at the same time. After the coal is delivered these trucks and men must visit each boiler room and remove ashes to the dump. The balance of their time is used up in general trucking and hauling. This arrangement is a great improvement over the old system of contract hauling which was in force until three years ago. The actual cost per ton from siding to bin is just half of what it formerly was.

The heating season usually lasts about 32 weeks. After it is definitely over the job of shutting down all these small plants and getting them ready for the next winter is in order. Scattered as they are over an area of approximately 150 acres of ground merely adds to the difficulty and cost of proper maintenance. This job usually keeps all hands busy well into August with very little time left for anything else.

Under present conditions heating is not entirely satisfactory except in buildings where two firing shifts are maintained, such as, Girl's Dormitories, Men's Dormitories, Library, and McVey Hall. In all other boiler rooms one man is responsible for day firing, whether it be the janitor or a full time fireman. Anyone who has ever fired a furnace at home knows that somebody has got to get up pretty early in the morning to fire the furnace if the house is expected to be comfortable by 7:45. As the weather gets colder it means earlier and later firing. So as a consequence, firemen are required to put in long hours. In these days with increased use of buildings at night the fireman is often called on to exceed the limit of physical endurance with no extra pay. A thing of this kind breaks down physical resistance and makes him easy prey to diseases of all kinds and in a body of 22 men somebody is bound to get sick before the winter is over. Last year we had seven off sick at one time, and then wasn't it a job to keep things going to the full satisfaction of everybody.

A central heating plant can be built for less money than is now tied up in boiler rooms, coal bins and smoke stacks. From now on every time a new building is built with separate boiler room approximately 4 to 9 per cent of the total cost must go into these things. For example, there is talk about a much

needed Student Union Building. A structure of this kind would cost approximately \$350,000. A separate heating plant for a building of this kind would be similar in size to the one now in McVey hall. This plant actually cost \$25,132, which was 8.6 per cent of the total cost of the building. Therefore, from 24 to 27 thousand dollars would have to be set aside for the heating plant, and all that goes with it.

To gain a clearer picture of valuations, cubage and floor areas tied up in existing heating plants, a comparison is drawn between them and the new Agricultural Engineering building.

**Present Boiler Rooms**

1. Cubic Contents cf. 350,000
2. Total Floor Area, Sq. ft. 24,000
3. Total Cost Space \$74,564

**Agri. Engineering Building**

1. Cubic Contents cf. 399,000
2. Total Floor Area, Sq.ft. 23,000
3. Total Cost Space \$75,244

Add to this boiler room cost to the following:

1. Boiler Room Cost \$74,564
2. Boilers, pumps, stockers, etc. 106,000
3. Smoke stacks 17,540

Total Cost of Existing Boiler Plants ..... \$198,104

A central plant would release valuable space enough to be the equivalent of an additional building. Higher operating efficiencies would mean a large saving in coal. Firing labor costs would be materially reduced; a considerable sum could be saved on coal and ash handling, the problem and cost of proper maintenance would be re-

duced. The bothersome and expensive smoke nuisance would be eliminated for all time.

The College of Engineering would be greatly benefited through the use of such a plant for laboratory purposes. Satisfactory heating throughout the season would eliminate a lot of complaints and be more healthful for all concerned. Then there are a host of intangible values accruing that are difficult to compute.

Central heating would eliminate one of the most serious objections to the present system and that is coal dust and ashes. This item alone is worthy of special consideration. Each year 3600 tons of coal is dumped into University buildings and fully 250 tons of ashes and cinders are shovelled into cans and hauled away to the dump. In several of our most important buildings the work of daily cleaning is almost doubled during the heating season. It is impossible to prevent this microscopic dust from finding lodgement in all parts of a building. This is especially true in such buildings as the Women's Residence halls and the Library. Much ingenuity is required to prevent things from being much worse but like every struggle, when the going gets too tough somebody is bound to either get careless or quit trying altogether and then things are really in a mess. The average home fired heating plant and basement will bear witness to this as a fact.

As has been said, the University owns its own railroad siding into the Service Building. The central plant could be very easily built at this point eliminating the necessity of a boiler house at this time. With

the possibility of continuance of PWA in 1935, provision ought to be made for a loan and grant sufficient to build the plant. The annual savings accruing from a more efficient set-up will safely amortize the loan. The salvage value of boiler room equipment now on hand would go a long way toward reducing the principal. And after all is said, most anyone who is familiar with the situation will agree that in this respect the University is somewhat behind the times and it appears illogical and wasteful to continue longer the present system without comprehensive modernization.

