

Cambridge, April 18, 1901.

My dear Professor Norton:—

May I take the liberty to send you the confidential letter of our Philosophy Department to the Visiting Committee. I do not send it to you as Overseer, as such you will receive it probably later also. I send it to you now

merely on account of your probable  
personal interest in the plan of an  
Emerson memorial in Harvard. It  
is our hope to have the official dedi-  
cation of Emerson Hall on the 25<sup>th</sup> of  
May 1903, the hundredth anniver-  
sary of his birth.

Very sincerely yours

Hugo Münsterberg.
