"The cold war is the real war front - a surround - involving everybody - all the time - everywhere. Whenever hot wars are necessary these days we conduct them in the backyards of the world with old technologies. These wars are happenings, tragic games. It is no longer convenient, or suitable, to use the latest technologies for fighting our wars, because the latest technologies have rendered war meaningless. The hydrogen bomb is history's exclamation point. It ends an age-long sentence of manifest violence!"

McLuhan