In conclusion, the writer wishes to quote a paragraph from Professor O'Bannon's letter to President McVey last year on the subject of central heating:

"Years ago the University got off to a good start by building the little central plant behind the Administration Building and this plant has undoubtedly served its purpose well. But no provision was made for future growth of the University with the result that as other buildings were added these had to have their own heating plants. A central heating and power plant for the University has been a live project for over twenty-five years and few have ever questioned the desirability of the plant and its economic value. But we have always needed so many other things that the idea of a central plant has been forced in to the background. I believe the present is a wonderful opportunity to modernize the University in this respect, especially since it not only means added convenience for the University, a saving to the tax payers by reduced annual costs and an opportunity of helping the needy."

**LOYALTY FUND DRIVE NETS \$220.00**

The Alumni Loyalty Fund drive, staged annually for the benefit of the Alumni Association and the Student Loan Fund, brought in many more contributions last April than it had before realized. The total amount was \$220.15, half of which was given to the Student Loan Fund. It was the second time that the drive had been made and it is believed that it will be more successful each year, as alumni realize that the money is used for the benefit of the Association and for students who cannot receive an education without some aid from the University.

A letter was sent out by Dr. Frank L. McVey, president of the University, to all graduates asking them to contribute any amount from \$1.00 up. The response, while

not large, was very helpful and enabled the alumni office to go on with its work. Another such drive will be made next April, when all Kentucky graduates will be contacted again.

Those who contributed to the Alumni Loyalty Fund were:

Class	Name	Amt.

**SHROPSHIRE GRANTED SIX MONTHS' LEAVE**

James S. Shropshire, graduate manager of publications at the University of Kentucky, has been granted a six-months' leave of absence to take up work with the rural rehabilitation program. Mr. Shropshire will maintain headquarters in Louisville, and will travel throughout the state in the work, which has the cooperation of both state and federal educational bodies.

During his absence from the University, Ned Turnbull, Lexington, student business manager of the Kentucky Kernel, semi-weekly student newspaper, and William Dunavent, Lexington, assistant in Mr. Shropshire's office, will handle the work of the publication's office.

STARMAN PHOTO  
DEAN W. S. TAYLOR

#### MID-YEAR GRADUATES TO HEAR DR. TAYLOR

Dr. W. S. Taylor, dean of the College of Education, University of Kentucky, will deliver the commencement address at the mid-year graduation exercises which will be held January 28 at the University. The Rev. Wallace McPherson Alston, pastor of the Maxwell Street Presbyterian Church, will deliver the baccalaureate address January 27 at Memorial hall, on the University campus.

Judge William Watts Blanton, Paris, graduate of the University of Kentucky in 1924, and who received his LL.B. from the same institution in 1926, will be the principal speaker at the annual mid-year commencement banquet to be given Friday evening, January 26, at the University Commons, by the University Alumni Association in honor of mid-year graduates. John A. Whitaker, Russellville, county attorney of Logan county, and also an alumnus of the University, will be the toastmaster at the banquet.

Both young men are prominent alumni of the University and while students were active in student life, having been prominent in many social and scholastic societies.

While in school Judge Blanton was a member of Lamp and Cross, honorary senior society; a member of the SuKy Circle, student pep organization; business manager of the Kentucky Kernel, student newspaper; a member of the Kentuckian staff, and business manager of Strollers, dramatic club. He is a

member of Phi Delta Theta social fraternity.

Mr. Whitaker was also a member of Strollers, the SuKy circle, was managing editor of the Kentucky Kernel, a member of Alpha Delta Sigma, national advertising fraternity, and Sigma Alpha Epsilon, social fraternity.

#### EDUCATORS EXPRESS CONFIDENCE IN DR. SHERWOOD

Confidence in Dr. Henry Noble Sherwood, president of Georgetown College, as a college president and educational leader was expressed by his fellow educators here Saturday, January 12, when they elected him president for 1935 of the Association of Kentucky Colleges and Universities and adopted a resolution condemning the opposition that has developed against him on doctrinal grounds.

Neither Dr. Sherwood nor Georgetown College was named in the resolution, which was directed at the situation that has arisen from the fact that Dr. Sherwood has not been re-baptized in the Baptist faith since an association with the Disciples denomination. The General Association of Kentucky Baptists has demanded that he be re-baptized or resign. Doctor Sherwood has indicated he will do neither and trustees of the college have upheld him.

