Dear Sir

I am very to say that  
I cannot help you. I  
have now made my pre-  
liminary study of Deacon's  
& though I know his best  
plays I now look at  
them in the light of  
that you have been to  
Frisch's in the light

They have not helped you

If so I think in your place

I should write to Mr.

Georges Monod, the "Cerchi-

viste" of the Théâtre Fran-

çais in whose province

the thing would directly

lie. I do not know him

personally but his work

is excellent & he knows

the only 10<sup>th</sup> century archi-

ture as few other people

do.

Allow me to express my

satisfaction at the deso-

lute of a study which

Vauban & let me

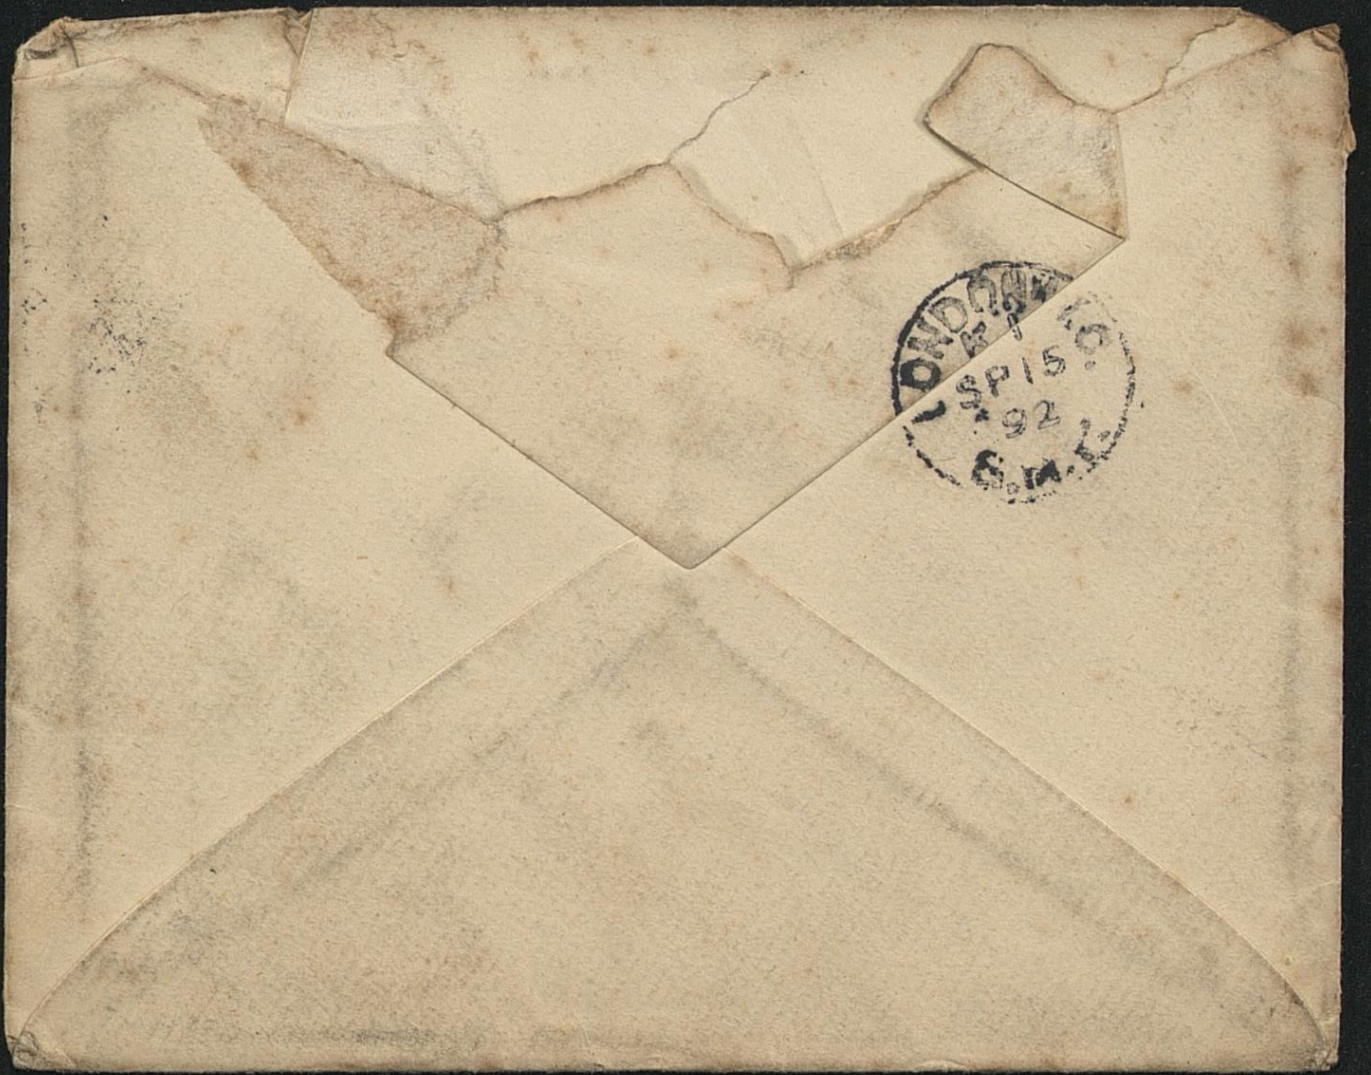

Yours sincerely

Dear Sir

I am sorry to say that I cannot help you. I have never made any special study of Dancourt, & though I know his best plays I never looked into their origins. I presume that you have tried the Freres Peufant [?] & that they have not helped you. If so I think in your place I should write to Mr. George Mouval, the "Archiviste" of the Theatre Francais in whose province the thing would directly be. I do not know him personally but his work is excellent & he knows the early 18th Century drama as few other people do.

Allow me to express my satisfaction at the prospect of a [ ] edition of Vanbrugh & believe me

Yours sincerely

George Saintsbury
