THE MOLT,
SALCOMBE.

Monday

Dear Mr. Botter

I would have written before
in answer to your kind letter
but the great photographing
business was only accomplished
today - it would have been put
off still longer only we wished
to send you the photographs
before you leave England as
you are so kind as to wish
for them - we hope to have them

in about a week & will need
them, as I send this letter,
to the Buckingham Palace
Hotel for I do not know
your Yorkshire address - please
however do not acknowledge
them till you get home
because we shall be so anxious
to know about your cropping -
- we took the photographs
with pride that the 'Infanta's'
profile was wanted for a

medallion with raised her in
his estimation - and this
afternoon I am going to
impress the Salcombe doctor
with the magnetism & hot
water treatment - so sorry
to your visit we are in a
position to astonish Salcombe
with quite new ideas -
Thank you so much for
the pamphlet - I think
as you have written my name

received my regrets at you
going away that hot day
without any fruit - the news
so that today the flowers thus
being at last over we are
rich in fruit of all kinds -
rather too rich I thought at
Cumburn when two little school
boys who came to Cumburn with
us ^{eat} ate so much & such variety
that I thought they ^{w^d} have
the cholera - one of them a
very solemn little fellow crossed
me by reminding me that it

w^d not be my fault as I had
warned them - They leave now
gone to ride the celebrated
donkey - so I may hope the
bad effects of the fruit may
be averted by their being
rich without the hot water
remedy - The donkey came
just after you left with a
saddle which must have
been made of an elephant
I think - & it is a very small
donkey - so it looks too
ridiculous - The 'sweet Jupa'
