Captain F. L. Pleadwell  
Commanding  
U. S. Naval Hospital  
Chelsea, Mass.

My dear Captain Pleadwell:-

You are most kind to let me have the opportunity of seeing the original of the Coleridge note. I should not be willing to have it go outside the fireproof limits of the Library, and I am wondering if there mayn't be in the Library some of our Coleridge items which you might be interested to see. I don't want you to bring the manuscript simply for the sake of bringing it, but if I can be of any use in connection with any of our manuscripts, I should be more than glad. I am usually free the latter part of the afternoon except that the afternoons of this week are taken up by committee meetings.

Yours sincerely and  
gratefully,

*J. H. P. Lours*
