My dear Eric

I don't think this is any good; but I am sending it on, in case. 7 francs a page seems to me to be ridiculous. I'm not good enough at sums to discover what 7 francs a page means, but I should think it was about threepence. I have simply told the man that 'Nochum' is definitely not available, & that I have sent his letter on to you. It seems like a cage.

Yours ever
P.B.

By the way, what about lunching with me either on Weds or Fri next week? Is that possible? I go away to Devonshire for 6 weeks on the 22nd. If you can lunch, please phone me at Gatto's, naming day. Reform Club, I see, in either case, unless another time suits you better.
