Dear Mr Wilkinson

It is immensely
kind of you to send the original
for my sister's benefit and already
we have had a concert in her
room. It is a lovely instrument and
is just the thing to help her through
the days as she finds it easier to
play than to read. It will be
three weeks or so before she can be
moved, indeed the time is rather
indefinite, but I shall let you
know so that Mr Tull can
come for it, as I am supposing
it is too delicate for me handling
by train. I am asking much

of you, but at any rate you
are giving great pleasure, and I
am very beholden to you.

Yours sincerely
