

A. and M. College of Kentucky
May 18, 1898.

The faculty meet in the President's room
at 3 pm

Present: Pres. Patterson, Profs. Kastle, Matthews, Miller
W.K. Patterson, Keuce, Puyor, Wernicke,

The minutes of the previous meeting
were read for information.

The proposed Schedule for the Scientific Course,
a copy of which is attached hereto, was
discussed and recommended to the Board
of Trustees for adoption.

Prof. Wernicke submitted the following as
a report of a Special Committee.

1 That no student shall be considered as
belonging to a ~~given~~ class, unless he
takes at least three studies selected in
that class or higher.

Example: No student is a sophomore unless
he takes 3 studies classed in the sophomore or
junior year.

2 No student shall pass into a higher class
while he has to make up studies required, in
his case, in the preceding year.

Example a sophomore will remain a sophomore
as long as he has failed to complete his freshman
studies.

3 Students may be permitted, by the deans
of their courses and the Professors with
whom they take their major studies, to register
for studies not more than one year in
advance of their classification.

Example: a sophomore may register for junior
but not for Senior studies.

4 as there will be a discrepancy in the future between the division of time in the college and Academy respectively, the grades which any Academy students may make in freshman studies shall only be recorded on the books of the College proper and counted with the other freshman grades of the student (which he may make during the following year)

On motion the foregoing resolutions were approved and recommended to the Board of Trustees for adoption.

A. J. Jarrett,
James H. Feltner
President

V. E. Macey,
Secretary
