Boston, Oct. 25 '79

Dear Mr. Johnson

The MSS. of the Botanic Garden article has come all right. I can attend to it for a few days, but it will be safe.

I have a letter from Mrs. Foote full of praise of my Leadville article which she says was in the highest degree satisfactory to all the intelligent people of Leadville. Make a note of these & any other praises!

Thanks for printing my "Animals" in the November "Star" number.

Sorry you could not use the "Hatteras" piece. I did not intend it for Bric-a-brac -

Yours cordially
Ernest Ingersoll
