Dear Mr. Tidman:

I send you a marked sheet, which will illustrate what I wrote you about; I could find them all if I had time. I ~~only~~ sent you the slip to amuse you, and do not think Colletts' offense is serious. Emerson may be the quiet man; perhaps he wrote the notices.

I will send you the photograph in a day or two. The two newspaper cuts you have seen were made from it, and they were horrid, although the picture itself is good. The picture is too large, but it is the only one I ever had taken.

When will I receive a statement ~~to~~ from the "C. T.?"

If I wrote you personally with reference
to it ^{some time ago.} please look
up the letter.

I do not like "The Mysterious"
de Ludo" very well, but I have
commenced a new one which
I will let on. The "Mysterious"
however, will improve on acquain-
tance, and I think it is an addi-
tion to the book line. I will regard
it as a personal favor if you will
criticise to me some of the first
criticisms. Very truly,
~~Yours,~~

E. W. Howe,