"We look with apprehension upon the attempt of any individual or group of individuals which seeks to affect in our institutions of higher education changes which are not conducive to good education or which are subversive to educational freedom", read the resolution which was unanimously adopted by the educators. "We condemn such action as unethical whether its source be political, ecclesiastical or otherwise."

The committee on resolutions was composed of Dr. H. L. Donovan, Richmond, president of Eastern Kentucky State Teachers' College; Dr. R. V. Bennett, Winchester, president of Kentucky Wesleyan College, and Sister Mary Ignatius, of Nazareth Junior College.

#### DAVID M. YOUNG STUDIES METEORITES

David M. Young, curator of the geological museum at the University of Kentucky, is making a study of all meteorites which have either fallen or have been found in Kentucky since 1839.

Mr. Young hopes to complete his research soon. He has found that 16 meteorites have been found, three of which have been seen falling, since 1839. The first one seen was in that year, and the last one seen fell in 1929.

#### Receives Honors

DR. FRANK L. McVEY

#### HONORS CONFERRED ON PRESIDENT McVEY IN THE LAST TWO YEARS

Appointed by the Governor to serve as member of the Kentucky Educational Commission which reported to the Legislature last January, 1934.

Elected president of the newly formed Southeastern Conference on Athletics, February, 1933. Re-elected February, 1934.

Elected President of Southern Association of Colleges and Secondary Schools, December, 1933.

Elected president of the Association of Land Grant Colleges and Universities, Washington meeting, November, 1934.

Appointed by Governor to serve as a member of the State Planning Board, April, 1934.

Recipient of the Optimists' Cup in recognition of service to the community of Lexington, January, 1933.

Recipient of honorary degree, LL.D., from Berea College, June, 1934.

Programs for the broadcasts from the University studios in connection with WHAS have been issued for the first six months of 1935. They were prepared under the direction of Elmer G. Sulzer, director of publicity.

A copy of these programs may be obtained by sending a request to the secretary of the Alumni Association.

Beauty Queen

MARIAN CONNOR DAWSON

MARIAN DAWSON, FRANK McCOOL ARE HONORED

At the annual Kentuckian dance which was held January 11 in the Alumni gymnasium, Miss Marian Conner Dawson, Owingsville, Ky., a member of Kappa Kappa Gamma sorority, was chosen 1935 beauty queen.

The attendants of Miss Dawson in the order of their selection were Elizabeth O. Jones, Lexington; M. Barbara Smith, Chicago, Illinois; Anne Krafft, Anchorage, and Lillian Holmes, Lexington.

Frank McCool of Kosciusko, Miss., a member of the varsity football team and Pi Kappa Alpha social fraternity was selected the most popular man on the campus.

Each of the 19 nominees presented themselves on the stage for a stated interval during which time the committee of nine judges composed of members of the faculty and student body made their selections for the beauty queen and her attendants. The identity of the judges remained unknown until the completion of the contest. The judges for the contest were R. D. McIntyre, Frank Fowler, William Ward, University faculty members, and Waller Hunt Jr., Henry McCown, J. B. Croft, John F. Day, Bob Hatton, and Armand Chiappori, students.

After the queen and her attendants had been chosen, the most popular man was elected. All persons holding tickets to the dance were allowed to vote in this election.

The contest was arranged and directed by Cameron V. Coffman, Lewisburg, West Virginia, editor of the 1935 Kentuckian, University year book, and James Miller, Henderson, business manager. The pictures of the beauty queen and her attendants will appear in the 1935 Kentuckian.

The other nominees for the position of beauty queen were Martha Ammerman, Mayme Maddox, Dorothy Nichols, Eliene Munson, Winnie Beverly "Sis" Tate, Eloise Carrel, Frances Ward, Sarah Slack, Dorothy Broadbent, Martha Vass, Marjorie Crowe, Scotty Chambers, and Katherine Werst.

Robert Hannah, John F. Day, and Jack Crain were the other candidates for most popular man.

INCREASE IS SHOWN IN LIBRARY VISITORS

An estimate of attendance in the various reading rooms and studies on the campus of the University of Kentucky, taken during the week of December 9 to 15, shows that a larger number of persons are using the library than at any time since the occupation of the new library building in 1931.

