My dear Sir

Again it is my pleasure
and office to acknowledge your
kindness for my sister in the
additional sum of which
Mr. Robinson was last night
the bearer to us. my sister was
present I desired me to say
every thing expressive of her
gratitude & I may add too
gratification for though this
is an ordeal by which we are
very sorry to try the kind-
feeling of our friends their
any cheerful acquiescence is

perhaps all the more so that
I never knew anyone so tender
ly put all ideas of self so
entirely out of mind as
I am does, but I have heard
your remarks her resemblance
to her mother to be thank
ing you brings old times so
vividly before me for I form
ed the larger portion of my
younger days at least the
most delightful for the obli
gations conferred on me
at Withers were rooted in
esteem for my father & mother
With best regards to Jacob
for I know not how to
write a more formal one
I am believe me to be

be your obliged & affectionate
Michael Safford
