

6, Clifton Place
Hyde Park

W.

April 14

My dear Sir,

The pressure on the organs
of the brain has been so unusually
heavy for the last 12 months
that I have been unable to do
anything with your Paper. The
quarter of the Magazine is
written by regular contributors
and the remaining quarter
given but such opportunities

Wm. Lloyd Garrison
No. 25
1836

for many subjects which
compete for treatment. I

am quite aware of the importance
of the subject which I have mentioned

I will send you papers
as soon as I possibly can

I can say no more

faithfully
yours

J A Fendler