Most Popular Man

FRANK McCOOL

A total attendance of 10,240 was recorded for the week of December 9 to 15, an average of 1,462 daily for the general library. The daily average for the five full working days was 1,664. Wednesdays are the busiest days for libraries, 1,786 persons having visited the University library on Wednesday of that week.

The highest attendance figure up to this date was 18,200 in the week of November 14 to 20, 1932. The daily average for that period was 2,171. Also 2,152 people visited the periodical reading room in one week and 387 used the browsing room.

UNIVERSITY ENROLLMENT SHOWS SUBSTANTIAL INCREASE

(Continued from Page Seven) a distinct contribution to the University, by telling prospective students of the advantages to be found on the campus, by suggesting to others that work may be taken by extension or correspondence, or by simply telling some person of the many ways in which the University is rendering service to the people of Kentucky.

Whether or not the student body increases both in numbers and in quality during the first semester of next year will depend in large measure on what the alumni say and do during the months to come.

KENTUCKY GRADUATE IS NOW DIETITIAN

Specializing in foods and nutrition while in college gave Miss Virginia Newman, formerly of Lexington, the fundamental training necessary to become a hospital dietitian. She was graduated in home economics from the College of Agriculture, University of Kentucky, in 1925.

Following graduation, she was student dietitian in Christ hospital in Cincinnati. She then was appointed assistant dietitian in the Philadelphia General hospital. Later she was dietitian at the Woman's hospital in Philadelphia, and then at Southhampton hospital in Long Island, going therefrom to her present position as assistant dietitian at Beth Israel hospital, Newark, N. J.

KENTUCKY KERNEL SENT TO MEMBERS OF ASSOCIATION

Through the cooperation of the University, the Alumni Association sent the Kentucky Kernel to members of the Association during the football season. It was decided that as the Kentucky Alumnus was published only quarterly members would not get detailed news of the Wildcats until after the season was closed. The September issue of the Alumnus was omitted, and ten issues of the Kernel, one after each game, were mailed out, thus enabling the Wildcat followers to keep up with the team.

### WILDCATS DEFEAT CHATTANOOGA

Coach Adolph Rupp's Kentucky Wildcats swept to another decisive victory January 14 when they ran roughshod over the University of Chattanooga quintet, to win 66-19, in the Alumni gym. With Dave Lawrence and Big Ed Edwards scoring almost at will, the Kentuckians left no doubt of their superiority in the minds of the 2,500 spectators.

With the first team in the contest, the 'Cats attack clicked in fine fashion, but it faltered slightly when the second team was inserted midway in the first period. The defensive play of Anderson, Donohue, and Goforth was a feature as was the general play of Garland Lewis.

Between the halves of the game a live wildcat was carried out and exhibited to the crowd by members of SuKy. Its appearance caused a vociferous outburst of enthusiasm from the fans.

Soon after the final half began, Garland Lewis took a neat pass from Ellington to score on a crip. Dave Lawrence made two fouls before he was removed in favor of Carlisle. The Moccasins made their best bid at this time when they counted on long shots by Frumpkin, Klein and Richards and a pair of fouls by Gooden to boost their total to 14.

Edwards was sent back into the game in place of Carlisle and he immediately rebounded two shots from directly under the hoop. Lawrence reentered the contest and mainly through the combined efforts of Edwards and Lawrence, the 'Cats score was raised to 50. Coach Rupp replaced his tiring second team with the veterans with only four minutes remaining. In the last few minutes, the regular team ran up 15 points with what seemed like effortless ease. The whole attack functioned better at this time than at any time during the game.

Bewildering the Moccasins with their swift attack the Cats opened their scoring thirty seconds after the fray began, as Big Edwards cashed in on a free throw. Then Lawrence, Edwards, and Lewis began hitting from all sides before the visitors were able to count a point, when Klein, their lanky center, scored from the foul line with about seven minutes gone.

The work of the Big Blue ball club did not seem to suffer any from their setback at the hands of N. Y. U. last week, and they worked like a smoothly oiled machine from the outset. Captain Dave Lawrence led the Cat scorers in the

DEAN MELCHER

Dean C. R. Melcher, professor emeritus of German, has been assigned by Dr. Frank L. McVey, president of the University, the special task of securing information concerning alumni.

