Dear Sir

I am now drawing fast toward the close of my long Brazilian labour. Two chapters more will complete it, & I shall not take my hand from the work till it is done. It may therefore I think not employ some person to make an index - of course the less soon it appears the better - so it be sufficient for purpose of general reference.

Ms. Gladly & Mr. Maguire have proved of singular service. - The information which they have afforded has prevented us from committing some great mistakes which I could not otherwise have avoided. I shall soon return the MSS. & some of the other books.

Please to procure for us for Brazil & Africa, the magazine of the New Methodist, (which is published by Wotton) the Minutes of their Conference, & those of the Irish Conference, if these as I suppose are published. And on my own account let us have the common edition of

Meiners Fables,  
Franklin's life & Correspondence (the new edition)

& John Deaton's life & errors - of which  
I believe has been reported.

- One word more. Will you publish a trans-  
-lation of Algeria's Travels in America  
(N. Mexico & Paraguay.) this October? - The  
book is amusing, & of good repute. The subject  
daily runs likely to attract public attention. I  
trust my brother would like to translate it, - &  
I would add a few notes to point out the errors  
of the original. - & show him what to add  
from the same author works upon the history &  
present of that country.

Yrs very truly

Rowley.

Kewick. 19 Feb. 1819.

Rowley - cannot reply until next week  
I believe has been reported.
