My dear Professor

Thank you  
very much for your Paper  
on Browning. Mr. Benson sent  
it me some time ago, & our  
printers have it to reprint as  
an Appendix to our Papers, for  
they can do it much cheaper than  
the Cambridge printers.

I like your Paper extremely; & all  
our Committee value greatly the  
weight of your opinion. They  
are much obliged to you for  
your permission to include it

in our Society's volume.

You'll like B's new vol., I  
hope. Last Sunday he read &  
I gave out of it to my friend  
Miss Rockford Smith & me.

We thought all full of interest,  
but I win the best. I wrote

the paragraph in Saturday's Acad.

only about the volume.

I'll ask B. about <sup>Guiding</sup> ~~the~~ ~~words~~  
lost words; but I think  
they must be in B's documents,  
because he mentions them in his  
Introduction.

All good wishes to the Society  
& you!

Always yrs