Any alumni who have made any changes since last giving in their address to the Alumni Association should write to Dean Melcher telling him of what experiences they have had, and how they arrived where they are now.

first half with six field goals for a total of twelve points; while Edwards counted 10 points, and Lewis six. Coach Adolph Rupp removed Edwards and Anderson from the floor with almost ten minutes remaining of the initial period, but the presence of the subs in the lineup did not seem to affect the playing of the team at all, as they continued to bombard the hoops for basket after basket.

Chattanooga counted only once from the field; on a long heave by Ring, Moccasin guard; while Klein made three gratis shots to complete the enemy total of five, at the end of the half. So tight was the Cat defense that the opposing team could not get in for close shots and could do little good from far out on the court. The half ended with the Wildcats on top 32-5.

### KENTUCKY KERNEL IS PLACED FIRST

Morehead, Ky., Dec. 8 (AP)—The Kentucky Intercollegiate Press Association in its annual fall session here today went on record as ap-

proving the editorial stand of Jess H. Cutrer, editor of the Reveille, student publication at Louisiana State University, regarding the censorship of the Louisiana State University press.

By a unanimous vote the delegates from eight Kentucky colleges approved the resolution, which was telegraphed to the Louisiana student over the signature of Gibson Prather, editor of the Eastern Progress, Richmond, and president of the association.

The K. I. P. A. also commended a resolution recently passed by the Kentucky Press Association defending press confidences. It was an outgrowth of the jailing of Wesley Carty and Jack Durham, correspondents at Danville.

The University of Kentucky Kernel nosed out the College Herald of Western State College and the Trail Blazer, Morehead College publication, for first position in the judging of various types of stories and articles submitted to J. Wymond French, director of journalism at the University of Indiana. The Kernel made a total of 19, only one more than Western and three more than Morehead.

The Kernel scored first place on the best news story with the Georgetownian, Georgetown College, second. The Kernel came first in sports and the College Heights Herald second. The Eastern Progress captured first position on editorials and the Trail Blazer second. The Trail Blazer also was second on feature articles, with the Centre College Cento grabbing first place.

Union College, Barbourville, was officially accepted as a member of the K. I. P. A. The University of Louisville, also an applicant, was invited to the spring meeting, which will be held at Murray State College in April. The application will be acted on then when officers of the association are elected.

### SCHEDULE OF SUNDAY AFTERNOON MUSICALES

January 27—University Baccalaureat 3:30 p. m.

February 3—A program featuring University Radio Artists.

February 10—University Men's Glee club, Mrs. W. H. Hansen, soprano, soloist

February 17—University Philharmonic orchestra, Carl Lampert, conductor

February 24—Irene Williams, soprano, New York City

March 3—University Concert Band, John Lewis Jr., conductor

March 10—University Girls' Glee club, Mildred Lewis, director; Mrs. Eugene Bradley, pianist, soloist

*You'll Have  
a Profitable Time --  
and a Good Time, too!*

Before you decide where to go—or whether or not to go—to school this summer, we'd like to send you information about the 1935 Summer Session at the University of Kentucky.

A complete program has been arranged in all departments, for both graduate and undergraduate students. In addition, special courses have been planned to meet the specific needs of various groups.

All required courses for teachers' certificates are offered, of course, and with the new certification laws going into effect September first, this summer is an ideal time for teachers to add to their qualifications.

All work and no play makes a dull summer session, so we've arranged an attractive program of extra-curricular activities.

The cost? Much less than you'd expect. Dormitory rooms are available at reasonable prices, special railroad rates have been secured for students and dependent members of their families.

The first term, June 10 through July 13; the second, July 15 through August 17. Come for either or both and spend an enjoyable summer on the ninety-four acre campus of your own University, located in the heart of the blue grass country.

You'll have a profitable time, and a good time, too!

*A man and his wife  
who had just returned from a  
round-the-world cruise spoke of  
Chesterfield as "an international  
cigarette."*

*It means something*

... that Chesterfield Cigarettes are on sale in 86 countries all over the world.

It means something that Chesterfields may be purchased on nearly all ships and at almost every port.

It means that for a cigarette to enjoy such popularity, it must have merit. We do our level best to make Chesterfield as good a cigarette as can be made.

*Smokers say . . .  
in almost every language*

*they Satisfy*

Above—Vacuum tin of 50  
—air tight—water tight—  
fully protected even if sub-  
merged in water.

Packages of 20 wrapped in  
Du Pont No. 300 Cello-  
phane—the best made.
